INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INTERIM FINANCIAL STATEMENTS

To: The Shareholders

Etihad Atheeb Telecommunication Company

(A Saudi Joint Stock Company)

Riyadh, Saudi Arabia

Scope of Review

We have reviewed the accompanying interim balance sheet of Etihad Atheeb Telecommunication Company ("the Company") as at 30 June 2015, the related interim statement of income for the three months period then ended, cash flows and changes in shareholders' equity for the three months period then ended and the attached notes (1) to (16) which form an integral part of these interim financial statements. These interim financial statements are the responsibility of the Company's management and have been prepared by them and submitted to us together with all the information and explanations, which we required. Our responsibility is to express a conclusion on these interim financial statements based on our review.

We conducted our limited review in accordance with the auditing Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). A review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia appropriate to the circumstances of the Company.

Emphasis of matter

We draw attention to Note 2 (b) to the accompanying interim financial statements; as at 30 June 2015, the Company's current liabilities exceeded its current assets and the accumulated losses approximate to 62.5% of the Company's share capital. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The Company's management believes that the agreements held, as explained in Note 1(b) and 1(c) to the accompanying interim financial statements, would increase the business of the Company by enabling it provide more and improved services. Also, the management believes that it will be able to secure the necessary funding to meet its obligations as and when they become due. Accordingly, the accompanying financial statements have been prepared under going concern basis.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Un-audited) For the three months period ended 30 June 2015

1) ORGANIZATION AND ACTIVITIES

General information

a) Etihad Atheeb Telecommunication Company (the "Company" or "GO"), is a Saudi Joint Stock Company registered in the Kingdom of Saudi Arabia under commercial registration (No. 1010263273) issued in Riyadh on 30 Safar 1430H (corresponding to 25 February 2009). The registered address of the Company is P.O. Box 25039 Riyadh 11391 Kingdom of Saudi Arabia.

Pursuant to the Ministerial Resolution No.41 dated 18 Safar 1429H (25 February 2008) which was approved by the issuance of Royal Decree No. M/6 dated 19 Safar 1429H (26 February 2008), the Company was granted a fixed-line telecommunication license and the used-frequency spectrum to provide fixed telephone services in the Kingdom of Saudi Arabia for a period of 25 years (starting on 1 April 2009 and ending on 31 March 2034).

The objective of the Company is to provide various fixed line and wireless services such as voice, data services, broadband internet services, internet telephony services, international gateway, and fixed telephone lines to individuals, homes and businesses. The Company commenced commercial operations from 1 January 2010.

The authorized, issued and paid up share capital of the Company is SAR 1,575 million divided into 157.5 million shares of SAR 10 each. The founding shareholders of the Company have subscribed and paid for 102.4 million shares with a nominal value of SAR 10 each, which represents 65% shares of the Company's capital and the remaining 55.1 million shares with a nominal value of SAR 10 each have been subscribed by the public.

b) Further to the announcement published on Tadawul's website on 5 June 2014 related to the Indefeasible Rights of Use "IRU" agreement with Saudi Telecom Company (STC) which was signed on 4 June 2014, STC granted the Company an IRU for 15 years for thirty thousand ports on its fiber optics network. The IRU agreement allows both parties to agree upon increasing the ports to reach hundred thousand ports (see note 7.1).

The payment for the IRU shall be financed through the Company's internal resources and the prospective resources arising from the sale of this service in addition to some external financing bodies if necessary; noting that this agreement is irrevocable by both parties. The ports are to be used to provide broadband internet and fixed telephone services for consumers and small business. The agreement will allow the Company to increase its competitive capability in the telecom sector through expanding and diversifying its services. Consequently, the Company's financial capabilities will be enhanced.

c) The Company announced on 12 June 2014 that it has executed various marketing agreements with STC amounting to SAR 309 million through which the Company will market business sector services of STC to some of its existing and / or new customers specially to the small and medium sized enterprises for a period of 30 months starting from the date of the agreement (see note 10).

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Un-audited)

For the three months period ended 30 June 2015

2) BASIS OF PREPARATION

a) Statement of compliance

These interim financial statements have been prepared in accordance with the generally accepted accounting standards in Saudi Arabia issued by the Saudi Organization for Certified Public Accountants (SOCPA). These interim financial statements do not include all the information presented in the annual financial statements; therefore, these interim financial statements should be read in conjunction with the annual financial statements of the Company for the year ended 31 March 2015. Further, the results of the interim period may not represent an accurate indicator for the annual results of the operations.

These interim financial statements were approved by the Board of Directors for issuance on 14 July 2015 corresponding to 27 Ramadhan 1436 A.H..

b) Basis of measurement

These interim financial statements have been prepared under the historical cost convention using the accrual basis of accounting.

As at 30 June 2015, the Company's current liabilities exceeds its current assets by SAR 282.8 million (2014: SAR 328.4 million). Moreover, the Company has accumulated losses amounting to SAR 985 million as of 30 June 2015 which approximate 62.5% of the Company's share capital. The Company's management believes that the agreements with STC would improve the Company's business. The management also believes that it will be able to secure the necessary funding to meet its obligations as and when they become due. Accordingly, the Company's management believes that the going concern is the appropriate basis of preparation for the accompanying interim financial statements.

c) Functional and presentation currency

These interim financial statements are presented in Saudi Arabian Riyals (SAR), which is the functional currency of the Company.

d) Use of estimates and judgments

The preparation of interim financial statements requires management to make judgment, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected. Estimates with a significant risk of material adjustments relates to the determination of provision for doubtful debts and provision for obsolete and slow moving inventories.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Un-audited) For the three months period ended 30 June 2015

3) SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in the interim financial statements. Certain comparative amounts have been reclassified to conform with the current period's presentation.

a) Cash and cash equivalents

For the purpose of reporting cash flows, cash and cash equivalents comprise of cash in hand, cash with banks and other short-term highly liquid investments, if any, with original maturities of three months or less, which are available to the Company without any restrictions.

b) Trade receivables

Trade receivables are stated at original invoice amount less provisions made for doubtful debts. A provision against doubtful receivable is established when there is objective evidence that the Company may not be able to collect the amounts due according to the original terms of receivables. When creating provisions, consideration is given to the type of services rendered (data, voice services, etc.), age of the receivable and the general economic situation.

Bad debts are written off when identified, against its related provisions. The provisions are charged to interim statement of income and any subsequent recoveries of receivable amounts previously written off are credited to statement of income.

c) Inventories

Inventories comprise of modems, pre-paid cards, scratch cards and other telecommunication equipment, which are measured at the lower of weighted average cost and net realizable value. Cost includes expenditure incurred in acquiring the inventories and other costs incurred in bringing them to their existing location and condition.

Net realizable value comprises estimated selling price in the ordinary course of business, less further appropriate selling and distribution costs. Provision is made, where necessary, for obsolete, slow moving and defective inventory items.

d) Property and equipment

Property and equipment, except capital work in progress, are measured at cost less accumulated depreciation and accumulated impairment loss, if any. Cost includes expenditure that is directly attributable to the acquisition of the asset. Capital work in progress are carried at cost.

Depreciation is charged to the interim statement of income on a straight-line basis over the estimated useful lives of individual item of property and equipment. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the item of property and equipment. All other expenditure including repair and maintenance is recognized in the interim statement of income when incurred. The estimated useful life of the principal classes of assets are as follows:

Life (Years)

Leasehold improvements lower of lease term or 10
Network infrastructure 4-15
Facilities, support and IT Equipment 5

Gains or losses arising from the retirement or disposal of property and equipment are recognized in the interim statement of income on the date of retirement or disposal.

(A Saudi Joint Stock Company)

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Un-audited)

For the three months period ended 30 June 2015

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

e) Intangible assets

Intangible assets represent secured data communication license, network capacity charges and other costs incurred by the Company upon incorporation.

License fees are initially capitalized and subsequently amortized on a straight-line basis over 25 years, which is the regulatory life of the licenses, starting on 1 April 2009 and ending on 31 March 2034.

Network capacity which includes Indefeasible Rights of Use "IRU" is amortized on a straightline basis over the term of the agreement except for Network capacity under development which is carried at cost. Other intangibles are amortized over the estimated useful lives.

The amortization is charged to the statement of income over the useful life as follows:

	<u>Life (Years)</u>
License	25
Network capacity	7-15
Pre-operating costs	5-7
Software	5-10

f) Impairment of non-financial assets

Non-current assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount which is the higher of an asset's fair value less cost to sell and value in use. For the purpose of assessing impairment, assets are grouped at lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-current assets other than intangible assets that suffered impairment are reviewed for possible reversal of impairment at each reporting date. Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but the increased carrying amount should not exceed the carrying amount that would have been determined, had no impairment loss been recognized for the assets or cash-generating unit in prior years. A reversal of an impairment loss is recognized as income immediately in the interim statement of income. Impairment losses recognized on intangible assets are not reversible.

g) Accounts payable and accruals

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

h) Provision for employees' end of service benefits

Provision for employees' end of service benefits, calculated in accordance with Saudi Arabian Labor Law, are accrued and charged to the interim statement of income. The liability is calculated at the current value of the vested benefits to which the employee is entitled, should his services be terminated at the balance sheet date.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Un-audited) For the three months period ended 30 June 2015

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

i) Provision for zakat and tax

Zakat and tax are provided for in the interim financial statements in accordance with Saudi Department of Zakat and Income Tax ("DZIT") regulations. Zakat and tax are charged to the interim statement of changes in shareholders' equity.

j) Operating leases

Lease of property and equipment under which all the risks and benefits of ownership are effectively retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the interim statement of income on a straight-line basis over the period of the lease.

k) Borrowing costs

Borrowing costs directly attributable to acquisitions or constructions of qualifying assets, which are the assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until the assets are substantially ready for their intended use or sale. All other borrowing costs are charged to the interim statement of income in the period in which they are incurred.

l) Interconnection cost (only applicable for voice service)

Interconnection cost represents connection charges to national and international telecommunication operators. Interconnection costs are recorded in the period when relevant calls are made and are charged to the interim statement of income.

m) Revenue recognition

Revenue represents the value of fixed or determinable considerations that are receivable and includes revenue from sharing arrangements entered into with national and international telecommunication operators in respect of traffic (data and voice) exchanged. Revenue for services rendered is recognized at amounts invoiced to customers. Fees for installation and activation are recognized as revenue upon activation.

Service revenue received from the customer is recognized in the period in which the service is delivered. Airtime revenue is recognized on a usage basis. Deferred income related to unused airtime is recognized when utilized by the customer or on a time proportion basis over the validity period. Upon termination of the customer contract, all deferred income for unused airtime is recognized in the interim statement of income. Revenue from data services is recognized when the Company has performed the related service and, depending on the nature of the service, is recognized either at the gross amount billed to the customer or the amount receivable by the Company as commission for facilitating the service. Revenue from sale of WiMAX Customer Premises Equipment ("CPE") and Dongles (i.e. a broadband wireless adapter) are recognized when the WiMAX CPE and Dongles ("WiMAX modems") are delivered to subscribers and customers. Charges billed in advance are deferred and recognized over the contracted period of service.

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

n) Government charges

3)

Government charges represent fees and charges as stipulated in license agreements and against the right of use of telecommunications services in the Kingdom of Saudi Arabia including frequency fees. These fees are recorded as operating expenses in the related periods during which they are used and are charged to the interim statement of income.

o) Cost and expenses

- cost of services comprise of expenses incurred on operations and maintenance of the network, including leased and/or purchased capacity, site rentals, inventory consumption and installation and interconnection charges.
- selling and marketing expenses include commissions, advertising and provision for doubtful receivables.
- all other expenses, except finance charges, are classified as general and administrative expenses.

p) Foreign currency translation

Transactions denominated in foreign currencies are translated to Saudi Arabian Riyals at the rates of exchange prevailing at the dates of the respective transactions. At balance sheet date, assets and liabilities denominated in foreign currencies are translated to Saudi Arabian Riyals at exchange rates prevailing on that date. Gains and losses resulting from changes in exchange rates are recognized in the interim statement of income.

4) TRADE RECEIVABLES

6.1) During the period ended 30 June 2014, the Company sold its owned building and two plots of land to STC under sale and lease back arrangement for SAR 160 million that resulted in a gain of SAR 94.6 million. Further, the Company entered into and operating lease agreement with STC related to 1/3rd portion of the building, consequently the Company deferred gain of SAR 31.2 million which was being recognized as other income over the term of the lease back agreement in proportion to the rent expense over the lease period.

The Company terminated the five year operating lease agreement of 1/3rd portion of the building with STC and entered into a new operating lease agreement for a period of 1 year commencing from 28th May 2015. Accordingly, the outstanding deferred gain as at 28th May 2015 amounting to SAR 25 million is amortized over the new lease term.
