Report on review of condensed consolidated interim financial statements

To the shareholders of Bawan Company: (A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying consolidated interim statement of financial position of Bawan Company (the "Company") and its subsidiaries (collectively referred to as the "Group") as of March 31, 2021 and the related consolidated interim statements of profit or loss and other comprehensive income, changes in equity, and cash flows for the three-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard No. 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

The condensed consolidated interim financial statements for the three-month period ended March 31, 2021 have been prepared in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting" as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

The condensed consolidated interim financial statements do not include all information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2020. In addition, results for the three-month period ended March 31, 2021 are not necessarily indicative of the results that may be expected for the financial year ending December 31, 2021.

Basis of measurement

These condensed consolidated interim financial statements are prepared under the historical cost convention, except for certain financial instruments measured at fair value and the employee defined benefits liability which is stated at the present value of the related obligation.

These condensed consolidated interim financial statements are presented in Saudi Riyals (SR), which is the Group's functional currency, and all values are rounded to the nearest thousand, except where otherwise stated.

Historical cost is generally based on the fair value of the consideration given in exchange for the goods and services.

3. Significant accounting policies

The accounting policies used in the preparation of these condensed consolidated interim financial statements are consistent with those used in the preparation of the Company's annual consolidated financial statements as of and for the year ended December 31, 2020, and the notes attached thereto, except for the adoption of certain new and revised standards that became effective in the current period.

New Standards, Amendment to Standards and Interpretations effective from January 1, 2021

There are no new standards issued, however, there are number of amendments to standards which are effective from January 1, 2021 and has been explained in Group's annual consolidated financial statements for the year ended December 31, 2020, but they do not have a material effect on the Group's condensed interim financial statements.

The following amendments to standards have been published by IASB that are not mandatory for the annual reporting period beginning on 1 January 2021, and where early application is permitted by these

amendments, the Group has not early adopted them. All of these amendments are effective either for annual reporting years beginning on or after 1 January 2022, or for annual reporting years beginning on or after 1 January 2023, and all are not expected to have a significant impact on the Group's consolidated financial statements:

- Amendments to IAS 1: Classification of Liabilities as Current or Non-current
- Amendments to IAS 37: Onerous Contracts Costs of Fulfilling a Contract
- Amendments to IAS 16: Property, Plant and Equipment Proceeds before Intended Use

4. Critical judgments and key sources of estimation uncertainty

The preparation of the condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Company's annual consolidated financial statements as of and for the year ended December 31, 2020.

However, management has proactively assessed the potential impact of the Coronavirus (Covid-19) pandemic for any further regulatory and government restrictions both locally and in the market in which the Group operates. Management has concluded that the critical accounting judgements, estimates and assumptions remain appropriate under the current circumstances and there are no changes to the significant judgements and estimates disclosed in the consolidated financial statements for the year ended December 31, 2020.

Diluted EPS is determined by adjusting the profit for the period attributable to ordinary equity holders of the Company and the weighted average number of ordinary shares outstanding during the period for the effects of all dilutive potential ordinary shares. Since the company has no such dilutive potential ordinary shares, the calculation and presentation of basic and diluted EPS of the Company will be the same.

14. Fair value measurement

The Group measures financial assets at fair value through profit or loss at each statement of financial position date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. Fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits from the asset's highest and best use or by selling it to another market participant that would utilize the asset in its highest and best use.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The financial assets measured at FVTPL at the end of the reporting period are classified as level 1 in the fair value hierarchy. There were no transfers between the levels of the fair value hierarchy during the period.

The carrying values of the financial instruments reported in the consolidated interim statement of financial position approximate their fair values.
