For the period ended 30 June 2016

Annual improvements to IFRS 2010-2012 and 2011-2013 cycle applicable for annual periods beginning on or after 1 July 2014. A summary of the amendments is contained as under:

- IFRS 3 "business combinations" amended to clarify the classification and measurement of contingent consideration in a business combination. It has been further amended to clarify that the standard does not apply to the accounting for the formation of all types of joint arrangements in IFRS 11.
- IFRS 8 "operating segments" has been amended to explicitly require disclosure of judgments made by management in applying aggregation criteria.
- IFRS 13 has been amended to clarify measurement of interest free short term receivables and payables at their
 invoiced amount without discounting, if the effect of discounting is immaterial. It has been further amended to
 clarify that the portfolio exception potentially applies to contracts in the scope of IAS 39 and IFRS 9 regardless
 of whether they meet the definition of a financial asset or financial liability under IAS 32.
- IAS 16 "Property plant and equipment" and IAS 38 "intangible assets": the amendments clarify the
 requirements of revaluation model recognizing that the restatement of accumulated depreciation (amortisation)
 is not always proportionate to the change in the gross carrying amount of the asset.
- IAS 24 "related party disclosures"— the definition of a related party is extended to include a management
 entity that provides key management personnel services to the reporting entity, either directly or indirectly.

Standards issued but not yet effective

In addition to the above mentioned standards, the following standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective. Further, the Company has chosen not to early adopt the amendments and revisions to the International Financial Reporting Standards which have been published and are mandatory for compliance for the Company with effect from future dates.

IFRS 9 Financial Instruments

IFRS 9, as issued, reflects the first phase of the IASB's work though the adoption date is subject to the recently issued Exposure Draft on the replacement of IAS 39 and applies to classification and measurement of financial assets and liabilities as defined in IAS 39. The standard was initially effective for annual periods beginning on or after 1 January 2013, but Amendments to IFRS 9 Mandatory Effective Date of IFRS 9 and Transition Disclosures, issued in December 2011, moved the mandatory effective date to 1 January 2015.

However, on 19 November 2013, the IASB issued IFRS 9 Financial Instruments (Hedge Accounting and amendments to IFRS 9) amending IFRS 9 to include the new general hedge accounting model. In its February 2014 meeting, the IASB decided that IFRS 9 would be mandatorily effective for years ending on or after 31 December 2018.

IFRS 16 Leases

The amended IFRS 16 (Leases) released on January 13, 2016 which changes the set of requirements for the accounting treatment for asset, liability and other complexities such as non-lease element, variable lease period and option periods. The standard is effective from January 01, 2019 with early adoption permitted in certain circumstances.
