# LIMITED REVIEW REPORT TO THE SHAREHOLDERS OF SAUDI ARABIAN FERTILIZERS COMPANY (SAFCO) SAUDI JOINT STOCK COMPANY

# Scope of limited review:

We have reviewed the accompanying interim balance sheet of Saudi Arabian Fertilizers Company ("SAFCO" or the "Company"), a Saudi Joint Stock Company as at 31 March 2016 and the related interim statements of income, cash flows, and changes in shareholders' equity for the three months period then ended. These interim financial statements have been prepared by the Company and submitted to us together with the information and explanations which we required. We conducted our limited review in accordance with the Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). The limited review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with Generally Accepted Auditing Standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

# Conclusion of limited review:

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

# NOTES TO THE INTERIM FINANCIAL STATEMENTS (UN-AUDITED) At 31 MARCH 2016

# 1 ACTIVITIES

Saudi Arabian Fertilizers Company (the "Company" or "SAFCO") is a Saudi Joint Stock Company incorporated under Royal Decree Number M/13 dated 11 Jumada I 1385H (corresponding to 7 September 1965). The Company was initially registered in the city of Dammam with Commercial Registration number 2050001841 dated 1 Dhl al-Hijjah 1385H (corresponding to 24 March 1966), and later on the Company's head office was shifted to Jubail Industrial City with commercial registration number 2055002359 dated 29 Shawwal 1411H (corresponding to 14 May 1991). The previous commercial registration was converted to a branch.

The Company's present principal business activity is the manufacture and conversion of Urea and Ammonia.

SAFCO holds a 50% equity interest in National Chemical Fertilizers Company ("Ibn Al Baytar"), 3.87% equity interest in Arabian Industrial Fibers Company ("Ibn Rushd"), and 1.69% equity interest in Yanbu National Petrochemicals Company ("Yansab").

# 2 SIGNIFICANT ACCOUNTING POLICIES

These interim financial statements have been prepared in accordance with accounting standards generally accepted in the Kingdom of Saudi Arabia. The significant accounting policies adopted are as follows:

### Accounting convention

These interim financial statements are prepared under the historical cost convention except for the measurement of available for sale investments at fair value.

### Use of estimates

The preparation of interim financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates are considered reasonable in the given circumstances of the Company.

### Cash and cash equivalents

Cash and cash equivalents consist of bank balances, cash on hand, short term Murabahat that is readily convertible into known amounts of cash and have original maturities of three months or less.

### Accounts receivable

Accounts receivable are stated at the original invoice amount less an allowance for any uncollectible amounts. An estimate for doubtful debt is made when the collection of the account receivable amount is considered doubtful. Bad debts are written off as incurred.

# Inventories

Inventories are stated at the lower of cost and net realizable value, with due allowance for obsolete or slow moving items. Cost is determined as follows:

Raw materials, consumables and spare parts

Finished products

- purchase cost on a weighted average basis.
- cost of direct materials and labour plus attributable overheads based on a normal level of activity.

# NOTES TO THE INTERIM FINANCIAL STATEMENTS (UN-AUDITED)-continued at 31 MARCH 2016

# 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

# Available for sale investments

These represent investments which are neither bought with the intention of being held to maturity nor for trading purposes. Such investments are stated at fair value. Changes in fair value are credited or charged to the statement of changes in shareholders' equity. Where there is an objective evidence that investments may be impaired, the estimated recoverable amount of those investments is determined and any impairment loss for the difference between the recoverable amount and the carrying amount is recognised in the statement of income.

Dividends from available for sales investments are recognized when dividends are declared.

### Investment in an associate

Investment in companies where the Company effectively participates in the financial and operational decisions of those investee companies, normally when the company acquire share between 20% to 50%, are accounted for using the equity method.

# Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment in value. Construction work in progress is not depreciated. The cost of other property, plant and equipment is depreciated on a straight line basis over the estimated useful lives of the assets.

Turnaround costs related to major maintenance, which normally benefit more than one year are capitalised and are depreciated over the period until the date of the next planned turnaround. Should an unexpected turnaround occur prior to the previously envisaged date of planned turnaround, then the previously undepreciated costs are immediately expensed and the new turnaround costs are depreciated over the period likely to benefit from such costs.

Expenditures for repair and maintenance are charged to income. Improvement that increase the value or materially extend the life of the related assets are capitalized.

Capital spare-parts which are considered essential to ensure continuous plant operation, are classified under "plant and equipment" under the tangible assets, and are depreciated using the straight-line method in accordance with the applicable depreciation rates. The following two conditions must apply to all capitalized spare-parts:

- They are not readily available in the market, or unavailable.
- Their manufacturing requires an extended time to complete.

# **Deferred costs**

Deferred costs represent the cost incurred for developing the infrastructure of land that will be used by the home ownership program (the "HOP") in the future. Deferred costs are classified under non-current assets and amortized over 5 years.

The amortization expenses are included under cost of sales in the interim statement of income.

### Impairment of non-current assets

The Company reviews the carrying values of its non-current assets for impairment when events or circumstances indicate that carrying value may not be recoverable. If such indicators exist, the recoverable amount of the asset is estimated in order to determine the extent of impairment (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

The carrying value of the asset (or cash generating unit) is reduced to the recoverable value when the recoverable value is below the carrying value. Impairment loss is recognized as expense when incurred.

Where an impairment loss subsequently reverses, the carrying value of the asset is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. The reversal of impairment loss is recognized as income once identified.
