#### INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INTERIM CONDENSED COSOLIDATED FINANCIAL STATEMENTS

## TO THE SHAREHOLDERS OF TABUK AGRICULTURAL DEVELOPMENT COMPANY "TADCO"

A SAUDI JOINT STOCK COMPANY

#### INTRODUCTION

We have reviewed the accompanying interim condensed consolidated statement of financial position of TABUK AGRICULTURAL DEVELOPMENT COMPANY "TADCO (the "Company") (and its subsidiaries together "the Group) as of 30 June 2025 and the interim condensed consolidated statements of comprehensive income for the three and six-month periods then ended, and the interim condensed consolidated statements of changes in equity and cash flows for the six -month period then ended, and other explanatory notes.

Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

#### SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia.

## MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

We draw attention to Note (2-4) to the interim condensed consolidated financial statements, which indicates that the Group's accumulated losses amounted to SR 232,487,169 as of 30 June 2025, representing 59.3% of the share capital. The Group's current liabilities also exceeded its current assets, resulting in a working capital deficit of SR 132,827,046. In addition, the Group reported negative cash flows from operating activities amounting to SR 11,271,567. Nevertheless, the Group primarily relies on the implementation of its business plans to generate sufficient cash flows to enable it to meet its obligations as they fall due and to continue its operations without significant deficiency. Management believes that these interim condensed consolidated financial statements have been prepared on a going concern basis, and that there is no impairment in the value of assets recognized in the interim condensed consolidated financial statements.

These conditions indicate the existence of material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

#### **EMPHASIS OF MATTER**

As disclosed in Note (3) to the interim condensed consolidated financial statements, the interim condensed consolidated financial statements of the Group include the financial information of Masader Agricultural Feed Company (a subsidiary). The ownership of the assets and all operational activities has not been transferred to Masader Agricultural Feed Company in accordance with the assignment agreement signed between the owner of the establishment (one of the partners) and Masader Agricultural Feed Company. Our conclusion has not been modified in respect of this matter.

## 2. BASIS OF PREPARATION

## 2/1 Statement of compliance

The interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting" as endorsed in the Kingdom of Saudi Arabia and should be read in conjunction with the Group's latest annual consolidated financial statements for the year ended 31 December 2024. These financial statements do not typically include all the information required for a complete set of consolidated financial statements, but selected accounting policies and explanatory notes have been included to explain significant events and transactions in order to understand the changes in the Group's financial position and performance since 31 December 2024.

#### 2/2 Basis of Measurement

The condensed interim consolidated financial statements have been prepared based on the historical cost principle, except for employee defined benefit obligations (end-of-service benefit provision), which are measured at the present value of future obligations using the projected unit credit method, and investments measured at fair value through other comprehensive income. The financial statements have been prepared using the accrual basis of accounting and the going concern assumption.

## 2/3 Functional and Presentation Currency

The interim condensed consolidated financial statements are presented in Saudi Riyals, which is the functional and presentation currency of the Group.

## 2. BASIS OF PREPARATION (CONTINUED)

### 2/4 Going Concern

As at 30 June 2025, the Group's accumulated losses amounted to SR 232,487,169, representing 59.3% of the share capital. Additionally, the Group's current liabilities exceeded its current assets, resulting in a working capital deficit of SR 132,827,046 (31 December 2024: SR 115,438,906). The Group also reported negative cash flows from operating activities amounting to SR 11,271,567 (31 December 2024: SR 48,755,259).

The Company intends to implement the Group's business plans to generate sufficient cash flows to meet its obligations as they fall due and to continue its operations, as well as to restructure its capital by reducing it to offset a portion of the accumulated losses.

## The following are the key measures taken by management to reduce accumulated losses and address the working capital deficit:

- The Company has prepared a business plan extending to the year 2031. This plan assumes that the Group will not lose any of its production capacity over the coming years. The plan focuses on expanding the cultivation of the following crops and products:
  - a) Potatoes
  - b) Onions
  - c) Grapes
  - d) Olive oil
- On 3 April 2025, the Board of Directors recommended a reduction in the Company's share capital. On 24 June 2025, the
  Company announced the submission of a request file to the Capital Market Authority for approval of the proposed capital
  reduction. The proposed reduction amounts to SR 207,410,610, which would bring the share capital down to SR
  184,356,390 through the cancellation of 20,741,061 shares, representing a reduction of 52.94%.

Accordingly, the Group's management has prepared the interim condensed consolidated financial statements based on the going concern assumption.

#### 2/5 New Standards, Amendments to Standards, and Interpretations

New standards and a set of amendments to existing standards became effective as of 1 January 2025 and were disclosed in the Group's annual consolidated financial statements. However, they do not have a material impact on these condensed interim consolidated financial statements of the Group.

## 3. BASIS OF CONSOLIDATION

The Interim condensed consolidated financial statements as at and for the six-month period ended 30 June 2025 include the financial statements of Tabuk Agricultural Development Company "TADCO" (the "Company" or the "Parent Company") and its subsidiaries (together referred to as the "Group"). The reporting date for all subsidiaries is also 30 June 2025. Subsidiaries are those companies over which the parent company has control. The control is realized when the Group is exposed to or has the right to variable returns from the investee, and the ability of the investor to use its power to affect those variable returns.

A parent Company controls an investee company if it has all three of the following elements:

- Power over the entity (has the rights that give it the current ability to direct the activities of the investee company)
- Exposure, or rights, to variable returns from its involvement with the entity; and
- The ability to use its power over the entity to influence the amount of the entity's returns.

When the Parent Company does not have a majority of the voting rights in an investee, the Parent Company considers other facts and factors when assessing control, including:

- Arrangement (or arrangements) with the other voting rights holders of the investee Company.
- The parent Company is voting rights.
- The Group is voting rights and any potential voting rights.

The interim condensed consolidated financial statements include the financial statements of subsidiaries acquired or sold from the date on which effective control commences until that control effectively ceases.

## 3. BASIS OF CONSOLIDATION (CONTINUED)

The financial statements of the subsidiaries are compiled on a line-by-line basis by adding similar items of assets, liabilities, income and expenses. All intercompany balances and transactions, including unrealized gains or losses

Arising from intra-group transactions, are eliminated in full. Consolidated financial statements should be prepared using uniform accounting policies for like transactions and other events in like circumstances.

The financial statements of the subsidiaries are prepared for the same date or within three months of the date of the parent company's financial statements period, using consistent accounting policies.

Adjustments are made to standardize any asymmetric accounting policies that may exist between the financial year date of the subsidiaries and the parent company's financial year date.

The non-controlling interests in the net assets of the consolidated subsidiaries are identified separately from the Group's equity in these companies. The non-controlling interest consists of the amount of those interests at the date of the actual combination of the business and the non-controlling interest's share of changes in equity since the date of the combination. Losses within a subsidiary accrue to the non-controlling interest even if this results in a deficit balance.

Changes in the Group's ownership interests in subsidiaries that do not result in a loss of control over these subsidiaries are accounted for as equity transactions. For purchases from non-controlling interests, the difference between any amount paid and the related purchased share of the fair value of the net assets of the subsidiary is recognized in equity. Gains or losses on disposals to the non-controlling interests are also recognized in equity.

When the Group ceases to have control or significant influence, any retained equity interest is re - measured to its fair value and the change in carrying amount is recognized in the income statement. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture

Or financial asset. In addition, any amounts previously recognized in other comprehensive income relating to this entity are accounted for as if the Group had directly disposed of these assets or liabilities (that is, it is reclassified to profit or loss or transferred directly to retained earnings as determined by it). ## 3. BASIS OF CONSOLIDATION (CONTINUED)

On September 25, 2024, Tabuk Agricultural Development Company obtained shareholder approval for the board's decision to divest from its investment in Agricultural Feed Sources Company by selling all the shares owned by Tabuk Agricultural Development Company, which represents 60% of the company's total shares, to partner Ahmed Hussein Al-Omari. The divestment procedures have begun.

\*\*Based on the extraordinary general assembly decision on October 11, 2022, the liquidation of both Tabuk Nurseries and Landscaping Company and Tabuk Agricultural Marketing Company was approved, and the legal liquidation procedures have started.

## 4. USE OF JUDGMENT, ESTIMATES

The preparation of the interim condensed consolidated financial statements requires management to make judgments and estimates that affect the application of accounting policies to the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates.

The estimates and assumptions are based on previous experience and factors including expectations of future events that are considered appropriate in the circumstances and are used to extend the carrying period of assets and liabilities that are not independent of other sources. Estimates and assumptions are evaluated on an ongoing basis. The accounting estimates proven in the period in which the estimates are revised are reviewed in the review period and future periods in the event that the changed estimates affect the current and future periods.

The significant judgments made by the management when applying the company's accounting policies are consistent with those disclosed in the consolidated financial statements for the year ended 31 December 2024.

<sup>\*</sup> On March 15, 2023, Tabuk Agricultural Development Company announced the sale of 10% of its total shares in Horizon Food Company (formerly a subsidiary), amounting to 800,000 shares, for a total value of SR 29.6 million. This was carried out through the listing of Horizon Food Company shares on the Nomu Parallel Market. The book value of these shares, as of September 30, 2022, based on Horizon Food's approved but unaudited financial statements, was SR 9.1 million. The transaction resulted in cash inflows of SR 29.6 million for the company and an exceptional reduction in accumulated losses amounting to SR 19.1 million (after deducting offering costs). It is worth noting that Tabuk Agricultural Development Company did not lose control over Horizon Food Company on that date, based on the Board of Directors' resolution dated May 22, 2023.

On September 3, 2023, the Board of Directors announced that Tabuk Agricultural Development Company had lost control over Horizon Food Company, following Horizon Food's announcement on August 6, 2023, regarding the resignation of the Chairman and two board members. From that date, the Group lost control over the subsidiary, and it has since been classified as an associate and accounted for using the equity method. Accordingly, the assets and liabilities of Horizon Food Company have ceased to be consolidated in the Group's consolidated financial statements from that date.

\*\* East Asia Agricultural Investment Company was established on May 7, 2013, in the Kingdom of Saudi Arabia with a capital of SR 70,000,000. Its activities include agricultural investment and the establishment of agricultural projects for the production of crops, grains, rice, barley, fruits, olives, fodder, and all types of agricultural products and field crops. The company also engages in the establishment, management, and maintenance of food industry factories, as well as livestock production projects, including the raising of livestock and poultry, and the establishment and management of dairy, meat, and fodder product factories.

In prior years, the Group recognized expected credit losses on its share of the receivable balance from related parties associated with East Asia Agricultural Investment Company in the amount of SR 45,500,000, of which the Group's share amounted to SR 12,999,350.

On May 8, 2024, an amount of SR 8,936,499 was collected from the receivable balance from related parties through judicial enforcement. Accordingly, part of the previously recognized provision was reversed, representing the Group's share of the collected amount, which totaled SR 2,553,158.

## 6/1 Investments in companies using the equity method (Continued)

On May 26, 2025, and May 27, 2025, amounts of SR 34,503,299 and SR 2,060,202, respectively, were collected from the receivable balance from related parties through judicial enforcement. Consequently, the remaining portion of the provision was reversed, representing the Group's share of the collected amount, which totaled SR 10,446,192. Accordingly, the full amount of the outstanding debt totaling SR 45,500,000 has been collected, including the Group's full share amounting to SR 12,999,350.

- \*\*\* The Group owns a 27.8% investment amounting to 17,500,000 SR in Janat Agricultural Investment Company a Saudi limited liability company under liquidation. The entire investment losses were previously recognized with the entire share invested in it.
- Janat Agricultural Investment Company owns a 78% share of the capital of Rakhaa Agricultural Investment and Development Company an Egyptian joint stock company and due to the liquidation procedures, the company waived its 78% share in favor of the partners, and the shares were transferred to their names, each according to his share, and accordingly the Group's ownership became 21.61% share. Directly in Rakhaa Agricultural Investment and Development Company.
- During the year 2009, Rakhaa Agricultural Investment and Development Company obtained a loan in the amount of SR 100 million, with guarantees provided by the partners in Jannat Agricultural Investment Company. Due to the deficit in the financial statements and the inability of Rakhaa Agricultural Investment and Development Company to pay, the Group recorded its share in the loan against the guarantee provided for the benefit of the Saudi Fund for Development in the amount of SR 16,5 million.
- During the year of 2022, the shareholders of Rakhaa Agricultural Investment and Development Company agreed to transfer the balance of the loan registered in the records of Rakhaa Agricultural Investment and Development Company to become a shareholder loan without any financial returns and in the Egyptian pound, and a transfer to extinguish the company's accumulated losses for the purpose of supporting it. The general assembly of Rakhaa Agricultural Investment and Development Company was held and approved by the assembly. Ordinary General Assembly was held on July 18, 2022.
- On August 15, 2023, the company's Board of Directors decided unanimously to use the amount of 207,401,325 Egyptian pounds to increase the company's capital, which is the classified amount set aside under the capital increase account in the amount of 10,902,266 Egyptian pounds and the value of financing from shareholders amounting to 196,499,059 Egyptian pounds. An extraordinary general assembly will be called to increase the company's capital by this amount. Therefore, the Group's management included the current account in the investment cost as payment under the investments account until the procedures for increasing the associate company's capital are completed.
- \*\*\*\* The Group owns a 50% stake in Gulf Sustainable Energy Technology Company (under liquidation) at a value of 250 thousand SR. Impairment losses have been generated in the total value of the investment, and the necessary legal procedures for liquidating the company have been initiated.

## 6/2 Investments at fair value through OCI

Investments at fair value represent the value of the Group's investment in the National Company for Seed Production and Trade in the amount of 1,131,600 SR (2024: 1,131,600 SR), which represents 1.4% of the company's total capital.

Biological assets – Crops 22,93	<b>34,449</b> 23,826,006
22,93	23,826,006

The crops were measured at cost less accumulated depreciation or impairment, in accordance with International Accounting Standard (IAS) 41, based on the inputs used. This approach was adopted due to the inability to measure the crops at fair value, given the absence of an active market for farm crops in the Kingdom of Saudi Arabia, the difficulty in accurately determining the quantities planted, and the lack of observable market data due to significant variations in location, environment, associated costs, and average yield per crop. Additionally, the discounted cash flow method could not be applied due to the seasonal nature and variability of these crops.

All biological assets have been classified as current assets, as the harvesting process is completed within a single operating cycle of one year, and the crops are harvested for sale through the Group's operating activities.

**9/1** On November 7, 2023, the Group obtained a loan from the Agricultural Development Fund in the amount of SR 50,500,000, which was fully drawn. The loan was granted to finance the Company's operating activities and is secured by land deed No. 550107011639, which is recorded under property, plant and equipment with a carrying value of SR 43 million. The loan is scheduled to be repaid in a single installment on November 7, 2025.

The Group also obtained a loan from the Agricultural Development Fund on May 22, 2025, in the amount of SR 15,000,000, which was fully drawn. The loan was granted to finance the Company's operating activities and is secured by land deed No. 160002826436, which is recorded under property, plant and equipment with a carrying value of SR 43 million. In addition, 800,000 shares from the Group's investment portfolio in Horizon Food Company (the associate – Note 6) were pledged as collateral. The loan is scheduled to be repaid in a single installment on May 22, 2027.

**9/2** On December 30, 2024, according to the debt assignment contract, the Saudi Fund for Development agreed to the request of the shareholders in the Rakhaa Agricultural Investment and Development Company to transfer the debt to the partners instead of the company. Therefore, the balance of share of Tabuk Agricultural Development Company was transferred from the loan guarantee provision in an affiliated company to loans, and approval was obtained from the fund on 31 December 2024, in the name of Tabuk Agricultural Development Company.

#### 10. DISCONTINUED OPERATION

On July 23, 2024, the company received an offer to buy its shares in Masadr Agricultural Feed Mill Ltd Company (the subsidiary), which represents 60% of the total shares of the subsidiary from Ahmed Al-Omari Trading Est. for 7 million Saudi Riyals.

On September 25, 2024, the shareholders of Tabuk Agricultural Development Company approved the sale of their entire shares in Al-Masader Agricultural Feed Company, which account for 60% of the total shares of the company, to partner Ahmed Hussain Al-Amri for an amount of 7 million SR, including the factory affiliated with Ahmed Hussain Al-Amri Foundation, in which the Group holds a 60% stake.

On September 30, 2024, the Board of Directors of Tabuk Agricultural Development Company decided to approve the recommendation of the Strategy and Investment Committee to sell and liquidate the sheep project and authorized the executive management to obtain price offers for the sale of the sheep project. The price offers were obtained, and the Sheep project has been sold.

## 13. FINANCIAL RISK MANAGEMENT

## Market risk

The Group is exposed to market risk in the form of interest rate risk as shown below. During the review period, there were no changes in these conditions from the previous year.

## Foreign currency risk management

Most of the Group transactions using Saudi riyals and US dollars, and the US dollar is tied to the Saudi riyal at a fixed exchange rate. The Group did not have any significant cash assets or liabilities in foreign currency at the date of the consolidated financial statements. Therefore, the foreign currency sensitivity analysis was not presented.

#### Agricultural risk management

Severe operational disruption (fire, flood, etc.) The company is prepared to respond to operational disruptions to minimize losses and remain viable. An effective business continuity plan is continually reviewed and adapted for the changing nature of operational disruptions. Risk assessments are continually performed to identify possible events that could cause significant disruption. Risk of business disruption from floods has been removed through farm design. Farm buildings are constructed in areas that don't have flash floods and are also elevated above ground level.

## **Climate Change**

The Group is subject to short-term and long-term climate change-related risks. These risks are inherent part of operating agriculture. The Group continually works to reduce the environmental footprint of the business, in part, due to the inherent risks.

Rising fuel costs and the greenhouse gas emissions associated with fuel and electricity consumption have an impact not only on the environment but also on Company's net profit. Climate change also creates risks for agricultural production through droughts, pests, diseases, etc. that pose challenges for sustaining and increasing production levels.

The Group has developed a sustainability strategy, outlining how it will improve its energy performance through efficient energy consumption and generation from sustainable sources. The strategy focuses on solar power generation, water and energy efficiency, sustainable arable farming practices, landfill waste reduction, the Group management has monitored water consummation by installing special meters on wells to monitor water consumption.

## 13. FINANCIAL RISK MANAGEMENT (CONTINUED)

## Liquidity risk

Liquidity risk represents the difficulties an entity may face in providing funds to meet obligations related to financial instruments. Liquidity risk may arise from the inability to quickly sell a financial asset at an amount close to its fair value. The primary responsibility for managing liquidity risk lies with the Board of Directors, which has established an appropriate framework for managing liquidity risk to address the Group's short-, medium-, and long-term funding and liquidity management requirements.

The Group manages liquidity risk by maintaining sufficient balances and continuously monitoring both expected and actual cash flows, as well as matching the maturities of financial assets and liabilities. Liquidity risk is managed through ongoing monitoring of liquidity levels and ensuring that adequate financial resources are available. Liquidity risk concentration may arise from the repayment terms of financial obligations, sources of funding and borrowing, or reliance on a specific market to obtain liquid assets. Note 2-4 related to going concern.

## Credit risk management

Credit risk is the risk that a counterparty will fail to meet its contractual obligations, resulting in a financial loss to the other party. Concentration of credit risk arises when several counterparties are engaged in similar activities, operate in the same geographic areas, or have similar economic characteristics that could cause them to be unable to meet their contractual obligations. To mitigate credit risk, the Group has implemented procedures to manage exposure to credit risk, including assessing the creditworthiness of customers, credit approvals, setting credit limits, and continuously monitoring and following up on the aging of receivables.

Management also continues to monitor the credit risk related to its customers and establishes a provision for expected credit losses. Customer balances are continuously reviewed, and credit limits are adjusted as necessary. Trade and other receivables are primarily due from customers in the local market and have been stated at their estimated recoverable amounts. The Group maintains its cash with local banks that have high credit ratings.

The maximum credit exposure as of the reporting date of the Group interim condensed consolidated financial statement is as follows:

## 13. FINANCIAL RISK MANAGEMENT (CONTINUED)

#### Fair value of financial instruments

For the purposes of financial reporting, the Group used the fair value hierarchy categorized in levels 1, 2, and 3 based on the degree of observance of the inputs in the fair value measurement and the importance of these inputs in measuring the fair value in its entirety, as shown below:

- **Level 1** Prices traded in an active market for similar assets or liabilities that the company can value at the measurement date (without modification).
- Level 2 Inputs other than prices included in Level 1 that can be considered as a value for an asset or liability, either directly (for example, prices) or indirectly (for example, derived from prices).
- Level 3 Inputs for assets and liabilities that are not based on observable market information (unobservable inputs).

The Group does not have financial instruments measured at fair value except investment at fair value through OCI, Employee defined benefit obligations, and other financial instruments are carried at amortized cost. As of the date of the consolidated financial statements, the fair value of these instruments approximates the amortized cost that has been taken into account in the financial reports and related disclosures.

#### 14. SEGMENT REPORTING

The information provided to the decision maker responsible for operations for the purpose of allocating resources and evaluating the performance of sectors focuses on the types of goods or services provided. The management of the Group decided to organize the Group according to the differences in the structure of the internal financial report. The Group's operating segments are as follows:

Operational segment Activities
