Al Khobar, Saudi Arabia

Scope of Review

We have reviewed the consolidated interim balance sheet of United Electronics Company (a Saudi Joint Stock Company) as of June 30, 2012 and the related consolidated interim statements of income for the three months and six months periods then ended, consolidated interim statements of stockholders' equity and cash flows for the six months period then ended, and notes 1 to 9 which form an integral part of these consolidated interim financial statements as prepared by the Company and presented to us with all the necessary information and explanations. These consolidated interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standard of auditing applicable to interim financial reporting in the Kingdom of Saudi Arabia issued by the Saudi Organization for Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the consolidated interim financial statements taken as a whole. Accordingly, we do not express such an opinion.

Review Results

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with generally accepted accounting standards in the Kingdom of Saudi Arabia.

Cash and cash equivalents

Cash and cash equivalents comprise cash, bank balances and highly liquid investments with original maturities of three months or less.

Accounts receivable

Accounts receivable are carried at original amount less provision made for doubtful receivable. A provision for doubtful accounts is established when there is significant doubt that the Company will not be able to collect all amounts due according to the original terms of accounts receivable.

(SAUDI JOINT STOCK COMPANY)**

**NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Continued)
FOR THE THREE MONTHS AND SIX MONTHS PERIODS ENDED JUNE 30, 2012**

Impairment

As of each balance sheet date, the Company reviews the carrying amounts of its property and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. Impairment losses are recognized as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized as income immediately.

Foreign currency transactions

Transactions in foreign currencies are recorded in Saudi Riyals at the rate ruling at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the consolidated statement of income.

Financial statements of foreign entities are translated into Saudi Riyals using the exchange rate at the balance sheet date for assets and liabilities and the average exchange rate for revenues, expenses, gains and losses. Components of equity, other than retained earnings, are held at the historical rates. Translation adjustments are recorded as a separate component of consolidated stockholders' equity. Translation loss that is considered permanent is charged to the consolidated statement of income.

Provision for obligation

A provision is recognized in the consolidated balance sheet when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

End-of-service indemnities

End-of-service indemnities, required by Saudi Arabian labor law, are provided in the consolidated interim financial statements based on the employees' length of service.

Zakat

The Company is subject to the Regulations of the Department of Zakat and Income Tax ("DZIT") in the Kingdom of Saudi Arabia. Zakat is calculated and accrued for the quarter based on estimation. Zakat is recorded at the period end based on period end figures and any difference between the estimate and the actual is adjusted at that time. Any difference between the estimate and final assessment is recorded when settled.
