**Independent auditors' review report  
on the condensed interim financial statements to the unitholders of  
Alpha Saudi Equity Fund  
(Managed by Alpha Capital Company)**

**Introduction:**

We have reviewed the accompanying condensed interim statement of financial position of Alpha Saudi Equity Fund ("the Fund") being managed by Alpha Capital Company (the "Fund Manager") as at 30 June 2019, and the related condensed interim statement of comprehensive income, cash flows and changes in net assets for the period from 25 July 2018 to 30 June 2019, and notes comprising the summary of significant accounting policies and other explanatory notes. The Fund Manager is responsible for the preparation and fair presentation of these condensed interim financial statements in accordance with International Accounting Standard 34 – "Interim Financial Reporting ("IAS 34")", as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

**Scope of review:**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of the condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion:**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

# Alpha Saudi Equity Fund (Managed by Alpha Capital Company)

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) 30 JUNE 2019

---

### 1 GENERAL

Alpha Saudi Equity Fund (the "Fund") is an open-ended fund. The main activity of the Fund is investing in the equities of the companies listed on the Saudi Stock Exchange (Tadawul), tradable right issues and local public initial public offerings.

The Fund is managed by Alpha Capital Company (the "Fund Manager"), a closed joint stock company licensed by the Capital Market Authority of the Kingdom of Saudi Arabia ("CMA") under license number 33-18187.

The Fund's Manager registered office is P.O. Box 54854, Riyadh 11524, Kingdom of Saudi Arabia.

In dealing with the unitholders, the Fund Manager considers the Fund as an independent accounting unit. Accordingly, the Fund Manager prepares separate financial statements for the Fund.

The Fund was offered for subscription under the laws and regulations of Capital Market Authority ("CMA") on 14 Shawal 1439H (corresponding to 28 June 2018). The Fund commenced its operations on 12 Dhul-Qa'dah 1439H (corresponding to 25 July 2018). Accordingly, these condensed interim financial statements cover the period from 25 July 2018 to 30 June 2019 (the "period").

The last valuation day of the period was 30 June 2019.

These financial statements were authorized for issue by the Board of Directors on 19 Thul Hajj 1440H (corresponding to 20 August 2019).

### 2 REGULATING AUTHORITY

The Fund is governed by the Investment Fund Regulations (the "Regulations") issued by the CMA on 3 Thul Hijjah 1427H (corresponding to 24 December 2006), subsequently amended by the issuance of a new Investment Funds Regulation dated 16 Sha'aban 1437H (corresponding to 23 May 2016) by the CMA detailing requirements for all Investment Funds within the Kingdom of Saudi Arabia.

### 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below.

#### 3.1 BASIS OF PREPARATION

These condensed interim financial statements of the Fund have been prepared in accordance with International Accounting Standard 34 ("IAS 34") as endorsed in the Kingdom of Saudi Arabia.

The preparation of these condensed interim financial statements requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying the Fund's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 4.

Alpha Saudi Equity Fund  
(Managed by Alpha Capital Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) (continued)  
30 JUNE 2019

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.1 BASIS OF PREPARATION (continued)**

**a) Standards and amendments to existing standards effective 1 January 2019**

***IFRS 16 "Leases"***

IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases.

IFRS 16 supersedes the following Standards and Interpretations:

- (a) IAS 17 Leases;
- (b) IFRIC 4 Determining whether an Arrangement contains a Lease;
- (c) SIC-15 Operating Leases—Incentives; and
- (d) SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all major leases; which represents a significant change from IAS 17.

Lessor accounting under IFRS 16 is substantially unchanged from current accounting under IAS 17. Lessors will continue to classify all leases using the same classification principle as in IAS 17 and distinguish between two types of leases: operating and finance leases.

In the opinion of the Board, the above-mentioned standard will clearly not impact the Fund, as the Fund has no leases

**b) New standards, amendments and interpretations effective after 1 January 2019 and have not been early adopted**

The following standards, amendments to standards and interpretations are not yet effective and neither expected to have a significant impact on the Fund's financial statements:

<u>Standards / amendments to standards / interpretations</u>	<u>Effective date</u>
Definition of a Business (Amendments to IFRS 3)	1 January 2020
Definition of Material (Amendments to IAS 1 and IAS 8)	1 January 2020
IFRS 17 Insurance Contracts	1 January 2021

In the opinion of the Board, these standards, amendments to standards and interpretations will clearly not impact the Fund. The Fund intends to adopt these standards, if applicable, when they become effective.

**3.2 ACCOUNTING CONVENTION**

The condensed interim financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss.

The Fund does not have a clearly identifiable operating cycle and therefore does not present current and non-current assets and liabilities separately in the statement of financial position. Instead, assets and liabilities are presented in order of liquidity.

**Alpha Saudi Equity Fund**  
**(Managed by Alpha Capital Company)**

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) (continued)  
30 JUNE 2019

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.3 FOREIGN CURRENCY TRANSLATION**

**a) Functional and presentation currency**

These condensed interim financial statements are presented in Saudi Arabian Riyals ("SR"), which is the Fund's functional and presentation currency. All financial information presented has been rounded to the nearest SR.

**b) Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the condensed interim statement of financial position date.

Foreign exchange gains and losses arising from translation are included in the condensed interim statement of comprehensive income.

**3.4 FINANCIAL INSTRUMENTS**

**3.4.1 Initial recognition and measurement**

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provisions of the instrument. The Fund records investments on a 'trade date' basis, which is the date the Fund commits to purchase or sell the asset.

At initial recognition, the Fund measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the condensed interim statement of comprehensive income.

**3.4.2 Classification**

In accordance with IFRS 9, the Fund classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- (a) It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term; or
- (b) On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking; or
- (c) It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Alpha Saudi Equity Fund  
(Managed by Alpha Capital Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) (continued)  
30 JUNE 2019

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.4 FINANCIAL INSTRUMENTS (continued)**

**3.4.2 Classification (continued)**

***Financial assets***

The Fund classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- The entity's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial asset

***Financial assets measured at fair value through profit or loss ("FVPL")***

A financial asset is measured at fair value through profit or loss if:

- (a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding;
- (b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; and
- (c) At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases.

***Financial liabilities***

***Financial liabilities measured at FVPL***

A financial liability is measured at FVPL if it meets the definition of held for trading.

***Financial liabilities measured at amortised cost***

This category includes all financial liabilities, other than those measured at fair value through profit or loss. The Fund includes in this category short-term payables.

**3.4.3 Subsequent measurement**

After initial measurement, the Fund measures financial instruments which are classified as at FVPL at fair value. Subsequent changes in the fair value of those financial instruments are recorded in net gain or loss on financial assets and liabilities at FVPL in the condensed interim statement of comprehensive income. Interest and dividends earned or paid on these instruments are recorded separately in interest revenue or expense and dividend revenue or expense in the condensed interim statement of comprehensive income.

Financial liabilities, other than those classified as at FVPL, are measured at amortised cost using the effective interest method. Gains and losses are recognised in the condensed interim profit or loss when the liabilities are derecognised, as well as through the amortisation process.

The Fund does not have any financial assets other than cash and cash equivalents and those held at fair value through profit or loss and, as such, has chosen to apply an approach similar to the simplified approach for expected credit losses ("ECL") under IFRS 9. Therefore, the Fund does not track changes in credit risk, but instead, will recognise a loss allowance based on lifetime ECL at each reporting date on its trade receivables if they arise in future. The Fund's approach to ECL reflects a probability-weighted outcome, the time value of money and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Fund uses the provision matrix as a practical expedient to measure ECL on trade receivables, based on days past due for groupings of receivables with similar loss patterns. Receivables are grouped based on their nature. The provision matrix is based on historical observed loss rates over the expected life of the receivables and is adjusted for forward-looking estimates.

Alpha Saudi Equity Fund  
(Managed by Alpha Capital Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) (continued)  
30 JUNE 2019

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.4 FINANCIAL INSTRUMENTS (continued)**

**3.4.5 De-recognition of financial instruments**

A financial asset is derecognized, when the contractual rights to the cash flows from the financial asset expire or the asset is transferred, and the transfer qualifies for de-recognition. In instances where the Fund is assessed to have transferred a financial asset, the asset is derecognized if the Fund has transferred substantially all the risks and rewards of ownership. Where the Fund has neither transferred nor retained substantially all the risks and rewards of ownership, the financial asset is derecognized only if the Fund has not retained control of the financial asset. The Fund recognizes separately as assets or liabilities any rights and obligations created or retained in the process.

The Fund derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired.

**3.4.6 Offsetting financial instruments**

Financial assets and liabilities are offset, and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Fund or the counterparty.

**3.5 CASH AND CASH EQUIVALENTS**

Cash and cash equivalents include cash in hand and with a bank and other short-term highly liquid investments, if any, with maturities of three months or less from the purchase date.

**3.6 ACCRUED EXPENSES**

Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

**3.7 REDEEMABLE UNITS**

Units subscribed and redeemed are recorded at the net asset value per unit on the valuation day for which the subscription request and redemption applications are received.

**3.8 NET ASSETS VALUE**

The net assets value per unit disclosed in the statement of financial position is calculated by dividing the net assets value of the Fund by the number of units in issue at the period end.

**3.9 MANAGEMENT FEES, CUSTODIAN FEES AND OTHER EXPENSES**

Management fees, administration fees, custodian fees and other expenses are charged at rates / amounts within limits mentioned in terms and conditions of the Fund.

**3.10 ZAKAT AND INCOME TAX**

Under the current system of taxation in Kingdom of Saudi Arabia the Fund is not liable to pay any Zakat or income tax which are the obligation of the Unitholders and are not provided in the accompanying condensed interim financial statements.

Alpha Saudi Equity Fund  
(Managed by Alpha Capital Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) (continued)  
30 JUNE 2019

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.11 DIVIDEND INCOME**

Dividend income is recognized when the right to receive the dividend is established.

**4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS**

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined below.

***Fair value measurement***

The Fund measures its investments in equity instruments at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible to the Fund. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The fair value for financial instruments traded in active markets at the reporting date is based on their quoted prices available on respective stock exchange, without any deduction for transaction costs. The Fund is using last traded prices which is recognised as standard pricing convention within the industry.

For all other financial instruments not traded in an active market, if any, the fair value is determined using valuation techniques deemed to be appropriate in the circumstances. Valuation techniques include the market approach (i.e., using recent arm's length market transactions, adjusted as necessary, and reference to the current market value of another instrument that is substantially the same) and the income approach (i.e., discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

The Fund measures financial instruments at fair value at each statement of financial position date. Fair values of those financial instruments are disclosed in Note 7.

**Alpha Saudi Equity Fund**  
**(Managed by Alpha Capital Company)**

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) (continued)  
30 JUNE 2019

**5 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS**

The composition and geographical exposure of financial assets at fair value through profit or loss on the last valuation day is summarized below:

<u>Quoted equity investments (by country)</u>	<u>Period ended 30 June 2019</u>	
	<u>Market value</u>	
	<u>SR</u>	
Kingdom of Saudi Arabia	<u><u>42,065,797</u></u>	

**6 TRANSACTIONS WITH RELATED PARTIES**

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. The Fund Manager and entities / persons related to Fund Manager are considered as related parties of the Fund. In the ordinary course of its activities, the Fund transacts business with its related parties. Related party transactions are governed by limits set by the regulations issued by the CMA. All the related party transactions are approved by the Board of Directors.

a) Management and Admin fee

The Fund Manager is responsible for the overall management of the Fund's activities. The Fund Manager charges management fee at the rate of 1.45% that are calculated on a daily basis based on the net value of the Fund's assets. Total management fee for the period amounted to SR 655,817 with SR 204,853 in outstanding accrued fees due to the Fund Manager at the end of the period.

The Fund manager charges admin fee at a rate of 0.07% that are calculated on a daily basis based on the gross value of the Fund's assets with a minimum monthly fee of SR 9,375. Total admin fee for the period amounted to SR 110,034 with SR 40,780 in outstanding accrued fees due to the Fund Manager at the end of the period.

In addition, the Fund Manager charges subscription fee for one time at the rate of 2% of the subscription value from the Fund's unitholders, however such fee is not considered in the financial statement of the Fund, as investment to the Fund are always net of subscription fees.

As at 30 June 2019, the Fund Manager held 777,229 units.

b) Board of Directors and Sharia Committee remuneration

The total remuneration accrued to the directors for the period was SR 18,630 and consisted of only fixed directors' fees. Furthermore, for the period an oversight fee was accrued for the members of the Sharia Committee with an amount of SR 13,034.

**7 FINANCIAL RISK MANAGEMENT**

**7.1 FINANCIAL RISK FACTORS**

The Fund's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Fund's overall risk management programme seeks to maximize the returns derived for the level of risk to which the Fund is exposed and seeks to minimize potential adverse effects on the Fund's financial performance. The Fund Manager has in place policies and procedures to identify risks affecting the Fund's investments and to ensure that such risks are addressed as soon as possible, which include conducting a risk assessment at least once a year.

The Fund Manager also applies a prudent spread of risk while taking into consideration the Fund's investment policies and the terms and conditions. Furthermore, the Fund Manager shall make every effort to ensure that sufficient liquidity is available to meet any anticipated recovery request. The Board of the Fund plays a role in

ensuring that the Fund Manager fulfils its responsibilities to the benefit of the unitholders in accordance with the provisions of the Investment Funds Regulations and the terms and conditions.

The Fund uses different methods to measure and manage the various types of risk to which it is exposed; these methods are explained below.

**7.1.1 Market risk**

*a) Commission rate risk*

Commission rate risk is the risk that the value of future cash flows of a financial instrument or fair values of fixed coupon financial instruments will fluctuate due to changes in market commission rates. The Fund is not subject to commission rate risk, as it does not have any commission bearing financial instruments.

*b) Currency risk*

Currency risk is the risk that the value of a financial instrument will fluctuate due to a change in foreign exchange rates. The Fund's financial assets and financial liabilities are denominated in Saudi Riyal and therefore the Fund is not exposed to any currency risks on these financial instruments.

*c) Price risk*

Price risk is the risk that the value of the Fund's financial instruments will fluctuate as a result of changes in market prices caused by factors other than foreign currency and commission rate movements.

The price risk arises primarily from uncertainty about the future prices of the financial instruments that the Fund holds. The Fund Manager closely monitors the price movement of its financial instruments listed at stock exchange markets. The Fund manages the risk through diversification of its investment portfolio by investing in various industry sectors.

Industry concentration of the investment portfolio of the Fund is disclosed in the table below:

<b>Industry group</b>	<b>Percentage %</b>	<b>30 June 2019</b>
Financial	33	14,042,824
Materials	29	12,357,083
Consumer Discretionary	10	4,085,543
Communication Services	9	3,657,185
Energy	5	2,278,573
Real Estate	5	1,923,550
Consumer Staples	5	1,895,826
Industrials	4	1,825,213
	<b>100</b>	<b>42,065,797</b>

**7.1 FINANCIAL RISK FACTORS (continued)**

**7.1.1 *Marek risk (continued)***

***Sensitivity analysis***

The table below set outs the effect on profit or loss of a reasonably possible weakening / strengthening in the individual equity market prices of 5% at reporting date. The estimates are made on an individual investment basis. The analysis assumes that all other variables remain constant.

		30 June 2019 SR
<i>Net gain (loss) on financial assets at fair value through profit or loss</i>	<b>+5%</b>	<b>2,103,290</b>
	<b>-5%</b>	<b>(2,103,290)</b>

**7.1.2 *Liquidity risk***

Liquidity risk is the risk that the Fund will encounter difficulty in realizing funds to meet commitments associated with financial liabilities.

The Fund's terms and conditions provide for subscriptions and redemptions of units throughout the week and the Fund is therefore, exposed to the liquidity risk of not meeting unitholder redemptions. The Fund's securities are considered to be readily realizable and they can be liquidated at any time. However, the Fund Manager has established certain liquidity guidelines for the Fund and monitors liquidity requirements on a regular basis to ensure sufficient funds are available to meet any commitments as they arise, either through new subscriptions, liquidation of the investment portfolio or by obtaining financing from the related parties of the Fund.

**7.1.3 *Credit risk***

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Fund does not have a formal internal grading mechanism. Credit risk is managed and controlled by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties. Credit risks are generally managed on the basis of external credit ratings of the counterparties. The Fund Manager seeks to limit its credit risk by monitoring credit exposure and by dealing with reputed counterparties.

The fund is exposed to credit risk on its cash and cash equivalents which is held with Al Bilad Capital, the custodian of the Fund.

**7.2 CAPITAL RISK MANAGEMENT**

The capital of the Fund is represented by the net assets attributable to holders of redeemable units. The amount of net asset attributable to holders of redeemable units can change significantly on each valuation day, as the Fund is subject to subscriptions and redemptions at the discretion of unitholders on every valuation day, as well as changes resulting from the Fund's performance. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders, provide benefits for other stakeholders and maintain a strong capital base to support the development of the investment activities of the Fund.

In order to maintain the capital structure, the Fund's policy is to monitor the level of subscriptions and redemptions relative to the assets it expects to be able to liquidate and adjust the amount of dividend distributions the Fund pays to redeemable units.

The Fund Board and the Fund Manager monitor capital on the basis of the value of net assets attributable to redeemable unitholders.

**7.3 FAIR VALUE ESTIMATION**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

When measuring the fair value, the Fund uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The value of financial assets at fair value through profit or loss are based on quoted market prices in active markets and are therefore classified within Level 1 of the fair value hierarchy as at 30 June 2019.

**8 FINANCIAL INSTRUMENTS BY CATEGORY**

Financial assets consist of cash and cash equivalents and financial assets at fair value through profit or loss. Financial liabilities consist of accrued expenses. All financial assets and financial liabilities as at 30 June 2019 were classified under amortised cost category except for financial assets at fair value through profit or loss which are classified as and measured at fair value.
