Independent Auditor's Review Report**To the Shareholders****L'azurde Company for Jewelry****(A Saudi Joint Stock Company)**

Riyadh, Saudi Arabia

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of **L'azurde Company for Jewelry** ("the Company") and its subsidiaries (collectively referred to as "the Group") as at September 30, 2020 and the related interim condensed consolidated statement of profit or loss and interim condensed consolidated statement of comprehensive income for the three-month and nine-month periods ended September 30, 2020 and the interim condensed consolidated statements of changes in equity and cash flows for the nine-month period then ended and a summary of the significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting", which is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", that is endorsed in the Kingdom of Saudi Arabia. A review of interim condensed consolidated financial statements consists of making inquiries, primarily to persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements is not prepared, in all material respects, in accordance with IAS 34 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia.

13. FINANCIAL INSTRUMENTS

Fair value measurements of financial instruments

Assets and liabilities measured at fair value in the interim condensed consolidated statement of financial position are grouped into three levels of fair value hierarchies. This grouping is determined based on the lowest level of significant inputs used in fair value measurement, as follows:

- **Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities
- **Level 2:** inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- **Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table shows the fair value of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

14. COMPLIANCE WITH SHARI'A RULES

The Group relies in its policies for wholesale gold sales on selling gold jewelry on credit basis against gold or crushed gold that is equal to it in weight plus an additional charge for workmanship, based on the Shari'a opinion which permits selling of gold jewelry on credit basis. This is the point of view of a group of scholars of Islamic jurisprudence, including Imam Ibn Taymiyah and his disciple Ibn al-Qayyim, which also includes a number of contemporary scholars, including a number of members of the Shari'a Board of the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI), as well as issuance of Shari'a opinion by the Shari'a Advisory Committee of the Council of Saudi Chambers; based on a request of the National Committee for Precious Metals and Gemstones regarding sale of gold jewelry by gold traders and manufacturers, where their conclusion stipulated the permissibility of gold and silver credit sales between retailers and wholesalers and manufacturers, subject to the following guidelines:

- Ensures the permissibility of gold ornaments manufacturing;
- Ensures that fabricated ornament has a significant value, and not an unreal cover to usury provisions; and
- Ensures that ornament's fabricated gold is required for purchase by itself and not only the pure gold.

15. SIGNIFICANT EVENTS

The existence of novel coronavirus (COVID-19) was confirmed in early 2020 and has spread across multiple geographies, causing disruptions to businesses and economic activity. In response to the spread of COVID-19 and its resulting disruptions to the social and economic activities, the Group's Management mobilized a crises management team to assess the possible impact on its business in the Kingdom of Saudi Arabia and other geographies where the Group operates. Management also undertook a series of preventive measures to ensure the health and safety of its employees, customers, and wider community as well as to ensure the continuity of its operations.

The Management and the Board of Directors will continue to monitor the potential risks around supply of material, manpower, inventory levels and minimum interruptions to the production facilities across all geographies and accordingly update stakeholders for material deviations, as per local regulatory requirements.

Due to the effect of unusual and unprecedented factors such as COVID-19, sharp increase in gold price and tripling of VAT to 15% from July 1, 2020, the Company took the decision to accept one-off cost of SAR 34.7 million related to the recall of some of its heavy weight products not meeting the latest consumer trends. This decision contributed to rationalize and optimize Company's investment in gold working capital in order to reduce finance costs.
