**Independent auditor's review report on the interim condensed consolidated financial statements
To the shareholders of Abdulmohsen Al-Hokair Group for Tourism and Development Company
(A Saudi Joint Stock Company)**

Introduction:

We have reviewed the accompanying interim condensed consolidated statement of financial position of Abdulmohsen Al Hokair Group for Tourism and Development Company (the "Company") and its subsidiaries (collectively referred to as the "Group") as at 30 June 2021, and the related interim condensed consolidated statement of comprehensive income, for three and six month periods ended 30 June 2021, and the related interim condensed consolidated statements of changes in shareholders' equity and cash flows for six month period ended 30 June 2021, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review:

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily to persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

Material Uncertainty Related to Going Concern:

We draw attention to note 2 to the interim condensed consolidated financial statements, which indicates that the accumulated losses reached SR 432.39 million as of 30 June 2021, exceeding half of the Company's capital, and the current liabilities of the Group exceeded its current assets, resulting in a negative working capital of SR 535.59 million as of 30 June 2021. These conditions indicate that a material uncertainty exists that may cast a doubt on the Group's ability to continue as a going concern. As stated in note 2, the management has made an assessment of the Group's ability to continue as a going concern, and as result, these interim condensed consolidated financial statements have been prepared on a going concern basis. As further detailed in note 2, this assessment is dependent on the ability of the Company to complete the rights issue and also obtain deferrals of loan repayments and lease liabilities. Our conclusion is not modified in respect of this matter.

2 GOING CONCERN

In 2020, fears of the spread of Corona virus (Covid-19) caused a significant impact on the Group's business, as local regulators took precautionary measures from March 2020, by closing of entertainment centers and also the current circumstances have resulted in a substantial slow down to the Group's hotels business. As a result, the Group's entertainment and hotel revenues were significantly impacted since then, which have negatively affected the financial performance, cash flows and the financial position of the Group for 2020 and 2021.

The statement of financial position as of 30 June 2021 shows that the accumulated losses of the Group of SR 432.39 million (31 December 2020: 302.33) exceeded half of its capital, which is subject to certain regulatory procedures according to "Companies Law". In addition, as of 30 June 2021, the current liabilities of the Group exceeded its current assets, resulting in a negative working capital of SR 535.59 million (31 December 2020: 577.82 million). These conditions indicate the existence of a material uncertainty that may cast a doubt on the Group's ability to continue as a going concern.

The management has made an assessment of the Group's ability to continue as a going concern; as follows:

Accumulated losses exceeding half of capital

According to the requirements of Article 150 of the Companies Law, the Group is required to follow certain steps and procedures, if its accumulated losses exceed half of the Capital.

On 28 Thul-Qi'dah 1442H (corresponding to 8 July 2021), the shareholders, in their extraordinary general assembly meeting, approved the recommendation of the board of directors to absorb accumulated losses of SR 207 million through a reduction in capital and also to increase the capital of the Company by offering rights issue of SR 307 million. As a result, the Company's capital will be SR 650 million. The Capital Market Authority in its resolution dated 9 June 2021 has already approved this transaction.

STATEMENTS (UNAUDITED)

2 GOING CONCERN (continued)

Negative working capital

The management has made an assessment of its negative working capital for the next period, and is satisfied that the Company has the required resources to continue in business and would be able to generate sufficient cash flows to enable it to meet its obligations on a timely basis for the next 12 months from the date of these financial statements.

The following were the key measures that were considered by management in addressing negative working capital:

- Use the cash proceeds that are expected from the increase in capital of SR 307 M (as referred to above)
- Obtain approvals from certain banks to defer settlements of short-term loans;
- Initiate discussions with lessors to reschedule payments of lease liabilities that are due in one year; and
- Use the unutilized facilities as of end of 30 June 2021, which the Group has eligibility to withdraw.

Furthermore, the management is not aware of any other material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the interim condensed consolidated financial statements have been prepared on a going concern basis.

3 SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of preparation

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard, "Interim Financial Reporting" ("IAS 34") as endorsed in KSA.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2020.

The interim condensed consolidated financial statements have been prepared on a historical cost basis. The interim condensed consolidated financial statements are presented in Saudi riyal (SR) and all values are rounded to the nearest thousand (SR 000), except when otherwise indicated.

3.2 Basis of consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 30 June 2021. The financial statements of the subsidiaries are prepared for the same reporting period as that of the Company, using consistent accounting policies.

The Group controls an investee when it is exposed to, or has rights to, variable returns from its involvement with the investee and has ability to affect those returns through its power over the investee. Subsidiaries are consolidated from the date on which control is transferred to the Company and cease to be consolidated from the date on which the control is transferred from the Company. The results of subsidiaries acquired or disposed of during the period, if any, are included in the interim condensed consolidated statement of comprehensive income from the effective date of the acquisition or up to the effective date of disposal, as appropriate.

Non-controlling interests represent the portion of net income and net assets attributable to interests which are not owned, directly or indirectly, by the Company or its subsidiaries and are presented separately in the interim condensed consolidated statement of comprehensive income and within shareholders' equity in the interim condensed consolidated statement of financial position, separately from equity attributable to the equity holders of the parent.

Balances between the Company and its subsidiaries, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the interim condensed consolidated financial statements. Unrealized losses are eliminated in the same manner as unrealized gains, but only to the extent that there is no evidence of impairment.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.3 Changes in accounting policies due to adoption of new standards

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2020. Certain other amendments and interpretations were issued for the first time in 2021, but have no impact on the Group's interim condensed consolidated financial statements.

3.4 New standards, interpretations and amendments adopted by the Group

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's interim condensed consolidated financial statements are disclosed below. The Group intends to adopt these standards, if applicable, when they become effective.

Interest Rate Benchmark Reform – Phase: Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR).

The amendments include the following practical expedients:

- A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest;
- Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued;
- Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

These amendments had no impact on the interim condensed consolidated financial statements of the Group.

4 SIGNIFICANT JUDGMENTS, ASSUMPTIONS AND ESTIMATES

In preparing these interim condensed consolidated financial statements, management has made certain judgments, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the interim condensed consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating units (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is most sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Property and equipment useful life and residual value

Management estimated and assessed that useful life and residual value of property and equipment have not changed significantly. Any change in the estimated useful life or depreciation pattern will be accounted for prospectively.

5 INVESTMENTS IN JOINT VENTURES

Investments in joint ventures represent investments in the following companies, which are limited liability companies, except Tourism and Real Estate Development Company which is a Saudi closed joint stock company. All companies below are registered in the Kingdom of Saudi Arabia. The Group's investments in joint ventures is accounted for using the equity method in the interim condensed consolidated financial statements.

There were no leases with residual value guarantees or leases not yet commenced to which the Group is committed.

(*) During the second quarter of 2020, the Company has agreed with the principal shareholder "Abdulmohsen Abdulaziz Al Hokair Holding Group Company" to revise the terms of leases for certain hotels, from fixed consideration (annual fixed payment) to variable consideration (variable lease payment, based on % of revenue). As per IFRS 16, "Leases" rent consideration that are based on variable payments, no Right of Use assets or lease liability shall be recognized. As a result of the change of lease arrangements, the Company has de-recognized amounts of SR 682 million and 759 million of right of use assets and lease liability balances, respectively.

8 LOANS

Loans represent Murabaha financing obtained from local banks. These loans carry Murabaha financing costs at prevailing commercial rates.

The following is a summary of the loans:

	<i>30 June 2021 SR '000</i>	<i>31 December 2020 SR '000</i>
Current portion of long-term loans	223,888	245,612
Short term loans	14,000	109,300
	<u>237,888</u>	<u>354,912</u>
Non-current portion of long-term loans	410,460	347,906
	<u>648,348</u>	<u>702,818</u>

(i) The loan agreements contain covenants, mainly relating to certain leverage ratio, total debt to equity ratio, and others, where the Group has to comply with on an annual basis. Under the terms of these agreements, the banks have the right to demand immediate repayment of the loans if any of the covenants are not met. As of June 30, 2021, the Group was not in compliance with certain loan covenants, but obtained waiver from banks.

(ii) The management has assessed that fair value of short-term loans and current portion of long term loans approximate their carrying amounts, due to the short-term maturities of these instruments.

12 RELATED PARTY TRANSACTIONS AND BALANCES (CONTINUED)

12.1 Related party transactions (continued)

During 2020, and as a response to COVID 19 outbreak and its impact on hotels' sectors, the Company has received a rent concession from the Principal Shareholder of SR 21.5 million, for the period from 1 January 2020 to 30 June 2020. In addition, the Company has also received a rent concession of SR 23.5 million from third parties, during the same period. This rent concession has been reported as a reduction of direct costs in the interim condensed consolidated statement of comprehensive income

- b) Salaries and related benefits of SR 891 thousand (30 June 2020: SR 934 thousand) were paid to two members (2020: two members) of the board of directors who are involved in the management of the Group. In addition, salaries and related benefits of SR 931 thousand (30 June 2020: SR 849 thousand) were paid to key management executives of the Group. Key management executives are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including any director (whether executive or otherwise) of the Group.

12.2 Terms and conditions relating to related party balances

Outstanding balances with related parties at the period-end are unsecured, interest free, settled in cash and due within 12 months of statement of consolidated financial position date. There have been no guarantees provided or received for any related party receivables or payables. This assessment is undertaken each reporting period by examining the financial position of the related party and the market in which the related party operates.

13 BASIC AND DILUTED LOSS PER SHARE

Basic and diluted loss per share for the period are calculated by dividing net loss income for the period by the weighted average number of issued and outstanding shares of 55 million during the period.

14 COMMITMENTS AND CONTINGENCIES

14.1 Legal contingencies

The Group is involved in litigation in the ordinary course of business, which are being defended. While the ultimate results of these matters cannot be determined with certainty based on the advice of its legal counsel, the Group's management does not expect that these will have a material adverse effect on its interim condensed consolidated financial position or results of operations as adequate provision was made in the interim condensed consolidated financial statements.

14.2 Capital commitments

As at 30 June 2021, the Group has capital commitments of SR 28.6 million (31 December 2020: SR 36.1 million) related to projects under constructions.

15 SEGMENTAL INFORMATION

The Executive Management committee monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated and is measured consistently with profit or loss in the interim condensed consolidated financial statements.

15.1 The Group's reportable segments under IFRS 8:

Hotels: engaged in hotel, tourism, health resorts, furnished apartments, restaurants and cafes.

Entertainment: engaged in establishment, management, operation and maintenance of fun cities, entertainment centers, parks and gardens.

Others: includes the operations of head office, commercial center and other segments.

The Group's primary business is conducted in Saudi Arabia with three subsidiaries operating outside Saudi Arabia. However, the total assets, liabilities, commitments and results of operations of these subsidiaries are not material to the Group's overall interim condensed consolidated financial statements. Transactions between the operating segments are on terms as approved by the management. There are no material items of income or expense between the operating segments. Majority of the segment assets and liabilities comprise operating assets and liabilities.

16 INTERIM RESULTS

Interim results may not necessary be indicative of the annual results of the Group.

17 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial instruments comprise of financial assets and financial liabilities. The Group's financial assets consist of bank balances, receivables and amounts due from related parties. Its financial liabilities consist of banks' short term and long-term loans, payables, accruals and amounts due to related parties.

The management assessed that fair value of bank balances, trade and other receivables, amounts due from related parties, short term loans, amounts due to related parties, accruals and other payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of the Group's interest-bearing long-term loans amounting to SR 422.1 million (31 December 2020: SR 347.5 million) and are determined by using discounted cash flows method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 30 June 2021 and 31 December 2020 was assessed to be insignificant.

Fair value of long-term loans falls under level 3 of the fair value measurement hierarchy. The Group does not hold other financial liabilities where fair value is determined using significant unobservable inputs.
