To the shareholders of AXA Cooperative Insurance Company: (A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying interim statement of financial position of AXA Cooperative Insurance Company (a Saudi Joint Stock Company) (the "Company") as of 30 June 2017 and the related interim statements of insurance operations' income and accumulated surplus, insurance operations' comprehensive income, shareholders' operations and shareholders' comprehensive income for the three-month and six-month periods then ended and the interim statements of changes in shareholders' equity, insurance operations' cash flows and shareholders' cash flows for the six-month period ended 30 June 2017 and notes, comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34") and Saudi Arabian Monetary Authority's ("SAMA") guidance on accounting for zakat and income tax. Our responsibility is to express a conclusion on these condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent suditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34 and SAMA's guidance on accounting for zakst and income tax.

The Company has commenced insurance operations on Rabi' I 4, 1431H (corresponding to 18 February 2010) after obtaining full product approval for certain products and temporary approval for the remaining products. During 2016, the Company obtained approval for the remaining products.

2. Summary of significant accounting policies

Significant accounting policies applied in the preparation of this condensed interim financial information are set out below. These policies are consistently applied for all periods presented.

2.1 Basis of preparation

During 2017, SAMA issued a circular number 381000074519 dated 14 Rajab 1438H (11 April 2017) ("Circular") and subsequent amendments through certain clarifications relating to the accounting for zakat and income tax. The impact of these amendments is that zakat and income tax will be recognized in the interim statement of shareholders' equity with a corresponding liability in the interim statement of financial position.

Applying the above framework, the condensed interim financial information of the Company as at and for the three-month and six-month periods ended 30 June 2017 have been prepared using the International Accounting Standard 34 - Interim Financial Reporting ("IAS 34") and SAMA guidance for the accounting of zakat and income tax.

Until 2016, the condensed interim financial information of the Company was prepared in accordance with the IAS 34. This change in framework resulted in a change in the presentation of zakat and income tax (as disclosed in note 2.2) to the condensed interim financial information.

As required by the Law, the Company maintains separate accounts for insurance operations and shareholders' operations and presents the financial statements accordingly. The physical custody and title of all assets related to the insurance operations and shareholders' operations are held by the Company. Revenues and expenses clearly attributable to either activity are recorded in the respective accounts. The basis of allocation of expenses from joint operations is determined by management and the Board of Directors of the Company.

In accordance with the requirements of the Implementing Regulations for Co-operative Insurance Companies (the "Regulations") issued by SAMA and as per the by-laws of the Company, surplus arising from the insurance operations is distributed as follows:

| Transfer to shareholders' comprehensive operations | 90% |
|---|------|
| Transfer to insurance operations' accumulated surplus | 10% |
| | 100% |

If the insurance operations result in a deficit, the entire deficit is borne by the shareholders' operations. The accompanying condensed interim financial information include all adjustments comprising mainly of normal recurring accruals considered necessary by the Company's management to present a fair statement of the financial position, results of operations and cash flows.

2. Summary of significant accounting policies (continued)

2.2 Accounting policies

The accounting policies used in the preparation of this condensed interim financial information are consistent with those used in the preparation of the annual audited financial statements as at and for the year ended 31 December 2016, except for:

- (a) The Company used to charge zakat and income tax to the interim statement of changes in shareholders' equity through the interim statement of shareholders' comprehensive income. As a result of the Circular, the Company has changed its presentation relating to zakat and income tax and has started to charge zakat and income tax directly to the interim statement of changes in shareholders' equity. The Company has accounted for this change retrospectively, which has resulted in an increase in the total shareholders' comprehensive income by Saudi Riyals 6.2 million for the period ended 30 June 2016. The above change has not resulted in any changes in any of the components of the shareholders' equity of prior periods presented earlier; and
- (b) The adoption of certain amendments and revisions to existing standards as mentioned below, which have no significant financial impact on the condensed interim financial information of the Company. This condensed interim financial information should therefore be read in conjunction with the audited financial statements for the year ended 31 December 2016. The results of the interim period are not indicative of the results of the full statutory financial year.

FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED JUNE 30, 2017

(All amounts expressed in Saudi Riyals thousands unless otherwise stated)

2. Summary of significant accounting policies (continued)

2.3 Use of estimates in the preparation of condensed interim financial information

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and the Company's condensed interim financial information present fairly, in all material respects, the financial position and results of operations.

2.4 Financial risk management

The Company's activities expose it to a variety of financial risks: market risk (including commission rate risk, currency risk, fair value interest rate risk and price risk), credit risk and liquidity risk.

The condensed interim financial information does not include all financial risk management information and disclosures required in the annual financial statements and therefore should be read in conjunction with the Company's audited financial statements for the year ended 31 December 2016. There have been no changes in the risk management department or in any risk management policies since the year end.

2.5 Seasonality of operations

There are no seasonal changes that affect insurance operations.

NOTES TO THE CONDENSED INTERIM FINANCIAL INFORMATION

FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED JUNE 30, 2017 (All amounts expressed in Saudi Riyals thousands unless otherwise stated)

15. Earnings per share

Basic and diluted earnings per share for three-month and six-month periods ended 30 June 2017 and 2016 have been computed by dividing the shareholders' net income for the periods by the weighted average number of ordinary shares outstanding during such periods.

16. Fair values of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price). The Company's financial assets consist of cash and cash equivalents, deposits, premiums and insurance balances receivable, due from related parties, reinsurer's share of outstanding claims, available-for-sale investments, prepayments and other receivable, held-to-maturity investments and its financial liabilities consist of reinsurance balances payable, gross outstanding claims, accrued expenses and other liabilities, accrued zakat and income tax, due to a related party and employee benefit obligations.

The fair values of financial assets and liabilities are not materially different from their carrying values at the reporting date.

The Company uses the following hierarchy for determining and disclosing the fair value of financial assets:

Level 1: quoted prices in active markets for the same instrument (i.e., without modification or repackaging);

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

The table below presents the financial assets at their fair values as at 30 June 2017 and 31 December 2016 based on the fair value hierarchy:

| June 30, 2017 (Unaudited) | Level 1 | Level 2 | Level 3 | Total |
|--|--------------------|---------|---------|--------------------|
| Insurance operations Available-for-sale investments | 215,522 | ** | • | 215,522 |
| Shareholders' operations Available-for-sale investments | 161,509 | | | 161,509 |
| Total investments | 377,031 | - | | 377,031 |
| December 31, 2016 (Audited) | Level 1 | Level 2 | Level 3 | Total |
| Insurance operations | | | | |
| Available-for-sale investments | 134,810 | - | • | 134,810 |
| | 134,810 160,466 | • | · | 134,810 160,466 |

For financial instruments that are recognized at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. During the six-month period ended 30 June 2017, there were no changes in the valuation techniques from the previous periods.

17. Approval of the condensed interim financial information

This condensed interim financial information has been approved by the Board of Directors on 1 August 2017.
