## REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To: The Shareholders of Saudi Reinsurance Company  
(A Saudi Joint Stock Company)

### Introduction

We have reviewed the accompanying condensed interim statement of financial position of Saudi Reinsurance Company ("the Company") as of June 30, 2025, and the related statements of income and comprehensive income for the three-month and six-month periods then ended, and the related statements of changes in equity and cash flows for the six-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

### Other Matter

The financial statements of the Company for the year ended December 31, 2024 and the interim financial information for the period ended June 30, 2024 were jointly audited and reviewed respectively by another joint auditor who expressed an unmodified opinion on those statements and an unmodified conclusion on that information on Ramadan 20, 1446H (corresponding to March 20, 2025) and Safar 7, 1446H (corresponding to August 11, 2024) respectively.

<b>Standard, interpretation, amendments</b>	<b>Description</b>	<b>Effective date</b>
Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures	Under the amendments, certain financial assets including those with ESG-linked features could now meet the SPPI criterion, provided that their cash flows are not significantly different from an identical financial asset without such a feature. The IASB has amended IFRS 9 to clarify when a financial asset or a financial liability is recognized and derecognized and to provide an exception for certain financial liabilities settled using an electronic payment system.	1 January 2026
IFRS 18, Presentation and Disclosure in Financial Statements	IFRS 18 provides guidance on items in statement of profit or loss classified into five categories: operating; investing; financing; income taxes and discontinued operations. It defines a subset of measures related to an entity's financial performance as 'management-defined performance measures' ('MPMs'). The totals, subtotals and line items presented in the primary financial statements and items disclosed in the notes need to be described in a way that represents the characteristics of the item. It requires foreign exchange differences to be classified in the same category as the income and expenses from the items that resulted in the foreign exchange differences.	1 January 2027
IFRS 19, Subsidiaries without Public Accountability: Disclosures	IFRS 19 allows eligible subsidiaries to apply IFRS with the reduced disclosure requirements of IFRS 19. A subsidiary may choose to apply the new standard in its consolidated, separate or individual financial statements provided that, at the reporting date it does not have public accountability, and its parent produces consolidated financial statements under IFRS.	1 January 2027

The following reconciliations show how the net carrying amounts of reinsurance and retrocession contracts in each segment changed during the period as a result of cash flows and amounts recognised in the statement of income.

For each segment, the Company presents a table that separately analyses movements in the liabilities for remaining coverage and movements in the liabilities for incurred claims and reconciles these movements to the line items in the statement of income. A second reconciliation is presented, which separately analyses changes in the estimates of the present value of future cash flows, the risk adjustment for non-financial risk and the CSM.

**22. CONTINGENCIES AND COMMITMENTS**

The Company operates in the reinsurance industry and is subject to legal proceedings in the normal course of business. While it is not practicable to forecast or determine the final results of all pending or threatened legal proceedings, management does not believe that such proceedings (including litigations) will have a material effect on its results and financial position.

**NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS**

**For the three-month and six-month periods ended 30 June 2025**

**(All amounts in Saudi Riyals (ﷲ) unless otherwise stated)**

**23. FAIR VALUE**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market of the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

**Determination of fair value and fair value hierarchy**

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments: Level 1: quoted prices in active markets for the same or identical instrument that an entity can access at the measurement date.

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

The following table shows the carrying amount of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets and financial liabilities not measured at fair value as the carrying value of those assets and liabilities approximate their fair values in the condensed interim financial statements.
