If those assets are derecognised entirely, but the entity retains a continuing involvement, disclosures have to be provided that enable users of financial statements to evaluate the nature of, and risks associated with, the entity's continuing involvement in those derecognised assets.

### Improvements to IFRSs 2011 - IAS 34 Interim Financial Reparting

These amendments emphasises the principle in IAS 34 that the disclosure about significant events and transactions in interim periods should update the relevant information presented in the most recent annual financial report and clarifies how to apply this principle in respect of financial instruments and their fair values. The amendments add examples to the list of events or transactions that require disclosure under IAS 34 and remove references to materiality in IAS 34 that describes other minimum disclosures.

Other amendments resulting in improvements to the following standard did not have any material impact on the accounting policies, financial position and performance of the Company:

The new standards, amendments to standards and interpretations to International Financial Reporting Standards which are mandatory for the first time for the financial year beginning 1 January 2012 did not result in material amendments to the presentation and disclosure of the accompanying interim condensed financial statements.

The Company has chosen not to early adopt the amendments and revisions to the International Financial Reporting Standards which have been published and are mandatory for compliance for the Company with effect from future dates.
