AUDITORS' REPORT (LIMITED REVIEW) ON INTERIM FINANCIAL STATEMENTS

To the stockholders Saudi Kayan Petrochemical Company (Saudi Kayan) Al-Jubail, Saudi Arabia

Scope of Review

We have reviewed the interim balance sheet of Saudi Kayan Petrochemical Company ("Saudi Kayan") (a Saudi Joint Stock Company) as of March 31, 2012 and the related interim statements of operations, cash flows and stockholders' equity for the three months then ended, and notes 1 to 9 which form an integral part of these interim financial statements as prepared by the Company and presented to us with all the necessary information and explanations. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standard of auditing applicable to interim financial reporting in the Kingdom of Saudi Arabia issued by the Saudi Organization for Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Review Results

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with generally accepted accounting standards in the Kingdom of Saudi Arabia.

NOTES TO THE INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED MARCH 31, 2012

1. ORGANIZATION AND ACTIVITIES

Saudi Kayan Petrochemical Company (Saudi Kayan) ("the Company") is a Saudi Joint Stock Company registered under commercial registration number 2055008450 dated 26 Jumada I, 1428 H (June 12, 2007). The authorized, issued and fully paid share capital of the Company, amounting to SR 15,000 million, is divided into 1,500 million shares of SR 10 each.

The principal activity of the Company is to invest in industrial projects in the petrochemical and chemical fields and owning and constructing the industrial projects to support the Company's activities including raw materials and other within and outside the Kingdom, operating and managing the industrial projects built by the Company and to provide the support and maintenance of the utilities related to these plants and gaining the technical expertise in petrochemical and chemical fields through co-operation and purchasing from others.

From October 1, 2011, the Company announced the commencement of commercial operation for the majority of its plants including olefins, ethylene glycol, polypropylene, high density polyethylene, polycarbonate and phenolics.

The Company's principal place of business is in Al-Jubail Industrial City, Kingdom of Saudi Arabia.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying interim financial statements have been prepared in compliance with the accounting standards generally accepted in the Kingdom of Saudi Arabia issued by the Saudi Organization for Certified Public Accountants. The following is a summary of significant accounting policies applied by the Company:

a) Accounting convention

The financial statements are prepared under the historical cost convention.

b) Use of estimates

The preparation of interim financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

c) Revenue recognition

All product sales are made to Saudi Basic Industries Corporation (referred to as "SABIC" or "the Marketer") under various marketing and offtake agreements. Upon delivery of products to the Marketer, sales are recorded at provisional selling prices which are later adjusted based upon actual selling prices received by the Marketer from third parties, after deducting costs of shipping, distribution and marketing. Adjustments are recorded as they become known to the Company.

d) Selling, and general and administrative expenses

Selling expenses principally comprise of costs incurred in the distribution and sale of the Company's products. All other expenses are classified as general and administrative expenses.

General and administrative expenses include direct and indirect costs not specifically part of production costs as required under generally accepted accounting standards. Allocations between general and administrative expenses and cost of sales, when required, are made on a consistent basis.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS ENDED MARCH 31, 2012

e) Accounts receivable

Accounts receivable are stated at the original invoice amount less an allowance for any uncollectible amounts. Adjustments are recorded as they become known to the Company. An estimate for doubtful debts is made when the collection of the accounts receivable amount is considered doubtful. Bad debts are written off as incurred.

f) Inventories

Finished goods, chemicals and raw materials are stated at the lower of cost or net realizable value. The cost of finished goods, chemicals, spare parts and supplies is determined on a weighted average cost basis. Inventories of finished goods include cost of materials, labor and an appropriate portion of direct overheads.

Inventory items that are considered as essential to ensure continuous plant operations are treated as capital spare parts and are classified as plant and equipment and are depreciated using the depreciation rate relevant to the corresponding plant and equipment.

g) Pre-operative expenses

Pre-operative expenses include expenses not directly attributable to the construction costs of the Company and which do not have future benefits.

h) Cost of projects under construction

Cost of projects under construction represents the costs incurred for the construction of various projects and are accounted for at cost.

i) Property, plant and equipment

Property, plant and equipment are stated at cost net of accumulated depreciation. Expenditure on maintenance and repairs is expensed, while expenditure for betterments is capitalized. Depreciation is provided over the estimated useful lives of the applicable assets using the straight-line method. Leasehold improvements are amortized over the shorter of the estimated useful life or the remaining term of the lease. The estimated years of depreciation of the principal classes of assets are as follows:

| | Years |
|---------------------|-------|
| Buildings | 33 |
| Plant and equipment | 20 |
| Others | 2-10 |

j) Impairment

At each balance sheet date, the Company reviews the carrying amounts of its non-current assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. Impairment losses are recognized as an expense immediately.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS ENDED MARCH 31, 2012

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized as income immediately.

k) Other non-current assets

Other non-current assets mainly include intangible assets. They also include receivables related to the employees' home ownership program (note 2p).

Intangible assets anticipated to provide identifiable future benefits are classified as non-current assets, and are amortized using the straight-line method over their estimated useful lives. Such intangible assets and their expected amortization periods are as follows:

Pre-operating costs

Pre-operating costs include costs incurred prior to commencement of commercial operations of the plants and are being amortized over a period of seven years on a straight-line basis beginning from the commencement of commercial operations of each plant.

Planned turnaround costs

Planned turnaround costs are deferred and amortized over the period until the date of the next planned turnaround. Should an unexpected turnaround occur prior to the previously envisaged date of planned turnaround, then the previously unamortized deferred costs are immediately expensed and the new turnaround costs are amortized over the period likely to benefit from such costs.

Front end fee, debt acquisition and arrangement costs

Loan front end fees, debt acquisition and arrangement costs relate to the loans from Saudi Industrial Development Fund ("SIDF") and a syndicate of banks. These costs are being amortized over the period of the loans and the amortization is capitalized as part of cost of projects under construction up to the date of commencement of commercial production and subsequently it is charged to the statement of operations.

Employee home ownership cost

Employee home ownership costs are amortized using the straight-line method over a period of five years.

l) Foreign currency translation

Transactions denominated in foreign currencies are translated into Saudi Riyals at exchange rates prevailing on the dates of such transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Saudi Riyals at exchange rates prevailing at the balance sheet date. Exchange gains or losses are credited or charged to the statement of operations.

m) Provision for obligations

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS ENDED MARCH 31, 2012

n) Borrowing costs

Borrowing costs directly attributable to the projects under construction are added to the cost of those assets until such time as the assets are ready for thier intended use. Investment income earned on temporary investment of specific borrowings pending their expenditure on the projects under construction is deducted from the borrowing costs eligible for capitalization.

o) End-of-service indemnities

End-of-service indemnities, required by the Company's policies and the Saudi Arabian labor law, are provided in the interim financial statements based on the employees' length of service.

p) Employees' home ownership program

The Company has a home ownership program that offers eligible Saudi employees home ownership opportunities.

Unsold housing units constructed for eventual sale to eligible employees are included under buildings and depreciated over 33 years.

When the houses are allocated to the employees, the cost of houses constructed and sold to the employees under the program is transferred from property and equipment to other non-current assets. Down payments and installments of purchase price received from employees are set off against the other non-current assets.

The cost of the houses and the related purchase price is removed from other non-current assets when the title to the houses is transferred to the employees, at which time no significant gain or loss is expected to result to the Company.

q) Employees' savings plan

The Company maintains an employees' saving plan. The contributions from the participants are deposited in a separate bank account and provision is established for the Company's contribution.

r) Zakat

The Company is subject to zakat in accordance with the Regulations of the Department of Zakat and Income Tax ("DZIT") in the Kingdom of Saudi Arabia. Zakat is calculated and accrued for the quarter based on estimation. Zakat is recorded at the period end based on period end figures and any difference between the estimate and the actual is adjusted at that time. Any difference between the estimate and final assessment is recorded when settled.

s) Technology and innovation

Technology and innovation costs are expensed when incurred.

t) Leasing

Leases are classified as capital leases whenever the terms of the lease transfer substantially all of the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. Rentals payable under operating leases are charged to the statement of operations on a straight-line basis over the term of the operating lease.

u) Segmental analysis

A segment is a distinguishable component of the Company that is engaged in providing products or services (a business segment) or in providing products or services within a particular economic environment (a geographic segment), which is subject to risks and rewards that are different from those of other segments.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Continued) FOR THE THREE MONTHS ENDED MARCH 31, 2012

All of the Company's sales are made to one customer and substantially all of the Company's operations are related to one operating segment which is petrochemicals. Accordingly, segmental analysis by geographic and operating segment has not been presented.
