

Rights Issue Prospectus

Batic Investments & Logistics Company

Batic Investments & Logistics Company is a Saudi joint stock Company incorporated pursuant to the Ministerial Resolution No. (861) dated 21/10/1411H (corresponding to 05/05/1991G) and the Commercial Registration Certificate ("CR") No. (1010052902) issued by the city of Riyadh on 04/13/1404H (corresponding to 01/16/1984G)

Offering of (30,000,000) thirty million ordinary shares with an offer price of SAR (10) ten Saudi Riyals per share ("Offer Price") by issuing Rights Shares with a total value of SAR (300,000,000) three hundred million Saudi riyals (the "Offering") representing an increase of approximately (100%).

Trading period: starting on 22/03/1443H (corresponding to 22/03/2021G) and ending on 29/03/1443H (corresponding to 29/03/2021G)

Subscription period: starting on 22/03/1443H (corresponding to 22/03/2021G) and ending on 29/03/1443H (corresponding to 29/03/2021G)

BATIC Investment and Logistics Co. (hereinafter referred to as the "Company" or the "Parent Company" or "Batic"), was initially established as a limited liability Company with the trading name "The Saudi Company for Refrigerated Transport". The capital upon incorporation amounted SAR (80,000,000) divided into eight hundred thousand (800,000) current shares of equal value, and the value of each share is SAR (100) distributed among fifty partners. It was registered with the Ministry of Commerce by virtue of a registration certificate in the Commercial Register No (1010052902) issued by the city of Riyadh on 04/13/1404H (corresponding to 01/16/1984G). The Company was converted from LLC to a joint stock Company under the name of "The Saudi Land Transport Company", under the Ministerial Decree dated 21/10/1411H (corresponding to 05/05/1991) while retaining the commercial registration number and date. The head office of the Company is located in the city of Riyadh - Olaya District - Al Arz Street - Batic Building, second floor, PO Box: 7939, Zip Code: 11472. It should be noted that the Company's trading name has been modified twice after it was converted into a joint stock Company. The first time, the former trading name was modified from "The Saudi Company for Land Transport - Mubarrad", to "The Saudi Company for Transport and Investment - Mubarrad", according to the approval of the Extraordinary General Assembly held on 26/01/1429H (corresponding to 04/02/2008 G). The second time, the former trading name was changed from "The Saudi Transport and Investment - Mubarrad" to become the current trading name of the Company "Batic Investments & Logistics Co.", according to the EGA's approval held on 06/07/1438H (corresponding to 03/04/2017G). The current capital of the Company is three hundred million (300,000,000) Saudi riyals and divided into thirty million (30,000,000) ordinary shares with a fully paid nominal value of ten (10) riyals per share (referred to collectively as the "Current Shares" and each as "Current Share"). As of the date of this Prospectus, the Company's major shareholder (who directly owns 5% or more of the Company's shares) is the Family Investment Company (owning 4,500,000 shares and representing 15% of the Company's total shares before the offering).

On 02/09/1442H (corresponding to 14/04/2021G), the BOD recommended the increase of the Company's capital through a Rights Issue worth SAR (300,000,000) three hundred million Saudi riyals, after obtaining the necessary regulatory approvals and the approval of the EGA. On 22/03/1443H (corresponding to 22/03/2021G), the Company's EGA approved to increase the Company's capital through a Rights Issue of shares. The Initial Public Offering (IPO) launches thirty million (30,000,000) new ordinary shares (referred to as "Right Shares" or "New Shares") at an offer price of ten (10) Saudi Riyals per share (referred to as the "Offer Price"), and with a nominal value of ten (10) Saudi riyals, so as to increase the Company's capital from three hundred million (300,000,000) Saudi riyals divided into thirty million (30,000,000) ordinary shares, to six hundred million Saudi riyals (600,000,000) divided into sixty million (60,000,000) ordinary shares, after obtaining all necessary regulatory approvals and the approval of the EGA.

The Rights Issue will be conducted through the issue of tradable securities (collectively referred to as "Rights Issue" and each as "Right Issue"), to the Company's shareholders, as at the close of trading on the date of the EGA held for the capital increase (hereinafter referred to as the "Eligibility Date"), who are registered in the Company's shareholders register with the depository center at the end of the second trading day following the day of the EGA that includes the approval of the capital increase on 22/03/1443H (corresponding to 22/03/2021G) (collectively referred to as "Registered Shareholders" and each as "Registered Shareholder"), with such Rights being deposited into the registered shareholders' portfolios following the day of the EGA and taking into account the settlement procedures (I) right for each (I) share of the Company's shares, and each right entitles its holder to subscribe to one new share at the offering price.

Registered shareholders and other public investors (referred to as "New Investors") – who may trade the Rights and subscribe to the New Shares – will be able to trade and subscribe to the Rights on the Saudi Stock Exchange (referred to as "Tadawul" or "Stock Exchange").

The trading period and subscription period start on 22/03/1443H (corresponding to 22/03/2021G), while the trading period ends on 29/03/1443H (corresponding to 29/03/2021G) (referred to as the "Trading Period"), the subscription period ends on 29/03/1443H (corresponding to 29/03/2021G) (referred to as the "Subscription Period"). It should be noted that the Trading Period and Subscription Period will start on the same day. However, the Trading Period cease on the sixth (6) day of the start of the period, while the Subscription Period will end on the ninth (9) day of the said period. The Registered Shareholders will be able to trade Rights during the Trading Period, by selling (in whole or in part) the entitled Rights, or by purchasing additional Rights from the Saudi Stock Exchange ("Tadawul"). New Investors may, during the Trading Period, purchase Rights from the Saudi Stock Exchange ("Tadawul") and sell the Rights purchased during the Trading Period.

The New Shares could be subscribed to during the Subscription Period via a single phase as follows:

- (1) During such period, all Registered Shareholders and New Investors may subscribe to the New Shares.
- (2) The Registered Shareholder may during the Subscription Period directly subscribe for the New Shares prorated to its own shares. In case the Registered Shareholder bought new right, he or she will be allowed to subscribe for them upon the cessation of the settlement period (two business days after buying the new rights).
- (3) The New Investors may directly subscribe for the New Shares upon settlement of such shares (two business days).
- (4) Subscription will be available online through the investment portfolio on Tadawul platforms and applications that are used to submit purchase and sale orders. Additionally, subscription shall be available through other media and channels available at the intermediary.

In the event that the Institutional Investors do not subscribe for all of the Rump Shares and fractional shares, then these shares shall be allocated to the Underwriter who shall subscribe for them at the Offer Price (see Section 12 "Shares Information & Offering Terms and Conditions"). The final allocation for the New Shares will be announced no later than 22/03/1443H (corresponding to 22/03/2021G) (referred to as the "Allocation Date") (see Section 12 "Shares Information & Offering Terms and Conditions").

Upon completion of the Offering, the Company's share capital will be SAR (600,000,000) six hundred million Saudi riyals divided into (60,000,000) sixty million ordinary shares. The net proceeds of the Offering will, after deducting the expenses of the offering, be used to expand the Company's activities and operations, to finance its future expansion projects, raise the volume of local investments, and adapt its growth plan to the economic booming and change taking place in the Kingdom of Saudi Arabia within the frame of the 2030's vision, in addition to the acquisition of profitable assets, the purchase of companies and assets generating Revenue, or the investment in such companies or profitable assets (see Section 6 "Use of Proceeds").

The Company has one class of shares. No Shareholder shall have any preferential rights. The New Shares will be fully paid and will equal exactly the outstanding shares. Each share grants its holder one vote, and each shareholder (the "Shareholder") has the right to attend and vote at the General Assembly meetings (referred to as the "General Assembly Meeting") (whether ordinary or extraordinary). Holders of the New Shares shall be entitled to receive any dividends declared by the Company as of the date of the Offering (if any).

The Company is considered to be one of the first companies which shares were listed on the Saudi Stock Exchange Market ("Tadawul"), on 21/10/1411H (corresponding to 05/05/1991G). On 22/12/1423H (corresponding to 23/02/2003G), the EGA December ided a capital reduction of three hundred million Saudi riyals (300,000,000) to one hundred and eighty million Saudi riyals (180,000,000), divided into three million six hundred thousand (3,600,000) ordinary shares, with a nominal value of fifty (50) Saudi riyals per share, fully paid in value. After the Capital Market Authority of Saudi Arabia ("CMA") issued Resolution No. (4-145-2006) dated 27/02/1427H (corresponding to 27/03/2006G), which stipulated the splitting of joint stock companies' shares (Stock split) over four stages, and according to the Council of Ministers' Decision that specifies ten (10) Saudi riyals per share as the nominal value of the joint stock companies' shares. Thus, the Company's three million six hundred thousand (3,600,000) shares, with a nominal value of fifty (50) Saudi riyals per share, have been divided into eighteen million (18,000,000) shares of equal value (ten (10) Saudi riyals), and all of which are ordinary cash shares. On 21/02/1438H (corresponding to 21/11/2016G), the EGA December ided to increase the capital from one hundred and eighty million (180,000,000) Saudi riyals to two hundred and forty million (240,000,000) Saudi riyals, divided into twenty-four million (24,000,000) ordinary shares, with a nominal value of ten (10) Saudi riyals per share, by granting bonus shares. On 13/08/1439H (corresponding to 29/04/2018G), the EGA December ided to increase the capital from two hundred and forty million (240,000,000) Saudi riyals to three hundred million (300,000,000) Saudi riyals, divided into thirty million (30,000,000) ordinary shares with a nominal value of ten (10) Saudi riyals per share, by granting bonus shares.

The Company's shares are currently traded on Tadawul. The Company has applied to CMA for registering and offering the New Shares in accordance with this Prospectus. The Company has also submitted a request to the Saudi Stock Exchange Company (Tadawul) to accept the listing of the New Shares. It has provided all supporting documents; and all the requirements of the relevant authorities have been met. Trading in New Shares in Tadawul is expected to commence soon after the final allocation of the New Shares and refund of extra subscriptions (please refer to page (ix) "Key Dates and Subscription Procedures"). Upon listing and admission of the shares, Citizens and residents of KSA and GCC countries, Saudi companies, banks, Saudi investment funds, GCC companies and establishments, and foreign investors from outside the KSA (through swap agreements or as qualified investors) will be permitted to trade in the New Shares. Moreover, Qualified Foreign Investors and Approved QFI Clients will be permitted to trade in the Company's shares according to the Rules governing the investment of qualified foreign financial institutions in listed shares. The Company has submitted an application for registration and new shares offering to the CMA. It has also submitted a request to the Saudi Stock Exchange "Tadawul" to accept the listing of the New Shares; and all requirements have been met.

This Prospectus must be read in full and the "Important Notice" section on page (i) and Section (2) "Risk Factors" of this Prospectus must be considered prior to making any investment Decision in the Rights or New Shares offered hereby.

The offering of the Rights Shares pursuant to this Prospectus, is subject to the shareholders' approval in the meeting of the Extraordinary General Assembly ("EGA") on the capital increase as recommended by the Board of Directors ("Directors") and the regulatory approvals. A call for the Company's EGA has been published to approve the issuance of Rights Shares on 22/03/1443H (corresponding to 22/03/2021G). The shareholders should be aware that if no approval is obtained for the offering of Rights Shares, the Rights Issue shall be deemed to be cancelled and this Prospectus shall be considered void in which the Shareholders shall be notified thereof.

When applying for the New Shares, investors will be treated as applying solely on the basis of the information contained in this Prospectus, copies of which are available for collection from the Company, the Lead Manager or by visiting the website of the Company (www.batic.com.sa), the website of Financial Adviser (www.aljziracapital.com.sa) and the CMA website (www.cma.org.sa).

This Prospectus will be published and available to the public within a period not less than (14) days prior to the date of the EGA for the capital increase. If the approval of the Company's EGA is not obtained within six (6) months of the approval of the CMA to register and offer the Rights Shares, the CMA's approval shall be deemed to be cancelled.

The Company has appointed Aljazira Capital as a financial Advisor (referred to as "Financial Advisor"), lead manager ("Lead Manager") and underwriter (the "Underwriter"), in relation to the increase the Company's share capital via the offering of the Rights Shares as set out in this Prospectus.

This Prospectus contains information provided according to the requirements of the Rules on the Offer of Securities and Continuing Obligations issued by the CMA's Board. The Directors, whose names appear on page (iii), jointly and severally, accept full responsibility for the accuracy of the information contained in this Prospectus, and confirm, having made all reasonable enquiries that to the best of their knowledge and belief, there are no other facts, the omission of which would make any statement herein misleading. The CMA and Tadawul do not bear any responsibility for the contents of this Prospectus, and do not make any representations as to its accuracy or completeness, and expressly disclaim any liability whatsoever for any loss arising from, or incurred in reliance upon, any part of this Prospectus.

While the Company has carried out all reasonable studies to verify the validity of the information contained in this Prospectus at the date hereof, a portion of the information contained in this Prospectus are derived from external sources, and while none of the Company, its members of the board directors, its Financial Advisor or any of the Advisors ("the Advisors") whose names appear on page (v) and (d) of this Prospectus have any reason to believe that any information is materially inaccurate, such information has not been independently verified and therefore no representation is made as to the accuracy and completeness of this information.

The information contained in the Prospectus as at the date hereof is subject to change. In particular, the actual financial position of the Company and the value of the offer shares may be adversely affected by future developments such as inflation factors, interest rates, taxes, or other economic and political factors or other factors beyond the Company's control (see Section 2 "Risk Factors" of this Prospectus). Neither the delivery of this Prospectus nor any verbal or written information related to the Offer Shares is intended to be, nor should be construed as or relied upon in any way as, a promise or representation as to future earnings, results or events.

The Prospectus shall not to be regarded as a recommendation on the part of the Company, the Directors or any of the Company's Advisors to participate in the Subscription for Rights Issue. Moreover, the information provided in this Prospectus is of a general nature and has been prepared without taking into account individual investment objectives, financial situation or particular investment needs. Prior to making an investment decision, each recipient (natural or legal) of this Prospectus is responsible for obtaining independent professional advice from a financial advisor licensed by CMA in relation to the Offering of the New Shares, to examine the appropriateness of the investment opportunity and the information herein with regard to the recipient's individual objectives, financial situation and needs.

The registered shareholders and other public investors ("New investors") - who may trade in rights and subscribe to the new shares - will be able to trade and subscribe to Rights issue shares on the Saudi Stock Exchange ("Tadawul" or "Exchange"). The trading period and the subscription period start on (••) ••/••/••••H (corresponding to ••/••/••••G), and the trading period ends on (••) ••/••/••••H (corresponding to ••/••/••••G) (the "Trading Period"), while the subscription period continues until the end of the day (••) ••/••/••••H (corresponding to ••/••/••••G) (the "Subscription Period"). It should be noted that the trading period and the subscription period will start on the same day while the trading period continues until the end of the ninth day from the beginning of the period. The Registered Shareholders will be able to trade in the Right issue during the trading period, by selling the acquired Right issue or part of them, or purchasing additional Right issue through the exchange. New investors will be able, during the trading period, to buy rights through the exchange and sell the rights that are bought during the trading period.

The New Shares could be subscribed to during the Subscription Period via a single phase as follows:

- 1- During such period, all Registered Shareholders and New Investors may subscribe to the New Shares.
- 2- The Registered Shareholder may during the Subscription Period directly subscribe for the New Shares prorated to its own shares. In case the Registered Shareholder bought new right, he or she will be allowed to subscribe for them upon the cessation of the settlement period (two business days after buying the new rights).
- 3- The New Investors may directly subscribe for the New Shares upon settlement of such shares (two business days).
- 4- Subscription will be available online through the investment portfolio on Tadawul platforms and applications that are used to submit purchase and sale orders. additionally, subscription shall be available through other media and channels available at the intermediary.

In the event that shares remain unsubscribed after the end of the Subscription Period (the "Rump Shares"), those shares will be offered to a number of institutional investors ("Institutional Investors"); such offering is referred to as ("the Rump offering"). The Institutional Investors shall submit their offers to buy the Rump Shares, and such offers will be received starting from [•] AM on [•] ••/1442H (corresponding to ••/2021G) until [•] PM on [•] ••/••/1442H (corresponding to ••/••/2021G) ("Rump Offering Period"). The Rump Shares will be allocated to the Institutional Investors with the highest offer, then the lowest and the lowest (provided that it is not less than the Offering Price), with shares being allocated on a pro rata basis, among those being the Institutional Investors that provided offers at the same price. As for fractional shares, they will be added to the Rump Shares and be treated similarly, and the total offering price obtained from the Rump offering process will be paid to the Company, and the remaining proceeds of the offering will be distributed (in excess of the Offer Price) among those entitled to obtain them, subject to eligibility within a maximum limit of •• days ••/••/1442H (corresponding to ••/••/2021G).

In the event that Institutional Investors have not subscribed to all the Rump Shares and fractional shares, the Rump Shares will be allocated to the Underwriter who will purchase them at the Offering Price (see Section 12 “Shares Information & Offering Terms and Conditions”). The final allocation for the new shares will be announced no later than (••) ••/••/1442H (corresponding to ••/••/2021G) (the “Allocation Date”) (see Section 12 “Shares Information & Offering Terms and Conditions”).

Financial Information

The Company issues its financial statements in Saudi Riyals. Certain financial and statistical information contained in this Prospectus have been subject to rounding adjustments. Accordingly, numbers presented for the same item may vary slightly in different tables, and totals in certain tables may not equal the addition of the individual items.

Forecasts and Forward-looking Statements

Forecasts included in this Prospectus have been prepared on the basis of specific and announced assumptions mentioned in the relevant issues. Future operating conditions may differ from the assumptions used and consequently no affirmation, representation, or warranty is made with respect to the accuracy or completeness of any of these forecasts. The Company confirms that the information contained in this Prospectus has been prepared with due care.

Certain forecasts in this Prospectus constitute “forward-looking statements”. Such statements can generally be identified by their usage of words that indicate future prospects such as “intends”, “plans”, “estimates”, “believes”, “expects”, or “possibly” or “will”, “intend”, “should”, “expected,” or “may” or the contrary thereof or other variations of such terms or comparable terminology.

These forward-looking statements reflect the current views of the Company and its management with respect to future events, and are not a guarantee of actual future performance. Many factors could cause the actual results, performance or achievements of the Company to be materially different from that which may be expressed or implied by such forward--looking statements.

The most important risks or factors that could lead to such an effect are described in more detail in other sections of this Prospectus (please see section (2) “Risk Factors” of this Prospectus). Should any one or more of these factors materialize or any underlying assumptions or estimates prove to be incorrect or inaccurate, actual results of the Company may vary materially from those expected, estimated, believed, or planned for in this Prospectus.

Offering Summary

Investors wishing to subscribe to shares of this offering must read the entire Prospectus before deciding to invest in the Company shares offered, as the offering summary is not sufficient to make an investment decision. Below is a summary of the offering:

Issuer Name, Description and Information of its Incorporation	<p>BATIC Investment and Logistics Company (hereinafter referred to as the “Company” or the “Parent Company” or “BATIC”) was initially established as a limited liability Company with the trading name “The Saudi Company for Refrigerated Transport”. The Company’s capital upon incorporation amounted to eighty million (80,000,000) Saudi riyals divided into eight hundred thousand (800,000) cash shares of equal value, and the value of each share is one hundred (100) Saudi riyals, distributed among fifty partners. It was registered with the Ministry of Commerce by virtue of a registration certificate in the Commercial Register No. (1010052902) issued by the city of Riyadh on 04/13/1404H (corresponding to 16/01/1984G). The Company was then converted from a limited liability Company to a joint stock Company, under the name of “The Saudi Land Transport Company”, under the Ministerial Resolution No. (861) dated 21/10/1411H (corresponding to 05/05/1991G), while retaining the commercial registration number and date. Note that the Company’s trading name has been modified twice after it was converted into a joint stock Company. In the first time, the previous trading name “Saudi Company for Land Transport -Mubarrad” was modified to become “The Saudi Transport and Investment Company –Mubarrad” according to the approval of the EGA held on 26/01/1429H (corresponding to 04/02/2008G). The second time the Company’s previous trading name was modified from “The Saudi Transport and Investment - Mubarrad” to its current name: “Batic Investment and Logistics Company” according to the Shareholders’ EGA approval dated 06/07/1438H (corresponding to 03/04/2017G) The head office of the Company is located in Riyadh - Olaya District - Al Arz Street - PO Box: 7939, Zip Code: 11472, Tel: 4187800. The Company’s current capital is three hundred million (300,000,000) Saudi riyals divided into thirty million (30,000,000) ordinary shares with a nominal value of ten (10) riyals per share, fully paid in value.</p>																																				
Issuer’s Business Activities	<p>The Company’s activities, as in the commercial registry mainly concern the general construction of residential and non-residential buildings, including (schools, hospitals, hotels), renovations of residential and non-residential buildings, repair of roads, streets, sidewalks and road supplies, and building finishing.</p>																																				
Issuer’s Major Shareholders, Their Ownership of Percentages and Number of Shares Pre-offering	<p>The major shareholders of the Company are those who directly own 5% or more of the Company’s shares. As at the date of this Prospectus, the Company has one major shareholder: The Family Office International Investment Company (owns 4,500,000 shares representing 15% of the Company’s total shares prior to the offering).</p>																																				
Nature of the Offer	<p>Capital increase through a Rights Issue.</p>																																				
Purpose Beyond the Proposed Rights Issue	<p>The Company aims to increase its capital by offering Rights issue shares to finance and implement its future plans and projects, to expand its various activities and raise the volume of local investments, and adapt its growth plan with the economic booming and change taking place in the Kingdom of Saudi Arabia, within the frame of the 2030 vision. It also strives to acquire profitable assets and to buy Revenue-generating companies and assets or invest in them (For more details, kindly refer to Section 6 (“Use of Proceeds”).</p>																																				
Total Proceeds Expected to Be Raised and a Detailed Breakdown and Description of the Proposed Use of Proceeds	<p>It is expected that the total proceeds of the subscription for the rights issue will reach one hundred and forty-five million (300,000,000) SAR. The net subscription proceeds will be used after deducting all the costs of the offering to finance the Company’s future plans and projects and expand its various activities (for further information, please see Section 6 (“Use of Proceeds”). Types of Targeted Investors	Registered Shareholders and New Investors
Registered Shareholders	A shareholder listed in the Company's register as at the close of the trading on the day of the Extraordinary General Assembly at which the capital increase has been approved and is registered in the Company's register with the depository center at the close of the second trading day following the convening of the (Extraordinary) General Assembly on 02/02/2024 (corresponding to 02/02/2024G)
New Investors	In general, individual and institutional investors - except for registered shareholders - who purchased Rights issue during the trading period.
Rights Issue	Rights are tradable securities giving their holder the right to subscribe to the new shares offered, after approval of the capital increase. These securities are considered an acquired right of all registered shareholders. The right may be traded during the trading period. Each Right grants its holder eligibility to subscribe for one new share at the offer price. Rights Issue will be deposited in the portfolio of registered shareholders after the meeting of the Extraordinary General Assembly at which the capital increase has been approved. The Rights will appear in the portfolios of the Registered Shareholders under a new symbol specifying the Rights issue.
Number of Issued Rights	Thirty million (30,000,000) Right.
Eligibility Coefficient	Each registered shareholder is granted (1) right for each (1) share he owns, and this coefficient is the result of dividing the number of new shares by the number of existing shares of the Company.
Eligibility Date	Shareholders who own shares at the close of trading day of the Extraordinary General Assembly at which the capital increase has been approved and are shown in the Company's register at the close of second trading day following the convening of the Extraordinary General Assembly at which the capital increase has been approved, on 02/02/2024 (corresponding to 02/02/2024G).
Trading Period	The trading period starts on 02/02/2024 (corresponding to 02/02/2024G) and continues until the end of 02/02/2024 (corresponding to 02/02/2024G). It is permissible during this period for all Rights issue holders - whether they are registered investors or new investors - to trade on the Right issue.
Subscription Period	The subscription period starts on 02/02/2024 (corresponding to 02/02/2024G) and continues until the end of 02/02/2024 (corresponding to 02/02/2024G). During this period, all holders of the Right issue - whether they are registered investors or new investors - may exercise their right to subscribe to the new shares.
Subscription Procedure	Eligible persons wishing to subscribe to new shares must submit their subscription requests electronically through the online intermediaries' websites and platforms that provide these services to the subscribers or through any other means provided by intermediaries.
Practicing Subscription in Right Issue	Eligible persons shall have the right to exercise their right to subscribe to Right issue shares by subscribing electronically via intermediaries' websites and online platforms that provide these services or through any other means provided by intermediaries'. In addition, eligible persons can exercise Right issue as follows: <ol style="list-style-type: none">1- Shareholders registered during the subscription period shall have the right to exercise the rights granted to them on the eligibility date and any additional rights that they have purchased during the trading period by subscribing to the new shares. They also have the right not to take any action regarding the rights they own.2- New investors shall, during the subscription period, have the right to exercise the rights that they have purchased during the trading period by subscribing to the new shares. They also have the right not to take any action regarding the rights they own.3- In the event that none of the registered shareholders or the new investors exercise their right to subscribe to the new shares during the subscription period, the shares related to those rights will be offered in the Rump offering period.
Indicative Value of the Right	The indicative value of the right reflects the difference between the market value of the Company's share during the trading period and the offer price. Tadawul will calculate and publish the right's indicative value during the trading period on its website, five minutes late, and market information service providers will also publish this information in order for investors to view the Indicative value when entering the order.
Trading Price of the Right	It is the price at which the right is traded, bearing in mind that it is determined through the mechanism of supply and demand, and therefore it may differ from the right's indicative value.
Rump Offering	In the event that shares remain unsubscribed after the end of the subscription period (the Rump Shares), those shares will be offered to a number of institutional investors (investment institutions). These investment institutions submit their bids to buy the remaining shares. These offers will be received from ten o'clock in the morning 02/02/2024 (corresponding to 02/02/2024G) until five o'clock in the evening. From the day of 02/02/2024 (corresponding to 02/02/2024G) (The Rump Offering Period). The Rump Shares will be allocated to the investment institutions with the highest offer, then the lowest and the lowest (provided that it is not less than the offering price), provided that the shares are allocated on a pro rata basis to the investment institutions that offer the same offer. As for the fractional shares, they will be added to the Rump Shares and treated similarly.

Methods of Allocation and Excess refund	Shares will be allocated to each investor based on the number of rights he has properly exercised and completed, after having followed the appropriate procedures (for more information on the method of subscription for rights, their circulation, the process of allocation and excess refund, please see section (12) "Shares Information & Offering Terms and Conditions". Fractions of the shares will be collected and added to the Rump Shares and then offered to Investment institutions during the Rump offering period. The Company will obtain the total offering price collected from the sale of the Rump Shares, while the remaining proceeds of the Rump offering will be distributed without taking into account any fees or deductions (i.e., What exceeds the offering price) for its beneficiaries who did not fully or partially subscribe to the new shares and for those entitled to fractional shares (please See section (9) "Legal information"). Excess of subscription (if any) will be refunded to subscribers without any commissions or deductions from the Lead Manager.
Date of Allocation	Shares will be allocated no later than **/**/****H (corresponding to **/**/****G)
Payment of Compensation Amounts (if any)	The monetary compensation amounts will be paid to eligible persons who have not exercised their right to subscribe in whole or in part to the new shares and to those entitled to fractional shares without any deductions, no later than **/**/****H (corresponding to **/**/****G), noting that the monetary compensation amounts represent the amount that exceeds the offering price from the net proceeds from the sale of the Rump Shares and fractional shares.
Adjusted Price	The Company's share price has been in the Stock Exchange to SAR (**) per share, before the start of trading on the day following the Extraordinary General Meeting relating to the capital increase. This represents a price reduction of SAR (**) per share.
Trading of New Shares	Trading of new shares in Tadawul begins after completing all procedures related to registering, allocating and listing the new shares.
Listing and Trading Rights Issue	The Rights Issue is listed in Tadawul and traded during the Rights Issue trading period. Rights Issue shall have a separate symbol and separate from the Company's current stock symbol on the Tadawul screen. The registered shareholders have several options during the trading period, which include selling the rights or part of them in the Exchange, buying additional rights through the Exchange, or not taking any action on the Rights Issue, whether by selling them or buying additional rights. During the trading period, new investors will have the right to purchase rights through the Exchange, sell those rights or part of them, or not to take any action regarding the rights purchased during the trading period. The Tadawul system will cancel the Rights issue symbol for the Company on the trading screen after the end of the rights issue trading period. Therefore, the trading of the Right issue will stop at the end of that period.
Legibility for Profits	Owners of the new shares will be entitled to any dividends the Company announces after the date it is issued.
Voting Rights	All shares of the Company are of one class, and no share gives its holder preferential rights. The new shares will be fully valued and equal to the existing shares. Each share gives its holder the right to one vote, and every shareholder in the Company has the right to attend the meeting of the general assembly of shareholders (whether ordinary or extraordinary) and vote in it.

How to Apply for the Offering

Subscription to Rights issue shares is limited to Eligible Persons, whether they are registered shareholders or new investors. In the event that the Eligible Persons do not exercise their rights, all the unsubscribed Rump Shares shall be offered to Institutional Investors through the Rump Offering Period.

The Eligible Persons wishing to subscribe to new shares must submit their subscription requests through the means and services provided by the broker to the investors, provided that the subscribing Eligible Person has an investment account with one of the brokers who provide these services.

The Subscription requests are submitted through the investment portfolio in the trading platforms (through which buy and sell orders are entered) in addition to the possibility of subscribing through any other means provided by the broker to the investors and the custodian of shares. The Company reserves the right to reject any application to subscribe to new shares in whole or in part if it does not fulfill any of the conditions or requirements of the subscription. It is not permissible to amend or withdraw the subscription application after its delivery. The subscription application, upon submission, constitutes a binding contract between the Company and the entitled shareholder.

Questions and Answers on Rights Issue

What is a Rights Issue?

Rights are tradable securities that give their holder the right to subscribe to the new shares offered, upon approval of the capital increase. All shareholders registered in the Company's shareholders register (at the Depository Center) at the close of the second trading day following the date the Extraordinary General Assembly at which the capital increase has been approved will be entitled to receive the Rights. Each right grants its holder eligibility to subscribe for one new share at the offering price.

Who is granted the Rights?

All registered shareholders in the Company's shareholders register at the close of trading on the second trading day following the date of the Extraordinary General Assembly at which the capital increase has been approved.

When are the Rights deposited?

After the Extraordinary General Assembly convenes and its approval of the capital increase through the offering of Right issue shares, the Rights issue are deposited as securities in the shareholders' own portfolios in the Company's shareholders' register at the Depository Center at the end of the second trading day after the extraordinary general meeting. The shares will appear in their portfolios under a new symbol for Rights issue. Trading or subscribing to these rights will not be permitted until the beginning of the trading and subscription periods.

How are the investors notified of the Rights being deposited in their portfolios?

The notification is made through announcement on the Tadawul website, as well as through the (Tadawulaty) service provided by the Securities Depository Center Company, and short text messages sent through the brokerage firms.

How many Rights issue can be acquired by a registered shareholder?

The number is subject to the rights issue ratio and the number of the current shares held by the registered shareholder as at the close of the second trading day after the date of the Extraordinary General Assembly at which the capital increase has been.

What is the Rights Issue ratio?

It is the ratio that enables registered shareholders to know how many Rights he/she is entitled to in relation to the current shares that he/she already owned at the close of the second trading day after the date of the Extraordinary General Assembly meeting at which the capital increase has been approved. This parameter is calculated by dividing the number of new shares by the number of the current shares of the Company, and accordingly, the eligibility factor is (1) right approximately for every (1) share owned by the registered shareholder on the eligibility date, thus, if a registered shareholder owns (1,000) shares on the eligibility date, then he will be allocated (1,000) rights in exchange for the shares he owns.

Will the name and symbol for trading these rights differ from the name and symbol of the Company's shares?

Yes, the acquired rights will be added to the investors' portfolios under the name of the original share and by adding the word Rights issue, in addition to a new symbol for these rights.

What is the right value upon the commencement of trading?

The opening price of the Rights is the difference between the Company's share closing price on the day preceding such rights Listing, and the Offer Price (indicative Rights value). For example: If the closing price of a share on the preceding day is SAR (40) forty Saudi Riyals and the Offer Price is SAR (10) ten Saudi Riyals, the opening price of the Rights will, at the beginning of trading, be SAR (30) thirty Saudi Riyals (which is the difference between the above mentioned two prices).

Who is a Registered Shareholder?

Any shareholder who appears in the Company Shareholder Register at the close of second trading day following the Extraordinary General Assembly at which the capital increase has been approved.

Can the registered shareholders subscribe for additional shares?

Yes, the registered shareholders can subscribe for additional shares by purchasing new Rights through the market during the trading period.

Is it possible for a shareholder to lose his eligibility to subscribe even if he has the right to attend the Extraordinary General Assembly and vote on increasing the capital through a rights issue?

Yes, the shareholder loses his right to subscribe if he sells his shares on the day of the Extraordinary General Assembly meeting or one business day before it.

How does the offering take place?

Subscription requests are submitted through the investment portfolio in the trading platforms through which the buy and sell orders are entered, in addition to the possibility of subscribing through any other means provided by the broker to the investors and the custodian of shares.

Can the eligible person subscribe to more shares than the rights owned by him?

The eligible person cannot subscribe to more shares than the rights owned by him.

In the event that the Company's shares are owned through more than one investment portfolio, in which portfolio the Rights will be deposited?

Rights will be deposited into the same portfolio where the related shares exist. For example, if a shareholder owns (1,000) (one thousand) shares in the Company, (800) of them in portfolio (A) and (200) in portfolio (B), then the total number of rights to be deposited are (1,000) (one thousand) rights considering that each share (1) right. In this case, (800) eight hundred rights will be deposited in portfolio (A) and (200) two hundred rights will be deposited in portfolio (B).

Are share certificate holders allowed to subscribe and trade?

Yes, they are allowed to subscribe. However, they will only be able to trade after depositing their certificates in electronic portfolios through the recipient or the Tadawul's Securities Depository Center Company ("Edaa") and submitting the requisite documents.

Are additional Rights purchasers entitled to trade them once again?

Yes, purchaser of additional rights may sell them and purchase other rights only during the trading period only.

Is it possible to sell part of the Rights Issue?

Yes, the investor can sell part of these rights and subscribe to the remaining part.

When can a shareholder subscribe for the Rights he/she purchased during the rights trading period?

After the close of the rights purchase settlement (which is two business days), provided that the subscription for Rights is completed during the subscription period.

Can the holder of Rights sell or assign the Rights after the end of the trading period?

No, it cannot. After the expiry of the trading period, the Eligible Person may only exercise the right to subscribe to the Right issue shares, or not to exercise. In the event that the Right is not exercised, the investor may be subject to loss or Decrease in the value of his/her investment portfolio.

What happens to Rights that are unsold or unsubscribed during the trading and subscription period?

In the event that the new shares are not fully subscribed during the subscription period, the remaining new shares shall be offered during the Rump Offering organized by the Lead Manager, and the compensation value (if any) is calculated for the rights owner after deducting the subscription price. Note that the investor may not receive any consideration if the sale is made in the Rump offering period at the offering price.

Who has the right to attend the Extraordinary General Assembly and vote to increase the Company's capital by offering Rights issue shares?

A shareholder who is registered in the Company's shareholders' register at the Depository Center, after the end of the trading day of the Extraordinary General Assembly Day, has the right to attend the Extraordinary General Assembly and vote on increasing the Company's capital by offering Rights issue shares.

When is the share price adjusted as a result of the Company's capital increase by offering Right issue shares?

The share price is adjusted by the market before the start of trading on the day following the day of the Extraordinary General Assembly.

If an investor buys security on the day of the assembly, is he entitled to obtain the Rights resulting from the increase in the issuer's capital?

Yes, as the investor will be registered in the Company's shareholders' register two business days after the date of the shares' purchase (i.e., at the end of the second trading day following the day of the Extraordinary General Assembly meeting), bearing in mind that Right issue will be granted to all shareholders registered in the Company's shareholders' register at the end of trading the second trading day following the date of the Extraordinary General Assembly. However, he will not be entitled to attend or vote in the Extraordinary General Assembly of the capital increase.

If the investor has more than one portfolio with more than one brokerage firm, how will the rights be calculated for him?

The investor's share will be distributed among the portfolios that the investor owns, according to the percentage of ownership in each portfolio, and in case there are fractions, those fractions will be collected, and if you complete one or more integer numbers, the correct number is added to the portfolio in which the investor owns the largest amount of rights.

What are the trading and subscription periods?

Trading and subscription of rights begins at the same time until the end of trading on the sixth day, while the subscription continues until the ninth day, according to what is mentioned in this Prospectus and the Company's announcements.

Is it possible to subscribe during the weekend?

No, it is not possible.

Can public investors other than registered shareholders subscribe to rights issue shares?

Yes, after completing the purchase of Rights during the trading period.

Overview of the Company

Batic Investment and Logistics Company (The “Company” or the “Parent Company” or “Batic”) was initially established as a limited liability Company with the trading name “The Saudi Refrigerated Transport Company”. The Company’s capital upon incorporation amounted to SAR (80,000,000) eighty million Saudi riyals divided into eight hundred thousand (800,000) cash shares of equal value, and each share is worth one hundred (100) Saudi riyals distributed among fifty partners. It was registered with the Ministry of Commerce by virtue of the registration certificate No (91010052902) in the Commercial Register, issued by the city of Riyadh on 04/13/1404H (corresponding to 16/01/1984). The Company was converted from a limited liability Company to a joint stock Company under the name of “The Saudi Land Transport Company» by virtue of the Ministerial Resolution No. (861) dated 21/10/1411H (corresponding to 05/05/1991G), while retaining the commercial registration number and date. It’s worth mentioning though that the Company’s trading name has been modified twice after it was converted to a joint stock Company. The first time, the previous trading name “The Saudi Land Transport Company – Mubarrad” was modified to become “The Saudi Transport and Investment Company – Mubarrad” based on the approval of the EGA held on 26/ 01/1429 (corresponding to 04/02/2008G). The second time, the former trading name of the Company was modified from “The Saudi Transport and Investment Company- Mubarrad” to become the current Company’s trading name “Batic Investments & Logistics Company “, according to the shareholders’ EGA approval held on 06/07/1438H (corresponding to 03/04/2017G). The Company’s head office is located in the city of Riyadh – Olaya District – Al Arz Street – PO Box: 7939, Postal Code: 11472.

Capital Structure

- BATIC Investment and Logistics Company was initially established as a limited liability Company with the trading name “Saudi Company for Refrigerated Transport”. Upon transformation into a joint-stock Company, the Company’s trading name became “Saudi Company for Land Transport”, and was later modified twice. The first time, the previous trading name was modified from “Saudi Company for Land Transport - Mubarrad” to become “Saudi Transport and Investment Company - Mubarrad” according to the approval of the EGA held on 26/01/1429H (corresponding to 04/02/2008G). Then the second time, the previous trading name of the Company was modified from “Saudi Transport and Investment Company –Mubarrad” to the current trading name “Batic Investments and Logistics Company” after the approval of the Shareholders EGA held on 06/07/1438H (corresponding to 03/04/2017G). Pursuant to the Company’s founders’ agreement dated 03/09/1404H (corresponding to 14/12/1983G) and registered in the Riyadh Notary Public Journal No (40/47), volume (3) for the year 1404H and with the Ministry of Commerce under registration certificate No. (1010052902) in the Commercial Register and issued in the city of Riyadh on 13/04/1404H (corresponding to 01/16/1984G). The Company’s capital upon incorporation amounted to SAR (80,000,000) eighty million Saudi riyals, divided into eight hundred thousand (800,000) cash shares of equal value, each worth SAR (100) one hundred Saudi riyals distributed among fifty (50) partners.
- On 05/07/1405H (corresponding to 03/27/1985G) three (3) partners waived their shares to other partners and consequently exited from the Company, without any change in the capital. Accordingly, the Company’s capital, which is SAR (80,000,000) eighty million Saudi riyals, divided into eight hundred thousand (800,000) cash shares of equal value, each worth one hundred (100) Saudi riyals distributed among forty-seven (47) partners.
- On 26/11/1410H (corresponding to 19/06/1990G), the partners’ General Assembly December ided to increase the Company’s capital to SAR (300,000,000) three hundred million Saudi riyals and convert it to a joint-stock Company, by the partners’ contribution through their in-kind payment and cash shares in the Company equivalent to (40%) of the capital, the acceptance of new partners representing (20%) of the capital with in-kind payment or cash shares, and the offering of (40%) of the shares for public subscription.
- The Company was transformed into a joint stock Company pursuant to Ministerial Resolution No. (861) dated 10/21/1411H (corresponding to 05/05/1991G), while retaining the commercial registration certificate number and date, and with a capital of SAR (300,000,000) three hundred million Saudi riyals divided into six million (6,000,000) shares with a nominal value of fifty (50) Saudi riyals per share.
- On 22/12/1423H (corresponding to 02/23/2003G), the Extraordinary General Assembly December ided to reduce the Company’s capital from SAR (300,000,000) three hundred million Saudi riyals to SAR (180,000,000) one hundred and eighty million Saudi riyals divided into three million six hundred thousand (3,600,000) shares of equal value and with a nominal value equal to fifty (50) Saudi riyals.
- On 27/02/1427H (corresponding to 27/03/2006G), the Capital Market Authority Resolution No. (4-145-2006) was issued to split the joint stock companies’ shares on four stages, according to the Council of Ministers Decision stipulating that the nominal value of joint stock companies’ shares shall be SAR (10) per share. Hence, has the Company’s shares, equivalent to three million six hundred thousand (3,600,000) shares of a nominal value of fifty SAR (50) per share, were split and subdivided into eighteen million (18,000,000) shares of equal value and each worth ten SAR (10).
- On 21/02/1438H (corresponding to 21/11/2016G), the EGA December ided to increase the capital from SAR (180,000,000) one hundred and eighty million Saudi riyals to SAR (240,000,000) two hundred and forty million Saudi riyals, divided into twenty-four million (24,000,000) shares and with a nominal value of SAR (10) ten Saudi riyals each, by granting free shares (bonus shares) and issuing 33.33% of the current number of shares, equivalent to one free share for every three (3) owned shares.
- On 13/08/1439H (corresponding to 29/04/2018G), the EGA December ided to increase the Company’s capital from SAR (240,000,000) two hundred and forty million Saudi riyals to SAR (300,000,000) three hundred million Saudi riyals, divided into thirty million (30,000,000) shares with a nominal value of ten SAR (10) each, by granting free shares (bonus shares) and issuing 25% of the current number of shares, equivalent to one bonus share for every four (4) owned share

Market Overview

The value of the logistics market in Saudi Arabia was approximately SAR (70,000,000,000) in 2019G, making it the largest among the Gulf Cooperation Council countries. It represents 55% of the total logistics market in the GCC and ranks as the third most attractive in emerging markets. It is also one of the fastest growing logistics sectors worldwide.

The warehouse market is expected to grow due to the planned increase in the manufacturing activity, international trade, and the domestic consumption. Moreover, the cold chain segment of the logistics market has experienced growth in recent years due to the active participation of the pharmaceutical industry and the increasing demand for fruits, vegetables, meat and dairy products.

On the other hand, profitability with the ATM managed services is closely related to multiple factors such as: improving the cash withdrawal process at the ATM machines, increasing the number of ATMs, introducing a new breed of ATMs, and improving customer retention plans and relationships for longer periods*.

2.1 Risks Related to the Company's activities and Operations

2.1.1 Risks Related to the Coronavirus (COVID-19) Pandemic

The novel coronavirus (Covid-19) began to spread in December 2019G, and the World Health Organization December lared it a global pandemic in March 2020G. The virus then spread widely and quickly and affected more than 194 countries around the world which was now facing a health and economic crisis. Many countries began to impose public health containment measures to delay its spread and enhance the capacity of the health sector. The escalation of the situation led to a sudden stagnation in economic activities alongside with a sharp December line in economic prospects. As a result, the outbreak of the virus had a significant impact on the global economy and put pressure on individuals, companies and governments worldwide.

The Saudi government-imposed health and economic containment measures following the footsteps of international and regional countries. Health measures included imposing a complete and partial closure of economic and governmental activities, quarantine, and travel restrictions. The economic measures comprised financial support for citizens and people affected by the coronavirus pandemic, family and sick leaves paid by the state, the expansion of unemployment compensation, the delay of tax payments, and additional measures to assit companies amidst this health crisis.

Despite a 7% increase in the operating Revenue during the year 2020G in comparison with the year 2019G, mainly due to revenue from the medical equipment sector supply, operating Revenue Decreased in the sectors of security guards, money transfer, counting and sorting, and correspondence by 23.36% and 14.98%, respectively. To fight the new viral epidemic during 2020G, the Saudi government implemented many precautionary measures in an attempt to limit the spread of the virus. Thus, to face the arising December line in the operating Revenue, the Company sought to benefit from the government support provided to the private sector and effectively manage costs, in addition to supporting its working capital and maintaining operations with the required capacity.

On 3 April 2020G, Royal Order No. 47299 dated 08/08/1441H was issued to grant a wage subsidy to Saudis employed in the private sector ('Royal Order'). The subsidy is available for all Saudis working for employers with five or less Saudi employees. It also covers up to 70 per cent of Saudis working for employers with more than five Saudi employees. The employer will be able to select which employees to apply to put onto the subsidy scheme. Assuming that the employees are eligible to receive the Saned wage subsidy, the employer is then not required to cover the balance of wage difference for the duration of the subsidy scheme.

The subsidy is managed by the General Organisation for Social Insurance ('GOSI') through the Saned unemployment insurance fund. Employees who are selected and are eligible to receive the subsidy will get 60 per cent of their wages or up to SAR 9,000 (US\$ 2,400) per month (whichever is less). The Saned wage subsidy scheme covered wages for the months of April, May and June, with the subsidy payments for those months being made in May, June and July respectively. The scheme may be extended should the government deem appropriate. Employers must resume the payment of wages after the GOSI wage subsidy programme ends (at time of writing June 2020G). To be eligible for the subsidy, the employer must be registered with GOSI and a subscriber to GOSI's unemployment insurance branch before 1 January 2020G and have continued its subscription.

As a consequence, the Company (and its subsidiaries) profited from the Saudi government initiatives to support and protect the private sector from the risk of low liquidity and inability to pay short term obligations through state initiatives like the insurance scheme against unemployment "SANED". On April 3, 2020G, Royal Order No. 47299 dated 08/08/1441H was issued to grant a wage subsidy to Saudis employed in the private sector. The subsidy is available for all Saudis working for employers with five or less Saudi employees. It also covers up to 70 per cent of Saudis working for employers with more than five Saudi employees. The employer will be able to select which employees to apply to put onto the subsidy scheme. Assuming that the employees are eligible to receive the SANED wage subsidy, the employer is then not required to cover the balance of wage difference for the duration of the subsidy scheme.

The subsidy is managed by the General Organisation for Social Insurance ('GOSI') through the Saned unemployment insurance fund. Employees who are selected and are eligible to receive the subsidy will get 60 per cent of their wages or up to SAR 9,000 (US\$ 2,400) per month (whichever is less). The Saned wage subsidy scheme covered wages for the months of April, May and June, with the subsidy payments for those

months being made in May, June and July respectively. The scheme may be extended should the government deem appropriate. Employers must resume the payment of wages after the GOSI wage subsidy programme ends (at time of writing June 2020G). To be eligible for the subsidy, the employee must be registered with GOSI and a subscriber to GOSI's unemployment insurance branch before 1 January 2020G and have continued its subscription.

This initiative is valid for a period of three months to support the private sector facilities hugely affected by the COVID-19 repercussions. The General Organization for Social Insurance (GOSI) announced that online applications will open on its website on Wednesday, April 8, 2020G, and the subsidy will be granted by the Insurance System Fund against unemployment "SANED", which is designed to face such situations that threaten the ability of employers to continue practicing their activities and workers at risk of losing their source of Revenue due to the exposure of the industrial sector to critical circumstances. According to the Resolution of the Committee, responsible for setting controls and eligibility conditions, pursuant to Royal Order No. 47299, dated 08/08/1441H and formed of the Ministries of (Finance, Economy and Planning, Human Resources and Social Development) and the General Organization for Social Insurance, it was stipulated to extend the subsidy for an additional three months period to become of six months period of time. The General Organization for Social Insurance explained that the subsidy for the August payment for the year 2020G will follow the same mechanism as the previous months, whereby compensation will be disbursed to all beneficiaries currently registered in SANED records as usual in the first day of the month and according to the current subsidy percentages. As for September 2020G, the subsidy's percentage for the least affected establishments will be a maximum of 50% of the Saudi workers, provided that it will continue to be a maximum of 70% of the Saudi workers in the most affected establishments which include accommodation activities, travel agencies, tours operators, reservation services and related activities, air transportation, sports, leisure and entertainment activities, creative activities, arts and other personal service activities. As for the establishments operating in other sectors that are no longer receiving subsidies, they will be excluded from the subsidy and re-registered with the same employer later in October 2020G, provided that their registration is retroactive as of October 1, 2020G, and the owner shall be obligated to Pay wages and insurance contributions to those fully employed in accordance with Royal Order No. 47299 dated 8/8/144H (corresponding 01/04/2020G) regarding the compensation payment to facilities affected by COVID-19 repercussions through the SANED system and in accordance with the Labor Law and the Social Insurance System. The subsidy period ended at the end of September 2020G, in addition to the exemption from paying social insurance contributions to all subscribers benefiting from SANED support, the extension of work licenses for non-Saudi employees, and the payment deferral of value-added tax (VAT) and Zakat.

However, the Company and its subsidiaries do not guarantee that one of its employees will not be infected with the coronavirus, which may lead to work interruption during the 14-day quarantine period and may negatively affect the Company's performance. Other hindrances are related to municipalities' requirements with regard to workers' housing and the excessively stringent measures to prevent social distancing and mass gatherings. Moreover, the Company may have to incur further expenses and costs, and may be hugely affected by these procedures if the government re-imposes additional precautionary measures for a longer period of time. Failure to comply with the instructions would negatively and materially influence the Company's business, financial position, results of operations and future prospects.

All regions and cities of the Kingdom of Saudi Arabia are subject to continuous examination by the Ministry of Health, which may necessitate the re-imposition of complete or partial closures in some cities, yet it will be difficult to predict the impact of this pandemic on the Company's activity if the full or partial ban is re-imposed in Saudi cities, which will have a fundamentally negative impact on the Company's business, financial position, results of operations and future prospects.

2.1.2 Risks Related to Non-issuance or Non-renewal of Licenses and Certificates

The Company and its subsidiaries are required to obtain and maintain various permits, licenses and regulatory approvals in relation to their activities. These include the following: the registration certificate issued by the Ministry of Commerce, the Chamber of Commerce membership certificate, the Saudization and Zakat certificates, the Revenue and VAT registration certificates, the social insurance, municipal license and civil defense permit. Specialized activities carried out by subsidiaries also require approvals from the Public Authority for Transport, the Ministry of Interior and the Food and Drug Authority.

(For more information about the licenses and certificates obtained by the Company, please refer to sub-paragraph (9.2) "Licenses and Permits Obtained by the Company and its Subsidiaries" from Section No. (9) "Legal information").

Batic and its subsidiaries as (the licensee) should comply with the terms and conditions of each obtained license and certificate. In the event that the Company or any of its subsidiaries are unable to do so, they may not be able to renew these licenses and certificates or obtain new ones often required for the purposes of expanding their activities, which may result in the suspension or flateringng of the Company or Group's business, or the imposition of financial penalties from governmental agencies. This would negatively and substantially affect the Company's business, financial position and the results of its operations and future expectations.

The Company and its subsidiaries are required to obtain municipal and civil defense licenses to carry out their activities. In order to do so, the Company or its subsidiaries must obtain these licenses from the municipality / secretariat, which falls within the scope of its supervisory powers over the premises rented by the Company. Each municipality / secretariat requires the following documents: a copy of the commercial register, a copy of the corporate bylaws (Bylaws), a copy of the lease contract, a copy of the rental property permit, a copy of the real estate office license, a picture of the building including the sign (with a copy of the sign invoice and the registration of the Company's trademark ownership) in addition to the civil defense license.

Except for the Saudi Transport and Investment Company – Mubarrad, none of the subsidiaries have obtained municipal licenses from the authorized Municipalities which constitutes a violation to the Municipal Laws. Besides, if the licenses of both Batic and Mubarrad expire and are not renewed, or a new branch of the Company or one of its subsidiaries was opened without extracting new licenses, the Group will hence face sanctions stipulated in the Municipal List of Fines and Penalties, issued on 05/02/14422H (corresponding to 22/09/2020G). Sanctions may actually reach location (branch) closure, which will negatively and materially affect the Company's business, financial condition, results of operations, and future prospects.

The Company and its subsidiaries don't have the Civil Defense certificate for Security and Safety, although Batic had one that expired on 22/03/1442H (corresponding to 08/11/2020G). This is considered a violation that may expose the Group to sanctions and fines stipulated in Article (30) of the Civil Defense Law that states the following: "Any person violating the provisions of this law shall be punished by imprisonment for a period not to exceed six (6) months, or by a fine not to exceed thirty thousand SAR (30,000), or both." The Company may even face the closure of the leased site, which will negatively and materially affect the Company's business, financial condition, results of operations, and future prospects.

On the other hand, the Arabian Company for Security and Safety Services Branch – AMNCO is engaged with security guard activity and the its license has expired since 08/05/1442H (corresponding to 23/12/2020G), which constitutes a violation of the system of private civil security issued by Royal Decree No. (M/24) dated 08/07/1426H (corresponding to 13/08/2005G). Article (12) of this sanctions Law states that are punishable by the person who violates any provision or provisions of this system, which may amount to revoke the license by virtue issued by the Board of Grievances which may adversely influence the Company's operations, results of operations, and financial position. The subsidiary company, the Arabian Company for Security and Safety Services AMNCO, has an expired wage protection system compliance certificate. According to the updated Wages Protection System, services for violating and non-compliant establishments are suspended after notifying the facilities, at the specific time that the facility is required to upload the file.

Accordingly, the inability of the Company to renew its current licenses, permits and certificates, obtain any of the licenses necessary for its business or to acquire any such documents that may be requisite in the future, or in the event any of the licenses are suspended, expired or renewed on inappropriate conditions for the Company and its subsidiaries, the latter may be suspended or unable to carry out their work. This may happen through closing the Company or any of its subsidiaries, stopping all services provided by the regulatory authorities (such as renewing licenses and certificates, issuing visas and residence permits, guarantees transfer, etc.) which will result in disrupting the Company's operations and incurring additional costs, which will thus negatively affect the Company's business, operations result, financial position and future expectations.

2.1.3 Risks Related to Concentration of Revenue

The Group's revenues are mainly concentrated in the activities of security guards, money exchange, ATMs replenishment services, money counting sorting and transfer, and correspondence, all provided by AMNCO which revenues' percentage amounted to 88.3%, 84.7% and 69.1% of the total revenue of BATIC, for the years 2018G, 2019G and 2020G respectively.

In the event of a Decrease in AMNCO's revenues, the loss of customers, strong competitors with greater market shares, the occurrence of any emergency such as natural disasters (or other) or a change in the regulations and laws therein in terms of imposing additional fees and taxes, AMNCO's revenues will be negatively and substantially affected. Hence, the Company's business, results of operations, financial position and future prospects.

2.1.4 Risks related to dealings with related parties

It falls within the scope of related parties according to the corporate governance regulations in which any of the board members, senior executives or their relatives is a member of its BOD or one of its senior executives. As of this Prospectus, it turned out that the Company has signed agreements and contracts with related parties in accordance with the following (for more information, kindly refer to paragraph (9.5.1) "Agreements and Related Parties' Transactions" of Section (9) "Legal information" of this Prospectus.

- 1- On 26/02/1443 H. (corresponding to 03/10/2021G.) Batic (buyer) executed the sale and purchase agreement in relation to the acquisition of the entire shares of Smart Parking Holding Company (seller) representing 35.8% of share capital in Smart Cities Company for a consideration of SR(107,874,812). Prior to signing this agreement, the Company has entered into a memorandum of understanding dated 01/09/1442H.(corresponding to 13/04/2021G) and the purchase agreement dated 19/09/1442H. (corresponding to 01/05/2021G.). This transaction comprises two related parties being: 1- the chairman of Batic (Mr. Ahmed AlSanea) who owns shares in Smart Cities Co and 2- other member of the Board of Directors of Batic (Mr. Firas Khalid Bawardi) in his capacity of chief executive officer at Jassara Co which is a shareholder (owning 100 shares) in Smart Cities Co. Both parties disclosed their interest in this transaction to the Board of Directors of Batic on 13/04/2021G and obtained the approval of the ordinary general assembly meeting on 12/02/1443H. (corresponding to 19/09/2021G.).
- 2- A number of lease contracts signed by BATIC Investment & Logistics Company and related parties which are as follows:
 - With the Saudi Transport and Investment Company - Mubarrad (one of the subsidiaries of BATIC Company), with a value of SAR (328,515) three hundred and twenty-eight thousand five hundred and fifteen Saudi riyals for the year 2020G, in which both the managing director, Mr. Mohammed Saud Al – Zamil and BATIC Board member Mr. Firas Khaled Al-Bawardi hold the positions of directors.
 - With the Smart Cities Solutions for Communications and Information Technology Company, with a value of SAR (302,500) three hundred and two thousand five hundred Saudi riyals for the year 2020G, in which BATIC Board Chairman Mr. Ahmed Muhammad Al-Sanea owns capital shares, in addition to being a subsidiary of the Arabian Company for Security and Safety Services - AMNCO, a subsidiary of BATIC. In addition to Mr. Feras bin Khaled Al-Bawardi, being Jasara Holding's CEO, owning (100) seventy shares of the Smart Cities Solutions for Communications and Information Technology Company's capital.
 - With AMNCO Facilities Management Company worth SAR (139,150) one hundred and thirty - nine thousand and one hundred and fifty Saudi riyals, for the year 2020G, with the Board delegate Mr. Mohammed Al Zamil acting as a director. This Company is also a subsidiary of the Arabian Company for Security Services and Safety – AMNCO subsidiary of BATIC.
 - With the Family Investment Company with a value of SAR (151,250) one hundred and fifty-one thousand two hundred and fifty Saudi riyals for the year 2020G, which is owned and managed by the Board Chairman Mr. Ahmed Muhammad Al-Sanea.
 - With Jazan Energy and Development Company - JAZADCO at a value of SAR (131,890) one hundred and thirty-one thousand eight hundred and ninety Saudi riyals for the year 2020G, where Mr. Ahmed Muhammad Al-Sanea, Mr. Majed Abdullah Al-Issa and Mr. Fahd Mubarak Al-Qathami act as BATIC Board Members.
- 3- The agreement (providing cleaning, maintenance and supervision services) for BATIC management building in the city of Riyadh (Al Olaya District) with AMNCO Facility Management Company (where Mr. Mohammed Al Zamil acts as Director and it is a subsidiary of the Arabian Company for Security and Safety Services – AMNCO a subsidiary of BATIC) for the purpose of providing the stipulated services. The agreement is concluded for a period of one Gregorian calendar year from 15/07/2019G to 14/07/2021G, and is subject to renewal unless one of the parties is notified of an unwillingness to renew for a similar period of time and by a written notice, accordingly the agreement was automatically renewed. The value of this agreement has reached the amount of SAR (34,853) thirty-four thousand eight hundred fifty-three Saudi riyals per month.

Related parties also consist of senior management staff, Board and committees' members and on whom they directly and indirectly have significant influence. During the normal course of business, the Group concluded many transactions with related parties, and the balance due for the Company's transactions with related parties amounted to SAR (962,000) nine hundred and sixty-two thousand Saudi riyals as of December 31, 2020G as follows:

- Remuneration of Board and Committees Members: SAR (725,000)
- Attendance allowance of Board and Committees meetings in addition to secretaries' remuneration: SAR (237,000)

The Company is committed to disclose transactions with related parties to the General Assembly of Shareholders and that all transactions are on a commercial competitive basis that guarantees the rights of shareholders, and that contracts are voted on by the Company's General Assembly without the participation of shareholders who have interests in those contracts or by the Board of Directors without the participation of the director who have interest in those contracts.

The ordinary general assembly meeting dated 20/10/1442H. (corresponding to 01/06/2021G.) approved to delegate the authorisation powers stipulated in paragraph (1) of Article 71 of the Companies Law to the company's Board of Directors in relation to the authorisation for businesses or contracts that are executed for the Company's account, in which a Board member has direct or indirect interest.

The Regulatory Rules and Procedures issued pursuant to the Companies Law relating to Listed Joint Stock Companies issued by the Board of the Capital Market Authority pursuant to resolution No. 8-127-2016 dated 16/1/1438H (corresponding to 17/10/2016G) based on the Companies Law issued by Royal Decree No. M/3 dated 28/1/1437H amended by Resolution of the Board of the Capital Market Authority Number (4-122-2020) Dated 3/4/1442H (corresponding to 18/11/2020G) stipulated in Article 56 the conditions and the requirements of delegation of authority (for further information about the conditions, please see sub-section 9.4.5 "The Continuing Obligations as Per the Requirements of the CMA" of section 9 "Legal information"). Three directors voted on the delegation of the authorisation powers stipulated in relation to the authorisation for businesses or contracts that are executed for the Company's account, in which the director has direct or indirect interest. Based on the above. A member of the Board of Directors shall not be allowed to vote on the items of delegation and the revocation (in the Ordinary General Assembly) which could allow the regulator to question the three directors.

With the exception of contracts and transactions with related parties mentioned in Paragraph (9.5.1) "Agreements and Related Parties' Transactions" of Section (9) "Legal information" of this Prospectus, the Company has not concluded any written contracts or agreements with related parties. In the absence of documentation of all contracts and transactions with related parties, by virtue of the framework agreements, or in the event of the latter not being concluded on commercial bases or not getting the General Assembly's approval, or the Company was unable to collect certain amounts of money, the Company's business would be negatively and fundamentally affected as well as its financial condition, results of operations and future prospects.

2.1.5 Risks Related to the Obsolescence of the Transport Fleet

The subsidiary Company (the Saudi Transport and Investment Company – Mubarrad) owns a land transport fleet of three hundred and fifty (350) trucks, four hundred and fifty-nine (459) trailers, with a total of eight hundred and nine (809) as on 05/31/2021G. The Saudi Transport and Investment –Mubarrad relies on this fleet to conduct its business in the paid land transport of good with an estimated revenue of SAR (65,977,536) that constitutes (13%) of BATIC's revenues according to the financial statements of the year ended December 31, 2020G. The life span of this land fleet ranges from 10 to 15 years, while the net book value is equal to SAR (94,622,411) as of 31/05/2021G.

Since these vehicles have a specific economic life, their obsolescence will lead to burdening the Group with increased maintenance expenses, and may eventually result in some or all of the fleet's vehicles being out of service, hence the Group's loss of its revenues from the Land transport fleet in whole or in part, which will negatively affect the Group's Revenue and its financial position.

2.1.6 Risks related to overcome the accumulated losses of AMNCO Facilities Management Co. Ltd. (a subsidiary of the Arabian Company for Security and Safety Services) and the Smart Cities Solutions Company (a subsidiary of the Arabian Company for Security and Safety Services to be acquired by Batic) 50% of the capital

AMNCO Facilities Management Company Limited (a subsidiary of the subsidiary Company, the Arabian Company for Security and Safety Services – AMNCO) is committed to apply the provision of Article (181) of the Companies Law, where the Company's losses amounted to half of the capital as on December 31, 2020G SAR (1,779,069). Its accumulated losses as on March 31, 2021G exceeded half of the capital with an amount of SAR (2,135,467). The partners in the Company, in their meeting held on December 28, 2020G, agreed to continue the Company's activity and provide the necessary support to cover the losses, provided that the results of the support appear in the next year's budget. The Company committed to publish the partners' decision on 13/02/1443H (corresponding to 20/09/2021G).

The total accumulated losses of the Company to be acquired (Smart City Solutions Company) reached 11,946% of the capital which is equal to SAR (100,000), i.e the amount of SAR (11,945,995) of the capital. According to the requirements of Article (181) of the Companies Law, "1- If the losses of the limited liability Company amount to half of its capital, the Company's managers must register this incident in the commercial registry and invite the partners to meet within a period not exceeding ninety days from the date of the knowledge of the loss amount; to consider the continuation or dissolution of the Company. 2- The partners' Decision- whether the Company's continuation or dissolution - must be announced by the methods stipulated in Article (158) of the Law 3- The Company is considered dissolved by the force of the law if its managers neglect the partners' invitation, or if the partners were unable to issue a Decision to continue or dissolve the Company." As of the date of this Prospectus, the Company is committed to the provisions of Article (181) of the Companies Law, as the partners in the Smart Cities Solutions Company unanimously agreed in their meeting held on December 28, 2020G to continue the Company's operations, while providing financial support to cover the accumulated losses through capital increase. The partners' Decision was published on the Ministry of Commerce website.

In the event that the Smart Cities Solutions Company is unable to reflect the results of this support in the financial statements for the following financial year and to reduce accumulated losses to a percentage of (50%) of its capital, it will have two options: to submit a new pledge from the partners to preserve the Smart Cities Solutions Company by providing it with financial support, provided that the result is shown in the next budget or its liquidation, since reducing the capital by canceling shares to extinguish losses is not allowed for limited liability companies

whose losses exceed (50%) of the capital, in accordance with the provisions of Article (177) of the Companies Law. If it is not possible to issue a resolution that allows the continuity or dissolution of these companies, they will be considered as obsolete by the force of the Law, which will negatively and fundamentally affect the Company's business, financial position and future prospects.

As noted, the Decision of His Excellency the Minister of Commerce No. (348) dated 10/04/1442H (corresponding to 25/11/2020G) was issued based on the Royal Order stipulating to suspend the validity of some provisions of the Companies Law. The Decision includes the suspension of some statutory deadlines and the introduction of some exceptions from some provisions of the Companies Law for a specific period, as follows:

- 1- As an exception to the provision of Article (181) of the Companies Law, the period during which the limited liability Company's (LLC) managers must invite partners to meet shall be extended to become (180) days instead of ninety (90) days, from the date on which they become aware of such losses, for a period of two years starting from 01/08/1441H (corresponding to 03/25/2020G) and ending on 30/07/1443H (corresponding to 03/03/2022G).
- 2- Paragraph (3) of Article (181) (which provides that the Company shall be terminated by the Law if the Company's director failed to invite the shareholders or if the shareholders failed to issue a resolution whether to support and continue or dissolve the Company) of Companies Law shall be suspended for a period of two years from 01/08/1441H (corresponding to 25/03/2022G) until 30/07/1443H (corresponding to 03/03/2022G). LLCs shall disclose the developments of their losses on an ongoing basis, when they reach the amount specified in Paragraph (1) of Article (181) of Companies Law (half of their capital), in accordance with the following controls:
 - 1- The Company's director, managers, or Board, as soon as they become aware that the Company's losses have reached half of the capital, shall submit to the Ministry a request to publish an announcement on the Ministry's website, including the number of losses, their percentage of the capital and the main reasons that led to these losses.
 - 2- The Company's director, managers, or Board shall submit to the Ministry, on a quarterly basis, a statement about the developments of the Company's losses within (15) days from the end of each quarter, and a request to publish an announcement on the Ministry's website to that effect.
 - 3- The Company's director, managers, or Board, once aware of the Decrease in the Company's losses to less than half of the capital, shall submit to the Ministry of Commerce a request to publish an announcement its website, including the measures taken by the Company to amend its conditions.

Despite the submission of a letter of support and business continuity of (Smart Cities Solutions Company), there are no guarantees that additional losses, that may exceed 50% of the capital, may not be recorded which leads to the application of procedures in accordance with Article (181) of the Companies Law. Thus, the Company and its subsidiaries' operating results and aspirations will be negatively affected.

2.1.7 Risks Related to Dependence on Key Customers

The Group's main customers are in the transport and security guard sectors of the Arabian Company for Security and Safety Services – AMNCO, and the Group's total sales to (5) key customers accounted to approximately 47.3% in 2018G, 36.5% in 2019G, 28.6% in 2020G, and 33.4% in the period ended March 13, 2021G. Accordingly, any conflict with key customers may have a negative impact on the Company's revenues, profits, operations, financial position and operational results.

2.1.8 Risks Related to Zakat Entitlements

The Group and its subsidiaries filed Zakat Declarations for all years up to the financial year ended 31/12/2020G and obtained Zakat certificates that expire on 30/04/2022G.

Batic Investment and Logistics Company received the financial Zakat assessments for the years 2008G until 2014G, the file and objection were then closed, and the Company paid the due Zakat differences. The Company obtained the Zakat assessment for the year 2018G on 31/12/2020G with an obligation to pay the difference estimated at SAR (39,879). The Company approved on this assessment and settled the zakat. On October 31, 2020G, the Company issued a Zakat assessment for the financial years 2015G until 2017G, and the Zakat differences according to this assessment estimated at a total amount of SAR (2,520,796). The Company paid an amount of SAR (105,573), representing the approved clauses. The Company submitted an objection on the rest of the outstanding amount on 12/12/2020G. However, the Zakat, Tax and Customs Authority rejected the objection on 11/02/2022G which was then submitted to the General Secretariat of Tax Committees.

The Company has a new zakat certificate No. (11107332350) issued by the Zakat, Tax and Revenue Authority and dated 24/09/1442H (corresponding to 06/05/2021G) and it is valid until 29/09/1443H (corresponding to 30/04/2022G).

For the other Group companies:

- **The Arabian Company for Security and Safety Services – AMNCO:** The Company has committed to provide Zakat declarations until the end of the financial year ended 31/12/2022G and obtained the final Zakat certificate. It also received Zakat assessments for the financial years 2008G until 2014G. The assessment and objection file were closed, and the Company paid the due Zakat differences on 18/02/2021G. Moreover, AMNCO received a data request from the Examination and Assessment Department for the financial year 2015G which resulted in a Zakat difference of SAR (513,721,39). The Company responded to the data requested by the Department of Examination and Assessment. The Zakat assessment objected by AMNCO was issued by virtue of the Authority's Declaration dated 20/05/2021G. On 02/01/1443H (corresponding to 10/08/2021G), the Company was notified to partially accept the objection. Hence, an adjusted Zakat assessment was imposed equal to SAR (485,748,59).
- **AMNCO Facilities Management Company** (a subsidiary of the Arabian Security and Safety Services Company - AMNCO) has also committed to submit Zakat Declarations until the end of the financial year ended December 31, 2020G and obtained the final Zakat certificate valid until 30/04/2022G. The Company obtained Zakat assessments for the financial years 2006G until 2016G, and the assessment file was closed after the Company settled the due Zakat differences. On 09/17/2020G, AMNCO received a Zakat assessment for the year 2018G with an amount of SAR (35,508). Thus, it lodged an objection to the full amount due, on which the Authority approved.

- **Smart Cities Solutions Company (a subsidiary of the subsidiary Company (The Arabian Company for Security and Safety Services – AMNCO):** The Company submitted its Zakat December larations until the year 2020G, and therefore obtained a certificate bearing the number (1020762180) and valid until 30/04/2022G. The Company did not receive any Zakat assessments from the Zakat, Tax and Customs Authority.
- **AlShifa Technology Co. Ltd.:** The Company submitted its Zakat December larations for the year 2020G and obtained a certificate valid until April 30, 2022G. It did not receive any Zakat assessments from the Zakat, Tax and Customs Authority.
- **BATIC Real Estate Company:** The Company submitted its December laration for the period ended 31/02/2020G and obtained a Zakat certificate bearing the number (1020538335), which is valid until 30/04/2022G. It did not receive any Zakat assessments from the Zakat, Tax and Customs Authority.
- **Saudi Transport and Investment – Mubarrad:** The Company submitted its December laration for the period ended 31/02/2020G and obtained a Zakat certificate valid until 30/04/2022G. It has received the Zakat assessment taxation for the financial period from 30/07/2017G until 30/07/2018G, and the differences of Zakat and withholding tax, estimated at SAR (59,607), were paid.
- Thus, the Company and its subsidiaries can not predict whether the Zakat, Tax and Customs Authority will approve on its Zakat estimates or request the payment of any Zakat differences. If the Zakat, Tax and Customs Authority requests the Company to pay such differences, the Company's profits, results of operations, financial position and future prospect will be substantially and negatively affected.

2.1.9 Risks Related to Capital Management

When managing capital, the Company aims to ensure its ability to continue so that it can keep on providing returns to shareholders, and to maintain adequate basic capital to support its business. It may often be exposed to the risks of capital mismanagement and loss of its ability to persevere in order to provide returns to shareholders and support its business. The Company's management manages capital by monitoring returns on net assets and the Company's total liabilities ratio to its total assets. It may make adjustments to the capital in proportion to changes in economic conditions in the future. For the purpose of preserving or adjusting the capital, the Company may increase its capital in the future to ensure the achievement of its objectives and strategic plans. In the event that the Company's management is unable to make the necessary capital adjustments, it may face the risks of its discontinuation.

2.1.10 Risks Related to Liquidity and Capital Resources (Funding Liquidity Risk)

The Company and its subsidiaries rely on credit facilities and loans to finance operations. Indebtedness amounted to SAR (150,000,000) as on December 31, 2020G, and SAR (156,000,000) as on March 31, 2021G. It represented (0.40) times as on December 31, 2020G, and (0.43) times as on March 31, 2021G of BATIC's total shareholders' rights.

Batic, the Arabian Company for Security and Safety Services - AMNCO and the Saudi Transport and Investment Company - Mubarrad have entered into credit facility agreements (for more information, please refer to subparagraph No. (9.5.4) "Loans and facilities" of Section (9) "Legal information" of this Prospectus.

These agreements include conditions and commitments undertaken by the Group, and require the provision of personal guarantees. The major points of these agreements are as follows:

(a) Risks of Non-compliance with the Credit Facilities' Terms and Commitments:

The agreement concluded between Batic and Arab National Bank limits the Company's ability to conduct specific procedures. The Company undertakes:

- 1- maintaining its financial, administrative, legal and ownership status not changing its activity as of the date of the agreement.
- 2- never allowing the issuance or issuance approval of new shares, granting options, guarantees or the right to subscribe to additional shares in its capital to any person except for a shareholder or a current partner.
- 3- not announcing or paying any dividends or distributions to partners/shareholders, or settling any loans to partners/shareholders in the event of any breach.

Committed to its undertakings, the Company sent a letter to the Arab National Bank requesting its approval on the capital increase through Rights Issue. The Bank approved the Company's request.

The agreement concluded between Batic and Riyadh Bank included acknowledgments that limit the Company's ability to change or modify its ownership structure without consulting the bank. Thus, the Company has notified the Riyadh Bank about the capital increase, and the bank confirmed that it is not necessary to grant approval since it is a matter of capital increase.

Regarding the agreement concluded between the Arabian Company for Security and Safety Services - AMNCO and the Saudi Investment Bank, it included an undertaking that there will be no change in the shares' ownership or control and the ownership structure without the Bank's prior written approval.

Regarding the two agreements concluded between the Saudi Transport and Investment Company and Riyadh Bank, the Bank may claim to pay the remaining unpaid balance from the funding provided to the Company in the event of failure to obtain the bank's written consent, if changes occur in the third party's legal form, structure of the ownership or private management (the Company), its guarantors or subsidiaries/sister companies, or to take decisions that would affect obligations with the first party or guarantees. The bank was notified by Batic about the capital increase through Rights Issue.

In the event of any breach under the Company's financing agreements, the creditors may decide to terminate the lending obligations and announce that all current loans, in addition to the accumulated and unpaid commissions, and any fees and other obligations have become due and payable, and may initiate judicial enforcement procedures on the pledged assets in favor of selling them and collecting the value of the loans from sale proceeds.

As a result, the Company's business, financial position, results of operations and future prospects would be substantially and negatively affected.

(b) Company's Personal Guarantees Under Credit Facilities:

Batic and its subsidiaries - the Arabian Company for Security and Safety Services - AMNCO and the Saudi Transport and Investment Company Mubarrad – are committed to present guarantees in accordance with the concluded credit and facilities agreements such as guarantees of fines, joint performance, order promissory notes and mortgages.

If the Group is unable to meet its repayment obligations under the loan and credit facilities agreements, or breaches any of its debt obligations or covenants in the future, the lenders may require immediate repayment of the debt and collect the guarantees provided by the Group. In this case, there is no guarantee that the Group will be able to obtain sufficient alternative financing resources to repay debts. Any of these factors will have a material negative impact on the Company and its subsidiaries' business and financial standing.

2.1.11 Risks Related to Management Decisions

The results of the Company's business depend mainly on the Board members who make strategic decisions regarding the Company's business and activities and the ability of its executive management to properly implement these decisions. In the event that the Company's management takes wrong decisions regarding its business, the Company's business, its financial position, the results of its operations and its future prospects will be negatively affected.

2.1.12 Risk Related to Liquidity

The Company faces liquidity risks when it fails to provide the necessary funds to meet on time its liabilities and financial obligations arising from operating activities. The Company's liabilities consist of loans and payables represented in trade receivables, lease contract obligations to lessors, and accrued expenses. The Company may not be able to meet current or future obligations on due dates, especially short-term ones. Its fast liquidity ratio reached 285%, 252%, 202% for the years ended 31 December, 2018G, 2019G and 2020G respectively, and 190% as in the period ended March 31, 2021G. In the event that the Company is not able to effectively manage payables and pay them on time, debtholders may resort, including but not limited to stop dealing with the Company which may face difficulties to provide the necessary revenues to conduct its business. Besides, the Company may be subject to lawsuits that may damage its reputation and result in financial losses. Therefore, these risks will negatively and fundamentally affect the Company's business, financial position, results of operations and future prospects.

2.1.13 Risks Related to Credit and Collection

The Company may face credit risks when one of the parties fails to fulfill a specific financial obligation to the other party. Credit risks may occur in several temporary or permanent cases such as the existence of customers' debit balances and the failure of creditors to fulfill their obligations to the Company. It's noteworthy that the Company's net receivables amounted to SAR (111,000,000), SAR (135,000,000) and SAR (160,000,000) as of December 31, 2018G, 2019G, 2020G respectively and SAR (172,000,000) as of the period ended March 2021G.

Hence, the Company can neither guarantee the related parties will not fail to fulfill their obligations nor predict the future ability of those parties to accurately commit. If these parties fail to fulfill their obligations and don't comply, as a result of the Company's inability to collect receivables from third parties, then its financial position and results of operations will be negatively affected.

2.1.14 Risks Related to Contingent Liabilities

Some contingent liabilities may arise on the Company, such as costs related to zakat, taxes and other obligations or expenses related to its activity, such as issuing government licenses necessary to conducting it. In such event, these obligations will negatively affect the Company's financial situation, position, operations' results and future expectations. (For more information on the continuing obligations on BATIC and its subsidiaries, please refer to sub-section (9.4) "The Continuing Obligations Imposed by The Relevant Governmental Authorities on The Company and Its Subsidiaries in Their Capacity as a "Licensee"" of Section (9) "Legal information" of this Prospectus).

2.1.15 Risks Related to Changes in Accounting Standards and Adoption of New Standards

The financial statements of the Company are prepared in accordance with the International Financial Reporting Standards (IFRS) approved in KSA and other standards and publications approved by the Saudi Organization for Certified Public Accountants (SOCPA). The Company is required to apply the amendments or the changes occurring to these standards from time to time.

The Company has applied the amendments to the following standards which were issued and became effective from 01/01/2020G:

- IAS 1 and IAS 8: Definition of Material
- IFRS 3: Business Definition
- Conceptual Framework for Financial Reporting: Amendments to the conceptual framework references in International Financial Reporting Standards (IFRS), updated definitions and recognition criteria for assets and liabilities and clarification of some concepts.

The following is a table of the major amendments to the standards that were issued but not applied by the Company and not yet effective:

Table No. (2): Amendments to the New International Financial Reporting Standards (IFRS)

Modifications to Standards	Description	Applicable for years beginning on or after
IFRS 16, 4, 7, 9 and IAS 39	Interest Rate Index Reform - Phase 2	January 1, 2021G
IAS 37	Unfair Contracts – Contract Completion Cost	January 1, 2022G
IFRS 16, 9, 1 and IAS 41	Annual Improvements to International Financial Reporting Standards 2018G - 2020G	January 1, 2022G
IFRS 3	Reference to the Conceptual Framework	January 1, 2022G
IAS 1	Classification of Liabilities as Current or Non-current	January 1, 2023G
Amendments to IFRS 10 and IAS 28	Sale of / Investment in Assets between the Investor and the Partner or Joint Venture	Not applicable

Source: Financial statements of BATIC Investment and Logistics Company for the year ended December 31, 2020G

Any changes in these standards or the mandatory application of some new standards could adversely affect the financial statements and, consequently, the Company's financial results and position.

2.1.16 Risks Related to the Failure of the Expansion Strategy

The Company's expected future growth depends on the success of its expansion strategy and modernization of existing activities and expansion.

The Company intends to acquire the proportion of 35.8% of the Smart City Solutions Company for Communications and Information Technology, and the acquisition of Revenue-generating assets, and the support of the working capital of AlShifa Technology Co. Ltd. (Please refer to section (6) "Use of Proceeds" of this Prospectus). Thus, inability to implement expansion plans or failure of those expansion plans will negatively affect future growth opportunities, affecting in turn the Company's financial position and operations results. Moreover, in the event of implementation these expansion plans and the achievement of the desired results is not certain, as it is linked to future expectations. Thus, in the event that the desired results are not fully or partially achieved, the Company's business, financial position, operations' results, cash flows and future expectations will be negatively affected.

2.1.17 Risks Related to Delays in Implementing Future Projects

By increasing its capital through the issuance of Rights shares, subject of this Prospectus, the Company intends to secure necessary funding to implement future plans and projects, expand various activities, raise the volume of local investments, adapt to the growth plan amidst the Saudi economic boom and prosperity within the vision of 2030, acquire profitable assets, companies and Revenue generating assets or invest in them (For more details, please refer to Section (6) "Use of Proceeds" of this Prospectus).

Although the Company has prepared an action plan to implement these projects according to a specific schedule, there are several factors that could not be controlled by it and which, if occurred, may lead to a delay or a temporary or permanent suspension in the implementation of projects. These factors include, for example: obtaining Government approvals and licenses, reaching agreements with other parties, availability of work force and other factors leading to temporary or permanent cease of work. Thus, it influences the possibility of achieving the desired benefit from these projects as planned, which will affect negatively the Company's operations and its financial position.

2.1.18 Risks Related to Future Projects' Capital Costs Exceeding the Expected Value of Financing

Although the Company has assessed the overall level of project risk relative to normal business operations by conducting studies to evaluate potential capital budget projects, it is possible, due to circumstances beyond the Company's control, that those costs exceed the expected estimated value, which may affect the projects' financial feasibility, and the Company will be forced to search for new financing resources to cover this increase. Therefore, the profitability of these projects will be negatively affected, which will adversely influence the Company's profitability and financial position. If the Company's future projects are not achieved according to the expected results and profits, or incur losses, then the Company's operations and financial position will be substantially affected.

2.1.19 Risks Related to Reliance on Major Human Resources

The Company aims to attract and employ qualified people to ensure the efficiency and quality of its business through effective management and proper operation. The Company's success depends on its ability to attract and retain qualified employees. It may however resort to employees' layoffs to cut payroll costs and reduce expenses, as happened previously.

Therefore, the Company's loss of qualified human resources or inability to retain them will negatively affect its business and profitability, notably if it is obliged to pay higher salaries and benefits to retain them.

The total number of employees as of the date of this Prospectus is equivalent to (25), and they are distributed as follows: (5) Saudis and (20) non-Saudis (of whom there are (4) expatriates and (16) migrant workers). The percentage of Saudi employees whose number is (5) represents approximately (20%) of the total number of the Company's employees.

(For more information about the number of employees at BATIC and its subsidiaries, please refer to sub-paragraph No. (3.12) "Employees and Saudization" of Section (3) "Company Overview and Nature of Business").

Among the factors that may affect the Company's ability to retain qualified non-Saudi employees is the imposition by the Saudi government of additional fees for each non-Saudi employee and financial fees for the dependents and bodyguards of non-Saudi employees (For more information, kindly refer to sub-paragraph (2.1.23) "Risks Related to Saudization" of Section (2) "Risk Factors").

2.1.20 Risks Related to Employees Errors or Misconduct

The Company is required to adopt an internal work regulation according to the form prepared by the Ministry of Human Resources and Social Development. The Company may include in its internal work regulations additional terms and provisions that do not contradict the provisions of the Labor Law, its implementing regulations and ministerial resolutions thereto. The Company must announce the aforementioned internal work regulations, as well as any amendment thereto, in a public place in its premises or via any other method that is clear to all its employees.

The Company has laid down its internal work regulations and approved by the Ministry of Human Resources and Social Development under the number (607932) dated 03/12/1440H (corresponding to 27/11/2019G) and of which all employees and affiliates to the Company have been informed upon starting in the Company. Any amendments thereto are sent via email and placed in the employees' offices. However, the Company cannot guarantee to avoid employees' misconduct or mistakes such as fraud, intentional or unintentional errors, embezzlement, theft, forgery, misuse of property and unauthorized acting on behalf of the Company. Consequently, these actions may entail consequences and responsibilities for the Company, statutory penalties, or financial liability. Therefore, the Company cannot guarantee that the misconduct of its employees will not materially harm its financial position or its operations results.

2.1.21 Risks Related to Reliance on Non-Saudi Employees

The total number of the Company's employees is equivalent to (25), and they are distributed as follows: (5) Saudis and (20) non-Saudis (of whom there are (4) expatriates and (16) migrant workers). The percentage of Saudi employees whose number is (5) represents approximately (20%) of the total employees' number, and the percentage of non-Saudi employees in leadership positions is (10%). Each of the subsidiaries of AlShifa Technology Company Ltd. and the Arabian Company for Security and Safety Services - AMNCO (in the branches of security guards and money transfer) are in the platinum rating scale. The Saudi Transport and Investment - Mubarrad was rated on average green rating scale and the Arabian Company for Security and Safety Services and its main branch on high green rating scale. Therefore, if the Company and its subsidiaries were unable to maintain the non - Saudi employees, find others with the same skills and experience, or if a change has occurred in the policies and regulations of the Ministry of Human Resources and Social Development that resulted in an increase in the proportion of the Saudization sector, the results of the Company's business and financial position will be fundamentally and adversely influenced. For more information on non-Saudi employees, kindly refer to sub-paragraph (3.12) "Employees and Saudization" of Section No. (3) "Company Overview and Nature of Business" of this Prospectus.

2.1.22 Risks Related to Government Fees Applicable for Non-Saudi Employees

During the year 2016G, the Saudi government approved a number of Decree resolutions aimed at carrying out comprehensive reforms of the labor market in the Kingdom of Saudi Arabia, including the approval of imposing additional fees for each non-Saudi employee working for a Saudi entity as of 01/01/2018G at SAR (400) per month in 2018G, to more than SAR (600) per month in 2019G and then to SAR (800) per month in 2020G. This will lead to an increase in the Company's costs in general, which will adversely affect its business, financial performance and results of operations.

Additionally, the government imposed fees in exchange for money on non-Saudi employees' dependents and escorts as of 01/07/2017G, at the rate of SAR (100) per month for each dependent in 2017G, and it increases annually to reach SAR (400) per month for each dependent in 2020G. Thus, the financial fees that the non-Saudi employee will bear on behalf of his families will result in an increase in his cost of living, which will encourage him to work in other countries where the cost of living is lower. In this case, the Company will face some difficulties in maintaining non-Saudi employees, and will hence be obliged to directly or indirectly bear all or part of the cost of non-Saudi employees' fees, by raising their wages. Consequently, the Company's costs will increase, and its results of its operations will be adversely affected.

2.1.23 Risks Related to Saudization

Compliance with the Saudization policy is considered to be a systematic requirement issued by the Ministry of Human Resources and Social development and implemented by the Ministry of Labor and Social Development in KSA, whereby Saudi companies and enterprises are required to fill up their workforce with Saudi nationals up to certain levels and maintain them according to Nitaqat System which is a program of Saudization, increasing the employment of Saudi nationals in the private sector. The program classifies the country's private firms into six categories: Platinum, High Green, Mid Green, Low Green, Yellow and Red. Platinum is the highest percentage category followed by High Green and so on, the yellow and red categories being the lowest. According to the Ministry of Human Resources and Social Development, Saudization rate reached approximately (20%) which is classified in the mid green category.

As for Saudization in BATIC's subsidiaries, the following table shows their classification as of the date of this Prospectus:

Table No. (3): Classification of the Company and its subsidiaries according to Nitaqat System

Company	Number of Saudi Employees	Saudization Rate	Category
Batic Real Estate	0	0.00%	Not Applicable
Saudi Transport and Investment Company – Mubarrad	71	17.93%	Platinum (The Company's file is in the opening process in the Labor Office of the Ministry of Human Resources and Social Development)
AlShifa Limited Company	2	100.0%	
Arabian Company for Security and Safety Services – AMNCO	Head Office 870	Head Office 46.19%	Head Office High Green
	Security Guards and Money Transport 2345	Security Guards and Money Transport 100.00%	Security Guards and Money Transport Platinum
	Cleaning Services 15	Cleaning Services 76.47%	Cleaning Services Platinum
	Smart Cities Solutions Company	24	Platinum
AMNCO Facility Management	68		Mid Green

Source: The Company.

The Company and its subsidiaries are currently committed to the required Saudization rates, however if they fail to maintain them, or if the Ministry of Human Resources and Social Development December decides to impose more stringent Saudization policies in the future, yet the Company fails to comply with these requirements, then the Company will incur penalties imposed by governmental agencies, such as suspending work visa applications and transferring sponsorship to non-Saudi workers, which will have a fundamental negative impact on the Company's business, financial position, results of operations and prospects.

2.1.24 Risks Related to the Adequacy of Insurance Coverage

BATIC Investment and Business Logistics Company and its subsidiaries possesses a number of insurance policies to ward off some of the risks and preserve its assets and property.

For example, but not limited to: the health coverage, the property insurance against all risks, the breach of trust insurance and other types of insurance position (for more information about insurance coverage, kindly refer to sub-paragraph (9.12) "Insurance" from section (9) "Legal information" of this Prospectus.

Despite the keenness of Batic to ensure that the Group enjoys sufficient and multiple insurance coverage, some of its companies have not concluded any insurance policies to cover the risks that the company's assets or properties may be exposed to in the course of carrying out its activities, (such as vehicle insurance where they are used, property insurance against fire accidents and some natural catastrophes, in addition to all risks related to assets and property). These accidents, if they occur, may result in serious damages that will lead to losses on the Company's operations, and therefore due to the lack of appropriate insurance coverage, the Company may face financial problems incurring these material losses. This will have a fundamental negative impact on the Company's business, financial position, results of operations and prospects.

The aforementioned concluded insurance contracts include deductible amounts and factors excluded from the insurance coverage, in addition to other restrictions related to the insurance coverage to be negotiated with insurance companies. These contracts hugely rely on the Company's ability to obtain the compensation due to it by the relevant insurance company according to its ability to meet the compensation's value. Therefore, the insurance may not cover all the losses incurred by the Company, and no guarantee is given that the Company will not incur losses that exceed the limits of the insurance policies, or that will be outside the scope of coverage contained in these policies. Some cases may arise where the requested value may be greater than the insurance amount, the claim submitted by the Company to the relevant insurance company may be dismissed, or the claim and compensation period may be prolonged. All these factors will have a fundamental negative impact on the Company's business, financial position, results of operations and prospects.

2.1.25 Risks of Litigation

The Company and its subsidiaries are subject to lawsuits and complaints due to the nature of their activities and transactions with third parties in the framework of the business sectors in which they operate. These lawsuits include - for example but not limited to – Zakat, tax and labor issues and other damages resulting from negligence or fraud committed by persons or institutions in a manner that is outside the control of the Company. The Company and its subsidiaries are liable to take legal action against them or to be a plaintiff. Therefore, the Company and its subsidiaries are not able to expect the exact litigation or judicial proceedings cost, their final result or the compensation and sanctions that will eventually arise. Thus, any negative results of such litigations may negatively affect the Group and the results of its operations. Regardless of the outcome of these litigations, the Company and / or its subsidiaries will incur high costs, so the Group 's business, financial position, results of operations and future expectations will be substantially affected.

As of the date of this Prospectus, there are a number of claims filed against BATIC before the Labor Court pending or appealed before the Appeal Court after objections to the rendered judgement (For more information kindly refer to sub-paragraph (9.10) "Litigation" from Section No. (9) "Legal information" of this Prospectus). The total amounts of penalties imposed on the Company are estimated at SAR (1,049,852). There are also lawsuits filed by BATIC in its capacity as a plaintiff before the General Court in Riyadh to claim the amount of SAR (1,452,850). If judgements are rendered imposing penalties on BATIC and its subsidiaries the Group's business, financial position and future prospect will be substantially affected.

2.1.26 Risks Related to Intangible Assets and Goodwill

Goodwill represents the increase of the cost of an acquisition over the fair value of the Company's share of the net identifiable assets of the acquired subsidiary at the date of acquisition. The Group annually tests the drop in the value of goodwill arising from the acquisition of Batic Investment and Business Logistical Company and the Arabian Company for Security Services and Safety (AMNCO) amounting to SAR (70,067,220) on December 31, 2020G, and the goodwill arising from the acquisition of AMNCO facility Management Co. Ltd. (previously Hikma for Commercial and Industrial Investment) by the Arabian Company for Security Services and Safety (AMNCO) estimated at SAR (8,178,489) on December 31, 2020G. The Group considered the prementioned companies (being 1- its subsidiary (Arabian Company for Security Services and Safety (AMNCO) and 2- AMNCO Facility Management Co. LLC a subsidiary of AMNCO) as cash-generating units and allocated the entire goodwill of the cash-generating units according to the International Accounting Standard (26).

So, this goodwill is subject, as usual and required, to the annual impairment test in the goodwill value, which is a difficult matter because of the complex accounting estimates and requirements and important judgments required in determining the assumptions that should be used to estimate the recoverable amount. During year 2020G the company has conducted such exercise and the result shows that no reduction of the value of the goodwill. In case of any change or substantial reduction in the future estimates or assumptions for the two acquired companies' results, their financial position and cash flows, in addition to the estimates of future growth rates and final value, the weighted average cost of capital (WACC) (discount rate), a reduction in the value of goodwill may arise which may have an impact on the Company's profitability, results of operations and future prospects.

2.1.27 Risks Related to Trademarks

The Company registered (2) trademarks in the Kingdom of Saudi Arabia at the Ministry of Commerce (Trademarks Register): the word BATIC in Arabic and Latin letters overlapping blue gradient under category (26). It relies on its trademark in the business it conducts in the Kingdom and on its ability to continue to use it and protect its rights with respect to that trademark against any illegal use (without a license from the Company) by third parties. The trademark, that has a distinctive geometrical form in a color combination of brown and purple, below it the word Mubarrad is written in Latin and Arabic in black under category (39), is registered with the Ministry of Commerce.

The Arabian Company for Security and Safety Services (AMNCO) registered (1) trademark with the Ministry of Commerce (Trademark Register): the word AMNCO in Arabic and Latin letters in red and black colors under category (45) (For more information, kindly refer to sub-paragraph No. (9.11) of "Trademarks" Section (9) "Legal information" of this Prospectus.

The other subsidiaries (AlShifa Technology Co. Ltd. and BATIC Real Estate Company) have not registered their trademarks; therefore, their logo has not been granted the necessary legal protection in accordance with the Trademark System, which will expose their associated interests to risks and have a negative and material impact on the Group's business, financial position and the results of its operations. It should be noted that the Company and its subsidiaries have to engage in costly legal proceedings to defend its trademark. This may cause substantial damage to the trademark's reputation, which will in turn have a negative impact on the Company's ability to attract new customers, leading to a December line in revenues. Hence, the Company's business, financial position, results of operations and future prospects will be fundamentally and negatively influenced.

The ability of the Company to market its products and services, and develop its business depends on the use of its name, logo and trademark, which supports its products and its competitive position, and gives it a clear distinction in the market among customers.

The Company has and its subsidiary (The Arabian Company for Security and Safety Services AMNCO) have both registered their trademarks with the competent authorities. Thus, any breach of property rights or unlawful use of the companies' trademarks will influence their reputation and lead to lawsuits and claims before the competent courts in order to protect these rights. It is an expensive process that requires a great deal of time and effort on the part of the administration. Consequently, if the Company fails to effectively protect its trademark when renewing the registration certificate or tracing similar marks, and if the other subsidiaries do not register their trademarks with the Ministry, the Company's trademark value, business, financial position, results of operations and future prospect will be substantially and negatively affected.

2.1.28 Risks Related to the Imposition of Fines Over Labor Law Violations

The Labor Law and Regulations stipulates that the employment contract with any employee and worker must be executed in duplicate, with one copy per party. According to the Ministry of Human Resources and Social Development work contracts shall be electronically documented by uploading and updating the information related to the workers' work contracts and giving workers the opportunity to verify the validity of their contract data through the General Organization for Social Insurance's e-service portal (GOSI) pursuant to the Ministerial Resolution No. (156309) and dated 18/08/1440H (corresponding to 23/04/2019G). It should be noted that all contracts concluded after the date of this resolution must be directly documented. As for those concluded prior to that date, the contracts' documentation is mandatory and during stages that end in Q4 2020G. It should also be noted that the Company that the percentage of compliance by the Company is 11% as 1 contract has been registered and there are still 8 contracts which are not registered. The Company's failure to comply with these regulations may be considered a violation of the Labor Law, hence it will be subject to a fine of SAR (1,000) according to the number of violating workers and the table of violations and penalties issued under Ministerial Resolution No. (178743) dated 27/09/1440H (corresponding to 01/06/2019G), which will negatively affect the Company's business and results of operations.

2.1.29 Risks Related to the Application of the Companies Law

The Company complied with the Companies Law issued by Royal Decree No. (M/3) dated (28/01/1437H) corresponding to 10/11/2015G (and published in the Official Saudi Gazette Umm Al-Qura) on 22/01/1437H (corresponding to 04/12/2015G), which came into effect on 27/01/1437H (corresponding to 04/05/2016G) and amended by Royal Decree No. (M/79) dated 25/07/1439 H (corresponding to 11/04/2018G). It also adheres to Article (224) of the Companies Law in terms of bylaws' amendments. The latest version of the bylaws has been released pursuant to EGA Resolution dated on 17/09/1440H (corresponding to 22/05/2019G). It was later approved by the Ministry of Commerce on 15/10/1440H (corresponding to 18/06/2019G).

The Companies Law imposes some statutory requirements that the Company must abide by. This will require it to take procedures and measures so as to comply with such requirements, which is time-consuming and may affect its business strategy. The current Companies Law also imposed more stringent penalties for violating its mandatory regulations. According to the Companies Law (Article 213), they may reach SAR (500,000), as stipulated in Article (214).

As of the date of this Prospectus, the Company is not in compliance with Article 56 (d) of the Regulatory Rules and Procedures issued pursuant to the Companies Law relating to Listed Joint Stock Companies which prohibits any member of the Board to vote on the items of delegation and the revocation (in the ordinary general assembly meeting pertaining to the delegation granted by the shareholders to the Board of Directors in relation Article 71 of the Companies Law which regulates the business and contracts that are executed for the Company's account and in which a Board member has direct or indirect interest). The Company will be subject to penalties as stipulated in the Companies Law.

The Company will be subject to such penalties in the event of non-compliance with those regulations and provisions, which would adversely and materially affect the Company's business, financial position and results of its operations.

2.1.30 Risks Related to Non-compliance with Corporate Governance Regulations

The Company has a Corporate Governance that was prepared in accordance with the requirements of the Corporate Governance Regulations issued by the Capital Market Authority (CMA), pursuant to Resolution No. (8-16-2017) dated 16/05/1438H (corresponding to 13/02/2017G), by virtue of the Companies Law issued by Royal Decree No. M/ 3 dated 28/01/1437H, amended pursuant to the CMA Resolution No. (5.3-2019) and dated 15/09/1440H (corresponding to 20/05/2019G). It was last modified by the Authority's Board Resolution No. (1-7 -2021) dated 01/06/1442H (corresponding to 14/01/2021G).

The amended regulation includes mandatory clauses and more detailed provisions than those mentioned in the previous regulation. It contains mandatory clauses on the formation of the Board, its committees, their competencies, responsibilities, meetings, their members' rights and duties, and the provisions that address conflict of interest cases between the Company and its members, to ensure a clear relationship between on one hand shareholders and the Board, and on the other hand the Board and the executive management team. Moreover, it accorded a great deal of importance to shareholders' rights, such as the right to fair treatment without discrimination, and to transparently obtain information in order to exercise statutory rights to the fullest.

It should be noted that the Company is committed to all the mandatory articles in the Corporate Governance Regulations issued by the Authority, (for more details about Corporate Governance and the extent of the Company's commitment, kindly refer to sub-paragraph (9.4.5) "The Continuing Obligations as Per the Requirements of the CMA" Section No. (9) "Legal information").

The Company's failure to implement the Corporate Governance Regulations issued by the Authority may expose it to fines, which may have a negative and material impact on the its business, results of operations, financial position and future prospects.

2.2 Risks Related to the Market and Sector

2.2.1 Risks Related to Regulatory Rules and Standards Governing the Group's Activity

The Company and its subsidiaries carry out activities in different sectors, according to specialized licenses obtained from competent authorities. Since every activity is governed by laws and regulations, in addition to required licenses and permits, the Group is subject to the following laws and regulations because it conducts its business activities under licenses issued by authorized and competent authorities (for more details, kindly refer to paragraph (9.2) "Licenses and Permits Obtained by the Company and its Subsidiaries" from Section No. (9) "Legal information" of this Prospectus).

- Regulations governing the transport of goods, shipping brokers, freight and cargo agents and truck rental through the Saudi Transport and Investment Company – Mubarrad: This regulation issued by the Minister of Transport and Logistics Services No. (1-41-122) dated 07/05/1441H (corresponding to 02/01/2020G) and recently amended by virtue of the Minister of Transport and Logistics Resolution No. (01/134) dated 04/09/1442H (corresponding to 16/04/2021G), aims to regulate the sector of goods transportation by trucks (road freight transport), enhance personnel productivity and performance, increase the trucks operational efficiency, upgrade road safety, preserve the environment, improve competitiveness in order to provide the best services, and organize the contractual relation between all the transport process parties. This regulation sets the terms and conditions for obtaining the required licenses in the transport sector, especially goods transportation for the facilities operating under the Saudi Transport and Investment Company – Mubarrad. This regulation specifies the conditions to obtain, renew and waive the mentioned license. It also sets general terms and conditions related to: the driver, the training, the truck, the operation, the lease, and the transport document and contract. Chapter eleven identifies all violations and penalties. This regulation was also attached to the "Violations and Penalties" table, showing the penalty imposed for each violation, which amounted to ninety-seven described violations, and the penalties that ranged from SAR (500) to SAR (5,000).
- The bylaw governing the transfer of cash, precious metals and valuable documents through the Arabian Security and Safety Services Company – AMNCO: This bylaw, issued by Royal Decree No. (M/81) dated 18/10/1428H (corresponding to 30/10/2007G) and its executive regulations, sets the regulatory frameworks for obtaining licenses to engage in the activity of transporting money, precious metals, valuable documents in addition to the conditions that must be met by the managers of institutions and companies operating in this sector, and some specific conditions for workers in the vehicle crew who take part in this activity. Article 15 of this bylaw stipulates that anyone who violates this bylaw's provisions shall be punished with one or more of the following penalties: (1) Warning. (2) A financial fine that does not exceed SAR (100). (3) The License's Temporary Suspension. (4) The License's Revocation. The person incurring a penalty without advance notice may file a grievance before the Board of Grievances.
- Private Civil Security System through the Arabian Company for Security and Safety Services – AMNCO: The bylaw, issued by Royal Decree No. (M/24) and dated 08/07/1426H (corresponding to 13/08/2005G) and its executive regulations issued by Ministerial Resolution No. (170/H/D) dated 05/05/1427H (corresponding to 01/06/2006G), aims to regulate the field of security guard in terms of determining the conditions that must be met in individual institutions and companies that are licensed to provide private civil security guards services. This bylaw also imposes on the licensed institution or Company, operating in the field of civil security guard, continuous obligations, so that all security guards shall be trained, qualified and be required to wear a uniform. Moreover, these institutions, companies and guards are subject for inspection from security authorities to ensure compliance with all regulations. Article (12) of this bylaw stipulates that anyone who violates the bylaw's provisions shall incur one or more of the following penalties: (1) Warning. (2) Temporary closure of the Company or institution's head office for a period not exceeding one month. (3) A fine not exceeding SAR (50,000), and in the case of repetition the fine shall be doubled. (4) Cancellation of the license, and it shall not be revoked except by a ruling issued by the Board of Grievances.
- A regulation for the Control of Medical Devices and Products through the Subsidiary Company, AlShifa Technology Co. Ltd: This regulation was issued by the Food and Drug Authority Board of Directors Resolution No. (1-8-1429) dated 29/12/1429H (corresponding to 27/12/2008G), and amended by the General Authority for Food and Drug Board Resolution No. (4-16-1439) dated 09/04/1439H (corresponding to 27/12/2017G). It aims to protect public health in the Kingdom through the implementation of procedures and requirements that guarantee the patient's health protection and safety. Users of medical devices and products and other parties, throughout the stages of their manufacture, marketing and use during their expected service life, also benefit from this regulation which adopts the necessary measures and determine the requisite responsibilities to ensure that medical devices and products offered for marketing and/or use in KSA comply with all its requirements. Besides, this regulation applies to the following persons and products: (1) Manufacturers and their legal representatives, importers and distributors (2) All medical devices, products and their accessories that will be offered for circulation in the Kingdom. (3) Contact lenses and surgical laser devices used for non-medical cosmetic purposes and their accessories. It defines the mechanism for supplying the Kingdom's markets with medical devices and products, in addition to the requirements for registration in the National Register of Medical Devices and Products at the Authority. Furthermore, it specifies the conditions for the applicant to obtain a license for facilities of medical devices and products, and those related to the marketing authorization. Article 42 of this regulation stipulates the Authority's right to take appropriate measures when any provision of this regulation is violated, including, for example: (1) Temporary suspension of the license (2) Revocation of the license (3) Market withdrawal (4) Revocation of marketing authorization.
- Accordingly, the Group, through its subsidiaries, shall be subject to penalties if a violation of the licenses' laws, regulations and terms occurs. Moreover, any of the subsidiaries bearing a material penalty and/ or a penalty that leads to inability to temporarily or permanently practice its business activities will have a negative impact on the Company's performance. Thus, the Company as a whole, the results of its operations and future prospects will be adversely influenced.

2.2.2 Risks Related to the Economic Performance of the Kingdom

The expected future performance of the Company depends on a number of factors related to the economic conditions in the Kingdom in general, including inflation's factors and causes, the Gross Domestic Product (GDP) growth, and average per capita Revenue. The Kingdom's macro and micro economy mainly depends on oil and oil industries, which still control a large share of the GDP. Therefore, any unfavorable fluctuations in oil prices will have a direct and fundamental impact on the plans and growth of the Kingdom's economy in general, and on the government spending rates. As a result, the Company's financial performance, given its work within the Kingdom's economic system and its impact on government spending rates, will be substantially affected.

2.2.3 Risks Related to the Increase in Energy and Water Costs

The Council of Ministers issued Resolution No. (95) dated 03/17/1437H (corresponding to December 28, 2015G) to raise the prices of energy products, the tariff for electricity consumption, the price of water and sewage services for the residential, commercial and industrial sectors, as part of the policies related to rationalizing energy consumption and reducing government's subsidies in the Kingdom. The Ministry of Energy also issued a statement on 03/24/1439H (corresponding to 12/12/2017G) regarding the financial balance program's plan to correct energy products's costs, starting on 04/14/1439H (corresponding to 01/01/2018G). The Company and its subsidiaries' operations depend on the availability of energy and electricity products; therefore, any interruption or reduction in the supply of these products or any increase in their costs would significantly affect the Company's profitability, results of operations and future prospects.

2.2.4 Risks Related to the Saudi Economy's Impact on the Company's Operations

The Group's operations and assets are centered and located in KSA, which is considered to be an emerging market. Although the Kingdom continues to implement economic diversification to increase the contributions of non-oil sectors, the oil sector is still the number one source of Revenue to implement and develop economic plans. Accordingly, any Decrease in oil prices may lead to an economic slowdown or significantly reduce government spending, which will negatively affect the Saudi economy as a whole and all sectors and businesses operating in the Kingdom. Consequently, the Company's business, results of operations and financial position will be adversely influenced.

2.2.5 Risks Related to Political and Economic Instability in the Region

Some countries in the Middle East region are suffering from economic, political or security instability at the present time. There are no guarantees that these economic, political and security conditions in those countries or any other countries will stabilize. These conditions will have a negative impact on the Company's business, the results of operations, financial position and future prospects.

2.2.6 Risks Related to Growth Opportunities

The Company's ability to develop its business depends on the competition in the market, the availability of material and human resources and the capacity of its management team, bylaws and others. There is no guarantee that a continuous growth rate will be maintained, as the Company may face difficulties in expanding its activity, developing its market share and increasing its sales. Therefore, if the Company is not able to positively manage its growth, its ability to develop its activity, increase or maintain its market share, increase the profits of its business and improve the returns to its shareholders, its business, results of operations and financial position will be substantially affected.

2.2.7 Risks Related to Competition

Competition usually occurs when other companies operate in the Company's business sector of and provide similar or competing services. The transportation sector is one of the highly competitive sectors. Some of the Company's competitors have large financial and non-financial resources, especially local companies that have large market shares and gain the confidence of local customers.

Therefore, there is no guarantee that the Company will be highly and strongly competitive while conducting its business. Moreover, any change in the competitive environment may lead to a change in costs, a Decrease in profit margins or a loss of market share, which will have an adverse effect on the Company's business, financial position, results of operations, and future prospects.

2.2.8 Risks Related to Natural Disasters

In the event of the occurrence of natural disasters that cannot be controlled by the Company, such as floods, earthquakes, storms, etc., and that may damage the Company's facilities, the Company will incur heavy costs. Natural disasters may also affect the Company's ability to continue its operations and thus reduce its Revenue from those operations. Therefore, if such disasters occur and damage the Company's facilities, the Company's business, results of operations and financial position will be negatively and substantially affected.

2.2.9 Risks Related to Changes in Relevant Laws and Regulations

Like other companies operating in the Kingdom of Saudi Arabia, the Company and its subsidiaries are subject to a number of regulations and laws such as the companies' law, the Labor law, the municipal and Civil Defense laws, the CMA laws and regulations and others, which may change or get updated by the competent authorities. Moreover, new laws and regulations may be issued by the relevant official authorities from time to time. Accordingly, the business of the Company and its subsidiaries may be adversely affected if any substantial change in any of the related systems or the development of additional systems that have a direct impact on the performance and profitability of the Company occurred.

Likewise, the Company, as a public shareholding Company, may be subject to penalties and fines if it does not fulfil the requirements of the CMA and the rules of offering securities and continuing obligations issued by the CMA and the listing rules issued by Tadawul, in terms of not disclosing some of the substantial events according to Article 62, in addition to the financial reports required on time according to Articles 64 and 65 of the rules on the offer of securities and continuing obligations or in case of delaying the time of disclosure, which will have a negative and substantial impact on the business, results of operations, financial position and future prospects of the Company.

Moreover, the subparagraph (b) of Article (54) of the rules on the offer of securities and continuing obligations also obligates public joint stock companies to disclose to the public in the event of a difference of (5%) or more between the actual use of proceeds of the issue of rights shares as set out in the relevant Prospectus as soon as becoming aware of it.

Sub-paragraph (6.2) “Use of Subtraction Proceeds” from Section (6) “Use of Proceeds”, explains how the Company uses the offering proceeds which is the subject of this Prospectus. In the event that the Company’s management does not comply with this usage or if any deviation occurs, the Company will be obliged to directly disclose that on Tadawul’s website. Following this event, the Company must also present that at the first meeting of the General Shareholders Assembly in order to approve the amendment or deviation that occurred in the method of using the proceeds disclosed in this Prospectus. In the event of failure to comply with the procedures, legal risks will be entailed on the Company if one of the shareholders protested against obtaining the approval of the General Assembly, which will negatively affect the Company’s operations and financial position.

2.2.10 Risks Related to Value-added Tax (VAT)

On 02/05/1438H, the Saudi Arabian Council of Ministers December ided to approve the unified VAT agreement for the GCC countries, which came into force on 01/01/2018G, as a new tax amounting to 5% of the sale price to be added to the rest of the taxes and other fees on specific sectors in the Kingdom, including the sectors in which the Company operates. On 17/10/1441H corresponding to 09/06/2020G, the Board of Directors of the General Authority of Zakat and Tax issued DecisionNo (2-3-20) stipulating the increase of VAT rate to 15% of the sales price starting from 01/07/2020G. The Company and its subsidiaries impose VAT in return of the services provided to customers as specified in the law.

2.2.11 Risks Related to Imposing New Duties or Taxes

The Company and its subsidiaries are currently subject to several types of taxes other than Zakat and VAT (15%). If new corporate taxes or fees other than those currently applied are imposed, the net profits of the Company will be directly affected, thus impacting its business, operations results, financial position and future prospects.

2.3 Risks Related to Shares

2.3.1 Risks Related to Potential Fluctuations in Share Price

The Company’s share price may be subject to considerable fluctuations and may not be stable due to several factors including, but not limited to: stock market conditions related to shares, any regulatory changes in the sector in which the Company operates, deterioration of the Company’s business results, inability to execute future plans, the entry of new competitors and speculation on the Company’s operations. It should be noted that the market price of the Company’s shares during the period of Rights issue offering is not an indication of its market price after the offering. Furthermore, there is no guarantee that the market price of the Company’s shares, once listed on Tadawul, will not be lower than the Offer Price, which negatively affect the investors.

2.3.2 Risks Related to Potential Fluctuation in Rights Issue

The market price of the Rights Issue may be subject to considerable fluctuations due to the change in Tadawul trends in respect of the Company’s shares. Such fluctuations may be considerable because of the difference between the daily fluctuation percentage allowed to the Rights compared to the daily fluctuation percentage allowed to Company’s shares.

The trading price of the Rights Issue depends on the Company’s current share price and the market perception of the Rights’ fair price after subscription. These factors (in addition to the abovementioned factors under the “Potential Fluctuations in the Share Price”) may also adversely affect the trading price of the Rights Issue.

2.3.3 Risks Related to Profitability or Sale of Rights Issue

There is no guarantee of the share profitability when it is traded at a higher price. Moreover, there is no guarantee that there will be sufficient demand in the market to exercise the Rights Issue or to receive compensation from the Company for not exercising the Rights Issue.

2.3.4 Risks of Lack of Demand for Rights Issue and Company Shares

There is no guarantee that there will be sufficient demand for the Rights during the trading period in order to enable the holders of such Rights (whether a Registered Shareholder or a new investor) to sell the Rights and make a profit from them. There is also no guarantee that there will be sufficient demand for Rump Shares by the Institutional Investors during the Rump Offering. If Institutional Investors do not subscribe for the Rump Shares at a price higher than the Offering Price, there will not be a sufficient compensation amount to be distributed to holders of exercised Rights and holders of the Fractional Shares. Likewise, if Institutional Investors do not subscribe for Rump shares at a price higher than the Offering Price or if they do not subscribe at all, there will not be a sufficient compensation amount to be distributed to holders of exercised Rights and holders of the Fractional Shares.

Moreover, there is no guarantee that there will be sufficient market demand for the New Shares once they are traded on the Exchange. This will negatively affect the share price, the Company and shareholders’ profitability.

2.3.5 Risks Related to Speculation in Rights Issue

Speculation in Rights Issue is subject to risks that could cause substantial losses. The range of permissible change in the Rights Issue tradable prices (“Right Indicative Value”) exceeds the percentage that the share is subject to. There is a direct relationship between the Company’s share price and the Right’s indicative value. Accordingly, the daily price limits for the tradable right are affected by the daily price limits for share trading.

In the event that the speculator does not sell the existing Rights before the end of the trading period, he will be forced to use these rights to subscribe to new shares, and will be thus exposed to losses.

2.3.6 Risks Related to Ownership Percentage December line

If the holders of the Rights do not fully exercise their Rights with respect to the acquisition of the New Shares in the Offering, their shareholding percentage and voting rights will be reduced. In case the registered holder of the Rights wishes to sell its Rights during the trading period, there can be no assurance that returns will be sufficient to fully compensate for the drop of its shareholding percentage in the Company as a result of its capital increase.

2.3.7 Risks Related to not Exercising Subscription to Rights Issue in a Timely Manner

The subscription phase starts on **..../..../....H** (corresponding to **..../..../....G**) and ends on **..../..../....H** (corresponding to **..../..../....G**). Eligible shareholders and their representative financial intermediaries shall act to ensure that all necessary instructions are fulfilled before the subscription period expires. The subscription application may be rejected if Rights' holders and financial intermediaries are unable to follow the necessary procedures (Kindly refer to Section (12) "Shares Information & Offering Terms and Conditions").

If eligible shareholders are not able to properly exercise their subscription rights by the end of the subscription period according to the Rights they hold, there can be no assurance that a compensation amount will be distributed to those who neither subscribed nor exercised subscription properly.

2.3.8 Risks Related to Dividend Distribution to Shareholders

Dividend distribution depends on several factors, including future profits, financial position and cash flows, working capital requirements, capital expenditures, distributable reserves, available credit limits and investment requirements of the Company and the general economic situation, in addition to several other factors December ided by the Board of Directors. Moreover, the capital increase - if the Company is not able to achieve greater profits in the future – will lead to a Decrease in profitability of shares in the future; so, the profits of the Company will be distributed to a greater number of shares as a result of the increase in the Company's capital.

The Company does not guarantee the payment of any future profit to shareholders, nor does it provide any guarantee regarding the amount that will be paid in any year. Furthermore, dividend is subject to certain conditions and controls stipulated in the Company's By-laws.

2.3.9 Risks Related to Selling a Large Number of Shares

Selling a large number of the Company's shares in the financial market after the subscription or anticipating such process will negatively affect the prices of the Company shares in the financial market in general and the Company's shares price in particular.

2.3.10 Risks related to the Issuance of New Shares

In the event the Company December ides to issue new shares in the future (i.e rights issue for supporting the Company's projects or increasing its capital to acquire a Company or an asset) after obtaining the required approvals, the ownership of the shares will December line proportionally, as well as the voting rights and dividends, which may affect negatively the market price of the share.

2.3.11 Risks Related to the Company's Data-driven Future

The future results and performance information of the Company cannot be actually predicted, as the achievements and ability of the Company to develop are determined by actual results. The inaccuracy of information and results is one of the risks that the shareholder must know in order not to affect his investment December ision.

2.3.12 Risks Related to a Decrease in the Demand for Rights Issue and Company Shares

There is no guarantee that there will be sufficient demand for the Rights Issue during the Trading Period to enable the Rights Issue holder (whether it is a Registered Shareholder or a new investor) to sell Rights and make a profit, or to sell the Rights in general. Moreover, there is no guarantee that there will be sufficient demand for the Company's shares by institutional investors during the Rump Offering Period. If institutional investors do not submit high purchase offers for the rump shares, there may not be insufficient compensation to be distributed to Rights Issue holders who did not exercise their right to subscribe. Furthermore, there is no guarantee that there will be sufficient demand in the market for the shares obtained by a subscriber either through the exercise of the Rights Issue, the Rump Offering or the open market.

5.3 Foundations of Preparation

(a) Commitment Statement

The consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards applicable in the KSA and other standards and issuances approved by the Saudi Organization for Auditors and Accountants.

(b) Measurement Basis

The consolidated financial statements have been prepared on a historical cost basis, except for recognition of the defined benefit obligation accruals at the present value of the future obligations using the projected unit credit method, and investments at fair value through profit or loss.

(c) Basis of Consolidation of Financial Statements

1- Group Structure

The consolidated financial statements include the parent Company and its subsidiaries' financial statements (referred to as the "Group") as follows:

Subsidiaries	Incorporation Country	Investment Rate
The Arabian Company for Security and Safety Services - AMNCO	KSA	94.88%
The Saudi Transport and Investment Company – Mubarrad	KSA	100%
Batic Real Estate Company	KSA	100%
AlShifa Technology Company*	KSA	60%

* Batic Investment Company and Business Logistics announced on 14 Ramadan 1442H (April 26, 2021G) announced the acquisition of additional shares representing 40% of the capital of its subsidiary (AlShifa Technology Co. Ltd.) to be fully owned by Batic at a 100% rate.

- **The Arabian Company for Security and Safety Services - AMNCO**

It is a limited liability Company that operates under a separate commercial register issued by the city of Riyadh. BATIC owns 94.88% of its capital. The subsidiary Company's activity is in wholesale and retail trade, monitoring and safety devices, security guard services, money transfer, money sorting and counting and correspondence services.

- **AMNCO Facilities Management Company (a subsidiary of the Arabian Company for Security and Safety Services – AMNCO)**

AMNCO Facilities Management Company Limited, previously "Al-Hikma Company for Commercial and Industrial Investment" (a limited liability Company), registered in the city of Riyadh under Commercial Registration No. 1010172169 dated 16 Ramadan 1422H. The subsidiary Company AMNCO owns 70% of its capital. The Company is engaged in purchasing lands, constructing buildings, investing in them by selling or renting for the benefit of the Company, wholesale and retail trade in industrial equipment, heavy machinery, trucks and tools, managing and operating industrial and commercial centers and residential complexes, and supplying security and military equipment and security systems for the purpose of entering government tenders.

- **Smart Cities Solutions Company, formerly Fast Parking Company for Car Services (a subsidiary of the Arabian Company for Security and Safety Services – AMNCO)**

On April 28, 2019G, the Arabian Company for Security and Safety Services - AMNCO (a subsidiary Company) completed the process of owning 40.6% of the total capital shares of the "Smart Cities Solutions Company" through its direct ownership of 35% and 5.6% of the shares indirectly through its subsidiary "AMNCO Facilities Management Company". It should also be noted that on 12/02/1443H (corresponding to 19/09/2021G), the Ordinary general assembly of BATIC has approved the acquisition of 35.8% of the shares of Smart Parking Holding Company in Smart Cities Solutions Company and the transaction is conducted in accordance with the applicable commercial terms without any preferential terms.

The process of acquiring the abovementioned shares was made through the founding partners of the Smart Cities Solutions Company ceding some of their shares at a nominal value without compensation to other partners, including the Arabian Company for Security and Safety Services - AMNCO - and AMNCO Facility Management.

Smart Cities Solutions Company (LLC) was established on May 18, 2017G, with a capital of SAR (100,000), formerly "Fast Parking Company for Car Services" (LLC) registered in Riyadh under Commercial Registration No. 1010901033 on 22 Shaaban 1438H corresponding to May 18, 2017G, the Company's purpose is to establish, develop, invest and operate multi-storey car parks and smart parking spaces in all cities of the KSA.

On April 9, 2019G, a bid was awarded to establish, develop, invest and operate multi-storey car parks and smart parking lots in the cities of Khobar, Dhahran and Dammam for a period of 25 Hijri years, at an annual rent of SAR (52,000,000). On January 23, 2020G, the signing of lease contracts with the Eastern Province Municipality, regarding the smart car parking project for the city of Dammam and the cities of Khobar and Dhahran was completed, and a payment was made under the annual rental value of SAR (28,000,000) on October 6, 2019G, and some sites were received. Letters of guarantee were renewed and issued as a guarantee for the annual rental value of SAR (65,000,000).

- **Saudi Transport and Investment Company - Mubarrad**

It is a LLC operating under a separate commercial registration issued from Riyadh, and Batic owns 100% of its capital. It is engaged in land transportation of goods and equipment under the license of the Ministry of Transport and Logistics Services number (010111049000), which expires on 24/03/1445H. The Board of Directors of BATIC approved the transfer of the Company's branch called the Saudi Transport and Investment Company (Mubarrad) to a wholly owned subsidiary of BATIC, provided that the assets and liabilities of the transport sector are transferred to it as of 01/01/2018G. BATIC Board also approved by Resolution No. 216-4/13 on 19/12/2017G the signing of an agreement between BATIC and Mubarrad, related to the transfer of assets and liabilities according to their book values on 31/12/2017G. This agreement is effective from 01/01/2018G.

- **BATIC Real Estate Company**

It is One Person Company (LLC) registered in the city of Riyadh under Commercial Registration No. 1010468252 dated 26/05/1438H corresponding to 23/02/2017G. BATIC owns 100% of its capital. It is engaged in the purchase of lands for buildings construction and investment by selling or renting for the benefit of the Company, and the management and lease of owned or leased real estate, both residential and non-residential.

- **AlShifa Medical Technology Company**

The branch of AlShifa Medical Technology Company, which is registered in the Commercial Registry in Riyadh No. 1010428983 and dated 26/2/1436H, under the name of AlShifa Technology Co. Ltd., and in the Commercial Registry in Riyadh No. 1010438136 dated 2/1/1437H, was converted to LLC with its rights, obligations, and staff, classification, licenses and all its financial, technical and administrative elements, with the participation of BATIC Investment and Logistics Company (a listed joint-stock Company) while retaining the name, number and date of current register of the Company's branch as headquarters. The Company's establishment was approved on 7/11/1441H, and its commercial registration was issued starting from 8/11/1441H corresponding to 29/06/2020G. AlShifa Medical Technology Company is engaged in the wholesale sale of medical devices, equipment and supplies.

2- Subsidiaries

Subsidiaries are entities (including special purpose entities) controlled by the Group. The group controls an entity when it has rights or variable returns as a result of its participation and has the ability to affect those returns, through its power over this entity. Subsidiaries are fully consolidated from the date control is transferred to the Group and are discontinued from the date that control ceases. A subsidiary is an entity controlled by the Company. Control exists when the Company:

- has power over the investee.
- is exposed to loss, or has rights to variable returns from its involvement with the investee.
- has the ability to use its power to affect the returns of the investee.
- reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above.

The Group uses the acquisition method of accounting to calculate business combinations acquired by the Group. The consideration transferred for the acquisition of a subsidiary represents the fair values of the transferred assets, the incurred liabilities and the equity interests issued by the Group.

The consideration includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. The acquired identifiable assets, liabilities and contingent liabilities assumed in a business combination are initially measured at their fair values at the acquisition date. The Group recognizes, on an acquisition-by-acquisition basis, any non-controlling interest in the acquire, either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

Any consideration likely to be transferred by the Group is recorded at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration to be classified as assets or liabilities are calculated in accordance with the requirements of the International Financial Reporting Standards No. (9) "Financial Instruments", in either profit or loss, or are charged to other comprehensive Revenue. The expected consideration, which is classified as equity and recognized within the subsequent settled property rights, is not remeasured.

The excess of the consideration transferred over the value of the non-controlling interest in the acquired Company, and the acquisition-date fair value of any previous ownership interests in the acquired Company over the fair value of the Group's share of the acquired identifiable net assets is included under goodwill. In the event that the sum of the transferred consideration, the calculated non-controlling interest and the previously owned calculated interest, are less than the fair value of the net assets of the subsidiary acquired through a swap purchase agreement, the difference is calculated directly in the profit and loss in the consolidated statement of comprehensive Revenue.

3- Eliminated Transactions During the Consolidation of Financial Statements

All internal transactions, balances and unrealized profits on transactions between the Group's companies are eliminated, in addition to unrealized losses. The amounts reported by the subsidiaries, where applicable, have been adjusted to conform to the Group's accounting policies.

5.4 Significant Accounting Estimates and Assumptions

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision of accounting estimates is uploaded when estimates are revised and in the future affected periods.

(a) Impairment Test of the Goodwill Book Value

The Group tests the goodwill calendar to determine whether it is subject to any impairment on an annual basis. The Group's management has contracted with an independent consultant to test the impairment of goodwill by determining the recoverable amount of goodwill, based on the value in use of the cash-generating unit associated with the goodwill. This determination of the recoverable amount requires the use of assumptions based on historical experience and other factors, including expectations of future events, believed to be reasonable under the circumstances, and that may have a financial impact on the Group. Elements of significant judgments and assumptions include the following:

- Cash flows forecast based on financial budgets approved by management.
- Assumptions relating to expected economic conditions, particularly growth in markets where the Group primarily operates.
- Assumptions of the impact of the Group's major competitors' actions on the revenue assumptions and expected gross profit margin.
- Revenue growth rate and terminal value growth rate used in the model value in use.

(b) Estimation of Residual Values and Useful Lives of Property and Equipment

The Company bases the determination of the useful lives of property and equipment on historical experience with property and equipment of similar specifications and characteristics, as well as on the nature of the intended use of the asset. The estimation of the residual value of property and equipment is based on the selling prices of similar property and equipment that are fully depreciated by the Company in an active residual market for the assets considered to be insignificant.

(c) Useful lives of Intangible Assets

The Company carries its intangible assets, excluding goodwill, at cost less accumulated amortization and impairment losses. Intangible assets are amortized over their useful lives. Determining the useful lives of intangible assets requires the use of assumptions about the method that the Company will rely on to record the assets. These assumptions are based on historical experience, the contractual terms of agreements relating to intangible assets, and other factors, including expectations of future events that may have a financial impact on the Company, and that are believed to be reasonable under the circumstances. The key assumption on which management has made its estimates of the useful lives of assets is the possibility of renewal of the related contracts and future management plans.

(d) Provision for Obsolete, Slow-moving and Defective Inventory

The provision reflects estimates of obsolete, slow-moving and defective inventories. The provision is made based on the ages of the inventory items, current conditions and historical experience. It may be necessary to make changes to the estimated provisions, in the event of a Decrease in the demand for slow-moving inventory in comparison with the expected levels at the present time, or due to unexpected changes that may negatively affect the sale of some products. Management believes that the provision for slow-moving and obsolete inventories is appropriate.

(e) Actuarial Valuation of Employees' End-of-Service Benefits (ESB) Obligations

The value of the employees' end-of-service benefit compensation obligation, under the unfunded defined benefit program, is determined using actuarial valuation. The actuarial valuation includes many assumptions that may differ from actual developments in the future. These assumptions include determining the discount rate, future salary increases, and employee turnover. Given the complexity of the valuation and its long-term nature, the unfunded defined benefit obligation is highly sensitive to changes in these assumptions. Therefore, all assumptions are reviewed once a year when necessary. IAS 19 requires the use of actuarial assumptions to measure the obligation for end-of-service benefits (the provision for end-of-service benefits), which is a defined benefit obligation. These assumptions include Company management's estimates of variables such as final salaries that will be used as the basis for calculating end-of-service benefits. The Company has prepared these actuarial assumptions by an actuarial expert based on the best estimate of the Company's management for these variables.

(f) Fair Value Measurement

Fair value is the price that would be received if an asset were sold, or will be paid if a liability were transferred in an orderly transaction between market participants at the measurement date, under prevailing market conditions, regardless of whether that price is directly observable or estimated using another evaluation method.

The fair value measurement is based on the assumption that the transaction to sell the asset or transfer the liability occurs either:

- through the principal market for the asset or liability, or
- through the most advantageous market for the asset or liability in the absence of a principal market.

The principal market (or the most advantageous market) must be available to the Company on the measurement date.

The fair value of an asset or a liability is measured based on the assumptions that market participants would use in the market when pricing the asset or liability, assuming that market participants act in their economic best interest. For non-financial assets (real estate investing), the measurement takes into account the ability of market participants to generate economic benefits, by using the asset for its best benefit or by selling it to market parties for its best use.

The Company uses valuation methods appropriate to the circumstances and other methods that have sufficient data to measure fair value, so that appropriate observable inputs are used and the use of unobservable inputs is limited.

All assets and liabilities that are either measured at fair value or whose fair value is disclosed in the consolidated financial statements are categorized according to a hierarchy of levels of fair value measurement shown below, based on the lowest level of measurement input considered to be significant to the fair value measurement as a whole.

The inputs used in the fair value measurement techniques are categorized according to the below hierarchy:

- **Level One:** Quoted (unadjusted) prices in active markets for assets or liabilities identical to those being measured.
- **Level Two:** Inputs that can be directly or indirectly observed or monitored for the asset or liability, other than the December lared prices listed within the level one.
- **Level Three:** Unobservable inputs to the asset or liability.

5.5 Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied during the presented year, unless otherwise stated.

(a) Classification of Current and Non-Current Liabilities

Assets and liabilities are presented in the consolidated statement of financial position classified into current and non-current. An asset is current when:

- The Company expects to realize the asset or intends to sell or use it in the normal operating cycle.
- The Company primarily holds the asset for the purpose of trading.
- The Company expects to realize the asset within twelve months after the financial year (period).
- The asset shall be cash or cash equivalent, unless it is subject to restrictions on its exchange or use, to settle a liability for a period of more than twelve months after the financial period.
- All other assets are classified as non-current assets.

The liability is current when:

- It is expected to be settled in the normal operating cycle.
- It is primarily held for the purpose of trading.
- It is due to be settled within twelve months after the financial period.
- The Company shall not have an unconditional right to defer the settlement of the obligation for a period of more than twelve months after the financial period.
- All other liabilities are classified as non-current.

(b) Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses (if any). The cost includes all costs directly associated with constructing or acquiring the asset in the location and condition necessary for it to be ready for its intended use. Significant parts of property and equipment are depreciated separately from other parts.

When a major examination is performed, its cost is recorded within the carrying amount of an item of property and equipment as a replacement, if the recognition criteria in the consolidated financial statements are met. Other maintenance and repair costs are charged to the consolidated statement of comprehensive Revenue when incurred.

Depreciation is calculated on a straight-line basis over its expected useful life at rates calculated to reduce the cost of the asset down to its estimated residual value as follows:

Classification of Property and Equipment	Years
Right to Use Assets	5-25
Buildings and Constructions	20
Locomotives/Trailers/Rrefrigeration Units/Cars	4-15
Equipment for workshops and prefabricated houses	6,5-20
Machinery and Equipment	5
Furniture	5

The residual values and useful lives of the assets are reviewed, and adjusted as necessary, at the end of each reporting period, when the carrying amount of the asset is greater than its estimated recoverable amount, written down directly to its recoverable amount.

Profits and losses resulting from disposal operations are determined by comparing the returns with the book value, and are calculated under the item (other net Revenue / expenses) in the consolidated statement of comprehensive Revenue.

Capital work in progress is shown, and they include the cost of property and equipment that are being developed for future use. When they are ready for use, they are transferred to the appropriate category and depreciated in accordance with the Company's policy.

Relationships with clients are established by continuous communication and past transactions between the acquiring Company and its clients and are very valuable.

(c) Real Estate Investments

Investment properties are non-current assets held either to earn rental Revenue or for capital appreciation or for both, but not for sale in the ordinary course of operations. They might be used in the production or supply of goods or services or for administrative purposes. Investment properties are measured at cost upon initial recognition and subsequently at cost less accumulated depreciation and impairment losses, if any.

Investment properties are derecognised when they are sold, occupied by the owner, or if they are not held for an increase in value.

(d) Intangible Assets

Intangible assets that have a finite useful life and were separately acquired, are stated at cost less accumulated amortization and accumulated impairment losses, and amortization is recognized on a straight-line basis over the estimated useful life. Their useful life is re-estimated at the end of the financial period, and accounting for the impact of any changes in estimates are on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately, are stated at cost less accumulated impairment losses.

Intangible assets are derecognised upon disposal or when no future economic benefits are expected from their use or disposal. The gain or loss resulting from derecognition of intangible assets is measured as the difference between the net disposal proceeds and the carrying value of the asset, and is recognized in the consolidated statement of comprehensive Revenue when the asset is derecognised.

Goodwill

Goodwill is an intangible asset that accounts for the excess purchase price of another Company. It is calculated by taking the purchase price of a Company and subtracting the difference between the fair market value of the assets and liabilities. Goodwill arising on acquisitions of subsidiaries is included in intangible assets. It is not amortized, but is subject to impairment testing annually, or more frequently if events or changes in circumstances indicate a possible impairment. Goodwill is stated at cost less accumulated impairment losses. Gains and losses resulting from disposal of an entity include the carrying value of goodwill relating to the entity being sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to cash-generating units or groups of cash-generating units that are expected to benefit from the business combination that gives rise to the goodwill. Units or groups of units are identified at the lowest level at which goodwill is monitored for internal management reporting.

Trade Name

A trade name consists of the trademark's value acquired through the business combination process. This value is determined by calculating the present value of the future economic benefits expected to arise from the use of these trademarks in the market. The subsidiary's trade name is expected to be used over a period of 20 years, so it is subsequently carried at cost less accumulated depreciation and impairment losses.

Technology

Technology consists of the combination of systems and devices used to increase security and positioning systems acquired through a business combination process. These costs are amortized over the period during which the Company is expected to use technology and estimated to be 5 years. Therefore, technology is subsequently carried at cost less accumulated depreciation and impairment losses.

Relationships with Customers

Relationships with customers are established by continuous communication and past transactions between the acquiring Company and its customers. Its value is determined by calculating the present value of the future economic benefits that are expected to arise from these relationships. While amortization is calculated using the straight-line method to allocate costs over the estimated useful lives of eight years.

Unfinished Business

Relationships with customers also arise from the work-in-progress and unfinished business that were contracted at the acquisition date. Its value is determined by calculating the present value of the future economic benefits that are expected to arise from these relationships. Amortization is calculated using the straight-line method to allocate costs over the estimated useful lives of 44 months.

Projects in Progress

Projects in progress are recorded at cost. Cost includes all direct expenses related to bringing the asset to a condition that allows it to be utilized for its intended use. A project in progress is transferred to property and equipment when completed and ready for its intended use.

(e) Right to Use Lease Assets and Liabilities

The Company as a Tenant

The Company assesses whether the contract's inception contains a lease. It recognizes a right-of-use asset and a corresponding lease liability in respect of all lease agreements in which the Company is the lessee, except for short-term leases (which are recognized as leases of 12 months or less), and leases of low-value assets. For such leases, the Company acknowledges lease payments as an operating expense on a straight-line basis over the term of the contract, unless another systematic basis is more representative of the time pattern in which the economic benefits from the leased asset are exhausted.

The lease liability is initially measured at the present value of the unpaid lease payments at the commencement date, discounted using the rate implicit in the lease. If this rate cannot be easily determined, the Company uses an implicit interest rate.

The lease payments included in the lease liability's measurement include:

- Fixed lease payments (including fixed principal payments), less any lease incentives.
- Variable lease payments that depend on an index or a price, initially measured using the index or the price at the start date,
- Amount expected to be payable by the lessee under residual value guarantees,
- The exercise price of the purchase options, if the lessee is reasonably certain to exercise those options, and
- Payment of fines to terminate the lease, if it indicates the exercise of the option to terminate the lease
- The lease liability is presented as a separate line item in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect the interest on the lease liability (using the effective interest method), and by reducing the carrying value to reflect the made lease payments.

The Company remeasures the lease liability (and makes the corresponding adjustment to the related right-of-use asset) when:

- The terms of the lease have changed or there has been a modification in the assessment of exercise of the purchase option, in which case the lease liability is re-measured by discounting the revised lease payments using a revised discount rate.
- The lease payments have changed due to changes in an index or rate, or a change in the expected payment according to the guaranteed residual value, in which case the lease liability is remeasured by discounting the adjusted lease payments using the initial discount rate (unless the lease payments change due to a modification in the prevailing interest rate, in this case a modified discount rate is used).
- The lease was modified and was not accounted for as a separate lease, in which case the lease liability is re-measured by discounting the modified lease payments using a modified discount rate.

The Company has not made any such adjustments during the periods presented.

Right-of-Use Assets

This section includes the right to use the initial measurement assets for the corresponding lease liability, lease payments made on or before the commencement day and any initial direct costs. It is subsequently measured at cost less accumulated depreciation and accumulated impairment losses.

Right-of-use assets are amortized over the shorter of the lease term and the useful life of the underlying asset. If the lease transfers ownership of the underlying asset, or if the cost of the right-of-use asset shows that the Company expects to exercise the purchase option, the related right-of-use asset is amortized over the useful life of the underlying asset. Depreciation begins on the start date of the lease.

The Company applies International Accounting Standard No. (36) "Impairment of Assets" to determine whether there has been any impairment in the value of the right-of-use assets.

Variable Lease Payments

In the case of lease contracts that contain variable payments related to the use or performance of the leased assets, such payments are recognized in the consolidated statement of other comprehensive Revenue.

Extension and Termination Options

In determining the term of the lease, management considers all facts and circumstances that create an economic incentive to exercise the option to extend, or not to exercise the option to terminate. Extension options or periods following termination options are included in the lease term only if the lease extension or non-termination is reasonably certain. The Company assesses whether it is reasonably certain to exercise the extension options when evaluating the lease. The Company reassesses whether it is reasonably certain to exercise the options if there is a significant event or change in circumstances within its control.

(f) Inventory

Inventories are stated at cost or net realizable value, whichever is lower. The cost of inventory is determined using the weighted average method. It includes the expenses incurred in acquiring the inventory and bringing it to its present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

Inventories are written down to their net realizable value, or a provision is made for obsolescence if there is a change in the pattern of use or physical appearance of the related inventories.

(g) December line in the Value of Non-Financial Assets

Assets that do not have a finite useful life such as goodwill to amortization are annually tested on the date of each financial position statement in order to measure the December line in value, if there were any indications of a December line in the value of non - financial assets. If there are indications in relation to an asset, or when annual impairment testing is required, the Group annually estimates the asset's recoverable amount (the recoverable amount) and goodwill (if any). The recoverable amount is determined from the individual asset, or the cash-generating unit to which the asset belong if it does not generate cash inflows that are largely independent of inflows from other assets or groups of assets. The recoverable amount is measured as (a) the fair value of the asset (or cash-generating unit) subtracted from its disposal cost or (b) the value in use of the asset (that is, the present value of future cash flows expected to be received from the asset or cash-generating unit) whichever is greater. The carrying value of the asset is reduced to its recoverable amount only when its recoverable amount is less than its carrying value, and such reduction is considered an impairment loss. The impairment loss is immediately recognized in profit or loss. An assessment is made at each reporting date to determine whether there is any indication that previously recognized impairment losses may no longer exist or have Decreased.

An impairment loss recognized in prior periods for an individual asset or cash-generating unit is reversed only when there has been a change in the estimates used to determine the recoverable amount of the asset or cash-generating unit since the last impairment loss was recognized. In this case, the carrying value is added to the recoverable amount. If the reversal of the impairment loss relates to a single asset, it should not exceed the carrying value that would have been determined if no impairment loss had been recognized in previous years. The reversal of the impairment loss is recognized as revenue in the consolidated statement of comprehensive Revenue for the financial period in which it occurs.

(h) Financial Instruments

Financial instruments are any contracts that give rise to financial assets of one entity, and financial liabilities or equity instruments of another entity. They are assets that can be traded. They can be cash, contractual rights to deliver and receive cash or another type of financial instruments, or evidence of one's ownership of an entity.

The Group recognizes its financial assets and financial liabilities in the consolidated statement of financial position only when the Company becomes a party to the contractual provisions of the instrument.

Financial Assets

When the Company acquires a financial asset, the financial asset is classified at amortized cost, at fair value through other comprehensive Revenue, or at fair value through profit or loss on the basis of both (a) the business model for managing a group of financial assets and (b) the contractual cash flow characteristics of the financial asset.

Initial Measurement of a Financial Asset

A financial asset is measured at initial recognition at fair value plus transaction costs, except for financial assets at fair value through profit or loss, which are measured at fair value without adding transaction costs.

Amounts receivable from trade debtors are measured at their transaction rate (as defined in IFRS 15 Revenue from Contracts with Customers) if the amounts receivable from trade debtors do not have a significant financing component in accordance with IFRS 15.

Subsequent Measurement of the Financial Asset

After the initial recognition, the Group makes the subsequent measurement of financial assets based on the classification of financial assets as follows:

- At amortized cost using the effective interest method, if the Company's objective is to hold a group of financial assets to collect contractual cash flows on specified dates, which are only payments of principal and interest on the outstanding principal amount.
- At fair value through other comprehensive Revenue, if the objective of the Company is to maintain a group of financial assets to collect contractual cash flows and sell the financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are - only - payments of principal and no interest on the outstanding principal amount.
- At fair value through other comprehensive Revenue, if the Company uses this measurement option provided in IFRS 9 "Financial Instruments", in relation to equity instruments. Subsequent changes in fair value and sale gain/(loss) are recognized in other comprehensive Revenue. The resulting dividends are recognized in profit or loss.

Derecognition of a Financial Asset

Derecognition refers to the removal of an asset or liability (or a portion thereof) from an entity's balance sheet. The Group derecognises a financial asset only when:

- Contractual rights to the cash flows from the financial asset have expired, or
- Transfer of the contractual rights and substantially all ownership risks of the financial asset is made to receive cash flows from the financial asset, or
- Contractual rights are retained to receive cash flows from the financial asset while assuming a contractual obligation to pay the cash flows to one or more recipients and transferring substantially all the risks of ownership of the financial asset, or
- Contractual rights are transferred to receive cash flows from the financial asset without substantially transferring or retaining all the risks of ownership of the financial asset if it has not retained control of the financial asset, or
- Retaining the contractual rights to receive cash flows from a financial asset, while assuming a contractual obligation to pay the cash flows to one or more recipients without transferring and not retaining nearly all of the risk of ownership of the financial asset if it did not retain control of the financial asset.

When a financial asset is derecognised in its entirety, the difference between the carrying value at the date of derecognition and the consideration received (including any new acquired asset subtracted from any new incurred liability) is recognized in profit or loss.

Depreciation of Financial Assets

Depreciation, i.e., a Decrease in an asset's value, may be caused by a number of other factors as well as such as unfavourable market conditions, etc. Machinery, equipment, currency are some examples of assets that are likely to depreciate over a specific period of time.

The Group assesses the expected credit losses related to its financial assets on the basis of forecasts of future economic conditions. The method of impairment applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by IFRS 9 which requires expected losses to be recognized over the lives of these receivables from initial recognition.

Financial Obligations

The Group classifies all financial liabilities as being subsequently measured at amortized cost.

Derecognition of Financial Obligations

The Group derecognises a financial liability (or part of a financial liability) from its consolidated statement of financial position when it is amortized; that is, when the obligation specified in the contract is paid, canceled or expired.

The Amortized Cost of a Financial Asset or Liability

Amortized Cost is the amount at which the financial asset or financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

Amortised cost is a cost-based measure. The carrying value of a financial asset recorded in the statement of financial position at any given point in time does not provide information about the fair value of the future cash flows.

(i) Cash & Cash Equivalents

Cash and cash equivalents refer to the line item on the balance sheet that reports the value of a Company's assets that are cash or can be converted into cash immediately. They include bank accounts and marketable securities such as commercial paper and short-term government bonds.

Cash equivalents should have maturities of three months or less and they are subject to an insignificant risk of changes in value.

(j) Employee Benefits

1- Employees End-of-Service Benefits

Article 84 of the KSA Labor law states as follows regarding end-of-service settlement; Upon the end of the work relation, the employer shall pay the worker an end-of-service award of a half-month wage for each of the first five years and a one-month wage for each of the following years. The end-of-service award shall be calculated on the basis of the last wage and the worker shall be entitled to an end-of-service award for the portions of the year in proportion to the time spent on the job. Gratuity is a token of appreciation for all the hard work and commitment an employee has shown towards one's workplace. It is usually calculated at the time of resignation or termination. In KSA, an employee is entitled to an end of service benefit upon completion of two years of service if he is resigning from work. In the case of termination, the employee is entitled to a full accrual if the service period is more than one year. Gratuity is a monetary payment eligible to an employee as a lump sum at the end of his tenure provided that the period of service exceeds one year. Gratuity payment is a liability to the employer which accrues as the employee service period progresses. The liabilities recognized in the consolidated statement of financial position in respect of end-of-service benefits are the present value of the defined benefit liability at the end of the financial reporting period, and the defined benefit obligation is calculated annually by management using the projected unit credit method.

The current service cost of the defined benefit plan recognized in the consolidated statement of comprehensive Revenue is included in employee benefits expense, unless it is contained in the cost of the asset, reflecting the increase in the defined benefit obligation resulting from employee service in the current year and cases of change, curtailment and settlement of benefits.

Past service costs are recognized immediately in the consolidated statement of comprehensive Revenue. The present value of defined benefit liabilities is determined by discounting the estimated future cash outflows using rates of return on corporate bonds with a high credit rating, denominated in the currency in which the benefits are paid and with maturities approximating the relevant benefit liabilities, and in the absence of a broad market for these companies. Government bond market rates are applied. Actuarial gains or losses resulting from previous adjustments and changes in actuarial assumptions are charged to the consolidated statement of comprehensive Revenue in the period in which they occur.

2- Short-term Employee Benefits

Short-term employee benefits are employee benefits that are expected to be fully settled within twelve months after the end of the annual financial reporting period in which employees render the service to which those benefits relate. Undiscounted amounts for service rendered by an employee to the Company during an accounting period are recognized as an expense, and the related liability (accrued expense) is measured by the undiscounted amount of short-term employee benefits, expected to be paid in exchange for services rendered by the employee.

A liability relating to expected bonus payments is recognized only when there is a present legal or constructive obligation that the Group will make such payments as a result of past service rendered by the employee and a reliable estimate can be made of the obligation.

(k) Loans and Borrowing Costs

Loans are initially recognized at fair value, net of transaction costs incurred, and subsequently recognized at amortized cost, deducting any difference between proceeds (net of transaction costs) and the recoverable amount in the consolidated statement of comprehensive Revenue over the period of the loans using the effective commission method.

Fees paid for entering into loan facilities are accounted for as transaction costs of the loan, provided that there is a possibility that some or all of the facilities will be drawn down. In this case, the calculation of fees will be deferred until the withdrawal takes place. In the absence of evidence that some or all of the facilities may be withdrawn, the fees shall be capitalized and recorded within the amounts paid in advance for liquidity services, and shall be amortized over the period of the related facilities.

Finance costs mainly represent expenses payable on loans obtained from financial institutions at normal commercial rates, and are included as expenses in the consolidated statement of comprehensive Revenue in the period in which they are incurred.

Borrowing costs are directly attributable to the acquisition, construction or production of a qualifying asset during the required period of time to complete and prepare the asset for its intended use. All borrowing costs are expensed on a time-ratio basis using the effective interest rate method.

Loans are classified as current liabilities unless the Company has an unconditional right to defer the settlement of the obligation for a period of not less than twelve months, after the issue date of the consolidated statement of financial position.

(l) Receivables and Other Credit Balances

Credit balance refers to the outstanding loans that are owed to a Company by virtue of granting credit to customers. A credit balance is normal and expected for the following accounts:

Liability accounts such as Accounts Payable, Notes Payable, Wages Payable, Interest Payable, Revenue Taxes Payable, Customer Deposits, Deferred Revenue Taxes, etc. Hence, a credit balance in Accounts Payable indicates the amount owed to vendors. (If a liability account would have a debit balance it indicates that the Company has paid more than the amount owed, has made an incorrect entry, etc.). Other credits are commitments to pay suppliers, employee benefits, and other Receivables. Other payables are classified as current liabilities if they are due within one year or less, otherwise they are presented as non-current liabilities. Financial liabilities included in accounts payable and other liabilities are initially recognized at fair value and subsequently at amortized cost. The fair values of the Company's payables are equal to its amortized cost when collected within a year or less.

(m) Accounting Provisions

An accounting provision is an amount of money that a Company sets aside to pay for future expenses or liabilities, depending on the accounting guidelines followed. According to the International Financial Reporting Standards (IFRS), a provision is a liability. There are many items that companies must take into account when examining their financial health and drafting their balance sheets. In many cases, a Company may choose to create accounting provisions to help them better understand their financial position and make informed decisions about the future operations, expenses and processes of their enterprise.

Accounting provisions can help companies accurately understand their obligations and protect against varying levels of unforeseen losses by providing foresight.

Provisions are acknowledged when the Group has liabilities (legal or contractual) on the date of the consolidated statement of financial position arising from past events. The payment of liabilities will likely result in an outflow of economic benefits, and their value can be reliably measured. Provisions are determined by discounting the expected future cash flows at a rate that reflects current market assessments of the money's time value and the obligation's specific risks.

(n) Value-added Tax (VAT)

Revenues, expenses and assets are recognized after deducting the VAT except for:

Where VAT that is incurred on the purchase of assets or services is not recoverable from the Zakat, Tax and Customs Authority, in which case the transaction tax is recognized as a part of the asset purchase cost, or as a part of the expense items, where applicable; and

Accounts receivable and payable that have been included with the transaction tax amount.

The net amount of VAT recoverable from, or payable to the Zakat, Tax and Customs Authority is included as a part of accounts receivable, or payable in the consolidated statement of the financial position.

(o) Revenues

Revenue is recognized according to the following five-step approach:

First step	<p>The group determines the contract with the customer in the following cases:</p> <ul style="list-style-type: none"> • The contract is approved and obligated by the parties • The rights of each party are determined • Payment terms are defined • The contract has commercial content • Revenue can be collected
Second step	<p>The group identifies all of the promised goods or services in the contract and determines whether to account for each promised good or service as a separate performance obligation.</p> <p>The good or service is considered distinct, and is separated from other obligations in the contract if:</p> <ul style="list-style-type: none"> • The customer can make use of the good or service separately or with other resources that are readily available to the customer. • The good or service is defined separately from the other goods or services mentioned in the contract.
Third step:	The group sets the transaction price, which is the consideration amount expected in exchange for transferring promised goods or services to a customer.
Fourth step:	The transaction price is allocated in an arrangement to each standalone performance obligation on the basis of the relative standalone selling prices of the goods or services provided to the customer.
Fifth step:	<p>Revenue is recognized when the control of the goods or services is transferred to the customer. The group transfers a good or service when a customer obtains the control of that good or service. The customer obtains control of a good or service if it has the ability to guide the use of the benefit of the good or service.</p> <p>In the comparative period, revenue is recognized to the extent that it is probable that the economic benefits will flow to the group, and the revenue can be measured reliably, regardless of when the payment was received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of the payment, excluding taxes or duties. The Company has concluded that, in all of its revenue arrangements, it has free pricing, and is subject to the inventory and credit risk.</p> <p>Dividend Revenue is recognized when the Company right to receive the dividends from its various investments can be demonstrated, usually when the dividend has been formally approved by the Shareholders.</p> <p>Revenue comprises the fair value of the consideration received or the receivable from the sale of goods and services in the ordinary course of the Group's activities. Revenue is reported net of returns, rebates and discounts. The Company records revenue when the amount of revenue can be measured reliably; it is probable that the future economic returns will flow to the Group, when specific criteria are met for each of the Group's activities as described below. The amount of revenue is only reliably measurable after all the contingent liabilities associated with the sale have been settled.</p>

Transportation Sector Revenue

Revenue from the transport sector is recognized in the accounting period in which the group provides the agreed transport service to its customers; the revenue is calculated for the fixed-value and the incomplete contracts at the end of the period, in proportion to the service provided until the end of the same period from the agreed total service in the contract.

Real Estate Sector Revenue

Revenue from the real estate segment includes rental Revenue, property management Revenue, as well as real estate sale Revenue.

Real estate rental Revenue is recognized on a straight-line basis over the lease term. When the Group provides a rent discount as an incentive to its customers, whether at the beginning or the end of the term, the discount cost is distributed in a straight-line manner over the contract term, and is deducted from the rental Revenue.

Real estate management revenue is recognized during the accounting period in which the service is provided to its customers. In the event that the Group acts as an intermediary, only the commission value is recognized as revenue, not the total value of the contract.

Security Guards Sector Revenue

Revenue from the security guards sector includes the revenue from providing security guards and shift services to the Banks and the companies.

Exchange Feed Sector Revenue

Revenue from ATM feeding segment includes the revenues from the ATM feeding and maintenance services for the Banks.

Insured Money Transfer Sector, Counting and Sorting Money, and Correspondence Revenues

Revenues from the insured money transfer sector, counting and sorting money, and correspondence revenues include the revenues from money, valuables transportation, insurance services, money counting, sorting services and postal correspondence.

Maintenance and Operation Sector Revenue

Revenues from the maintenance and operation sector include the revenues from the building maintenance, as well as the operation services, the property management, and the third-party marketing.

City Solutions Company Revenue

Revenue from City Solutions includes the revenue from the parking rental services in Khobar, Dhahran and Dammam, supplying medical equipment to third parties, and the medical equipment supply to others.

Dividend Revenue

Dividend Revenue is recognized when the Company right to receive dividends from its various investments can be demonstrated, usually when the dividend has been formally approved by the Shareholders.

Revenue Cost

Revenue cost includes all the direct operating expenses associated with the transportation revenue generation, including the costs of the outsourced services (security, maintenance, repair, rental services, etc.), the costs of the security guards sector, the ATM feeding, the money transfer, the money counting, the maintenance, the operation, the fuel, the oil, the labor, the rent of the transportation and locations. To note that labor, transportation fleet depreciation, insurance, all other direct and operating expenses are considered general and administrative expenses.

Expenses

General and administrative expenses include the direct and indirect expenses that are not directly related to the costs of the provided services. They are distributed, if necessary, between the general and the administrative expenses, the cost of the services and the other expenses, on a consistent basis.

Zakat Provision

Zakat provision is calculated annually in the consolidated financial statements in accordance with the instructions of the Zakat, Tax and Customs Authority in the KSA; any adjustments that may result when the final assessment of zakat, is recorded in the consolidated statement of the comprehensive Revenue in the year in which the final assessment is received, whenever the provision is settled.

Earnings Per Share

The Company presents the basic earnings per share data for its common stock. The basic earnings per share is calculated by dividing the earnings attributable to the Company common stockholders by the weighted average number of the unpaid common shares during the same period. Diluted earnings per share are calculated by adjusting the weighted average number of the unpaid equity shares to reflect the effects of converting all the dilutive potential ordinary shares. The Company does not have any potential dilutive ordinary shares.

Information Sector

The operating sector is a component of the Group engages in the business activities from which it may earn revenue and incur expenses, including the transactions revenue and expenses with the other components of the Group, and for which the separate financial information is available. The operating results of each operating sector are reviewed by the Company CEO to make decisions about allocating the resources to the segment, and to assess its performance.

Regular Reserve

In line with the requirements of the Companies Law and the Company Bylaws, 10% of the annual net profits are set aside to form the Company statutory reserve. This deduction may be discontinued when the said reserve reaches (30%) of the paid-up capital.

Operations in Foreign Currencies

Transactions designated in the foreign currencies are translated into the functional currency using the exchange rates ruling at the dates of the transactions or valuation when items are re-measured. The foreign exchange gains and losses resulting from the settlement of these transactions and from the translation of monetary assets and liabilities designated in foreign currencies at the exchange rates prevailing at the end of the year, are calculated through the consolidated statement of the comprehensive Revenue.

Foreign exchange gains and losses are presented through the consolidated statement of the comprehensive Revenue under other Revenue / expenses, net.

Potential Obligations

They are obligations that are likely to arise from previous events and are confirmed only by the occurrence or absence of one or more unconfirmed future events.

It is within the full control of the Group, or the current commitment that is being restricted, because it is unlikely that there will be a need for a flow of resources to settle the obligation. In case of inability to measure the amount of commitment with sufficient reliability, it is not included in the potential withdrawals but is disclosed in the Consolidated Comprehensive Revenue Statement.

Revenues

BATIC Revenues mainly consist of:

- 1- AMNCO revenues constituting 88.2%, 84.7% and 69.1% of the total revenues for the financial years 2018G, 2019G and 2020G, respectively, while it constituted 84.3% and 81.3% of the total revenues for the first quarter of the financial years 2020G and 2021G, respectively. AMNCO activity is represented in providing the security guards services, feeding ATMs, transferring money to and from Banks, counting and sorting money, as well as correspondence.
- 2- MUBARRAD revenues constituting 11.3%, 14.1% and 13.3% of the total revenues of the financial years 2018G, 2019G and 2020G, respectively, while it constituted 14.6% and 15.8% of the total revenues of the first quarter of the financial years 2020G and 2021G, respectively. MUBARRAD activity is represented in transporting goods and tasks for a fee on the land roads in the KSA.

Revenues Decreased by 8.6% from SAR 507.6 million in the financial year 2018G to SAR 463.9 million in the financial year 2019G; this is mainly due to the Decrease in AMNCO revenues by SAR 55.1 million, as a result of a Decrease in the money exchange feeding revenues; this is mainly due to the presence of one of the Company clients in the Banking sector who reduced his business part with the Company (- SAR 30.6 million), while another Bank's contract with the Company expired and was not renewed, as the Bank concluded another contract with a competing Company due to the better pricing (- SAR 9.5 million).

Revenues increased by 7.3% to reach SAR 497.9 million in the financial year 2020G; this is mainly due to the increase in the revenues of AlShifa Technology Co. Ltd. by SAR 82.4 million as a result of supplying medical equipment mainly related to respirators and medical covers used in combating the Covid-19 pandemic for the National Unified Procurement Company (NUPCO) where the group acquired 60% of AlShifa Technology Co. Ltd., in the financial year 2020G to contribute to enhancing the Company activity; the rise was offset by a Decrease in AMNCO revenues by SAR 48.9 million as a result of the Decrease in the revenues of security; this is mainly due to the presence of one of the Company clients in the Banking sector who reduced his business part with the Company (- SAR 31.9 million), as well as the Decrease in the revenues of another client in the construction and contracting sector (SAR 14.8 million) as a result of the end of the contract within being renewed.

Revenues increased by 3.4% from SAR 105.7 million in the first quarter of the financial year 2020G to SAR 109.3 million in the first quarter of the financial year 2021G; this is mainly due to the increase in MUBARRAD revenues (+ SAR 1.8 million) as a result of the Company acquisition of several new customers in the third quarter of the financial year 2020G, coupled with City Solutions Company for Communications and Information Technology (City Solutions Company Co.) revenues (+ SAR 1.3 million), where the partial operation was started by the end of 2020G.

Revenues Cost

Revenue's cost is mainly related to the salaries, the wages, and the like (constituting 72% of the total cost of revenue in the past period), followed by the depreciation, the spare parts, the maintenance, and others. Revenue's cost decreased by 6.1% from SAR 430.1 million in the financial year 2018G to SAR 403.8 million in the financial year 2019G; this is mainly due to the decrease in AMNCO salaries, wages and like (SAR 33.4 million) in line with the Decrease in the revenue.

The cost of the revenue increased by 8.5% to reach SAR 438.1 million in the financial year 2020G; this is mainly due to AlShifa Technology Co. Limited operating costs (+ SAR 64.4 million), representing the cost of the sales for the supply of medical equipment value of SAR 55.5 million, the customs clearance fees and the shipping with a value of SAR 8.3 million. This increase was offset by a continuous decrease in AMNCO salaries, wages and like (SAR 35.9 million) in line with the continuous Decrease in the revenues.

The cost of the revenue increased by 10.0% from SAR 91.3 million in the first quarter of the financial year 2020G to SAR 100.5 million in the first quarter of the financial year 2021G; this is mainly due to the high cost of the depreciation and the amortization (+ SAR 3.1 million), especially in City Solutions Company related to receive and operate part of some parking lots of the Eastern Region project, as well as the increase in MUBARRAD depreciation and amortization as a result of purchasing a new fleet by the end of 2020G.

General and Administrative Expenses

General and administrative expenses relate mainly to the salaries, the wages and the like (constituting 65% of the total public and administrative expenses in the financial years 2018G, 2019G and 2020G, and 73% of the total public and administrative expenses in the first quarter of the financial years 2020G and 2021G), followed by the professional and advisory fees, the depreciation and the amortization expenses. General and administrative expenses Decreased by 13.1% from SAR 50.5 million in the financial year 2018G to SAR 43.9 million in the financial year 2019G; this is mainly due to the Decrease in the rental expenses (- SAR 4.4 million) as a result of some group companies canceling lease contracts for some of their administrative offices and move to BATIC building, as well as to the decrease in the cost of depreciation and amortization (- SAR 1.8 million).

General and administrative expenses remained relatively constant at SAR 44.2 million in the financial year 2020G compared to the previous period (SAR 43.9 million in the financial year 2019G).

General and administrative expenses Decreased by 3.3% from SAR 11.0 million in the first quarter of the financial year 2020G to SAR 10.7 million in the first quarter of the financial year 2021G; this is mainly due to the Decrease in the value of the depreciation and the amortization of the intangible assets resulting from the acquisition of AMNCO by BATIC.

Losses/Gains on Sale of Property and Equipment

Losses/gains on the sale of property and equipment of subsidiaries: AMNCO and MUBARRAD as a result of selling their units, whether due to the accidents, or to the obsolescence of their models that are not suitable for the Company operational operations.

Losses on the sale of property and equipment increased by 207.5% from SAR 287,000 in the financial year 2018G to SAR 883 thousand in the financial year 2019G; this is mainly due to the losses from selling MUBARRAD aging fleet. Losses on the sale of property and equipment Decreased by 131.4% to reach a profit of SAR 277 thousand in the financial year 2020G as a result of the profits obtained from AMNCO sale of property and equipment.

To note there were no profits or losses from the sale of property and equipment in the first quarter of the financial year 2021G, while the profits from the sale of property and equipment were SAR 125 thousand in the first quarter of the financial year 2020G.

Provision for Expected Credit Losses

The provision for expected credit losses relates to the trade and the other receivables. Management believes that the over this, due balances are not impaired, and they still fully collectible based on the past payment behavior and the comprehensive analysis of the customer's credit risk including the key credit ratings of the customer. The Group has calculated the estimated provisioning ratios for each period of time/category of customers, according to the simplified expected credit loss approach of the IFRS 9.

The provision for the expected credit losses Decreased by 56.6% from SAR 5.4 million in the financial year 2018G to SAR 2.3 million in the financial year 2019G as a result of responding to the doubtful debts amounting to SAR 2.3 million, mainly belonging to MUBARRAD client (UNITED MINING INVESTMENTS CO) after recalculation according to the IFRS 9, while the provision for expected credit losses increased by 661.7% to reach SAR 17.8 million in the financial year 2020G as a result of the increase in the provision for the doubtful debts to AMNCO; this is mainly due to the increase in the balances of some customers, and the irregularity in payment due to the related circumstances because of the Covid-19.

The provision for expected credit losses Decreased by 79.9% from SAR 5.9 million in the first quarter of the financial year 2020G to SAR 1.2 million in the first quarter of the financial year 2021G; this is mainly due to the increase in the formation of the provision for the expected credit losses during the first quarter of 2020G as a result of the conditions related to the Covid-19.

Other Revenue

Other revenue relates mainly to the bad debts and the other collections. Other revenue decreased by 42.9% from SAR 1.4 million in the financial year 2018G to SAR 795 thousand in the financial year 2019G; this is mainly due to the decrease in the bad debts collected.

Other Revenue increased by 205.5% to reach SAR 2.4 million in the financial year 2020G; this is mainly due to an increase in the bad debt collections of SAR1.6 million.

Other revenue decreased by 86.4% from SAR 757 thousand in the first quarter of the financial year 2020G to SAR 103 thousand in the first quarter of the financial year 2021G as a result of the decrease in the bad debt collections compared to the previous period (SAR 749 thousand).

- **AMNCO**

AMNCO revenues consist of the following:

1- Security Guards

It provides a private civil security guard service for the sites and the facilities in all regions of the KSA. Revenues of security guards increased by 2.8% from SAR 203.5 million in the financial year 2018G to SAR 209.1 in the financial year 2019G; this is mainly due to an increase in the requirements of the security guards for four of the largest companies in the construction and contracting sector of the Company (+ SAR 31.3 million) as a result of the start projects on their sites, in addition to an increase in the requirements of the security guards for a Bank (+ SAR 3.8 million). The Company also secured two new contracts in the trade sector value SAR 5.4 million. This increase was offset by a Decrease of SAR 33.3 million due to the fact that two major companies in the Banking sector reduced their business with the Company as a result of the current competitors offering competitive prices or terms.

Revenues of security guards Decreased by 23.4% to reach SAR 160.3 million in the financial year 2020G; this is mainly due to the continued December line by two major companies in the Banking sector by reducing their business with the Company (- SAR 40.6 million) and contracting with competitive companies with competitive prices, as well as to the Decrease in revenues from: 1) one of the construction and contracting companies (- SAR 10.7 million) as a result of not renewing the contract with the client, as the Company faced continuous delays in paying this is mainly dues from him, and 2) one of the investment companies (- SAR 10.6 million) as a result of the end and unrenovable contract, while the Decrease was offset by an increase in a construction and contracting Company (SAR 15.0 million) as a result of its contract with the Company at the end of 2019G.

Revenues of the security guards Decreased by 3.3% from SAR 42.7 million in the first quarter of the financial year 2020G to SAR 41.2 million in the first quarter of the 2021G because of the expiry of two contracts of the Company major clients that were not renewed (- SAR 5.9 million) as a result of non-compliance with the payment of the value of the monthly bills, and the expiry date of another contract with a medium Company amounting to SAR 1.0 million. The Decrease was offset by an increase of SAR 5.9 million as a result of a new contract with one of the largest construction and contracting companies.

2- ATM Feeding

It provides ATM feeding service in all the regions of the KSA. ATM feeding revenues Decreased by 28.7% from SAR 168.1 million in the financial year 2018G to SAR 119.9 million in the financial year 2019G; this is mainly due to a Bank reducing part of their business with the Company (SAR 30.6 million), coupled with the expiry of a contract for another Bank that was not renewed (- SAR 9.5 million) as a result of the highly competitive environment in the ATM feeding sector.

ATM feeding revenues increased by 8.0% to reach SAR 129.4 million in the financial year 2020G as a result of the increase in the revenues from a Bank (+ SAR 19.8 million) this is mainly due to the increase in the number of the ATMs allocated to the Company, while the rise was offset by a Decrease of SAR 10.7 million from one of the Banks as a result of continuing to reduce their business with the Company and turn to competing companies.

ATM feeding revenues increased by 4.3% from SAR 32.3 million in the first quarter of the financial year 2020G to SAR 33.7 million in the first quarter of the financial year 2021G as a result of the increase in the revenues from a Bank (+ SAR 3.4 million) mainly due to the increase in the number of the ATMs allocated to the Company, while this was offset by a Decrease of SAR 2.4 million from one of the other Banks as a result of the Decrease in the number of the ATMs allocated to the Company.

3- Transfer of Funds, Counting and Sorting Money and Correspondence

It provides the service of transferring money to and from the Banks, the ATMs, counting and sorting money, and correspondence. Revenues from transferring money, counting and sorting money and correspondence Decreased by 16.4% from SAR 76.6 million in the financial year 2018G to SAR 64.1 million in the financial year 2019G; this is mainly due to a Bank reducing part of its business with the Company (- SAR 7.6 million). This was also coupled with the expiry of a contract with one of the major Banks (- SAR 4.0 million) as a result of the highly competitive environment in the sector.

Revenues from transferring money, counting and sorting money, and correspondence Decreased by 15.0% in the financial year 2020G, as a result of one of the Banks continuing to reduce its business with the Company (SAR 10.5 million). This was also coupled with the total closures in the KSA this is mainly due to the pandemic (Covid-19).

Revenues from transferring money, counting and sorting money and correspondence remained relatively constant at SAR 14.1 million in the first quarter of the financial years 2020G and 2021G.

- **MUBARRAD**

Transport

It provides the service of transporting goods and missions on land roads. Transportation revenue increased by 14.4% from SAR 57.2 million in the financial year 2018G to SAR 65.4 million in the financial year 2019G as a result of entering into a contract with one of the Company main customers in the food production sector for an additional 3 years (+ SAR 5.8 million).

Transportation revenue increased slightly by 0.8% to reach SAR 65.9 million in the financial year 2020G; this is mainly due to the increase in the revenues from 4 customers in the food production sector (+ SAR 4.2 million) and 1 Company in the logistics sector (+ SAR 1.3 million). This was offset by a Decrease in one of the mining and metals companies (- SAR 2.5 million) and another Company in the logistics sector (- SAR 2.4 million) as a result of the non-compliance with paying the monthly bills; the number of the fleet was reduced and operated with the other customers.

Revenue increased by 11.9% from SAR 15.4 million in the first quarter of the financial year 2020G to SAR 17.3 million in the first quarter of the financial year 2021G because of the Company signed several contracts with new customers in the third quarter of the financial year 2020G (+ SAR 1.2 million).

- **BATIC**

Real Estate Investment

BATIC has purchased a building in Olaya neighborhood of King Fahd Street that represents the main building of the Company (the parent Company). Accordingly, the investment of the real estate Revenue relates to renting part of the main building to related parties (representing 50% of the investment of the real estate Revenue), while the remaining part represents the Revenue from the other tenants. The revenues of the investment of the real estate increased by 7.1% from SAR 3.5 million in the financial year 2019G to SAR 3.7 million in the financial year 2020G as a result of leasing 2 offices that were not rented in 2019G at SAR 302 thousand.

The revenues of the investment of the real estate increased by 11.3% from SAR 877 thousand in the first quarter of the financial year 2020G to SAR 976 thousand in the first quarter of the financial year 2021G as a result of renting some offices in the main building that were used by BATIC in the first quarter of 2020G.

- **AlShifa Technology Co. Ltd.**

Medical Equipment Supply

The Company acquired 60% of AlShifa Technology Co. Ltd. in the third quarter of the financial year 2020G, to contribute in enhancing the Company activity and supplying equipment used to combat the COVID-19 pandemic. Revenues from supplying medical equipment amounted to SAR 82.4 million in the financial year 2020G, as the Company secured the suppliers, and signed contracts with them to supply the required equipment, which, in turn, contributed to an increase in the medical equipment sales during the same period.

It is worth noting that BATIC acquired additional shares of the capital of its subsidiary (AlShifa Technology Co. Ltd.), representing 40%, to be wholly owned by BATIC at a percentage of 100% on Ramadan 14, 1442H corresponding to 26/04/2021G.

- **AMNCO Facility Management Co.**

Non-Current Assets

Non-current assets increased from SAR 281.5 million as on December 31, 2018G to SAR 302.7 million as on December 31, 2019G; this is mainly due to an increase in the investment properties value SAR 16.6 million wholly related to BATIC to purchase the Company main building (this amount represents the portion of the building classified as investment property), in addition to the increase in the right-of-use assets balance amounting to SAR 4.9 million, as a result of the application of IFRS 16.

Non-current assets increased from SAR 302.7 million as on December 31, 2019G to SAR 542.4 million as on December 31, 2020G; this is mainly due to an increase in the right to use assets balance of SAR 193.2 million related to City Solutions Company as a result of receiving part of the project positions Smart Parking in the Eastern Province. This was also coupled with an increase in the property and equipment value SAR 33.4 million as a result of the additions of locomotives, trailers, refrigeration units and vehicles mainly related to MUBARRAD because of the purchase of 100 refrigerated trailers and 60 new trucks.

Non-current assets increased from SAR 542.4 million as on December 31, 2020G to SAR 547.0 million as on March 31, 2021G; this is mainly due to an increase in the balance of advance payments for the purchase of property and equipment amounting to SAR 12.7 million they are mainly related to City Solutions Company as a result of payments to Huawei and IDEX to purchase electronic devices and operating equipment for smart parking in the Eastern Province. This was offset by a Decrease in: 1) the property and equipment of SAR 3.1 million as a result of depreciation for the same period; 2) the real estate investments of SAR 2.6 million, and 3) the right-of-use assets of SAR 2.2 million.

Current Assets

Current assets increased from SAR 220.2 million as on December 31, 2018G to SAR 258.4 million as on December 31, 2019G; this is mainly due to the increase in the trade and other receivable balances of SAR 53.5 million; they are mainly related to the increase in rents paid in advance to the Eastern Province (+ SAR 28.0 million) related to the parking lot of City Solutions Company, in addition to the increase in the balance of trade receivables (+ SAR 25.1 million) as a result of the increase in trade receivables related to AMNCO customers.

Current assets increased from SAR 258.4 million as on December 31, 2019G to SAR 283.0 million as on December 31, 2020G; this is mainly due to an increase in cash and cash equivalents (+ SAR 21.7 million) as a result of realizing cash generated from operating activities during 2020G compared to cash used during 2019G, in addition to the cash generated from financing activities paid with the amounts received from loans and notes payable.

Current assets increased from SAR 283.0 million as on December 31, 2020G to SAR 302.1 million as on March 31, 2021G; this is mainly due to the increase in the investments at fair value through profit or loss (SAR +10.1 million) related to managed investment portfolio investments by Al-Istithmar Capital. This was also coupled with an increase in trade and other receivables (SAR +11.3 million) as a result of an increase in the trade receivables related to AMNCO customers due to the relative increase in revenues during the same period.

Property Rights

Equity increased from SAR 386.3 million as on December 31, 2018G to SAR 388.1 million as on December 31, 2019G, in line with the increase in retained earnings (+ SAR 2.4 million) driven by an annual net profit of SAR 6.8 million. This was offset by a Decrease in non-controlling interests (- SAR 785 thousand).

Equity Decreased from SAR 388.1 million as on December 31, 2019G to SAR 371.5 million as on December 31, 2020G, in line with the Decrease in the retained earnings (SAR 12.9 million) driven by an annual net loss of SAR 13.4 million. The annual loss was mainly due to the increase in the provision for expected credit losses (SAR +15.4 million) mainly related to AMNCO clients.

Equity Decreased from SAR 371.5 million as on December 31, 2020G to SAR 364.5 million as on March 31, 2021G, in line with the Decrease in the retained earnings (- SAR 3.7 million) driven by a net loss for the first quarter of 2021G of SAR 3.8 million, in addition to a Decrease in the non-controlling interests (- SAR 3.2 million) driven by a net loss for the first quarter.

Non-Current Liabilities

Non-current liabilities increased from SAR 42.2 million as on December 31, 2018G to SAR 74.2 million as on December 31, 2019G; this is mainly due to the increase in the long-term loans (+ SAR 26.9 million) mainly related to Arab Bank and Riyadh Bank loans to BATIC.

Non-current liabilities increased from 74.2 million SAR as on December 31, 2019G to 319.0 million SAR as on December 31, 2020G; this is mainly due to the increase in the lease commitment (+ SAR 177.0 million) driven by the parking lots leased from the Eastern Region Municipality of City Solutions Company; this was also coupled with an increase in the long-term loans (+ SAR 61.7 million) mainly related to Emirates NBD loan to Smart Cities Solutions.

Non-current liabilities increased from SAR 319.0 million as on December 31, 2020G to SAR 330.9 million as on March 31, 2021G; this is mainly due to the increase in long-term loans (SAR +11.3 million) mainly related to Emirates NBD loan to Smart City Solutions; this was offset by a Decrease in promissory note (- SAR 1.2 million) as a result of the amounts paid.

Current Liabilities

Current liabilities increased from SAR 73.2 million as on December 31, 2018G to SAR 98.7 million as on December 31, 2019G; this is mainly due to the increase in the current portion of the long-term and short-term loans (+ SAR 37.2 million) mainly related to a short loan (the term in AMNCO is SAR 30 million from the Investment Bank, the Arab Bank loan for BATIC, and the Riyadh Bank loan for two refrigeration companies).

Current liabilities increased from SAR 98.7 million as on December 31, 2019G to SAR 134.9 million as on December 31, 2020G; this is mainly due to the increase in the current portion of the long-term and short-term loans (SAR +17.2 million) mainly related to the short-term loans with Riyadh Bank for BATIC, and a short-term loan from the French Bank for AMNCO; this was also coupled with an increase in the balance of the trade creditors and the other credit balances (+ SAR 11.2 million) mainly related to the increase in the balance of the trade creditors as a result of the increase in the balances of 5 suppliers and the increase in the other credit balances related to the leave allowance.

Current liabilities increased from SAR 134.9 million as on December 31, 2020G to SAR 153.8 million as on March 31, 2021G; this is mainly due to the increase in the trade and the other credit balances (+ SAR 22.3 million) mainly related to the increase in the other credit balances related to March leave allowance and accrued salaries; they were paid in April, to AMNCO.

Investment properties are represented in the land and buildings intended for the investment and leased to third parties; they are evaluated by a qualified and independent expert (Estnad Valuation). The real estate appraisal mechanism applied in evaluating the investment real estate is in compliance with the International Valuation Standards Board and with the directives of the Saudi Authority for Accredited Valuers (TAQEEM).

The cost of the investment properties as of March 31, 2021G amounted to SAR 42.4 million; it mainly consists of :1) the investment properties value SAR 22.5 million, representing the winery land in Jeddah, 2) the investment properties value SAR 2.0 million, represented by a contribution in the lands of northeastern Jeddah, and 3) the investment properties value SAR 16.7 million, representing lands, buildings and equipment in Al-Ma'athar neighborhood in Riyadh.

The balance of the investment properties increased from SAR 24.8 million as on December 31, 2018G to SAR 41.4 million as on December 31, 2019G; this is mainly due to the additions of SAR 17.0 million, mainly related to the new main building (SAR 8.5 million) and the land in Al-Ma'athar district (SAR 8.3 million). These values represent 50% of the total value of the asset, with the remaining portion of the value being classified as fixed assets, in accordance with the requirements of IAS 40.

The balance of the investment properties Decreased from SAR 41.4 million as on December 31, 2019G to SAR 41.2 million as on December 31, 2020G; this is mainly due to the depreciation for the same period amounting to SAT495. It was offset by the additions value SAR 327 thousand related to December orations in the administrative building.

The balance of the investment properties Decreased from SAR 41.2 million as on December 31, 2020G to SAR 38.7 million as on March 31, 2021G; this is mainly due to a reclassification from the investment properties to the fixed assets with a value of SAR 2.5 million according to the change in the areas used by the group.

The existing customer base resulted from the acquisition of AMNCO in 2015G. The balance of the existing customer base Decreased from SAR 1.1 million as on December 31, 2018G to SAR 855 thousand as on December 31, 2019G, and then to SAR 599 thousand as on December 31, 2020G, and to SAR 535 thousand as on March 31, 2021G as a result of the amortization period.

Technology and Systems

Technology and systems are mainly related to the enterprise resource planning system and projects under implementation, as a result of the acquisition of AMNCO in 2015G. The balance of the technology and systems Decreased from SAR 4.9 million as on December 31, 2018G to SAR 3.9 million as on December 31, 2019G this is mainly due to the amortization of the period amounting to SAR 2.2 million. It was offset by the additions of SAR 1.2 million related to the "TRANSTRACK INTERNATIONAL" program for AMNCO.

The balance of technology and systems Decreased from SAR 3.9 million as on December 31, 2019G to SAR 3.2 million as on December 31, 2020G; this is mainly due to the amortization of the period amounting to SAR 1.2 million. It was offset by the additions of SAR 499 thousand.

The balance of technology and systems Decreased from SAR 3.2 million as on December 31, 2020G to SAR 3.0 million as on March 31, 2021G as a result of the amortization period of SAR 230 thousand.

Track-In shares

The investment of BATIC which took place during 2018G, is represented in the purchase of 22,675 shares of the shares of TRACK-IN, where the percentage of investment reached 21.50%. BATIC classified the investment as a financial investment at fair value through profit or loss. The shares of Track-In remained stable at SAR 1.6 million as of December 31, 2018G and 2019G.

The shares of Track-In increased from SAR 1.6 million as on December 31, 2019G to SAR 1.7 million as on December 31, 2020G, as a result of the Company increasing its shares by 78,989 shares, with a value of SAR 147,5 thousand. The shares of Track-In remained stable at SAR 1.7 million, or 14.02%, as on March 31, 2021G.

The cost price has been adopted as the administration does not have the inputs required to use the valuation methods (levels 1 & 2) based on the market value; the administration has found that the discounted cash flow approach or the replacement cost approach may result in an unreliable fair value. Accordingly, the management has adopted the cost price of the investment, and does not expect a December line in the value of the investment.

United Dairy Farms Company

The investments of the United Dairy Farms Company remained stable at SAR 300,000 as on December 31, 2018G, 2019G, 2020G and March 31, 2021G, as a result of the management's reliance in BATIC on the cost price of investment in the United Dairy Farms Company mainly due to the lack of fair value for this investment. The Company expects that there will be no December line in the value of the investment.

Shareholding in North East Jeddah Lands and Converted into Investment Properties

The shareholding in North East Jeddah lands amounting to SAR 2.0 million has been reclassified to the real estate investments as on December 31, 2018G. It is represented in BATIC to the land in North East of Jeddah in an investment in land with another party by a contract. The Company received a letter from the Real Estate Contributions Committee No. 1207, dated 17/04/1442H, stating that the committee is still working on liquidating the contribution through the Execution Court to collect the amount of the bond for the order submitted by the land purchaser at a value higher than the cost price; the situation still as it is until the date of the non-consolidated statement of financial position is March 31, 2021G.

5.6.12 Advance Payments for The Purchase of Property and Equipment

The advance payments for the purchase of property and equipment are in contracts for the purchase of property and equipment, consisting of equipment and devices for establishing and operating (electronic devices and operating equipment for parking from IDEX) for the smart parking project in Khobar, Dhahran and Dammam cities; the balance amounted to SAR 27.2 million on March 31, 2021G (SAR 151 thousand, and SAR 14.5 million as on December 31, 2019G and 2020G, respectively).

Trade receivables

Trade receivables increased from SAR 118.8 million as on December 31, 2018G to SAR 143.9 million as on December 31, 2019G; this is mainly due to the increase in AMNCO customers trade receivables by SAR 24.1 million, mainly as a result of the increase in the trade receivables for five major clients in the construction, contracting and investment sector (+ SAR 31.3 million) in line with the increase in its revenues, in addition to the higher revenue for other customers; so, their trade receivables rise. It was offset by a Decrease of SAR 10.7 million related to a Bank as a result of reducing the volume of business with the Company.

Trade receivables increased from SAR 143.9 million as on December 31, 2019G to SAR 182.4 million as on December 31, 2020G this is mainly due to an increase in the receivables related to AMNCO customers by an amount of SAR 31.9 million, mainly this is mainly due to an increase in the trade receivables from one of the main clients of the construction and contracting sector (+ SAR 12.4 million) as a result of the increase in operating business with the Company (increase in revenues), in addition to the increase in the balance of another client in the construction and contracting sector (+ SAR 4.0 million) for his failure to pay the monthly bills values that contributed to the increase in the balance. The Company new contracts with several other companies, the most important of which are the Banking sector, the cultural sector and the technology sector (+ SAR 9.0 million) contributed to an increase in the balance of the trade receivables during the same period.

Trade receivables increased from SAR 182.4 million as on December 31, 2020G to SAR 193.3 million as on March 31, 2021G; this is mainly due to an increase in the trade receivables related to AMNCO customers by an amount of SAR 10.2 million; this is mainly due to the increase in the receivable trade of 3 local Banks (+ SAR 8.0 million) in line with the rise in the ATM feeding revenues, as well as to the increase in the balance of one of the main construction and contracting sector clients (+ SAR 3.6 million) because of the continuous increase business with the same client.

Provision for Expected Credit Losses for Trade Receivables

The Group calculates the estimated provisioning ratios, according to the simplified expected credit loss approach included in IFRS 9.

The provision for trade receivables increased from SAR 7.1 million as on December 31, 2018G to 8.1 million SAR as on December 31, 2019G; this is mainly related to the increase in AMNCO provision by SAR 3.4 million as a result of the increase in receivable balances and the aging of some balances for lack of the ability of some customers to commit to paying the this is mainly dues periodically. It was offset by a Decrease in MUBARRAD provision of SAR 2.3 million.

The provision for trade receivables increased from SAR 8.1 million as on December 31, 2019G to SAR 21.6 million as on December 31, 2020G; this is mainly due to an increase in AMNCO provision by SAR 12.3 million as a result of the increase in the balances of some customers and the irregular payments as a result of conditions related to the COVID-19 virus.

The provision for trade receivables Decreased from SAR 21.6 million as on December 31, 2020G to SAR 21.3 million as on March 31, 2021G; this is mainly due to the use of SAR 769 thousand from the provision and the formation of SAR 395 thousand in the provision of the expected credit losses.

Receivable from Money Exchanges

Receivable from money exchanges relate only to AMNCO; they mainly represent embezzlement that occurs when transferring money or feeding money changers. The majority of receivable from money exchanges are receivables for more than one year; the management leads to the formation of a provision for them according to the ages of those balances using previous collection practices.

Receivables from money exchanges increased from SAR 28.2 million as on December 31, 2018G to SAR 29.2 million as on December 31, 2019G; this is mainly due to an increase in the embezzlement incidents with a value of SAR 921,000.

Receivable from money exchanges Decreased from SAR 29.2 million as on December 31, 2019G to SAR 28.9 million as on December 31, 2020G; this is mainly due to a Decrease in the embezzlement incidents by a value of SAR 294 thousand as a result of the circumstances related to the Covid-19 virus.

Receivable from money exchanges increased from SAR 28.9 million as on December 31, 2020G to SAR 32.6 million as on March 31, 2021G as a result of: 1) damage of funds amounting to SAR 2.0 million, as black ink is sprayed on the money inside smart bags when they are opened incorrectly by Cashier Feeding Officer, and 2) embezzlement of SAR 1.0 million. It is worth noting that the money damaged as a result of the wrong opening of the smart bags is replaced with new money from the Saudi Central Bank. With regard to the embezzled amount of SAR 1 million, the administration reports that the amount is under collection, as the embezzler was caught by the police.

Prepaid Expenses

Prepaid expenses mainly relate to advance payments for the government procedures for non-Saudi employees of exit and re-entry visas, multiple visas for international transport drivers, and residency renewals, as well as to advisory services fees and prepaid rents to which IMPS 16 does not apply.

Prepaid expenses increased from SAR 12.1 million as on December 31, 2018G to SAR 14.1 million as on December 31, 2019G; this is mainly due to the increase in the prepaid expenses for AMNCO Consolidated Company amounting to SAR 3.7 million as a result of the prepaid rents and the residency fees. It was offset by BATIC Decrease by SAR 2.2 million as a result of converting the consulting expenses paid in advance to the expenses this is mainly due to the non-completion of the acquisition deals.

Prepaid expenses Decreased from SAR 14.1 million as on December 31, 2019G to SAR 9.5 million as on December 31, 2020G; this is mainly due to the Decrease in AMNCO prepaid expenses by SAR 4.2 million.

Prepaid expenses increased from SAR 9.5 million as on December 31, 2020G to SAR 11.6 million as on March 31, 2021G; this is mainly due to the increase in AMNCO prepaid expenses, amounting to SAR 2.0 million, as a result of the increase in the advance payments related to rents.

Prepaid rents to the Eastern Province Municipality

The rents paid in advance to the Eastern Province Municipality relate to only City Solutions Company; they represent the advance payments for the rent of the parking lot, started during 2019G, and amounted to SAR 27.9 million as on December 31, 2019G.

The rents paid in advance to the Eastern Province Municipality Decreased from SAR 27.9 million as on December 31, 2019G to 10.7 million SAR as on December 31, 2020G as a result of transferring part of the amounts paid in advance to the Eastern Province Secretariat to a right-of-use asset account.

The rents paid in advance to the Eastern Province Municipality is settled on SAR 10.7 million as on March 31, 2021G.

Letters of Guarantee Insurance

Letters of guarantee bonds mainly relate to AMNCO guarantees to the potential customers when participating in tenders, in addition to the insurances paid to the drivers' suppliers hired by the human resources. The insurance of letters of guarantee Decreased slightly from SAR 6.9 million as on December 31, 2018G to SAR 6.7 million as on December 31, 2019G as a result of the Decrease in the participation in tenders during the same period.

The insurance of letters of guarantee increased from SAR 6.7 million as on December 31, 2019G to SAR 9.2 million as on December 31, 2020G; this is mainly due to the increase in AMNCO letters of guarantee insurance with SAR 1.9 million as a result of the increase in the participation in the tenders during the same period, as well as of issuing letters of guarantee at AlShifa Technology Co. Ltd.

The insurance of letters of guarantee Decreased slightly from SAR 9.2 million as on December 31, 2020G to SAR 8.9 million as on March 31, 2021G; this is mainly due to the Decrease in AMNCO letters of guarantee insurance by SAR 817,000 as a result of the Decrease in the participation in the tenders during the same period.

Business Assurance Retains

Business Assurance Retentions relate to some AMNCO clients, where contracts entered into with them stipulate withholding a certain percentage of the invoice/contract value as a good performance guarantee.

Business guarantee retentions Decreased from SAR 15.2 million as on December 31, 2018G to SAR 11.9 million as on December 31, 2019G, and then, to SAR 10.8 million as on December 31, 2020G in line with AMNCO Decrease in revenues, in addition to the expiry of some customer contracts that require a business guarantee retention.

Business guarantee retentions also Decreased from SAR 10.8 million as on December 31, 2020G to SAR 5.9 million as on March 31, 2021G as a result of the expiration of a customer contract and the collection of part of these retentions during the first quarter of 2021G financial year.

Advance Payments to Suppliers

Advance payments to suppliers relate to AMNCO, which consisted of amounts paid in advance to different suppliers to provide the required supplies (smart bags, bag locks, guard clothing, etc.) in AMNCO and its subsidiaries operational activities.

Payments made to suppliers Decreased from SAR 3.3 million as on December 31, 2018G to SAR 1.9 million as on December 31, 2019G as a result of AMNCO not needing to purchase additional supplies in the Decrease in revenues.

Advances to suppliers Decreased from SAR 1.9 million as on December 31, 2019G to SAR 1.3 million as on December 31, 2020G as a result of the continuous Decrease in AMNCO revenues of and the lack of the need to purchase new supplies (- SAR 1.1 million), while the advance payments increased to the suppliers of City Solutions Company (+ SAR 415 thousand) as a result of the amounts paid in advance to the consultants in the smart parking project.

Payments made to suppliers Decreased from SAR 1.3 million as on December 31, 2020G to SAR 980,000 as on March 31, 2021G as a result of the Decrease in the amounts paid in advance to the consultants in the smart parking project.

Other Debit Balances

Other debit balances mainly relate to AMNCO and include amounts paid to the Ministry of Interior for violations, the majority of which are carried over from previous years, and the administration forms a provision of those receivables and previous collection practices. It is worth noting that the Company is objecting to a number of these violations, but they are still under review; a provision has been made to cover cases that are not subject to objection. The fines from the Ministry of Interior are fines for carrying a weapon by members of the security guards; they were objected to, as the Company submitted a request to allow the import of weapons and the delay in obtaining approval from the Ministry.

Other debit balances increased from SAR 6.9 million as on December 31, 2018G to SAR 10.8 million as on December 31, 2019G; this is mainly due to AMNCO increase in the other debit balances amounting to SAR 3.5 million as a result of the increase in the violations related to the employees in the Money transfers, as well as to the high fines that are acceptable to the Ministry of Interior.

Other debit balances increased from SAR 10.8 million as on December 31, 2019G to SAR 12.9 million as on December 31, 2020G; this is mainly due to AMNCO increase in other debit balances with SAR 1.1 million because of the increase in the fines that are acceptable to the Ministry of Interior, and MUBARRAD other debit balances by SAR 1.0 million as a result of the increase in the balance of employee and advances claims, pending compensation from insurance companies and the balance of value-added tax.

Other debit balances Decreased from SAR 12.9 million as on December 31, 2020G to SAR 12.1 million as on March 31, 2021G. this is mainly due to the Decrease in AMNCO other debit balances by SAR 502 thousand as a result of settling fines with the Ministry of Interior that was not completed accepting its objection to the provisions that have been created, as well as to the Decrease in MUBARRAD other debit balances by SAR 104 thousand as a result of the Decrease in the balances of the employee claims and advances.

Provision for Expected Credit Losses for Other Debit Balances

The provision for expected credit losses for other debit balances relates to AMNCO accounts receivables from money changers and receivables with the Ministry of Interior. These balances are analyzed and evaluated by the legal counsel of the Company depending on the status of the case. The ratios shown below represent the ratios used by the Company to calculate the allowance for expected credit losses for receivables.

Lawsuit situation	Ratio in favor of the Company	Ratio is in favor of the Company
Open lawsuit	50%	50%
Primary in favor of the Company / objection to the Ministry of the Interior	80%	20%
Primary call back Company	20%	80%
Final	100%	-

The cost of the employees' end-of-service benefit compensation obligation under the unfunded defined benefit program is determined using actuarial valuation. The actuarial valuation includes many assumptions that may differ from actual developments in the future. These assumptions include determining the discount rate, future salary increases, and employee turnover. Given the complexity of the valuation and its long-term nature, the unfunded defined benefit obligation is highly sensitive to changes in these assumptions. Therefore, all assumptions are reviewed once a year when necessary. IAS 19 requires the use of actuarial assumptions to measure the obligation for end of service benefits (end of service indemnity provision), which is a defined benefit obligation. These assumptions include Company management's estimates of variables such as final salaries that will be used as the basis for calculating end-of-service benefits. The Company has prepared these actuarial assumptions by an actuarial expert based on the best estimate of the Company management for these variables.

Employees' end-of-service benefits obligations increased from SAR 36.2 million as on December 31, 2018G to SAR 38.1 million as on December 31, 2019G, as a result of actuarial losses from reassessment and calculation of employees' end of service benefits by an actuarial expert. This was offset by amounts paid during the period amounting to SAR 12.5 million.

Employees' end-of-service benefits obligations Decreased from SAR 38.1 million as of December 31, 2019G to SAR 36.0 million as of December 31, 2020G, as a result of the increase in amounts paid during the period amounting to SAR 15.0 million. This was offset by additions, as a result of actuarial losses resulting from the re-evaluation and calculation of employee end-of-service benefits by an actuary.

Employees' end-of-service benefits obligations increased slightly from SAR 36.0 million as on December 31, 2020G to SAR 36.7 million as on March 31, 2021G, as a result of additions to the provision during the first quarter of the financial year 202G, amounting to SAR 3.8 million, offset by amounts paid during the period in the amount of SAR 3.1 million.

Revenues

The revenues Decreased by 11.9% from SAR 450.4 million the financial year 2018G to SAR 396.9 million in the financial year 2019G; this is mainly due to the Decrease in:

- 1- ATM feeding revenues (- SAR 48.2 million); this is mainly due to a Bank reducing part of their business with the Company (- SAR 30.6 million), as this was coupled with the expiry of a contract for another Bank that was not renewed (- SAR 9.5 million), as a result of the highly competitive environment in the ATM feeding sector; and
- 2- The revenues from transferring money, counting and sorting money and correspondence (- SAR 12.6 million); this is mainly due to a Bank reducing part of their business with the Company (- SAR 7.6 million), as was coupled with the termination of a contract with one of the major Banks (- SAR 4.0 million), as a result of the highly competitive environment in the sector.

While this Decrease was offset by an increase in:

- 1- The ATM feeding revenues (+ SAR 9.6 million), as a result of the increase in revenues from a Bank (+ SAR 19.8 million) this is mainly due to the increase in the number of ATMs allocated to the Company. The rise was offset by a Decrease (- SAR 10.7 million) from one of the Banks, as a result of continuing to reduce their business with the Company and moving to competing companies; and
- 2- The maintenance and the operating Revenue - of AMNCO Facilities Management Company Ltd. - (+ SAR 3.5 million), as a result of new contracts obtained by the Company with the related parties, such as MUBARRAD and other clients.

Revenues increased by 2.5% from SAR 90.6 million in the first quarter of the financial year 2020G to SAR 92.9 million in the first quarter of 2021G mainly this is mainly due to the increase in:

- 1- The ATM feeding revenues (+SAR 1.4 million), as a result of the increase in revenues from one of the Banks (+ SAR 3.4 million) this is mainly due to the increase in the number of ATMs allocated to the Company. While this was offset by a Decrease of SAR 2.4 million from one of the other Banks, as a result of the Decrease in the number of ATMs allocated to the Company;
- 2- The maintenance and the operating Revenue (+ SAR 1.2 million), as a result of new contracts during the same period; and
- 3- The revenues of smart car parks - of City Solutions Company - (+ SAR 1.3 million), as the Company started its activities during the financial year 2019G and began using revenues at the end of the financial year 2020G.

While this increase was offset by a Decrease in the revenues of security guards (- SAR 1.4 million), as a result of the expiry of two contracts of the Company major clients that were not renewed (- SAR 5.9 million), as a result of non-compliance with paying the monthly bills, and the expiry of another contract with a medium-sized Company with a value of SAR 1.0 million. The Decrease was offset by an increase of SAR 5.9 million, as a result of a new contract with one of the largest constructions and contracting companies.

Cost of Revenues

The cost of revenues mainly relates to salaries, wages and the like (constituting the equivalent of 87%, 86% and 81% of the total cost of revenues for 2018G, 2019G and the financial year 2020G s, respectively). Revenues

Revenues increased by 14.4% from SAR 57.2 million in 2018G to SAR 65.4 million in 2019G, as a result of entering into a contract with one of the Company main customers in the food production sector for an additional 3 years (+ SAR 5.8 million).

Revenues increased by 0.8% to reach SAR 65.9 million in 2020G, mainly this is mainly due to the increase in revenues from four customers in the food production sector (+ SAR 4.2 million) and a Company in the logistics sector (+ SAR 1.3 million). This was offset by a Decrease in the revenues of one of the mining and metals companies (- SAR 2.5 million) and another Company in the logistics sector (- SAR 2.4 million) as a result of the non-compliance with paying the monthly bills; the number of the fleet was reduced and operated with other customers.

Revenues increased by 11.9% from SAR 15.4 million in the first quarter of 2020G to SAR 17.3 million in the first quarter of 2021G, as a result of the Company contracting with the new customers in the third quarter of 2020G.

Revenue Cost

The cost of the revenues increased by 12.1% from SAR 51.2 million in 2018G to SAR 57.3 million in 2019G as a result of the increase in the salaries and wages (+ Sar 5.3 million) this is mainly due to the increase in the number of the employees (+ 14 employees) in line with the increase in the revenues.

The cost of the revenue also increased by 1.4% to reach SAR 58.2 million in 2020G; this is mainly due to the increase in the salaries and wages (+ SAR 2.0 million) in line with the increase in the number of the Company administrative staff (+ 2 employees). This was offset by a Decrease in the costs of the feedback and approvals (- SAR 1.1 million) as a result of the Decrease in the number of the operational employees during the same period (from 253 to 197 employees).

The cost of the revenue continued to increase by 29.7% from SAR 13.4 million in the first quarter of 2020G to SAR 17.3 million in the first quarter of 2021G; this is mainly due to the increase in the other costs (+ SAR 1.7 million) as a result of the Company exposure to violations and fines this is mainly due to the delay in the renewal of transport license.

General and Administrative Expenses

General and administrative expenses increased slightly by 4.0% from SAR 4.1 million in 2018G to SAR 4.3 million in 2019G; this is mainly due to the increase in the rental expenses (+ SAR 53 thousand) in addition to the increase in the medical insurance costs (+ SAR 48 thousand).

General and administrative expenses Decreased by 2.9% to reach SAR 4.2 million in 2020G, mainly this is mainly due to the Decrease in the rental expenses (- SAR 156 thousand) as a result of the group's purchase of the Company main building. This was also coupled with a Decrease in the professional and consulting fees (- SAR 149 thousand). This was offset by an increase in the consumption (+ SAR 198 thousand).

General and administrative expenses increased by a slight 3.8% from SAR 966 thousand in the first quarter of 2020G to SAR 1.0 million in the first quarter of 2021G, mainly this is mainly due to the increase in the depreciation (+ SAR 39 thousand), salaries, wages and like (+ SAR 38 thousand) in line with the increase in the number of the employees (+16 employees), as well as a Decrease in the rental costs (- SAR 43 thousand).

9.4.5 The Continuing Obligations as Per the Requirements of the CMA

- The CMA requires listed companies in the Capital Market to abide by the rules on the offer of security and continuing obligation and by the special instructions issued by the CMA, in particular the obligation to periodically disclose the material and financial developments and the Board of Directors report. Moreover, according to the Guide to Continuing Obligations of Listed Companies, the annual financial results announced on Tadawul website must be derived from the audited financial statements approved by the Company external auditor appointed by the Assembly and approved by the Board of Directors, and the Company must adhere to the advertisement forms included in the instructions for companies' announcements of their financial results. The Company must also provide a statement of all the causes and effects of the change in the financial results for the current financial year with the comparison period, so that the reasons include all the items of the financial results announcement.
- The CMA requires listed companies in the Capital Market to disclose the stages of their compliance with the transition to the International Accounting Standards (IAS). On 25/11/1437H (corresponding to 28/08/2016G), the Company announced on Tadawul website that it is committed to such transition.
- The CMA requires listed companies in the Capital Market to follow the list of instructions for announcements of joint-stock companies whose shares are listed therein, issued pursuant to the CMA Board Decision No. (1-199-2006) dated 18/07/1427H (corresponding to 12/08/2006G), as amended according to Resolution No. (1-104-2019) dated 01/02/1441H (corresponding to 30/09/2019G).
- The CMA requires listed companies in the Capital Market to apply the conditions of the Procedures and Instructions for Companies mentioned in the issued in implementation of the Companies Law for Listed Joint Stock Companies (3rd version) issued by the CMA Board pursuant to Resolution No. (8-127-2016) dated 16/01/1438H (corresponding to 17/10/2016G) based on the Companies Law issued by the Royal Decree No. M/3 dated 28/01/1437H, as amended by the CMA Council Resolution No. (3-57-2019) dated 15/09/1440H (corresponding to 20/05/2019G). With the exception of the remunerations that the managing director receives in return for his sabbatical in managing the Company daily business and those that are paid annually to the members of the BOD as indicated in sub-paragraph 9.1.7.3 "**Board Members' Remuneration**" and sub-paragraph 4.6, compensation and remunerations for the BOD members and the executive management, no payments have been made. The criteria stipulated in the controls and procedures were taken into consideration.
- The Company also complied with Article 7 of the controls and procedures in terms of disclosure in the BOD report to a comprehensive statement of all the Board members received during the financial year in terms of remunerations, expense allowances and other financial and in-kind benefits paid to each member of the BOD in exchange for any business or positions executive, technical, administrative or advisory. The Company does not have treasury shares allocated to its employees within the employee stock program; the EGA has never approved the purchase of the Company shares; the Company is committed to the provisions of Article 20 of the controls and procedures whereby the capital may be increased by offering rights shares. Although there is a provision in the Articles of Association allowing the Company to issue preferred shares, there is no resolution issued by the EGA in this regard. The Company has also complied with the licensing controls for business and contracts that are made for the Company account and in which a member of the BOD has a direct or indirect interest. For more details, please see sub-paragraph 9.5.1 "**Agreements and Related Parties' Transactions**". The Company is committed to the controls and procedures regarding the provision of the articles of association to distribute interim dividends on a semi-annual or quarterly basis after fulfilling the statutory requirements.

It should also be noted that the ordinary general assembly meeting dated 20/10/1442H. (corresponding to 01/06/2021G.) approved to delegate the authorisation powers stipulated in paragraph (1) of Article 71 of the Companies Law to the company's Board of Directors in relation to the authorisation for businesses or contracts that are executed for the Company's account, in which a Board member has direct or indirect interest.

According to Article 56 of the Regulatory Rules and Procedures issued pursuant to the Companies Law relating to Listed Joint Stock Companies issued by the Board of the Capital Market Authority pursuant to resolution No. 8-127-2016 dated 16/1/1438H (corresponding to 17/10/2016G) amended by Resolution of the Board of the Capital Market Authority Number (4-122-2020) Dated 3/4/1442H (corresponding to 18/11/2020G):

- a. the Ordinary General Assembly shall have the right to delegate the authorisation powers stipulated in paragraph (1) of Article 71 of the Companies Law to the company's Board of Directors, provided that the delegation is in accordance with the following conditions:
 - 1- The total amount of business or contract or the total of the businesses and contracts during the fiscal year - is less than (1%) of the company's revenues according to the latest audited financial statements and less than 10 million Saudi Riyals.
 - 2- The business or contract falls within the normal course of the Company's business.
 - 3- The business or contract shall not include preferential terms to the Board members and shall be in accordance with the same terms and conditions followed by the company with all contractors and dealers.
 - 4- The business or contract shall not be part of the business and consultation contracts which a board member carries out by a professional license for the company in accordance with Article 3 of these Regulations.
 - 5- The board member shall be responsible for calculating the business, stipulated in paragraph (1) above, (in which he has a direct or indirect interest during the same fiscal year).
 - 6- The period for the delegation shall be a maximum of one year from the date of approval by the General Assembly to delegate its powers, stipulated in paragraph (1) of Article 71 of the Companies Law, to the company's Board of Directors, or until the end of the session of the delegated Board of Directors, whichever is earlier.
 - 7- Any member of the Board of Directors shall not be allowed to vote on the items of delegation and the revocation (in the Ordinary General Assembly).

- b. The Ordinary General Assembly shall have the right to add additional terms to the terms stated in this Article, provided that such terms are included in the conflict of interest policy referred to in Article 43 of the Corporate Governance Regulations.

Three directors voted on the delegation of the authorisation powers stipulated in relation to the authorisation for businesses or contracts that are executed for the Company's account, in which the director has direct or indirect interest. Based on the above. A member of the Board of Directors shall not be allowed to vote on the items of delegation and the revocation (in the Ordinary General Assembly) which could allow the regulator to question the three directors. It should also be noted, that the authorization of the Ordinary General Assembly has not been used in any contracts or related party transactions.

The minutes of this meeting were signed and approved by the following Board Members: Ahmed bin Muhammad Al-Sanea, Muhammad bin Saud Al-Zamil, Sultan bin Abdulaziz Al-Mubarak, Firas bin Khalid Al-Bawardi and Fahd bin Mubarak Al-Qathami.

- On 12/02/1443H (corresponding to 19/09/2021G), the convening Ordinary General Assembly approved the business and contracts to be concluded between Batic Investment and Logistics Company and the Arab Company for Security and Safety Services "AMNCO" (a subsidiary company), in which the Board Chairman Ahmed bin Muhammad Al-Sanea, Vice Chairman Majed bin Abdullah Al-Issa, delegate Member and Managing Director (MD) Mohammed bin Saud Al-Zamil, and Board Members Firas bin Khaled Al Bawardi and Fahd bin Mubarak Al-Qathami have indirect interest. This interest is represented in the purchase of the entire shares owned by "AMNCO" in the SCS Company's capital, for a nominal value of SR (35,000), with all rights and obligations and without any preferential terms.

It is worth mentioning that the statutory procedures for the transfer of shares are being completed by the Ministry of Commerce and the General Authority for Competition.

It should be noted that Board Members who have direct or indirect interests in the above-mentioned business and contracts have committed to not vote on the items in the General Assembly held on 02/12/1443H (corresponding to 09/19/2021G).

It is noteworthy that on 12/08/1440H (corresponding to 17/04/2019G), the Executive and Investment Committee was held in Session No. (05/13) which reviewed the item and decided to recommend what was submitted by the Board of "AMNCO", regarding the deal of the Express Parking Company (the former name of the Smart City Solutions Company for Communications and Information Technology). This item was discussed by the members of the Executive and Investment Committee and reviewed: (1) Draft Agreement and draft Memorandum of Association for the Express Parking Company, (2) Memorandum of Understanding signed on 11/07/2018G between AMNCO and the Smart Parking Holding Company, (3) Promissory note submitted to the Banque Saudi Fransi on 02/10/2018G by AMNCO and the guarantees (the company's guarantee), issued to the Banque Saudi Fransi for the purpose of submitting the tender, and signed on 26/08/2018G, and (4) Disclosures submitted by AMNCO Board's Chairman Ahmed Al-Sanea and the disclosure submitted by AMNCO Executive and Investment Committee and Executive Committee Member, Majed Al-Issa. A vote was taken to approve raising the recommendation to the BOD, and Resolution No. (13/2-5) was taken in this regard. It should be noted though that at the beginning of the discussion of this item, Majed Al-Issa asked permission and left the meeting because he was a party related to the deal. The minutes of this meeting were signed by the Chairman of the Executive and Investment Committee Fawaz bin Abdul Sattar Al-Alami, the Committee Members Fahd bin Mubarak Al-Qathami and Majid bin Abdullah Al-Issa, in addition to the Secretary of the Committee Mohammed bin Saleh Al-Mazayed.

Moreover, it is worth mentioning that on 04/14/1441H (corresponding to 11/12/2019G), the Executive and Investment Committee Resolution No. (05/13) was issued and approved by circulation, and it has included the following approvals:

- Approval to submit a recommendation to AMNCO's BOD in order to obtain credit facilities, in compliance with the provisions of Islamic Sharia from Emirates NBD worth SR (79,000,000) for seven years, in exchange for guarantees provided by AMNCO in the form of a promissory note of SR (79,000,000), a company guarantee provided by Batic, and a guarantee provided by SCS Company (for more information on this financing, please refer to Paragraph No. (9.5.4) "Loans and facilities" of this Section).

10.2 Summary of the Underwriting Agreement

The terms and conditions of the Underwriting:

- 1- The Company undertakes to the Underwriter that, at the date of allocations, it will issue and allocate to the Underwriter all remaining rights issue shares covered under the Underwriting Agreement which have not been subscribed to by the Eligible Shareholders. Such shares shall be issued as additional shares at the subscription price.
- 2- The Underwriter undertakes to the Company that on the date of allocation, he will purchase the underwritten shares which have not been subscribed to by the Eligible Shareholders, at the subscription price.
- 3- The Underwriter shall receive financial consideration for providing such underwriting services, and these expenses will be deducted from the subscription proceeds.

11. Waivers

The Company has not submitted a waiver request to the CMA in relation to this Offering.

12. Shares Information & Offering Terms and Conditions

The Company has filed a request with the CMA for registration and admission of the New Shares, and with the Saudi Stock Exchange (Tadawul) for listing the New Shares. All requirements have been fulfilled in accordance with the Rules on the Offer of Securities and Continuing Obligations and the Listing Rules.

All Eligible Persons, acquired rights holders and bidding investors shall read the Offering terms and conditions carefully before online subscription or submission of the Subscription Application form through a broker or filling of the Rump Offering form. The submission of the Subscription Application form, or signing and delivery of the Rump offering form shall be deemed an approval and acceptance of the aforementioned offering's terms and conditions.

12.1 The Offering

The Offering is for the increase of the Company share capital from SAR 300,000,000 to divided into (30,000,000) ordinary shares with nominal value of SAR 10 per share, at an offer price of SAR 10 per share.

12.2 How to Apply for Subscription to the Rights (New Shares)

Eligible Shareholders wishing to subscribe to the Rights Issue shall submit the Subscription Applications during the Subscription Period through the investment portfolio in the trading platforms used to insert purchase and sale orders in addition to subscribing through other channels available at the broker and shares Custodian in the Kingdom during Subscription period. If there is a Rump offering period, Subscription Application Forms can also be submitted during such period by Institutional Investors for any Rump Shares only.

By presenting the Subscription Application form, the Subscriber declares that they will:

- Agree to subscribe for the Company Shares in the number of such Shares specified in the Subscription Application.
- Declare that he/she has read the Prospectus and understood its content.
- Accept the Company By-laws and the terms of the Prospectus.
- Not Apply to subscribe to the same shares for this offering through broker, and the Company has the right to reject all applications in the event of a repeat subscription request.
- Accept the number of Shares allocated thereto and all other subscription instructions and terms mentioned in the Subscription Application Form and in this Prospectus.
- Make sure not to cancel or amend the Subscription Application Form after submitting it to the Broker.

12.3 Subscription Application Form

Eligible Persons wishing to exercise their full right and subscribe for all the New Shares to which they are entitled must fill and submit a completed Subscription Application Form through the investment portfolio in the trading platforms used to insert purchase and sale orders in addition to subscribing through other channels available at the broker and shares Custodian.

The number of Shares to which the Eligible Person is entitled to subscribe will be calculated based upon the number of Rights held by him. As for the subscription monies that the subscriber must pay for the New Shares will be calculated by multiplying the number of Rights owned prior to closing of the Subscription Period by SAR 10.

12.4 Trading Period, Offering Period and Rump Offering Period

Eligible Shareholders wishing to subscribe to the Rights shall submit the Subscription Application during the Subscription Period, which begins on 22/02/2024H (corresponding to 22/02/2024G) and ends on 28/02/2024H (corresponding to 28/02/2024G).

The EGA held on 22/02/2024H (corresponding to 22/02/2024G), approved the recommendation of the BOD to increase the Company share capital through Rights Issue. Under this Prospectus, 30,000,000 Ordinary Shares will be offered for subscription at a nominal value of SAR 10/share, and at an Offer Price of SAR 10/share, with a total value of SAR (3000,000,000). New shares will be issued with one share for every one Right. Rights Subscription is entitled to all Shareholders registered in the Company register as of the close on the second trading day following the EGA Meeting dated 22/02/2024H (corresponding to 22/02/2024G), and to those Eligible Persons who purchased the offered Rights during the Trading Period in addition to the Registered Shareholders who purchased additional Rights alongside the Rights they already own.

In the event that the Eligible Persons do not exercise their right to subscribe to the New Shares at the end of the Offering Period, the Rump Shares, in addition to Fractional Shares (if any) will be offered to the Institutional Investors during the Rump Offering Period.

The Registered Shareholders may trade in the Rights deposited in their portfolios through the Tadawul system. Such Rights are deemed a right entitled to all Shareholders registered in the Company register as of the close on the second trading day following the EGA Meeting for the capital increase. Each Right grants its holder eligibility to subscribe to one New Share at the Offer Price. The Rights will be deposited after the EGA. The Shares will appear in the portfolios of the Registered Shareholders under a new symbol that designates Priority Rights; so, these Registered Shareholders will be notified of their Rights in their portfolios.

Rights shares will be offered according to the phases and dates set out below:

- 1- Eligibility Date: Close of trading on the day of the EGA Meeting dated 22/02/2024H (corresponding to 22/02/2024G).
- 2- Trading Period and Offering Period: The Trading Period and Offering Period start on 22/02/2024H (corresponding to 22/02/2024G), and the Trading Period will end on 28/02/2024H (corresponding to 28/02/2024G), while the Offering Period will continue until the

end of **••/••/••••H** (corresponding to **••/••/••••G**).

- 3- Rump Offering Period: The period will start at 10:00 a.m. on **••/••/••••H** (corresponding to **••/••/••••G**) until the following day at 5:00 p.m. on **••/••/••••H** (corresponding to **••/••/••••G**). During this period, Rump Shares will be offered to several institutional investors (referred to as "Investment Institutions"). These investment institutions shall make offers to buy the Rump Shares during the Rump Offering Period. The Rump Shares will be allocated to the Investment Institutions in order of priority based on the price per Share offered (provided that it is not less than the Offering Price) with shares being allocated on a proportional bases among those Institutional Investors that tendered offers at the same price. In the event that the price of the unsubscribed shares is higher than the offer price, the difference (if any) shall be distributed as compensation to holders of priority rights who did not subscribe for their rights in proportion to the rights they own.
- 4- Final Allocation of Shares: Shares will be allocated to each investor based on the number of Rights properly and fully exercised thereby. The total remaining Offering Price will be paid to the Company, and the remaining proceeds from the sale of the Rump Shares shall be paid to the Eligible Persons, without calculating any fees or deductions exceeding the Offering Price), each according to what he is entitled to, no later than **••/••/••••H** (corresponding to **••/••/••••G**).
- 5- Trading of New Shares on the Exchange: Trading in the New Shares will start on Tadawul upon the completion of all procedures relating to the registration and allocation of the New Shares.

The Company has applied to the CMA for registration and offering of the New Shares, and has also applied to Tadawul for listing the New Shares.

12.5 Allocation and Refund

The Company and the Lead Manager will open an escrow account in which the proceeds of the Offering will be deposited. The Rights shall be allocated to Eligible Persons based on the number of Rights properly and fully exercised by it. The total remaining offering price will be paid to the Company, and the remaining proceeds from the sale of the Rump Shares (exceeding Offering Price) shall be paid to Eligible Persons, whichever is this is mainly due by the date of **••/••/••••H** (corresponding to **••/••/••••G**). In the event that Shares remain unsubscribed after that, the underwriter will purchase those remaining new shares that will be allocated to him; there is no compensation for investors who did not subscribe or did not sell their rights during the remaining offering period.

Final notice for the number of Shares allocated to each Eligible Person is expected to take place by depositing the shares into the accounts of Subscribers without any charges or withholdings by the Lead Manager. Eligible Persons shall contact the branch of the Broker where they have submitted the Subscription Application Form to obtain any further information. The announcement regarding the allocation shall be made no later than **••/••/••••H** (corresponding to **••/••/••••G**).

Cash compensation amounts from the remaining proceeds from the sale of the Rump Shares (if any) will be paid to the Eligible Persons who did not subscribe wholly or partially to the Rights without calculating any fees or deductions exceeding the Offering Price), no later than **••/••/••••H** (corresponding to **••/••/••••G**).

12.6 Supplementary Prospectus

In accordance with the requirements of the Rules on the Offer of Securities and Continuing Obligations, A supplementary Prospectus must be submitted to CMA if, at any time after the date of the publication of this Prospectus and before the completion of the offering, the Company becomes aware that:

- There has been a significant change in material matters contained in this Prospectus.
- Additional significant matters have become known which would have been required to be included in this Prospectus.

The investor who subscribed for the new shares prior to the publication of the supplementary Prospectus may cancel or amend his subscription for these shares before the end of the offering period.

12.7 Suspension or Cancellation of the Offering

The CMA may, at any time, issue a Decision to suspend the offering if it deems that the offering may result in a breach of the financial market system, its implementing regulations, or the market rules. In addition, the offer will be canceled if the EGA does not approve any of the details of the offer.

The following figure shows the mechanism for trading and subscribing to the traded right issue.

12.8 Questions and Answers on Rights Issue

What is a Rights Issue?

Rights are tradable securities that give their holder the right to subscribe to the new shares offered, upon approval of the capital increase. All shareholders registered in the Company's shareholders register (at the Depository Center) at the close of the second trading day following the date the Extraordinary General Assembly at which the capital increase has been approved will be entitled to receive the Rights. Each right grants its holder eligibility to subscribe for one new share at the offering price.

Who is granted the Rights?

All registered shareholders in the Company's shareholders register at the close of trading on the second trading day following the date of the Extraordinary General Assembly at which the capital increase has been approved.

When are the Rights deposited?

After the Extraordinary General Assembly convenes and its approval of the capital increase through the offering of Right issue shares, the Rights issue are deposited as securities in the shareholders' own portfolios in the Company's shareholders' register at the Depository Center at the end of the second trading day after the extraordinary general meeting. The shares will appear in their portfolios under a new symbol for Rights issue. Trading or subscribing to these rights will not be permitted until the beginning of the trading and subscription periods.

How are the investors notified of the Rights being deposited in their portfolios?

The notification is made through announcement on the Tadawul website, as well as through the (Tadawulaty) service provided by the Securities Depository Center Company, and short text messages sent through the brokerage firms.

How many Rights issue can be acquired by a registered shareholder?

The number is subject to the rights issue ratio and the number of the current shares held by the registered shareholder as at the close of the second trading day after the date of the Extraordinary General Assembly at which the capital increase has been.

What is the Rights Issue ratio?

It is the ratio that enables registered shareholders to know how many Rights he/she is entitled to in relation to the current shares that he/she already owned at the close of the second trading day after the date of the Extraordinary General Assembly meeting at which the capital increase has been approved. This parameter is calculated by dividing the number of new shares by the number of the current shares of the Company, and accordingly, the eligibility factor is (1) right approximately for every (1) share owned by the registered shareholder on the eligibility date, thus, if a registered shareholder owns (1,000) shares on the eligibility date, then he will be allocated (1,000) rights in exchange for the shares he owns.

Will the name and symbol for trading these rights differ from the name and symbol of the Company's shares?

Yes, the acquired rights will be added to the investors' portfolios under the name of the original share and by adding the word Rights issue, in addition to a new symbol for these rights.

What is the right value upon the commencement of trading?

The opening price of the Rights is the difference between the Company's share closing price on the day preceding such rights Listing, and the Offer Price (indicative Rights value). For example: If the closing price of a share on the preceding day is SAR (40) forty Saudi Riyals and the Offer Price is SAR (10) ten Saudi Riyals, the opening price of the Rights will, at the beginning of trading, be SAR (30) thirty Saudi Riyals (which is the difference between the above mentioned two prices).

Who is a Registered Shareholder?

Any shareholder who appears in the Company Shareholder Register at the close of second trading day following the Extraordinary General Assembly at which the capital increase has been approved.

Can the registered shareholders subscribe for additional shares?

Yes, the registered shareholders can subscribe for additional shares by purchasing new Rights through the market during the trading period.

Is it possible for a shareholder to lose his eligibility to subscribe even if he has the right to attend the Extraordinary General Assembly and vote on increasing the capital through a rights issue?

Yes, the shareholder loses his right to subscribe if he sells his shares on the day of the Extraordinary General Assembly meeting or one business day before it.

How does the offering take place?

Subscription requests are submitted through the investment portfolio in the trading platforms through which the buy and sell orders are entered, in addition to the possibility of subscribing through any other means provided by the broker to the investors and the custodian of shares.

Can the eligible person subscribe to more shares than the rights owned by him?

The eligible person cannot subscribe to more shares than the rights owned by him.

In the event that the Company's shares are owned through more than one investment portfolio, in which portfolio the Rights will be deposited?

Rights will be deposited into the same portfolio where the related shares exist. For example, if a shareholder owns (1,000) (one thousand) shares in the Company, (800) of them in portfolio (A) and (200) in portfolio (B), then the total number of rights to be deposited are (1,000) (one thousand) rights considering that each share (1) right. In this case, (800) eight hundred rights will be deposited in portfolio (A) and (200) two hundred rights will be deposited in portfolio (B).

Are share certificate holders allowed to subscribe and trade?

Yes, they are allowed to subscribe. However, they will only be able to trade after depositing their certificates in electronic portfolios through the recipient or the Tadawul's Securities Depository Center Company ("Edaa") and submitting the requisite documents.

Are additional Rights purchasers entitled to trade them once again?

Yes, purchaser of additional rights may sell them and purchase other rights only during the trading period only.

Is it possible to sell part of the Rights Issue?

Yes, the investor can sell part of these rights and subscribe to the remaining part.

When can a shareholder subscribe for the Rights he/she purchased during the rights trading period?

After the close of the rights purchase settlement (which is two business days), provided that the subscription for Rights is completed during the subscription period.

Can the holder of Rights sell or assign the Rights after the end of the trading period?

No, it cannot. After the expiry of the trading period, the Eligible Person may only exercise the right to subscribe to the Right issue shares, or not to exercise. In the event that the Right is not exercised, the investor may be subject to loss or Decrease in the value of his/her investment portfolio.

What happens to Rights that are unsold or unsubscribed during the trading and subscription period?

In the event that the new shares are not fully subscribed during the subscription period, the remaining new shares shall be offered during the Rump Offering organized by the Lead Manager, and the compensation value (if any) is calculated for the rights owner after deducting the subscription price. Note that the investor may not receive any consideration if the sale is made in the Rump offering period at the offering price.

Who has the right to attend the Extraordinary General Assembly and vote to increase the Company's capital by offering Rights issue shares?

A shareholder who is registered in the Company's shareholders' register at the Depository Center, after the end of the trading day of the Extraordinary General Assembly Day, has the right to attend the Extraordinary General Assembly and vote on increasing the Company's capital by offering Rights issue shares.

When is the share price adjusted as a result of the Company's capital increase by offering Right issue shares?

The share price is adjusted by the market before the start of trading on the day following the day of the Extraordinary General Assembly.

If an investor buys security on the day of the assembly, is he entitled to obtain the Rights resulting from the increase in the issuer's capital?

Yes, as the investor will be registered in the Company's shareholders' register two business days after the date of the shares' purchase (i.e., at the end of the second trading day following the day of the Extraordinary General Assembly meeting), bearing in mind that Right issue will be granted to all shareholders registered in the Company's shareholders' register at the end of trading the second trading day following the date of the Extraordinary General Assembly. However, he will not be entitled to attend or vote in the Extraordinary General Assembly of the capital increase.

If the investor has more than one portfolio with more than one brokerage firm, how will the rights be calculated for him?

The investor's share will be distributed among the portfolios that the investor owns, according to the percentage of ownership in each portfolio, and in case there are fractions, those fractions will be collected, and if you complete one or more integer numbers, the correct number is added to the portfolio in which the investor owns the largest amount of rights.

What are the trading and subscription periods?

Trading and subscription of rights begins at the same time until the end of trading on the sixth day, while the subscription continues until the ninth day, according to what is mentioned in this Prospectus and the Company's announcements.

Is it possible to subscribe during the weekend?

No, it is not possible.

Can public investors other than registered shareholders subscribe to rights issue shares?

Yes, after completing the purchase of Rights during the trading period.

13. Change in the Share Price as a Result of The Capital Increase

The closing price of the Company share on the day of the EGA is SAR (••); it is expected to reach SAR (••) in the opening session the next day. The change represents a Decrease of (••%). If any of the Shareholders registered in the Company Shareholders register does not subscribe to the Depository Center at the end of the second trading day following the date of the extraOGA, their ownership percentage in the Company will Decrease.

The method of calculating the Share Price as a result of the capital increase is:

First: Calculation of the market value of the Company at the close of trading on the day of the EGA

Number of shares at the end of the day of the EGA × the closing price for the Company share on the day of the EGA = market value of the Company at the close of trade on the day of the ExtraOGA.

Second: Calculation of the Share Price in the opening session on the day following the day of the EGA:

(the market value of the Company at the close of the day of the EGA + the value of the offered shares) / (the number of shares at the end of the day of the EGA + the number of New Shares offered in the Offering) = share price reset for the opening session on the day following the day of the ExtraOGA.
