INDEPENDENT AUDITOR'S REVIEW REPORT

To the Shareholders of **National Medical Care Company** (Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying interim condensed financial statements of National Medical Care Company, Saudi Joint Stock Company ("the Company") that include interim condensed statement of financial position as at 30 June 2021 and the related interim condensed statement of profit or loss and other comprehensive income for the three and six months periods then ended, and the related interim condensed statements of changes in equity and cash flows for the six-months period then ended, and a summary of significant accounting policies and other explanatory notes.

Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' endorsed in the Kingdom of Saudi Arabia. A review of interim condensed financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared in all material respects in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

Other Matter

The financial statements of the Company for the year ended 31 December 2020 audited by another auditor, who expressed an unmodified opinion on those financial statements on 9 Sha'ban 1442H (corresponding to 22 March 2021). Also, the interim condensed financial statements of the Company for the period ended 30 June 2020 were reviewed by the same auditor, who issued an unmodified conclusion on those interim condensed financial statements on 22 Dhul-Hijja 1441H (corresponding to 12 August 2020).

2. BASIS OF PREPARATION

2.1 STATEMENT OF COMPLIANCE

These interim condensed financial statements have been prepared in accordance with International Accounting Standard "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia, and other standards and pronouncements that are endorsed by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual financial statements for the year ended 31 December 2020. In addition, results for the interim period ended 30 June 2021 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2021.

2.2 BASIS OF MEASUREMENT

These interim condensed financial statements have been prepared under the historical cost convention using the accrual basis of accounting. For employee's and other post-employment benefits, actuarial present value calculations are used.

2.3 FUNCTIONAL AND PRESENTATION CURRENCY

These interim condensed financial statements are presented in Saudi Riyals (SR) which is the functional currency of the Company.

2. BASIS OF PREPARATION (continued)

2.4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's interim condensed financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities.

The significant judgments made by management in applying the Company accounting policies and the methods of computation and the key sources of estimation are the same as those that applied to the financial statements for the year ended 31 December 2020. However, in view of the current uncertainty regarding COVID 19, any future change in assumptions and estimates could result in outcomes that may require a material adjustment to the carrying amounts of assets or liabilities affected in future periods. As the situation continues to evolve, management will continue to assess the impact based on prospective developments (see also note 16).

3. CHANGES TO THE COMPANY'S ACCOUNTING POLICIES

The accounting policies and methods of calculation adopted in the preparation of interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2020, except for the adoption of amendments to standards effective as of 1 January 2021. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Several amendments and interpretations apply for the first time in 2021, but do not have an impact on the interim condensed financial statements of the Company. As required by IAS 34, endorsed in Kingdom of Saudi Arabia the nature and effect of these changes are disclosed below.

3.1 INTEREST RATE BENCHMARK REFORM – PHASE 2: AMENDMENTS TO IFRS 9, IAS 39, IFRS 7, IFRS 4 AND IFRS 16

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR). The amendments include the following practical expedients:

A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest.

Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued.

Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

These amendments had no impact on the interim condensed financial statements of the Company. The Company intends to use the practical expedients in future periods if they become applicable.

The Company received final zakat assessments up to the year 2014. The Company is currently conducting assessment procedures for the years 2015 to 2018, however, final assessments for these years have not been issued.

12. EARNINGS PER SHARE

Basic and diluted earnings per share ("EPS") is calculated by dividing the income for the period attributable to ordinary equity holders by the weighted average number of ordinary shares outstanding during the period. Diluted earnings per share is the same as the regular or basic earnings per share as the Company does not have any convertible securities or diluted instruments to exercise.

The following table reflects the income for the period attributable to ordinary equity holders and weighted average number of ordinary shares outstanding during the period used in the basic and diluted EPS computations:

Basic and diluted earnings per share from total income.

13. SEGMENT REPORTS

The Company's operations principally consist of one main operating segment, which is hospital services. Accordingly, presenting different segmental information is not considered necessary. Furthermore, the Company's operations are conducted in the Kingdom of Saudi Arabia only.

14. FAIR VALUE OF ASSETS AND LIABILITIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

All assets and liabilities for which fair value is measured or disclosed in the interim condensed financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

14. FAIR VALUE OF ASSETS AND LIABILITIES (continued)

If the inputs used to measure the fair value of an asset or liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest input level that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. During the period ended 30 June 2021, there were no movements between the levels.

As at 30 June 2021 and 31 December 2020, the fair values of the Company's financial instruments are estimated to approximate their carrying values.

15. CONTINGENT LIABILITIES AND CAPITAL COMMITMENTS

The Company has capital commitments resulting from the renovation of Riyadh Care Hospital as of 30 June 2021 amounting to SR 32.4 million (31 December 2020: SR 0.3 million).

The Company has contingent liabilities arising from letters of guarantee issued to certain customers as at 30 June 2021 amounting SR 14.6 million (31 December 2020: SR 15.5 million). Letters of guarantee represent performance guarantees issued to governmental institutions

There are various legal cases filed against the Company by former employees and third parties, however, the outcome of these cases is not yet certain as most of the cases are under hearings. Information relating to the amounts of these claims and the provisions against them are not disclosed, as management believes this may prejudice the Company's position in litigation. However, the Company has made appropriate provisions for these legal cases. Management is confident that the outcome of these cases will be in favor of the Company and provisions recognised in the financial statements are sufficient to cover the risks involved.

16. IMPACT OF COVID-19 ON THE FINANCIAL STATEMENTS

The existence of novel coronavirus (COVID-19) was confirmed and characterized as a pandemic by the World Health Organisation (WHO) during March 2020 which since then caused disruption to business and economic activities around the globe. The government of Saudi Arabia is constantly monitoring and managing the spread of infection through various measure including implementation of travel bans, limiting large gatherings, mandating vaccinations, etc.

The extent to which the pandemic impacts Company's business and operations is ascertainable but the financial impact over the next 12 months cannot be measured reliably as it depends on various factors and future developments, that the Company may currently not be able to estimate reliably. These factors include virus transmission rate, duration of the outbreak or vaccination of significant percentage of population, advent of subsequent waves of the virus, precautionary actions that may be taken by the authorities to control the spread and impact of those actions on economic activity, impact on the businesses of the Company's customers, etc.

Considering the challenges of the uncertainty around the extent and duration of business and economic impact, management is monitoring the situation with a continued focus on ensuring employees' and patient safety, sustainability of supply chain and maintenance of sufficient liquidity.

In view of the above, management has made certain estimates and assumptions and any future change in assumptions and estimates could result in outcomes that may require a material adjustment to the carrying amounts of assets or liabilities affected in the future years. As the situation continues to evolve, management will continue to assess the impact based on prospective developments.
