Independent auditor's review report on the interim condensed financial statements to the shareholders of Saudi Kayan Petrochemical Company (Saudi Kayan)

Introduction:

We have reviewed the accompanying interim condensed statement of financial position of Saudi Kayan Petrochemical Company (Saudi Kayan) (Saudi Joint Stock Company) (the "Company") as at 31 December 2018, and the related interim condensed statement of income and other comprehensive income for the three-month period and the year then ended and the related interim condensed statements of changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" (IAS 34) that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of Review:

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UN-AUDITED)

At 31 December 2018

1 Corporate information

Saudi Kayan Petrochemical Company (Saudi Kayan) ("the Company") is a Saudi Joint Stock Company registered under Commercial Registration No. 2055008450 issued in Al Jubail on 26 Jumada'I 1428 H (12 June 2007). The registered address of the Company is P.O. Box 10302, Al Jubail Industrial City, the Kingdom of Saudi Arabia. 35% of the Company's shares are owned by Saudi Basic Industries Corporation ("SABIC") and remaining held by general public.

The Company is engaged in production of polypropylene, propylene, acetone, polyethylene, ethoxylate, ethylene, ethylene glycol, bisphenol, ethanolamine, industrial Fatty alcohol, polycarbonate and other petrochemical products under an industrial license No. (218) dated 12 Muharram 1438 H (13 October 2016) and ending on 11 Muharram 1441 H (10 September 2019) issued by the Ministry of Energy, Industry and Mineral Resources.

These interim condensed financial statements have been approved on 20 January 2019.

2 Basis of preparation and basis of measurement

2.1 Statement of compliance

The interim condensed financial statements for the three-month period and the year ended 31 December 2018 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim condensed financial statements do not include all the information and disclosures required in annual financial statements to be prepared in accordance with IFRS that are endorsed in KSA and should be read in conjunction with the Company's annual financial statements as at 31 December 2017.

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2017, except for the adoption of new standards effective as of 1 January 2018 (note 3). The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The Company has adopted IFRS 9 'Financial Instruments' and IFRS 15 'Revenue from Contracts with Customers' from 1 January 2018 and accounting policies for these new standards are disclosed in note 3.

2.2 Basis of measurement

The interim condensed financial statements are prepared under the historical cost convention, using the accruals basis of accounting.

For employee and other post-employment benefits, actuarial present value calculations are used.

The interim condensed financial statements are presented in Saudi Riyals (SR) which is also the functional currency of the Company.

All values are rounded to the nearest thousand (SR '000), except when otherwise indicated.

3 New accounting policies

The Company has adopted IFRS 9 'Financial Instruments' and IFRS 15 'Revenue from Contracts with Customers' from 1 January 2018 and accounting policies for these new standards as set out below:

3.1 IFRS 9 - Financial Instruments

3.1.1 Financial Assets

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value; and
- those to be measured at amortized cost.

The classification depends on the Company's business model for managing its financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UN-AUDITED) (continued)

At 31 December 2018

- 3 New accounting policies (continued)
- 3.1 IFRS 9 Financial Instruments (continued)

3.1.1 Financial Assets (continued)

Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Company's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairement of financial assets

For accounts receivables, the Company applies the simplified approach which requires expected lifetime losses to be recognized from initial recognition of the receivables.

Finance income

For all financial instruments measured at amortised cost and interest-bearing financial assets classified as fair value through other comprehensive income, finance income is recorded using the Effective Interest Rate ("EIR"). EIR is the rate that discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability.

3.1.2 Financial Liabilities

There are no changes in the recognition and measurement of financial liabilities. Consequently, accounting policies in relation to financial liabilities is not presented.

3.2 IFRS 15 - Revenue from Contracts with Customers

The Company recognises revenue from contracts with customers based on a five-step model as set out in applicable standards as adopted by SOCPA. This includes:

- a. Identification of a contract with a customer, i.e., agreements with the Company that creates enforceable rights and obligations.
- b. Identification of the performance obligations in the contract, i.e., promises in such contracts to transfer products or services.
- c. Determination of the transaction price which shall be the amount of consideration the Company will expect to be entitled to in exchange for fulfilling its performance obligations (and excluding any amounts collected on behalf of third parties).

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UN-AUDITED) (continued)

At 31 December 2018

3 New accounting policies (continued)

3.2 IFRS 15 - Revenue from Contracts with Customers (continued)

- d. Allocation of the transaction price to each identified performance obligation based on the relative stand-alone estimated selling price of the products or services provided to the customer.
- e. Recognition of revenue when / as a performance obligation is satisfied, i.e., when the promised products or services are transferred to the customer and the customer obtains control. This may be over time or at a point in time.

Revenue shall be measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty.

The Company shall assess its revenue arrangements against specific criteria to determine if it is acting as a principal or agent.

The specific recognition criteria described below must also be met before revenue is recognized. Where there is no specific criteria, above policy will apply and revenue is recorded as earned and accrued.

Sales revenue:

The Company manufactures and sells a wide range of products. For such products, sales shall be recognized when control of the products transfers to the customer, which shall be considered in the context of following the 5-step approach mentioned previously and applying the applicable shipping terms (or 'incoterms').

Financing components

The Company currently does not have or expect to have any customer contracts in routine sales or products where the period between the transfer of the promised products or services to the customer and payment by the customer exceeds a period of one year. As a consequence, the Company currently does not adjust any of the transaction prices for the time value of money. However, if any such case is identified, the related amounts shall be re-measured to adjust for the time value of money.

3.3 Impact of changes in accounting policies due to adoption of new standards

Effective 1 January 2018, the Company has adopted two new accounting standards, the impact of the adoption of these standards is elaborated below.

Several other amendments and interpretations apply for the first time in 2018, but do not have an impact on the interim condensed financial statements of the Company.

3.3.1 IFRS 9 - Financial Instruments

IFRS 9 'Financial Instruments' brings together three aspects of accounting for financial instruments: classification and measurement, impairment and hedge accounting. The standard is effective from 1 January 2018.

The Company adopted the new standard and has not restated comparative information. The difference between the carrying amounts of the financial assets resulting from adopting IFRS 9, are recognized in accumulated losses as at 1 January 2018. Accordingly, the comparative amounts for 2017 are not adjusted as per the requirements of IFRS 9. The financial liabilities are not affected.

The assessment of the business model within which a financial asset is held, has been made based on the facts and circumstances at the date of initial application.

The following table shows changes in classification and measurement in accordance with IAS 39 'Financial Instruments: Recognition and Measurement' and the new measurement categories in accordance with IFRS 9 for the Company's financial assets as of 1 January 2018.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UN-AUDITED) (continued)

At 31 December 2018

3 New accounting policies (continued)

3.3 Impact of changes in accounting policies due to adoption of new standards (continued)

3.3.1 IFRS 9 - Financial Instruments (continued)

| In SR ('000) | Classification | Classification under | Carrying value | Carrying value |
|-------------------|----------------|----------------------|----------------|----------------|
| III 3K (000) | under IAS 39 | IFRS 9 | under IAS 39 | under IFRS 9 |
| Trade receivables | Amortized cost | Amortized cost | SR 2,556,844 | SR 2,556,265 |

3.3.2 IFRS 15 - Revenue from Contracts with Customers

IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The Company's contracts with customers for the sale of products generally include one performance obligation. The Company has concluded that revenue from sale of products should be recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the products. Therefore, the adoption of IFRS 15 did not have an impact on the timing of revenue recognition.

3.3.3 Impact on accumulated losses

The adoption of IFRS 9 led to a change on accumulated losses was as follows:

| | Accumulated |
|--|-------------|
| | losses |
| Balance as per 31 December 2017 | (1,762,236) |
| Recognition of expected credit losses under IFRS 9 | (579) |
| Opening balance as per 1 January 2018 | (1,762,815) |

3.4 Estimates and judgements

IFRS 9 requires judgements about the expected credit losses on trade receivables, which includes selection of the regional and business related risk profiles of the Company's customers to assess the expected credit losses.

4 Segment information

A segment is a distinguishable component of the Company that is engaged in providing products or services (a business segment) or in providing products or services within a particular economic environment (a geographic segment), which is subject to risks and rewards that are different from those of other segments.

Substantial portion of the Company's sales are made to one customer and all of the Company's operations are related to one operating segment which is petrochemicals. Accordingly, segmental analysis by geographical and operating segment has not been presented.

5 Short term investments

Short term investments represent Murabaha commodity deposits with maturity over three months and less than a year upon acquisition are presented under current assets. These deposits are maintained with local and foreign commercial banks in Saudi Riyals and US dollars and carry profit at commercial rates.

At 31 December 2018

6 Subsequent events

In the opinion of management, there have been no significant subsequent events since year ended 31 December 2018 that would have a material impact on the financial position of the Company as reflected in these interim condensed financial statements.

7 Comparative figures

Certain comparative figures have been reclassified to conform to the current period's/year's presentation.
