**INDEPENDENT AUDITORS' REPORT  
TO THE SHAREHOLDERS OF  
UNITED INTERNATIONAL TRANSPORTATION COMPANY (A SAUDI JOINT STOCK COMPANY)  
ON THE REVIEW OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**Introduction**

We have reviewed the accompanying interim condensed consolidated statement of financial position of United International Transportation Company - A Saudi Joint Stock Company - ("the Company") and its subsidiary (collectively referred to as "the Group") as at 30 September 2017 and the related interim condensed consolidated statement of profit or loss and other comprehensive income for the three-month and nine-month periods then ended, and the related interim condensed consolidated statements of changes in equity and cash flows for the nine-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

**Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 endorsed in the Kingdom of Saudi Arabia.

## NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

For the nine-month period ended 30 September 2017

### 1 CORPORATE INFORMATION

United International Transportation Company ("the Parent Company"), is a Saudi Joint Stock Company registered in Jeddah, Kingdom of Saudi Arabia under Commercial Registration No. 4030017038 dated 7 Shabaan 1428H (corresponding to 20 August 2007).

The principal activities of the Parent Company are leasing and rental of vehicles under the commercial name of "Budget Rent a Car" as per the license No. 0202000400 issued by the Ministry of Transportation in the Kingdom of Saudi Arabia. The Parent Company was listed on Saudi Stock Exchange on 1 September 2007.

The Parent Company's registered office is located at the following address:

2421 Quraysh St. Al-Salamah Dist.  
Jeddah, Saudi Arabia 23437-8115  
Unit 1

As at the reporting date, the Parent Company owns 100% of the issued share capital of Aljozor Alrasekha Trucking Company Limited (the "subsidiary" or "Rahaal" and collectively with the Parent Company referred to as the "Group"). Rahaal is a limited liability company incorporated in Saudi Arabia and engaged in the business of leasing and rental of heavy vehicles and equipment and trading in heavy vehicles and equipment and spare parts as per commercial registration.

The following are the details of the associates:

<i>Name</i>	<i>Principal field of activity</i>	<i>% of capita held (directly or indirectly)</i>	
		<i>30 September 2017</i>	<i>31 December 2016</i>
Tranzlease Holdings India Private Limited	Operating lease of motor vehicles	32.96%	32.96%
Unitrans Infotech Services India Private Limited	Providing Information Technology services	49%	49%

### 2 BASIS OF PREPARATION

#### 2.1 STATEMENT OF COMPLIANCE

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard, "Interim Financial Reporting" ("IAS 34") as endorsed in KSA, for part of the year covered by the first annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") as endorsed in KSA and other standards and pronouncements that are issued by the Saudi Organization for Certified Public Accountants ("SOCPA"). The Group has prepared on 31 March 2017 its first interim condensed consolidated financial statements in accordance with IAS 34 and "First-time Adoption of International Financial Reporting Standards" ("IFRS 1") as endorsed in KSA. Refer to note 5 for information on the first time adoption of IFRS as endorsed in KSA, by the Group.

The interim condensed consolidated financial statements do not include all the information and disclosures required in annual consolidated financial statements to be prepared in accordance with IFRS as endorsed in KSA and other standards and pronouncements that are issued by the SOCPA, which would be produced for year ending 31 December 2017. In addition, results for the interim period ended 30 September 2017 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2017.

#### 2.2 BASIS OF MEASUREMENT

The interim condensed consolidated financial statements are prepared under the historical cost convention using the accruals basis of accounting and going concern concept.

#### 2.3 FUNCTIONAL AND PRESENTATION CURRENCY

The interim condensed consolidated financial statements are presented in Saudi Arabian Riyals (SR), which is the functional currency of the Group. All financial information presented in SR has been rounded off to the nearest thousand, unless otherwise indicated.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**2 BASIS OF PREPARATION (continued)**

**2.4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of the Group's interim condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

**Judgements**

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the interim condensed consolidated financial statements:

- a) Decision related to control over investee (note 3.1)
- b) Lease classification (note 3.9)

**Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the interim condensed consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur. Information about the assumptions and estimation uncertainties is included in the following areas:

***Useful lives of property and equipment***

The Group's management determines the estimated useful lives of its property and equipment for calculating depreciation. These estimates are determined after considering the expected usage of the assets or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charges would be adjusted where the management believes the useful lives differ from previous estimates.

***Allowance for inventory losses***

The Group recognizes an allowance for inventory losses due to factors such as obsolescence, technical faults, physical damage etc. The estimation of such losses includes the consideration of factors including but not limited to introduction of new models or technology by the specific manufacturer, past sales trends and both existing and emerging market conditions.

***Allowance for doubtful receivable***

A provision for impairment of trade receivable is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor and default or delinquency in payments are considered indicators that the trade receivable is impaired.

***Impairment of non-financial assets***

The carrying amounts of the Group's non-financial assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

Impairment exists when the carrying value of an asset or cash generating unit ("CGU") exceeds the recoverable amount, which is the higher of the fair value less costs to sell and value in use. The fair value less costs to sell is arrived based on available data from binding sales transactions at arm's length, for similar assets. The value in use is based on a discounted cash flow ("DCF") model, whereby the future expected cash flows discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

Impairment losses are recognised in interim condensed consolidated statement of profit or loss and other comprehensive income. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

Goodwill that forms part of the carrying amount of an investment in an associate is not recognised separately, and therefore is not tested for impairment separately. Instead, the entire amount of the investment in an associate is tested for impairment as a single asset when there is objective evidence that the investment in an associate may be impaired.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**2 BASIS OF PREPARATION (continued)**

**2.4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)**

***Defined benefit plans***

The cost of the defined benefit plan and the present value of the obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and employee turnover rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate, management considers the market yield on interim condensed consolidated statement of financial position date on high quality corporate bonds. The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases are based on expected future inflation rates for the respective countries. Further details about employee benefits obligations are provided in (Note 11).

***Fair value measurement of financial instruments***

When the fair values of financial assets and financial liabilities recorded in the interim condensed consolidated statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions relating to these factors could affect the reported fair value of financial instruments. Contingent consideration, resulting from business combinations, is valued at fair value at the acquisition date as part of the business combination. When the contingent consideration meets the definition of a financial liability, it is subsequently remeasured to fair value at each reporting date. The determination of the fair value is based on discounted cash flows. The key assumptions take into consideration the probability of meeting each performance target and the discount factor.

***Going concern***

The Group's management has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

***Provisions***

Provisions are recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies set out below have been applied consistently in the preparation of these interim condensed consolidated financial statements and in preparing the opening IFRS consolidated statement of financial position at 1 January 2016 for the purposes of transition to IFRS, except for the application of relevant exceptions or available exemptions as stipulated in IFRS 1. Details of such exceptions and exemption are disclosed in note 5.

**3.1 BASIS OF CONSOLIDATION**

The Group's interim condensed consolidated financial statements comprise the financial statements of the Parent Company and its subsidiary as at 30 September 2017. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

# UNITED INTERNATIONAL TRANSPORTATION COMPANY (A SAUDI JOINT STOCK COMPANY)

## NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (continued)

For the nine-month period ended 30 September 2017

### 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 3.1 BASIS OF CONSOLIDATION (continued)

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the interim condensed consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of Other Comprehensive Income ("OCI") are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income. Any investment retained is recognised at fair value.

#### ***Business combinations and goodwill***

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in general and administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree. Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IAS 39 Financial Instruments: Recognition and Measurement, is measured at fair value with the changes in fair value recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Where goodwill has been allocated to a cash-generating unit (CGU) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.1 BASIS OF CONSOLIDATION (continued)**

*Investment in associates and joint ventures*

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

Group's investments in its associates are accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment separately. The interim condensed consolidated statement of profit or loss and other comprehensive income reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the interim condensed consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the interim condensed consolidated statement of profit or loss and other comprehensive income outside operating profit and represents profit or loss after income tax. The financial statements of the associate are prepared for the same reporting period as the Group using consistent accounting policies. When necessary, adjustments are made to bring the accounting policies in line with those of the Group. After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as 'Share of results of an associate' in the interim condensed consolidated statement of profit or loss and other comprehensive income. Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income.

When the Group's share of losses exceeds its interest in associates, the carrying amount of that interest, including any long-term investments, is reduced to nil, and the recognition of further losses is discontinued except to the extent that the Group has a corresponding obligation.

**3.2 FOREIGN CURRENCIES**

The Group's interim condensed consolidated financial statements are presented in Saudi Riyals, which is also the Parent Company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation, the gain or loss that is reclassified to interim condensed consolidated statement of profit or loss and other comprehensive income reflects the amount that arises from using this method.

*Transactions and balances*

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in interim condensed consolidated statement of profit or loss and other comprehensive income with the exception of monetary items that are designated as part of the hedge of the Group's net investment in a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to interim condensed consolidated statement of profit or loss and other comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.2 FOREIGN CURRENCIES (continued)**

*Foreign operations*

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to Saudi Riyals at exchange rates at the reporting date. Dividends received from foreign associates are translated at the exchange rate in effect at the transaction date and related currency translation differences are realized in the interim condensed consolidated statement of profit or loss and other comprehensive income.

When a foreign operation is disposed of, the relevant amount in the translation is transferred to the interim condensed consolidated statement of profit or loss and other comprehensive income as part of the profit or loss on disposal. On the partial disposal (without loss of control) of a subsidiary that includes a foreign operation, the relevant proportion of such cumulative amount is reattributed to non-controlling interest.

Foreign exchange gains or losses arising from a monetary item receivable from or payable to a foreign operation, the settlement of which is neither planned nor likely to occur in the foreseeable future and which in substance is considered to form part of the net investment in the foreign operation, are recognized in the foreign exchange translation reserve via other comprehensive income.

**3.3 CURRENT VERSUS NON-CURRENT CLASSIFICATION**

*Assets*

The Group presents assets and liabilities in the interim condensed consolidated statement of financial position based on current/non-current classification. An asset is current when it is:

- expected to be realised or intended to be sold or consumed in the normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realised within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

*Liabilities*

A liability is current when it is:

- expected to be settled in the normal operating cycle;
- held primarily for the purpose of trading;
- due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

**3.4 REVENUE RECOGNITION**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty.

The specific recognition criteria described below must also be met before revenue is recognised.

*Vehicle rental and lease arrangements*

Revenue from vehicle rental is recognised on accrual basis over the rental period in accordance with the terms of the agreements. Lease revenue is recognized over the period of lease agreement. In case the vehicle is not returned by the expiry of the rental agreement period, revenue is continued to be recognized till the vehicle is returned by the customer to the extent that revenue recognition criteria is met, such as the probability that the associated economic benefits will flow to the Group.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.4 REVENUE RECOGNITION (continued)**

***Sale of inventories***

Revenue is recognised when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of vehicles can be estimated reliably, there is no continuing management involvement with the vehicles, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised. The timing of the transfer of risks and rewards depends on the terms of the sales agreement.

***Income from other services***

Income from other services that are incidental to vehicle rental arrangements or sale of vehicles are recognized when these related services are provided and classified as part of revenue from these core operating activities.

Income from other services is recognized similarly and classified as other income in the interim condensed consolidated statement of profit or loss and other comprehensive income.

Income and expenses are presented in a net basis only when permitted under IFRS, or of gains and losses arising from a group of similar transactions.

***Dividends***

Revenue is recognised when the Group's right to receive the amount is established, which is generally when shareholders approve the dividend.

**3.5 EXPENSES**

***Cost of revenue***

Cost of revenue represents all expenses directly attributable or incidental to the core operating activities of the Group including but not limited to: depreciation of vehicles under rental and lease arrangements, cost of vehicle inventories disposed of, directly attributable employee related costs etc.

***Selling, marketing and general and administrative expenses***

Selling and marketing expenses are costs arising from the Group's efforts underlying marketing activities and function. All other expenses are classified as general and administrative expenses. Allocation of common expenses between cost of revenue, selling and marketing and administrative expenses, where required, is made on a reasonable basis with regards to the nature and circumstances of the common expenses.

***Franchise fee***

Franchise and similar fee that the Group is obligated to pay under contractual arrangements are recognised on accrual basis.

**3.6 BORROWING COSTS**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of finance cost and other costs that an entity incurs in connection with the borrowing of funds.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.7 ZAKAT**

The Group is subject to zakat in accordance with the regulations of the General Authority of Zakat and Tax ("GAZT"). Provision for zakat for the Group and zakat related to the Group's ownership in the Saudi Arabian subsidiary is charged to the interim condensed consolidated statement of profit or loss and other comprehensive income. Additional amounts payable, if any, at the finalization of final assessments are accounted for in the period in which these are determined.

The companies under Group withholds taxes on transactions with non-resident parties and on dividends paid to foreign shareholders in accordance with GAZT regulations, which is not recognized as an expense being the obligation of the counter party on whose behalf the amounts are withheld.

**3.8 PROPERTY AND EQUIPMENT**

***Recognition and measurement***

Items of property and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes purchase price and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and borrowing costs on qualifying assets.

When significant parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Gains and losses on disposal of an item of property and equipment (other than vehicles transferred to inventories as 'Vehicles for sale') are determined by comparing the proceeds from disposal with the carrying amount of property and equipment, and are recognised net within other income in the interim condensed consolidated statement of profit or loss and other comprehensive income.

***Subsequent costs***

The cost of replacing a part of an item of property and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property and equipment are recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income as incurred.

***Depreciation***

Depreciation represents the systematic allocation of the depreciable amount of an asset over its estimated useful life. Depreciable amount represents cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income on a straight-line basis over the estimated useful lives of each part of an item of property and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives. Land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at least annually and adjusted prospectively if required. For Impairment assessment of property, plant and equipment, refer note 3.15.

The estimated useful lives for the current and comparative periods are as follows:

• Buildings and other installations	10 to 20 years
• Vehicles	2 to 5 years
• Furniture, fixtures and office equipment	4 to 5 years
• Machinery and equipment	4 to 7 years

(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.9 LEASES**

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset, even if that asset is not explicitly specified in an arrangement.

***Group as a lessee***

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Group is classified as a finance lease. Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the interim condensed consolidated statement of profit or loss and other comprehensive income.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term. An operating lease is a lease other than a finance lease. Operating lease payments are recognised as an operating expense in the interim condensed consolidated statement of profit or loss and other comprehensive income on a straight-line basis over the lease term.

***Group as a lessor***

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

**3.10 INTANGIBLE ASSETS**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in interim condensed consolidated statement of profit or loss and other comprehensive income in the period in which the expenditure is incurred. The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income in the expense category that is consistent with the function of the intangible assets.

The amortization period for the intangible assets with finite life is as follows:

Software	4 years
----------	---------

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income when the asset is derecognised.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.11 INVENTORIES**

Inventories represent vehicles for sale, spare parts and other supplies. These are measured at lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated costs necessary to make sale. The carrying amount of inventories is recognized as an expense when the inventories are sold. The Group recognizes an allowance for inventory losses due to factors such as obsolescence, technical faults, physical damage etc.

***Vehicles for sale***

Vehicles for sale that were previously held as part of property and equipment for lease and rental arrangements are transferred to inventories at their carrying amount when they cease to be held for lease and rental purposes and become held for sale in the ordinary course of the Group's business. Other costs are included in the cost of vehicle inventories only to the extent that they are incurred in bringing the vehicles to their present location and condition necessary to make the sale.

***Spare parts and supplies***

The cost of spare parts and supplies is based on weighted average principle. Other costs are included in the cost of spare parts and supplies only to the extent that they are incurred in bringing them to their present location and condition.

**3.12 CASH AND CASH EQUIVALENTS**

Cash and cash equivalents in the interim condensed consolidated statement of financial position comprise cash at banks and cash on hand. For the purpose of the interim condensed consolidated statement of cash flows, cash and cash equivalents consist of bank balances and cash, as defined above.

**3.13 FINANCIAL INSTRUMENTS**

**i) Financial assets**

***Initial recognition and measurement***

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss (FVPL), loans and receivables, held-to-maturity investments, available for sale (AFS) financial assets. All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

***Subsequent measurement***

For purposes of subsequent measurement, financial assets are classified in following categories:

- Financial assets at fair value through profit or loss ("FVPL")
- Loans and receivables
- Held to maturity investments
- AFS financial assets

***Financial assets at fair value through profit or loss***

Financial assets at fair value through interim condensed consolidated statement of profit or loss and other comprehensive income include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. The Group has not designated any financial assets at fair value through profit or loss. Financial assets at fair value through profit or loss are carried in the consolidated statement of financial position at fair value with net changes in fair value presented as finance costs (negative net changes in fair value) or finance income (positive net changes in fair value) in the interim condensed consolidated statement of profit or loss and other comprehensive income.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.13 FINANCIAL INSTRUMENTS (continued)**

**i) Financial assets (continued)**

Loans and receivables

The loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate ("EIR") method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the interim condensed consolidated statement of profit or loss and other comprehensive income. The losses arising from impairment are recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income in finance costs for loans and in cost of sales or other operating expenses for receivables. This category generally applies to trade and other receivables.

Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held to maturity when the Group has the positive intention and ability to hold them to maturity. After initial measurement, held-to-maturity investments are measured at amortised cost using the EIR, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the interim condensed consolidated statement of profit or loss and other comprehensive income. The losses arising from impairment are recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income as finance costs.

AFS financial assets

AFS financial assets include equity investments and debt securities. Equity investments classified as AFS are those that are neither classified as held for trading nor designated at fair value through profit or loss. Debt securities in this category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in market conditions.

After initial measurement, AFS financial assets are subsequently measured at fair value with unrealised gains or losses recognised in OCI and credited to the AFS reserve until the investment is derecognised, at which time, the cumulative gain or loss is recognised in other operating income, or the investment is determined to be impaired, when the cumulative loss is reclassified from the AFS reserve to the interim condensed consolidated statement of profit or loss and other comprehensive income in finance costs. Interest earned whilst holding AFS financial assets is reported as interest income using the EIR method.

The Group evaluates whether the ability and intention to sell its AFS financial assets in the near term is still appropriate. When, in rare circumstances, the Group is unable to trade these financial assets due to inactive markets, the Group may elect to reclassify these financial assets if management has the ability and intention to hold the assets for the foreseeable future or until maturity.

For a financial asset reclassified from the AFS category, the fair value at the date of reclassification becomes its new amortised cost and any previous gain or loss on the asset that has been recognised in equity is amortised to interim condensed consolidated statement of profit or loss and other comprehensive income over the remaining life of the investment using the EIR. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the EIR. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to the interim condensed consolidated statement of profit or loss and other comprehensive income.

***Derecognition***

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.13 FINANCIAL INSTRUMENTS (continued)**

**i) Financial assets (continued)**

***Derecognition (continued)***

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

**ii) Financial liabilities**

***Initial recognition and measurement***

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, borrowings, payables, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade and other liabilities.

***Subsequent measurement***

The measurement of financial liabilities depends on their classification, as described below:

***Financial liabilities at fair value through profit or loss.***

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

***Subsequent measurement***

Gains or losses on liabilities held for trading are recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income. Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IAS 39 are satisfied. The Group has not designated any financial liability as at fair value through profit or loss.

***Borrowings***

This is the category most relevant to the Group. After initial recognition, borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the interim condensed consolidated statement of profit or loss and other comprehensive income. This category generally applies to all borrowings.

***Derecognition***

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.13 FINANCIAL INSTRUMENTS (continued)**

**iii) Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the interim condensed consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**3.14 EMPLOYEE BENEFITS**

*Short-term employee benefits*

Short-term employee benefits are expensed as the related services are provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

*Post-employment benefits*

The Group's obligation under employee end of service benefit plan is accounted for as an unfunded defined benefit plan and is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods and discounting that amount. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognised immediately in OCI. The Group determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in personnel expenses in the interim condensed consolidated statement of profit or loss and other comprehensive income. Also refer to defined benefits plans in (Note 2.4).

**3.15 IMPAIRMENT OF FINANCIAL AND NON-FINANCIAL ASSETS**

*Financial assets*

The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and a loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter into bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

*Financial assets carried at amortised cost*

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it include the assets in group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate.

(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.15 IMPAIRMENT OF FINANCIAL AND NON-FINANCIAL ASSETS (continued)**

*Financial assets (continued)*

*Financial assets carried at amortised cost (continued)*

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in interim condensed consolidated statement of profit or loss and other comprehensive income. Interest income (recorded as finance income in the interim condensed consolidated statement of profit or loss and other comprehensive income) continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to finance charges in the interim condensed consolidated statement of profit or loss and other comprehensive income.

*Available-for-sale ("AFS") financial investments*

For AFS financial investments, the Group assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as AFS, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. 'Significant' is evaluated against the original cost of the investment and 'prolonged' against the period in which the fair value has been below its original cost. When there is evidence of impairment, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the other comprehensive income - is removed from OCI and recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income. Impairment losses on equity investments are not reversed through the interim condensed consolidated statement of profit or loss and other comprehensive income; increases in their fair value after impairment are recognised in OCI.

In the case of debt instruments classified as AFS, the impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income.

Future interest income continues to be accrued based on the reduced carrying amount of the asset, using the rate of interest used to discount the future cash flows for the purpose of impairment loss. The interest income is recorded as part of finance income. If, in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income, the impairment loss is reversed through the interim condensed consolidated statement of profit or loss and other comprehensive income.

The Group recognizes loss allowances for expected credit losses ("ECL") representing "12 month ECL" or "lifetime ECL" on the following financial instruments that are not measured at fair value through profit or loss:

- Financial assets that are in the nature of debt instruments
- Receivables

The Group measures loss allowances at an amount equal to lifetime ECL, except for financial instruments (other than lease receivables) that are determined to have low credit risk at the reporting date or on which credit risk has not increased significantly since their initial recognition. Loss allowance for lease and other accounts receivables are measured at an amount equal to lifetime ECL. 12 month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

ECL are a probability weighted estimate of credit losses and are estimated with reference to loss norms as well as probability of defaults and loss given default percentages where available. ECL for specifically identified significant credit impaired receivables is computed as the difference between the gross carrying amount and the present value of estimated future cash flows, to the extent that corresponding information is reliably available.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.15 IMPAIRMENT OF FINANCIAL AND NON-FINANCIAL ASSETS (continued)**

*Available-for-sale (AFS) financial investments (continued)*

At each reporting date, the Group assesses whether a financial asset is credit impaired, which includes assessment of factors such as:

- Significant financial difficulty or bankruptcy of counterparty
- Breach of terms of agreement

Loss allowances for ECL are presented in the interim condensed consolidated financial statements as a deduction from the gross carrying value of the corresponding financial asset. Lease and other receivables are written off when there is no realistic prospect of recovery.

***Non-financial assets***

The carrying amounts of the Group's non-financial assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Impairment exists when the carrying value of an asset or cash generating unit ("CGU") exceeds the recoverable amount, which is the higher of the fair value less costs to sell and value in use. The fair value less costs to sell is arrived based on available data from binding sales transactions at arm's length, for similar assets. The value in use is based on a discounted cash flow (DCF) model, whereby the future expected cash flows discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

Impairment losses are recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

Goodwill that forms part of the carrying amount of an investment in an associate is not recognised separately, and therefore is not tested for impairment separately. Instead, the entire amount of the investment in an associate is tested for impairment as a single asset when there is objective evidence that the investment in an associate may be impaired.

**3.16 PROVISIONS**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the interim condensed consolidated statement of profit or loss and other comprehensive income net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

**3.17 CASH DIVIDEND AND NON-CASH DISTRIBUTION TO EQUITY HOLDERS OF THE PARENT**

Interim dividends are recorded as a liability in the period in which they are approved by the Board of Directors. Final dividends are recorded in the period in which they are approved by the shareholders.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity. Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income.

**4 STANDARDS ISSUED BUT NOT YET EFFECTIVE**

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's interim condensed consolidated financial statements are disclosed below. The Group intends to adopt these standards, if applicable, when they become effective.

<u>Standard/ Interpretation</u>	<u>Description</u>	<i>Effective from periods beginning on or after the following date</i>
IFRS 9	Financial Instruments	1 January 2018
IFRS 15	Revenue from Contracts with Customers	1 January 2018
IFRS 2	Amendments to IFRS 2 Classification and Measurement of Share-Based Payment Transactions.	1 January 2018
IAS 40	Amendments to IAS 40 Transfers of investment property	1 January 2018
IFRIC 22	IFRIC Interpretation 22 Foreign Currency Transactions and Advance Consideration	1 January 2018
IFRS 16	Leases	1 January 2019
IFRS 17	Insurance Contracts	1 January 2021
IFRIC 23	IFRIC Interpretation 23 Uncertainty over Income Tax Treatments	1 January 2019
IFRS 1	IFRS 1 First-time Adoption of International Financial Reporting Standards - Deletion of short-term exemptions for first-time adopters	1 January 2018
IAS 28	IAS 28 Investments in Associates and Joint Ventures - Clarification that measuring investees at fair value through profit or loss is an investment - by - investment choice	1 January 2018
IFRS 4	Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts - Amendments to IFRS 4	1 January 2018

**5 FIRST-TIME ADOPTION OF IFRS**

For all periods up to and including the year ended 31 December 2016, the Group prepared and published its audited consolidated financial statements in accordance with Generally Accepted Accounting Principles ("GAAP") issued by SOCPA in KSA ("SOCPA GAAP"). The Group has applied the IFRS as endorsed in KSA for preparation of its consolidated financial statements for the period beginning 1 January 2017, as well as for presenting the relevant comparative period data. Accordingly, these interim condensed consolidated financial statements are prepared in accordance with the IFRS as endorsed in KSA.

In compliance with requirements of IFRS 1 as endorsed in KSA, the Group's opening consolidated statement of financial position was prepared as at 1 January 2016 after incorporating required adjustments to reflect the transition to IFRS as endorsed in KSA from the previous SOCPA GAAP. The Group has analysed the impact on the consolidated statement of financial positions as at 1 January 2016, 31 December 2016 and also the interim condensed consolidated statement of profit or loss and other comprehensive income for the three-month and nine-month periods ended 30 September 2016. Following are the significant adjustments in transitioning from SOCPA GAAP to IFRS as endorsed in KSA. The significant adjustments in transitioning from SOCPA GAAP to IFRS as endorsed in KSA as at 1 January 2016 and 31 December 2016 have been disclosed in the interim condensed consolidated financial statements for the three-month period ended 31 March 2017.

Group has elected the business combination exemption in IFRS 1 to not apply IFRS 3 retrospectively, to past business combinations. Accordingly, the Group has not restated business combinations that took place prior to the transition date.

For the nine-month period ended 30 September 2017

**5 FIRST-TIME ADOPTION OF IFRS (continued)**

**Notes to the above reconciliation (continued)**

5 (ii) Vehicles held for sale by the Group in the ordinary course of its operations, amounting to SR 9,644 thousand, were previously classified as “assets held for sale” as part of prepayment and other receivables. Since these vehicles and their subsequent sale represents a routine operating activity of the Group, these have been classified to inventories.

Group’s reconciliation of interim condensed consolidated statement of profit or loss and other comprehensive income for the three-month period ended 30 September 2016:

		<i>For the three-month period ended 30 September 2016</i>		
	<i>Note</i>	<i>SOCPA GAAP SR’000</i>	<i>Remeasurement SR’000</i>	<i>IFRS SR’000</i>
Revenue	5(iii) & (iv)	216,122	81,005	297,127
Cost of revenue	5(iii)	(183,222)	(45,591)	(228,813)
<b>GROSS PROFIT</b>		<b>32,900</b>	<b>35,414</b>	<b>68,314</b>
Gain on sale of vehicles	5(iii)	36,070	(36,070)	-

<b>PROFIT BEFORE ZAKAT</b>		<b>44,622</b>	<b>(450)</b>	<b>44,172</b>
Zakat expense		(1,250)	-	(1,250)
<b>PROFIT FOR THE PERIOD</b>		<b>43,372</b>	<b>(450)</b>	<b>42,922</b>
<b>OTHER COMPREHENSIVE INCOME</b>				
Gains/(losses) on actuarial valuation		-	-	-
<b>TOTAL COMPREHENSIVE INCOME FOR THE PERIOD</b>		<b>43,372</b>	<b>(450)</b>	<b>42,922</b>

**Notes to the above reconciliation**

5 (iii) Consistent with the reclassification of vehicle for sale from assets held for sale to inventories (note 5(ii)), an amount of SR 36,070 thousand representing the net gain on sale of vehicles has been reclassified to revenue and cost of sales via adjustments of SR 81,661 thousand (gross sales value) and SR 45,591 thousand (net carrying value of inventories).

5 (iv) As explained in note 3.4, income from other services that are not incidental to the core operating activities of the Group are classified as other income in interim condensed consolidated statement of profit or loss and other comprehensive income. However, these amounts were classified as revenue under SOCPA. Hence, an amount of SR 656 thousand has been reclassified from revenue to other income.

5 (v) The Group previously recognized board of directors’ remuneration in retained earnings through statement of changes in equity. Such remuneration is required to be recorded in interim condensed consolidated statement of profit or loss and other comprehensive income under IFRS and therefore an amount of SR 450 thousand has been reclassified from statement of changes in equity to statement of profit or loss and other comprehensive income.

**Notes to the above reconciliation**

5(vi) Consistent with the reclassification of vehicle for sale from assets held for sale to inventories (note 5(ii)), an amount of SR 111,848 thousand representing the net gain on sale of vehicles has been reclassified to revenue and cost of sales via adjustments of SR 243,333 thousand (gross sales value) and SR 131,485 thousand (net carrying value of inventories).

5(vii) As explained in note 3.4, income from other services that are not incidental to the core operating activities of the Group are classified as other income in interim condensed consolidated statement of profit or loss and other comprehensive income. However, these amounts were classified as revenue under SOCPA. Hence, an amount of SR 2,222 thousand has been reclassified from revenue to other income.

5(viii) The Group previously recognised board of directors' remuneration in retained earnings through statement of changes in equity. Such remuneration is required to be recorded in interim condensed consolidated statement of profit or loss and other comprehensive income under IFRS and therefore an amount of SR 1,350 thousand has been reclassified from statement of changes in equity to statement of profit or loss and other comprehensive income.

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**6 ZAKAT**

**a) Charge for the year**

The Group's zakat charge is based on the separate financial statements of the Parent Company and its subsidiary.

**Movement in provision during the period/year**

The movement in the zakat provision for the period/year is as follows:

	<i>For the period ended 30 September 2017 SR'000</i>	<i>For the year ended 31 December 2016 SR'000</i>
At the beginning of the period/year	7,687	5,246
Provided during the period/year	4,571	7,485
Paid during the period/year	(6,338)	(5,044)
At the end of the period/year	<u>5,920</u>	<u>7,687</u>

**b) Status of assessments**

**The Parent Company**

The Parent Company has filed the zakat return for all years up to the financial year ended 31 December 2016. All assessment proceedings of the General Authority of Zakat and Tax ("GAZT") up to the end of the financial year ended 31 December 2008 have been completed. For the year from 2009 to 2011, the GAZT completed its assessment and raised an additional demand for zakat differences amounting to SR 1,195 thousand during 2013. The Parent Company settled this demand on 25 December 2013 and filed an objection against the assessment; however, the said appeal was withdrawn during the year 2016. The assessments for the financial years 2012 through 2016 are under process.

**Subsidiary- Aljozoor Alrasekha Trucking Company Limited**

The subsidiary has filed the zakat returns up to the financial year ended 31 December 2016. The assessments for the financial years 2012 to 2016 are under process.

**7 EARNINGS PER SHARE ("EPS")**

Basic EPS is calculated by dividing the profit for the period attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the period. The calculation of diluted earnings per share ("EPS") is not applicable to the Group. Also, no separate earning per share calculation from continuing operations has been presented since there were no discontinued operations during the period.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**9 EQUITY**

**(a) Share capital**

At 30 September 2017, the Parent Company's share capital of SR 711.67 million (31 December 2016: SR 610 million) consists of 71.167 million (31 December 2016: 61 million) fully paid shares of SR 10 each.

The Board of Directors in its meeting held on 19 January 2016, proposed final dividend of SR 76.25 million (representing SR 1.5 per share) for the year ended 31 December 2015. Additionally, the Board of Directors also proposed to increase the Parent Company's share capital to SR 610 million by issuing one bonus share for every five ordinary shares outstanding. The shareholders in the Extraordinary General Assembly Meeting on 5 May 2016, approved the Board's proposal and authorised issuance of 10.17 million bonus shares at a nominal value of SR 10 each and resultantly the share capital of the Parent Company was increased from SR 508.3 million to SR 610 million. The legal formalities for the increase in capital were completed on 21 June 2016.

The Board of Directors in its meeting held on 19 January 2017, proposed final dividend of SR 76.25 million (representing SR 1.25 per share) for the year ended 31 December 2016. Additionally, the Board of Directors also proposed to increase the Parent Company's share capital to SR 711.67 million by issuing one bonus share for every six ordinary shares outstanding. The shareholders in the Extraordinary General Assembly Meeting on 19 April 2017, approved the Board's proposal and authorised issuance of 10.17 million bonus shares at a nominal value of SR 10 each and resultantly the share capital of the Parent Company was increased from SR 610 million to SR 711.67 million. The legal formalities for the increase in capital were completed on 7 June 2017.

**(b) Statutory reserve**

In accordance with the bye-laws of the Parent Company, 10% of the net income for the period was transferred to the statutory reserve. The Parent Company may resolve to discontinue such transfers when the reserve totals 30% of the share capital.

**10 BORROWINGS**

	<i>30 September 2017 SR'000</i>	<i>31 December 2016 SR'000</i>
<b><i>Non-current portion</i></b>		
Murabaha sale agreements	<b>25,200</b>	91,825
Al Tawarroq agreements	<b>8,933</b>	1,111
	<b>34,133</b>	92,936
<b><i>Current portion</i></b>		
Murabaha sale agreements	<b>154,086</b>	327,294
Al Tawarroq agreements	<b>73,842</b>	45,277
	<b>227,928</b>	372,571

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**10 BORROWINGS (continued)**

Long-term bank debts consist of Group's borrowings under various Islamic Finance Products including Murabaha and Al Tawarroq arrangements with commercial banks. Such debts bear commission charges at the prevailing market rates. These loans are secured by demand promissory notes. The loan agreements include covenants which, among other things, require certain financial ratios to be maintained. The instalments due within twelve months from the period end are shown as a current liability in the interim condensed consolidated statement of financial position.

**11 EMPLOYEE BENEFITS**

The Group operates an approved unfunded employees' end of service benefits plan ("EOSB") for its employees as required by the Saudi Arabian Labor Law. The movement in EOSB for the period/year ended is as follows:

	<i>For the nine-month period ended 30 September 2017 SR'000</i>	<i>For the year ended 31 December 2016 SR'000</i>
Balance at 1 January	37,870	35,655
<i>Included in statement of profit or loss</i>		
Current service cost	1,585	2,524
Interest cost	1,394	1,704
	<u>40,849</u>	<u>39,883</u>
<i>Included in statement of other comprehensive income</i>		
Actuarial loss	-	51
	<u>40,849</u>	<u>39,934</u>
Benefits paid	<u>(4,884)</u>	<u>(2,064)</u>
Balance at the end of the period/year	<u><u>35,965</u></u>	<u><u>37,870</u></u>

There has been no change in actuarial assumptions for the nine-month period ended 30 September 2017. Hence, actuarial gain/loss for the period is nil.

Allocation of EOSB charge between cost of revenue, selling and marketing expenses and general and administrative expenses is as follows:

	<i>For the nine-month period ended 30 September 2017 SR'000</i>	<i>For the nine-month period ended 30 September 2016 SR'000</i>
Cost of revenue	1,050	1,369
Selling and marketing expenses	939	917
General and administrative expenses	990	1,078
	<u><u>2,979</u></u>	<u><u>3,364</u></u>

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**11 EMPLOYEE BENEFITS (continued)**

The following were the principal actuarial assumptions applied at the reporting date:

	<i>30 September 2017</i>	<i>31 December 2016</i>
Discount rate	<b>5%</b>	5%
Future salary growth / expected rate of salary increase:		
- First four years	<b>3%</b>	3%
- Thereafter	<b>5%</b>	5%
Mortality rate	<b>0.65 - 6.67 per thousand</b>	0.65 - 6.67 per thousand
Employee turnover / withdrawal rates	<b>0 – 57.36 per thousand</b>	0 – 57.36 per thousand
Retirement age	<b>60 years</b>	60 years

Similar assumptions, as above, were applied in the computation of EOSB as at 30 September 2016.

The sensitivity of EOSB to changes in the weighted principal assumptions is as follows:

	Impact on EOSB		
	<u>Increase / (decrease) in actual figures</u>		
	<b>Change in assumption by</b>	<b>Increase in assumption by</b>	<b>Decrease in assumption by</b>
Discount rate	1%	(4,180)	5,119
Future salary growth / expected rate of salary increase	1%	4,969	(4,114)
Mortality rate	1 year	(31)	37
Employee turnover / withdrawal rates	1 year	77	(84)
Retirement age	1 year	206	(231)

The weighted average duration of the defined benefit obligation is 9 years.

**12 RELATED PARTY TRANSACTIONS AND BALANCES**

Related parties represent major shareholders, directors and key management personnel of the Group and entities controlled, jointly controlled or significantly influenced by such parties. The transactions with related parties are made at terms equivalent to those that prevail in arm's length transactions.

a) The significant transactions and the related amounts are as follows:

<i>Related party</i>	<i>Nature of relationship</i>	<i>Nature of transactions</i>	<i>Amounts of transactions</i>	
			<i>For the nine-month period ended 30 September 2017</i>	<i>For the nine-month period ended 30 September 2016</i>
			<i>SR'000</i>	<i>SR'000</i>
Zahid Group (note b)	Shareholder	Car rentals	186	311
Automotive Maintenance Centre (AMC)	Affiliate	Services received	442	-
		Used car sale	14,900	23,582
Key management personnel	Employees	Short term benefits	759	774
		Long term benefits	87	87
		Board of Directors remuneration	1,350	1,350

For the nine-month period ended 30 September 2017

**12 RELATED PARTY TRANSACTIONS AND BALANCES (continued)**

b) Due from a related party as of period/year end represents the following:

	<i>30 September 2017 SR'000</i>	<i>31 December 2016 SR'000</i>
Zahid Group	<u>97</u>	<u>132</u>

**13 CONTINGENCIES AND COMMITMENTS**

At 30 September 2017, the Group has outstanding letters of guarantee amounting to SR 3.8 million (31 December 2016: SR 5.6 million) issued by the banks in Saudi Arabia on behalf of Group in the ordinary course of business.

**14 SEGMENTAL INFORMATION**

The Group has three reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different products and services, and are managed separately because they require different marketing strategies. For each of the strategic business units, the Group's top management reviews internal management reports on at least a quarterly basis. The following summary describes the operations in each of the Group's reportable segments:

- Lease segment – represents cars leased out to customers under medium to longer term rental arrangements
- Rental segment – represents cars leased out to customers under short term rental arrangements
- Other – represents inventories, other assets and liabilities and related income & expense for items not classified under lease and rental segments.

Segment results that are reported to the top management (Chief Executive Officer (CEO), Chief Operating Officer (COO) and Chief Financial Officer (CFO)) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment revenues, as included in the internal management reports that are reviewed by the top management. There are no inter segment revenue reported during the period.

The following table presents segment information for the three-month period ended 30 September 2017:

<i>Particulars</i>	<i>Lease</i>		<i>Rental</i>		<i>Other</i>		<i>Total</i>	
	<i>30</i>	<i>30</i>	<i>30</i>	<i>30</i>	<i>30</i>	<i>30</i>	<i>30</i>	<i>30</i>

Segment assets	970,423	325,406	343,968	1,639,797
Segment liabilities	-	-	644,459	644,459

**15 FAIR VALUE OF ASSETS AND LIABILITIES**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or liability, the Group uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

UNITED INTERNATIONAL TRANSPORTATION COMPANY  
(A SAUDI JOINT STOCK COMPANY)

---

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)

For the nine-month period ended 30 September 2017

**15 FAIR VALUE OF ASSETS AND LIABILITIES (continued)**

If the inputs used to measure the fair value of an asset or liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest input level that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

As at 30 September 2017 and 31 December 2016, the fair values of the Group's financial instruments are estimated to approximate their carrying values and are classified under level 2 of the fair value hierarchy. No significant inputs were applied in the valuation of trade receivables as at 30 September 2017 and 31 December 2016.

During the nine-month period ended 30 September 2017, there were no movements between the levels.

**16 APPROVAL OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

These unaudited interim condensed consolidated financial statements have been approved by the Board of Directors on 2 November 2017, corresponding to 13 Safar 1439H.
