Report on review of interim financial information

To the shareholders of Methanol Chemicals Company
(A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying condensed interim statement of financial position of Methanol Chemicals Company (the "Company") as of 31 March 2018 and the related condensed statements of profit or loss and other comprehensive income, changes in equity and cash flows for the three-month period then ended and notes, comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

METHANOL CHEMICALS COMPANY
(A Saudi Joint Stock Company)
Notes to the condensed interim financial information (Unaudited)
For the three-month period ended 31 March 2018
(All amounts in Saudi Riyals unless otherwise stated)

1 General information

Methanol Chemicals Company (the "Company" or "Chemanol") is engaged in the production of Formaldehyde liquid and Urea Formaldehyde liquid or their mixture with different concentrations, Paraformaldehyde, liquid and powder Formaldehyde resins, Hexane Methylene Tetramine, Phenol Formaldehyde resins, concrete improvers, Methanol, Carbon monoxide, Di-methylamine, Mono-methylamine, Tri-mon-methylamine, Di-methyl Formamide, Di-methyl carbon, Penta Aritheretol, Sodium Formate and Acetaldehyde.

The Company is a joint stock company registered in Kingdom of Saudi Arabia and operating under Commercial Registration (CR) No. 2050057828 issued in Dammam on 30 Dhu al-Hijjah 1428 H (9 January 2008). The accompanying condensed interim financial information include the accounts of the Company and its branch registered in Jubail under CR No. 2055001870 dated 28 Dhu al-Hijjah 1409 H (1 August 1989). The registered address of the Company is P.O. Box 2101, Jubail 31951, Kingdom of Saudi Arabia.

During the three-month period ended 31 March 2018, the Company shut down certain of its plants for scheduled periodic maintenance for a period of twenty one days. The Company incurred turnaround and related costs of Saudi Riyals 33.0 million related to such maintenance which were capitalized under property, plant and equipment in the accompanying condensed interim financial information.

2 Accounting policies

The principal accounting policies applied in the preparation of condensed interim financial information of the Company are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended standards as set out below.

2.1 Basis of preparation

This condensed interim financial information of the Company has been prepared in compliance with IAS 34 "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by Saudi Organization for Certified Public Accountants ("SOCPA").

The condensed interim financial information does not include all the information and disclosures required in the annual financial statements. Accordingly, this condensed interim financial information is to be read in conjunction with the annual financial statements for the year ended 31 December 2017.

2.2 Standards issued but not yet effective

IFRS 16, 'Leases' was issued in January 2016. It will result in almost all leases being recognized on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognized. The only exceptions are short-term and low-value leases.

The standard is mandatory for the Company's accounting periods beginning on and subsequent to 1 January 2019, and has not been early adopted by the Company. The Company intends to apply the simplified transition approach and will not restate comparative amounts for the year prior to first adoption. The Company is yet to evaluate the impact of the standard.

2.3 New and amended standards adopted by the Company

A number of new or amended standards became applicable for the current reporting period and the Company had to change its accounting policies as a result of adopting the following standards:

- a) IFRS 9 'Financial Instruments' ("IFRS 9"); and
- b) IFRS 15 'Revenue from Contracts with Customers' ("IFRS 15").

The impact of the adoption of these standards and the new accounting policies was not material and did not require retrospective adjustments.

2.4 Changes in accounting policies

2.4.1 IFRS 9

(i) Classification

From 1 January 2018, the Company's financial assets are classified and measured at amortised cost as such assets are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset.

Subsequent measurement of Company's financial assets are at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss. Impairment losses are presented under "General and administrative expenses" in the statement of profit or loss and other comprehensive income.

(iii) Impairment

From 1 January 2018, the Company assesses on a forward looking basis the expected credit losses associated with its financial assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Company applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

2.4.2 IFRS 15

Revenue from sale of goods is measured at the fair value of the consideration received or receivable in the ordinary course of the Company's activities. The Company recognizes revenue when control of the goods has transferred, being when the products are delivered to the customer, the customer has full discretion over the use or sale of such goods, and there is no unfulfilled obligation that could affect the customer's acceptance of the goods. Delivery occurs when the goods have been shipped to the specific location as per the terms of the contract, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

3 Fair value of assets and liabilities

As at 31 March 2018 and 31 December 2017, the fair values of the Company's financial instruments are estimated to approximate their carrying values since the financial instruments are short term in nature, carry interest rates which are based on prevailing market interest rates and are expected to be realized at their current carrying values within twelve months from the date of statement of financial position. The fair values of the non-current financial liabilities are estimated to approximate their carrying values as these carry interest rates which are based on prevailing market interest rates.

4 Critical accounting estimates and judgements

The preparation of condensed interim financial information in conformity with International Financial Reporting Standards ("IFRS") requires the use of certain critical estimates and judgments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the reporting date and the reported amounts of revenues and expenses during the reporting period. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Company makes estimates and judgements concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Critical accounting estimates and judgements used by management in the preparation of the condensed interim financial information are the same as those that were applied and disclosed in the annual financial statements for the year ended 31 December 2017.

5.1 SIDF loan

The loan agreement with SIDF provided for loans of Saudi Riyals 600.0 million to finance expansion and construction of the Company's production facilities, which were fully drawn by June 2010. Up-front and annual administrative fees are charged by SIDF under the loan agreements.

The covenants of the borrowing facility require the Company to maintain certain level of financial conditions, limiting the dividends distribution and annual capital expenditure above certain limits and certain other matters. As at 31 March 2018, the Company was in compliance with these covenants. The loan is secured by mortgage of the property, plant and equipment of the Company at 31 March 2018 valued at Saudi Riyals 1.7 billion. The carrying values of the SIDF loan are denominated in Saudi Riyals.

During the year ended 31 December 2016, the Company restructured the SIDF loan and finalized the restructuring agreement with SIDF. The maturity of the loan, based on the revised repayment schedule, was spread in 2017 through 2020. The restructuring did not result in substantial modification of the terms of the loan agreement.

During the year ended 31 December 2017, the Company further restructured the SIDF loan and finalized the restructuring agreement with SIDF. The aggregate maturity of the loan, based on the revised repayment schedule, is now spread in 2018 through 2021. The restructuring did not result in substantial modification of the terms of the loan agreement.

5.2 Murabaha facilities

During 2007, the Company entered into an agreement with a syndicate of banks, namely, Arab Banking Corporation (B.S.C), Riyad Bank, Samba Financial Group, Saudi Hollandi Bank, National Commercial Bank and Saudi British Bank (collectively called as "Murabaha Facility Participants") to provide Murabaha Facilities and Syndicate and Bilateral loans for financing of expansion projects. These loans bear financial charges based on prevailing market rates which are based on Saudi inter-bank offer rates.

The covenants of the borrowing facilities require the Company to maintain certain level of financial conditions, limiting the dividends distribution and annual capital expenditure above certain limits and certain other matters. As at 31 March 2018, the Company was in compliance with these covenants. The carrying values of such long-term borrowings are denominated in Saudi Riyals.

During 2016, the Company restructured its short-term and long-term borrowings and finalized the restructuring agreements with its lender institutions. The aggregate maturities of these loans, based on their respective revised repayment schedules, are now spread in 2018 through 2022. The restructuring did not result in substantial modification of the terms of the loan agreements.

During the three-month period ended 31 March 2018, the Company repaid Saudi Riyals 76.3 million of the principal amount against such borrowing facilities.
