DESKTOP - VALUATION REPORT OF THIRTY (30) SERVICED APARTMENTS UNITS
Plot No. 72, 30 (Serviced Residential Apartments) Units in The Pad Tower, Business Bay, Dubai, United Arab Emirates.

Dear Sir,

Pursuant to your instructions received (bearing our reference Nos. PRE – 20/5881) via email for a desktop re-valuation of the subject properties as per details below, we hereby submit our report of findings as under:

INTRODUCTION

In accordance with your instructions we have undertaken the desktop re-valuation of the subject properties as on **31st December 2020** (the 'date of valuation') and described hereunder is our report and findings.

VALUATION INSTRUCTION / PROPERTIESY INTEREST TO BE VALUED

In accordance with instructions received we have been requested to provide our opinion of the Market Value of the *freehold* interest with vacant condition/possession in the subject properties under the following assumption: -

- i. Market Value of the subject properties under **Special Assumption** that the residential properties are complete – on an '**As If Complete**' basis – As such we have considered the subject properties to be a completed development as on date of valuation.
- ii. Market Value of the subject properties under Special Assumption that MEFIC REIT leased all units through a 4-year binding triple net lease contract as per the following conditions;
 - (a) For the first six months, the amount equal to 12% of the Purchase Price for each Unit
 - (b) For the remaining term (42 months), the amount equal to 8% of the Purchase Price for each unit
 - (c) Rent term: Four (4 years) commencing on the Effective date (Acquisition date 25 September 2018)
 - (d) That the annual guarantee returns of 8% is net of all fees
 - (e) The acquisition cost being **AED61,149,536** (As per e-mail of 7 February 2019)

- (f) As per Master Lease Agreement provided via e-mail on 28 January 2020 stating 'Initial Period' means the period commencing on the Effective Date and ending on the later of:
- (i) The BCC Date: and
 - (ii) The date falling six (6) months after the Effective date

Should the terms and conditions of the Agreement as stipulated above show any variance we reserve the right to re-assess.

CLIENT AND OTHER INTENDED USERS

The subject valuation assignment is being produced strictly for (the Client) *M/s. MEFIC Capital*.

RE-VALUATION PURPOSE

The desk-top re-valuation is specifically prepared for transaction purpose and serves as an update to the report **based on inspection** dated 4th February 2019.

VALUATION REPORTING COMPLIANCE

The valuation has been conducted in accordance with the Royal Institution of Chartered Surveyors (RICS) Valuation – Global Standards 2017 and the International Valuation Standards Council (IVSC) International Valuations Standards (Edition 2017). It should be further noted that this valuation is undertaken in compliance with generally accepted valuation concepts, principles and definitions as promulgated in the IVSC International Valuation Standards (IVS) as set out in the IVS General Standards and IVS Asset Standards.

DESK TOP VALUATION/ REPORTING LIMITATIONS

This valuation is a desktop re-valuation which has been based on information provided by the client and from our previous valuation report undertaken on the same properties on **4th February 2019, 30th June 2019, 31st December 2019 and valuation of 30th June 2020**. The subject properties have not been re-inspected due to the limitations / restrictions arising from the instructions received from the client, and hence this report is based on information provided and on which we have relied. We have further assumed that, for the purpose of this valuation, the various information / data provided and relied upon by us in this instance is fairly accurate, and any deviation from this will mean that our reported valuation will be materially affected, and we reserve the right to re-assess.

ENVIRONMENT MATTERS

We are not aware of the content of any environmental audit or other environmental investigation or soil survey which may have been carried out on the properties and which may draw attention to any contamination or the possibility of any such contamination. In undertaking our work, we have been instructed to assume that no contaminative or potentially contaminative use has ever been carried out on the properties. We have not carried out any investigation into past or present use, either of the properties or of any

neighboring land, to establish whether there is any contamination or potential for contamination to the subject properties from its use or site and have therefore assumed that none exist.

However, should it be established subsequently that contamination exists at the properties or on any neighboring land, or that the properties have been or is being put to any contaminative use, then this might reduce the value now reported.

LEGAL NOTICE

We are not aware of nor have we been informed of any legal notices served for these properties, outstanding or pending in the court of law.

BASIS OF VALUATION

Market Value

The valuation of the subject properties, and for the above stated purpose, have been undertaken on the **Market Value** basis of valuation in compliance with the above-mentioned *Valuation Standards* as promulgated by the IVSC and adopted by the RICS. **Market Value** is defined as: -

The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.

The definition of **Market Value** is applied in accordance with the following conceptual framework:

"The estimated amount" refers to a price expressed in terms of money payable for the asset in an arm's-length market transaction. Market Value is the most probable price reasonably obtainable in the market on the valuation date in keeping with the Market Value definition. It is the best price reasonably obtainable by the seller and the most advantageous price reasonably obtainable by the buyer. This estimate specifically excludes an estimated price inflated or deflated by special terms or circumstances such as atypical financing, sale and leaseback arrangements, special considerations or concessions granted by anyone associated with the sale, or any element of value available only to a specific owner or purchaser;

"an asset or liability should exchange" refers to the fact that the value of an asset or liability is an estimated amount rather than a predetermined amount or actual sale price. It is the price in a transaction that meets all the elements of the Market Value definition at the valuation date;

"on the valuation date" requires that the value is time-specific as of a given date. Because markets and market conditions may change, the estimated value may be incorrect or inappropriate at another time. The valuation amount will reflect the market state and circumstances as at the *valuation date*, not those at any other date;

“between a willing buyer” refers to one who is motivated, but not compelled to buy. This buyer is neither over eager nor determined to buy at any price. This buyer is also one who purchases in accordance with the realities of the current market and with current market expectations, rather than in relation to an imaginary or hypothetical market that cannot be demonstrated or anticipated to exist. The assumed buyer would not pay a higher price than the market requires. The present owner is included among those who constitute “the market”;

“and a willing seller” is neither an over eager nor a forced seller prepared to sell at any price, nor one prepared to hold out for a price not considered reasonable in the current market. The willing seller is motivated to sell the asset at market terms for the best price attainable in the open market after proper marketing, whatever that price may be. The factual circumstances of the actual owner are not a part of this consideration because the willing seller is a hypothetical owner;

“in an arm’s-length transaction” is one between parties who do not have a particular or special relationship e.g. Parent and subsidiary companies or landlord and tenant, that may make the price level uncharacteristic of the market or inflated. The Market Value transaction is presumed to be between unrelated parties each acting independently;

“after proper marketing” means that the asset would be exposed to the market in the most appropriate manner to affect its disposal at the best price reasonably obtainable in accordance with the Market Value definition. The method of sale is deemed to be that most appropriate to obtain the best price in the market to which the seller has access. The length of exposure time is not a fixed period but will vary according to the type of asset and market conditions. The only criterion is that there must have been sufficient time to allow the asset to be brought to the attention of an adequate number of market participants. The exposure period occurs prior to the valuation date;

‘where the parties had each acted knowledgeably, prudently’ presumes that both the willing buyer and the willing seller are reasonably informed about the nature and characteristics of the asset, its actual and potential uses and the state of the market as of the *valuation date*. Each is further presumed to use that knowledge prudently to seek the price that is most favorable for their respective positions in the transaction. Prudence is assessed by referring to the state of the market at the *valuation date*, not with benefit of hindsight at some later date. For example, it is not necessarily imprudent for a seller to sell assets in a market with falling prices at a price that is lower than previous market levels. In such cases, as is true for other exchanges in markets with changing prices, the prudent buyer or seller will act in accordance with the best market information available at the time;

‘and without compulsion’ establishes that each party is motivated to undertake the transaction, but neither is forced or unduly coerced to complete it.

Market value is the basis of value that is most commonly required, being an internationally recognized definition. It describes an exchange between parties that are unconnected (acting at arm’s length) and are operating freely in the marketplace and represents the figure that would appear in a hypothetical contract of sale, or equivalent legal document, on the

valuation date, reflecting all those factors that would be taken into account in framing their bids by market participants at large and reflecting the highest and best use of the asset. The highest and best use of an asset is the use of an asset that maximizes its productivity and that is possible, legally permissible and financially feasible.

Market value is the estimated exchange price of an asset without regard to the seller's costs of sale or the buyer's costs of purchase and without adjustment for any taxes payable by either party as a direct result of the transaction.

VALUATION ASSUMPTIONS / SPECIAL ASSUMPTIONS

This valuation assignment is undertaken on the following assumptions:

1. The subject properties are valued under the assumption of being held under a *Freehold* interest issued title with vacant condition/possession;
2. The subject properties are being valued under the following assumption: -
 - i. Market Value of the subject properties under **Special Assumption** that the residential serviced apartments are completed – on an '**As If Complete**' basis – As such we have considered the subject properties to be a completed development as on date of valuation.
 - iii. Market Value of the subject properties under **Special Assumption that MEFIC REIT leased all 30 units through a 4-year binding triple net lease contract** as per the following conditions;
 - (g) For the first six months, the amount equal to 12% of the Purchase Price for each Unit
 - (h) For the remaining term (42 months), the amount equal to 8% of the Purchase Price for each unit
 - (i) Rent term: Four (4 years) commencing on the Effective date (Acquisition date 25 September 2018)
 - (j) That the annual guarantee returns of 8% is net of all fees
 - (k) The acquisition cost being **AED61,149,536** (As per e mail of 7 February 2019) the
 - (l) **As per Master Lease Agreement provided via e-mail on 28 January 2020, stating "Initial Period" means the period commencing on the Effective Date and ending on the later of:**
 - (a) the BCC Date: and
 - (b) The date falling six (6) months after the Effective date.
3. The written and verbal information provided to us by the Client is up to date, complete and correct in relation to issues such as title, and other relevant matters that are set out in the report.
4. That no contaminative or potentially contaminative use has ever been carried out on the site;
5. We assume no responsibility for matters legal in character, nor do we render any opinion as to the title of the properties, which we assume to be good and free of any undisclosed onerous burdens, outgoings, restrictions or other encumbrances;
6. The market value conclusion arrived at for the properties reflect the full contract value and no account is taken of any liability to taxation on sale or of the costs involved in effecting the sale.

VALUATION APPROACH AND REASONING

We have used the Direct Comparison Valuation Approach to ascertain the market value estimate of the subject properties to which has been added a premium to reflect the guaranteed income offered under the 4-year triple net lease Agreement. We have not been provided with a copy of this Agreement and have relied upon the information provided by the client. Should this prove to be otherwise incorrect, we reserve the right to re-assess.

The Direct Comparison Approach

The Direct Comparison Approach involves making adjustments to the sale price of comparable properties to account for differences in location, plot area and shape, potential built-up area allowance, height allowance, date of sale, potential views and other individual characteristics. Comparison of transactional evidence of similar properties which have traded in the open market in arm's length transactions, provide the most accurate means of assessing worth.

In the use of this valuation approach we have had regard to both transactional data (from RERA's Dubai Lands Department data base) as well as property listings (from property firms, agents and brokers) of similar units in the area. It should be further noted that properties in this community generally trade at varying prices ranges reflecting on the property's location, site and situation, type, view, desirability and finishing specifications.

From Dubai Land Department's sales registry database, we have noted that there have been no sales transactions of similar type units in The Pad Tower (as building is not yet handover). For the purpose of this valuation we have sourced comparative evidence from neighboring similar types apartments buildings for example, Elite Business Bay Residence, Merano Tower, Prive by Damac Tower A & B, Bays Edge Tower, Marquise Square, DAMAC Royale - Damac Towers by Paramount Tower A & B and Noura Tower – Al Habtoor City. During the period from September 2020 to December 2020 similar type units have sold in the range of AED 13,993 to 19,138 per sq m (AED 1,300 to 1,778 per sq. foot) of gross floor area depending upon influencing factors such as unit type (**Studio, 1BR & 2BR**), location / position, unit size (Net/Gross), condition, age of the building, and views offered.

Recorded transactions of similar type serviced apartment units that have sold in neighboring buildings were the following: -

Aggregate Market Value of the 30 units				42,324,401	42,325,000

We further state that our opinioned market value rates adopted in our valuation have been applied to the floor area measurement as shown on the Contract of Sale for the subject properties since comparable price rates observed and analyzed are based on floor area measurements that would typically be stated on Title Deeds of comparable properties examined.

Calculation of Premium and Market Value

To the value achieved of **AED42,325,000** achieved by using the Direct Comparison Method we have added a premium to reflect the added value achieved by the income generated under the guaranteed 4-year binding triple net lease Agreement. As at the date of valuation 31 December 2020 some 27 months of the Agreement had lapsed with a remaining period of 21 months. The income as reflected for the remaining 21-month period has been considered and apportioned as follows.

For the remaining **21 months** of the lease the Gross Anticipated Rental has been calculated at 8% of the acquisition cost of AED 61,149,536 less net current anticipated market rental of AED2,272,000 giving a top slice portion of AED2,619,963 capitalized at a rate of 7.50% for 21 months to achieve a value of AED4,345,710.

The collective value using the Direct Comparison Method of **AED42,325,000** plus the remaining value derived from the Lease Contract of **AED 4,345,710** (note the Special Assumption in place) achieves a value of AED46,670,710 rounded to **AED46,700,000** which over the saleable area of 28,108 sq ft gives a break back of **AED1,660/sq ft**.

VALUATION

MARKET VALUE

It is our considered opinion that the Market Value of the 'Freehold' interest with vacant possession in subject properties under Special Assumption that proposed development is complete in accordance with the architectural drawings – on an '**As If Complete**' basis as on the date of valuation (31st December 2020).

The Market Value of the subject properties is further based on the Special Assumption (as per information provided by the client – extract only of Master Lease Agreement) **that MEFIC REIT leased all units through a 4-year binding triple net lease contract as per the following conditions;**

- (m) For the first six months, the amount equal to 12% of the Purchase Price for each Unit
- (n) For the remaining term (42 months), the amount equal to 8% of the Purchase Price for each unit
- (o) Rent term: Four (4 years) commencing on the Effective date (Acquisition date 25 September 2018)
- (p) That the annual guarantee returns of 8% is net of all fees
- (q) The acquisition cost being **AED61,149,536** (As per e mail of 7 February 2019) the
- (r) As per Master Lease Agreement provided via e-mail on 28 January 2020, stating "Initial Period" means the period commencing on the Effective Date and ending on the later of:**
 - (a) the BCC Date: and**
 - (c) The date falling six (6) months after the Effective date.

Should the terms and conditions of the Agreement as stipulated above show any variance we reserve the right to re-assess

The above aggregate Market Value estimate for the subject properties represents the total of the market values for each individual apartment unit, and this figure should not be taken as being a representation of a portfolio valuation as one grouping value for the properties. The individual units are held on individual titles which can be sold separately, and the above valuation figure takes into account this assumption as the possibility of selling of the entire group of properties at once on the market may result in a flooding effect which may likely affect the value / sale price of the properties.

PRINCIPAL GAINS AND RISK ASSESSMENT (Swot Analysis)

ABOUT BUSINESS BAY

Business Bay (Al Khaleej Al Tejari) is dubbed as the region's business capital and offers a large supply of prime commercial office space.

Business Bay is an area that features upscale commercial, residential and hospitality properties spread across a total gross leasable area of 78.5 million sq ft. Strategically located next to Burj Khalifa area and accessible through main arterial highways, Sheikh Zayed Road (E11) and Al Khail Road (E44). The opening of the Dubai Water Canal last October 2016 along the banks of Business Bay has fueled the desirability for residential, commercial and infrastructural investments from major developers and investors.

- Strengths
 - Driving proximity to Downtown Dubai, DIFC, Al Khail Rd, Sheikh Zayed Road
 - Views of canal
 - Access to Marasi Business Bay
 - Iconic design
 - Freehold Ownership
 - Dubai Mall and Burj Khalifa in close proximity
- Weakness
 - Underdeveloped area, a number of vacant plots evident - construction in surrounding area ongoing for medium term
 - Delayed project, project began in 2006 with Zaha Hadid Architects as the initial designer, now no longer involved, the project was put on hold from December 2009 to October 2013
 - Not considered luxury or high-end
 - No Schools
- Opportunities
 - Potential vibrant waterfront community
 - Possible uses, residential, serviced apartments, short-term rentals
- Threats
 - High volume of upcoming supply; Business Bay is expected to receive a total of 9,714 units by 2021

Year	Apartments
2019	4,983
2020	2,693
2021	2,038

- Several iconic projects in the pipeline that potentially target high-end market

- 77% of new supply coming onto the market in Business Bay consists of off plan offering
- In addition, neighbouring Downtown has 81% of off plan offerings coming onto the market

MARKET COMMENTARY

Dubai

Dubai is a member of the seven emirates federation forming the United Arab Emirates. The emirate is located on the south-east coast of the Arabian Gulf. It is the most populous city and has reached more than 3.4 million residents by the month of December 2020, growing approximately 7% on average during the last five years. It also occupies the second-largest land territory (4,114 sq km) after the capital, Abu Dhabi. The city of Dubai shares borders with Sharjah in the northeast, Abu Dhabi to the south, and Sultanate of Oman in the southeast.

Residential

A total of 22,914 residential units were confirmed to have been completed, 16,216 apartments and 6,698 villas/townhouses, which is approximately 51% of the projected residential supply for 2020. More than half of 2020's new supply was concentrated in three areas: Dubailand, Dubai South and Jumeirah Village Circle. Developers promising to handover no less than 211 projects totalling 45,186 units during 2020, given delays in construction as evidenced during the past years and added challenges due to the ongoing pandemic, this number is expected to experience a significant downward adjustment. Key off-plan projects announced include Beach Isle at Emaar Beachfront, Burj Crown Downtown Dubai, Noor District in Midtown by Deyaar, and Creek Vista Reserve in MBR City by Sobha Realty, to name a few.

Nine-months prior to the COVID-19 pandemic and gradual relaxation of various mobility rules, sales transaction activity in Dubai was on a significant growth trend. On a quarterly basis, Q3 2020 saw cash sales of ready homes up 14.5% annually and skyrocketed quarterly by 160%. Contrastingly, off-plan transactions continued to suffer mainly due to global impediments stemming from the on-going pandemic which negatively affected the inflow of foreign investments. With this, off-plan transactions plunged 47.6% YoY and fell 5.2% QoQ.

With villa capital values in some communities showing signs of recovery, coupled with record registered home sales transactions, November saw the ValuStrat Price Index steady at 65.4 points. Displaying monthly stability and an insignificant decrease of only 0.2% since October, the lowest rate of monthly decline in 3 years. Annually, the valuation-based index is 13.8% lower than last year. On a citywide level, capital values of residential homes are yet to stabilise, as the broader downward trend continued, albeit, at a much slower pace. However, we observed positive exceptions in some established villa developments. November registered a 14.4% monthly gain in transactions of cash-based sales, as existing ready homes saw an increase of 22.3%. Off-plan sales also grew, but at a lower monthly rate of 9.4%. Annually, transactions for off-plan homes dropped 51.5%, but ready homes improved 18.1%. Some locations monitored by the VPI saw capital values decline by 0.9% monthly, examples of which

were apartments in Dubai Sports City, Jumeirah Beach Residence and The Greens. However, given the high demand due to record low prices per square foot, villas demonstrated higher resilience when compared to apartments. Most villa freehold locations saw prices stabilise this month, and, in some areas, registered minor increases in capital values. Examples include Arabian Ranches, The Lakes, Palm Jumeirah, and Jumeirah Islands.

The VPI for residential rental values stood at 63.4 points, down 3.9% QoQ and 14% YoY. The weighted average annual residential asking rent in Dubai was AED 78,706, apartments at AED 57,525 per annum and villas at AED 208,816 per annum. Rents may remain relatively stable or could see minute declines in the short term as landlords face cashflow concerns and are less likely willing to cut rates which could affect their income. However, landlords could throw in rental agreement incentives such as rental-free periods and service charge related packages. Landlords with verified tenants affected by temporary wage reduction are likely to be more open for rent negotiation.

VALUATION UNCERTAINTY

The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a “Global Pandemic” on 11 March 2020, has impacted global financial markets. Travel restrictions have been implemented by many countries. Market activity is being impacted in many sectors. As at the valuation date, we, ValuStrat Real Estate Valuation Services LLC, consider that we can attach less weight to previous market evidence for comparison purposes, to inform opinions of value. Indeed, the current response to COVID-19 means that we are faced with an unprecedented set of circumstances on which to base a judgement. Our valuation is therefore reported on the basis of ‘material valuation uncertainty’ as per VPS 3 and VPGA 10 of the RICS Red Book Global. Consequently, less certainty – and a higher degree of caution – should be attached to our valuation than would normally be the case. Given the unknown future impact that COVID-19 might have on the real estate market, we recommend that you keep the valuation of the Subject Property under frequent review.

Property prices could be adversely affected in the near future and longer depending how long Covid-19 lasts together with the current restrictions on movement, social distancing etc.

The RICS valuation standards consider it essential to draw attention to foreseen valuation uncertainties that could have a material effect on valuations, and further advises to indicate the cause of the uncertainty and the degree to which this is reflected in reported valuations.

For the avoidance of doubt this explanatory note, including the 'material valuation uncertainty' declaration, does not mean that the valuation(s) cannot be relied upon. Rather, this explanatory note has been included to ensure transparency and to provide further insight as to the market context under which the valuation opinion was prepared. In recognition of the potential for market conditions to move rapidly in response to changes in the control or future spread of COVID-19 we highlight the importance of the valuation date.

Where a material uncertainty declaration is being used, its purpose is to ensure that any client relying upon that specific valuation report understands that it has been prepared under extraordinary circumstances. The term is not meant to suggest that the valuation cannot be relied upon; rather, it is used in order to be clear and transparent with all parties, in a professional manner that – in the current extraordinary circumstances – less certainty can be attached to the valuation than would otherwise be the case. Indeed, with regard to the process itself, professional valuers will almost certainly have undertaken far more due diligence than normal, in order to arrive at their estimate of value.' Ben Elder FRICS, RICS Global Director of valuation.
