REVIEW REPORT ON THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The Shareholders
United International Transportation Company
Jeddah, Kingdom of Saudi Arabia

Scope of Review

We have reviewed the accompanying interim consolidated balance sheet of United International Transportation Company ("the Company") and its subsidiaries ("the Group") as at September 30, 2014, the related interim consolidated statement of income for three and nine-month periods then ended, interim consolidated statements of cash flows and changes in equity for nine-month period then ended and the attached condensed notes from 1 to 11 which form an integral part of these interim condensed consolidated financial statements. These interim condensed consolidated financial statements are the responsibility of the Group's management and have been prepared by them and submitted to us together with all the information and explanations, which we required. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

We conducted our review in accordance with the Auditing Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). A review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

2. BASIS OF PREPARATION

(a) Statement of compliance

The accompanying interim condensed consolidated financial statements have been prepared in accordance with the standard for Interim Financial Information issued by the Saudi Organization for Certified Public Accountants (SOCPA).

These interim condensed consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements of the Group for the year ended December 31, 2013.

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS (UNAUDITED)**

For the nine-month period ended September 30, 2014

Expressed in Saudi Arabian Riyals

2. BASIS OF PREPARATION (continued)

(b) Basis of measurement

These interim condensed consolidated financial statements are prepared under the historical cost basis using the accrual basis of accounting and the going concern concept except for assets held for sale which are measured at lower of their carrying amount and fair value less cost to sell.

(c) Functional and presentation currency

The accompanying interim condensed consolidated financial statements are presented in Saudi Arabian Riyals (SR), which is the functional currency of the Company.

(d) Critical accounting judgements and estimates

The preparation of interim condensed consolidated financial statements requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. Such estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including obtaining professional advice and expectations of future events that are believed to be reasonable under the circumstances. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future period affected. The following are the areas where the Group has applied significant judgements and estimates.

- i) The Group's management uses its judgements for estimation of useful lives and expected residual value of vehicles at their expected date of disposal based on past experience and available information as at the balance sheet date.
- ii) A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the agreement. Significant financial difficulties of the debtor and default or delinquency in payments are considered indicators of objective evidence that the trade receivable is impaired. For significant individual amounts, assessment is made on an individual basis. Amounts which are not individually significant, but are overdue, are assessed collectively and a provision is recognized considering the length of time considering past recovery rates.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in the Group's interim condensed consolidated financial statements.

(a) Basis of consolidation

These interim condensed consolidated financial statements include the financial statements of the Company and its subsidiaries set forth in Note 1 above.

UNITED INTERNATIONAL TRANSPORTATION COMPANY
(A Saudi Joint Stock Company)

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS (UNAUDITED)**

For the nine-month period ended September 30, 2014

Expressed in Saudi Arabian Riyals

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) Basis of consolidation (continued)

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the interim condensed consolidated financial statements from the date that control commences until the date control ceases.

All intra-group balances and financial transactions resulting from transactions between the Company and the subsidiaries are eliminated in preparing these interim condensed consolidated financial statements. Also, any unrealized gains and losses arising from intra-group transactions are eliminated on consolidation.

(b) Investment in an associate

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20 and 50 percent of the voting power of another entity, unless the presumption is rebutted by alternate agreements or understanding between the shareholders. Associates are accounted for using the equity method (equity accounted investee) and are initially recognized at cost. The Group's investment in an associate includes goodwill identified on acquisition, net of any accumulated impairment losses. The financial statements include the Group's share of income and expenses and equity movement of the equity accounted investees from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in an associate, the Company's carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of an associate. The Group's share of profits or losses of the investee company is credited or charged to the interim consolidated statement of income.

(c) Foreign currency translation

These interim condensed consolidated financial statements are reported into Saudi Arabian Riyals, which is the Company's functional and presentation currency. Each subsidiary has its own functional currency.

Transactions denominated in foreign currencies are translated to the functional currencies of the Company at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities of the Company denominated in foreign currencies at the balance sheet date are translated to the functional currencies of the Company at the foreign exchange rate ruling at that date. Exchange differences arising on translation are recognized in the interim consolidated statement of income.

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS (UNAUDITED)**

For the nine-month period ended September 30, 2014

Expressed in Saudi Arabian Riyals

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Foreign currency translation (continued)

Assets and liabilities of foreign subsidiary are translated into Saudi Arabian Riyals at the exchange rates in effect at the date of the interim condensed balance sheet. The equity components of foreign subsidiary with the exception of retained earnings of subsidiary, are translated at the exchange rates in effect at the dates of the transaction. The elements of foreign subsidiary's statement of income is translated using the weighted-average exchange rate for the period. Adjustments resulting from the translation of foreign subsidiaries' financial statements into Saudi Arabian Riyals are reported as a separate component of equity (foreign currency translation reserve) attributable to shareholders of the Company in the interim condensed consolidated financial statements.

(d) Trade receivables

Trade receivables are carried at original invoice amounts less provision made for doubtful accounts. A provision for doubtful accounts is established when there is a significant doubt that the Group will be able to collect all amounts due according to the original terms of agreement.

(e) Revenue recognition

Revenue from vehicle rental is recognized over the rental period, in accordance with terms of rental agreements (net of discount). Rental revenue also includes fees for services incidental to vehicle rental. Revenue from unbilled rentals is recognized at their net realizable amount. Lease revenue is recognized over the period of lease agreement. Revenue from services is recognised when services are rendered.

(f) Inventories

Inventories represent spare parts and other supplies for vehicles, which are valued at the lower of cost, determined using weighted average method, or net realizable value. Provision is made, where necessary for obsolete and defective stocks. Net realisable value is the estimated selling price in the ordinary course of business, less selling expenses.

(g) Property and equipment

Items of property and equipment are measured at cost less accumulated depreciation and impairment losses, if any.

Depreciation is based on the cost of an asset less its estimated residual value expected at their date of disposal. Depreciation is recognised in interim consolidated statement of income on a straight line basis over the estimated useful lives of each component of an item of property and equipment. Land is not depreciated.

UNITED INTERNATIONAL TRANSPORTATION COMPANY

(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

For the nine-month period ended September 30, 2014

Expressed in Saudi Arabian Riyals

3. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

(g) **Property and equipment (continued)**

The estimated useful lives of each part of individual item of property and equipment are as follows:

	<u>Years</u>
Buildings and other installations	10-20
Vehicles	2-3
Furniture, fixtures and office equipments	4-5
Machinery and equipments	4-7

Gain on sale of vehicles and other items of property and equipment is recognized in the interim consolidated statement of income when risks and rewards of ownership are transferred to the buyer representing the difference between the selling price and the net carrying value of the vehicles at the date of disposal. Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if necessary.

(h) **Impairment**

Property and equipment and other assets are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss, if any, is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

(i) **Assets held for sale**

Non-current assets that are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale under current assets. Immediately before classification as held for sale, the assets are re-measured at the lower of their carrying amount and fair value less cost to sell.

(j) **Vehicles' financing**

Vehicles purchased under Murabaha and Al Tawarroq agreements are recorded at their fair value at the inception. Bank fees and other charges are allocated to the interim consolidated statement of income over the instalment term at a constant periodic basis.

(k) **Accounts payable and accruals**

Liabilities are recognized for amounts to be paid in the future for supplies or services received, whether or not billed to the Group.
