Greetings,

Subject: Borouge Plc update following incident at Ruwais

إفصاح من "بروج بي إل سي" بشأن حادث في الرويس

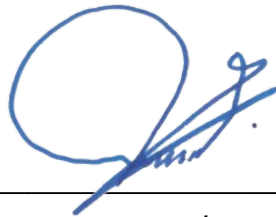

Borouge Plc confirms that an incident occurred at its production facilities located at the Ruwais Industrial Area on 5 April. Following a successful interception by air defence, falling debris resulted in damage to assets. There were no injuries and the resulting fires were all brought under control.

Production activity in affected areas has been suspended following the incident whilst damage assessment and repairs are carried out.

In the first quarter of 2026, Borouge achieved high utilisation rates and was able to sell a significant proportion of its production during the month of March via alternative routes, with additional inventories placed in storage ahead of shipment. A global shortage of polyolefins is driving a strong recovery in prices in March which has continued in April. Borouge retains significant financial resilience to navigate short term operational disruption due to its strong cash generation and significant available liquidity.

Forward looking qualifier: The statements above reflect the Company's assessment as at the date of this release, based on currently available information, and are subject to revision as circumstances evolve.

Yours sincerely,

هزيم سلطان السويدي / Hazeem Sultan Al Suwaidi
الرئيس التنفيذي / Chief Executive Officer
