# INDEPENDENT AUDITORS' LIMITED REVIEW REPORT ON CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS

To the stockholders Takween Advanced Industries Saudi Joint Stock Company Saudi Arabia

### Scope of Review

We have reviewed the consolidated interim condensed balance sheet of Takween Advanced Industries ("the Company"), a Saudi Joint Stock Company, and its subsidiaries (collectively referred to as the "Group") as of June 30, 2016, and the related consolidated interim statements of income for the three and six months period then ended and cash flows for the six months period then ended, and notes 1 to 9 which form an integral part of these consolidated interim condensed financial statements as prepared by the Company and presented to us with all the necessary information and explanations. These consolidated interim condensed financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the Auditing Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). A review consists principally of applying analytical procedures to financial data and information and making inquiries of Company's personnel responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion on the financial statements taken as a whole. Accordingly, we do not express such an opinion.

#### **Review Results**

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying consolidated interim condensed financial statements for them to be in conformity with generally accepted accounting standards in the Kingdom of Saudi Arabia.

### NOTES TO THE CONSOLI DATED INTERIM CONDENSED FINANCIAL STATEMENTS FOR THE THREE MONTHS AN D SIX MONTHS ENDED JUNE 30, 2016

#### 1. ORGANIZATION AND ACTIVITIES

Takween Advanced Industries ("the Company") is a Saudi Joint Stock Company registered in the Kingdom of Saudi Arabia under commercial registration number 2051044381 issued in Al Khobar on 9th Muharram 1432H (December 15, 2010). The Company's share capital is SR 300 million divided in to 30 million shares of SR 10 each.

These consolidated interim condensed financial statements include the financial statements of the Company and its subsidiaries ("the Group") as listed below:

		Effective ownership	
		June 2016	June 2015
•	Advanced Fabrics Factory Company ("SAAF")	100%	100%
•	Ultra Pak Manufacturing Company ("Ultra Pak")	100%	100%
•	Saudi Plastic Packaging Systems (formerly Savola Packaging	100%	100%
	System Company Limited) ("Saudi Packaging")		
•	Al-Sharq Company for Plastic Industries Limited ("Al-Sharq")	100%	100%
•	New Marina for Plastic Industries Company (S.A.E.) ("New	100%	100%
	Marina")		

All of the above subsidiaries operate in Kingdom of Saudi Arabia with the exception of New Marina, which is registered in Alexandria, Arab Republic of Egypt. The principal activities of the Group companies, each of which operates under individual commercial registration, are:

- Production of disposable polystyrene cups, lids and other plastic related products;
- Production of non-woven fabrics;
- Production of PET (Polyethylene Terephthalate) pre-forms;
- · Manufacturing of, and wholesale trading in plastic containers and films; and
- Manufacturing of, and wholesale and retail trading in plastic containers and polyethylene cups, rolls and bags.

The Board of Directors in their meeting held on December 17, 2015 proposed to increase the share capital by Saudi Riyals 600 million by issuance of right shares to its existing shareholders and the Group is in the process of finalizing issue price and completing necessary legal requirements. The rights issue is limited to the shareholders who are registered in the shareholders register at the close of trading on the extraordinary general assembly day, which will be determined later by the Group after obtaining the regulatory approvals.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These consolidated interim condensed financial statements have been prepared in accordance with generally accepted accounting standards in the Kingdom of Saudi Arabia issued by the Saudi Organization for Certified Public Accountants. The attached consolidated interim condensed financial statements and notes should be read in conjunction with the annual audited consolidated financial statements and the related notes for the year ended December 31, 2015. The current period results may not be an accurate reflection of the results for future periods due to any potential impact of the current local and global market and economic conditions.

### TAKWEEN ADVANCED INDUSTRIES AND SUBSIDIARIES

(SAUDI JOINT STOCK COMPANY)

### NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS AND SIX MONTHS ENDED JUNE 30, 2016

The following is a summary of significant accounting policies applied by the Group:

### 2.1 Accounting convention

These consolidated interim condensed financial statements are prepared under the historical cost convention, using the accrual basis of accounting.

### 2.2 Principles of consolidation and business combination

These consolidated interim condensed financial statements incorporate the financial statements of the Company and subsidiaries (mentioned in note 1 above) controlled by the Company up to June 30, 2016. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise to obtain benefits from its activities, generally accompanying a shareholding of more than one half of the voting rights.

On acquisition, the assets and liabilities of a subsidiary are measured at their fair values at the date of acquisition. The non-controlling interests, if any, is stated at the non-controlling interests' proportion of the fair value of the assets and liabilities recognized.

Income and expenses of subsidiaries acquired or disposed-off during the period are included in the consolidated interim statement of income from the effective date of acquisition and up to the effective date of disposal, as appropriate. Total income of subsidiaries is attributed to the shareholders of the Company and to the non-controlling interests, if any, even if this results in the non-controlling interests having a deficit balance.

All significant inter-group transactions and balances between group enterprises have been eliminated in preparing the consolidated interim condensed financial statements.

### 2.3 Business combination and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of non-controlling interests in the acquire, if any. For each business combination, the acquirer measures the non-controlling interests in the acquire either at fair value or at the proportionate share of the acquirer's identifiable net assets. Acquisition costs incurred are expensed.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

Goodwill represents the excess cost of investments over the fair value of the net assets acquired in a business combination. Goodwill is tested annually for impairment and is carried at cost net of accumulated impairment losses. Impairment losses on goodwill are not reversed once recorded. Gains or losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Negative goodwill represents the excess of the fair value of the net assets acquired and the cost of investments in a business combination. Negative goodwill is recognized in the consolidated interim statement of income.

NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS AND SIX MONTHS ENDED JUNE 30, 2016

#### 2.4 Use of estimates

The preparation of consolidated interim financial statements in conformity with generally accepted accounting principles in the Kingdom of Saudi Arabia requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates. These estimates are reviewed on continued basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected.

### 2.5 Revenue recognition

Revenue is recognized to the extent of the following recognition requirements:

- it is probable that the economic benefits will flow to the Group;
- it can be reliably measured, regardless of when the payment is being made; and
- The cost incurred to date and expected future costs are identifiable and can be measured reliably.

Revenue is measured at the fair value of the consideration received or the contractually defined terms of payment. The specific recognition criteria described below must also be met before the revenue is recognized.

Revenue from sales is recognized upon delivery or shipment of products by which the significant risks and rewards of ownership of the goods have been transferred to the buyer and the Group has no effective control or continuing managerial involvement to the degree usually associated with ownership over the goods. Sales is recorded net of returns, trade discounts and volume rebates. Other income is recognized when earned.

### 2.6 Research and development expenses

Research and development expenses are charged to the consolidated interim statement of income in the period in which they are incurred.

### 2.7 Selling and distribution and general and administrative expenses

Selling and distribution expenses principally comprise of costs incurred in the distribution and sale of the Group's products. All other expenses are classified as general and administrative expenses.

General and administrative expenses include direct and indirect costs not specifically part of production costs as required under generally accepted accounting principles. Allocations between general and administrative expenses and cost of sales, when required, are made on a consistent basis.

### 2.8 Cash and cash equivalents

Cash and cash equivalents include cash, demand deposits, and highly liquid investments with original maturities of three months or less.

### 2.9 Accounts receivable

Accounts receivable are carried at original amounts less provision made for doubtful accounts. A provision for doubtful accounts is established when there is a significant doubt that the Group will not be able to collect any of the amounts due according to the original terms of the invoice. Such provision is charged to the consolidated interim statement of income.

### 2.10 Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is determined, for finished goods, on a weighted average cost basis and includes cost of materials, labor and an appropriate proportion of direct overheads. All other inventories are valued on a weighted average cost basis.

Net realizable value is the estimated selling price in the ordinary course of business, less the costs of

### NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS AND SIX MONTHS ENDED JUNE 30, 2016

completion and selling expenses.

### 2.11 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Expenditure on maintenance and repairs is expensed, while expenditure for betterment is capitalized. Depreciation is provided over the estimated useful lives of the applicable assets using the straight line method. Leasehold improvements are amortized over the shorter of the estimated useful life or the remaining term of the lease.

The estimated rates of depreciation of the principal classes of assets are as follows:

	Rate %
Buildings, leasehold and other improvements	2-5
Plant, machinery and equipment	3 - 33.33
Vehicles	20 - 25
Furniture, fixtures and office equipment	6.25 - 33.3

Depreciation for machinery owned by SAAF is determined based on total annual output in proportion to total production capacity.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from continued use of the asset. Any gain or loss arising in the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the consolidated interim statement of income.

#### 2.12 Borrowing costs

Borrowing costs directly attributable to the project under construction are added to the cost of the project until such time as the asset is ready for its intended use. Investment income earned on temporary investment of specific borrowings pending their expenditure on the project under construction is deducted from the borrowing costs eligible for capitalization. All other interest costs are charged to statement of income.

### 2.13 Impairment

### Financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses are recognized in consolidated interim income statement. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized.

### NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS AND SIX MONTHS ENDED JUNE 30, 2016

### Non-financial assets

The carrying amounts of non-financial assets of the Group, except inventories, are reviewed at the date of the consolidated interim financial statements to ascertain whether there is an event or changes in circumstances indicating that the carrying amount of an asset exceeds its recoverable amount. When such an indicator exists, the recoverable amount of the asset is estimated. The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less cost to sell. The impairment calculated as the difference between the carrying amounts and estimated recoverable amount, discounted using an appropriate rate.

A cash generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognized in respect of cash generating units are allocated first to reduce the carrying amounts of the asset affected or the cash generating units a pro rata basis of its assets.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

#### 2.14 Intangible assets

Intangible assets anticipated to provide identifiable future benefits are classified as non-current assets. Intangible assets comprise goodwill, software and system development costs and right of use of leased land. Enterprise resource planning (ERP) system development costs represent costs incurred to implement new system and are amortized over 5-year period from the date it is fully implemented. The right of use of leased land is amortized over the lease period using the straight-line method. For goodwill, refer to business combination and goodwill policy above.

#### 2.15 Dividends

Dividends are recognized as liability at the time of their approval in the Annual General Assembly meeting. Interim dividends are recorded as and when approved by the board of directors.

### 2.16 Foreign currency translation

These consolidated interim condensed financial statements are prepared in Saudi Riyals, which is the functional and reporting currency of the Group. Foreign currency transactions are translated into Saudi Riyals at the rates of exchange prevailing at the time of the transactions. Monetary assets and liabilities denominated in foreign currencies at the consolidated interim balance sheet date are translated into Saudi Riyals at the exchange rates prevailing at that date. Gains and losses from settlement and translation of foreign currency transactions are included in the consolidated interim statement of income.

The results and financial position of a foreign subsidiary having reporting currency other than Saudi Riyals are translated into Saudi Riyals as follows:

- (i) Assets and liabilities for the balance sheet are translated at the closing exchange rate at the date of that consolidated interim balance sheet;
- (ii) Income and expenses for consolidated interim statement of income are translated at average exchange rates for the period; and
- (iii) Components of the shareholders' equity accounts are translated at the exchange rates in effect at the dates of the related items originated.

### TAKWEEN ADVANCED INDUSTRIES AND SUBSIDIARIES

(SAUDI JOINT STOCK COMPANY)

### NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS AND SIX MONTHS ENDED JUNE 30, 2016

Cumulative adjustments resulting from the translations of the financial instruments of the foreign subsidiaries into Saudi Riyals are reported as a separate component of share shareholders' equity.

### 2.17 End-of-service indemnities

End-of-service indemnities, required by labor laws applicable in the Kingdom of Saudi Arabia, are provided in the consolidated interim financial statements based on the employees' length of service.

### 2.18 Accounts payable and accruals

Liabilities are recognized for amounts to be paid for goods received and services rendered, whether or not billed to the Group.

#### 2.19 Zakat and income tax

The Saudi based subsidiaries of the Group are subject to the Regulations of the Department of Zakat and Income Tax ("DZIT") in the Kingdom of Saudi Arabia. Zakat for the Company and its subsidiaries is filed with the DZIT on a consolidated basis by the Company. Zakat is provided for in the consolidated interim statement of income on an accruals basis for the Group. The Zakat charge is computed on the higher of Zakat base or adjusted net income. Any difference in the estimate is recorded in the consolidated interim statement of income when the final assessment is approved, at which time the provision is cleared. The Zakat charge in the consolidated interim condensed financial statements represents the Zakat for the Company and its subsidiaries. Foreign income tax is provided for in accordance with foreign fiscal regulations in which the Group's foreign subsidiary operates.

Deferred tax assets and liabilities are recognised for all temporary differences at current rates of taxation. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available in the near future to allow all or part of the deferred tax asset to be utilized.

### 2.20 Leasing

The Group accounts for tangible assets acquired under finance lease arrangements by recording the assets and the related liabilities. The amounts are determined on the basis of lower of fair market value of assets and present value of minimum lease payments. Finance charges are allocated to accounting period in a manner so as to provide a constant periodic rate of charge on the outstanding liability. Leased assets are amortized over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. All other leases are classified as operating leases. Rentals payable under operating leases are charged to income on a straight line basis over the term of the operating lease.

### 2.21 Segmental reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in producing products or services within a particular economic environment that are subject to risks and returns that are different from those of segments operating in other economic environments.

Computer softwares, system development costs and lease land	24,746	19,540
	348,328	462,291

The Company entered into an agreement with Savola Group on December 30, 2014, for the acquisition of Saudi Plastic Packaging Systems (formerly Savola Packaging Systems Company Limited), a wholly owned subsidiary of Savola Group, along with two wholly owned subsidiaries of Saudi Packaging (Al-Sharq Company for Plastic Industries Limited and New Marina for Plastic Industries Company) for a total purchase price of SR 910 million. As a result of this business acquisition and control acquired through sale agreement, the Company consolidated newly acquired subsidiaries with effect from January 1, 2015. In 2015, Council of Competition Protection approved the proposed acquisition of Saudi Packaging and consequently the consideration of SR 910 million was paid in full. A goodwill of SR 323.58 million was recognized on the acquisition that represented the excess consideration paid over the net book value of net assets acquired, after carrying out valuation of the assets and liabilities as per the requirements of SOCPA.

The fair value of the assets acquired and liabilities assumed under business combination, pursuant to final purchase price allocation are as follows:

ASSETS	Initial fair values SR '000	Final fair value SR '000
Cash and cash equivalents	45,600	45,600
Accounts receivable	237,852	264,115
Inventories	251,659	261,519
Prepaid expenses and other current assets	73,777	65,901
Fixed assets	525,395	616,317
Intangible assets	8,686	8,686
TOTAL ASSETS	1,142,969	1,262,138
LIABILITIES		
Short term borrowings	413,123	413,123
Accounts payable and other current liabilities	205,056	205,056
Current portion of medium and long term loans	26,958	26,958
Medium and long term loans	1,850	1,850
End-of-service benefits	28,733	28,733
TOTAL LIABILITIES	675,720	675,720
NET IDENTIFIABLE ASSETS	467,249	586,418
Acquisition consideration paid	910,000	910,000
Goodwill recognized from business acquisition	442,751	323,582

NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS AND SIX MONTHS ENDED JUNE 30, 2016

#### 4. BORROWINGS

Commercial Ioan – The Group entered into Murabaha Facilities Agreement of SAR 910 million with the Arab National Bank, on behalf of Murabaha Facilities Participants, for financing the acquisition of Saudi Plastic Packaging Systems (formerly Savola Packaging Systems Company Limited) along with its two subsidiaries i.e. Al-Sharq Company for Plastic Industries Limited and New Marina for Plastic Industries Company (S.A.E.). The facility is secured by irrevocable and unconditional assignment of all rights, titles and interests to the sale contract entered into with the Al Othman Agricultural Product and Production Company (NADA), a related party, revenue accounts of the Company and two of its subsidiaries i.e. Advanced Fabrics factory Company and Ultra Pak Manufacturing Company and a corporate guarantee from Al-Othman Holding Company, an affiliate. The loan appraisal fee totaling SR 38.2 million is deferred and being amortized over the term of the loan. During the period, a repayment of SR 45 million was made in respect of this loan. The Group is in breach of certain covenants of long term loan. However, management has taken necessary remedial action including obtaining waiver from the lead bank as on December 31, 2015 and the Group is in the process of obtaining waiver as on period end. Accordingly, this loan continues to be classified as non-current.

Saudi Industrial Development Fund ("SIDF") loans - The Group entered into various loan agreements with SIDF to finance the construction of the plant facilities of the Group. The loans bear no periodic financing charges. The loans are secured by mortgage on the fixed assets of Company and its two subsidiaries i.e. Ultra Pak Manufacturing Company and Advanced Fabrics Factory Company, two parcels of land owned by an affiliate and corporate guarantees from the Company. The loan appraisal fees are deferred and amortized over the term of the loans. During the period, a repayment of SR 2.5 million (2015: nil) was made in respect of these loans. The Group is non-compliant with certain covenants of these loans. Accordingly, an amount of SR 106 million had been reclassified as current portion as on December 31, 2015 and March 31, 2016. During the quarter Company has received the waiver against the application for waiver of non-compliance of financial covenants for the year ended December 31, 2015 made to SIDF and accordingly management has disclosed the loan as current portion and non-current portion based on terms of contract of loan / repayment schedule.

### Short term borrowings

The Group has credit facilities agreements with local commercial banks comprising of overdrafts, short, medium and long term loans, letters of credit and guarantee etc amounting to SR 1,356,625. Borrowings under the facilities bear financing charges at the prevailing market rates and are secured by demand order note, promissory notes and corporate guarantees.

#### 5. EARNINGS PER SHARE

Earnings (loss) per share is computed by dividing net income for the periods by the weighted average number of shares outstanding during three months and six months ended June 30, 2016 totaling 35 million shares (2015: 35 million shares).

Earnings (loss) per share from the continuing main operations is computed by dividing the operating income less zakat and income tax and finance charges for the periods by the weighted average number of shares outstanding.

Earnings (loss) per share from other operations is computed by dividing the other income and gain on investments held for trading for the periods by the weighted average number of shares outstanding.
