INDEPENDENT AUDITORS' REPORT

To the Shareholders
Saudi United Cooperative Insurance Company (WALA'A)
Al-Khobar, Saudi Arabia

Scope of audit:

We have audited the accompanying statement of financial position of Saudi United Cooperative Insurance Company (Wala'a) - a Saudi Joint Stock Company ("the Company") as at December 31, 2014, and the related statements of insurance operations and surplus, shareholders' income, shareholders' comprehensive income, changes in shareholders' equity, insurance operations' cash flows and shareholders' operations' cash flows for the year then ended and the notes from 1 to 28 which form an integral part of these financial statements. These financial statements are the responsibility of the Company's management and have been prepared by them in accordance with Article 123 of the Regulations for Companies and presented to us together with all the information and explanations which we required. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the auditing standards generally accepted in the Kingdom of Saudi Arabia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting policies used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Unqualified opinion:

In our opinion, the financial statements taken as a whole:

- Present fairly, in all material respects, the financial position of the Company as at December 31, 2014 and the results of its operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards; and
- Comply, in all material respects, with the requirements of the Regulations for Companies and the Company's by-laws with respect to the preparation and presentation of the financial statements.

Emphasis of matter

We draw attention to Note 2 to the accompanying financial statements. These financial statements are prepared in accordance with IFRS and not in accordance with the accounting standards generally accepted in the Kingdom of Saudi Arabia.

Chief Financial Officer

Chief Executive Officer

Director

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE YEAR ENDED DECEMBER 31, 2014**

(All amounts expressed in Saudi Riyals unless otherwise stated)

1. General information

The Saudi United Cooperative Insurance Company ("the Company") is a Saudi Joint Stock Company established in Al Khobar, Kingdom of Saudi Arabia and incorporated on 19 Jumada II 1428H corresponding to July 4, 2007 under Commercial Registration No. 2051034982.

The principal activities of the Company are to transact cooperative insurance operations and all related activities in accordance with the Law on Supervision of Cooperative Insurance Companies (the "Law") and its implementing regulations in the Kingdom of Saudi Arabia. The Company was granted the license (number TMN/16/2008) to practice general and medical insurance and re-insurance business from the Saudi Arabian Monetary Agency (SAMA) on 28 Jumada II 1429 H corresponding to July 2, 2008.

2. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented.

2.1 Basis of preparation

The Company has prepared the accompanying financial statements under the historical cost convention on the accrual basis of accounting, except for available-for-sale investments, which have been measured at fair value in the statement of financial position of insurance operations and shareholders' comprehensive operations, and in conformity with the International Financial Reporting Standards (IFRS). Accordingly, these financial statements are not intended to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia, i.e. in accordance with the standards issued by the Saudi Organization for Certified Public Accountants ("SOCPA").

As required by the Law, the Company maintains separate accounts for insurance operations and shareholders' operations and presents the financial statements accordingly. The physical custody and title of all assets related to the insurance operations and shareholders' operations are held by the Company. Revenues and expenses clearly attributable to either activity are recorded in the respective accounts. The basis of allocation of expenses from joint operations is determined by the management and board of directors of the Company.

As per the by-laws of the Company and the Implementing Regulations for Insurance Companies (the "Regulations"), the surplus arising from the insurance operations is distributed as follows:

Transfer to shareholders' operations	90%
Transfer to insurance operations' accumulated surplus	10%
	<hr/>
	100%

If the insurance operations result in a deficit, the entire deficit is borne by the shareholders' operations.

2.2 New IFRS, International Financial Reporting and Interpretations Committee's interpretations (IFRIC) and amendments thereof, adopted by the Company

The accounting policies used in the preparation of these financial statements are consistently applied for all years presented, except for the adoption of certain amendments and revisions to existing standards as mentioned below, which are effective for periods beginning on or after January 1, 2014 but had no significant financial impact on the financial statements of the Company:

- Amendment to IAS 32, 'Financial instruments: Presentation', on financial assets and liabilities offsetting, effective January 1, 2014. These amendments are to the application guidance in IAS 32, 'Financial instruments: Presentation', and clarify some of the requirements for offsetting financial assets and financial liabilities on the statement of financial position.
- Amendments to IFRS 10, 12 and IAS 27 – Exceptions from consolidation for investment entities, effective January 1, 2014. These amendments mean that many funds and similar entities will be exempt from consolidating most of their subsidiaries. Instead, they will measure them at fair value through profit or loss. The amendments give an exception to entities that meet an 'investment entity' definition and which display particular characteristics. Changes have also been made IFRS 12 to introduce disclosures that an investment entity needs to make.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

(All amounts expressed in Saudi Riyals unless otherwise stated)

2. Summary of significant accounting policies (Continued)

2.2 New IFRS, International Financial Reporting and Interpretations Committee's interpretations (IFRIC) and amendments thereof, adopted by the Company (Continued)

- Amendment to IAS 36, 'Impairment of assets' on recoverable amount disclosures for non-financial assets, effective January 1, 2014. This amendment addresses the disclosure of information about the recoverable amount of impaired assets if that amount is based on fair value less costs of disposal.
- Amendment to IAS 39 'Financial instruments - Novation of derivatives and continuation of hedge accounting', effective January 1, 2014. This amendment provides relief from discontinuing hedge accounting when novation of a hedging instrument to a central counter party meets specified criteria.
- IFRIC 21, 'Levies', effective January 1, 2014. This is an interpretation of IAS 37, 'Provisions, contingent liabilities and contingent assets'. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event (known as an obligating event). The interpretation clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy.

2.2.1 Standards, interpretations and amendments to published standards that will be effective for the periods commencing after January 1, 2014 and have not been early adopted by the Company

The Company's management decided not to choose the early adoption of the following new and amended standards and interpretations issued which will become effective for the period commencing on or after July 1, 2014:

- Amendments to IAS 19, 'Employee benefits' on defined benefit plans, effective July 1, 2014. This amendment clarifies the application of IAS 19, 'Employee benefits' (2011) - referred to as 'IAS 19R', to plans that require employees or third parties to contribute towards the cost of benefits. The amendment does not affect the accounting for voluntary contributions.
- Amendments to IFRS 11, 'Joint arrangements' regarding acquisition of an interest in a joint operation, effective January 1, 2016. The amendments require an investor to apply the principles of business combination accounting when it acquires an interest in a joint operation that constitutes a 'business'.
- IFRS 15, 'Revenue from contracts with customers', effective January 1, 2017. It has established a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction contracts and the related interpretations.
- IFRS 14, 'Regulatory deferral accounts', effective January 1, 2016. This is an interim standard on the accounting for certain balances that arise from rate regulated activities ('regulatory deferral accounts'). It is only applicable to those entities that apply IFRS 1 as first-time adopters of IFRS.
- IFRS 9, 'Financial instruments', effective January 1, 2018. This replaces IAS 39, 'financial instruments: Recognition and measurement';
- Amendment to IAS 16, 'Property, plant and equipment' and IAS 38, 'Intangible assets' regarding depreciation and amortization, effective January 1, 2016. This amendment clarifies the acceptable methods of depreciation and amortization.
- Amendments to IFRS 9, 'Financial instruments' on hedge accounting, effective January 1, 2018.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

(All amounts expressed in Saudi Riyals unless otherwise stated)

2. Summary of significant accounting policies (Continued)

2.2.1 Standards, interpretations and amendments to published standards that will be effective for the periods commencing after January 1, 2014 and have not been early adopted by the Company (Continued)

- Annual improvements 2012 and 2013, effective July 1, 2014. These annual improvements include changes to:
 - IFRS 1, 'First time adoptions of IFRSs';
 - IFRS 2, 'Share based payments',
 - IFRS 3, 'Business combinations',
 - IFRS 8, 'Operating segments',
 - IAS 16, 'Property, plant and equipment',
 - IAS 38, 'Intangible assets',
 - IAS 24, 'Related party disclosures',
 - IFRS 13, 'Fair value measurement', and
 - IAS 40, 'Investment property'.
- Annual improvements 2014, effective July 1, 2016. These annual improvements amend standards from the 2012- 2014 reporting cycle. It includes changes to:
 - IFRS 5, 'Non-current assets held for sale and discontinued operations'
 - IFRS 7, 'Financial instruments: Disclosures'
 - IAS 19, 'Employee benefits', and
 - IAS 34, 'Interim financial reporting'

2.3 Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and the Company's financial statements present fairly, in all material respects, the financial position and results of operations. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

2.4 Product classification

2.4.1 Insurance contracts

Insurance contracts are those contracts when the Company (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. As a general guideline, the Company determines whether it has significant insurance risk, by comparing benefits paid with benefits payable if the insured event did not occur.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during this period, unless all rights and obligations are extinguished or expired.

2.4.2 Investment contracts

Investment contracts are those contracts that transfer significant financial risk. Financial risk is the risk of a possible future change in one or more of a specified interest rate, security price, commodity price, foreign exchange rate, index of price or rates, a credit rating or credit index or the other variable.

Investment contracts can however be reclassified as insurance contracts after inception if insurance risk becomes significant.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE YEAR ENDED DECEMBER 31, 2014**

(All amounts expressed in Saudi Riyals unless otherwise stated)

2. Summary of significant accounting policies (Continued)**2.5 Segment reporting**

An operating segment is a component of the Company that is engaged in business activities from which it earns revenues and incurs expenses and about which discrete financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. For management purposes, the Company is organized into business units based on their products and services and has five reportable operating segments as follows:

- Medical insurance provides coverage for health insurance.
- Motor insurance provides coverage for vehicles' insurance.
- Property insurance provides coverage for property insurance.
- Engineering insurance provides coverage for engineering and contract works.
- Other insurance provides coverage for marine and other general insurance.

Segment performance is evaluated based on profit or loss which, in certain respects, is measured differently from profit or loss in the financial statements.

No inter-segment transactions occurred during the year. If any transaction was to occur, transfer prices between business segments are set on an arm's length basis in a manner similar to transactions with third parties.

Shareholders' income is a non-operating segment. Income earned from time deposits and investments is the only revenue generating activity. Certain direct operating expenses and other overhead expenses are allocated to this segment on an appropriate basis.

2.6 Functional and presentation currency

The Company's books of account are maintained in Saudi Riyals which is also the functional currency of the Company. Transactions denominated in foreign currencies are translated into Saudi Riyals at exchange rates prevailing on the dates of such transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Saudi riyals at rates prevailing on the reporting date. All differences are taken to the statements of insurance operations or to the statement of shareholders' operations as appropriate.

2.7 Property and equipment

Property and equipment are initially recorded at cost and are subsequently stated at cost less accumulated depreciation and any impairment in value. Cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of insurance operations and surplus during the financial period in which they are incurred. Depreciation is charged to the statement of insurance operations and surplus, using the straight-line method, to allocate costs of the related assets to their residual values over the estimated useful lives as follows:

	Years
Computer equipment	4
Furniture, fixture and office equipment	5
Vehicles	4

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount. These are included in the statement of insurance operations and surplus.

The carrying values of furniture, fixtures and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount, being the higher of their fair values less costs to sell and their value in use.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

(All amounts expressed in Saudi Riyals unless otherwise stated)

2. Summary of significant accounting policies (Continued)

2.8 Intangible asset

Intangible assets mainly include computer software whether acquired or internally developed is capitalised on the basis of cost incurred to acquire and bring to use or develop the specific software. These costs are amortised over their estimated useful lives of four years using the straight line method. Impairment losses, if any, are deducted from the carrying amount of the intangible assets.

Amortisation on additions to intangibles is charged from the month in which an asset is available for use, while no amortisation is charged for the month in which the asset is disposed of. Cost associated with maintaining computer software programmes are recognised as an expense when incurred.

The assets' residual values, useful lives and method for amortisation are reviewed at each financial year end and adjusted if impact on amortisation is significant.

2.9 Financial assets

2.9.1 Classification

The Company classifies its financial assets in the following categories: loans and receivables, available-for-sale investments and held-to-maturity investments. The classification is determined by management at initial recognition and depends on the purpose for which the financial asset were acquired or originated.

a) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those that the Company intends to sell in the short term or that it has designated as available-for-sale. Receivables arising from insurance contracts are also classified in this category and are reviewed for impairment as part of the impairment review of loans and receivables.

b) Available-for-sale investments

Available-for-sale investments are financial assets that are intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices and are designated as such at inception.

c) Held-to-maturity investments

Investments which have fixed or determined payments and the Company has the positive intention and ability to hold to maturity are classified under this category.

2.9.2 Recognition, measurement and de-recognition

Purchases and sale of available-for-sale investments are recognised on the trade-date, which is the date on which the Company commits to purchase or sell the investment. Available-for-sale investments are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition and are subsequently carried at fair value.

Changes in the fair value of available-for-sale investments are recognised in statements of shareholders' comprehensive operations and financial position for insurance operations.

Loans and receivable and Investments, held-to-maturity are carried at amortized costs less provision for impairment in value

Amortized cost is calculated by taking into account any discount or premium on acquisition. Any gain or loss on such investments is recognized in the statement of shareholders' income when the investment is derecognized or impaired.

Financial assets are de-recognised when the rights to receive cash flows from those assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership. When available-for-sale investments are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the statements of the insurance operations or shareholders' comprehensive operations as 'gains and losses from available-for-sale investments'. Commission on available-for-sale investments calculated using the effective interest method is recognised in the income statement as part of other income.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

(All amounts expressed in Saudi Riyals unless otherwise stated)

2. Summary of significant accounting policies (Continued)

2.9 Financial assets (Continued)

2.9.3 Determination of fair values

The fair values of quoted investments in active markets are based on current bid prices. If there is no active market for a financial asset, fair value is determined using valuation techniques. These include the use of recent arm's length transactions, discounted cash flow analysis, and other valuation techniques commonly used by market participants. Interest on available-for-sale securities calculated using the effective interest method is recognized in the statement of insurance operations and accumulated surplus and statement of shareholders income. Dividends on available-for-sale equity instruments are recognized in statement of insurance operations and accumulated surplus and statement of shareholders' income when the Company's right to receive payments is established. Both are included in the commission income line.

2.9.4 Impairment of financial assets

(a) Financial assets carried at amortised cost

The Company assesses at each end of the reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognised in the statement of insurance operations and accumulated surplus.

(b) Available-for-sale investments

The Company assesses at each date of the statement of financial position whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity investments classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is an objective evidence of impairment resulting in the recognition of an impairment loss.

The cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss is removed from shareholders' equity and recognised in the statement of insurance / shareholders' operations. If in a subsequent period the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised, the impairment loss is reversed through the statement of insurance / shareholders' operations.

2.10 Premiums receivable

Premiums receivable are recognized when due and measured on initial recognition at the fair value of the considerations received or receivable. The carrying value of premiums receivable is reviewed for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable, with the impairment loss recorded in the statement of insurance operations and accumulated surplus. Premiums receivable are de-recognized when the de-recognition criteria for financial assets have been met.

2.11 Reinsurance

Contracts entered into by the Company with reinsurers under which the Company is compensated for losses on one or more contracts issued by the Company and that meet the classification requirements for insurance contracts are classified as reinsurance contracts. Contracts that do not meet these classification requirements are classified as financial assets. Insurance contracts entered into by the Company under which the contract holder is another insurer (inwards reinsurance) are included with insurance contracts.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

(All amounts expressed in Saudi Riyals unless otherwise stated)

2. Summary of significant accounting policies (Continued)**2.11 Reinsurance (Continued)**

The benefits to which the Company is entitled under its reinsurance contracts held are recognised as reinsurance assets. These assets consist of short-term balances due from reinsurers, as well as longer term receivables, if any, that are dependent on the expected claims and benefits arising under the related reinsured insurance contracts. Amounts recoverable from or due to reinsurers are measured consistently with the amounts associated with the reinsured insurance contracts and in accordance with the terms of each reinsurance contract. Reinsurance liabilities are primarily premiums payable for reinsurance contracts and are recognised as an expense when due.

At each reporting date, the Company assesses whether there is any indication that any reinsurance assets may be impaired. Where an indicator of impairment exists, the Company makes an estimate of the recoverable amount. Where the carrying amount of a reinsurance asset exceeds its recoverable amount, the asset is considered impaired and is written-down to its recoverable amount.

2.12 Deferred policy acquisition costs

Commissions paid to intermediaries and other incremental direct costs incurred in relation to the acquisition and renewal of insurance contracts is recognized as "Deferred policy acquisition costs". The deferred policy acquisition costs are subsequently amortised over the period of the insurance contracts.

2.13 Claims

Claims, comprising amounts payable to policyholders and third parties and related loss adjustment expenses, are charged to the statement of insurance operations and accumulated surplus as incurred. Claims comprise the estimated amounts payable in respect of claims reported to the Company and those not reported at the reporting date.

The Company generally estimates its claims based on previous experience. In addition, a provision based on management's judgment is maintained for the cost of settling claims incurred but not reported at the reporting date. Any difference between the provisions at the reporting date and settlements for the following period is included in the statement of insurance operations for that period.

2.14 Salvage and subrogation reimbursement

Some insurance contracts permit the Company to sell (usually damaged) asset acquired in settling a claim (for example, salvage). The Company may also have the right to pursue third parties for payment of some or all costs (for example, subrogation).

Estimates of salvage recoveries are included as an allowance in the measurement of the outstanding claims liability. The allowance is the amount that can reasonably be recovered from the disposal of property.

Subrogation reimbursements are also considered as an allowance in the measurement of the outstanding claims liability. The allowance is the assessment of the amount that can be recovered from the action against the liable third party.

2.15 Liability adequacy test

At each reporting date, liability adequacy tests are performed to ensure the adequacy of the contracts liabilities net of related deferred policy acquisition costs. In performing these tests, management uses current best estimates of future contractual cash flows and claims handling and administration expenses. Any deficiency in the carrying amounts is immediately charged to the statement of insurance operations initially by writing off the related deferred policy acquisition costs and by subsequently establishing a provision for losses arising from liability adequacy tests (the un-expired risk provision).

Where the liability adequacy test requires the adoption of new best estimate assumptions, such assumptions (without margins for adverse deviation) are used for the subsequent measurement of these liabilities.

2.16 Short-term deposits

Short-term deposits comprise of time deposits with banks with maturity periods of more than three months and less than one year from the date of acquisition

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

(All amounts expressed in Saudi Riyals unless otherwise stated)

2. Summary of significant accounting policies (Continued)**2.17 Cash and cash equivalents**

Cash and cash equivalents comprise of cash in hand, cash at banks and short term deposits with an original maturity of less than three months at the date of acquisition. It also includes short term, highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of change in value.

2.18 Unearned reinsurance commission

Commission income on outwards reinsurance contracts are deferred and amortized over the terms of the insurance contracts to which they relate, similar to premiums earned. Amortisation is recorded in the statement of insurance operations and accumulated surplus.

2.19 Provisions

Provisions are recognized when the Company has an obligation (legal or constructive) arising from a past event, and the costs to settle the obligation are both probable and able to be reliably measured.

2.20 Accrued and other liabilities

Liabilities are recognized for amounts to be paid for goods and services received, whether or not billed to the Company.

2.21 Payables

Payables are recognized initially at fair value and measured at amortized cost using effective interest rate method. Liabilities are recognized for amounts to be paid and services rendered, whether or not billed to the Company.

2.22 End-of-service indemnities

End-of-service indemnities required by Saudi Labor and Workman Law are accrued by the Company and charged to the statement of insurance operations and accumulated surplus. The liability is calculated as the current value of the vested benefits to which the employee is entitled, should the employee leave at the reporting date. Termination payments are based on employees' final salaries and allowances and their cumulative years of service, as stated in the labor law of Saudi Arabia.

2.23 Zakat and income taxes

In accordance with the regulations of the Department of Zakat and Income Tax ("DZIT"), the Company is subject to zakat attributable to the Saudi shareholders and to income tax attributable to the foreign shareholders. Provision for zakat and income tax is charged to the statement of shareholders' comprehensive operations. Additional amounts payable, if any, at the finalization of final assessments are accounted for when such amounts are determined. Zakat is computed on the Saudi shareholders' share of equity and / or net income using the basis defined under the regulations of DZIT. Income tax is computed on the foreign shareholders' share of net income for the year. Zakat and income tax are charged to retained earnings as these are liabilities of the shareholders. Zakat and income tax are charged in full to the retained earnings. Income tax charged to the retained earnings, in excess to the proportion of the Saudi shareholders' zakat per share, is recovered from the foreign shareholders and credited to retained earnings.

Deferred income tax, when applicable, on all major temporary differences between financial income and taxable income are recognized during the period in which such differences arise, and are adjusted when related temporary differences are reversed. Deferred income tax are determined using tax rates which have been enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

The Company withholds taxes on certain transactions with non-resident parties, including dividend payments to foreign shareholders, in the Kingdom of Saudi Arabia as required under Saudi Arabian Income Tax Law. Withholding taxes paid on behalf of non-resident parties, which are not recoverable from such parties, are expensed.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE YEAR ENDED DECEMBER 31, 2014**

(All amounts expressed in Saudi Riyals unless otherwise stated)

2. Summary of significant accounting policies (Continued)**2.24 De-recognition of financial liabilities**

Financial liabilities, insurance, reinsurance payable and other payables are derecognised when the obligation under the liability is discharged, cancelled or expired. When the existing liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statement of insurance operations.

2.25 Offsetting

Financial assets and liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability simultaneously. Income and expense is not offset in the statement of insurance operations and surplus and shareholders' operations unless required or permitted by any accounting standard or interpretation.

2.26 Revenue recognition**(a) Recognition of premium and commission revenue**

Gross premiums and commissions are recognized with the commencement of the insurance risks. The portions of premiums and commission that will be earned in the future are reported as unearned premiums and commissions, respectively, and are deferred on a basis consistent with the term of the related policy coverage.

Premiums earned on reinsurance assumed, if any, are recognised as revenue in the same manner as if the reinsurance premiums were considered to be gross premiums.

(b) Commission income

Commission income on time deposits and held-to-maturity investments is recognized on a time proportion basis using the effective interest rate method.

(c) Dividend income

Dividend income is recognized when the right to receive a dividend is established.

2.27 Leasing

Leases are classified as capital leases whenever the terms of the lease transfer substantially all of the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. Rentals payable under operating leases are charged to income on a straight line basis over the term of the operating lease.

2.28 Trade date accounting

All regular way purchases and sales of financial assets are recognized / derecognized on the trade date (i.e. the date that the Company commits to purchase or sell the assets). Regular way purchases or sales of financial assets are transactions that require settlement of assets within the time frame generally established by regulation or convention in the market place.

2.29 Surplus from insurance operations

In accordance with the requirements of the Implementing Regulations for Co-operative Insurance (the Regulations) issued by SAMA, 90% of the net surplus from insurance operations is transferred to the statement of shareholders' income, while 10% of the net surplus is distributable to policyholders. Such surplus distributable to policyholders is disclosed under "Insurance operations' surplus".

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

(All amounts expressed in Saudi Riyals unless otherwise stated)

3. Critical accounting estimates and judgments

The Company makes estimates and assumptions that effect the reported amounts of assets and liabilities within the next financial year. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below:

The ultimate liability arising from claims made under insurance contracts

The estimation of the ultimate liability arising from claims made under insurance contracts is the Company's most critical accounting estimate. There are several sources of uncertainty that needed to be considered in estimating the liability that the Company will ultimately pay for such claims. The provision for claims incurred but not reported (IBNR) is an estimation of claims which are expected to be reported subsequent to the reporting date, for which the insured event has occurred prior to the reporting date. The primary technique adopted by management in estimating the cost of notified and IBNR claims, is that of using the past claims settlement trends to predict future claims settlement trends.

Claims requiring court or arbitration decisions are estimated individually. Independent loss adjusters normally estimate property claims. Management reviews its provisions for claims incurred, and claims incurred but not reported, on quarterly basis.

The Company is exposed to disputes with, and possibility of defaults by, its reinsurers. The Company monitors on a quarterly basis the evolution of disputes with and the strength of its reinsurers.

Premium deficiency reserve

At each balance sheet date, liability adequacy tests are performed separately for each class of business to ensure the adequacy of the unearned premium liability for that class. It is performed by comparing the expected future liability, after reinsurance, from claims and other expenses, including reinsurance expense, commissions and other underwriting expenses, expected to be incurred after balance sheet date in respect of policies in force at balance sheet date with the carrying amount of unearned premium liability. Any deficiency is recognised by establishing a provision (premium deficiency reserve) to meet the deficit.

The expected future liability is estimated with reference to the experience during the expired period of the contracts, adjusted for significant individual losses which are not expected to recur during the remaining period of the policies, and expectations of future events that are believed to be reasonable.

The movement in the premium deficiency reserve is recognised as an expense or income in the statement of insurance operations for the year.

Impairment of premiums and insurance balances receivable

An estimate of the uncollectible amount of premium receivable, if any, is made when collection of the full amount of the receivables as per the original terms of the insurance policy is no longer probable. For individually significant amounts, this estimation is performed on an individual basis. Amounts which are not individually significant, but which are past due, are assessed collectively and an allowance applied according to the length of time past due and Company's past experience.

Impairment of available-for-sale investments

The Company treats available-for-sale investments as impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires considerable judgment. In addition, the Company evaluates other factors, including normal volatility in share price for quoted investments and the future cash flows and the discount factors for unquoted investments.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)
(A Saudi Joint Stock Company)
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2014
(All amounts expressed in Saudi Riyals unless otherwise stated)

4. Cash and cash equivalents

	2014	2013
Insurance operations		
Cash in hand	67,000	67,000
Cash at banks	210,911,334	33,419,629
Time deposits	-	85,894,982
	210,978,334	119,381,611
Shareholders' operations		
Cash at banks	83,099,953	86,366,117

Time deposits are placed with local and foreign banks with an original maturity of less than three months from the date of acquisition and earn financial income at an average rate of 0.75% to 0.9% (2013: 0.8% to 1.1%) per annum.

5. Premiums and insurance balances receivable - net

	2014	2013
Premiums receivable	116,595,540	91,589,538
Insurance and reinsurance receivable	3,264,712	1,563,971
	119,860,252	93,153,509
Less: allowance for doubtful debts	(16,960,888)	(14,044,610)
	102,899,364	79,108,899

Movement in the allowance for doubtful debts is as follows:

	2014	2013
At January 1,	14,044,610	12,734,504
Provision for the year (Note 20)	2,916,278	1,310,106
At December 31,	16,960,888	14,044,610

The aging of receivable balances arising from premiums and insurance and reinsurance is as follows:

Premiums receivable

	Total	Neither impaired nor past due	Past due but not impaired	More than 360 days
			91-180 days	181-360 days
2014	101,437,657	64,159,588	18,920,213	14,079,004
2013	78,717,906	47,283,406	15,198,000	13,602,000

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE YEAR ENDED DECEMBER 31, 2014**

(All amounts expressed in Saudi Riyals unless otherwise stated)

5. Premium and insurance balances receivable (Continued)**Insurance and reinsurance receivable**

	Total	Neither impaired nor past due	<u>Past due but not impaired</u>		
			91-180 days	181-360 days	More than 360 days
2014	1,461,707	259,592	379,390	140,128	682,597
2013	390,993	-	-	-	390,993

Premiums insurance and reinsurance balances receivables comprise a large number of customers mainly within the Kingdom of Saudi Arabia and reinsurance companies both in Kingdom of Saudi Arabia and Europe. Insurance premiums and reinsurance balances receivable include Saudi Riyals 387,832 (December 31, 2013: Saudi Riyals 1,239,945) due in foreign currencies, mainly US dollars. The Company's terms of business generally require premiums to be settled within 90 days. Arrangements with reinsurers normally require settlement if the balance exceeds a certain agreed amount. No individual or company accounts for more than 16.8% of the premiums receivable as at December 31, 2014 (2013: 16.5%). In addition, the five largest customers account for 44% of the premiums receivable as at December 31, 2014 (2013: 43%).

Unimpaired receivables are expected to be fully recoverable. It is not the practice of the Company to obtain collateral over receivables and the vast majority is, therefore, unsecured.

6. Unearned premiums

	Year ended December 31,	
	2014	2013
At January 1,		
Unearned premiums	145,330,381	91,115,733

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE YEAR ENDED DECEMBER 31, 2014**

(All amounts expressed in Saudi Riyals unless otherwise stated)

17. Share capital

The authorized, issued and paid up share capital of the Company is Saudi Riyal 200 million at the year end consisting of 20 million shares of Saudi Riyal 10 each.

On April 23, 2014 (corresponding to 23 Jumada II 1435H), the Company received an approval from SAMA for increasing its ordinary share capital by SAR 200 million, by way of issuance of right shares to its existing shareholders. The Company is currently in the process of obtaining approval from the Capital Market Authority (CMA) after submission of information and documents specified by them. As a result of this rights issue, the share capital of the Company will increase to SR 400 million comprising of 40 million shares of SR 10 each in issued and fully paid up shares.

18. Statutory reserve

In accordance with the Law, the Company is required to transfer not less than 20% of its annual net income, after adjusting accumulated losses, to a legal reserve until such reserve amounts to 100% of the paid-up share capital of the Company. No such transfer has been made during the year due to accumulated losses as at December 31, 2014 and 2013.

19. Related party transactions and balances

Related parties represent, major shareholders, directors and entities controlled, jointly or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Company's Board of Directors.

The significant transactions with related parties and the related approximate amounts during the year are as follows:

	Year ended December 31,	
	2014	2013
Gross premium received from directors and their related parties	7,559,072	1,648,337
Gross premium received from key management personnel	12,806	11,298
Compensation of key management personnel of the Company:		
	2014	2013
Short-term benefits	3,687,704	3,328,433
Employees' end-of-service indemnities	920,216	623,544
	4,607,920	3,951,977

Balances due (to) from related parties are comprised of the following:

	Year ended December 31,	
	2014	2013
Premiums receivable from key management personnel, directors and their related parties	-	125,767
Claims payable to directors and related parties	(2,369,413)	(567,763)

Outstanding balances at year end, with related parties, are unsecured and settlement occurs as per payment terms. There have been no guarantees provided or received for any related party receivables.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

(All amounts expressed in Saudi Riyals unless otherwise stated)

23. Risk management**Risk governance**

The Company's risk governance is manifested in a set of established policies, procedures and controls which uses the existing organisational structure to meet strategic targets. The Company's philosophy revolves on willing and knowledgeable risk acceptance commensurate with the risk appetite and strategic plan approved by the Board of Directors of the Company. The Company is exposed to insurance, reinsurance, regulatory framework, credit, liquidity, foreign currency, commission rate, and market risks.

*Risk management structure***Board of Directors**

The apex of risk governance is the centralised oversight of Board of Directors providing direction and the necessary approvals of strategies and policies in order to achieve defined corporate goals.

Audit Committee and Internal Audit Department

Risk management processes throughout the Company are audited annually by the Internal Audit Department which examines both the adequacy of the procedure and the Company's compliance with such procedures. The Internal Audit Department discusses the results of all assessments with senior management, and reports its findings and recommendations directly to the Audit Committee.

Risk Management Committee

The Audit Committee of the Company has constituted a risk management committee which oversees the risk management function of the Company and report to Audit Committee on periodic basis. This Committee operates under framework established by the Board of Directors.

Senior management

Senior management is responsible for the day to day operations towards achieving the strategic goals within the Company's pre-defined risk appetite.

The primary objective of the Company's risk and financial management framework is to protect the Company from events that hinder the sustainable achievement of financial performance objectives, including failing to exploit opportunities.

The risks faced by the Company and the manner in which these risks are mitigated by management are summarized below:

Insurance risk management

The principal risk the Company faces under insurance contracts is that the actual claim payments or the timing thereof, differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long-term claims. Therefore the objective of the Company is to ensure that sufficient reserves are available to cover these liabilities.

The above risk exposure is mitigated by diversification across a large portfolio of insurance contracts. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines, structured claims management, quarterly review of reserves as well as the use of reinsurance arrangements.

Medical

Medical insurance is designed to compensate contract holders for expenses incurred in the treatment of a disease, illness or injury.

For medical insurance, the main risks are illness and related healthcare costs. Medical insurance is generally offered to corporate customers with large population to be covered under the policy.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

(All amounts expressed in Saudi Riyals unless otherwise stated)

23. Risk management (Continued)**Motor**

Motor insurance is designed to compensate contract holders for damage suffered to their vehicles or liability to third parties arising through accidents. Contract holders could also receive compensation for the fire or theft of their vehicles.

For motor contracts the main risks are claims for death and bodily injury and the replacement or repair of vehicles. Substantially all of the motor contracts relate to corporate customers. The Company has reinsurance cover to limit losses for any individual claim up to Saudi Riyal 0.5 million.

The level of court awards for deaths and to injured parties and the replacement costs of, and repairs to, motor vehicles are the key factors that influence the level of claims.

Property

Property insurance is designed to compensate contract holders for damage suffered to properties or for the value of property lost. Contract holders could also receive compensation for the loss of earnings caused by the inability to use the insured properties.

For property insurance contracts, the main risks are fire and business interruption. The Company has only underwritten policies for properties containing fire detection equipment.

These contracts are underwritten to the replacement value of the properties and contents insured. The cost of rebuilding properties and obtaining replacement contents and the time taken to restart operations which leads to business interruptions are the main factors that influence the level of claims. The Company has reinsurance cover for such exposure to limit losses for any individual claim up to Saudi Riyal 2 million.

Casualty

Casualty insurance primarily consists of risks taken for money, fidelity, workmen compensation, general public liability, engineering, etc. and is designed to compensate contract holders for damage suffered to them or others, arising through accidents, thefts, etc. Substantially all of the casualty contracts relate to corporate customers.

The Company has reinsurance cover to limit losses for any individual claim up to Saudi Riyal 1 million.

Marine cargo

Marine cargo insurance is designed to compensate contract holders for damage and liability arising through loss or damage to marine craft and accidents at sea resulting in the total or partial loss of cargoes.

For marine cargo insurance the main risks are loss or damage to marine craft and accidents resulting in the total or partial loss of cargoes.

The underwriting strategy for the marine class of business is to ensure that policies are well diversified in terms of vessels and shipping routes covered. The Company has reinsurance cover to limit losses for any individual claim up to Saudi Riyal 1 million.

Insurance claims reserving

Actuarial claims reserving is conducted by in house actuary in the various lines of insurance business according to the Insurance Reserving policy. The Executive Team monitors and maintains the Insurance Reserving policy, and conducts quarterly reviews of the Company's insurance claims provisions, and their adequacy. The reviews include peer reviews of own conclusions as well as independent analysis to confirm the reasonableness of the in house actuarial reviews. The Company also has periodic external reviews by local consultant actuaries.

Reinsurance risk

In order to minimize financial exposure arising from large claims, the Company, in the normal course of business, enters into contracts with other parties for reinsurance purposes. Such reinsurance arrangements provide for greater diversification of business risks allow management to control exposure to potential losses arising from large risks, and provide additional capacity for growth. A significant portion of the reinsurance is affected under treaty, facultative and excess of loss reinsurance contracts.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE YEAR ENDED DECEMBER 31, 2014**

(All amounts expressed in Saudi Riyals unless otherwise stated)

23. Risk management (Continued)**Reinsurance risk (Continued)**

Significant reinsurance purchases are reviewed annually by Executive Team to verify that the levels of protection being bought reflect any developments in exposure and the risk appetite of the Company. Reinsurance purchases must be in line with the strategy set out in our Company's Reinsurance policy manual approved by the Board of directors.

To minimize its exposure to significant losses from reinsurer insolvencies, the Company evaluates the financial condition of its reinsurers. The reinsurance is placed with providers who meet the Company's counterparty security requirements and deals with reinsurers approved by the board of directors.

The largest five reinsurers account for 73% of the maximum credit exposure at December 31, 2014 (2013: 93%).

Frequency and severity of claims

The frequency and severity of claims can be affected by several factors. The Company underwrites mainly motor, medical and others which include marine, engineering, fire, casualty risks. These are regarded as short-term insurance contracts as claims are normally reported and settled within one year of the insured event taking place. This helps to mitigate insurance risk.

Concentration of insurance risk

The Company does not have insurance contract covering risks for single incidents that expose the Company to multiple insurance risks. The Company has adequately reinsured for insurance risks that may involve significant litigation. The Company does not have any material claims where the amount and timing of payment is not resolved within one year of the reporting date.

The Company monitors concentration of insurance risks primarily by class of business. The table below sets out the concentration of the outstanding claims and unearned premiums (in percentage terms) by class of business at balance sheet date:

	2014			
	Gross outstanding claims	Net outstanding claims	Gross unearned premiums	Net unearned premiums
Medical	3%	9%	8%	14%
Motor	19%	65%	45%	78%
Property	60%	7%	21%	1%
Engineering	14%	6%	18%	1%
Other	4%	13%	8%	6%
	100%	100%	100%	100%

	2013			
	Gross outstanding claims	Net outstanding claims	Gross unearned premiums	Net unearned premiums
Medical	7%	17%	17%	28%
Motor	22%	56%	37%	61%
Property	39%	8%	27%	1%
Engineering	25%	5%	7%	1%
Other	7%	14%	12%	9%
	100%	100%	100%	100%

The Company evaluates the concentration of exposures to individual and cumulative insurance risks and establishes its reinsurance policy to reduce such exposures to levels acceptable to the Company.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE YEAR ENDED DECEMBER 31, 2014**

(All amounts expressed in Saudi Riyals unless otherwise stated)

23. Risk management (Continued)**Sources of uncertainty in estimation of future claim payments**

The key source of estimation uncertainty at the balance sheet date relates to valuation of outstanding claims, whether reported or not, and includes expected claims settlement costs. Considerable judgment by management is required in the estimation of amounts due to policyholders arising from claims made under insurance contracts. Such estimates are necessarily based on assumptions about several factors involving varying and possibly significant degrees of judgment and uncertainty and actual results may differ from management's estimates resulting in future changes in estimated liabilities. Qualitative judgments are used to assess the extent to which past trends may not apply in the future, for example one-off occurrence, changes in market factors such as public attitude to claiming and economic conditions. Judgment is further used to assess the extent to which external factors such as judicial decisions and government legislation affect the estimates.

In particular, estimates have to be made both for the expected ultimate cost of claims reported at the balance sheet date and for the expected ultimate cost of claims incurred but not reported (IBNR) at the balance sheet date. The details of estimation of outstanding claims (including IBNR) are given under notes 3 and 7.

Process used to decide on assumptions

The process used to determine the assumptions for calculating the outstanding claim reserve is intended to result in neutral estimates of the most likely or expected outcome. The nature of the business makes it very difficult to predict with certainty the likely outcome of any particular claim and the ultimate cost of notified claims. Each notified claim is assessed on a separate, case by case basis with due regard to claim circumstances, information available from surveyors and historical evidence of the size of similar claims. Case estimates are reviewed regularly and are updated as and when new information is available.

The estimation of IBNR is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to the Company, in which case information about the claim event is available. IBNR provisions are initially estimated at a gross level and a separate calculation is carried out to estimate the size of the reinsurance recoveries. The estimation process takes into account the past claims reporting pattern and details of reinsurance programs.

The premium liabilities have been determined such that the total premium liability provisions (unearned premium reserve and premium deficiency reserve) would be sufficient to service the future expected claims and expenses likely to occur on the unexpired policies as of balance sheet date. The expected future liability is determined using estimates and assumptions based on the experience during the expired period of the contracts and expectations of future events that are believed to be reasonable.

Sensitivity analysis

The Company believes that the claim liabilities under insurance contracts outstanding at the year-end are adequate. However, these amounts are not certain and actual payments may differ from the claims liabilities provided in the financial statements. The impact on the shareholders' income before zakat and income tax and shareholders' equity of the changes in the claim liabilities net of reinsurance is analysed below. The sensitivity to changes in claim liabilities net of reinsurance is determined separately for each class of business while keeping all other assumptions constant.

	Shareholders' net income		Shareholders' equity	
	2014	2013	2014	2013
Impact of change in claim liabilities by +10				
Medical	(832,371)	(1,045,982)	(811,562)	(1,019,832)
Motor	(6,091,313)	(3,548,674)	(5,939,030)	(3,459,957)

Claims development table

The following reflects the cumulative incurred claims, including both claims notified and incurred but not reported for each successive accident year at each financial position date, together with the cumulative payments to date. The development of insurance liabilities provides a measure of the Company's ability to estimate the ultimate value of the claims.

The Company maintains adequate reserves in respect of its insurance business in order to protect against adverse future claims experience and developments. The uncertainties about the amount and timing of claim payments are normally resolved within one year.

Accident year	Reserves for prior accident years	2011	2012	2013	2014	Total
Estimate of ultimate claims cost:						
At the end of accident year	-	113,443,470	108,168,145	170,254,549	395,301,174	
One year later	-	111,925,190	96,341,665	204,940,167	-	
Two year later	-	109,197,961	117,903,649	-	-	
Three year later		140,214,864	-	-	-	
Reserve in respect to prior years	171,545,602	-	-	-	-	
Current estimate of cumulative claims	171,545,602	140,214,864	117,903,649	204,940,167	395,301,174	1,029,905,456
Cumulative payments to date	(169,502,720)	(131,825,181)	(112,177,352)	(140,023,077)	(142,203,085)	(695,731,415)
Liability recognized in statement of financial position	2,042,882	8,389,683	5,726,297	64,917,090	253,098,089	334,174,041

Regulatory framework risk

The operations of the Company are subject to local regulatory requirements in the Kingdom of Saudi Arabia. Such regulations not only prescribe approval and monitoring of activities but also impose certain restrictive provisions e.g. capital adequacy to minimize the risk of default and insolvency on the part of the insurance companies and to enable them to meet unforeseen liabilities as these arise.

Financial risk

The Company's principal financial instruments are receivables arising from insurance and reinsurance contracts, cash and cash equivalents and advances for investments. The Company does not enter into derivative transactions.

SAUDI UNITED COOPERATIVE INSURANCE COMPANY (WALA'A)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE YEAR ENDED DECEMBER 31, 2014**

(All amounts expressed in Saudi Riyals unless otherwise stated)

23. Risk management (Continued)**Financial risk (Continued)**

The main risks arising from the Company's financial instruments are credit risk, liquidity risk, market price risk, commission rate risk and foreign currency risk. The board reviews and agrees policies for managing each of these risks and they are summarized below.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. For all classes of financial assets held by the Company, the maximum credit risk exposure to the Company is the carrying value of these financial assets as disclosed in the statement of financial position.

The Company seeks to limit credit risk with respect to agents and brokers by setting credit limits for individual agents and brokers and monitoring outstanding receivables. Premiums receivable comprise a large number of brokers/customers mainly within Saudi Arabia of which the five largest brokers/customers account for 44% of the receivables as at December 31, 2014 (2013: 43%).

The Company only enters into insurance and reinsurance contracts with recognised, credit worthy third parties. Receivables from insurance and reinsurance contracts are monitored on an ongoing basis in order to reduce the Company's exposure to bad debts

The Company's bank balances are maintained with a range of international and local banks in accordance with limits set by the board of directors. The Company maintains its bank balances, short term and long term investments with banks which have investment grade credit ratings.

Maximum exposure to credit risk

The Company's maximum exposure to credit risk on its financial assets at December 31, 2014 is Saudi Riyals 762 million (December 31, 2013: Saudi Riyals 526 million).

The table below shows the components of the statement of financial position of the Company at December 31, 2014 and 2013 exposed to credit risk:

	2014	2013
Insurance operations' assets		
Cash and cash equivalents	210,978,334	119,381,611
Premiums and insurance balances receivable	119,860,252	93,153,509
Reinsurers' share of outstanding claims	239,779,778	105,122,990
Accrued commission income	74,063	34,675
Other assets	7,944,877	12,924,601
	578,637,304	330,617,386
Shareholders' assets		
Cash and cash equivalents	83,099,953	86,366,117
Short-term deposits	-	26,983,859
Accrued commission income	1,081,279	939,190
Available-for-sale investments	79,284,833	54,441,698
Held-to-maturity investments	-	6,500,000
Statutory deposit	20,000,000	20,000,000
	183,466,065	195,230,864
Total	762,103,369	525,848,250

The table below provides information regarding the credit risk exposure of the Company by classifying assets according to the Company's credit rating of counterparties. Investment grade is considered to be the highest possible rating. Assets falling outside the range of investment grade are classified as non-investment grade (satisfactory) or past due but not impaired.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its commitments associated with insurance contracts and financial liabilities as they fall due.

Liquidity requirements are monitored on a monthly basis and management ensures that sufficient liquid funds are available to meet any commitments as they arise.

The deposits held by the Company at the reporting date had original maturity periods not exceeding six months; furthermore, the commitments (in the ordinary course of the business) at the period end are not material.

All financial liabilities are contractually payable within a year's time and are not commission bearing.

The table below summarizes the maturities of the Company's undiscounted contractual obligations at December 31, 2014 and 2013. As the Company does not have any commission bearing liabilities, the amounts in the table match the amounts in the statement of financial position:

As at December 31, 2014

	Less than 12 months	More than 12 months	Total
Insurance operations' financial liabilities			
Outstanding claims	334,174,041	-	334,174,041

Statutory deposit	-	20,000,000	20,000,000
Total shareholders' financial assets	168,730,864	26,500,000	195,230,864
Shareholders' financial liabilities			
Accrued expenses and other liabilities	2,246,189	-	2,246,189
Total shareholders' financial liabilities	2,246,189	-	2,246,189

Currency risk

Foreign currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Company's exposure to foreign currency risk is limited to United States Dollars which is pegged against Saudi Riyals. Management believes that there is minimal risk of significant losses due to exchange rate fluctuations and consequently the Company does not hedge its foreign currency exposure.

Commission rate risk

Commission rate risk arises from the possibility that changes in commission rates will affect future profitability or the fair values of financial instruments. The Company is exposed to commission rate risk on its time deposits, short-term deposit, available-for-sale and held-to-maturity investments. The Company limits commission rate risk by monitoring changes in commission rates. The Company does not have any interest bearing liabilities.

The effective commission rates of the Company's investments and their maturities as at December 31, 2014 was 1.1% (2013: 1.1%).

There is no significant difference between contractual re-pricing and maturity dates. All commission bearing financial instruments as at the year-end have a maturity of less than 1 year except for investment in bonds.

The following table demonstrates the sensitivity of statements of shareholders' comprehensive operations and shareholders' equity to reasonably possible change in commission rates of the Company's deposits, with all other variables held constant:

Currency	Change in variable	Impact on net income	
		2014	2013
Saudi Riyals	+10 basis points	9,036	11,946
Saudi Riyals	-10 basis points	(9,036)	(11,946)

(A Saudi Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE YEAR ENDED DECEMBER 31, 2014**

(All amounts expressed in Saudi Riyals unless otherwise stated)

23. Risk management (Continued)**Market price risk**

Market price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual security or its issuer or factors affecting all securities traded in the market.

The Company has an unquoted equity investment carried at cost where the impact of changes in equity prices will only be reflected when the investment is sold or deemed to be impaired and then the income statement will be impacted.

The Company's equity investments as at December 31, 2014 amounting to SR 77.4 million (2013: Saudi Riyals 51.2 million) are susceptible to market price risk arising from uncertainty about the future value of investment securities. The Company limits market risk by diversifying its equity investment portfolio and by actively monitoring the developments in equity and money markets.

The impact of a hypothetical change of a 10% increase and 10% decrease in the market prices of investments on Company's profits and equity would be as follows:

	<u>Fair value</u>	<u>Price change</u>	<u>Estimated fair value</u>	<u>Effect on income from operations</u>	<u>Effect of shareholders' equity</u>
December 31, 2014	77,361,755	<div> <div>10% increase</div> <div>10% decrease</div> </div>	<div>85,097,931</div> <div>(85,097,931)</div>	<div>7,736,176</div> <div>(7,736,176)</div>	<div>7,542,771</div> <div>(7,542,771)</div>
December 31, 2013	51,218,620	<div> <div>10% increase</div> <div>10% decrease</div> </div>	<div>56,340,482</div> <div>(56,340,482)</div>	<div>5,121,862</div> <div>(5,121,862)</div>	<div>4,993,815</div> <div>(4,993,815)</div>

Capital risk management

The Company's objectives when managing capital are:

- To comply with the insurance capital requirements as set out in the Law. The Company's current paid-up share capital is in accordance with Article 3 of the Law;
- To safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To provide an adequate return to shareholders by pricing insurance contracts commensurately with the level of risk.

As per Article 66 of the Regulations, the Company shall maintain solvency margin equivalent to the highest of the following three methods:

- Minimum capital requirement of Saudi Riyals 200 million
- Premium solvency margin
- Claims solvency margin

The Company's solvency margin at December 31, 2014 is 50% (2013: 75%) of the required margin of solvency.

Seasonality of operations

There are no seasonal changes that affect insurance operations.

(All amounts expressed in Saudi Riyals unless otherwise stated)

24. Fair values of financial instruments

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction.

Categories of financial instruments

a) Insurance operations

	2014	2013
Financial assets		
Cash and cash equivalents	210,978,334	119,381,611
Premiums and insurance balances receivable	119,860,252	93,153,509
Reinsurers' share of outstanding claims	239,779,778	105,122,990
Accrued commission income	74,063	34,675
Other assets	7,944,877	12,924,601
	578,637,304	330,617,386
Financial liabilities		
Outstanding claims	334,174,041	168,460,014
Accrued expenses and other liabilities	47,046,865	29,283,978
Reinsurance balances payable	24,152,298	18,361,378
End-of-service indemnities	4,204,524	3,059,264
	409,577,728	219,164,634

b) Shareholders' operations

	2014	2013
Financial assets		
Cash and cash equivalents	83,099,953	86,366,117
Short term deposits	-	26,983,859
Accrued commission income	1,081,279	939,190
Available-for-sale investments	79,284,833	54,441,698
Held-to-maturity investments	-	6,500,000
Statutory deposit	20,000,000	20,000,000
	183,466,065	195,230,864
Financial liabilities		
Accrued expenses and other liabilities	2,458,112	2,246,189
	2,458,112	2,246,189

Financial instruments comprise of financial assets and financial liabilities as have been defined above.

The fair values of financial instruments are carried at cost, are not materially different from their carrying values. The Company uses the following hierarchy for determining and disclosing the fair values of available for sale investments as well as advances by a valuation technique

Level 1: quoted (unadjusted) prices in an active market for identical assets and liabilities:

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3: other techniques which use inputs which have a significant effect on the recorded fair value are not based on observable market data.

(All amounts expressed in Saudi Riyals unless otherwise stated)

24. Fair value of financial instruments (Continued)

The table below presents the financial instruments at their fair values as at December 31, 2014 and 2013 based on the fair value hierarchy:

As at December 31, 2014	Level 1	Level 2	Level 3	Total fair value
Financial instruments				
Available-for-sale investments				
Equity securities	77,361,755	-	1,923,078	79,284,833
Held-to-maturity investments				
Debt securities	-	-	-	-
Total	77,361,755	-	1,923,078	79,284,833
As at December 31, 2013	Level 1	Level 2	Level 3	Total fair value
Financial instruments				
Available-for-sale investments				
Equity securities	51,218,620	-	3,223,078	54,441,698
Held-to-maturity investments				
Debt securities	-	6,500,000	-	6,500,000
Total	51,218,620	6,500,000	3,223,078	60,941,698

During the year, there were no transfers into or out of level 3.

25. Earnings per share

Basic and diluted earnings per share from shareholders' income is calculated by dividing net income for the year by weighted average number of ordinary shares outstanding during the year.

Basic and diluted earnings per share from shareholders' comprehensive income is calculated by dividing net income for the year after zakat and income tax by weighted average number of ordinary shares outstanding during the year.

26. Contingencies

The Company, in common with significant majority of insurers, is subject to litigation in the normal course of its business. The Company's management, based on independent legal advice, believes that the outcome of court cases will not have a material impact on the Company's income or financial condition.

27. Comparative figures

Certain of the comparative year amounts have been reclassified to conform with the presentation in the current year, the effects of which are not material.

28. Approval of the financial statements

The financial statements have been approved by the Board of Directors on February 18, 2015.
