## REVIEW REPORT

To the shareholders of National Petrochemical Company (Petrochem)  
(A Saudi Joint Stock Company)

### Scope of review

We have reviewed the accompanying interim consolidated balance sheet of National Petrochemical Company -a Saudi Joint Stock Company- ("Petrochem") and its subsidiaries as at 30 September 2013, the related interim consolidated statement of income for the three and nine month periods ended 30 September 2013 and interim consolidated statement of cash flows and changes in equity for the nine-month period then ended. These interim consolidated financial statements are the responsibility of Petrochem's management and have been prepared by them and submitted to us together with all the information and explanations which we required. We conducted our limited review in accordance with the Standard on Review of Interim Financial Reporting issued by the Saudi Organisation for Certified Public Accountants (SOCPA). A limited review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

### Conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

*Impairment of non-current assets*

Periodically, the carrying amounts of non-current assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment. Where it is not possible to estimate the recoverable amount of an individual asset, estimates are made of the recoverable amount of the cash generating unit to which the asset belongs.

If the recoverable amount of an asset or cash generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash generating unit is reduced to its recoverable amount. Impairment is recognized in the interim consolidated statement of income.

Where an impairment subsequently reverses, the carrying amount of the asset or the cash generating unit is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognized for the asset or cash generating unit in prior years. A reversal of impairment is recognized as income immediately in the interim consolidated statement of income.

*Accounts payable and accruals*

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

*Provisions*

Provisions are recognized when Petrochem or its subsidiaries has an obligation (legal or constructive) arising from a past event, and the costs to settle these obligation are both probable and may be measured reliably.

The provision is charged to the interim consolidated statement of income. Differences, if any, resulting from the final Zakat assessments are adjusted in the year of their finalization. Foreign shareholders in subsidiaries are subject to income tax which is included in non-controlling interest in the interim consolidated financial statements.

Zakat charge is computed on the basis of the zakat base for the company and the subsidiaries separately.

*Employees' terminal benefits*

Provision is made for amounts payable under the Saudi Arabian labour law applicable to employees' accumulated periods of service at the interim consolidated balance sheet date.

*Borrowing costs*

Borrowing costs that are directly attributable to the interim construction of an asset are capitalized up to the stage when substantially all the activities necessary to prepare the qualifying asset for its intended use are completed, and thereafter, is charged to the interim consolidated statement of income.

*Statutory reserve*

In accordance with Saudi Arabian Regulations for Companies, the company must transfer 10% of its income for the year after deducting accumulated losses to the statutory reserve. The company may resolve to discontinue such transfers when the reserve totals 50% of the capital. The reserve is not available for distribution.

*Revenue recognition*

Sales represent the invoiced value of goods supplied. Sales from sale of goods are recognized when the significant risks and rewards of ownership of the goods have passed to the buyer and the amount of revenue can be measured reliably; normally on delivery to the customer. Other income is recognized when incurred.

*Expenses*
