INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Shareholders of
Almarai Company
A Saudi Joint Stock Company
Riyadh - Saudi Arabia

We have reviewed the accompanying interim consolidated balance sheet of Almarai Company a Saudi Joint Stock Company and its subsidiaries (the "Group") as of 30 June 2007, the related interim consolidated statements of income, cash flow and changes in shareholders' equity for the period ended 30 June 2007, including the related notes. These interim consolidated financial statements are the responsibility of the Group's management.

We conducted our review in accordance with the standards established by the Saudi Organisation for Certified Public Accountants. A limited review of interim consolidated financial statements consists principally of applying analytical procedures to financial data and making inquiries of persons responsible in the Group for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the interim consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with generally accepted accounting principles.

ALMARAI COMPANY

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. THE COMPANY AND ITS BUSINESS DESCRIPTION

Almarai Company (the "Company") is a Saudi Joint Stock Company, which was converted on 2 Rajab 1426 A.H. (8 August 2005). The Company initially commenced trading on 19 Dl' Hijjah 1411 A.H. (1 July 1991) and still operates under Commercial Registration No. 1010084223.

On 30 Muharram 1428 A.H. (18 February 2007) the Company acquired 100% of the share capital of Western Bakeries Company Limited and its subsidiary International Baking Services Company Limited, two Limited Liability Companies registered in the Kingdom of Saudi Arabia.

On 8 Rabi I 1428 A.H. (27 March 2007), the Company issued 9 million shares to the owners of the Western Bakeries Company Limited and its subsidiary International Baking Services Company Limited, on acquisition of the same (Note 5), and as a result the share capital of the Company increased from 100 million fully paid and issued shares of SAR 10 each to 109 million fully paid and issues shares of SAR 10 each.

In the second quarter of 2007 Western Bakeries Company Limited entered into a joint venture to manufacture and distribute a range of bakery products under the '7 Days' brand. The joint venture company is under formation and its initial share capital will be SAR 35 million, 60% Western Bakeries Company Limited, 25% Vivartia SA and 15% Olayan Financing Company.

In May 2007 the Company paid SAR 7 million for a 10% stake in Jannat for Agricultural Investment Company whose objective is to develop feed supplies within and outside the Kingdom of Saudi Arabia.

In quarter 3, 2007 Almarai Company is expected to pay around SAR 465 million

as its contribution to the MTC led consortium. This will include SAR 355 million in the form of equity and SAR 110 million in the form of a founding shareholders' loan.

2. BASIS OF ACCOUNTING, PREPARATION, CONSOLIDATION & PRESENTATION OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

- (a) The interim consolidated financial statements have been prepared on the accrual basis under the historical cost convention and in compliance with the accounting standards issued by the Saudi Organisation for Certified Public Accountants (SOCPA).
- (b) The statutory records are maintained in Arabic.
- (c) When necessary, prior period comparatives have been regrouped on a basis consistent with current period classification.
- (d) The interim consolidated financial statements reflect all business operations undertaken on behalf of the Company and its subsidiaries and the assets and liabilities beneficially held by the Company.
- (e) The figures in these interim consolidated financial statements are rounded to the nearest thousand.

3. SIGNIFICANT ACCOUNTING POLICIES

A. Use of Estimates

The preparation of interim consolidated financial statements, in conformity with generally accepted accounting principles, requires the use of estimates and assumptions. Such estimates and assumptions may affect the balances reported for certain assets and liabilities as well as the disclosure of certain contingent assets and liabilities as at the balance sheet date. Any estimates or assumptions affecting assets and liabilities may also affect the reported revenues and expenses for the same reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

B. Revenue Recognition

Products are sold principally on a sale or return basis. Revenue is recognised on delivery of products to customers by the Group or its distributors, at which time risk and title passes, subject to the physical return of unsold products. Adjustment is made in respect of known actual returns.

C. Cash and Bank Balances

Time deposits purchased with original maturities of less than three months are included in Cash at Bank.

D. Accounts Receivable

Accounts receivable are carried at the original invoiced amount less any provision made for doubtful debts. Provision is made for all debts for which the collection is considered doubtful.

E. Inventory Valuation

Inventory is stated at the lower of cost and net realisable value. In general, cost is determined on a weighted average basis and includes transport and handling costs. In the case of manufactured products, cost includes all direct expenditure based on the normal level of activity. Net realisable value comprises estimated price less further production costs to completion and appropriate selling

and distribution costs. Provision is made, where necessary, for obsolete, slow moving and defective stocks.

F. Goodwill

Goodwill represents the difference between the cost of businesses acquired and the aggregate of the fair values of their identifiable net assets at the date of acquisition. Goodwill arising on acquisitions is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

G. Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation. There is no open market for dairy livestock in the GCC against which to measure fair value. Accordingly, dairy livestock are treated as fixed assets and included in the accounts at their cost of purchase or at the cost of rearing to the point of first calving, less accumulated depreciation. The cost of dairy youngstock is determined by the cost of rearing to their respective age.

Cows in the dairy herd are depreciated to their estimated residual value, at rates between 10% - 25%, based on their expected continuing useful life. Other fixed assets are depreciated on a straight line basis at the following annual rates:

Buildings	3% - 10%
Plant, Machinery & Equipment	5% - 33%
Motor Vehicles	15% - 25%
Land is not depreciated	

The carrying values of fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount. Impairment losses are expensed in the interim consolidated Income Statement.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods. A reversal of an impairment loss is recognised as income immediately in the consolidated Income Statement.

H. Conversion of Foreign Currency Transactions

During the financial period foreign currency transactions are converted and booked in Saudi Riyals at standard exchange rates which are periodically set to reflect average market rates or forward rates if the transactions were so covered. At the balance sheet date, assets and liabilities denominated in foreign currencies are converted into Saudi Riyals at the exchange rates ruling on such date or at the forward purchase rates if so covered. Any resulting exchange variances are charged or credited to the interim consolidated Income Statement as appropriate. Gains and losses on derivative financial instruments used to hedge foreign currency exposures are recognised in the interim consolidated Income Statement when the underlying transaction occurs.

I. Employees' Termination Benefits

Employees' termination benefits are payable as a lump sum to all employees employed under the terms and conditions of the Saudi Labour and Workman Law on termination of their employment contracts. The liability is calculated as the current value of the vested benefits to which the employee is entitled, should the employee leave at the balance sheet date. Termination payments

are based on the employees' final salaries and allowances and their cumulative years of service, in compliance with the conditions stated in the laws of the Kingdom of Saudi Arabia.

J. Selling, Distribution, General & Administration Expenses

Selling, Distribution, General & Administration Expenses include direct and indirect costs not specifically part of Cost of Sales as required under generally accepted accounting principles. Allocations between Cost of Sales and Selling, Distribution, General and Administration Expenses, when required, are made on a consistent basis. The Company charges payments in respect of long term agreements with customers and distributors to Selling and Distribution Expenses.

K. Management Fees

The Company credits fees charged in respect of the management of Arable Farms to General and Administration Expenses.

L. Zakat

Zakat is provided for in the interim consolidated balance sheet on the basis of an estimated Zakat assessment carried out in accordance with Saudi Department of Zakat and Income Tax (DZIT) regulations. Adjustments arising from final Zakat assessments are recorded in the period in which such assessments are made.

M. Operating Leases

Rentals in respect of operating leases are charged to the interim consolidated Income Statement over the terms of the leases.

N. Investments in Securities

Investments in securities held to maturity are measured and carried in the interim consolidated Balance Sheet at fair value. Where there is no market for the Investments cost is taken as the most appropriate, objective and reliable measurement of fair value of the securities.
