## AUDITORS' LIMITED REVIEW REPORT

### **TO THE SHAREHOLDERS OF SAUDI ELECTRICITY COMPANY (A Saudi joint stock company)**

#### Scope of Review

We have reviewed the accompanying interim consolidated balance sheet of Saudi Electricity Company - A Saudi Joint Stock Company (the "Company") and its subsidiaries (the "Group") as at 30 September 2014 and related interim consolidated statements of income for the three months and nine months periods ended 30 September 2014, and interim consolidated statements of cash flows and changes in shareholders' equity for the nine months period then ended. These interim consolidated financial statements are the responsibility of the Group's management and have been prepared by them and submitted to us with all the information and explanations which we required. We conducted our limited review in accordance with the Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). A limited review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

#### Conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

# Saudi Electricity Company (A Saudi Joint Stock Company)

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS – (Unaudited) FOR THE NINE-MONTHS PERIOD ENDED 30 SEPTEMBER 2014

### 1. ORGANIZATION AND ACTIVITIES

The Saudi Electricity Company (the “Company”) was formed pursuant to the Council of Ministers’ Resolution Number 169 dated 11 Sha’ban 1419H corresponding to 29 November 1998, which reorganized the Electricity Sector in the Kingdom of Saudi Arabia by merging the majority of the local companies that provided electricity power services (10 joint stock companies that covered most of the geographical areas of the Kingdom), in addition to the projects of the General Electricity Corporation, a governmental corporation related to the Ministry of Industry and Electricity (11 operating projects that covered various areas in the north of the Kingdom) in Saudi Electricity Company.

The Company was founded pursuant to the Royal Decree No. M/16 dated 6 Ramadan 1420H corresponding to 13 December 1999, in accordance with the Council of Ministers’ Resolution Number 153, dated 5 Ramadan 1420H corresponding to 12 December 1999 and the Minister of Commerce Resolution Number 2047 dated 30 Dhu Al Hijjah 1420H corresponding to 5 April 2000 as a Saudi joint stock company and was registered in Riyadh under Commercial Registration Number 1010158683, dated 28 Muharram 1421H corresponding to 3 May 2000.

The Company’s principal activity is the generation, transmission and distribution of electric power. The Company is the major provider of electric power all over the Kingdom of Saudi Arabia, serving governmental, industrial, agricultural, commercial and residential consumers.

The Company is a tariff regulated company. Electricity tariffs are determined by the Council of Ministers based on recommendations from the Electricity and Co-generation Regulatory Authority (the Authority) which was established on 13 November 2001 according to Council of Ministers’ Resolution No. 169 dated 11 Sha’aban 1419H. The change on tariff was made through the Council of Ministers Resolution Number 170 dated 12 Rajab 1421H and was effective from 1 Sha’aban 1421H corresponding to 28 October 2000 whereby the tariff on the highest bracket was set at a rate of 26 Halala per Kilowatts/hour.

This was further amended by the Council of Ministers in its Decision Number 333 dated 16 Shawwal 1430H, corresponding to 5 October 2009, which granted the Board of Directors of the Electricity and Co-generation Regulatory Authority the right to review and adjust the non-residential (commercial, industrial and governmental) electricity tariff and approve them as long as the change does not exceed 26 Halala for each kilowatt per hour, taking into consideration, among other matters, the electrical consumption at peak times. This tariff was implemented starting 19 Rajab 1431H, corresponding to 1 July 2010.

According to the Company's bylaws, the Company's financial year begins on 1<sup>st</sup> January and ends on 31<sup>st</sup> December from each Gregorian year.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying interim consolidated financial statements have been prepared in accordance with the Standard of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). This standard follows the integral view of interim periods which considers every period in the financial period as an integral part of the financial year. The significant accounting policies adopted in preparing its interim consolidated financial statements, summarized below, are in conformity with those described in the annual audited financial statements for the year ended 31 December 2013.

The significant accounting policies adopted are as follows:

**Accounting estimates**

The preparation of interim consolidated financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current events and actions at the date of the interim consolidated financial statements period, actual results ultimately may differ from those estimates.

**Cash and cash equivalents**

Cash and cash equivalents include cash on hand and at bank balances, time deposits, and other investments which are convertible to cash with maturities of three months or less from the date of acquisition.

**Electricity consumers receivables**

Electricity consumers receivables represent the amount not collected from the consumers at the interim consolidated balance sheet date, and are stated net of the required provision for doubtful receivables where recovery is considered doubtful.

**Inventories**

Generation, transmission, distribution and other materials and fuel inventory are stated at lower of cost or market value and calculated using the weighted average cost, net of provision for slow moving and obsolete items.

Inventory items that are considered an integral part of the generation plants, transmission, distribution networks and other facilities such as strategic and reserve materials, are included in within fixed assets.

**Investments**

Investments in companies' equity

Investments in companies of which the Group hold at least 20% of interest are accounted for using the equity method, whereby the investment is initially stated at cost, adjusted thereafter by the post acquisition change of the Group's share in the net assets of the investee company. The Group's share in the results of these Companies is recognised in interim consolidated statement of income when investees' financial statements are issued.

Investments of less than 20% of share capital of unquoted Companies are stated at cost is considered as fair value. Income from these investments is recognised in interim consolidated statements of income when dividends are received from the investee companies.

Investments held to maturity

Investments that are acquired with the intention of being held to maturity are carried at cost (adjusted for any premium or discount), less any other than temporary decline in value. Such investments are classified as non-current assets with the exception of bonds which mature during the next fiscal year, which are classified as current assets. Income from these investments is recognized in the interim consolidated statement of income when earned.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**Fixed assets**

Fixed assets are stated at historical cost and, except for land, are depreciated over their estimated operational useful lives using the straight line method. Cost includes the cost of acquisition from supplier, direct labor, indirect construction costs, and borrowing costs up to the date the asset is put in service. Costs of fixed assets sold or otherwise disposed off and related accumulated depreciation are removed from the accounts at the date of the sale or disposal. The resulting gain or loss is recognized in the interim consolidated statement of income.

Expenditure for repair and maintenance are charged to the interim consolidated statement of income. Betterments that materially increase the value or extend the life of the related assets are capitalized.

The estimated operational useful lives are as follows:

Buildings	20 to 30 years
Generation plant, equipment and spare parts	20 to 25 years
Transmission network, equipment and spare parts	20 to 30 years
Distribution network, equipment and spare parts	15 to 25 years
Other assets	4 to 20 years

**Impairment of non-current assets**

The Group conducts periodic review of the carrying amount of its non-current assets to determine whether there is any evidence that those non-current assets have suffered an impairment loss. If such evidence exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of that asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. Impairment losses are immediately recognized as an expense in the interim consolidated statement of income.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised recoverable amount, provided that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognized as income immediately in the interim consolidated statement of income.

**Capitalization of borrowing costs**

Net borrowing cost - which represents finance charges on long-term loans and any other finance costs charged to the Group net of any commission income for the period - is capitalized on all significant projects-in-progress with significant amount that require long period of time for construction. The borrowing cost capitalized on each project is calculated using the capitalization rate on the average amounts incurred on each project in progress.

**Government loan with definite payment terms**

The government loan with definite payment terms is recognized at present value using an estimated discount rate for Group's borrowing. The difference between the amount received and the present value is recorded as deferred income (government grant) and presented under the long-term government payables and recognized over the remaining period of the loan against the corresponding expenses.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**Derivative financial instruments and hedge accounting**

The Group uses derivative financial instruments to hedge its cash flow exposures to interest rates. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured for any changes in its fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from the changes in the fair value of derivatives determined as effective cash flows hedges are taken directly to the interim consolidated statement of shareholders' equity, while the ineffective portion of cash flow hedges, is recognized in interim consolidated statement of income.

For the purpose of hedge accounting, hedges are classified as cash flow hedges when hedging exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time, for forecast transactions, any cumulative gain or loss on the hedging instrument recognized in equity is retained in shareholder's equity until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognized in shareholders' equity is transferred to interim consolidated statement of income.

**Accounts payable and accruals**

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

**Provision for employees' indemnity**

Employees' indemnity consists of the following:

Provision for end of service benefits:

The end of service benefits are calculated in accordance with the Labor Law in the Kingdom of Saudi Arabia and charged monthly to the interim consolidated statement of income.

Employees' saving fund:

The Group contributes in saving fund for qualified employees based on approved policy. The Group's share from contribute in saving fund is charged monthly to the interim consolidated statement of income.

**Zakat provision**

Zakat is provided in accordance with the Regulations of the Department of Zakat and Income Tax in the Kingdom of Saudi Arabia. Adjustments arising from final Zakat assessment, if any, are recorded in the interim consolidated statement of income for the period in which such assessment is obtained.

**Statutory reserve**

**Earnings (losses) per share for the period**

Earnings (losses) per share is calculated using the weighted average number of outstanding shares at the end of the period, including government shares. Earnings (loss) per basic share from operating activities is calculated by dividing income (loss) from operations on the weighted average number of shares. Earnings (loss) per basic share from net income (loss) is calculated by dividing net income (loss) on weighted average of number of shares.

**Foreign currency transactions**

Transactions denominated in foreign currencies are translated into Saudi Riyals at exchange rates prevailing at the date of such transactions. Monetary assets and liabilities denominated in foreign currencies at the interim consolidated balance sheet date are translated into Saudi Riyals at the exchange rates prevailing at that date. Any realized or unrealized exchange gains or losses arising from such translations are recorded in the interim consolidated statement of income.

**4. PERIOD ADJUSTMENTS**

The Group's management has made all the required adjustments to the interim consolidated financial statements to present fairly the financial position of the Group as at the end of the interim period and the results of its operations for the period.

**5. SEASONAL FLUCTUATIONS**

The operations and revenues of the Group are affected by seasonal weather changes during the year. Revenues are materially lower during the winter months due to lower consumption of electricity whereas higher revenues are earned during summer months due to the increase in consumption of electricity as a result of the high temperature. These changes are reflected in the financial results of the group during the year. Therefore, the results of operations for this interim period (third quarter of year 2014) may not be an accurate indication of the actual results for the full year.

**13. GENERAL RESERVE**

General reserve consists of the balances of the reserves that were reflected in the consolidated financial statements of the Saudi Electricity Company at the date of the merger, in additions to the collections of surcharge from individuals subsequent to 31 December 2001.

**14. DIVIDENDS PAID AND BOARD OF DIRECTORS' REMUNERATION**

In accordance with the Company's by-laws, dividends of at least 5% of paid in capital, net of reserve, should be distributed to shareholders, with due care to the provisions of the Council of Ministers' Resolution No. 169 dated 11 Sha'aban 1419H, whereby the Government has waived its share from the distributed dividends for a period of ten years from the date of the Company's formation, provided that dividends do not exceed 10% of the par value of the shares. In cases where the distribution exceeds 10% of the shares' par value, the Government's share shall be treated similar to the share of other shareholders. The Government has agreed to extend this waiver for another ten years based on the Council of Ministers' Resolution No. 327 dated 24 Ramadan 1430H.

The General Assembly, in its meeting held on 15 April 2014, approved to distribute of cash dividends for the year 2013 to individuals shareholders amounting of SR 547 million (SR 0.70 per share) representing 7% of the par value per share (for the year 2012: SR 547 million). In addition, the General Assembly has approved in its meeting, Board of Directors' remuneration for the year 2013 of SR 863 thousand from the retained earnings (for the year 2012: SR 919 thousand).

**15. CONTINGENT LIABILITIES**

- (a) There is a dispute between the Company and Saudi Aramco for handling crude oil fees. The disputed amount since the Company's inception on 5 April 2000 to 30 September 2014 amounted to approximately SR 3,953 million (2013: SR 3,578 million). The Company's management believes that there will be no liability on the Company based on the Royal Decree Number M/8 dated 25 Rajab 1415H as this matter was not discussed by the Ministerial Committee formed by the Royal Decree referred to above. Accordingly, the difference has not been recorded in the Company's books. In addition, Saudi Aramco is supplying the Company with light fuel oil rather than heavy fuel oil to one of its stations. This has resulted in an accumulated difference of SR 1,820 million (2013: SR 1,483 million) not accounted for in the Company's books.
- (b) Saudi Aramco has also a claim for the settlement of its share in the annual dividends since inception to 31 December 2013, estimated at SR 2,544 million. The Company believes that Saudi Aramco has no right for this claim during the first 20 years of its formation since it is a wholly owned government agency and accordingly, is governed by the Ministerial Resolution No. 169 dated 11 Sha'aban 1419H and Ministerial Resolution No. 327 dated 24 Ramadan 1430H on extending the Government's waiver of its rights in the profits distributed by the Saudi Electricity Company for another ten years.
- (c) The Company has provided guarantees to some of the commercial banks against its share for financing a loan granted to some of its investee companies. The guarantee amounted to US\$ 14.3 million equivalent to SR 53.4 million as of 30 September 2014 (2013: US\$ 74.5 million equivalent to SR 280 million). In addition, the Company has provided a guarantee for the Department of Zakat and Income Tax amounting to SR 37.5 million (2013: SR 37.5 million).

**17. SETTLEMENT OF THE DISPUTE OVER THE ELECTRIC TARIFF WITH SAUDI ARAMCO**

- (a) The Company provides electricity power to governmental agencies, ministries and Saudi Aramco. The tariff applied are approved by the Council of Ministers and are similar to the tariff applied to other consumers, except for the tariff used for Saline Water Conversion Corporation (SWCC) which is in accordance with a government resolution. As for the residential property of Saudi Aramco, the Company believes that these should be charged the commercial tariff. However, Saudi Aramco has objected to this tariff and is settling the electricity sales for the properties based on the industrial tariff.

The Council of Ministers has issued a Resolution Number 114 on 10 Rabi Al-Thani 1430H to end this dispute and to charge Saudi Aramco on the basis of residential and commercial tariff instead of industrial tariff. The Electricity and Co-generation Regulatory Authority (“the regulator”) will have to specify the residential and commercial enterprises of Saudi Aramco. Accordingly, the Company, Saudi Aramco and the regulator held several meetings to settle this matter where the regulator has specified the disputed residential and commercial enterprises of Saudi Aramco.

The Company has executed the regulator decree number 49/432 dated 8 Jumada Awal 1432H classifying Saudi Aramco electricity consumption tariff starting from 1 January 2012, accordingly, the disputed residential and commercial enterprises mentioned above were identified, and the agreed upon tariff were applied on Saudi Aramco consumption. Further, the Company has also completed the calculation of the previous years’ consumption since date of inception up to 31 December 2011 according to regulator decree mentioned above and has submitted the invoices to Saudi Aramco with total amount of SR 729 million. During the quarter ended 30 June 2013, the Company has completed the reconciliation procedures with Saudi Aramco for these revenues and recognized them as non-recurring income in the interim consolidated statement of income for the period.

- (b) During July 2014, the Company has reached settlement agreement with Saudi Aramco in respect of old outstanding liabilities related to cost of exchanged power for certain locations since 2007. Therefore, the Company has charged additional provisions amounting to SR 292 million as a result of this settlement.

**18. CAPITAL COMMITMENTS**

- (a) These comprise the unexecuted portion – as of the interim consolidated balance sheet date - of capital contracts conducted by the Company for the erection and installation of power plants and other assets approximately amounting to SR 113,829 million (2013: SR 113,863 million) in addition to the future commitments provided by the Company to finance certain investees in the form of subordinate loans or common equity amounting to SR 1,253 million (2013: SR 1,253 million).
- (b) The Company has long-term energy purchase agreements with independent power providers whereby the Company has undertaken to purchase the all energy produced by these providers according to specific terms and prices. These agreements are for periods up to 20 years, and renewable for further periods by mutual consent of both parties.

**19. ZAKAT**

No Zakat is due on the Company for the period ended 30 September 2014 as the net adjusted loss and zakat base is negative. It should be noted that the Company has received the final assessments for the period ended in 31 December 2001 and also for the years from 2002 to 2008 which showed Zakat differences of SR 37.5 million for the period ended 31 December 2001 and the years 2002, 2003 and 2004. The Company filed appeals against these differences which are still pending with the Department of Zakat and Income Tax (“DZIT”). The Company filed its Zakat returns for the years 2009 to 2013 and are still under review by DZIT.
