**Independent auditor's report on review of condensed consolidated  
interim financial statements**

**To the Shareholders of Filling and Packing Materials Manufacturing Company**  
(A Saudi Joint Stock Company)

**Introduction**

We have reviewed the condensed consolidated interim financial statements of Filling and Packing Materials Manufacturing Company - A Saudi Joint Stock Company- ("the Company") and its subsidiary, collectively referred to as ("the Group"), which comprises the condensed consolidated interim statement of financial position as at September 30, 2021, and the condensed consolidated interim statement of profit or loss and other comprehensive income for the three and nine months periods then ended, and the condensed consolidated interim statements of changes in equity and cash flows for nine months period then ended, and notes, comprising significant accounting policies and other explanatory information ("the condensed consolidated interim financial statements").

Management is responsible for the preparation and fair presentation of these condensed consolidated interim financial statements in accordance with International Financial Reporting Standards (IFRS) including the requirements of (IAS 34), 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

**Scope of Review**

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated interim financial statements of Filling and Packing Materials Manufacturing Company and its subsidiary as at September 30, 2021 collectively referred to as ("the Group") are not prepared, in all material respects, in accordance with IAS (34), 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia.

**2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS****2-1 Accounting standards applied**

- These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting that is endorsed in Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Auditors & Accountants (“SOCPA”) These condensed consolidated interim financial statements must be read in conjunction with the Group's prior year consolidated financial statements as of December 31, 2020 (“Previous Year's Financial Statements”).

# FILLING AND PACKING MATERIALS MANUFACTURING COMPANY

(A Saudi Joint Stock Company)

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS PERIODS ENDED 30 September 2021

(Expressed in Saudi Riyal unless otherwise stated)

---

- These condensed consolidated interim financial statements do not include all of the information required for a complete set of IFRS financial statements, however, accounting policies and selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements. In addition, the results for the nine month period ended 30 September 2021 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2021.

### **2-2 Accounting convention / Basis of measurement**

These condensed consolidated interim financial statements have been prepared using the accrual basis of accounting and the concept of going concern on the historical cost basis except for the following material items in the Consolidated Statement of financial position:

- The defined benefit obligation is recognised at the present value of future obligations using the Projected Unit Credit Method.
- Investment at Fair Value through Profit or Loss ("FVTPL").

### **2-3 Functional and presentation currency**

These condensed consolidated interim financial statements are presented in Saudi Riyals (SR) which is the Group's functional currency, unless otherwise indicated.

### **2-4 Basis for consolidating the condensed consolidated interim financial statements**

The condensed consolidated interim financial statements include the condensed interim consolidated statement of financial position, the interim condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated initial statement of changes in equity and the condensed consolidated interim cash flow statement as well as the notes to the Group's condensed interim consolidated financial statements, where It includes the assets, liabilities, and results of the company's business and its subsidiary, as shown in Note (1). The company and its subsidiary are jointly referred to as the group.

Subsidiaries are companies controlled by a group. The group controls the company when it has the right to variable revenues as a result of its participation in the company and its ability to influence these revenues through its control of the company. Subsidiaries are consolidated from the date on which the group controls them and until they cease to exercise that control.

The non-controlling interest is measured by the proportion of its share of the net assets of the controlling interest at the date of the acquisition. The share in profit or loss and net assets not owned by the group is presented as a separate line item in the interim condensed consolidated statement of profit or loss and within equity in the condensed interim consolidated statement of financial position.

Both transactions as well as balances and unrealized profits and losses arising from intra-group transactions are eliminated. Accounting policies of subsidiaries are modified when necessary to ensure consistency with the policies adopted by the group. The company and its subsidiary prepare their financial statements for the same period.

## **3. SIGNIFICANT ACCOUNTING POLICIES**

### **3-1 New Standards, Amendment to Standards and Interpretations:**

There are no new standards issued, however, there are number of amendments to standards which are effective from 1 January 2021 and has been explained in Group annual Consolidated Financial Statements, but they do not have a material effect on the Group's Condensed Consolidated Interim Financial Statements.

### **3-2 Accounting Policies Applied**

The accounting policies used in preparing the condensed consolidated interim financial statements are in line with those used in preparing the annual consolidated financial statements of the Group for the financial year ended December 31, 2020..

## **4. SIGNIFICANT JUDGMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the amounts of revenues, expenses, assets and liabilities disclosed and disclosure of contingent liabilities as at the reporting date. Uncertainty about these assumptions and estimates may result in results that may require a material adjustment to the carrying amount of the assets or liabilities that will be affected in future periods.

These estimates and assumptions are based on experience and other factors that are believed to be reasonable under the circumstances and are used to judge the carrying amounts of assets and liabilities that are difficult to obtain from other sources. Core estimates and assumptions are reviewed on an on-going basis. An audit of the accounting estimates is recorded in the period in which the estimates are revised or in the period of the revision and future periods if the revised estimates affect current and future periods.

Significant accounting judgments, estimates and assumptions have been made which have a material impact on the financial statements as following:

### **4-1 Judgments**

#### **Compliance with performance obligations**

The Group has to assess each of its contracts with customers to determine whether performance obligations have been met over time or at a point of time in order to determine the appropriate method of income recognition. The Group assessed this based on the sales and purchase agreements it had entered into with the customers and the provisions of the relevant laws and regulations .

#### **Determine transaction prices**

The Group is required to determine transaction prices in relation to each of its contracts with customers. In making such a judgment, the Group evaluates the impact of any variable price in the contract as a result of discounts or fines, the presence of any significant financing component in the contract and any non-monetary price in the contract.

#### **Coronavirus (COVID-19)**

The Group has reviewed the main sources of the uncertainty estimates disclosed in the recent consolidated financial statements in the context of the Coronavirus (Covid-19) epidemic. Management believes that, other than expected credit losses of financial assets, the impairment loss for non-financial assets and all sources for other uncertainty estimates remain the same as those disclosed in the annual consolidated financial statements. Management will continue to monitor the situation and any required changes will be reflected in the future reporting period - note (24).

### **4-2 Estimates and assumptions**

#### **Defined Benefit Programs**

The cost of defined benefit programs and the present value of the obligation are determined using actuarial valuations. An actuarial valuation involves making many different assumptions that differ from actual developments in the future. This includes setting discount rates, future salary increases, mortality, and employee turnover.

# FILLING AND PACKING MATERIALS MANUFACTURING COMPANY

(A Saudi Joint Stock Company)

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS PERIODS ENDED 30 September 2021

(Expressed in Saudi Riyal unless otherwise stated)

---

Due to the complexities of the valuation process and its long-term nature, the defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at the reporting date. The measurement criteria most subject to change are the discount rate and future salary increase.

In determining the appropriate discount rate, management relies on the market yield on quality corporate bonds. Future salary increases are dependent on future rates of inflation, seniority, promotion, and supply and demand in the employment market. The mortality rate is based on available country specific mortality tables. Extrapolations of mortality tables may change over time in response to population changes.

### **Expected credit losses**

Expected credit losses are measured as financial assets measured at amortized cost and requires the use of complex models and significant assumptions about future economic conditions and credit behavior.

There are a number of important provisions required in the application of accounting standards

- Define criteria for substantial increase in credit risk;
- Selecting appropriate formats and assumptions to measure expected credit losses;
- Determine the number and relative weight of future assumptions for each type of product and market
- Create a pool of potential financial assets to measure air credit losses.

The Group recognizes an allowance for expected credit losses for financial instruments that are measured at amortized cost.

The Group measures the loss allowance at an amount equal to the expected credit losses over the useful life of the financial instrument, except for:

- The following financial instruments for which the provision for expected credit losses is measured over a 12-month period.
- Financial assets with low credit risk at the reporting date and financial instruments in which credit risk has not increased significantly since its initial recognition

### **Useful life of property, equipment**

The Group determines the estimated useful lives of property, equipment and investment properties for depreciation. This estimate is determined after taking into account the expected period of use of the asset and the natural damage. The management examines the estimated useful lives and the method of depreciation periodically to ensure that the method and duration of depreciation are consistent with the expected model of the economic benefits of these assets. and changes in depreciation expense are adjusted in current and future periods, if any,

### **Impairment of non-financial assets**

The Group assesses at each reporting date whether there are indications of impairment of the non-financial assets at each reporting date. Non-financial assets are selected to determine impairment in the event of indications that the carrying amounts cannot be recovered .

When the value in use is calculated, the management estimates the future cash flows of the asset or unit of cash and selects the appropriate discount rate to calculate the present value of these cash flows.

### **Going concern**

The management of the Group has assessed its ability to continue on the basis of the going concern and has concluded that it has the resources to continue its activity in the foreseeable future. In addition, management is not aware of any material uncertainty that may cast doubt on the Group's ability to continue in accordance with the going concern. Consequently, the financial statements have been prepared on the basis of the going concern.

	<b><u>61 860 411</u></b>	<b><u>72 684 083</u></b>

**Riyadh Bank**

At April 9, 2017, the Group signed an Islamic finance agreement with Riyadh Bank, amounting to SR 49 million, for the purpose of partial finance of a project to produce one of the manufacturing products of the subsidiary that was established during 2017 for this purpose. At March 28, 2018, the Islamic finance agreement was renewed and the finance limit increased to SR 72 million, in July 19, 2018, the group reduced the value of the financing by canceling the short-term Temporary loan SR 21 million, to be the finance limit to SR 51 million. At March 10, 2019, the group raised the value of the finance by increasing the long-term facilities by SR 15 million and amending the credit limits for short-term facilities to bring the total of the short-term facilities to SR 25 million, and the finance limit is SR 66 million, noting that this finance is guaranteed by signing a bond for an order with a total financing amount.

At March 25, 2021, the Group renewed the facilities agreement which will be ended at March 24, 2024.

- The utilized amounts of this agreement reached the following until September 30, 2021:-
  - 1- SR 465 000 in the form of letters of guarantee.
  - 2- SR 33,7 million in the form of long-term Islamic murabaha loans (the short – term loans of it is SR 5.8 million and the long – term loans is SR 27.9 million)
  - 3- SR 14,3 million Saudi riyals in the form of letters of credit.

**Albilad Bank**

At September 16, 2018, The Group signed a credit facility in line with Islamic Sharia with Bank Albilad ,amounting SR 30 million, With a purpose of obtaining a short-term Islamic murabaha loan to finance the working capital of the Company and its subsidiary. The Group renewed the facility contract at April 12, 2020.

As of September 30, 2021, the utilized amount of these facilities amounted to SR 25,25 million as an Islamic short-term murabaha loan and this finance was obtained with the guarantee of a promissory note in favor of Albilad Bank.

**23 FINANCIAL INSTRUMENTS:**

**23-1 Fair value measurement**

Fair value is the amount for which an asset could be disposed of or a liability settled between knowledgeable willing parties in an arm's length transaction at the measurement date. Under the definition of fair value, there is an assumption that a Group is a going concern as there is no intention or condition to materially curtail the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is considered to be active in an active market if quoted prices are readily and regularly available from a foreign exchange dealer, broker, industry group, pricing service or regulator and that these prices represent market transactions that have occurred in an actual and regular manner on a commercial basis.

In measuring fair value, the Group uses observable market information whenever possible. Fair values are classified into different levels in the fair value hierarchy based on the inputs used in valuation techniques as follows:

**Level 1:** Quoted prices (unadjusted) in active markets for similar assets or liabilities that may be obtained at the measurement date.

**Level 2:** inputs other than quoted prices that are included in Level 1 which are directly observable for assets or liabilities (eg prices) or indirectly (derived from prices).

**Level 3:** inputs for assets or liabilities that are not based on observable market information (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability fall into different levels of the fair value hierarchy, the fair value measurement is fully classified at the same level of the fair value hierarchy as the lowest level of inputs is considered material to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period in which the change occurred. During the period/year ended September 30, 2021 and December 31, 2020, there were no transfers between Level 1 and Level 2 fair value levels.

Where the Group's financial instruments are grouped on a historical cost basis, except for investments and derivative financial instruments carried at fair value, differences may arise between the carrying amounts and fair value estimates. Management believes that the fair values of the Company's financial assets and liabilities are not materially different from their carrying values.

**23-2 Financial instruments risk management:**

The Group's activities expose it to a variety of financial risks, credit risk, liquidity risk, market price risk and capital management risk.

The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

**Financial risk management framework**

The risk management policy is implemented by the senior management in accordance with the policies approved by the Board of Directors. The senior management identifies, assesses and hedges financial risks in close cooperation with the Group's operating units. The most important types of risk are credit risk, currency risk, fair value and interest rates for cash flows.

# FILLING AND PACKING MATERIALS MANUFACTURING COMPANY

(A Saudi Joint Stock Company)

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS PERIODS ENDED 30 SEPTEMBER 2021

(Expressed in Saudi Riyal unless otherwise stated)

The Board of Directors has overall responsibility for establishing and overseeing the Group's risk management framework. The executive management team is responsible for developing and monitoring the Group's risk management policies. The work team conducts meetings regularly, and any changes or matters related to compliance with policies are reported to the Board of Directors through the Audit Committee.

The risk management systems are reviewed regularly by the executive management team to reflect changes in market conditions and the group's activities. The Group aims, through training, management standards and procedures, to develop a responsible and constructive control environment in which all employees are aware of their roles and obligations.

The Audit Committee oversees management's compliance with the Group's risk management policies and procedures, and reviews the appropriateness of the risk management framework in relation to the risks faced by the Group.

The financial instruments included in the balance sheet include cash and cash equivalents, trade and other receivables, loans, trade and other payables. The methods of evidence used are disclosed in the policy statement for each clause.

### Market risk

Market risk is the risk that the fair value or cash flows of financial instruments may fluctuate due to changes in market prices. Market risk consists of three types of risks: interest rate risk, currency risk, and other price risk.

### Interest rate risk

The following are the loans obtained by the Group, which carry variable interest according to the interest rates prevailing in the market.

<u>Financial instruments at interest rates variable</u>	<u>September 30,</u> <u>2021</u> <u>(Unaudited)</u>	<u>December31,</u> <u>2020</u> <u>(Audited)</u>
Short & long term loans	93 835 617	109 138 163

### Foreign currency risk:

Currency risk is the fluctuation in the value of a financial instrument due to fluctuations in foreign exchange rates. The Group is not substantially exposed to fluctuations in foreign exchange rates during its normal business cycle, given that the Group's significant transactions during the year were carried out in Saudi riyals and the US dollar, and as the exchange rate of the Saudi riyal is fixed against the US dollar, so there are no significant risks associated with transactions and balances.

### Credit risk:

Credit risk is the risk that one party to a financial instrument will not be able to meet its obligations, and this will cause the other party to incur a financial loss. Credit risk is the risk that the Group will incur a financial loss if the customer or counterparty fails to fulfill its contractual obligations. It arises mainly from trade receivables, cash and cash equivalents. The carrying amount of financial assets represents the maximum exposure to credit risk.

**FILLING AND PACKING MATERIALS MANUFACTURING COMPANY**  
**(A Saudi Joint Stock Company)**

**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**FOR THE THREE AND NINE MONTHS PERIODS ENDED 30 SEPTEMBER 2021**  
(Expressed in Saudi Riyal unless otherwise stated)

<b><u>Financial Assets</u></b>	<b><u>September</u></b> <b><u>30, 2021</u></b> <b><u>(Unaudited)</u></b>	<b><u>December 31,</u></b> <b><u>2020</u></b> <b><u>(Audited)</u></b>
Trade receivables (Net)	55 807 472	40 252 232
Cash and cash equivalent	3 956 041	8 636 253
Investments at Fair Value through Profit or Loss	4 277 516	37 989 409
Prepayments and Other Receivables	6 340 897	8 444 399
	<b><u>70 381 926</u></b>	<b><u>95 322 293</u></b>

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each individual customer. However, management also considers factors that may have an impact on the credit risk of the group's customer base, including the risk of default in the customer's sector. The Group establishes an allowance for expected credit losses, which on September 30, 2021 amounted to SR 5 997 161 (December 31, 2020 amounted to SR 2 915 420).

The Group maintains cash in the fund and with banks as at 30 September 2021 in an amount of SR 3,9 million (September 30, 2020: SR 8,6 million). Liquidity risk is the risk that the group will encounter difficulty in fulfilling its obligations associated with its financial liabilities that are settled by paying in cash or Through other financial assets, the group's approach to managing liquidity aims to ensure that it always has sufficient liquidity, as far as possible, to meet its liabilities when due, under normal and critical circumstances, without incurring losses or jeopardizing the group's reputation.

**Liquidity risk:**

Liquidity risk is the difficulty that an entity will encounter in raising funds to meet obligations related to financial instruments. Liquidity risk can result from an inability to sell a financial asset quickly at an amount close to its fair value. Liquidity risk is managed by monitoring liquidity on an ongoing basis and ensuring that sufficient financial resources are in place. Concentration in liquidity risk may arise from conditions of repayment of financial obligations, sources of financing and loans, or reliance on a specific market to obtain liquid assets. The following are the maturities of the financial liabilities at the end of the year, which are presented as following:

**Capital management:**

The Group's goal when managing capital is to maintain the Group's ability to continue as a going concern so that it can continue to provide returns to shareholders and benefits to other stakeholders. And maintaining a strong capital base to support the sustainable development of its business.

<b>Ratio of Liability to Equity</b>	<b>1,46</b>	<b>1.34</b>

**24 The impact of Corona virus (Covid-19):**

In response to the spread of the Coronavirus (Covid-19) at the beginning of 2020 and its spread in several geographical regions around the world and the resulting disruptions to economic activities and businesses, the group formed a working group to assess the expected effects on the group's business inside the Kingdom. The Group has also taken a series of preventive measures to ensure the health and safety of its employees, customers and society to ensure the continuity of its operations.

The effects of the pandemic on the group's activities included the production process being affected relatively for some time as a result of taking precautionary measures directed by government authorities, which were mainly represented in isolating influential workers suspected of being infected and applying the legal procedures related to travel and movement restrictions as well as the delay in the arrival of some raw materials necessary for the production process. And the effect extended on selling prices in some products and also there was an impact on demand in other products, in addition to some difficulties that the group faced in its export operations and high freight rates. Given the levels of production results for all products, they remained at their normal levels, and therefore do not expect the occurrence of substantial effects. Due to the emerging corona virus (Covid-19) on the balance sheet and results for the fiscal year ending on September 30, 2021.

Since the extent and duration of these effects are still uncertain and depend on future developments that cannot be predicted accurately at the present time, management and those responsible for governance will continue to monitor the situation in the Kingdom and all geographical areas with which the group deals with the purpose of reviewing and assessing potential risks related to the supply chain. Raw materials, human resources, current stock levels, ensuring the continuity and operation of the production facilities of the group companies without interruption and providing stakeholders with developments as required by laws and regulations.

**25 Subsequent events:**

Management believes that there have not been any significant subsequent events since the end of the period that would require disclosure or amendment to these condensed consolidated interim financial statements.
