Independent Auditors' Report On Review Of Interim Financial Statements

To the Shareholders
Saudi Airlines Catering Company
(A Saudi Joint Stock Company)
Jeddah, Kingdom of Saudi Arabia.

Introduction

We have reviewed the accompanying September 30, 2018 condensed interim financial statements of Saudi Airlines Catering Company ("the Company") which comprises:

- the condensed statement of financial position as at September 30, 2018 ;
- the condensed statement of profit or loss and other comprehensive income for the three and nine months periods ended September 30, 2018;
- the condensed statement of changes in equity for the nine months period ended September 30, 2018;
- the condensed statement of cash flows for the nine months period ended September 30, 2018; and
- the notes to the condensed interim financial statements.

Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying September 30, 2018 condensed interim financial statements of **Saudi Airlines Catering Company** are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia.

2. BASIS OF PREPARATION

a) Statement of compliance

These Condensed Interim Financial Statements have been prepared in accordance with IAS 34 Interim Financial Reporting that is endorsed in Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Certified Public Accountants ("SOCPA") and should be read in conjunction with the Company's last annual Financial Statements as at and for the year ended December 31, 2017 ("last annual Financial Statements"). They do not include all of the information required for a complete set of IFRS Financial Statements however, accounting policies and selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual Financial Statements.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS
For the nine-month period ended September 30, 2018
(Expressed in Saudi Arabian Riyals)

2. BASIS OF PREPARATION (continued)

a) *Statement of compliance (continued)*

The Company has started to apply IFRS 15 and IFRS 9 starting from January 1, 2018. Changes to significant accounting policies are described in Note 3.b and 3.c respectively.

According to the announcement of the Capital Market Authority (CMA) dated October 16, 2016, the Company has to apply the cost method for the measurement of the property, plant and equipment, investment properties and intangible assets for 3 years from the date of applying IFRS.

b) *Basis of Measurement*

These financial statements have been prepared under the historical cost basis, except for the defined benefit obligation which is recognized at the present value of future obligation using the projected unit credit method. Further, the financial statements are prepared using the accrual basis of accounting and going concern concept.

c) *Functional and presentation currency*

These financial statements are presented in Saudi Arabian Riyals ("SR") which is the Company's functional and presentation currency.

3. SIGNIFICANT ACCOUNTING POLICIES

a. *Use of judgments and estimates*

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected.

The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements, except for new significant judgments and key sources of estimation uncertainty related to the application of IFRS 15 and IFRS 9 which are described in Notes 3.b and 3.c.

b. *IFRS 15 Revenue from Contracts with Customers*

The Company has started to adopt IFRS 15 for the first time from the period started January 1, 2018.

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaced IAS 18 Revenue, IAS 11 Construction Contracts and related interpretations. The Company recognizes revenue when a customer obtains controls of the goods at a point in time i.e. on delivery and acknowledgment of goods, which is in line with the requirements of IFRS 15. Accordingly, there is no material effect of adopting 'IFRS 15 Revenue from Contracts with Customers' on the recognition of Revenue of the Company.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

b. *IFRS 15 Revenue from Contracts with Customers (continued)*

The details of the new significant accounting policies and the nature of the changes to previous accounting policies in relation to the Company's sale of goods are set out below.

Type of Product	Nature, timing of satisfaction on performance obligations, significant payment terms	Nature of change in accounting policy
Inflight Catering, Airline Equipment, Business Lounges, Onboard & Ground Retails, Remote & Camp management, Business & Industries catering, Security Services, Laundry Services and Hajj & Umrah	<p>Revenue from catering and other services is recognised when the services are rendered to the customer. Invoices are generated and revenue is recognized at that point in time. Credit invoices are usually payable within 30-90 days. Invoice is generated and recognized as revenue net off applicable discounts which relate to the items sold. No customer loyalty points are offered to customers and therefore there is no deferred revenue to be recognized for the items sold.</p> <p>For contracts that permit the customer to return an item, under IFRS 15 revenue is recognized to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. Therefore, the amount of revenue recognized is adjusted for actual returns.</p>	No impact

The Company has adopted IFRS 15 using the cumulative effect method, with the effect of applying this standard recognized at the date of initial application (i.e. January 01, 2018). Accordingly, the information presented for previous year has not been restated, as previously reported, under IAS 18 and related interpretations.

There is no impact of adopting IFRS 15 on the Company's Condensed Statement of Profit or Loss for the nine-month period ended September 30, 2018.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

c. IFRS 9 Financial Instruments

The Company has started to adopt IFRS 9 for the first time from the period started January 1, 2018.

IFRS 9 sets out requirements for recognizing and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 Financial Instruments Recognition and Measurement.

The details of new significant accounting policies and the nature and effect of the changes to previous accounting policies are set out below.

i. Classification and measurement of financial assets and financial liabilities

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets held to maturity, loans and receivables and available for sale.

The adoption of IFRS 9 has not had a significant effect on the accounting policies related to financial liabilities and derivatives financial instruments. The impact of IFRS 9 on the classification and measurement of financial assets is set out below.

Under IFRS 9, on the initial recognition, a financial asset is classified as measured at amortised cost; FVOCI-debt investment; FVOCI-equity investment; or FVTPL. The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. Derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

A financial asset is measured at amortised cost if it meets both of the conditions and is not designated as at FVTPL;

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both the following conditions and is not designated as at FVTPL;

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the nine-month period ended September 30, 2018

(Expressed in Saudi Arabian Riyals)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)***c. IFRS 9 Financial Instruments (Continued)***

On the initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

The following accounting policies apply to the subsequent measurement of financial assets.

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses (see (ii) below). Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gains or loss on derecognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

c. IFRS 9 Financial Instruments (continued)

The effect of adopting IFRS 9 on the carrying amounts in financial assets at 1 January 2018 relates solely to the new impairment requirements, as described further below.

The following table and the accompanying notes below explain the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 for the class of the Company's financial assets as at January 1, 2018.

	Original Classification under IAS 39	New Classification under IFRS 9	Original carrying amount under IAS 39	New carrying amount under IFRS 9
Trade Receivables	Loans and Receivables	Amortised Cost	854,926,157	869,792,668
Cash and bank balances	Loans and Receivables	Amortised Cost	101,547,658	101,547,658
Total			956,473,815	971,340,326

ii) Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. The new impairment model applies to financial assets measured at amortised cost, contract assets and debt investments at FVOCI, but not to investment in equity instruments. Under IFRS9, credit losses are recognised earlier than IAS 39.

Under IFRS 9, loss allowances are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Company measures loss allowances at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort.

This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information

c. IFRS 9 Financial Instruments (continued)

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

iii) Transition

The Company has taken an exemption not to restate comparative information for prior periods with respect to classification and measurement (including impairment) requirements. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 are not recognised in retained earnings as at 1 January 2018 as amount was not material. Accordingly, the information presented for 2017 does not generally reflect the requirements of IFRS 9 but rather those of IAS 39.

The following assessments have been made on the basis of the facts and circumstances that existed at the date of initial application.

- The determination of the business model within which a financial asset is held.
- The designation and revocation of previous designations of certain financial assets.
- The designation of certain investments in equity instruments not held for trading as at FVOCI.

d. Impairment

i. Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Companies of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

d. *Impairment (continued)*

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation or amortisation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss.

Intangible assets with indefinite useful lives are tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

4. OPERATING SEGMENTS

A. *Basis for segmentation*

The Company has the following three strategic divisions, which are reportable segments. These divisions offer different products and services, and are managed separately because of their different fundamentals.

The following summary describes the operations of each reportable segment:

Reportable segments	Operations
Inflight	Inflight catering, airline equipment and business lounge
Retail	Onboard and ground
Catering and Facilities	Remote & Camp management, Business & Industries catering, Security services, Laundry services, Hajj & Umrah & Baggage handling services

The Company's Board reviews the internal management reports of each strategic division at least quarterly.

18. FINANCIAL INSTRUMENTS – FAIR VALUES AND RISK MANAGEMENT

A. Measurement of fair values

Except for the investment property, the fair values of the Company's financial assets and liabilities approximate their carrying amounts.

B. FINANCIAL RISK MANAGEMENT

The Company activities expose it to a variety of financial risks: market risk (cash flow and interest rate risk), credit risk and liquidity risk.

The Company's overall risk management program focuses on robust liquidity management as well as monitoring of various relevant market variables, thereby consistently seeking to minimize potential adverse effects on the Company's financial performance.

Risk management framework

The Board of Directors has put in place appropriate structures to ensure risk governance and monitoring across the Company. The Company's overall financial risk management focuses on the unpredictability of financial markets and the clients' payment behavior and seeks to minimize potential adverse effects on the Company's financial performance. Financial risk management is carried out by a Head office finance, which identify, evaluate and take actions on financial risks where appropriate.

The principles of overall financial risk management, as well as policies covering specific areas such as credit risk and the investment of excess liquidity exist and are formally documented.

Cash flow and interest rate risk

As the Company has no significant interest-bearing assets, the Company's income and associated operating cash inflows are substantially independent of changes in market interest rates. The Company has no interest-bearing liabilities.

18. FINANCIAL INSTRUMENTS – FAIR VALUES AND RISK MANAGEMENT (continued)

Credit risk

Credit risk reflects the risk that a counterparty will default on its contractual obligations, resulting in financial loss to the Company. The credit risk arising from cash and cash equivalents and deposits with banks and financial institutions are limited because the counterparties are banks and financial institutions which, in general, have an investment grade rating assigned by international credit rating agencies.

The Company's gross maximum exposure to credit risk at the reporting date is as follows:

	September 30, <u>2018</u>	December 31, <u>2017</u>
Financial assets		
Other financial asset	70,318,174	73,620,570
Trade receivables	243,930,557	152,436,997
Due from related parties	757,412,709	702,489,160
Other receivables	86,617,496	29,831,007
Balances with banks	46,473,831	100,402,166
	<u>1,204,752,767</u>	<u>1,058,779,900</u>

Credit risk on receivable and bank balances is limited as:

- Cash balances are held with banks with sound credit ratings ranging from A3 to A1 based on Moody's credit rating and BBB+ based on Fitch credit rating. All bank accounts are held with banks within Saudi Arabia and Cairo.
- The Company currently does not obtain security / collaterals from its customers.
- Financial position of related parties is stable.

Concentration Risk

As at September 30, 2018, 5 largest customers (December 31, 2017: 5 largest customers) account for approximately 77% (31 December 2017: 78%) of gross outstanding trade receivables

Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and the availability of funding from an adequate amount of committed credit facilities. The Company maintain flexibility in funding by maintaining sufficient availability of cash and cash equivalent instruments. The Company don't have any credit facilities in place and monitor risk to a shortage of funds by reviewing short-term cash forecasts on a continuous basis and by undertaking mid-term cash forecasts during the year.

19. COMMITMENTS AND CONTINGENCIES

As at September 30, the Company had the following commitments and contingencies:

	September 30, 2018	September 30, 2017
Capital commitments	74,851,587	76,735,012
Letter of guarantees	42,303,555	42,696,135

Letters of guarantee are issued by a bank on behalf of the Company to a supplier and promises to meet any financial obligations to the supplier in the event of default and this requires the Company to place cash with the bank. As at September 30, 2018, the Company fully paid the amount against letters of guarantee, hence no further financial charges are payable.

The Company had a credit facility with SABB from April 2018 for the new bank guarantee issued on behalf of the company to a supplier with the year-to-date issued amount of SR. 8,271,503.

20. NEW STANDARDS OR AMENDMENTS AND FORTHCOMING REQUIREMENTS

Standards issued but not yet effective up to the date of issuance of the Company's financial statements are listed below.

A. New Standards

Effective for annual periods beginning on or after	Standard, amendment or interpretation	Summary of requirements
Annual reporting periods beginning on or after January 1, 2019, early adoption is permitted	IFRS 16 – Leases	IFRS 16 changes fundamentally the accounting for leases by lessees. It eliminates the current IAS 17 dual accounting model, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases and, instead, introduces a single, on-balance sheet accounting model that is similar to current finance lease accounting. Lessor accounting remains similar to current practice – i.e. lessors continue to classify leases as finance and operating leases. Sale-and-leaseback is effectively eliminated as an off-balance sheet financing structure.

21. DATE OF AUTHORISATION FOR ISSUE
