REVIEW REPORT
TO THE SHAREHOLDERS OF FAWAZ ABDULAZIZ AL HOKAIR & CO.
(A SAUDI JOINT STOCK COMPANY)

SCOPE OF REVIEW

We have reviewed the accompanying interim consolidated balance sheet of **Fawaz Abdulaziz Alhokair & Co - A Saudi Joint Stock Company** ("the Company") and its subsidiaries ("the Group") as at 30 June 2016, and the related interim consolidated statement of income, interim consolidated statements of cash flows and changes in equity for the three month period then ended and notes 1 to 23 which form an integral part of these interim consolidated financial statements.

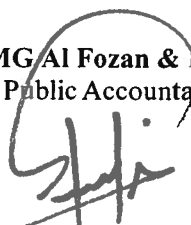

These interim consolidated financial statements are the responsibility of the Group's management and have been prepared by them and submitted to us together with all the information and explanations which we required. Our responsibility is to provide a conclusion on these interim consolidated financial statements based on our review.

We conducted our review in accordance with Auditing Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). A review consists principally of analytical procedures applied to financial data and information and making inquiries of Group's personnel responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion on the financial statements taken as a whole. Accordingly, we do not express such an opinion.

REVIEW CONCLUSION

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

2. BASIS OF PREPARATION

a) Statement of compliance

These interim consolidated financial statements have been prepared in accordance with the requirements of accounting standard on interim financial reporting issued by the Saudi Organization of Certified Public Accountants ('SOCPA'). These interim consolidated financial statements have been presented in condensed form and thus do not include all the information presented in the annual financial statements, therefore, these interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements of the Company for the year ended 31 March 2016.

b) Basis of measurement

The interim consolidated financial statements have been prepared on historical cost basis, except for available-for-sale investments and derivative financial instruments which are stated at fair value; using the accrual basis of accounting and the going concern concept.

c) Functional and presentation currency

These interim consolidated financial statements are presented in Saudi Riyals (SR) which is the functional and reporting currency of the Company. All amounts have been rounded to the nearest Saudi Riyal unless otherwise stated.

FAWAZ ABDULAZIZ AL HOKAIR & CO. AND ITS SUBSIDIARIES
(A Saudi Joint Stock Company)
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE-MONTH PERIOD ENDED 30 JUNE 2016

2. BASIS OF PREPARATION (Continued)

d) Basis of consolidation (Continued)

The principal activities of all of the above subsidiary companies are wholesale and retail trading. Indirect shareholding represents cross ownership among the subsidiary companies.

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases.

All transactions and resulting balances between the Company and the subsidiaries and those arising between the subsidiaries are eliminated in preparing these interim consolidated financial statements. Any unrealized gains and losses arising from intra-group transactions are eliminated on consolidation.

Non-controlling interest represents the interest in subsidiary companies, not held by the Company which are measured at their proportionate share in the subsidiary's identifiable net assets. Transactions with Non-controlling interest parties are treated as transactions with parties external to the Group. Losses applicable to the non-controlling shareholders in excess of the non-controlling interest in subsidiary's equity are allocated against the interest of the Company except to the extent that the non-controlling shareholders have binding obligation and are able to make an additional investment to cover the losses.

e) Use of estimates and judgments

The preparation of consolidated financial statements requires management to make judgment, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected.

3. SUMMARY OF SIGNIFICANT ACCOUNTING AND RISK MANAGEMENT POLICIES

The accounting and risk management policies adopted by the Group for the preparation of these interim consolidated financial statements are consistent with those of the Group's annual consolidated financial statements for the year ended 31 March 2016. These accounting policies have been applied consistently to all the periods presented in the interim consolidated financial statements.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks in current accounts and other short-term highly liquid investments with original maturities of three month or less, if any, which are available to the Group without any restrictions.

FAWAZ ABDULAZIZ AL HOKAIR & CO. AND ITS SUBSIDIARIES
(A Saudi Joint Stock Company)
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE-MONTH PERIOD ENDED 30 JUNE 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING AND RISK MANAGEMENT
POLICIES (Continued)

Trade receivables

Trade receivables are stated at original amounts less provisions made for doubtful debts. A provision against doubtful debts is established when there is objective evidence that the Group will not be able to collect the amounts due according to the original terms of receivables. Bad debts are written off when identified, against its related provisions.

The provisions are charged to interim consolidated statement of income and any subsequent recovery of receivable amounts previously written off are credited to interim consolidated statement of income.

Prepayments and other current assets

Prepayments and other current assets are stated at original amount less allowance for any uncollectible amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

Inventories

Inventories are measured at the lower of cost and net realizable value. Cost is determined using the weighted average method. Cost includes expenditure incurred in acquiring the inventories and other costs incurred in bringing them to their existing location and condition.

Net realizable value comprises estimated selling price in the ordinary course of business, less appropriate selling and distribution costs. Provision is made, where necessary, for obsolete, slow moving and defective stocks.

Investments

Investments in equity accounted investees

Equity accounted investees (the "Investee") are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Significant influence is generally presumed to exist when the Group holds between 20 and 50 percent of the voting power of another entity. Investees are initially recognized at cost, and are accounted for using the equity method. The consolidated financial statements include the Group's share of income and expenses and equity movement of the investees from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in an investee, the Group's carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of an investee. If the investee company subsequently achieves net income equal to the net losses made during the period, the equity method was suspended, then the application of the equity method will resume. The Group's share of profits or losses of the investee companies is recognized in the consolidated statement of income.

Investments - Available for sale

Investments - available for sale principally consist of less than 20% share in quoted and unquoted equity investments, which are not held for trading purposes and where the Group does not have any significant influence or control. These are initially recognized and subsequently re-measured at fair value. Any changes in fair value are recognized in equity as fair value reserve until the investment is disposed. Any significant and prolonged decline in value of the available for sale investments, if any, is charged to the consolidated interim statement of income. On derecognition or impairment, the cumulative gain or loss previously reported in equity is included in the interim consolidated statement of income for the period.

(A Saudi Joint Stock Company)
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE-MONTH PERIOD ENDED 30 JUNE 2016

3. **SUMMARY OF SIGNIFICANT ACCOUNTING AND RISK MANAGEMENT**
POLICIES (Continued)

Investments - Available for sale (continued)

The fair value of investments that are actively traded in organized financial markets is determined by reference to quoted market bid prices at the close of business on the consolidated interim balance sheet date. For investments where there is no active market, including investments in unquoted private equity, fair value is determined using valuation techniques. Otherwise the cost is considered to be the fair value for these investments.

Property and equipment

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the asset. Finance costs on borrowings to finance the construction of the assets are capitalized during the period of time that is required to complete and prepare the asset for its intended use. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the item of property and equipment. All other expenditure is recognized in the income statement when incurred.

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of individual item of property and equipment except for land and capital work in progress. The estimated useful life of property and equipment is as follow:

	<u>Years</u>
Buildings	33
Leasehold improvements	8
Furniture and office equipment	10
Motor vehicles	4

Intangible assets

Goodwill

Goodwill arising from investments in subsidiaries represents the excess of the cost of acquisition over the Company's share in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities at the date of acquisition. Goodwill arising on acquisitions is reviewed for impairment annually or if events or changes in circumstances indicate that the carrying value may be impaired. If any such indication exists the carrying amount of goodwill is reduced to the estimated recoverable amount Goodwill after initial recognition is measured at cost less accumulated impairment losses, if any. Impairment losses on goodwill are not reversed.

Other intangible assets

Other intangible assets represent software implementation cost, key money, trademarks and other deferred charges, and are amortized using the straight line method over the estimated period of benefit. The estimated period of amortization of the principal classes of other intangible assets is as follows:

	<u>Years</u>
Software implementation cost	25
Key money	10
Deferred charges	4

Trademarks are not subject to amortization. These are tested for impairment on annual basis.

POLICIES (Continued)**

Impairment of non-current assets

Property and equipment and other non-financial assets are reviewed for impairment losses periodically or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss, if any, is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. Impairment loss is recognized as an expense immediately in the consolidated interim financial statements.

Accounts payable and accruals

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

Provisions

A provision is recognized if, as a result of past events, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit, will be required to settle the obligation.

Zakat and income-tax

Zakat is provided in accordance with the Regulations of the Department of Zakat and Income Tax ("DZIT") in the Kingdom of Saudi Arabia and on an accrual basis. The provision is charged to the consolidated interim statement of income. Differences, if any, resulting from the final assessments are adjusted in the year of their finalization.

For subsidiaries outside the Kingdom of Saudi Arabia, provision for corporate tax is computed in accordance with tax regulations of the respective countries and charged to the interim consolidated statement of income.

Deferred income tax is provided for foreign subsidiaries, using the liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on laws that have been enacted in the respective countries at the reporting date.

Deferred income tax assets are recognized for all deductible temporary differences and carry-forward of unused tax assets and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax assets and unused tax losses can be utilized.

The carrying amount of deferred income tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Withholding tax, if any, is withheld in accordance with regulations of DZIT.

3. SUMMARY OF SIGNIFICANT ACCOUNTING AND RISK MANAGEMENT
POLICIES (Continued)

Investment properties - Musahimat

Investment properties - Musahimat (real estate contributions) are properties held either to earn rental income or for capital appreciation or for both, but not for sale or use in the ordinary course of business. Investment properties are accounted for under the cost model and are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is computed using the straight-line method over the useful life of 19 years.

Dividends

Interim dividends are recorded as and when declared and approved by the Board of Directors. Final dividends are recorded in which they are approved the shareholders.

Employees' end-of-service benefits

Employees' end of service benefits, calculated in accordance with Saudi Arabian labour regulations, are accrued and charged to the interim consolidated statement of income. The liability is calculated at the current value of the vested benefits to which the employee is entitled, should his services be terminated at the interim consolidated balance sheet date. Foreign subsidiaries have pension schemes for their eligible employees in relevant foreign jurisdictions.

Revenue recognition

Sales represent the earned value of goods supplied by the Group during the period, net of discounts and are recognized when the significant risks and rewards of ownership of the goods have passed to the buyer and the amount of revenue can be measured reliably normally on delivery to the customers.

Dividends are recognized when declared or when the Group's right to receive the payment is established.

Other income is recognized when earned.

Expenses

Selling and marketing expenses are those arising from the Group's efforts underlying the marketing, selling and distribution of the Group's products. All other expenses, excluding cost of sales and financial charges, are classified as general and administrative expenses. Allocations of common expenses between cost of sales and selling, marketing, general and administrative expenses, when required, are made on a consistent basis.

Leasing

Rental proceeds under operating leases are recognized as income on a straight line basis over the term of the operating leases. Rentals payments under operating leases are charged as expenses on the interim consolidated statement of income on a straight line basis over the term of the operating leases.

Foreign currency translation

Transactions and balances

Transactions denominated in foreign currencies are translated to the Saudi Riyals at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the interim consolidated balance sheet date are translated to the Saudi Riyals at the exchange rate ruling at that date. Exchange difference arising on translation are recognized in the interim consolidated statement of income currently.

Foreign currency translation (continued)

Foreign subsidiaries and associates

Assets and liabilities of Subsidiaries and share of net assets of joint ventures and associates, where functional currency is other than SAR, are translated at current exchange rates prevailing at the balance sheet date. Components of equity of Subsidiaries, other than retained earnings, are translated at exchange rates prevailing at the date of occurrence of each component

Statement of income of Subsidiaries and share of results of joint ventures and associates are translated at average exchange rates.

Currency Translation Adjustments ("CTA") arising from translation of foreign operations are recognised in the statement of changes equity. However, in case of a non-wholly owned subsidiary, the relevant proportion of CTA is allocated to NCI within equity.

Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in producing products or services within a particular economic environment that are subject to risks and returns that are different from those of segments operating in other economic environments.

Discontinued operations

A discontinued operation is a component of the Group's business, the operations and cashflows of which can be clearly distinguished from rest of the Group and which:

- represents a separate major line of business or geographical area of operations
- is part of a single co-ordinated plan to dispose of a separate line of business or geographical area of operations; or
- is a subsidiary acquired exclusively with a view to re-sale.

Classification as a discontinued operation occurs at the earlier of disposal or when the operation meets the criteria to be classified as held for sale.

When an operation is classified as discontinued operation, the comparative statement of income is represented as if the operation had been discontinued from the start of the comparative period.

Offsetting

Financial assets and liabilities are offset and reported net in the interim consolidated balance sheet when there is a legally enforceable right to set off the recognized amounts and when the Company intends to settle on a net basis, or to realize the asset and settle the liability simultaneously.

4. **INTERIM RESULTS**

The operations and revenues of the Group are affected by seasonal changes during the year. Therefore, the results of operations for the interim period, the three months period ended 30 June 2016, may not be an accurate indication of the actual results for the full year.

16. ZAKAT AND INCOME TAX

Zakat and income tax are provided for and charged to the interim consolidated statement of income on an estimated basis based on the interim results and the position as at the date of interim balance sheet. Differences resulting from the final annual zakat and income tax calculation are adjusted at year end.

Zakat status of the Company and its local subsidiaries

The Company has filed its zakat returns with DZIT for all years up to and including the year ended 31 March 2016 and received the zakat certificate. The zakat returns for the years from 31 March 2008 to 31 March 2016 are under review of DZIT.

During the year ended 31 March 2012, the Company received zakat assessment for the years ended 31 March 2002 to 2007, which showed additional claims from DZIT amounting to SR 10 million. The Company has objected on certain items amounting to SR 4 million and accordingly submitted a letter of guarantee for the objected amount and received the final zakat certificate for the said years. The Company has also filed an appeal against the remaining amount of SR 6 million which is under process as at 30 June 2015 and the outcome of the appeal cannot be determined at this stage. However, based on the grounds of the appeal, the management and tax advisors of the Company are confident of a favourable outcome and accordingly no provision against this additional liability has been made in these interim financial

Income tax status of foreign subsidiaries

18. RESERVES (Continued)

18.2 Foreign currency translation reserve:

Foreign currency translation reserves represent exchange translation difference in respect of receivables from foreign subsidiaries and net investment in foreign operations, mainly Commonwealth of Independent States (CIS Countries), Spain and Egypt. The Group has reversed the reserves amounting to SR 40.6 million in respect of disposal of a subsidiary and recorded further loss of SR 10.3 million during the three months period ended 30 June 2016 (2015: SR 11.2 million) mainly in respect of receivables from Kazakhstan, Azerbaijan and Georgia subsidiaries. Such receivables are part of the Company's net investment in these subsidiaries. Settlement for such receivables is not planned and it is unlikely to occur in the foreseeable future.

19. EARNINGS PER SHARE

Earnings per share attributable to income from main operations and net income was calculated by dividing income from main operations and net income for the period by the number of outstanding ordinary shares during the period amounting to 210 million (2015: 210 million) shares.

20. SEGMENT INFORMATION
