INDEPENDENT AUDITOR'S REVIEW REPORT TO THE SHAREHOLDERS OF SUSTAINED INFRASTRUCTURE HOLDING COMPANY (A SAUDI JOINT STOCK COMPANY)

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Sustained Infrastructure Holding Company (the "Company") and its subsidiaries (collectively referred to as "the Group") as at 30 June 2026, and the related interim condensed consolidated statements of profit or loss and comprehensive income for three-month and six-month periods then ended, and the related interim condensed consolidated statements of changes in equity and cash flows for the six-month period then ended, and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "*Interim Financial Reporting*" ("*IAS 34*") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagement 2410 "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of the persons responsible for the financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing ("*ISAs*") as endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with *IAS 34* as endorsed in the Kingdom of Saudi Arabia.

**SISCO owns 60.6% effective interest in RSPDI which in turn owns 60% interest in RSGTI.

***SISCO owns 36.36% effective interest in RSGTI which in turn owns 100% interest in RSGT Bangladesh.

- (i) On 14 July 2021, SISCO and its subsidiary Saudi Trade and Export Development Company ("Tusdeer") completed the sale of its 21.2% and 4% direct equity stake in RSGT respectively. Total proceeds net of transaction cost for sale of these shares by SISCO and Tusdeer were SR 545.5 million and SR 102.9 million, respectively. SISCO had continued to consolidate RSGT through its subsidiary RSPD. This transaction was accounted for in these consolidated financial statements of the Group as a change in ownership interest of the Group in RSGT without loss of control. Accordingly, the carrying amounts of non-controlling interests had increased by SR 300.6 million to reflect the increase in their relative interests in RSGT. The difference between the amount by which the non-controlling interests have increased and the consideration received by the Group net of transaction cost amounted to SR 347.8 million. This amount was recognized directly in shareholders' equity as effect of changes in ownership interest in subsidiaries and is attributed to the shareholders of the Parent Company. Further, in line with requirement of IFRS Accounting Standards that are endorsed in the Kingdom of Saudi Arabia, the share of Actuarial Valuation Reserve and Cashflow Hedging Reserve of RSGT attributable to shareholders of Parent Company in the amount of SR 2.8 million and SR 2.4 million, respectively, were also adjusted to reflect the new ownership interest.
- (ii) During the year 2023, the Group's subsidiary Red Sea Gateway Terminal International Limited ("RSGTI") (in which SISCO owns 36.36% through its investment vehicle Red Sea Ports Development International Limited ("RSPDI")) has signed 22 years concession agreement with the Chittagong Port Authority for Patenga Container Terminal ("PCT") the Bangladesh's primary port, to develop a comprehensive long-term plan for a container terminal. Under the new concession, the Group's subsidiary, will develop and operate a 500,000 Twenty Foot Equivalent Unit ('TEU') facility at PCT in Chittagong.

As per the terms of the concession agreement RSGTI is committed to invest SR 637.5 million (equivalent to USD 170 million) to consolidate and develop the existing infrastructure as a first phase to increase the total TEU capacity to 500,000 TEUs.

The Group's subsidiary, RSGT Bangladesh, commenced its commercial operations from 11 June 2024.

During the year 2025, the Group's subsidiary Red Sea Gateway Terminal Limited (in which SISCO owns 60% through its investment vehicle Red Sea Ports Development Limited ("RSPD")) has signed 20 years concession agreements which commenced operations from 1 July 2025, with the Saudi Port Authority ("Mawani") to construct, operate and manage Multi-Purpose Terminals at Jeddah Islamic Port, Yanbu Commercial Port, King Fahd Industrial Port at Yanbu and Jazan Port (MPT Concession Agreement).

As per the terms of the MPT Concession Agreements, BALC is committed to invest SAR 1.095 billion over the concession period.

- (iv) On 1 October 2025, SISCO signed a sale and purchase agreement with Tusdeer to sell and transfer all of its legal and beneficial ownership of 97% shareholding in ISNAD to Tusdeer at consideration price of SAR 23 million. The transfer was effective as of 1 October 2025. This transfer was accounted for as a transaction with owners in their capacity as owners, since the consideration transferred to transfer the share is more than share of net assets transferred, the Company has recorded net excess amount of SR 1.5 million during 2025 as effect of changes in ownership interest reserve as part of equity as a separate component of in consolidated statement of changes in shareholder's equity.
- (v) On 1 October 2025, SISCO announced the signing of a Sale and Purchase Agreement to acquire a 51% equity stake in Port Services & Storage Company Limited (PSS). On 12 January 2026, the Company completed the acquisition of a 51% of equity stake in PSS, for an agreed purchase price of SAR 132.6 million. The acquisition comprises an initial cash consideration of SAR 91.8 million and performance-based earn-out payments of up to SAR 40.8 million conditional on the achievement of specific financial targets over the next 2 years. The legal formalities in respect of shareholding transfer have been completed as of 11 January 2026. Refer to Note 28 for details.

2. BASIS OF PREPARATION

2.1 Basis of accounting

These interim condensed consolidated financial statements have been prepared in accordance with *International Accounting Standard 34 - Interim Financial Reporting* ("IAS 34"), that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements endorsed by the Saudi Organization for Chartered and Professional Accountants (SOCPA). These interim condensed consolidated financial statements do not include all of the information required for full consolidated annual financial statements and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2025. In addition, results for the three-month and six-month period ended 30 June 2026 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2026.

The consolidated financial statements of the Group as at and for the year ended 31 December 2025, were prepared in accordance with IFRS Accounting Standards (IFRS) as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organisation for Chartered and Professional Accountants ("SOCPA").

The accounting policies used and method of computation applied in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of certain amendments, effective as of 1 January 2026, as disclosed in Note 4.

These interim condensed consolidated financial statements are expressed in Saudi Arabian Riyals (SR), except where otherwise stated.

2.2 Significant judgments, estimates and assumptions

The preparation of Group's interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of revenues, expenses, assets, liabilities and accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The Group based its assumptions and estimates on parameters available when the interim condensed consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

The significant judgments exercised in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual consolidated financial statements for the year ended 31 December 2025.

2.3 Basis of measurement

These interim condensed consolidated financial statements have been prepared under the historical cost basis, except for financial assets at fair value through other comprehensive income ("FVOCI") and derivative financial instruments which are carried at their fair values. Further, the interim condensed consolidated financial statements are prepared using the accrual basis of accounting and the going concern assumption.

2.4 Functional and presentation currency

These interim condensed consolidated financial statements are presented in Saudi Arabian Riyals ("SR"), which is the Group's functional and presentation currency.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in these interim condensed consolidated financial statements are the same as those applied in the Group's annual consolidated financial statements as at and for the year ended 31 December 2025, except for the adoption of certain amendments, effective as of 1 January 2026, as disclosed in Note 4.

4. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS

4.1 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of new standards effective as of 1 January 2026 (as detailed below). The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7

In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The Amendments include:

- Clarifications of the requirements for recognition and derecognition of financial assets and financial liabilities. In particular, a financial liability is derecognised on the 'settlement date' and an accounting policy choice is introduced (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date
- Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed
- Clarifications on what constitute 'non-recourse features' and what are the characteristics of contractually linked instruments
- The introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI)

The amendments had no impact on the Group's interim condensed consolidated financial statements.

Annual Improvements to IFRS accounting Standards – Volume 11

In July 2024, the IASB issued nine narrow scope amendments as part of its periodic maintenance of IFRS accounting standards. The amendments include clarifications, simplifications, corrections or changes to improve consistency in IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 7 Financial instruments: Disclosure and its accompanying Guidance on implementing IFRS 7, IFRS 9 Financial Instruments, IFRS 10 Consolidated Financial Statements and IAS 7 Statements of Cash Flows.

The amendments had no impact on the Group's interim condensed consolidated financial statements.

Contracts Referencing Nature -dependent Electricity – Amendments to IFRS 9 and IFRS 7

In December 2024, the IASB issued Amendments to IFRS 9 and IFRS 7 – Contracts Referencing Nature dependent Electricity. The amendments apply only to contracts that reference nature-dependent electricity, and they:

- Clarify the application of the 'own-use' requirements for in-scope contracts
- Amend the designation requirements for a hedged item in a cash flow hedging relationship for in-scope contracts
- Add new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows

The amendments had no impact on Group's interim condensed consolidated financial statements.

4. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS (continued)

4.1 New standards, interpretations and amendments adopted by the Group (continued)

Share-based payments

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services in exchange for equity instruments (equity-settled transactions). Key employees working in the group are granted share appreciation rights, which are settled in equity (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation.

That cost is recognised in employee benefits expense, together with a corresponding increase in retained earnings, over the period in which the service and, where applicable, the performance conditions are fulfilled (the vesting period). The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit or loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met.

When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

4. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS (continued)

4.1 New standards, interpretations and amendments adopted by the Group (continued)

Business combinations and goodwill (continued)

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 'Financial Instruments', is measured at fair value with the changes in fair value recognised in the statement of profit or loss in accordance with IFRS 9. Other contingent consideration that is not within the scope of IFRS 9 is measured at fair value at each reporting date with changes in fair value recognised in profit or loss.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit (CGU) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

4. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS (continued)

4.2 Standards, interpretations and amendments issued but not yet effective

The standards, interpretations and amendments that are issued, but not yet effective, up to the date of issuance of the interim condensed financial statements are disclosed below. The Group intends to adopt these standards, interpretations and amendments if applicable, when they become effective.

IFRS 19 Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued IFRS 19, which allows eligible entities to elect to apply its reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other IFRS accounting standards. To be eligible, at the end of the reporting period, an entity must be a subsidiary as defined in IFRS 10, cannot have public accountability and must have a parent (ultimate or intermediate) that prepares consolidated financial statements, available for public use, which comply with IFRS accounting standards.

IFRS 19 will become effective for reporting periods beginning on or after 1 January 2027, with early application permitted.

As the Group's equity instruments are publicly traded, it is not eligible to elect to apply IFRS 19.

Translation to a Hyperinflation Presentation Currency- Amendments to IAS 21

In November 2025, the IASB issued Translation to a Hyperinflationary Presentation Currency – Amendments to IAS 21. The amendments require translation from a non-hyperinflationary functional currency into a hyperinflationary presentation currency at the closing rate. If an entity's functional currency is the currency of a non-hyperinflationary economy, but its presentation currency is the currency of a hyperinflationary economy, its results and financial position are translated into the presentation currency by translating all amounts (i.e., assets, liabilities, equity items, income and expenses) and all comparatives at the closing rate at the date of the most recent statement of financial position. An entity whose functional currency and presentation currency are the currency of a hyperinflationary economy, restates the comparative amounts of a foreign operation, whose functional currency is that of a non-hyperinflationary economy, by applying the general price index, in accordance with paragraph 34 of IAS 29, to the foreign operation's comparative figures. The amendments also introduce certain additional disclosure requirements.

The amendments apply for annual reporting periods beginning on or after 1 January 2027 and earlier application is permitted. The Group does not anticipate that the amendments will have a material effect on the Group's interim condensed consolidated financial statements.

IFRS 20 - Regulatory Assets and Regulatory Liabilities

On 27 May 2026, the IASB issued IFRS 20 Regulatory Assets and Regulatory Liabilities. IFRS 20 sets out the requirements for the recognition, measurement, presentation and disclosure of regulatory assets, regulatory liabilities, regulatory income and regulatory expense. IFRS 20 introduces requirements that will result in information that supplements the information an entity already provides by applying IFRS accounting standards, such as IFRS 15. Such information enables users of financial statements to understand the total allowed compensation for regulatory goods or services supplied in each reporting period and the related rights and obligations. Narrow-scope amendments have been made to a number of accounting standards, including IFRS 1, IFRS 3 Business Combinations and IFRS 18 Presentation and Disclosure in Financial Statements.

IFRS 20, and the consequential amendments to the other accounting standards, is effective for reporting periods beginning on or after 1 January 2029 and is applied either retrospectively in accordance with IAS 8 or using the modified retrospective approach which includes certain transition reliefs from the application of IAS 8. Early adoption is permitted and has to be disclosed. The Group is currently assessing implications on the interim condensed consolidated financial statements of the Group on adoption of IFRS 20 and the consequential amendments

4. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS (continued)

4.2 Standards, interpretations and amendments issued but not yet effective (continued)

IFRS 18 Presentation and Disclosure in Financial Statements

In April 2024, the International Accounting Standards Board ("IASB") issued IFRS 18 Presentation and Disclosure in Financial Statements, which replaces IAS 1 Presentation of Financial Statements and becomes effective for annual reporting periods beginning on or after 1 January 2027. The new standard introduces new requirements and updates to the statement of profit or loss, with the main objective of improving comparability in the statement of profit or loss and enhancing transparency over management-defined performance measures.

The key new concepts introduced by IFRS 18 include:

- A revised structure of the statement of profit or loss, requiring classification of income and expenses into 5 defined categories based on the entity's main business activities and presentation of mandatory subtotals;
- Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general; and
- Required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (i.e., management-defined performance measure).

4. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS (continued)

4.2 Standards and Amendments Issued but Not Yet Effective (continued)

IFRS 18 Presentation and Disclosure in Financial Statements (continued)

Explanation of the adjustments due to IFRS 18

- Gains and losses on disposal of fixed assets and other routine operating items, previously reported within other income will be reclassified under other individually immaterial operating income in the operating income category, amounting to SR 4.2 million.
- Profit from murabaha deposits on cash and cash equivalent, previously reported within finance income will be reclassified under IFRS 18 to investing income category, amounting SR 14.3 million.
- Share of profit / (loss) of equity-accounted investees amounting to SR 7.8 million will be presented within the investing income category of the consolidated statement of profit or loss and included in the new subtotal of Profit before financing and Zakat and income-tax.

Management-defined performance measures (MPMs)

Management-defined Performance Measures (MPMs) is a subtotal of income and expenses that entity uses in public communication outside the financial statements that communicates management's view of an aspect of the financial performance of the entity as a whole. Where applicable, these measures may require quantitative reconciliation to IFRS-defined subtotals together with expanded explanatory disclosures.

At the moment, the Group has identified EBITDA (Earnings before zakat and income tax, finance cost, depreciation and amortisation) as MPMs used in its public communications to communicate management's view of an aspect of the operating performance of the Group as a whole. EBITDA is further adjusted to exclude income and expenses that management considers non-recurring, non-operational, or not reflective of the Group's underlying operating performance.

Upon adoption of IFRS 18, the Group will assess whether performance measures communicated to investors, analysts and other stakeholders, and outside Companies financial statements would meet the definition of an MPM under IFRS 18 and accordingly, the Group will comply with the IFRS 18 disclosure requirements in this regard.

Aggregation and Disaggregation

The new aggregation and disaggregation requirements will lead to changes to present the most useful structured summary. The Group is assessing how items are aggregated and disaggregated in the primary financial statements and the notes on the basis of similar and dissimilar characteristics.

Certain profit or loss line items description and aggregations may change to provide useful structured summaries and disclose additional material information in the notes. The Group is performing a detailed assessment to determine the appropriate classification of items.

Consequential amendments

The Group is also evaluating the consequential amendments arising from IFRS 18, including amendments to IAS 7 Statement of Cash Flows and IAS 34 Interim Financial Reporting.

The Group currently uses profit for the year / period as a starting point of the reconciliation to cash flows from operating activities. Certain adjusting items included in the reconciliation will change as a result of the new starting point.

The consequential amendments also provide specific guidance on the classification of interest and dividend cash flows. The Group will classify cash flows from interest paid as financing activities rather than operating activities under IFRS 18. Cash flows from interest received and dividends paid will continue to be classified as investing and financing activities, respectively.

The Group assessment remains ongoing and further refinements to the expected impact may arise as implementation activities progress and additional industry and regulatory guidance becomes available.

Tusdeer, a subsidiary of the Group, had entered into a Build-Operate-Transfer (the "BOT Agreement") agreement with Saudi Ports Authority ("MAWANI" or the "Grantor") for the construction of a container terminal at the Re-export Zone of Jeddah Islamic Port. The BOT Agreement was, subsequently, novated by Tusdeer to RSGT another subsidiary of the Group, effective from 22 Shawal 1428H (corresponding to 3 November 2007). The period of the BOT Agreement originally was for 32 years. On 23 December 2019, RSGT, entered into a new concession agreement (the New Concession Agreement) with MAWANI whereby RSGT acquired rights to build, update and operate North Container Terminal in addition to the terminal operated under the BOT Agreement, effective from 1 April 2020 (the effective date) for a period of 30 years from this date and has an option to renew the term before the expiry based on mutual agreement.

As per the New Concession Agreement there is no explicit requirement to replace the concession assets, however, there is a requirement of serviceability for 4 years at the end of the arrangement. Under the terms of the Concession, MAWANI stipulates the Tariffs to be applied by the Operator when providing services and has the right to review the published tariff structure. The Group has a right to charge users of the port for services provided in accordance with the New Concession Agreement. Intangible assets – port concession rights are secured against the Ijara facilities obtained from local banks.

8. INTANGIBLE ASSETS (continued)

The New Concession Agreement stipulates payment of the fixed and guaranteed variable fees to the Grantor on the specified rates over the life of the agreement. These fees have been recorded as intangible asset at the present value under the guidance of IFRIC 12 ‘Service Concession Arrangements’, with a corresponding liability recognized as obligation. All other variable fees under the New Concession Agreement are charged to consolidated statement of profit or loss as and when incurred.

Further, RSGT Bangladesh Limited (“RSGTB”), a subsidiary of the Group, has entered into an Equip-Operate and Transfer (the “EOT Agreement”) agreement on 6 December 2023 with Chittagong Port Authority (“CPA” or the “grantor”) for the upgrading and operating of a Patenga Container Terminal (“PCT”) at the Bangladesh's primary port. Under the EOT Agreement, RSGTB will develop and operate a 500,000 Twenty Foot Equivalent Unit (‘TEU’) container terminal facility.

The period of the EOT Agreement is for 22 years, effective from 11 June 2024 (the effective date) and has an option to renew the term before the expiry based on mutual agreement. As per the EOT Agreement, there is no explicit requirement to replace the concession assets. Under the terms of the EOT Agreement, CPA stipulates the Tariffs to be applied by the Operator when providing services and has the right to review the published tariff structure. The Group has a right to charge users of the port for services provided in accordance with the EOT Agreement.

The EOT Agreement stipulates payment of upfront fee, the fixed and guaranteed variable fees on the specified rates over the life of the agreement. These fees have been recorded as intangible asset at the present value under the guidance of IFRIC 12 ‘Service Concession Arrangements’, with a corresponding liability recognized as obligation. All other variable fees under the EOT Agreement are charged to consolidated statement of profit or loss as and when incurred.

During 2025, another subsidiary Bawabat Albuhr for Logistics Company (“BALC” or the “Operator”) has signed 20-year concession agreements for the operation of four existing multi-purpose port facilities on the Red Sea with the Saudi Ports Authority (“Mawani” or the “Grantor”). Under the terms of the concessions, BALC will take over the existing facilities at King Fahd Industrial Port Yanbu, Yanbu Commercial Port, the Port of Jazan, and Jeddah Islamic Port multi-purpose and ro-ro terminal. The effective date of the concession agreement is 1 July 2025. Under the terms of the four Concession Agreements (“BALC Concession Agreements”), MAWANI stipulates the Tariffs to be applied by the Operator when providing services and has the right to review the published tariff structure. There is no explicit requirement to replace the concession assets, however, there is a requirement of serviceability for 3 years at the end of the arrangement. The Group has a right to charge users of the port for services provided in accordance with the BALC Concession Agreements.

The BALC Concession Agreements stipulates payment of the fixed and guaranteed variable fees to the Grantor on the specified rates over the life of the agreement. These fees have been recorded as intangible asset at the present value under the guidance of IFRIC 12 ‘Service Concession Arrangements’, with a corresponding liability recognized as obligation. All other variable fees under the New Concession Agreement are charged to consolidated statement of profit or loss as and when incurred.

- a) On 3 December 2007, RSGT (a subsidiary of the Company) entered into an Ijara arrangement with two local commercial banks to obtain a loan of SR 1,271 million. The Ijara facility was secured against the property and equipment / port concession rights of RSGT. The loan was repayable in semi-annual instalments ending in December 2023. The loan carried special commission rate of SIBOR plus an agreed margin (see note (c) below).
- b) On 28 September 2016, RSGT entered into an Ijara arrangement with two local commercial banks to obtain a loan of SR 260 million for expansion of its existing berths. This facility was also secured against the port concession rights of RSGT (note 8.1). The loan was to be repaid in semi-annual instalments ending in December 2023. The loan carried special commission rate of SIBOR plus an agreed margin (see note (c) below).
- c) During the year ended 31 December 2020, RSGT and the banks mutually agreed to amend the terms of the loan agreements above. These amendments, among others, included modification of the applicable rate from nine months SIBOR to three months SIBOR, lowered the agreed margin, modified the repayment frequency from biannual to quarterly payment and extended the maturity period from year 2023 to 2030. The Ijara facilities are secured against property and equipment of RSGT. The modifications of the terms were assessed qualitatively and quantitatively in accordance with IFRS 9 “*Financial Instruments*” and, as a result, the management concluded that the changes in terms of agreement did not result in substantial modification under the requirements of IFRS 9 “*Financial Instruments*”.
- d) The unamortised portion of the advance rentals and other fees paid to the banks, are amortised over the remaining period of the Ijara facility, using effective interest rate approach.
- e) During the year ended 31 December 2020, RSGT obtained a facility with sanctioned limit of SR 750 million towards its consolidation and expansion works which was fully drawn during prior period. RSGT paid an agreed commitment fee on the undrawn balance and an agreed profit payable at SIBOR plus a margin on the drawn balance. The commitment fee paid has been deferred and amortised as part of effective interest rate. The loan to be repaid in quarterly instalments started from 2024 and ending in 2033. The loan is secured against assets relating to the consolidation and expansion works.

- f) The current and non-current portion of the loans of RSGT as at the period end is as follows:

24. COMMITMENTS AND CONTINGENCIES

As at 30 June 2026, the Group's bankers have issued letters of guarantee amounting to SR 263.9 million (31 December 2025: SR 261.2 million) against which cash margin of SR 13.1 million (31 December 2025: SR 13.2 million) was deposited. Further, the Group's bankers have issued letters of credit amounting to SR 98.4 million (31 December 2025: 98 million) against which cash margin of SR 39.3 million (31 December 2025: SR 39.3 million) was deposited.

As at 30 June 2026, the Group has commitments for capital work in progress amounting to SR 37.2 million (31 December 2025: SR 76.7 million) mainly relating to new logistic hub and park construction project, new desalination plant construction and consolidation and expansion work on the container terminal.

One of the Group's subsidiary is subject to a legal claim from a customer amounting to SR 7.4 million. Based on independent external legal advice, management believes that the claim lacks sufficient legal merit and that it is unlikely that any financial liability will arise. Accordingly, no provision has been recognized in these interim condensed consolidated financial statements.

25. BUSINESS SEGMENTS

The Group has the following main business segments:

- Port development and operations
- Water desalination and distribution
- Logistic parks and support services
- Corporate office: Consists of investment activities and head office functions.

These business segments are located within the Kingdom of Saudi Arabia and Bangladesh and are the Group's strategic business units.

The Group's top management reviews internal management reports of each strategic business unit at least quarterly. Segment results that are reported to the top management include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment revenues, as included in the internal management reports that are reviewed by the top management.

26. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction takes place either:

- In the accessible principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous accessible market for the asset or liability
- Fair value information of the Group’s financial instruments is analysed below:

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for the same or identical instrument that an entity can access at the measurement date;

Level 2: quoted prices inactive markets for similar assets and liabilities or valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

The Group’s Level 3 financial assets comprise investment in unquoted investee company.

There were no transfers between level 1 and level 3 during the six-month period 30 June 2026 (31 December 2025: nil). There were no financial assets or financial liabilities classified under level 2.

There were no changes in valuation techniques during the period.

As at 30 June 2026, the financial assets of the Group comprised of trade receivables, prepayments and other receivables, due from related parties, cash and cash equivalents which are recorded at amortised cost and investment in equity securities whose carrying value approximates its fair value and the Group’s financial liabilities include loans and bank facilities, obligation under service concession agreement, trade payables and other liabilities and derivative financial instruments.

27. FINANCIAL RISK MANAGEMENT

The Group’s activities are exposed to a variety of financial risks which mainly include market risk (including foreign exchange risk, interest rate risk and price risk) credit risk and liquidity risk. The interim condensed consolidated financial statements do not include all the financial risk management information and disclosures required in the annual financial statements; and therefore, should be read in conjunction with the annual consolidated financial statements for the year ended 31 December 2025. There have been no changes in the risk management policies during the six-month period ended 30 June 2026.

28. BUSINESS COMBINATION AND GOODWILL (continued)

As mentioned in note 1, effective from 12 January 2026 ("Completion Date"), the Company acquired 51% of shareholding in Ports Services and Storage Company Limited ("PSS") for a total consideration of SR 132.6 million. At the time of acquisition, SR 91.8 million was paid in cash, with the remaining consideration consisting of performance-based earn-out payments of up to SR 40.8 million, contingent on achieving specific financial targets of 12-month financial target ("Earn Out Target") during the period from the completion date to 31 December 2027 ("Earn Out Period").

The Company has recorded the total fair value of the purchase consideration, including the earn-out payment liability, at SR 120.8 million (comprising of cash consideration of SR 91.8 million and discounted value of the earn out payment of SR 29 million). The earn-out liability is classified as long-term payable and is calculated based using a probability-weighted discounted cash flow method.

The acquisition was accounted for using the acquisition method of accounting. The present value of purchase consideration in excess of the provisional fair value of the net assets acquired, amounted to SAR 91.7 million, was recorded as provisional goodwill based on the provisional assessment of the fair value of subsidiary's net assets by the management. The purchase price allocation is expected to be completed within 12 months of the acquisition date (i.e., the measurement period). The detail of net assets acquired along with provisional fair value of net assets is as follows:

29. NON-CONTROLLING INTERESTS

The Group has material non-controlling interests primarily in Red Sea Port Development Company and Red Sea Port Development International Limited. The carrying amount of non-controlling interests amounted to SR 1.146 billion as at 30 June 2026 (31 December 2025: SR 1.006 billion). There have been no significant changes in the nature of, or risks associated with, the Group's interests in subsidiaries with material non-controlling interests from those disclosed in the annual consolidated financial statements for the year ended 31 December 2025.

30. GEOPOLITICAL DEVELOPMENTS

In light of current geopolitical developments, the Group has assessed the potential implications of these events on its operations, financial position and performance. Based on information currently available, including the continuation of core business activities, it is not practicable to reliably estimate the full financial effect of these geopolitical events on future periods.

Management has also considered the impact of these events on the Group's ability to continue as a going concern and has concluded that the going concern basis of preparation remains appropriate.

31. SUBSEQUENT EVENTS

In the opinion of the management there have been no significant subsequent events since the period ended 30 June 2026, which would have a material impact on the financial position of the Group as reflected in these interim condensed consolidated financial statements.

32. APPROVAL OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

These interim condensed consolidated financial statements were approved and authorised to issue by the Board of Directors on 2 August 2026G, corresponding to (19 Safar 1448H).
