Press Release

BILDCO Overcomes Warning Flags and Embarks on a New Phase of Growth

After years of financial challenges and accumulated losses that impacted the status of Abu Dhabi National Company for Building Materials (BILDCO) on the Abu Dhabi Securities Exchange (ADX), the company enters a new phase today defined by recovery, sustainability, and restoring the confidence of shareholders and investors.

Since January 8, 2026, with the entry of a strategic partner and the launch of a new restructuring and development phase, BILDCO has achieved a tangible turnaround in its financial position in a short span of time. The company successfully cleared both its red and yellow warning indicators—a milestone reflecting the extensive work executed to place BILDCO back on a stronger, more sustainable path.

BILDCO's transition from accumulated losses to recovery and profitability is not merely an improvement in numbers; it marks the beginning of a new era. The company aims to rebuild trust, enhance shareholder equity, expand its business, attract local and international investments, and lay a rock-solid foundation for future growth.

The Board of Directors and executive management of BILDCO emphasize that today's achievements are not the end of the journey, but rather the start of a more ambitious chapter. This new trajectory is anchored in financial discipline, robust governance, asset and operational optimization, and the exploration of new investment opportunities to strengthen the company's position and long-term value.

On this occasion, the Board, executive management, and all BILDCO employees reiterate their commitment to advancing the company's performance and stature. Driven by the trust of their shareholders, they remain confident that BILDCO possesses the foundations and ambition to strongly reclaim its position among the nation's leading and most promising companies.

From Below Zero... To a New Beginning.

BILDCO — Renewed Trust, Unstoppable Ambition.
