INDEPENDENT AUDITOR'S REPORT (LIMITED REVIEW)
(ON INTERIM FINANCIAL STATEMENTS)

To The Shareholders of
Abdullah Abdul Mohsin Al-Khodari Sons Company
(A Saudi Joint Stock Company)
Khobar - 31952

Scope of review

We have reviewed the interim balance sheet of Abdullah Abdul Mohsin Al-Khodari Sons Company ("the Company"), A Saudi Joint Stock Company, as at 31 December 2016 and the related interim statements of income for the three months period and year then ended and cash flows for the year then ended and the related notes from 1 to 11 which form an integral part of these interim financial statements. These interim financial statements are the responsibility of the Company's management and have been prepared by them and presented to us with all the necessary information and explanations which we required.

We conducted our limited review in accordance with the standard of review of interim financial reporting issued by the Saudi Organization for Certified Public Accountants. A review of interim financial statements consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. The scope of such limited review substantially less than an audit conducted in accordance with generally accepted auditing standards in the Kingdom of Saudi Arabia, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Limited Review Conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with generally accepted accounting standards in the Kingdom of Saudi Arabia.

For Dr. Mohamed Al-Amri & Co.

Gihad M. Al-Amri

ABDULLAH ABDUL MOHSIN AL-KHODARI SONS COMPANY
(A Saudi Joint Stock Company)

NOTES TO THE INTERIM FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS PERIOD AND YEAR ENDED 31 DECEMBER 2016

1. ORGANIZATION AND ACTIVITIES

Late Sheikh Abdullah Abdul Mohsin Al-Khodari founded a sole proprietorship in the Kingdom of Saudi Arabia in 1966 as general contracting. It was converted to a Saudi limited partnership under the name of Abdullah Abdul Mohsin Al-Khodari Sons Company on 25 Rajab 1412H corresponding to 30 January 1992. It was again converted into a Saudi Closed Joint Stock Company in accordance with Ministerial Resolution Number 152/Q dated 16 Jumad Awal 1430H (corresponding to 11 May 2009).

On 27 June 2010, Capital Market Authority accepted the application of the management of the Company for initial public offering of 12.75 million shares at Saudi Riyal 48 per share with the subscription date from 4 to 10 October 2010. From 23 October 2010, the shares of the Company have been listed at Saudi Stock Exchange. The Company is registered in Saudi Arabia under Commercial Registration number 2050022550.

In 2016, the Company incurred a gross loss amounted to SR 53.5 million (2015: gross profit of SR 117.9 million) which was mainly on surrender of one project and change in variation order receipt on certain projects. The management believes that these were one-off instances and as such they do not foresee any material loss on their current projects.

The Company is engaged in the following activities:

- General contracting works related to construction, renovation and demolition, roads, water and sewage system works, mechanical works, marine works, dams and well drilling.
- Maintenance and operation of roads and tunnels, irrigation sewage and dams, airports, power plants—sewage systems, training and educational centers, playgrounds, provisional and permanent exhibitions.
- Janitorial services, municipality works, commercial and residential building cleaning – landscaping, park cleaning and maintenance, disposal of wastes—cleaning of petroleum tanks and pipes.
- Air conditioning and refrigeration works.
- Travel and tourism.
- Cargo haulage.
- Publicity and advertisement.
- Management and operation of hospitals and health centers.
- Training centers.
- Management of hazardous industrial wastes.
- Manufacturing of waste squeezing equipment for vehicles, water and diesel tanks, waste containers, different trailers, cement tanks, concrete moulds, arms for cranes, chassis, water boilers, pressure systems, heat exchangers, cement mixers, chinaware, electric bulbs and paraffin wax.
- Wholesale and retail trade of building materials, electric items, iron and steel, copper, lead, aluminum, hardware, medical and surgical equipment, hospital requirements, communication systems, cameras and accessories, electronic calculators, safety equipment, watches, glasses, industrial tools and equipment, road construction equipment, sewage treatment equipment, industrial cleaning equipment, industrial equipment control systems, cement factory equipment, gypsum factory equipment, textile machines, heat exchangers, truck mounted cement mixers, axle fans, tunnel ventilation equipment, sound proof systems, agricultural machines, vehicles and spare parts, decoration items, chemical materials for industrial works, industrial equipment, chemical materials for sewage treatment, oils collection, treatment and burning of gases resulting from waste burial, indirect fans, emergency ventilation, engineering, fans, industrial jet, complete air tunnels, examination platforms, boilers and pressure regulators, petrochemical parts and equipment, acoustic cleaners, industrial blowers, gypsum machines, electrical and thermal probes, equipment for industry/roads/construction, generators and turbines, stoves, stacks and rust removal machines.
- Construction, operation and maintenance of power plants, electrical utilities, desalination plants, sewerage treatment plants, petrochemical factories, gas and oil refineries, cement factories, industrial facilities.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS PERIOD AND YEAR ENDED 31 DECEMBER 2016

1. ORGANIZATION AND ACTIVITIES (continued)

- Industrial work contracts related to construction of factories, extension of oil and gas pipelines and petrochemical works.
- Commercial services related to brokerage other than exchange and real estate works.
- Commercial agencies, after registration of each agency with the ministry of commerce.
- Operation and maintenance of electrical and electronic systems and computers.
- Import and export services, marketing for others, cooked and uncooked food services, inspection interview services, packaging and shipment.
- Maintenance and repair of cars.
- Wholesale and retail trading/renting of light and heavy equipment.
- Water works, sewerage, maintenance, landscaping and cleaning contracts.

2. SIGNIFICANT ACCOUNTING POLICIES

The interim financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles applicable in the Kingdom of Saudi Arabia. The Company has applied the same accounting policies and principles for preparing these interim financial statements with those set out in the audited financial statements for the year ended 31 December, 2015. Significant accounting policies adopted in the preparation of these interim financial statements are summarized below:

Accounting convention

These interim financial statements are prepared under the historical cost convention.

Use of estimates

The preparation of interim financial statements in accordance with generally accepted accounting principles requires the use of estimates and judgments which might affect the valuation of recorded assets, liabilities and the disclosure of contingencies in the notes to the interim financial statements at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on the best information available to the management at the date of issuing the interim financial statements, the actual end results might differ from those estimates.

Accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year, or in the year of revision and future years, if the revision affects both current and future years. The significant areas of estimation uncertainty and critical adjustments in applying accounting policies that have the most significant effect on the amounts recognized in the interim financial statements are as follows:

- estimated useful lives of and residual value of property, equipment and vehicles
- estimated costs of long term contracts
- provision for doubtful debts
- provisions and accruals
- provision for slow moving inventories

Cash and cash equivalents

Cash and cash equivalents consist of bank balances and cash in hand and short term deposits that are readily convertible into known amounts of cash and have original maturities of three months or less.

Accounts receivable

Accounts receivable are stated at original invoice amount less a provision for any doubtful amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS PERIOD AND YEAR ENDED 31 DECEMBER 2016**

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Inventories

Inventories are stated at the lower of cost and market value. Cost is determined using purchase cost on a weighted average basis.

Assets held for sale

Property, equipment and vehicles are classified as assets held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. Assets held for sale are measured at the lower of carrying amount and fair value less costs to sell. Property, equipment and vehicles once classified as held for sale are not depreciated.

Investments

Investments in subsidiaries are accounted for under equity method.

Mobilisation costs

Direct costs incurred to commence new contracts are deferred and amortised over the period of related contracts.

Property, equipment and vehicles

Property, equipment and vehicles are initially recorded at cost and are stated at cost less accumulated depreciation and any impairment in value. The cost of property, equipment and vehicles is depreciated on a straight line basis over the estimated useful lives of the assets. Following are the estimated useful lives of the assets for the calculation of depreciation:

Buildings, portables and hangers	4-20 years
Machinery, equipment and tools	4-10 years
Construction vehicles	4-6.67 years
Office equipment and furniture	4-6.67 years

Expenditures for repair and maintenance are charged to interim statement of income. Improvements that increase the value or materially extend the life of the related assets are capitalized.

Impairment of non-current assets

At each balance sheet date, the carrying amounts of non-current assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. Impairment loss is recognized as an expense in the interim statement of income immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but the increased carrying amount does not exceed the carrying amount that would have been determined, had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized as income immediately in the interim statement of income.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS PERIOD AND YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounts payable and accruals

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

Provision for obligation

A provision is recognized in the interim balance sheet when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Employees' end of service benefits

Provision is made for amounts payable according to Company's policy applicable to employees' accumulated periods of service at the balance sheet date.

Statutory reserve

As required by the Articles of Association of the Company, 10% of the net income for the period has been transferred to the statutory reserve. The Company may resolve to discontinue such transfers when the reserve totals 50% of the capital. The reserve is not available for distribution. The Company has a practice of transferring the required amount of net income in statutory reserves on quarterly basis and makes necessary adjustments at the year end.

Zakat and income tax

The Company is subject to the regulations of the General Authority of Zakat and Income Tax ("GAZT") in the Kingdom of Saudi Arabia. Zakat and income tax are provided on accruals basis and are charged to the interim statement of income. Income tax is computed on adjusted net income of foreign shareholders. The zakat and income tax estimates are computed for the interim periods and the actual zakat and income tax charge are computed at year end and the difference is adjusted at the year end. Any difference in the estimate is recorded when the final assessment is approved, at which time the provision is cleared.

Foreign currencies

Transactions in foreign currencies are recorded in Saudi Riyals at the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the interim balance sheet date. All differences are taken to the interim statement of income.

Segmental reporting

A segment is a distinguishable component of the Company that is engaged either in providing products or services (a business segment) or in providing products or services within a particular economic environment (a geographic segment), which is subject to risks and rewards that are different from those of other segments.

(Loss) earnings per share

Basic (loss) earnings per share from net (loss) income is calculated by dividing the net (loss) income for the period / year by the weighted average number of shares outstanding during the period / year.

Basic (loss) earnings per share from main operations is calculated by dividing (loss) income from main operations for the period / year by the weighted average of number of shares outstanding during the period / year.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS PERIOD AND YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition

Trading revenue

Sales revenue represents the invoiced value of goods supplied and services rendered by the Company during the period. Services performed but not billed at the interim balance sheet date are classified as "accrued income".

Contracting revenue

The Company principally operates fixed price contracts. If the outcome of such a contract can be reliably measured, revenue associated with the construction contract is recognised by reference to the percentage of completion method of each contract activity at period / year end.

The outcome of a construction contract can be estimated reliably when:

- (i) the total contract revenue can be measured reliably;
- (ii) it is probable that the economic benefits associated with the contract will flow to the entity;
- (iii) the costs to complete the contract and the stage of completion at the interim balance sheet date can be measured reliably; and
- (iv) the contract costs attributable to the contract can be clearly identified and measured reliably so that actual contract costs incurred can be compared with prior estimates.

When the outcome of a construction cannot be estimated reliably (principally during early stages of a contract), contract revenue is recognised only to the extent of costs incurred that are expected to be recoverable.

In applying the percentage of completion method, revenue recognised corresponds to the total contract revenue multiplied by the actual completion rate based on the proportion of total contract costs incurred to date and the estimated cost to complete.

When the stage of completion is determined by reference to the contract costs incurred up to the reporting date, only those contract costs that reflect work performed are included in costs incurred up to the reporting date. The following costs are excluded from contract costs:

- (i) Contract costs that relate to future activity on the contract, such as costs of materials that have been delivered to a contract site or set aside for use in a contract but not yet installed, used or applied during contract performance, unless the materials have been made especially for the contract.
- (ii) Payments made to subcontractors in advance of work performed under the subcontract.

The value of work executed but not billed at the balance sheet date is classified as "value of work executed in excess of billings" under current assets. Amount billed in excess of work executed at the balance sheet date is classified as "billing in excess of value of work executed" are classified under current liabilities.

When an uncertainty arises about the collectability of an amount already included in contract revenue, and already recognized in the interim statement of income, the uncollectable amount or the amount in respect of which recovery has ceased to be probable is recognized as an expense rather than as an adjustment of the amount of contract revenue.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS PERIOD AND YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue from change orders is recognized when:

- (i) The change orders have been approved by the customer; and
- (ii) The amount of change order can be measured reliability.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognized as an expense immediately. The amount of such a loss is determined irrespective of:

- (i) Whether or not work has commenced on the contract.
- (ii) The stage of completion of contract activity.
- (iii) The amount of profits expected to arise on other contracts which are not treated as a single construction contract.

Change in the estimate of contract revenue or contract costs or the effect of a change in the estimate of the outcome of a contract, is accounted for as a change in accounting estimate and accordingly accounted for prospectively.

Contract costs

Contract costs include costs that relate directly to the specific contract and costs that are attributable to contract activity in general and can be allocated to the contract. Costs that relate directly to a specific contract comprise: site labour costs (including site supervision), costs of materials used in construction, depreciation of equipment used on the contract, costs of design, and technical assistance that is directly related to the contract.

Leasing

Leases are classified as capital leases whenever the terms of the lease transfer substantially all of the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. Rentals payable under operating leases are charged to statement of income on a straight-line basis over the term of the operating lease.

Expenses

Selling and marketing expenses are those that project bidding costs and advertising as well as allowance for doubtful debts. All other expenses except for operating costs and financial charges are classified as general and administration expenses.

Fair value

The fair value of commission bearing items is estimated based on discounted cash flows using commission rates for items with similar terms and risk characteristics.

3. INTERIM PERIOD RESULTS

All necessary adjustments have been made by the Company's management to present fairly the interim financial statements for the Company and the results of its interim operations. The results of operations for the interim period may not be an accurate indication of the actual results for the full year.
