### NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED) (continued)

30 September 2013

#### 4 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS

The significant accounting policies adopted in the preparation of these interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2012.

The Company has chosen to early adopt the following new standards and amendmens, which are effective for the Company's financial years starting 2013 and thereafter:

#### IFRS 13 Fair Value Measurement

IFRS 13 describes how to measure fair value when fair value is required or permitted by IFRS. New disclosures related to fair value measurements are also required to help users understand the valuation techniques and inputs used to develop fair value measurements and the effect of fair value measurements on profit or loss. Adoption of this standard did not impact the Company's financial position or performance.

IFRS 7 Disclosures — Offsetting Financial Assets and Financial Liabilities — Amendments to IFRS 7 These amendments require an entity to disclose information about rights to set-off and related arrangements (e.g., collateral agreements). The disclosures would provide users with information that is useful in evaluating the effect of netting arrangements on an entity's financial position. The new disclosures are required for all recognised financial instruments that are set off in accordance with IAS 32 Financial Instruments: Presentation. The disclosures also apply to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are set off in accordance with IAS 32. These amendments have not impacted the Company's financial position or performance.

IAS 34 Interim Financial Reporting — Interim financial reporting and segment information

The amendment clarifies the requirements in IAS 34 relating to segment information for total assets and liabilities for each reportable segment to enhance consistency with the requirements in IFRS 8 Operating Segments. Total assets and liabilities for a particular reportable segment need to be disclosed only when the amounts are regularly provided to the chief operating decision maker and there has been a material change in the total amount disclosed in the entity's previous annual financial statements for that reportable segment. Adoption of this standard did not impact the Company's financial position or performance.

IAS 1 Presentation of Items of Other Comprehensive Income - Amendments to IAS 1

The amendments to IAS 1 introduce a grouping of items presented in other comprehensive income (OCI). Items that could be reclassified (or recycled) to profit or loss at a future point in time (e.g., net gain on hedge of net investment, exchange differences on translation of foreign operations, net movement on cash flow hedges and net loss or gain on available for sale financial assets) now have to be presented separately from items that will never be reclassified (e.g., actuarial gains and losses on defined benefit plans and revaluation of land and buildings). The amendment had no impact on the Company's financial position or performance.

#### Standards issued but not yet effective

In addition to the above mentioned standards, the following standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective. Further, the Company has chosen not to early adopt the amendments and revisions to the International Financial Reporting Standards which have been published and are mandatory for compliance for the Company with effect from future dates.

IFRS 9 Financial Instruments

IFRS 9, as issued, reflects the first phase of the IASB's work though the adoption date is subject to the recently issued Exposure Draft on the replacement of IAS 39 and applies to classification and measurement of financial assets and liabilities as defined in IAS 39. The standard was initially effective for annual periods beginning on or after 1 January 2013, but Amendments to IFRS 9 Mandatory Effective Date of IFRS 9 and Transition Disclosures, issued in December 2011, moved the mandatory effective date to 1 January 2015. In subsequent phases, the Board will address impairment and hedge accounting. The Company will quantify the effect of the adoption of the first phase of IFRS 9 in conjunction with the other phases, when issued, to present a comprehensive picture.

### 4 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS (continued)

IAS 32 Offsetting Financial Assets and Financial Liabilities — Amendments to IAS 32

The amendments clarify that rights of set-off must not only be legally enforceable in the normal course of business, but must also be enforceable in the event of default and the event of bankruptcy or insolvency of all of the counterparties to the contract, including the reporting entity itself. The amendments also clarify that rights of set-off must not be contingent on a future event. The IAS 32 offsetting criteria require the reporting entity to intend either to settle on a net basis, or to realise the asset and settle the liability simultaneously. The amendments clarify that only gross settlement mechanisms with features that eliminate or result in insignificant credit and liquidity risk and that process receivables and payables in a single settlement process or cycle would be, in effect, equivalent to net settlement and, therefore, meet the net settlement criterion. The amendment is effective for annual periods beginning on or after 1 January 2014.

### 5 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION OF UNCERTAINITY

The preparation of the condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation of uncertainty were the same as those that were applied to the reissued financial statements as at and for the year ended December 31, 2012.

#### 8 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or the most advantageous) market between market participants at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. The fair values of recognised financial instruments are not significantly different from the carrying values included in the interim condensed financial statements. The estimated fair values of financial instruments are based on quoted market prices, when available. The fair values of these investments are disclosed below.

#### Determination of fair value and fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for the same instrument (i.e., without modification or repacking);

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data: and

Level 3: valuation techniques for which any significant input is not based on observable market data.

#### Goodwill

The Company entered into a purchase agreement whereby it has purchased the insurance business operations in the Kingdom of Saudi Arabia of Royal & Sun Alliance Insurance (Middle East) Limited E.C.—Saudi Arabian Operations and Al Alamiya for Commerce and Services Limited. The purchase price was based on a valuation study conducted in accordance with the due diligence and valuation guidelines issued by SAMA. In accordance with the SAMA letter of November 10, 2008 ("the letter"), the value of combined goodwill was estimated at SR 64.14 million. The amount will be paid in accordance with SAMA's instructions therein which include among other matters, the following conditions:

- The Company shall maintain solvency ratios and minimum capital requirements as per the guidelines prescribed by SAMA in this respect;
- No payment of goodwill will be made in the year when the Company reports a loss and the goodwill shall not paid out of any retained earnings from earlier years;
- The payment is restricted to 50% of the profit earned in the current year; and
- Limitation will be placed by SAMA on the period during which payments can be made.

In view of the accumulated losses and the requirements set by SAMA in this respect as illustrated above, and the fact that the Company is not in a position to make the initial payment of goodwill, the payment for goodwill has not been recorded as a liability and hence was reflected as a contingent liability in the financial statements pending compliance with SAMA requirements in this respect and their approval for payment.
