REVIEW REPORT ON THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

To: **The Shareholders**
Al Tayyar Travel Group Holding Company
(A Saudi Joint Stock Company)
Riyadh, Kingdom of Saudi Arabia

Scope of Review

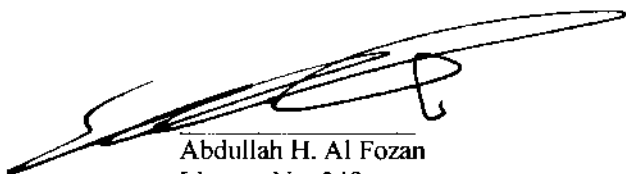

We have reviewed the accompanying interim consolidated balance sheet of **Al Tayyar Travel Group Holding Company** and its subsidiaries ('the Group') as at 30 June 2013, the related interim consolidated statement of income for the three month and the six month periods then ended, the consolidated statement of cash flows for the six month period then ended and the attached condensed notes (1) to (12) which form an integral part of these interim condensed consolidated financial statements. These interim condensed consolidated financial statements are the responsibility of the Group's management and have been prepared by them and submitted to us together with all the information and explanations which we required. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

We conducted our review in accordance with the auditing Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). A review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

2. BASIS OF PREPARATION

(a) Statement of compliance

The accompanying interim condensed consolidated financial statements have been prepared in accordance with generally accepted accounting standards in the Kingdom of Saudi Arabia issued by the Saudi Organization for Certified Public Accountants (SOCPA). Certain prior period comparative amounts have been reclassified to be consistent with the current period presentation. The balance sheet comparative for December 2012 has been presented for illustrative purposes only.

These interim condensed consolidated financial statements were authorized for issue on behalf of the shareholders by the board of directors of the Parent Company on 7 Ramadan 1434H (corresponding to 16 July 2013).

(b) Basis of measurement

These interim condensed consolidated financial statements have been prepared on the historical cost basis (except for available-for-sale investments which are stated at their fair values), using the accrual basis of accounting and the going concern concept.

(c) Functional and presentation currency

These interim condensed consolidated financial statements are presented in Saudi Arabian Riyals (SAR) which is the functional currency.

(d) Use of estimates and judgements

The preparation of interim condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amount recognized in the financial statements is included in the following accounts:

- Trade receivables
- Property and equipment
- Intangible assets

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following accounts:

- Provision for trade receivables
- Impairment of intangible assets

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in the interim condensed consolidated financial statements and are also consistent with the accounting policies in the consolidated financial statements for the year ended 31 December 2012.

The interim condensed consolidated financial statements should be read together with the consolidated financial statements for the year ended 31 December 2012.

(a) *Basis of consolidation*

These interim condensed consolidated financial statements include the financial statements of the Group entities set out in Note 1 above. Associates are accounted for using the equity method.

Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date control ceases.

Transactions eliminated on consolidation

All internal group balances and financial transactions resulting from transactions between the Company and the subsidiaries and those arising between the subsidiaries are eliminated in preparing these interim condensed consolidated financial statements. Also, any unrealized gains and losses arising from intra group transactions are eliminated on consolidation.

(b) *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand, cash with banks and highly liquid investments, if any, with original maturities of three months or less, which are available to the Group without any restrictions.

(c) *Trade receivables*

Trade receivables are stated at original invoice amount less provisions made for amounts which in the opinion of the management may not be received. Bad debts are written off when identified as a result of objective evidence which can include default or delinquency by a debtor, indications that a debtor will enter bankruptcy, adverse changes in the payment status of borrowers or economic conditions that correlate with defaults.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Investments

Investments in associates and jointly controlled entities (equity accounted investees)

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20 and 50 percent of the voting power of another entity. Jointly controlled entities are those entities over whose activities the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decision. Associates and jointly controlled entities are accounted for using the equity method (equity accounted investee) and are initially recognized at cost. The financial statements include the Group's share of income and expenses and equity movement of the equity accounted investees from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in an associate, the Group's carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of an associate. The Group's share of profits or losses of the investee companies is credited or charged to the consolidated statement of income.

Available for sale investments

Investments which are not for trading purposes and where the Parent does not have any significant influence or control are classified as available for sale investments and subsequent to initial recognition they are measured at fair value and changes therein other than impairment losses are recognized in equity. Fair value is determined by reference to the market value in the open market if an open market exists. In the absence of an open market, the cost less impairment losses recognised is considered to be the fair value for these investments.

(e) Property and equipment

Property and equipment are measured at cost, less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. Finance costs on borrowings to finance the construction of qualified assets are capitalized during the period of time that is required to complete and prepare the asset for its intended use.

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the item of property and equipment. All other expenditure is recognized in the income statement when incurred.

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of individual items of property and equipment.

The estimated useful lives of assets for current and comparative periods are as follow:

	<u>Years</u>
Buildings	20
Furniture, fixtures, decorations, telecommunication systems, air conditioning and cooling systems, tools and hardware, safes and vaults	6.67- 10
Computers and office equipment, security systems	5
Vehicles	4

(f) Intangible assets

Goodwill

Goodwill represents the excess cost of investments over the fair value of the net assets acquired in a business combination. Goodwill is tested annually for impairment and is carried at cost net of accumulated impairment losses. Impairment losses on goodwill are not reversed once recorded. Gains or losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold. Negative goodwill represents the excess of the fair value of the net assets acquired and the cost of investments in a business combination. Negative goodwill is recognised in the consolidated statement of income.

(g) Impairment of assets

Property and equipment and other non-current assets are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss, if any, is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount in the statement of income. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

(h) Provisions

A provision is recognized if, as a result of past events, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation.

(i) Employees' end of service benefits

Employees' end of service benefits, calculated in accordance with labour regulations of the countries of incorporation of the group member companies, are accrued and charged to the consolidated statement of income. The liability is calculated at the current value of the vested benefits to which the employee is entitled, should his services be terminated at the balance sheet date.

(j) Revenue recognition

Revenue from airline tickets reflects the ticketing price and is recognized when the tickets are issued. Revenue from other services is recognized when services are performed. Other income is recorded when earned. Airline incentives are recorded in other operating income once earned.

(k) Operating leases

Payments under operating leases are recognized in the statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognized as an integral part of the total lease expense over the term of the lease.

(l) Expenses

Selling and marketing expenses are those arising from the Group's efforts underlying the marketing, selling and distribution functions. All other expenses, excluding cost of revenue and financial charges, are classified as general and administrative expenses. Allocations of common expenses between cost of sales and selling, marketing, general and administrative expenses, when required, are made on a consistent basis.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) *Zakat and income tax*

The Company and its Saudi Arabian subsidiaries are subject to Zakat and income-tax in accordance with the regulations of the Department of Zakat and Income Tax ("DZIT") in the Kingdom of Saudi Arabia. The foreign subsidiaries are subject to tax regulations in their countries of incorporation. Zakat and income tax are charged to the current consolidated statement of income.

(n) *Foreign currency translation and foreign subsidiaries*

Transactions denominated in foreign currencies are translated to the functional currencies of the Group at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to the functional currencies of the Group at the foreign exchange rate ruling at that date. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Exchange differences arising on translation are recognized in the current consolidated statement of income.

The Company's books and accounts are maintained in Saudi Arabian Riyals. Assets and liabilities of foreign subsidiaries are translated into Saudi Arabian Riyals at the exchange rates in effect at the date of the consolidated balance sheet. The components of foreign subsidiaries' equity accounts, except retained earnings, are translated at the exchange rates in effect at the dates the related items originated. The elements of foreign subsidiaries' income statement are translated using the weighted-average exchange rate for the period.

Material adjustments resulting from the translation of foreign subsidiaries' financial statements into Saudi Arabian Riyals are reported as a separate component of equity attributable to shareholders of the Company in the interim condensed consolidated financial statements.

(o) *Segment reporting*

Segment information is presented in respect of the Group's business and geographical segments. The Group's primary format for segment reporting is based on business segments. The business segments are determined based on the Company's management and internal reporting structure.

(p) *Dividends*

Interim dividends are recorded as a liability in the period in which they are approved by the Board of Directors. Final dividends are recorded in the period in which they are approved by the shareholders.

(q) *Financial instruments*

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments. The assets and liabilities are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these are measured at cost, less any impairment losses (financial assets). The carrying value of all financial assets and liabilities reflected in the financial statements approximate their fair value. Fair value is determined on the basis of objective evidence at balance sheet date.

4 BUSINESS COMBINATION

On 31 May 2013 the Company increased its shareholding in Muthmira Real Estate Investment Company (MREIC) from 36% to 75% for a consideration amount of SAR 325 million. This step acquisition results in the Company fully consolidating MREIC financial statements as a subsidiary instead of equity accounting its investment. The acquisition has resulted in an increase in the non controlling interest of SAR 208.3 million.

The Company is currently in the process of allocating the purchase consideration to the identifiable assets and liabilities acquired. Any difference between the consideration paid and the fair value of the net assets acquired will be recognised as goodwill or negative goodwill as appropriate. However, the Company has initially accounted for the transaction based on the carrying values of the assets and liabilities (with the exception of the previously held equity investment) as of the acquisition date which are summarized below:

	Initial Fair Value Recognized on Acquisition
<u>Assets</u>	
Property and equipment	89,506,997
Capital work in progress	1,090,335,461

The movement in Capital work in progress reflects the full consolidation of the MREIC financial statements. The MREIC capital work in progress totals SAR 1.105 billion as at 30 June 2013, reflecting the land acquisition and hotel development costs to date for projects in Makkah. (Also see note 7).

6 INTANGIBLE ASSETS, NET

Goodwill

The goodwill represents excess of purchase consideration over the share of the fair values of net assets acquired. Following is the breakdown of the Goodwill:

Net	<u>142,130,894</u>	<u>146,606,629</u>	<u>145,474,104</u>

The value of assets, liabilities and contingent liabilities recognized on acquisition are their pre acquisition carrying amounts.

The Group management considers that pre acquisition carrying amounts of assets, liabilities and contingent liabilities recognized on acquisition are their estimated fair values. The goodwill recognized on the acquisition is attributable mainly to the skills and technical talent of the acquired business's work force and the synergies expected to be achieved from integrating these companies into the Group's existing business.

(a) The loss on impairment is a result of the continuing political uncertainty in Egypt.

	<u>692,041,803</u>	<u>1,385,160</u>	<u>817,879,637</u>

Short-term bank debts represent amounts outstanding under short-term bank loan facilities with certain local commercial banks at agreed commercial rates. As at 30 June 2013 certain land assets of MREIC have been pledged against some of these loan facilities amounting to SAR 464 million. The remaining balance of the short term loans are utilized to finance the working capital requirements of the Group.

8 SEGMENT REPORTING

The Group comprises the following main business segments

- Air Ticketing, Travel & Tours
- Cargo
- Transportation and other ('Others')

The revenue and gross profit by segment is shown below:

	<u>30 June</u> <u>2013</u>	<u>30 June</u> <u>2012</u>
<u>Revenue</u>		
Air Ticketing, Travel and Tours	3,139,221,704	2,688,530,815

Transportation and other ('Others')	28,787,914	23,691,939
	<u>3,225,372,827</u>	<u>2,760,460,548</u>
	<u>30 June</u> <u>2013</u>	<u>30 June</u> <u>2012</u>
<u>Gross Profit</u>		
Air Ticketing, Travel and Tours	683,384,800	595,858,385
Cargo	6,405,413	5,571,774
Transportation and other ('Others')	14,454,095	10,782,198
	<u>704,244,308</u>	<u>612,212,357</u>

Due to the nature of the Group's business all the companies in the Group can provide any travel related service, so it is not practical to split the assets, liabilities and depreciation related to these business segments. The assets, liabilities and depreciation therefore are shown in respect of the key subsidiaries ATI, ATH and MREIC below.

None of the above segments comprises 10% or more of the total consolidated revenue except for Air Ticketing, Travel and Tours. Further 31% of the revenue for the period is generated from one governmental entity (2012: 33%). The contract with this governmental entity is valid till May 2014.

A segment for Hotels is currently under formation following the acquisition of the majority stake of MREIC in 2013. As at 30 June 2013 MREIC represents more than 10% of the consolidated assets. MREIC has not started any material revenue generating activities as the hotels are currently under construction.
