

SAUDIA DAIRY & FOODSTUFF COMPANY (SADAFCO)
(A Saudi Joint Stock Company)

UNAUDITED INTERIM CONSOLIDATED
FINANCIAL STATEMENTS

31 MARCH 2016

**LIMITED REVIEW REPORT TO THE SHAREHOLDERS OF SAUDIA DAIRY AND FOODSTUFF
COMPANY (SADAFCO) (A SAUDI JOINT STOCK COMPANY)
ON THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

Scope of review

We have reviewed the accompanying consolidated balance sheet of Saudia Dairy and Foodstuff Company - Saudi Joint Stock Company - ("SADAFCO" or "the Company") and its subsidiaries (collectively referred to as "the Group") as at 31 March 2016 and the related consolidated statement of income for the three-month and year then ended, and the related consolidated statements of cash flows and changes in shareholders' equity for the year then ended. These interim consolidated financial statements are the responsibility of the Company's management and have been prepared by them and submitted to us together with all the information and explanations which we required. We conducted our limited review in accordance with the Saudi Organisation for Certified Public Accountants' Standard on interim financial reporting. A limited review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion on the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

2. BASIS OF PREPARATION

(a) Statement of compliance

The accompanying interim consolidated financial statements have been prepared in accordance with the Standard for Interim Financial Information issued by the Saudi Organization for Certified Public Accountants (SOCPA). These interim consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements of the Group for the year ended 31 March 2015.

SAUDIA DAIRY & FOODSTUFF COMPANY (SADAFCO)
(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
At 31 March 2016

2. BASIS OF PREPARATION (continued)

(b) Basis of measurement

These interim consolidated financial statements are prepared under the historical cost basis (except for investments and derivative financial instruments which are stated at fair values), using the accrual basis of accounting and the going concern concept.

(c) Functional and presentation currency

These interim consolidated financial statements are presented in Saudi Arabian Riyals (SR) which is the functional currency. All financial information presented in SR has been rounded to the nearest thousand.

(d) Use of estimates and judgments

The preparation of interim consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected. Significant areas where management has used estimates, assumptions or exercised judgments are as follows:

(i) Impairment of available for sale investments

The Group exercises judgement to consider the impairment of available for sale investments as well as their underlying assets. This includes the assessment of objective evidence which causes other than temporary decline in the value of investments. Any significant and prolonged decline in the fair value of equity investment below its cost is considered as objective evidence for the impairment. The determination of what is 'significant' and 'prolonged' requires judgement. The Group also considers impairment to be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology, and operational and financing cash flows.

(ii) Impairment of non-financial assets

The Group assesses, at each reporting date or more frequently if events or changes in circumstances indicate, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less cost to sell, and its value in use, and is determined for the individual asset, unless the asset does not generate cash inflows which are largely independent from other assets or groups.

SAUDIA DAIRY & FOODSTUFF COMPANY (SADAFCO)
(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
At 31 March 2016

2. BASIS OF PREPARATION (continued)

(d) Use of estimates and judgments (continued)

(ii) Impairment of non-financial assets (continued)

Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining the fair value less costs to sell, an appropriate source is used, such as observable market prices or, if no observable market prices exist, estimated prices for similar assets or if no estimated prices for similar assets exist, it is based on discounted future cash flow calculations.

(iii) Provision for impairment of trade receivables

A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered as indicators that the trade receivable is impaired. For significant individual amounts, assessment is made on an individual basis. Amounts which are not individually significant, but are overdue, are assessed collectively and a provision is recognized considering the length of time considering past recovery rates.

(iv) Provision for slow moving inventory items

The Group makes a provision for slow moving inventory items. Estimates of net realizable value of inventories are based on the most reliable evidence at the time the estimates are made. These estimates take into consideration fluctuations of price or cost directly related to events occurring subsequent to the balance sheet date to the extent that such events confirm conditions existing at the end of year.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies used by the Group for the preparation of these interim consolidated financial statements are consistent with those used for the preparation of the annual consolidated financial statements.

Basis of consolidation

These interim consolidated financial statements include the interim consolidated financial statements of the Company and its subsidiaries set forth in Note 1 above.

Investments in subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the interim consolidated financial statements from the date that control commences until the date control ceases. All intra-group balances and financial transactions resulting from transactions between the Company and the subsidiaries are eliminated in preparing these interim consolidated financial statements. Also, any unrealized gains and losses arising from intra-group transactions are also eliminated on consolidation. The attributable equity interest of third parties in the Group is included under the non-controlling interests caption in these interim consolidated financial statements.

SAUDIA DAIRY & FOODSTUFF COMPANY (SADAFCO)
(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
At 31 March 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Account receivables

Account receivables are stated at original invoice amount less provisions made for amounts which in the opinion of the management may not be received. Bad debts are written off when identified.

Available for sale investments

Investments which are neither bought with the intention of being held to maturity nor for trading purposes are classified as available for sale and are stated at fair value and included under current assets unless they are not intended to be sold in the next fiscal year. Securities for which related fair value cannot be instantly determined there are other indicators through which the market value can be objectively determined, accordingly, these are non-instantly available securities. Thus, if the fair value is not available in the aforementioned form, the cost will be the most appropriate, objective and reliable measurement of the fair value of the securities. Changes in the fair value are credited or charged to the interim consolidated statement of changes in shareholders' equity. However, any non-temporary decline in value is charged to the interim consolidated statement of income. Fair value is determined by reference to the market value.

Dividend income is recognised when the right to receive the dividend is established.

Property, plant and equipment and depreciation

Property, plant and equipment are measured at cost, less accumulated depreciation and accumulated impairment loss, if any. Cost includes expenditure that is directly attributable to the acquisition of the asset. Finance costs on borrowings to finance the construction of the assets are capitalized during the period of time that is required to complete and prepare the asset for its intended use.

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the item of property, plant and equipment. All other expenditure is recognized in the interim consolidated statement of income when incurred.

Depreciation is charged to the interim consolidated statement of income on a straight-line basis over the estimated useful lives of individual item of property, plant and equipment.

Property, plant and equipment are depreciated at the following annual rates:

	<u>%</u>
Buildings	2.5-10
Machinery and equipment	10-33
Vehicles and trailers	15-25
Furniture, fixtures and office equipment	10-25

SAUDIA DAIRY & FOODSTUFF COMPANY (SADAFCO)
(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
At 31 March 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition

Sales are recognized when products are delivered or shipped to customers and when risks and rewards are transferred. Sales represent the invoiced value of the goods supplied during the period, net of discounts and returns.

Inventories

Inventories are valued at the lower of cost (determined principally by using the standard cost method but adjusted to approximate the respective actual cost) and net realizable value. Costs of finished goods include material cost, direct labour and appropriate manufacturing overhead. The cost of inventories includes expenditure incurred in acquiring and bringing them to their existing location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and selling expenses.

Zakat and income tax

The Company and its Saudi Arabian subsidiaries are subject to Zakat and income-tax in accordance with the regulations of the Department of Zakat and Income Tax ("DZIT"). The foreign subsidiaries are subject to tax regulations in their respective countries of incorporation. Zakat and income tax are charged to interim consolidated statement of income.

Employees' end of service benefits

Employees' end of service benefits, calculated in accordance with labour regulations of the countries of incorporation of the Group member companies, are accrued and charged to interim consolidated statement of income.

Expenses

Selling and distribution expenses are those arising from the Group's efforts underlying their marketing, selling and distribution functions. All other expenses are classified as general and administrative expenses.

Operating lease payments

Payments under operating leases are recognized in the interim consolidated statement of income on a straight-line basis over the terms of the lease.

Foreign currencies

Transactions denominated in foreign currencies are recorded at the rates of exchange prevailing at the dates of the respective transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Saudi Arabian Riyals (for the Company) or the relevant currencies (for subsidiaries) at the exchange rate ruling at that date. Foreign exchange differences arising on translation are recognized in the interim consolidated statement of income.

Exchange difference, arising from the translation of foreign currency financial statements of subsidiaries are allocated to the shareholders of the Parent Company and non-controlling shareholders in proportion to their ownership interests in the investee companies. SADAFCO's share in exchange difference is recorded as a separate component of shareholders' equity, whereas amounts relating to the non-controlling shareholders are included under non-controlling interests in the interim consolidated balance sheet.

SAUDIA DAIRY & FOODSTUFF COMPANY (SADAFCO)
(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
At 31 March 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Derivative financial instruments

The Group uses interest rate swaps to strategically hedge its risk against interest rate movements and thus hedge accounting is not followed. The interest rate swaps are included in the interim consolidated balance sheet at fair value and any resultant gain or loss is recognized in the interim consolidated statement of income. The fair values of interest rate swaps are included in "other receivables" in case of favourable contracts and "other payables" in case of unfavourable contracts.

Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents comprise cash and cheques in hand, balance with current accounts with banks, funds placed for investment and short-term bank deposits having an original maturity within 90 days.

Provisions

A provision is recognized if, as a result of past events, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit, will be required to settle the obligation.

Segment reporting

A segment is a distinguishable component of the Company that is engaged either in providing products or services (a business segment) or in providing products or services within a particular economic environment (a geographic segment), which is subject to risks and rewards that are different from those of other segments.

8 ZAKAT

Zakat assessments for the years up to and including 1996 have been finalised with the Department of Zakat and Income Tax (DZIT).

The DZIT raised final assessments for the years 1997 through 2002 with an additional Zakat liability of SR 8,254 thousand. Board of Grievance (BOG) rendered its decision in favour of the DZIT. The Company has filed a review petition against BOG decision. Pending resolution of the case, the assessed amount has been paid "under protest".

The DZIT raised final assessments for the years 2003 and 2004 with an additional Zakat liability of SR 5,135 thousand. The Company's appeal against the Higher Appeal Committee (HAC) decision is awaiting review by the BOG.
