INDEPENDENT AUDITORS' REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL STATEMENTS

TO THE SHAREHOLDERS OF ARABIA INSURANCE COOPERATIVE COMPANY (A SAUDI JOINT STOCK COMPANY) Kingdom of Saudi Arabia

INTRODUCTION

We have reviewed the accompanying interim condensed statement of financial position of Arabia Insurance Cooperative Company - (the "Company") as at 31 March 2021, and the related interim condensed statements of income, comprehensive income, changes in shareholders' equity and cash flows for the three month period ended and a summary of significant accounting policies and other explanatory notes ("interim condensed financial statements"). Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of interim condensed financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting' as endorsed in the Kingdom of Saudi Arabia.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (CONTINUED)

FOR THE THREE-MONTHS PERIOD ENDED 31 MARCH 2021

2. BASIS OF PREPARATION (continued)

a) Basis of presentation: (continued)

The statement of financial position, statements of income, comprehensive income and cash flows of the insurance operations and shareholders' operations which are presented in Note 16 of the financial statements have been provided as supplementary financial information to comply with the requirements of the guidelines issued by SAMA implementing regulations. SAMA implementing regulations requires the clear segregation of the assets, liabilities, income and expenses of the insurance operations and the shareholders' operations. Accordingly, the statements of financial position, statements of income, comprehensive income and cash flows prepared for the insurance operations and shareholders operations as referred to above, reflect only the assets, liabilities, income, expenses and comprehensive gains or losses of the respective operations.

In preparing the Company-level financial statements in compliance with IFRS, the balances and transactions of the insurance operations are amalgamated and combined with those of the shareholders' operations. Inter-operation balances, transactions and unrealised gains or losses, if any, are eliminated in full during amalgamation. The accounting policies adopted for the insurance operations and shareholders' operations are uniform for transactions and events in similar circumstances.

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements and must be read in conjunction with the annual financial statements of the company as they are on December 31, 2020.

The interim condensed financial statements are expressed in Saudi riyals.

b) Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires the use of estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results ultimately may differ from those estimates. Moreover, the company has reviewed the main sources to estimate the uncertainty disclosed in the latest annual financial statements regarding the Coronavirus (Covid-19) pandemic, moreover, the company has considered the following:

Impact of Covid-19

On 11 March 2020, the World Health Organisation ("WHO") declared the Coronavirus ("COVID-19") outbreak as a pandemic in recognition of its rapid spread across the globe. This outbreak has also affected the GCC region including the Kingdom of Saudi Arabia. Governments all over the world took steps to contain the spread of the virus. Saudi Arabia in particular has implemented closure of borders, released social distancing guidelines and enforced country wide lockdowns and curfews.

In response to the spread of the Covid-19 virus in the GCC and other where the Company operates and its consequential disruption to the social and economic activities in those markets, the Company's management has proactively assessed its impacts on its operations and has taken a series of proactive and preventative measures and processes to ensure:

- The health and safety of its employees and the wider community where it is operating
- The continuity of its business throughout the Kingdom is protected and kept intact.

The major impact of Covid-19 pandemic is seen in medical and motor line of business as explained below. As with any estimate, the projections and likelihoods of occurrence are underpinned by significant judgment and rapidly evolving situation and uncertainties surrounding the duration and severity of the pandemic, and therefore, the actual outcomes may be different to those projected.

The impact of such uncertain economic environment is judgmental, and the Company will continue to reassess its position and the related impact on a regular basis.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (CONTINUED)

FOR THE THREE-MONTHS PERIOD ENDED 31 MARCH 2021

2. BASIS OF PREPARATION (continued)

Significant accounting judgements, estimates and assumptions (continued)

Medical technical reserve

Based on the management's assessment, the management believes that the Government's decision to assume the medical treatment costs for both Saudi citizens and expatriates has helped in reducing any unfavorable impact. During the lockdown, the Company saw a decline in medical reported claims (majorly elective and non-chronic treatment claims) which resulted in a drop in claims experience. However, subsequent to the lifting of lockdown since 21 June 2020, the Company is experiencing a surge in claims which is in line with the expectations of the Company's management. The Company's management has duly considered the impact of surge in claims in the current estimate of future contractual cash flows of the insurance contracts in force as at 31 March 2021 for its liability adequacy test.

Motor technical reserves

In response to the Covid-19 pandemic, SAMA issued a circular 189 (the "circular") dated 08 May 2020 to all insurance companies in the Kingdom of Saudi Arabia. Amongst other things, the circular instructed insurance companies to extend the period of validity of all existing retail motor insurance policies by further two months as well as providing a two-month additional coverage for all new retail motor policies written within one month of this circular.

The Management, in conjunction with its appointed actuary, deliberated on a variety of internal factors and concluded, that the Company considers the extension of two months in exiting motor policies as new policy and record a premium deficiency reserve based on the expected claims for the extended two months' period.

For new policies written as per above circular, the premium is earned over the period of coverage i.e 14 month as per the Company accounting policy. There is no material impact on the two-month period of the premiums earned as on March 31, 2020, due to the absence of large amounts for the premiums that were subscribed during the one-month period.

The Company has performed a liability adequacy test using current estimates of future cash flows under its insurance contracts at an aggregated (or "segmented") (as appropriate for the performance of some companies at a segmented level, which is a wise and recommended behavior) level for motor line of business and recorded a premium / premium deficiency reserve amounting to SR 1 million as on March 31, 2021 (December 31, 2020: SR 1.83 million) as a premium deficiency reserve.

Financial assets

To cater for any potential impacts, the Covid-19 pandemic may have had on the financial assets of the Company, the Company has performed an assessment in accordance with its accounting policy, to determine whether there is an objective evidence that a financial asset or a group of financial assets has been impaired. For debt financial assets, these include factors such as, significant financial difficulties of issuers or debtors, default or delinquency in payments, probability that the issuer or debtor will enter bankruptcy or other financial reorganization, etc.

In case of equities classified under available-for-sale, the Company has performed an assessment to determine whether there is a significant or prolonged decline in the fair value of financial assets below their cost.

Based on these assessments, the Company's management believes that the Covid-19 pandemic has had no material effects on Company's reported results for the three months' period ended 31 March 2021. The Company's management continues to monitor the situation closely.

3. NEW STANDARDS AND AMENDMENTS TO STANDARDS AND INTERPRETATIONS

The significant accounting policies and risk management policies adopted in preparing these condensed interim financial statements are consistent with those that are followed in preparing the annual financial statements of the company for the year ended December 31, 2020.

New standards were issued, but not yet effective

The standards and interpretations that were issued, but were not effective until the date of issuance of the initial financial statements of the company, are disclosed below. The Company intends to adopt these standards, if required, when they become effective.

IFRS 9 Financial Instruments

IFRS 9, as issued, reflects the first phase of the IASB's work although the date of approval is subject to the recently issued exposure draft on replacing IAS 39 and applies to the classification and measurement of financial assets and liabilities as defined in the IAS International 39. The standard was initially effective for annual periods beginning on or after 1 January 2013, but amendments to IFRS 9 Mandatory Effective Date of IFRS 9 and Transfer Disclosures, issued in December 2011, move the mandatory effective date to January 1, 2015.

However, on November 19, 2013, the International Accounting Standards Board issued IFRS 9 Financial Instruments (Hedge Accounting and Amendments to IFRS 9) amending IFRS 9 to include the new general hedge accounting model. At its February 2014 meeting, the International Accounting Standards Board decided that IFRS 9 would be effective and mandatory for annual reporting periods beginning on or after January 1, 2018, with an optional temporary exception to postpone the application of IFRS 9 until January 1, 2022. For companies whose activities are mostly associated with insurance. In line with other insurance companies in the Kingdom of Saudi Arabia, the company has postponed the application of IFRS 9 until 1 January 2023 to comply with the adoption of IFRS 17.

IFRS 17 Insurance Contracts

The International Accounting Standards Board issued IFRS 17 in May 2017. IFRS 17 will be mandatory for annual reporting periods beginning on or after January 1, 2023. Once it becomes effective, the IFRS becomes available. Financial No. 17 replaces IFRS 4 that was issued in 2005. The overall goal of IFRS 17 is to provide a more useful and consistent accounting model for insurance contracts between entities that issue insurance contracts globally. The company is in the process of evaluating the impact of IFRS 17.

9. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction takes place either:

- in the accessible principal market for the asset or liability, or
- in the absence of a principal market, in the most advantages accessible market for the asset or liability

The fair values of on-balance sheet financial instruments are not significantly different from their carrying amounts included in the interim condensed financial information.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for the same or identical instrument that an entity can access at the measurement date;

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

Fair value

The following table shows the carrying amount and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation to fair value.

* The investment in shares of a local non-current company, amounting to SR 1.9 million (December 31, 2020: SR 1.9 million), represents equity investments in the capital of Najm Company for Non-Current Insurance Services at a rate of 3.85% (31 December 2020: 3.85%). Due to the lack of fair value, the investment has been recorded at cost and in the opinion of management there is no material difference between the fair value of this investment and its carrying value.
