A review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. Accordingly, we do not express such an opinion.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

a) New IFRS, IFRIC and amendments thereof, adopted by the Company

The Company has adopted the following new standards, amendments and revisions to existing standards, which were issued by the International Accounting Standards Board (IASB):

<i>Standard / Amendments</i>	<i>Description</i>
IFRS 14	IFRS 14 – “Regulatory Deferral Accounts”, applicable for the annual periods beginning on or after 1 January 2016, allows an entity, whose activities are subject to rate regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first time adoption of IFRS. The standard does not apply to existing IFRS preparers. Also, an entity whose current GAAP does not allow the recognition of rate-regulated assets and liabilities, or that has not adopted such policy under its current GAAP, would not be allowed to recognise them on first-time application of IFRS.
IFRS 10 IFRS 11 IFRS 12 IAS 28	Amendments to IFRS 10 – “Consolidated Financial Statements”, IFRS 12 – “Disclosure of Interests in Other Entities” and IAS 28 – “Investments in Associates”, applicable for the annual periods beginning on or after 1 January 2016, address three issues that have arisen in applying the investment entities exception under IFRS 10. The amendments to IFRS 10 clarify that the exemption from presenting consolidated financial statements applies to a parent entity that is a subsidiary of an investment entity, when the investment entity measures its subsidiaries at fair value. Furthermore, only a subsidiary of an investment entity that is not an investment entity itself and that provides support services to the investment entity is consolidated. All other subsidiaries of an investment entity are measured at fair value. The amendments to IAS 28 allow the investor, when applying the equity method, to retain the fair value measurement applied by the investment entity associate or joint venture to its interests in subsidiaries. Amendments to IFRS 11 – “Joint Arrangements”, applicable for the annual periods beginning on or after 1 January 2016, require an entity acquiring an interest in a joint operation, in which the activity of the joint operation constitutes a business, to apply, to the extent of its share, all of the principles in IFRS 3 – “Business Combinations” and other IFRSs that do not conflict with the requirements of IFRS 11 Joint Arrangements. Furthermore, entities are required to disclose the information required by IFRS 3 and other IFRSs for business combinations. The amendments also apply to an entity on the formation of a joint operation if, and only if, an existing business is contributed by one of the parties to the joint operation on its formation. Furthermore, the amendments clarify that, for the acquisition of an additional interest in a joint operation in which the activity of the joint operation constitutes a business, previously held interests in the joint operation must not be re-measured if the joint operator retains joint control

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

a) New IFRS, IFRIC and amendments thereof, adopted by the Company (continued)

<i>Standard / Amendments</i>	<i>Description</i>
IAS 16 & IAS 38	Amendments to IAS 16 – “Property, Plant and Equipment” and IAS 38 – “Intangible Assets”, applicable for the annual periods beginning on or after 1 January 2016, restricts the use of ratio of revenue generated to total revenue expected to be generated to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets.
IAS 16, IAS 41 & IAS 20	Amendments to IAS 16 – “Property, Plant and Equipment” and IAS 41 – “Agriculture”, applicable for the annual periods beginning on or after 1 January 2016, change the scope of IAS 16 to include biological assets that meet the definition of bearer plants. Agricultural produce growing on bearer plants will remain within the scope of IAS 41. In addition, government grants relating to bearer plants will be accounted for in accordance with IAS 20 – “Accounting for Government Grants and Disclosure of Government Assistance”, instead of IAS 41.
IAS 27	Amendments to IAS 27 – “Separate Financial Statements”, applicable for the annual periods beginning on or after 1 January 2016, allows an entity to use the equity method as described in IAS 28 to account for its investments in subsidiaries, joint ventures and associates in its separate financial statements.
IFRS 5	Amendments to IFRS 5 – “Non-current Assets Held for Sale and Discontinued Operations”, applicable for the annual periods beginning on or after 1 January 2016, amended to clarify that changing from one disposal method to the other would not be considered a new plan of disposal, rather it is a continuation of the original plan. There is, therefore, no interruption of the application of the requirements in IFRS 5.
IFRS 7	Amendments to IFRS 7 – “Financial Instruments: Disclosures”, applicable for the annual periods beginning on or after 1 January 2016, has been amended to clarify that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. The nature of the fee and the arrangement should be assessed in order to consider whether the disclosures are required under IFRS 7 and the assessment must be done retrospectively. IFRS 7 has been further amended to clarify that the offsetting disclosure requirements do not apply to condensed interim financial statements, unless such disclosures provide a significant update to the information reported in the most recent annual report.
IAS 19	Amendments to IAS 19 – “Employee Benefits”, applicable for the annual periods beginning on or after 1 January 2016, clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used.
IAS 34	Amendments to IAS 34 – “Interim Financial Reporting”, applicable for the annual periods beginning on or after 1 January 2016, clarifies that the required interim disclosures must be either in the interim financial statements or incorporated by cross-referencing to the interim financial report (e.g., in the management commentary or risk report). However, the other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time.

13 FAIR VALUES OF FINANCIAL INSTRUMENTS

- a) Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company's financial assets consist of cash and cash equivalents, unit-linked investments, FVIS investments, available for sale investments, contribution receivable, other receivables, due from insurance operations and its financial liabilities consist of outstanding claims, reinsurance balances payable, amount due to related parties, due to shareholder operations and other payables. The fair values of financial instruments are not materially different from their carrying values. As at 30 June 2016, apart from the investments which are carried at fair value (note 5 & 6), there were no other financial instruments held by the Company that were measured at fair value.

- b) The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for the same instrument (i.e. without modification or repackaging);

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

As at 30 June 2016 and 31 December 2015, all financial instruments which are fair valued are Level 2 instruments except for available for sale investments which are Level 1 investments. The Company determines Level 2 fair values for unit-linked and FVIS investments based on the net assets value of the respective funds as at the end of the reporting period. There are no transfers between Level 1, Level 2 and Level 3 during the period.
