**LIMITED REVIEW REPORT
TO THE SHAREHOLDERS OF FAWAZ ABDULAZIZ AL HOKAIR & CO.
(A SAUDI JOINT STOCK COMPANY)**

SCOPE OF REVIEW

We have reviewed the accompanying interim consolidated balance sheet of Fawaz Abdulaziz Al Hokair & Co.- A Saudi Joint Stock Company (the "Company") and its subsidiaries (the "Group") as at 30 September 2014, and the related interim consolidated statements of income for the three-month and six-month periods ended 30 September 2014, cash flows and changes in equity for the six-month period then ended. These interim consolidated financial statements are the responsibility of the Group's management and have been prepared by them and submitted to us together with all the information and explanations which we required. We conducted our limited review in accordance with the Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants ("SOCPA"). A limited review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

CONCLUSION

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

2. BASIS OF CONSOLIDATION (continued)

- (i) Al Waheedah Equipment Co. directly and indirectly owns certain active subsidiaries in Azerbaijan and dormant subsidiaries in United Arab Emirates.
- (ii) Haifa B. Al Kalam & Partners directly and indirectly owns certain active subsidiaries in Georgia, Armenia, United States of America, Morocco and Balkan countries, and dormant subsidiaries in United Arab Emirates, British Virgin Islands.
- (iii) Wahba Trading Company Limited directly and indirectly owns certain dormant subsidiaries in Kingdom of Saudi Arabia and United Arab Emirates.
- (iv) Kazakhstan Group represents three entities namely Retail Management Kazakhstan, Fashion Retail Kazakhstan and Global Apparel Kazakhstan. All these entities are 85% directly owned. During the period ended 30 September 2014, the Company was in process of acquiring the remaining 15% equity interests from the minority shareholders of Kazakhstan Group.

The principal activities of all the above subsidiary companies are wholesale and retail trading. Indirect shareholding represents cross ownership among the subsidiary companies.

A subsidiary is an entity in which the Company has direct and indirect equity interest of more than 50% and/or over which it exerts effective control. The financial statements of the subsidiary companies are prepared using accounting policies which are consistent with those of the Company. The subsidiary companies are consolidated from the date on which the Company is able to exercise effective control.

All significant inter-company balances and transactions have been eliminated on consolidation.

Minority interest in the net assets (excluding goodwill) of consolidated subsidiary companies is identified separately from the Company's equity therein. Minority interests consist of the amount of those interests at the date of the original business combination and the minority's share of changes in equity since the date of the combination. Losses applicable to the minority in excess of the minority's interest in subsidiary's equity are allocated against the interest of the Company except to the extent that the minority has a binding obligation and is able to make an additional investment to cover the losses.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements have been prepared in accordance with the Standard of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants. The significant accounting policies adopted by the Company and its subsidiaries in preparing the interim consolidated financial statements, summarized below, are in conformity with those described in the annual audited consolidated financial statements for the year ended 31 March 2014. The interim consolidated financial statements and the accompanying notes should be read in conjunction with the annual audited consolidated financial statements and the related notes for the year ended 31 March 2014.

Accounting convention

The interim consolidated financial statements are prepared under the historical cost convention, as modified to include the measurement, at fair value, of investments in available for sale securities.

Use of estimates

The preparation of interim consolidated financial statements in conformity with generally accepted accounting standards requires use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current event and activities actual result ultimately may differ from those estimate.

(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
30 SEPTEMBER 2014

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is determined on a weighted average cost basis.

Investments

Investments in associates

Investments in associates in which the Company and its subsidiaries have equity interest between 20% to 50% and/or over which they exercise significant influence are recorded using the equity method, under which the investment is stated initially at cost and adjusted thereafter for the post acquisition changes in the net assets of the investee companies. The Company and its subsidiaries share in the net earnings or losses of the associates are included in the interim consolidated statement of income.

Investments in available for sale securities

Investments in available for sale securities are stated at fair value and included under non-current assets in the interim consolidated balance sheet. Unrealized gains or losses are included in the interim statement of changes in equity until the investment is derecognized or the investment is determined to be impaired. On derecognition or impairment, the cumulative gain or loss previously reported in equity is included in the interim consolidated statement of income for the period. Fair value is determined based on the market value if an open active market exists or by using alternative revaluation methods. Otherwise cost is considered to be the fair value.

Property and equipment

Property and equipment are stated at cost less accumulated depreciation and any impairment in value. Expenditure on maintenance and repairs is expensed, while expenditure for betterment is capitalized. Depreciation is provided over the estimated useful lives of the applicable assets using the straight line method. Land and capital work in progress are not depreciated. The estimated rates of depreciation/amortization of other classes of assets are as follows:

	<u>Depreciation percentage</u>
Buildings	3%
Leasehold improvements	12.5%
Furniture and office equipment	10%
Motor vehicles	25%

Intangible assets

Goodwill

Goodwill arising from investments in subsidiaries represents the excess of the cost of acquisition over the Company's interests in the fair value of the net assets of these subsidiaries at the date of acquisition. The carrying amount of the goodwill is reviewed annually to determine whether there is any indication of impairment. If any such indication exists the carrying amount of goodwill is reduced to the estimated recoverable amount. Goodwill after initial recognition is measured at cost less accumulated impairment losses, if any.

If the fair value of the net assets acquired is in excess of the aggregate of the cost of acquisition, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate of the cost of acquisition, then the gain is recognized in the interim consolidated statement of income.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
30 SEPTEMBER 2014

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Other intangible assets

Other intangible assets represent software implementation cost, key money, trademarks and other deferred charges, and are amortized using the straight line method over the estimated period of benefit.

The estimated period of amortization of the principal classes of other intangible assets is as follows:

	<i>Years</i>
Software implementation cost	25
Key money	10
Deferred charges	4

Trademarks are not subject to amortization. These are tested for impairment on annual basis.

Impairment of non-current assets

The Company and its subsidiaries periodically reviews the carrying amounts of their non-current tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Company and its subsidiaries estimates the recoverable amount of the cash generating unit to which that asset belongs.

If the recoverable amount of an asset or cash generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash generating unit is reduced to its recoverable amount. Impairment loss is recognized as an expense immediately.

Except for goodwill, where an impairment loss subsequently reverses, the carrying amount of the asset or cash generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or cash generating unit in prior periods. A reversal of an impairment loss is recognized as income immediately.

Accounts payable and accruals

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the suppliers or not.

Provisions

Provisions are recognized when the Company and its subsidiaries have an obligation (legal or constructive) arising from a past event, and the costs to settle the obligation are both probable and can be measured reliably.

Zakat and income tax

Zakat is provided in accordance with the Regulations of the Department of Zakat and Income Tax ("DZIT") in the Kingdom of Saudi Arabia and on an accrual basis. The provision is charged to the interim consolidated statement of income. Differences, if any, resulting from the final assessments are adjusted in the year of their finalization.

For subsidiaries outside the Kingdom of Saudi Arabia, provision for corporate tax is computed in accordance with tax regulations of the respective countries and charged to the interim consolidated statement of income.

Dividends

Interim dividends are recorded as and when declared and approved by the Board of Directors. Annual final dividends are recognized as a liability at the time of their approval by the General Assembly.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

End-of-service indemnities

End-of-service indemnities, required by the Saudi Arabian Labor Law, are provided in the interim consolidated financial statements based on the employees' length of service by the Company and its subsidiaries as of the interim consolidated balance sheet date. Foreign subsidiaries have pension schemes for their eligible employees in relevant foreign jurisdictions.

Revenue recognition

Sales are recognized when goods are delivered and invoices are issued to customers.

Dividend income is recognized when dividends are declared. Other income are recognized when earned.

Expenses

Selling and marketing expenses principally comprise of costs incurred in the distribution and sale of the Company and its subsidiaries products. All other expenses are classified as general and administrative expenses.

Leasing

Rental proceeds under operating leases are recognized as income on a straight line basis over the term of the operating leases.

Rentals payments under operating leases are charged as expenses on the interim consolidated statement of income on a straight line basis over the term of the operating leases.

Foreign currency translation

Foreign currency transactions are translated into Saudi Riyals at the rates of exchange prevailing at the time of the transactions. Monetary assets and liabilities denominated in foreign currencies at the interim consolidated balance sheet date are translated at the exchange rates prevailing at that date. Gains and losses from settlement and translation of foreign currency transactions are included in the interim consolidated statement of income.

Assets and liabilities of the consolidated subsidiaries denominated in foreign currencies are translated into Saudi Riyals at exchange rates prevailing at the interim consolidated balance sheet date. Revenues and expenses of the consolidated subsidiaries denominated in foreign currencies are translated into Saudi Riyals at average exchange rates during the interim period. Component of equity, other than retained earnings, are translated at the rates prevailing at the date of their occurrence. Exchange differences arising from such translations, if material, are included in the cumulative translation adjustment account under equity in the interim consolidated balance sheet.

Segment reporting

A segment is a distinguishable component of the Company and its subsidiaries that is engaged either in providing products or services (business segment) or in providing products or services within a particular economic environment (geographic segment), which is subject to risks and rewards that are different from those of other segments.

4. INTERIM RESULTS

All adjustments that the Company and its subsidiaries' management believe are material for the fair presentation of the interim consolidated financial statements and the results of operations have been incorporated. An interim period forms an integral part of the entire year. Due to the seasonality of the Company and its subsidiaries business, interim results may not be an indicator of the results of the whole financial year.
