**INDEPENDENT JOINT AUDITORS' REPORT  
TO THE SHAREHOLDERS OF SALAMA COOPERATIVE INSURANCE COMPANY  
(A SAUDI JOINT STOCK COMPANY)**

**Scope of audit**

We have audited the accompanying statement of financial position of Salama Cooperative Insurance Company – a Saudi Joint Stock Company – (the "Company") as at 31 December 2015, and the related statements of insurance operations and accumulated surplus, shareholders' operations, shareholders' comprehensive income, changes in shareholders' equity, insurance operations' cash flows and shareholders' operations cash flows for the year then ended and attached notes 1 to 26 which form an integral part of these financial statements. These financial statements are the responsibility of the Company's management and have been prepared by them in accordance with International Financial Reporting Standards, the provisions of Article 123 of the Regulations for Companies and the Company's By-laws and submitted to us together with all the information and explanations which we required. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the Kingdom of Saudi Arabia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable degree of assurance to enable us to express an opinion on the financial statements.

**Unqualified opinion**

In our opinion, the financial statements taken as a whole:

- present fairly, in all material respects, the financial position of the Company as at 31 December 2015 and the results of its operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards and;
- comply with the requirements of the Regulations for Companies and the Company's By-laws with respect to the preparation and presentation of the financial statements.

**Emphasis of matters**

We draw attention to the fact that these financial statements are prepared in accordance with International Financial Reporting Standards and not in accordance with the accounting standards issued by the Saudi Organisation for Certified Public Accountants ("SOCPA").

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

**1 ORGANIZATION AND PRINCIPAL ACTIVITIES**

Salama Cooperative Insurance Company ("the Company") is a Saudi joint stock company incorporated in the Kingdom of Saudi Arabia as per the Ministry of Commerce and Industry's Resolution number 1121K dated 29 Rabi Al-Thani 1428H (corresponding to 16 May 2007). The Company is registered in Jeddah under Commercial Registration No. 4030169661 dated 6 Jamad Al-Awal 1428H (corresponding to 23 May 2007).

The Registered Office address of the Company is:

Al Amir Muhammed bin Abdulaziz Street,  
Bin Hamran Center, P.O. Box 122392,  
Jeddah 21332,  
Kingdom of Saudi Arabia.

The objective of the Company is to transact cooperative insurance operations and related activities in the Kingdom of Saudi Arabia. The Company was listed on the Saudi Stock Exchange on 23 May 2007. The Company started its operations on 1 January 2008. The Company is fully owned by the general public and Saudi shareholders.

In 2010, the Company entered into an agreement with Islamic Arab Insurance Company BSC ("the Seller") pursuant to which it acquired the Seller's insurance operations in the Kingdom of Saudi Arabia, effective from 1 October 2009, at a goodwill amount of SR 7,140 thousands, as approved by Saudi Arabian Monetary Agency ("SAMA"). The portfolio valuation date, for the purpose of the transfer, was 31 December 2008. No payment in respect of goodwill has been made till 31 December 2012. The goodwill payments are governed by rules and regulations issued by SAMA in this regard and also subject to SAMA approval. In case the Company is not able to pay the goodwill before the end of 2015, the goodwill will be set off against the amount payable for goodwill. The Company is not expected to fulfil the requirements of SAMA in respect of goodwill payment, before the end of year 2015. The management discussed this matter with the Seller and Seller agreed and relinquished all their rights in respect of goodwill payment. As no amounts were expected to be paid to the Seller, the goodwill amount was offset against the amount payable to the Seller during the year ended 31 December 2012.

**2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*a) Basis of measurement*

These financial statements are prepared under the historical cost basis except for FVIS investments and available for sale investments which are measured at fair value.

*b) Statement of compliance*

These financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS").

As required by Saudi Arabian insurance regulations, the Company maintains separate accounts for Insurance Operations and Shareholders' Operations. The physical custody and title of all assets related to the Insurance Operations and Shareholders' Operations are held by the Company. Revenues and expenses clearly attributable to either activity are recorded in the respective accounts. The basis of allocation of expenses from joint operations is determined by the management and Board of Directors.

The Company presents its statement of financial position broadly in order of liquidity. All financial assets and liabilities except for investments held to maturity are expected to be recovered and settled respectively, within twelve months after the reporting date.

*c) Functional and presentation currency*

The financial statements are expressed in Saudi Riyals, being the functional currency of the Company and have been rounded off to the nearest thousand, unless otherwise specified.

*d) Surplus distribution*

As per the By-laws of the Company, surplus arising from the Insurance Operations is distributed as follows:

Shareholders	90%
Policyholders	10%
	<hr/>
	100%
	<hr/>

If the insurance operations result in a deficit, the entire deficit is borne by Shareholder's Operations.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) *Summary of significant accounting policies*

The accounting policies adopted by the Company for preparation of these financial statements are consistent with those of the previous year except for the adoption of following new standards and amendments to existing standards and interpretations mentioned below which had no significant impact on the financial statements of the Company.

**New IFRS, International Financial Reporting and Interpretations Committee's interpretations (IFRIC) and amendments thereof, adopted by the Company**

The Company has adopted the following amendments and revisions to existing standards, which were issued by the International Accounting Standards Board (IASB) with a date of initial application of 1 January 2014:

<u>Standard/ Interpretation</u>	<u>Description</u>
IAS 19	Amendments to IAS 19 Defined Employee Plan: Employees contributions
IFRS 2	Share based payment
IFRS 3	Business combination
IFRS 8	Operating segments
IFRS 13	Fair value measurement
IAS 16 & 38	Property, plant and equipment and intangible assets
IAS 24	Related party disclosures
IAS 40	Investment property

The adoption of the relevant new and amended standards and interpretations applicable to the Company did not have any significant impact on these financial statements.

**Standards issued but not yet effective**

Standards issued but not yet effective up to the date of issuance of the Company financial statements are listed below. The listing is of standards and interpretations issued, which the Company reasonably expects to be applicable at a future date. The Company intends to adopt these standards when they are effective.

<u>Standard/ Interpretation</u>	<u>Description</u>	<u>Effective date</u>
IFRS 9	Financial Instruments	1 January 2018
IFRS 10 and IAS 28	Sale or Contribution of Assets between an Inventor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)	1 January 2016
IFRS 10 and IFRS 12	Amendments to IFRS 10, IFRS 12 and IAS 28 – Investment entities: Applying the consolidated exception	1 January 2016
IFRS 11	Amendments to IFRS 11 Accounting for Acquisitions of Interests in Joint Operations	1 January 2016
IFRS 14	Regulatory Deferral Accounts	1 January 2016
IFRS 15	Revenue from Contracts with Customers	1 January 2017
IAS 1	Amendments to IAS 1 – disclosure initiative	1 January 2016
IAS 16 and IAS 38	Amendments to IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortisation	1 January 2016
IAS 27	Amendment to IAS 27 Equity Method in Separate Financial Statements	1 January 2016
IAS 16 and IAS 41	Amendments to IAS 16 and IAS 41 Agriculture: Bearer Plants	1 January 2016

The management is currently assessing the implications of adopting the above mentioned standards, amendments or interpretations on the Company's financial statements.

The significant accounting policies used in the preparation of these financial statements are summarized as follows:

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

2) BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) *Summary of significant accounting policies (continued)*

**Insurance contracts**

Insurance contracts are those contracts where the Company (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. As a general guideline, the Company determines whether it has significant insurance risk, by assessing whether an insured event could cause the Company to pay significant additional benefits. Insurance contracts can also transfer financial risk.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during this period, unless all rights and obligations are extinguished or expire.

Insurance contracts are principally divided into medical, marine, property, motor, engineering and accident and liability and are principally short-term insurance contracts.

Medical insurance is designed to compensate policy holders for expenses incurred in treatment of a disease, illness or injury. Medical insurance is primarily offered to corporate customers with a large population to be covered under the policy.

Marine insurance is designed to compensate policyholders for damage and liability arising through loss or damage to marine craft/hull and accidents at sea resulting in the total or partial loss of cargoes. For marine insurance, the main risks are loss or damage to marine craft/hull and cargoes.

Property insurance contracts mainly compensate the Company's customers for damage suffered to their properties. Customers could also receive compensation for the loss of earnings through loss of profit and business interruption. For property insurance contracts the main risks are fire, natural perils, business interruption and burglary.

Motor insurance is designed to compensate contract holders for damages suffered to their vehicles or liability to third parties arising through accidents. Contract holders could also receive compensation for fire or theft of their vehicles. The Company also issues comprehensive motor policies. Various extensions cover natural perils, personal accident benefits and dealer repairs.

General accident insurance includes money, fidelity guarantee, personal accident, jeweler block, jewelry all risks and travel insurance. Liability insurance includes general third-party liability, product liability, workmen's compensation/employer's liability and professional indemnity cover protecting the insured's legal liability arising out of acts of negligence during their business operations.

Engineering insurance covers two principal types:

- (a) "Contractors all risk" insurance offering cover during erection or construction of buildings or civil engineering works such as houses, shops, blocks of flats, factory buildings, roads, buildings, bridges, sewage works and reservoirs.
- (b) "Erection all risk" insurance offering cover during the erection or installation of plant and machinery such as power stations, oil refineries, chemical works, cement works, metallic structures or any factory with plant and machinery. The Engineering line of business also includes machinery breakdown insurance and Business Interruption following machinery breakdown and includes electronic equipment, boiler and deterioration of stocks insurance.

**Cash and cash equivalents**

Cash and cash equivalents consists of bank balances, cash on hand, and investments that are readily convertible into known amounts of cash and have an original maturity of three months or less.

**Premiums receivable**

Premiums receivable are non-derivative financial assets with fixed or determined payments.

Premiums receivable are stated at original invoice amount less an allowance for any uncollectible amounts (impairment). An allowance for impairment is made when collection of the full amount is no longer probable and charged to statement of insurance operations and accumulated surplus. Bad debts are written off when there is no possibility of recovery.

**Deferred policy acquisition costs**

Those direct costs incurred during the financial period arising from the writing or renewing of insurance contracts are deferred to the extent that these costs are recoverable out of future premiums. All other acquisition costs are recognized as an expense when incurred. Subsequent to initial recognition, these costs are amortized on a straight-line basis based on the term of expected future premiums except for marine cargo where the deferred portion is computed based on last three months of the total cost incurred. Amortization is recorded in the statement of insurance operations and accumulated surplus.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

*e) Summary of significant accounting policies (continued)*

**Investments**

All investments are initially recognised at cost, being the fair value of consideration given. Financial assets are initially recognised at fair values plus, in the case of all financial assets not carried at fair value through income statement, transaction costs that are directly attributable to their acquisition.

*FVIS investments*

Investments are classified as Fair Value through Statement of Income (FVIS), if the fair value of the investment can be reliably measured and the classification as FVIS is as per the documented strategy of the Company. Investments classified as FVIS are initially recognised at cost, being the fair value of the consideration given. Subsequently, such investments are re-measured at fair value, with all changes in fair value being recorded in the statement of shareholders' operations and statement of insurance operations and accumulated surplus.

*Available-for-sale investments*

After initial recognition, investments which are classified as "available-for-sale" (AFS) are normally remeasured at fair value, unless fair value cannot be reliably determined in which case they are measured at cost less impairment. Fair value changes are included in statement of shareholders' comprehensive income until the investment is derecognized or the investment is determined to be impaired. On de-recognition or impairment, the cumulative gain or loss previously reported within statement of comprehensive income, is included in the statement of shareholders' operations.

*Investments held to maturity*

Held to maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity dates that the Company has the positive intent and ability to hold to maturity and are classified as held to maturity investments.

Held to maturity investments are initially recorded at cost, being fair value of consideration given. Subsequently these are measured at amortized cost (using effective interest rate) less impairment losses.

Any permanent decline in value of investments is adjusted for and reported in the related statements of insurance operations and accumulated surplus or shareholders' operations as impairment.

**Furniture, fittings and office equipment**

Furniture, fittings and office equipment are measured at cost less accumulated depreciation and any impairment in value. Depreciation is charged to the statement of insurance operations and accumulated surplus on a straight line basis over following estimated useful lives of the assets.

Motor vehicle	5 years
Furniture and fittings	5 years
Computers and office equipment	3 years

The carrying values of furniture, fittings and office equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount, being the higher of their fair value less costs to sell and their value in use.

Expenditure incurred to replace a component of an item of furniture, fittings and equipment that is accounted for separately is capitalised and the carrying amount of the component that is replaced is written off. Other subsequent expenditure is capitalised only when it increases future economic benefits of the related item of furniture, fittings and equipment. All other expenditure is recognised in the statement of insurance operations and accumulated surplus as the expense is incurred.

Any gain or loss on disposal of an item of furniture, fixtures and office equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in statement of insurance operations and accumulated surplus.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) *Summary of significant accounting policies (continued)*

**Goodwill**

Goodwill represented the amount paid / to be paid by the Company in excess of the fair value of the net identifiable assets and liabilities acquired from Islamic Arab Insurance Company as approved by SAMA. Following initial recognition, goodwill was measured at cost less any accumulated impairment losses. Goodwill was tested for impairment, annually at each reporting date or more frequently if events or changes in circumstances indicate that the carrying value may be impaired (note 1).

**Liability adequacy test**

At each reporting date the Company assesses whether its recognised insurance liabilities are adequate using current estimates of future cash flows under its insurance contracts. If that assessment shows that the carrying amount of its insurance liabilities is inadequate in the light of estimated future cash flows, the entire deficiency is immediately recognised in the statement of insurance operations and accumulated surplus, and a provision for premium deficiency is created.

The Company does not discount its liability for unpaid claims as substantially all claims are expected to be paid within one year of the statement of financial position.

**Accounts payable and accruals**

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

**Provisions**

Provisions are recognized when the Company has an obligation (legal or constructive) arising from a past event, and the costs to settle the obligation are both probable and can be measured reliably. Provisions are not recognized for future operating losses.

**Employees' end of service benefits**

The Company provides end of service benefits to its employees. The entitlement to these benefits is usually based upon the employees' final salary and length of service subject to the completion of a minimum service period. Provision is made for the amounts payable under Saudi Arabian Labour law applicable to employees accumulated periods of service at the statement of financial position date. The expense for the year is charged to the statement of insurance operations and accumulated surplus.

**Zakat**

Zakat are provided for in accordance with the Saudi Arabian Zakat Regulations. Zakat is accrued and charged to statement of shareholders' operations.

**Impairment of financial assets**

An assessment is made at each reporting date to determine whether there is objective evidence that a specific financial asset may be impaired. If such evidence exists, any impairment loss is recognised for insurance operations' assets in the statement of insurance operations and accumulated surplus, and for shareholders' assets in the statement of shareholders' operations.

Impairment is determined as follows:

- a) For assets carried at fair value, impairment is the difference between cost and fair value, less any impairment loss previously recognised.
- b) For assets carried at cost, impairment is the difference between carrying value and the present value of future cash flows discounted at the current market rate of return for a similar financial asset; and
- c) For assets carried at amortised cost, impairment is the difference between carrying amount and the present value of future cash flows discounted at the asset's original effective interest rate.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) *Summary of significant accounting policies (continued)*

**Impairment of non-financial assets**

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

Impairment losses of continuing operations are recognised in the statement of insurance operations and accumulated surplus and statement of shareholders' operations in expense categories consistent with the function of the impaired asset, except for a property, if any, previously revalued and the revaluation was taken to other comprehensive income. In this case, the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of insurance operations and accumulated surplus and statement of shareholders' operations unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

**Derecognition of financial instruments**

*Financial asset*

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- The rights to receive cash flows from the asset have expired
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the asset is recognised to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

*Financial liability*

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

**Trade date accounting**

All regular way purchases and sales of financial assets are recognized / derecognized on the trade date (i.e. the date that the Company commits to purchase or sell the assets). Regular way purchases or sales of financial assets are transactions that require settlement of assets within the time frame generally established by regulation or convention in the market place.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) *Summary of significant accounting policies (continued)*

**Revenue Recognition**

*Premiums and commissions earned*

Gross premiums written and commission income are taken into income over the term of the policies to which they relate on a pro-rata basis. The portion of premiums and commissions that will be earned in the future is reported as unearned premiums and unearned commission income, respectively, and is deferred on a basis consistent with the term of the related policy coverage, except for marine cargo. The unearned portion for marine cargo represents last three months of the total premiums written during the current financial period. The change in the unearned premiums is taken to the statement of insurance operations and accumulated surplus in order that revenue is recognized over the period of risk.

*Dividend income*

Dividend income is recognised when the right to receive payment is established.

*Commission income*

Commission income on term deposits is recognised using the effective yield method.

**Reinsurance premiums**

Reinsurance premiums ceded are recognised as an expense when payable.

Reinsurance premiums are charged to income over the terms of the policies to which they relate on a pro-rata basis.

**Claims**

Claims, comprising amounts payable to contract holders and third parties and related loss adjustment expenses, net of salvage and other recoveries, are charged to statement of insurance operations and accumulated surplus as incurred. Claims comprise the estimated amounts payable in respect of claims reported to the Company and those not reported at the reporting date.

Outstanding claims comprise the estimated cost of claims incurred but not settled at the reporting date together with the related claims handling costs and a reduction for the expected value of salvage and other recoveries, whether reported by the insured or not. Provisions for reported claims but not paid as of the reporting date are made on the basis of individual case estimates. In addition, a provision based on Management's judgment and the Company's prior experience is maintained for the cost of settling claims incurred but not reported at the reporting date ("IBNR") including related claims handling costs and the expected value of salvage and other recoveries at the reporting date.

Any difference between the provisions at the reporting date and settlements and provisions in the following year is included in the statement of insurance operations and accumulated surplus for that year. The outstanding claims are shown on a gross basis and the related share of the reinsurers is shown separately.

**Reinsurance contracts held**

In common with other insurance companies, in order to minimise financial exposure arising from large claims, the Company, in the normal course of business, enters into contracts with other parties for reinsurance purposes. Such reinsurance arrangements provide for greater diversification of business, allow management to control exposure to potential losses arising from large risks, and provide additional capacity for growth. All of the reinsurance is affected under treaty, facultative and excess-of-loss reinsurance contracts.

Claims receivable from reinsurers are estimated in a manner consistent with the claim liability and in accordance with the reinsurance contract. These amounts are shown as "Reinsurers' share of outstanding claims" in the statement of financial position until the claim is agreed and paid by the Company. Once the claim is paid the amount due from the reinsurers in connection with the paid claim is transferred to amounts due from / to reinsurers.

At each reporting date, the Company assesses whether there is any indication that a reinsurance asset may be impaired. Where an indicator of impairment exists, the Company makes a formal estimate of recoverable amount. Where the carrying amount of a reinsurance asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Ceded reinsurance arrangements do not relieve the Company from its obligations to policyholders. Premiums and claims on assumed reinsurance are recognised as income and expenses in the same manner as they would be if the reinsurance were considered direct business, taking into account the product classification of the reinsured business.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) *Summary of significant accounting policies (continued)*

**Operating lease**

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognised as an expense in the statement of insurance operations and accumulated surplus on a straight-line basis over the lease term.

**Foreign currencies**

The accounting records of the Company are maintained in Saudi Riyals. Transactions in foreign currencies are recorded in Saudi Riyals at the approximate rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date. All differences are taken to the statement of insurance operations and accumulated surplus or the statement of shareholders' operations as appropriate.

**Expenses**

Due to the nature of the Company' business, all expenses incurred are considered to be general and administrative expenses and are classified as such.

**Segment reporting**

An operating segment is a component of the Company that is engaged in business activities from which it earns revenues and incurs expenses and about which discrete financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer that makes strategic decisions. For management purposes, the Company is organized into business units based on their products and services and has the following major reportable segments:

- Medical provides compensation to policy holders for expenses incurred in treatment of a disease, illness or injury.
- Motor provides coverage against losses and liability related to motor vehicles.
- Other includes property, marine, engineering, accident and liability and miscellaneous categories.

Shareholders' operations' is a non-operating segment. Income earned from time deposits and investments is the only revenue generating activity. Certain direct operating expenses and other overhead expenses are allocated to this segment on an appropriate basis. The loss or surplus from the insurance operations is allocated to this segment on an appropriate basis.

No inter-segment transactions occurred during the period. If any transaction were to occur, transfer prices between business segments are set on an arm's length basis in a manner similar to transactions with third parties. Segment income, expense and results will then include those transfers between business segments which will then be eliminated at the level of the financial statements of the Company.

**Fair values of financial instruments**

Financial instruments comprise cash and cash equivalents, term deposits, premiums receivable, reinsurance receivables, amounts receivable from related party, investments, outstanding claims, reinsurance share of outstanding claims, reinsurance payables and certain other assets and liabilities.

Fair value of FVIS investments is determined on the basis of net assets value of the respective funds at the end of the reporting period. For FVIS or AFS investments, where there is no active market the fair value is determined by using valuation technique, except for unquoted equity investments which are held at cost. Such technique includes using recent arm's length transactions, reference to current market value of another instrument, which is substantially the same and or discounted cash flow analysis. For discounted cash flow techniques, estimated future cash flows are based on management best estimate and discount rate used is a market related rate for similar assets.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

*e) Summary of significant accounting policies (continued)*

**Offsetting**

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously. Income and expenses are not offset in the statement of insurance operations and accumulated surplus or in the statement of shareholders' operations unless required or permitted by any accounting standard or interpretation, as specifically disclosed in the accounting policies of the Company.

*f) Use of estimates and judgments*

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Estimates and judgements are continuously evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. The key assumptions concerning the future and other key sources of estimation uncertainty at the date of statement of financial position, that have a significant risk of causing a material adjustment to the carrying amounts of the assets and liabilities within the next financial year are discussed below.

**Provision for outstanding claims**

Considerable judgment by management is required in the estimation of amounts due to policyholders arising from claims made under insurance contracts. In particular, estimates have to be made to calculated ultimate cost of claims. Incurred but not yet reported (IBNR) at reporting date are derived by deducting paid and outstanding claim at reporting date from ultimate cost of claim. The primary technique adopted by management in estimating the cost of notified and IBNR claims, is that of using past claim settlement trends to predict future claims settlement trends. At each reporting date, prior year claims estimates are reassessed for adequacy and changes are made to the provision. These provisions are not discounted for the time value of money.

Such estimates are necessarily based on significant assumptions about several factors involving varying, and possible significant, degrees of judgment and uncertainty and actual results may differ from management's estimates resulting in future changes in estimated liabilities. Claims requiring court or arbitration decisions, if any, are estimated individually. Independent loss adjusters normally estimate property claims. Management reviews its provisions for claims incurred on a monthly basis, and claims incurred but not reported on a quarterly basis. The provision for outstanding claims as at 31 December 2014 and 2015 were also verified and certified by an independent actuary.

**Premium deficiency reserve**

Estimation of the premium deficiency is highly sensitive to a number of assumptions as to the future events and conditions. It is based on expected loss ratio for the unexpired portion of the risks for written policies. To arrive at the estimate of the expected loss ratio, the actuary considers the claims and premiums relationship which is expected to apply on month to month basis. Based on actuary's suggestion, the management has used different possibilities for projecting the expected trends in loss ratio. The key assumption used by the management is that past claims pattern are stable and will continue in future.

**Allowance for impairment of premiums receivable**

The Company makes portfolio provision, estimated on a group basis, based on the ageing profile of the premiums receivable. Such estimates involve various degrees of judgement and uncertainty, and actual results may differ resulting in future changes to such provisions.

**Reinsurance**

The Company is exposed to disputes with, and possibility of defaults by, its reinsurers. The Company monitors on a quarterly basis the evolution of disputes with and the strength of its reinsurers.

**Deferred acquisition costs**

Certain acquisition costs related to the sale of new policies are recorded as deferred acquisition costs and are amortised in the statement of insurance operations and accumulated surplus over the related period of policy coverage. If the assumptions relating to future profitability of these policies are not realised, the amortization of these costs could be accelerated and this may also require additional impairment write-offs in the statement of insurance operations and accumulated surplus.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f) *Use of estimates and judgments (continued)*

**Useful lives of furniture, fittings and equipment**

The Company's management determines the estimated useful lives of its furniture, fittings and equipment for calculating depreciation. These estimates are determined after considering the expected usage of the assets or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates.

**Classification of investments**

The management designates at the time of acquisition of investment securities whether these should be classified as FVIS or held to maturity or available for sale securities. In judging whether investment in securities are classified as at fair value or amortised cost, management has considered the detailed criteria for determination of such classification as set out in IFRS.

**Impairment of available-for-sale equity investments**

The Company determines that available-for-sale equity investments assets are impaired when there has been a significant or prolonged decline in the fair value below its cost. This determination of what is significant or prolonged requires judgment. In making this judgment, the Company evaluates among other factors, the normal volatility in share price, the financial health of the investee, industry and sector performance, changes in technology, and operational and financing cash flow. Impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology, and financing and operational cash flows.

**Fair values of financial instruments**

The fair value for financial instruments traded in active markets at the reporting date is based on their quoted market price. Where the fair values of financial assets and financial liabilities recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques. The inputs to these models are derived from observable market data where possible, but if this is not available, judgement is required to establish fair values.

3 CASH AND CASH EQUIVALENTS AND TERM DEPOSITS

	2015 SR'000	2014 SR'000
<i>(a) Cash and cash equivalents</i>		
<i>Insurance Operations</i>		
Cash on hand and at banks	<u>2,691</u>	<u>23,573</u>
<i>Shareholders' Operations</i>		
Cash at banks	<u>8</u>	<u>5,524</u>
<i>(b) Term deposits</i>		
<i>Insurance Operations</i>		
Term deposits	<u>10,962</u>	<u>30,739</u>

The term deposits are held with the commercial banks and earn commission at market rates. These term deposits are denominated in Saudi Arabian Riyals and have an original maturity of more than three months and less than twelve months. The carrying amounts of these term deposits reasonably approximate their fair values at the reporting date.

# Salama Cooperative Insurance Company – A Saudi Joint Stock Company

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

### 4 PREMIUMS RECEIVABLE, NET

	2015 SR'000	2014 SR'000
Due from policyholders	42,900	48,425
Due from policyholders – related party (see note 21)	32,707	22,847
Allowance for doubtful premium receivable (see below)	(15,835)	(22,653)
	<u>59,772</u>	<u>48,619</u>

Movements in allowance of doubtful premiums receivable were as follows:

	2015 SR'000	2014 SR'000
Balance at the beginning of the year	22,653	23,636
Written off during the year	(3,174)	-
Write back of previously written off balance during the year	3,319	-
Release of provision during the year	(6,963)	(983)
Balance at the end of the year	<u>15,835</u>	<u>22,653</u>

The age analysis of unimpaired premiums receivable arising from insurance contracts is as follows:

	<i>Past due but not impaired</i>				
	<i>Up to three months</i>	<i>Above three and up to six months</i>	<i>Above six and less than twelve months</i>	<i>Twelve months and above</i>	<i>Total</i>
	<i>SR'000</i>	<i>SR'000</i>	<i>SR'000</i>	<i>SR'000</i>	<i>SR'000</i>
2015	47,457	4,687	3,195	4,433	59,772
2014	37,940	5,502	2,237	2,940	48,619

Past due but not impaired receivables are expected, on the basis of past experience, to be fully recoverable. It is not the practice of the Company to obtain collateral over receivables and the vast majority is, therefore, unsecured. In respect of premiums receivable, the five largest customer balances accounted for approximately 51% of this balance as at 31 December 2015 (2014: 43%). Premiums receivable comprise a large number of customers and insurance companies all within the Kingdom of Saudi Arabia.

### 5 REINSURANCE RECEIVABLE, NET

	2015 SR'000	2014 SR'000
Reinsurance receivable	5,279	6,657
Allowance for doubtful insurance receivable (see below)	(3,726)	(3,634)
	<u>1,553</u>	<u>3,023</u>

Movements in allowance of doubtful premiums receivable were as follows:

	2015 SR'000	2014 SR'000
Balance at the beginning of the year	3,634	3,543
Provided during the year (note 22)	92	91
Balance at the end of the year	<u>3,726</u>	<u>3,634</u>

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

5 REINSURANCE RECEIVABLE, NET (continued)

	<i>Past due but not impaired</i>				<i>Total SR'000</i>
	<i>Up to three months SR'000</i>	<i>Above three and up to six months SR'000</i>	<i>Above six and less than twelve months SR'000</i>	<i>Twelve months and above SR'000</i>	
2015	843	45	67	598	1,553
2014	1,857	226	384	556	3,023

Past due but not impaired reinsurance receivables are expected, on the basis of past experience, to be fully recoverable. It is not the practice of the Company to obtain collateral over reinsurance receivables and the vast majority is, therefore, unsecured. In respect of reinsurance receivables, the five largest customer balances accounted for approximately 56% of gross reinsurance receivables balance as at 31 December 2015 (2014: 50%).

6 NET PREMIUMS EARNED

	<i>2015 SR'000</i>	<i>2014 SR'000</i>
Gross written premiums	391,740	318,970
Gross unearned premiums at the beginning of the year	143,371	99,732
	<u>535,111</u>	<u>418,702</u>
Gross unearned premiums at the end of the year	(172,147)	(143,371)
Gross premiums earned	<u>362,964</u>	<u>275,331</u>
Reinsurance premium ceded	(14,325)	(14,308)
Excess of loss premiums	(8,327)	(5,506)
Reinsurers' share of unearned premiums at the beginning of the year	(4,927)	(3,235)
	<u>(27,579)</u>	<u>(23,049)</u>
Reinsurers' share of unearned premiums at the end of the year	6,063	4,927
Insurance premiums ceded to reinsurers	<u>(21,516)</u>	<u>(18,122)</u>
Net premiums earned	<u>341,448</u>	<u>257,209</u>

7 DEFERRED POLICY ACQUISITION COSTS

	<i>2015 SR'000</i>	<i>2014 SR'000</i>
Balance at the beginning of the year	4,739	2,402
Expenses incurred during the year	11,639	10,877
Amortisation for the year	(11,163)	(8,540)
Balance at the end of the year	<u>5,215</u>	<u>4,739</u>

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

8 CLAIMS INCURRED

	2015 SR'000	2014 SR'000
Gross claims paid	280,143	214,359
Gross outstanding claims at the end of the year (see note (i) below)	98,107	79,726
	378,250	294,085
Gross outstanding claims at the beginning of the year	(79,726)	(77,221)
Gross claims incurred	298,524	216,864
Reinsurance recoveries	(5,566)	(7,696)
Reinsurers' share of outstanding claims at the end of the year (see note (ii) below)	(7,408)	(6,082)
	(12,974)	(13,778)
Reinsurers' share of outstanding claims at the beginning of the year	6,082	15,980
Reinsurers' share of claims	(6,892)	2,202
Net claims incurred	291,632	219,066

- (i) Gross outstanding claims as at 31 December 2015 include provision for IBNR amounting to SR 84,341 thousand (2014: 62,037 thousand).
- (ii) Substantially all of the amounts due from reinsurers are expected to be received within twelve months of the reporting date. Reinsurers share of outstanding claims are calculated in proportion to the related risk distribution pattern.

CLAIMS DEVELOPMENT TABLE

The following reflects the cumulative incurred claims, including both claims notified and incurred but not reported for each successive accident year at each financial position date, together with the cumulative payments to date. The development of insurance liabilities provides a measure of the Company's ability to estimate the ultimate value of the claims.

The Company aims to maintain adequate reserves in respect of its insurance business in order to protect against adverse future claims experience and developments. As claims develop and the ultimate cost of claims becomes more certain, adverse claims experiences will be eliminated which results in the release of reserves from earlier accident years. In order to maintain adequate reserves, the Company transfers much of this release to the current accident year reserves when the development of claims is less mature and there is much greater uncertainty attached to the ultimate cost of claims.

31 December 2015

Accident year	2011 & earlier	2012	2013	2014	2015	Total
	SR'000					
Estimate of ultimate claims cost:						
At the end of accident year	128,273	171,478	162,789	228,220	286,214	
One year later	136,164	184,820	171,923	270,018	-

### 14 STATUTORY DEPOSIT

	<i>2015 SR'000</i>	<i>2014 SR'000</i>
Statutory deposit	<b>26,068</b>	<b>10,976</b>

As required by Saudi Arabian Insurance Regulations, the Company has deposited 10% of its paid up capital, amounting to SR 25 million (2014: SR 10 million) in a bank designated by the Saudi Arabian Monetary Agency ("SAMA"). The return on this deposit during the year ended 31 December 2015, which is payable to SAMA, is SR 92 thousand (2014: SR 90 thousand). A corresponding liability to SAMA has been recorded for the return on this deposit, as the Company does not have any entitlement to it. This statutory deposit cannot be withdrawn without the consent of SAMA.

# Salama Cooperative Insurance Company – A Saudi Joint Stock Company

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

### 15 SHARE CAPITAL

The 28 authorized and issued share capital of the Company was SR 100 million divided into 10 million ordinary shares of SR 10 each.

In the extra-ordinary general meeting held on 30 June 2015 corresponding to 13 Ramadan 1436H, the shareholders approved rights issue of SR 150 million. As approved by the regulators, 15 million ordinary shares were offered at an exercise price of SR 10 during the subscription period which was completed during August 2015. The legal formalities have been completed and the share capital has been increased from SR 100 Million to SR 250 Million. The Company incurred a sum of SR 6.985 million as issuance cost to raise additional capital of SR 150 million through rights issue which has been accounted through statement of changes in shareholders' equity.

### 16 STATUTORY RESERVE

As required by Saudi Arabian Insurance Regulations issued by the Saudi Arabian Monetary Agency ("SAMA"), 20% of the net shareholders' income shall be set aside as a statutory reserve until this reserve amounts to 100% of paid capital. As the Company has accumulated losses at year end, no transfer to statutory reserve has been made.

### 17 ZAKAT

	2015 SR'000	2014 SR'000
Charge for the year		
Current year provision	1,200	934
Relating to prior years	-	-
Charge for the year	<u>1,200</u>	<u>934</u>

The current year provision is based on the following:

	2015 SR'000	2014 SR'000
Equity	26,979	25,150
Opening provision and adjustments	35,346	42,508
Net book value of long term assets	<u>(48,587)</u>	<u>(33,364)</u>
	13,738	34,294
Adjusted income for the year	3,132	3,046
Zakat base	<u>16,870</u>	<u>37,340</u>

The differences between the financial and the Zakatable results are mainly due to certain adjustments in accordance with the relevant fiscal regulations.

### Movements in provision during the year

	2015 SR'000	2014 SR'000
Balance at the beginning of the year	3,108	2,174
Charge for the year	1,200	934
Payment made during the year	-	-
Balance at the end of the year	<u>4,308</u>	<u>3,108</u>

### Zakat status

The Company has filed its zakat declarations for the period from 16 May 2007 to 31 December 2008 and for the years ended 31 December 2009 through 2014 and obtained restricted zakat certificates.

The Department of Zakat and Income Tax (DZIT) raised assessment for the period from 16 May 2007 to 31 December 2008 and demanded additional Zakat liability of SR 619 thousand. The Company filed an objection against this demand and is confident of a favorable outcome. Zakat assessments for years ended 31 December 2009 through 2014 have not yet been raised. However, in 2014 DZIT issued initial assessment for the year 2011, disallowing investments and statutory deposit from Zakat base and requested additional Zakat of SR 1.3 million. The Company has filed an appeal against DZIT's initial assessment and confident of a favorable outcome.

(d) Subsequent to the year end, the Board of Directors approved to write off the balance with a related party and accordingly adjustment has been made in the year ended 31 December 2015.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

19 GENERAL AND ADMINISTRATIVE EXPENSES

	2015	2014
	SR'000	SR'000
<i>Insurance Operations</i>		
Employees' costs	29,480	23,666
Office rent	3,682	4,150
Information technology	1,683	1,644
Training and development	293	144
Written off of related party (see note 18)	6,759	-
Release of provision for doubtful debts (see note 5)	(6,963)	(983)
Allowance for reinsurance receivables (see note 6)	92	91
Depreciation (see note 12)	1,251	1,608
Travelling	436	328
Communication	940	778
Printing and stationary	679	594
Fee and subscriptions	401	651
Utilities	200	186
Repair and maintenance	202	329
Audit and professional fees	1,438	954
Marketing and advertisement	224	262
Others	373	537
	<u>41,170</u>	<u>34,939</u>
<i>Shareholders' Operations</i>		
Board attendance fees (see note a below)	105	54
Committee expenses (see note b below)	140	12
Others	301	75
	<u>546</u>	<u>141</u>

- a) Board attendance fees represent allowances for attending board meetings and sub-committee meetings.
- b) Committee expenses include fees of non-board members for attending committee meetings and other related sub-committee expenses.

20 EARNINGS PER SHARE

Earnings per share for the period has been calculated by dividing the net income for the year by the weighted average number of issued and outstanding shares for the year.

(a) The weighted average number of shares has been retrospectively adjusted for prior year to reflect the bonus element of right share issue as required by IAS 33 "Earnings per share" as follows:

	2015	2014
Issued ordinary shares as at 1 January ('000')	10,000	10,000
Effect of bonus element of right share issue ('000')	-	6,560
Effect of right share issue	9,520	-
Weighted average number of ordinary shares ('000')	<u>19,520</u>	<u>16,560</u>

The weighted average number of ordinary shares for prior period is computed using an adjustment factor of 1.656 which is a ratio of the theoretical ex-rights price of SR 17.77 per ordinary share and the closing price of SR 29.43 per ordinary share on the last day on which the shares were traded before the right issue.

(b) The basic and diluted earnings per share is calculated as follows:

	2015	2014
Net income for the year (SR '000')	1,878	1,829
Weighted average number of ordinary shares ('000') - (Note 20 (a))	19,520	16,560
Basic and diluted earnings per share (SR) – restated	<u>0.10</u>	<u>0.11</u>

For the year ended 31 December 2015

22 CONTINGENT LIABILITIES

Company's bankers have given guarantees to non-government customers amounting to SR 0.3 million (2014: SR 0.8 million) in respect of motor insurance.

23 RISK MANAGEMENT

Risk is inherent in the Company's activities but is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company's policy is to monitor business risks through strategic planning process.

**Risk management structure**

*Board of Directors*

The Board of Directors is responsible for the overall risk management approach and for approving the risk management strategies and principles.

*Audit committee*

The Audit Committee is appointed by the Board of Directors. The Audit Committee assists the Board in carrying out its responsibilities with respect to assessing the quality and integrity of financial reporting and risk management, the audit thereof and the soundness of the internal controls of the Company.

The risks facing the Company and the way these risks are mitigated by management are summarised below:

**Insurance risk**

The risk under an insurance policy is the risk that an insured event will occur including the uncertainty of the amount and timing of any resulting claim. The principal risk the Company faces under such policies is that the actual claims and benefit payments exceed the carrying amount of insurance reserves. This is influenced by the frequency of claims, severity of claims, actual benefits paid are greater than originally estimated and subsequent development of long-term claims. Therefore, the objective of the Company is to ensure that sufficient resources are available to cover claims.

The variability of risks is improved by diversification of risk of loss to a large portfolio of insurance policies as a more diversified portfolio is less likely to be affected across the board by change in any subset of the portfolio, as well as unexpected outcomes. The variability of risks is also improved by careful selection and implementation of underwriting strategy and guidelines as well as the use of reinsurance arrangements.

Certain portion of reinsurance business ceded is placed on a quota share basis with retention limits varying by product lines. Amounts recoverable from reinsurers are estimated in a manner consistent with the assumptions used for ascertaining the underlying policy benefits and are presented in the statement of financial position as reinsurance assets.

Although the Company has reinsurance arrangements, it is not relieved of its direct obligations to its policyholders and thus a credit exposure exists with respect to reinsurance ceded, to the extent that any reinsurer is unable to meet its obligations assumed under such reinsurance arrangements.

The insurance claim liabilities are sensitive to various assumptions mentioned in note 2(f).

*Frequency and amounts of claims*

The frequency and amounts of claims can be affected by several factors such as flood, environmental and economical, atmospheric disturbance and concentration of risk etc. The Company underwrites mainly motor and medical risks. These are regarded as short-term insurance contracts as claims are normally advised and settled within one year of the insured event taking place. This helps to mitigate insurance risk.

*Geographical concentration of risks*

The Company's insurance risk exposure relating to contract holders is concentrated in Kingdom of Saudi Arabia.

The company monitors concentration of risk primarily by class of business. The major concentration lies in motor and medical line of business.

*Independent actuarial review of claims and claims reserves*

In further mitigation of the insurance risk, the Company utilises an independent actuary who performs periodical reviews of the Company's claims modeling and claims projections as well as verifying the closing position claims reserves are adequate.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

23 RISK MANAGEMENT (continued)

*Insurance risk (continued)*

*Key assumptions*

The principal assumption underlying the estimates is the Company's estimated ultimate loss ratio. The ultimate loss was determined using actuarial methods as far as applicable.

*Sensitivities*

The company believes that claim liabilities under insurance contract (Gross outstanding claim less reinsurance share of outstanding claim) outstanding at the year-end are adequate. However, these amounts are not certain and actual payments may differ from claim liabilities provided in the financial statements. The insurance claim liabilities are sensitive to various assumptions. Sensitivity of loss for the year before Zakat to change in claim liabilities and IBNR based on an increase / decrease of 10% in outstanding claim reserve and increase / decrease of 15 % in IBNR is given below for each business segment.

	2015 SR'000		2014 SR'000	
<u>Outstanding claim net of reinsurance</u>	Effect of 10% increase	Effect of 10% decrease	Effect of 10% increase	Effect of 10% decrease
Motor	(253)	253	(806)	806
Medical	(168)	168	(265)	265
Others	(312)	312	(229)	229
	<u>(733)</u>	<u>733</u>	<u>(1,300)</u>	<u>1,300</u>

	2015 SR'000		2014 SR'000	
<u>IBNR</u>	Effect of 15% increase	Effect of 15% decrease	Effect of 15% increase	Effect of 15% decrease
Motor	(11,822)	11,822	(8,420)	8,420
Medical	(604)	604	(570)	570
Others	(80)	80	(107)	107
	<u>(12,506)</u>	<u>12,506</u>	<u>(9,097)</u>	<u>9,097</u>

*Reinsurance risk*

Similar to other insurance companies, in order to minimize financial exposure arising from large claims, the Company, in the normal course of business, enters into agreements with other parties for reinsurance purposes.

To minimize its exposure to significant losses from reinsurer insolvencies, the Company evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities or economic characteristics of the reinsurers. Reinsurers are selected using the following parameters and guidelines set by the Company's management. The criteria may be summarized as follows:

- Minimum acceptable credit rating by recognized rating agencies (e.g. S&P) that is not lower than BBB.
- Reputation of particular reinsurance companies.
- Existing or past business relationship with the reinsurer.

The exception to this rule is in respect of local companies who do not carry any such credit rating. This, however, is limited to those companies registered and approved by the local Insurance Regulator. Furthermore, the financial strength and managerial and technical expertise as well as historical performance, wherever applicable, are thoroughly reviewed by the Company and matched against a list of requirements pre-set by the Company's management before approving them for exchange of reinsurance business.

Reinsurance ceded contracts do not relieve the Company from its obligations to policyholders and as a result the Company remains liable for the portion of outstanding claims reinsured to the extent that the reinsurer fails to meet the obligations under the reinsurance agreements.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

23 RISK MANAGEMENT (continued)

**Regulatory framework risk**

Regulators are primarily interested in protecting the rights of the policyholders and monitor them closely to ensure that the Company is satisfactorily managing affairs for their benefit. At the same time, the regulators are also interested in ensuring that the Company maintains an appropriate solvency position to meet unforeseen liabilities.

The operations of the Company are also subject to regulatory requirements within the jurisdiction it operates. Such regulations not only prescribe approval and monitoring of activities, but also impose certain restrictive provisions (e.g. capital adequacy) to minimise the risk of default and insolvency on the part of the insurance companies to meet unforeseen liabilities as these arise.

**Capital management risk**

Capital requirements are set and regulated by the Saudi Arabian Monetary Agency. These requirements are put in place to ensure sufficient solvency margins. Further objectives are set by the Company to maintain healthy capital ratios in order to support its business objectives and maximise shareholders' value.

The Company manages its capital requirements by assessing shortfalls between reported and required capital levels on a regular basis. Adjustments to current capital levels are made in light of changes in market conditions and risk characteristics of the Company's activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue shares, if required in future.

The table below summarizes the minimum regulatory capital of the Company:

	2015 SR'000	2014 SR'000
Minimum regulatory capital (Minimum capital basis)	100,000	100,000

As at 31 December 2015, the Company comply with the minimum regulatory capital requirement.

**Financial risk**

The Company's principal financial instruments are receivables arising from insurance contracts, due from related parties, cash and cash equivalents, term deposits, investments, other receivables, outstanding claims and policy holder claims, reinsurance payable and certain other assets and liabilities. The main risks arising from the Company's financial instruments are market risk, commission rate risk, foreign currency risk, credit risk and liquidity risk. The board reviews and agrees policies for managing each of these risks and they are summarised below.

**Market risk**

Market risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused either by factors specific to the individual security, the issuer of the security, or factors affecting all securities traded in the market.

The Company is exposed to market risk with respect to its FVIS investments. Market risk is managed by investing in reputed funds which maintain investments in diversified portfolios and equity shares and by continuous monitoring of developments in equity markets. In addition, the key factors that affect stock market movements are monitored, including analysis of the operational and financial performance of investees. A 5% increase / (decrease) in net asset value of these funds can impact statement of insurance operations and accumulated surplus by SR 7,957 thousand (2014: SR 4,274 thousand) and statement of shareholder operations by SR 7,084 thousand (2014: SR 704 thousand).

**Commission rate risk**

Commission rate risk arises from the possibility that changes in commission rates will affect future profitability or the fair values of financial instruments. The Company is exposed to commission rate risk on it's held to maturity investments and term deposits.

The Company is subject to commission rate fair value risk on its fixed rate murabaha deposits classified as term deposits in the statement of financial position. The company does not account for fixed commission rate instrument as held for trading or as FVIS investment. Accordingly there is no impact on the income or equity of reasonably possible change in commission rate.

The Company is required to maintain a restricted deposit in accordance with insurance regulations in Saudi Arabia on which the Company does not earn any commission. Management limits commission rate risk of other financial instruments by monitoring changes in commission rates in the currencies in which its financial instruments are denominated.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

23 RISK MANAGEMENT (continued)

*Financial risk (continued)*

*Commission rate risk (continued)*

**Insurance Operations**

Details of maturities of the major classes of commission bearing securities for insurance operations as at 31 December 2015 and 2014 are as follows:

	2015 SR '000			
	<i>Less than 1 year</i>	<i>1 to 5 years</i>	<i>over 5 years</i>	<i>Total</i>
Investments held to maturity (note 10(b))	-	17,000	19,100	36,100
	-	17,000	19,100	36,100

	2014 SR '000			
	<i>Less than 1 year</i>	<i>1 to 5 Years</i>	<i>over 5 years</i>	<i>Total</i>
Investments held to maturity (note 10(b))	-	17,000	13,641	30,641
	-	17,000	13,641	30,641

The maturities of deposits have been determined on the basis of the remaining period, at the reporting date, to the contractual maturity date.

The effective interest rates for the commission bearing financial instruments, were as follows:

	2015	2014
Saudi Riyal denominated financial assets	2.67%	3.33%

The following table demonstrates the sensitivity of statement of insurance operations to reasonably possible changes in interest rates, with all other variables held constant.

	2015 SR'000 <i>Effect on profit</i>	2014 SR'000 <i>Effect on profit</i>
<i>Saudi Riyals:</i>		
Increase in interest rates by 100 basis points	110	306
Decrease in interest rates by 100 basis points	(110)	(306)

Details of maturities of the major classes of commission bearing securities for shareholders' operations as at 31 December 2015 and 2014 are as follows:

**Shareholder Operations**

	2015 SR '000			
	<i>Less than 1 year</i>	<i>1 to 5 years</i>	<i>over 5 years</i>	<i>Total</i>
Investments held to maturity	-	-	10,147	10,147
	-	-	10,147	10,147

	2014 SR '000			
	<i>Less than 1 year</i>	<i>1 to 5 Years</i>	<i>over 5 years</i>	<i>Total</i>
Investments held to maturity	-	-	-	-
	-	-	-	-

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

23 RISK MANAGEMENT (continued)

*Financial risk (continued)*

*Commission rate risk (continued)*

The maturities of deposits have been determined on the basis of the remaining period, at the reporting date, to the contractual maturity date. The effective interest rates for the commission bearing financial instruments, were as follows:

	2015	2014
Foreign currency denominated financial assets	3.08%	6.4%

The following table demonstrates the sensitivity of statement of insurance operations to reasonably possible changes in commission rates, with all other variables held constant.

	2015 SR'000 Effect on profit	2014 SR'000 Effect on profit
<i>Saudi Riyals:</i>		
Increase in commission rates by 100 basis points	101	-
Decrease in commission rates by 100 basis points	(101)	-

*Currency risk*

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Management believes that there is minimal risk of losses due to exchange rate fluctuations as the insurance operations and shareholders' operations primarily deal in Saudi Riyals and in US Dollar which is pegged to Saudi Riyals.

*Credit risk*

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. All of the Company's underwriting activities are carried out in Saudi Arabia. For all classes of financial assets held by the Company, the maximum credit risk exposure to the Company is the carrying value as disclosed in the financial statements at the reporting date.

The Company seeks to limit its credit risk with respect to customers by following the credit control policy and monitoring outstanding receivables on an ongoing basis in order to reduce the Company's exposure to bad debts. Management estimates specific impairment provision on a case by case basis. In addition to specific provisions, the Company also makes an additional portfolio provision, estimated on a collective basis, based on the ageing profile of the overdue premiums receivable. The Company seeks to limit its credit risk with respect to other counterparties by placing deposits with reputable banks.

Reinsurance is placed with counterparties that have a good credit rating and concentration of risk is avoided by following policy guidelines in respect of counterparties' limits that are set each year by the board of directors and are subject to regular reviews. At each reporting date, management performs an assessment of creditworthiness of reinsurers and updates the reinsurance purchase strategy, ascertaining suitable allowance for impairment.

The table below shows the maximum exposure to credit risk for the components of the statement of financial position:

	2015 SR' 000	2014 SR' 000
<i>Insurance' Operations</i>		
Cash and cash equivalents	2,691	23,573
Term deposits	10,962	30,739
Premiums receivable, net	59,772	48,619
Held to maturity investments	36,100	30,641
Reinsurance receivables, net	1,553	3,023
Other receivables	10,135	11,295
Amount due from a related party	-	6,759
Reinsurer share of outstanding claims	6,063	6,082
	<u>127,276</u>	<u>160,731</u>

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2015

23 RISK MANAGEMENT (continued)

*Credit risk (continued)*

	2015 SR' 000	2014 SR' 000
<b>Shareholders' Operations</b>		
Cash and cash equivalents	8	5,524
Other receivables	109	555
Held to maturity investments	10,147	-
	<u>10,264</u>	<u>6,079</u>

**Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its commitments associated with financial liabilities when they fall due.

Liquidity requirements are monitored on monthly basis and management ensures that sufficient liquid funds are available to meet any commitments as they arise.

All of the Company's financial assets and financial liabilities are expected to be realised and settled, respectively within 12 months from the reporting date, except for statutory deposit, which has no term (see note 14), and held to maturity assets, which are expected to be held until their maturities as mentioned in commission rate risk disclosure above. All financial liabilities are non-interest bearing.

24 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction.

The Company's financial assets consist of cash and cash equivalents, term deposits, investments, premiums receivable, reinsurance receivables, other receivables, amount due from related parties and reinsurance share of outstanding claims and its financial liabilities consist of outstanding claims, policyholders' claims, reinsurance payable, other payables and amount due to a related party. The fair values of financial assets and liabilities, except for held to maturity investments, are not materially different from their carrying values at the reporting date.

*Determination of fair value and fair value hierarchy*

The Company, if applicable, uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for the identical assets or liabilities (i.e. without modification or repackaging).

Level 2: quoted prices in active markets for similar financial assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

The table below presents the financial instruments at their fair values as at 31 December 2015 and 2014:

2015	Level 1 SR'000	Level 2 SR'000	Level 3 SR'000	Total SR'000
FVIS investments				
- Policyholders operations	-	159,137	-	159,137
- Shareholders operations	-	141,684	-	141,684
Total	-	<u>300,821</u>	-	<u>300,821</u>
2014	Level 1 SR'000	Level 2 SR'000	Level 3 SR'000	Total SR'000
FVIS investments				
- Policyholders operations	-	85,484	-	85,484
- Shareholders operations	-	14,072	-	14,072
Total	-	<u>99,556</u>	-	<u>99,556</u>

The Company determines Level 2 fair values for FVIS investments based on the net assets value of the respective funds as at the end of the reporting period.

25 COMPARATIVE FIGURES

Certain of the prior year amounts have been reclassified to conform with the presentation in the current year.

26 BOARD OF DIRECTORS' APPROVAL

These financial statements have been approved by the Board of Directors on 21 February 2016 (corresponding to 12 Jamaad Al Awwal 1437H).
