#### AUDITOR'S REORT (LIMITED REVIEW) ON INTERIM CONDENSED FINANICAL STATEMENTS

To The Shareholders of Abdullah Abdul Mohsin Al-Khodari Sons Company (A Saudi Joint Stock Company)

#### Scope of limited review:

We have reviewed the accompanying interim balance sheet of Abdullah Abdul Mohsin Al-Khodari Sons Company ("the Company") (A Saudi Joint Stock Company) as at June 30, 2015 and the related interim statements of income for the three and six months periods then ended and cash flows for the six months then ended and attached condensed notes 1 to 11 which form an integral part of these interim condensed financial statements as prepared by the Company and presented to us with all the necessary information and explanations which we required. These interim condensed financial statements are the responsibility of the Company's management.

We conducted our limited review in accordance with the standard of auditing applicable to Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants. A limited review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

#### Concision on limited review:

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim condensed financial statements for them to be in conformity with generally accepted accounting standards in the Kingdom of Saudi Arabia.

For Dr. Mohamed Al-Amri & Co.

### NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED) FOR THE THREE MONTHS AND SIX MONTHS PERIOD ENDED 30 JUNE 2015

#### 1. ORGANIZATION AND ACTIVITIES

Late Sheikh Abdullah Abdul Mohsin Al-Khodari founded a sole proprietorship in the Kingdom of Saudi Arabia in 1966 as general contracting. It was converted to a Saudi limited partnership under the name of Abdullah Abdul Mohsin Al-Khodari Sons Company on 25 Rajab 1412H corresponding to 30 January 1992. It was again converted into a Saudi Closed Joint Stock Company in accordance with Ministerial Resolution Number 152/Q dated 16 Jumad Awal 1430H (corresponding to 11 May 2009).

On 27 June 2010, Capital Market Authority accepted the application of the management of the Company for initial public offering of 12.75 million shares at Saudi Riyal 48 per share with the subscription date from 4 to 10 October 2010. From 23 October 2010, the shares of the Company have been listed at Saudi stock exchange.

The Company is registered in Saudi Arabia under Commercial Registration number 2050022550.

The Company is engaged in the following activities:

#### 2. INTERIM PERIOD RESULTS

The Company has made all necessary adjustments which are important to present farily in all material respects the interim financial position and interim results of operations. The interim financial results may not be considered an indicative of the actual reslts for the whole year.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

The interim condensed financial statements have been prepared in accordance with accounting standards generally accepted in the Kingdom of Saudi Arabia. The significant accounting policies adopted are as follows:

#### Accounting convention

The interim condensed financial statements are prepared under the historical cost convention.

#### Use of estimates

The preparation of interim condensed financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim condensed financial statements and the reported amounts of revenues and expenses during the reporting period.

#### Property, equipment and vehicles/depreciation

Property, equipment and vehicles are initially recorded at cost and are stated at cost less accumulated depreciation and any impairment in value. The cost of property, equipment and vehicles is depreciated on a straight line basis over the estimated useful lives of the assets. Following are the estimated useful lives of the assets for the calculation of depreciation:

Buildings, potables and hangers	4-20 years
Machinery, equipment and tools	4-10 years
Construction vehicles	4-6.67 years
Office equipment and furniture	4-6.67 years

The carrying values of property, equipment and vehicles are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount, being the higher of their fair value less costs to sell and their value in use.

Expenditures for repair and maintenance are charged to income. Improvements that increase the value or materially extend the life of the related assets are capitalized.

(A Saudi Joint Stock Company)

## NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED) FOR THE THREE MONTHS AND SIX MONTHS PERIOD ENDED 30 JUNE 2015

#### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Investments

Investments in subsidiaries are accounted for under equity method.

#### Assets held for sale

Property, equipment and vehicles are classified as assets held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. Assets held for sale are measured at the lower of carrying amount and fair value less costs to sell. Property, equipment and vehicles once classified as held for sale are not depreciated.

#### Mobilisation costs

Direct costs incurred to commence new contracts are deferred and amortised over the period of related contracts.

#### Inventories

Inventories are stated at the lower of cost and market value. Cost is determined using purchase cost on a weighted average basis.

#### Accounts receivable

Accounts receivable are stated at original invoice amount less a provision for any uncollectible amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

#### Cash and cash equivalents

Cash and cash equivalents consist of bank balances and cash in hand and short term deposits that are readily convertible into known amounts of cash and have original maturities of three months or less.

#### Accounts payable and accruals

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

#### **Provisions**

Provisions are recognised when the Company has an obligation (legal or constructive) arising from a past event, and the costs to settle the obligation are both probable and can be measured reliably.

#### Statutory reserve

As required by Saudi Arabian Regulations of the Companies, 10% of the net income for the period has been transferred to the statutory reserve. The Company may resolve to discontinue such transfers when the reserve totals 50% of the capital. The reserve is not available for distribution.

#### Employees' end of service benefits

Provision is made for amounts payable according to Company's policy applicable to employees' accumulated periods of service at the balance sheet date.

#### Zakat

Zakat is provided for in accordance with Saudi Arabian fiscal regulations. The provision is charged to the statement of income. Additional amounts, if any, that become due on finalisation of assessment are accounted for in the period in which assessment is finalised.

(A Saudi Joint Stock Company)

### NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED) FOR THE THREE MONTHS AND SIX MONTHS PERIOD ENDED 30 JUNE 2015

#### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

The zakat provision for the interim period is calculated based on the estimated zakat provision for the whole year. The difference between the provision made during the interim period and the actual provision for the period based on detailed zakat calculation for the year is accounted at year end.

#### Foreign currencies

Transactions in foreign currencies are recorded in Saudi Riyals at the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the interim statement of income.

#### Segmental reporting

A segment is a distinguishable component of the Company that is engaged either in providing products or services (a business segment) or in providing products or services within a particular economic environment (a geographic segment), which is subject to risks and rewards that are different from those of other segments.

#### Earnings per share

Basic earnings per share from net income is calculated by dividing the net income for the period by the weighted average number of shares outstanding during the period.

Basic earnings per share from main operations is calculated by dividing income from main operations for the period by the weighted average of number of shares outstanding during the period.

#### Revenue recognition

#### Trading revenue

Sales revenue represents the invoiced value of goods supplied and services rendered by the Company during the period. Services performed but not billed at the balance sheet date are classified as "accrued income".

#### Contracting revenue

The Company principally operates fixed price contracts. If the outcome of such a contract can be reliably measured, revenue associated with the construction contract is recognised by reference to the percentage of completion method of each contract activity at year end.

The outcome of a construction contract can be estimated reliably when:

- (i) the total contract revenue can be measured reliably;
- (ii) it is probable that the economic benefits associated with the contract will flow to the entity;
- (iii) the costs to complete the contract and the stage of completion at the balance sheet date can be measured reliably; and
- (iv) the contract costs attributable to the contract can be clearly identified and measured reliably so that actual contract costs incurred can be compared with prior estimates.

When the outcome of a construction cannot be estimated reliably (principally during early stages of a contract), contract revenue is recognised only to the extent of costs incurred that are expected to be recoverable.

In applying the percentage of completion method, revenue recognised corresponds to the total contract revenue multiplied by the actual completion rate based on the proportion of total contract costs incurred to date and the estimated cost to complete.

When the stage of completion is determined by reference to the contract costs incurred up to the reporting date, only those contract costs that reflect work performed are included in costs incurred up to the reporting date. The following costs are excluded from contract costs:

(A Saudi Joint Stock Company)

### NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED) FOR THE THREE MONTHS AND SIX MONTHS PERIOD ENDED 30 JUNE 2015

#### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

- (i) Contract costs that relate to future activity on the contract, such as costs of materials that have been delivered to a contract site or set aside for use in a contract but not yet installed, used or applied during contract performance, unless the materials have been made especially for the contract.
- (ii) Payments made to subcontractors in advance of work performed under the subcontract.

The value of work executed but not billed at the balance sheet date is classified as "value of work executed in excess of billings" under current assets. Amounts billed in excess of work executed at the balance sheet date is classified as "billing in excess of value of work executed" are classified under current liabilities.

When an uncertainty arises about the collectability of an amount already included in contract revenue, and already recognized in the statement of income, the uncollectable amount or the amount in respect of which recovery has ceased to be probable is recognized as an expense rather than as an adjustment of the amount of contract revenue.

Revenue from change orders is recognized when:

- (i) The change orders have been approved by the customer; and
- (ii)The amount of change order can be measured reliability

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognized as an expense immediately. The amount of such a loss is determined irrespective of:

- (i) Whether or not work has commended on the contract.
- (ii)The stage of completion of contract activity.
- (iii) The amount of profits expected to arise on other contracts which are not treated as a single construction contract.

Change in the estimate of contract revenue or contract costs, or the effect of a change in the estimate of the outcome of a contract, is accounted for as a change in accounting estimate and accordingly accounted for prospectively.

#### Contract costs

Contract costs include costs that relate directly to the specific contract and costs that are attributable to contract activity in general and can be allocated to the contract. Costs that relate directly to a specific contract comprise: site labour costs (including site supervision), costs of materials used in construction, depreciation of equipment used on the contract, costs of design, and technical assistance that is directly related to the contract.

#### **Operating leases**

Operating lease payments are recognised as an expense in the statement of income on a straight line basis over the lease term.

#### Expenses

Selling and marketing expenses are those that project bidding costs and advertising as well as allowance for doubtful debts. All other expenses except for operating costs and financial charges are classified as general and administration expenses.

#### Fair value

The fair value of commission bearing items is estimated based on discounted cash flows using commission rates for items with similar terms and risk characteristics.
