2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying interim financial statements have been prepared under the historical cost convention on the accruals basis of accounting in accordance with generally accepted accounting principles applicable in Saudi Arabia. The accounting policies used in the preparation of the interim financial statements are consistent with the accounting policies used for the preparation of annual financial statements.

The following is a summary of these accounting policies:

a) Use of estimates

The preparation of interim financial statements in conformity with generally accepted accounting principles require the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim financial statements and the reported amount of revenues and expenses during the this period. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

b) Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at banks, deposits, and short term investments that can be converted easily to cash and has a maturity date of three months or less from the date of purchasing it.

SAUDI CEMENT COMPANY
(A Saudi Joint Stock Company)

NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS AND SIX MONTHS ENDED JUNE 30, 2012 (Unaudited)

Islamic Murabaha that have a maturity date up to three months from the purchasing date are considered as cash and cash equivalents. Islamic Murabaha that have a maturity date of more than three months but less than one year from the purchasing date are classified as Islamic Murabaha in banks in a separate line under the current assets.

c) Inventories

Finished goods and work in process inventories represent the cost of raw materials, labor, materials, and other overhead expenses. Raw material inventories are stated at the lower of weighted average cost or net realizable value. Paper bags, spare parts, maintenance consumables, and others are valued at weighted average cost.

d) Investments

Investments in companies which are at least 20% owned and in which the Company exercises significant influence are recorded using the equity method, under which the investment is stated initially at cost and adjusted thereafter in light of change in the Company's shares of net assets of the investee based on recent available financial statements of the investee Company. These are referred to as associated companies. The Company's share in the associated companies' net income or losses for the period is included in the interim statement of income.

e) Fixed assets

Fixed assets are stated at cost less accumulated depreciation. Major expenditure incurred to improve the performance of machinery and equipment is capitalized. Depreciation is provided over the estimated useful lives of the applicable assets using the straight line method. The annual depreciation rates are as following:

Buildings, structures, and installations	3% - 5%
Machinery, equipment, and improvements	3.25% - 33%
Tools and transportation equipment	10 % - 25%
Furniture and fixtures	10 % - 25%

f) End of service benefits

End of service benefits, payable to employees upon their termination, are provided in the financial statements based on the employees' period of service, in accordance with Saudi Arabian Labor Law.

g) Sales

FOR THE THREE MONTHS AND SIX MONTHS ENDED JUNE 30, 2012 (Unaudited)

i) Employees' early retirement program

The Company has a voluntary retirement program which is granted to eligible employees at the Company's discretion. Employees qualifying for the early retirement scheme are required to choose one of two payment options, either in lump sum payment or monthly installments. Under the lump sum payment option, the total amount paid is expensed in the year the employee retires. Under the monthly payment option, a liability is established in the year of retirement for all future payments.

j) Foreign currency translation

Transactions denominated in foreign currencies are translated to Saudi Riyals at exchange rates prevailing on the date of such transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Saudi Riyals at exchange rate prevailing at that date. Gains or losses from settlement and translation of foreign currency transactions are included in the interim statement of income.

k) Impairment of assets

At each balance sheet date, the Company reviews the carrying amounts of its fixed assets to determine whether there is any indication that assets have suffered from an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash – generating unit to which the asset belongs.

If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment losses are recognized as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount so that increases carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized as income immediately.

l) Zakat

The Company is subject to the regulations of the Department of Zakat and Income Tax in the Kingdom of Saudi Arabia. Zakat is provided on accrual basis. The zakat provision for each interim period is estimated. The actual zakat provision is calculated at the year end and any difference is adjusted in the fourth quarter. When the final zakat assessment is approved any difference between the assessment and the zakat estimates (if existed) is recorded in the interim income statement.

3- EARNINGS PER SHARE

- Earnings per share is computed by dividing net income for the period by the weighted average number of shares outstanding .

- If the number of shares changed without changing the shareholders equity (as the case of stock dividends), then the effect of this change on the number of shares outstanding is regarded as if this change has happened at the beginning of the year and the earnings per share for all comparative periods is re-calculated using the new number of shares outstanding.
