INDEPENDENT AUDITORS' REPORT

TO THE SHAREHOLDERS
SAUDI REAL ESTATE COMPANY
(A SAUDI JOINT STOCK COMPANY)
RIYADH – KINGDOM OF SAUDI ARABIA

Opinion

We have audited the consolidated financial statements of "Saudi Real Estate Company" (the "Company") and its subsidiaries (the "Group"), which comprise of the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit and loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to these consolidated financial statements, including a summary of significant accounting policies and other explanatory notes.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by Saudi Organization for Chartered Professional Accountants ("SOCPA").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the Code of Conduct and Ethics adopted in the Kingdom of Saudi Arabia. Also fulfilled the requirements of the conduct of other ethics in accordance with those rules. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matters

- 1. We draw attention to note (9) to the consolidated financial statements which state that certain land parcels owned by the Company are currently not available for use or development due to various reasons, of which certain reasons relate to the areas where these lands are located and other related to the fact that they are under study by specialized committees to resolve these matters. The management is currently communicating with the related government agencies to address these reasons to allow the use of these lands. The impact of this matter on the recoverable amount of these lands is still uncertain and depends on the final results of the study by the assigned committees. The carrying amount of these lands amounted to SR 437.7 million as at 31 December 2023 (2022: SR 437.7 million).
- 2. We draw attention to note (9) to the consolidated financial statements, it has come to management's attention that one of the subsidiaries' land which was designated for the Al Widyan project is located within an area that is currently under study with the aim of developing it by the government agencies, which may result into a material change to the original project's plan and the land's realizable value. The impact of this matter is uncertain and depends on the completion of the study by the government agencies and future developments in the area. The carrying amount of the land and capital work-in-progress amounted to SR 2.6 billion and SR 325.5 billion respectively as at 31 December 2023 (2022: SR 2.6 billion, and SR 325.5 billion respectively).

Other matter

The consolidated financial statements for the year ended on 31 December 2022 were audited by another independent auditor, who expressed an unmodified opinion dated on 05 April 2023 (corresponding to 14 Ramadan 1444H).

No. (9) regarding related disclosures.

Key Audit Matter

The key audit matter is that matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current year. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not express a separate opinion on these. The following describes the key audit matter and how it should be addressed:

How the matter was addressed in our audit Key audit matter We have carried out the procedures set out below in Investment Properties Evaluation: connection with the valuation of investment properties: The Group has investment properties of lands and buildings amounted to SR 5.4 billion which - Evaluate the objectivity of valuer and its independence and represents 61% of the Group's total assets. experience and qualification who has been appointed by the Investment properties are stated at cost in the management. statement of financial position less accumulated depreciation and impairment, if any. - Comparing the fair value of investment properties based on the real estate valuer's report with the book balance of For the purposes of disclosing the fair value in investment properties as at December 31, 2023. the consolidated financial statements and to confirm that no impairment, the investment - Ensuring that the appropriateness of evaluation method and properties are evaluated by independent methodology approved by the valuer. external accredited valuers. - Review on a sample basis, to evaluate the investment This matter was considered as a key audit properties executed by the valuer to ensure the matter since the valuation of investment reasonableness of the key assumptions that were used to properties requires a significant judgment by the determine the fair values of the investment properties. management. Other information included in the Company's annual report for the year ended 31 December 2023

Other information consists of other information from the information included in the Company's annual report for the year ended 31 December 2023, other than the consolidated financial statements and the auditors' report thereon. Management is responsible for the other information included in the annual report. The annual report is expected to be made available to us after the date of this auditor's report.

and disclosure related to investment properties.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information and discover a material misstatement therein, we are required to communicate the matter to those charged with governance.

INDEPENDENT AUDITORS' REPORT (continued)

TO THE SHAREHOLDERS
SAUDI REAL ESTATE COMPANY
(A SAUDI JOINT STOCK COMPANY)
RIYADH – KINGDOM OF SAUDI ARABIA

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by SOCPA and Regulations for Companies and the Company's Bylaws and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, i.e. the Board of Directors, are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

INDEPENDENT AUDITORS' REPORT (continued)

TO THE SHAREHOLDERS
SAUDI REAL ESTATE COMPANY
(A SAUDI JOINT STOCK COMPANY)
RIYADH – KINGDOM OF SAUDI ARABIA

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities
within the Group to express an opinion on the consolidated financial statements. We are responsible for the
direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The Company is engaged in buildings construction and maintenance, construction projects management, detailed engineering designing, purchasing materials and executing the projects.

⁽ii) Saudi Real Estate Infrastructure Company is a closed joint stock company registered in the Kingdom of Saudi Arabia under commercial registration number 1010469561 dated 6 Rajab 1438H (corresponding to 3 April 2017). The Company is engaged in road, bridge, and tunnel works, earthworks, and construction, extension, cleaning, maintenance and operation of water, sewerage and drainage networks. Also, construction, extension, and maintenance of distribution networks and stations for electrical power and gas, and telecommunication networks and communication towers, construction and maintenance of public parks and irrigation systems, and dam construction and maintenance and sale of prefabricated concrete.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

1. CORPORATE INFORMATION (continued)

- (iii) Saudi Korean Company for Maintenance and Properties Management is a limited liability company registered in the Kingdom of Saudi Arabia under commercial registration number 1010612687 dated 11 Safar 1439H (corresponding to 31 October 2017). The Company is engaged in operation and maintenance of buildings in accordance with the license issued from the General Investment Authority number (10214381076997) dated 29 Shawwal 1438 (corresponding to 23 July 2017).
- (iv) Al Widyan Saudi Real Estate Company is a closed joint stock company owned by one person registered in the Kingdom of Saudi Arabia under commercial registration number 1010455071 dated 16 Thul-Qi'dah 1439H (corresponding to 29 July 2018). The Company is engaged in electricity work, gardens and parks maintenance, building construction, maintenance and operation of buildings, maintenance works, the operation of water and sanitation networks, the construction of roads, the construction of bridges, the construction of tunnels, the purchase, sale and lease of land and real estate, development and real estate investment activities, maintenance and operation of hospitals, medical centers and government and private clinics.
- (v) Alinma Alakaria Real Estate Fund is private fund created by an agreement between Inma for Investment (the "Fund Manager") a subsidiary of Alinma Bank and investors ("unit holder") in the Fund according to Shariah standards and controls approved by the Shariah Board of the Fund Manager. The principle investment objective of the Fund is to provide investors with capital growth over the medium and long-term by investing primarily in the real estate and related sectors in the Kingdom of Saudi Arabia. The Fund has appointed Al Inma Bank to act as its custodian, administrator and registrar of the Fund. The Fund was established on 25 Jumada Al-Ula 1440H (corresponding to 31 January 2019) as per approval from the Capital Market Authority (CMA). The terms and conditions of the Fund were issued on 25 Jumada Al-Ula 1438H (corresponding to 31 January 2019). During 2020, the Group has signed an agreement to terminate and liquidate the Fund, during 2022 all its assets has been transferred Hodood Real Estate Investment Company. The Group's management is in the process of completing all the legal procedures for liquidating the Fund.
- (vi) Hudood Real Estate Investment Company (sole owner limited liability Company wholly owned by the group) It was established during October 2022 under commercial registration number (101836057) issued from Riyadh dated on 24 October 2022 corresponding to 28 Rabi` al-Awwal 1444H, with a capital of 10,000 Saudi riyals. The establishment objective is to transfer the title deeds of land from Alinma Alakaria Real Estate Fund to Hudood Real Estate Investment Company which is fully owned by Parent Company.

2. BASIS OF PREPARATION

2.1. Statements of compliance

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards ("IFRS"), and its interpretations as issued by the International Accounting Standards Board ("IASB") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are endorsed by Saudi Organization for Chartered and Professional Accountants (collectively referred to as "IFRS" as endorsed in Kingdom of Saudi Arabia").

2.2. Basis of measurement

The consolidated financial statements have been prepared on a historical cost basis using the accrual basis and Going-concern concept, except for employees end of service benefits are recognized at the present value of future obligations using the Projected Unit Credit Method, investment in equity instruments designated at FVOCI and investments designated at FVPL that have been measured at fair value.

2.3. Functional and presentation currency

The consolidated financial statements are presented in Saudi Riyals which is also the functional currency of the Group. All values are rounded to the nearest thousand, unless otherwise indicated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

3. BASIS OF CONSOLIDATION FINANCIAL STATEMENTS

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries and are collectively referred as (the "Group") as stated in note (1).

Subsidiaries are entities controlled by the group. Control exists when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee).
- Exposure, or rights, to variable returns from its involvement with the investee.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Income or loss and each component of Other Comprehensive Income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in income or loss. Any investment retained is recognised at fair value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies applied by the Group in preparing its consolidated financial statements:

Investment in an associate and joint venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control over those policies. The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries. The Group's investments in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. The consolidated statement of income reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount and its carrying value for associate and then recognises the loss within "Impairment of investments in the associate and joint venture" in the consolidated statement of profit or income.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in the consolidated statement of income.

Current versus non-current classification of assets and liabilities

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle.
- Expected to be realised within twelve months after the reporting period; Or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle.
- It is due to be settled within twelve months after the reporting period; Or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair value measurement

The Group measures financial instruments such as derivatives, investment in equity instruments designated at FVOCI and investments designated at FVPL, at fair value at each consolidated financial statements reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

Revenue Recognition

The Group recognizes revenues for contracts with customer according to a form of 5 steps as per IFRS 15:

Step 1- Identify the contract with customers: define as an approved agreement between two parties that incurred committed to fulfilling the terms of the contract and each party's right regarding the goods/services to be transferred can be identified. Step 2 – Identify the separate performance and obligations: define as a written promise with customers while customer can benefit from the goods/services; entity's promise to transfer goods/services is separately identifiable from other promises in the contract.

Step 3 – Determine the transaction price: is the amount that the company expects to obtain from customer in exchange for transferring goods/services. Unless payments collection on behalf of third parties.

Step 4 – Allocate the transaction price to the performance obligation: contract contains more than distinct obligation a company allocates the transaction price to all separate performance obligation in proportion to the stand-alone selling price of the goods/services underlying each performance obligation. If good or service separately, the company would have to estimate its stand-alone selling price.

Step 5 - Recognise revenue when (or as) a performance obligation is satisfied.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Rivals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue Recognition (continued)

Regarding to the contracted contracts with customers the company uses percentage of completion method once distinct obligation is satisfied when:

- A) The business simultaneously receiving and consuming the benefits resulting from the company's performance.
- B) The Group's performance generates create or improve assets that controlled by the customer while asset' creation or improvements.
- C) The Group's performance of the obligation does not create an alternative use, and the company has an enforceable right to collect for performance completed up to date;

Regarding performance obligations where one of the three conditions above is not met, revenue is recognized when all conditions of the performance obligations are satisfied by the Group.

Revenue from Selling Properties Under Development

Sales of property under development are recognised over time. The Group evaluates contracts with customers to determine whether the performance obligation is satisfied over time or at a specific point in time. The Group has assessed that the performance obligation does not create an alternative use for the asset as it is contractually restricted from diverting properties under development to another use during its development based on revenue agreements with customers.

In addition, the Group has an enforceable right to receive payments for work completed to date and is entitled to receive at least an amount to compensate it for work completed to date, usually costs incurred plus a reasonable profit margin (by having enforceable rights to compensation for work completed to date in the event of a dispute and termination of the contract with the customer).

Revenue from Selling Ready-to-use Properties.

The sale of completed properties constitutes an individual performance obligation which the Group has decided to fulfill at the time of transfer of control. For unconditional exchanges, this is generally when legal ownership passes to the customer. For a conditional exchange, it generally occurs when all significant conditions have been satisfied.

Revenue from Rental of Investment Properties

The Group is the lessor in operating leases. Rental income arising from operating leases on investment property is accounted for on a straight-line basis over the lease terms and is included in revenue in the consolidated statement of income due to its operating nature, except for contingent rental income which is recognised when it arises. Initial direct costs incurred in negotiating and arranging an operating lease are recognised as an expense over the lease term on the same basis as the lease income.

Tenant lease incentives are recognised as a reduction of rental revenue on a straight-line basis over the term of the lease. The lease term is the non-cancellable period of the lease together with any further term for which the tenant has the option to continue the lease, where, at the inception of the lease, the management are reasonably certain that the tenant will exercise that option.

Amounts received from tenants to terminate leases or to compensate for dilapidations are recognised in the consolidated statement of income when the right to receive them arises.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue Recognition (continued)

Revenue Contracts

Revenue from fixed price contracts is recognised based on the percentage of completion method, which is determined using the proportion of costs incurred to date to the total costs for the completion of the contracts as estimated by the management. No profit is recognised on contract until the management believes the outcome of that contract can be assessed with reasonable certainty. In case of loss-making contract, full provision is made for estimated future losses. The value of work executed in excess of the amounts billed is included under current assets, net of provision for any losses incurred or foreseen in bringing contracts to completion, advances against work executed and progress billing received and receivable. Where progress amounts received, and receivable exceed the value of work executed the excess is included under current liabilities as billing in excess of the value of work executed.

Contract modifications, e.g. variation orders, are accounted for as part of the existing contract, with a cumulative catch up adjustment to revenue. For material contract modifications a separate contract may be recognised, based on management's assessment of the following factors:

- the scope of the contract increases because of the addition of promised goods or services that are distinct; and
- the price of the contract increases by an amount of consideration that reflects the company's stand-alone selling prices of the additional promised goods or services and any appropriate adjustments to that price to reflect the circumstances of the particular contract.

Contract Balances

Value of work executed in excess of billings (accrued infrastructure revenue)

Value of work executed in excess of billings is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, value of work executed in excess of billings is recognised for the earned consideration that is conditional.

Contracts Receivables

Receivables amounts constitute as an unconditional right for the group; (only stipulate over time before accrual payment compensation).

Work Claims in excess of work done (Unearned Revenue)

Claims raised more than the value of the work performed represent the obligation to transfer goods or services to the customer, if group has submitted invoices to the customer. Amounts receivable in excess of the value of the work performed are recognised as revenue when the Group performs its obligation under the contract.

Detained receivables

Detained receivables are a part of restricted amounts by customers based on contractually contracts, and it can be recovered either when completing some phases of the contract or at the end of the contract.

Advance from customers

Advance from customer represents the obligations to transfer goods/services to customers, for which compensation has been received by the Group or compensation is due (whichever is earlier) from the customer. If the customer pays the compensation before the company transfers the good/service to the customer, the contract obligations are recognized when the amount is paid or becomes due (whichever is earlier). Contract obligations are recognized as revenue when the group performs under the contract.

Dividends from Investments FVTOCI / FVPL

Regarding income from investments FVOCI and FVPL, Group has recognized gains from investment as income once dividends right is satisfied being approval or/ dividends cash received.

Revenue from Time Deposit

Income from fixed-term deposits is recognized as income based on the active yield on the deposit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue Recognition (continued)

Service charges, management charges and other expenses recoverable from tenants

Income arising from expenses recharged to tenants is recognised in the period in which the compensation becomes receivable. Service and management charges and other such receipts are included in rental income gross of the related costs, as the directors consider that the Group acts as principal in this respect.

Dividends

Revenue is recognised when the Group's right to receive the payment is established (If it is probable that the economic benefits will flow to the group, and revenues can be measured reliably).

Expenditures Analysis

During preparing the financial statements the Group provides expenditures analysis list of each account that has reliable information and more relevance, wherefore classification depends on a function of expense inside the group.

Cost of Revenue

Depreciation of properties and other direct expenses are classified as cost of revenues.

General and Administrative Expenses

General and administrative expenses include direct and indirect costs that are not specifically part of cost of revenue or the selling, and marketing activities of the Group.

Selling and Marketing Expenses

Selling and marketing expenses comprise of all costs for selling and marketing the Group's products and include expenses for advertising, marketing fees and other sales related expenses.

Zakat and Tax

Zakat is provided for the Company and its subsidiaries in accordance with Zakat, Tax and Customs Authority ("ZATCA") in the Kingdom of Saudi Arabia, and the provision is charged to the consolidated statement of income. Differences, if any, arising from the final assessment shall be settled during the period in which such assessment are issued.

Real-Estate Tax

Real-Estate tax is incurred when purchasing properties while ownership has been transferred and is not recoverable from the Zakat, Tax and Customs Authority. Real estate transfer tax is recognised as part of the cost of acquisition of real estate assets, as appropriate.

Value-Added Tax

Revenues, expenses and assets are recognized in net of value added tax, except in the following cases:

- If the value-added tax is due on the acquisition of assets or services that are not recovered from the Zakat, tax, and custom authority, in this case VAT is recognized as part of the cost of purchasing assets or part of the expense item.
- Trade receivables and payables are including VAT amounts.

Net VAT account which is recoverable from/to Zakat, tax, and custom authority is shown in the other receivables or payables within the consolidated statement of financial position.

Withholding Tax

The Group's companies deduct WHT based on the financial transactions with the non-resident parties in accordance with the regulations of the Zakat, Tax and Customs Authority, which is not recognised as an expense to be consideration for obligations on behalf of the opposite party.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments properties

Investments Properties are initially measured at cost. The fair value is determined on the basis of an annual valuation by an independent external valuer with recognized professional qualifications.

Capital work-in-progress are stated at cost, net of accumulated impairment losses, if any. Investments properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the investments properties and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of investments properties are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the investments properties as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the consolidated statement of income as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings 40 yearsFurniture and decorations 5 years

An item of investments properties and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of income when the asset is derecognised. The residual values, useful lives and methods of depreciation of investments properties are reviewed at each financial year end and adjusted prospectively, if appropriate.

Developed properties.

Properties that are being constructed or is under construction or development for the purpose of sale. Properties under developing are measured at cost or net realizable value, whichever is lower. The cost of properties under developing includes the cost of land, construction and other costs related to preparing the properties for sale. Net realizable value is the estimated selling price in the normal business course on basis of market rate at the date of the consolidated statement of financial position, net of any costs to complete the sale. The management review the carrying amounts of properties under developing annually. Properties under developing are classified as current assets or non-current assets based on the expected date realization.

Property and equipment

Property and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are not recognized in the carrying amount or recognized as a separate asset, as appropriate, except when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount is de-recognized for any item being calculated as a separate asset when replaced. Other repair and maintenance costs are charged during the financial period in which they are incurred. Major spare parts are eligible to be recognized in property and equipment when the company expects them to be used within more than one year. Spare parts are transferred to the relevant current assets when such spare parts are available for use in less than 12 months. Assets under construction or development are capitalized in the capital works-in-progress account. Assets under construction or development are transferred to the appropriate category of property and equipment when assets are delivered to their location and / or position for use as intended by management. The cost of any item from capital works-in-progress items include the purchase price, development construction costs and any other costs directly attributable to the construction or acquisition of any item of property and equipment for use as intended by management.

Land and constructions in progress are not depreciated. Borrowing costs relating to qualified assets are capitalized as part of the cost of the qualifying asset. Depreciation expense for PPEs is calculated after deducting estimated residual values to allocate the cost of the assets on a straight-line basis over their estimated useful lives. The residual values and useful lives of assets are reviewed at the end of each financial year and adjusted where appropriate. If the carrying amount of an asset exceeds its estimated recoverable amount, the asset is written down immediately to its recoverable amount. Gains and losses on disposals of property, plant and equipment are determined by comparing the proceeds with the carrying amount of the assets disposed of.An item of property and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of income when the asset is derecognised.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property and equipment (continued)

•	Buildings	40 years
•	Machinery and equipment	5 years
•	Furniture and decorations	5 years
•	Computers	5 years
•	Vehicles	4 years

An item of property and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of income when the asset is derecognised. Residual value, useful lives and depreciation methods of property and equipment are reviewed at end of each financial period, and are adjusted in future if necessary.

Foreign currency

The Group's consolidated financial statements are presented in Saudi Riyals, which is also the parent company's functional currency. For each entity, the Group determines the functional currency and items included in the consolidated financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of operation, the gain or loss that is reclassified to income or loss reflects the amount that arises from using this method.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group entities at their respective functional currency spot rate at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in the consolidated statement of income, at which time, the cumulative amount is reclassified to the consolidated statement of income. Tax charges and tax exemptions attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary measured at fair value is treated in line with the recognition of gain or loss on change in fair value in the item (i.e., the translation differences on items whose fair value gain or loss is recognised in OCI, or the consolidated statement of income are also recognised in OCI or the consolidated statement of income, respectively).

In consolidating the financial statements, the assets and liabilities of foreign operations currencies are translated into Saudi riyals at the exchange rate prevailing at the date of the consolidated financial statements and their statements of profit or loss are translated at the exchange rates prevailing at the date of the transactions. Exchange differences arising on translation for consolidation purposes are recognised in other comprehensive income. On disposal of a foreign operation, the other comprehensive income relating to that foreign operation is included in the consolidated income statement

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Leases

The Group assess whether a contract contains a lease, at inception of the contract. If it contains a right to control the use of an identified asset for a period in exchange for consideration. For the purposes of assessing whether a contract contains the right to control the use of an identified asset, group assesses whether:

- The contract involves the use of a specific asset, this may be specified explicitly or implicitly;
- The group is entitled to obtain substantially all the economic benefits from using the asset during the period;
- The group has the right to direct the use and operate the asset, or the group designs the asset in a way that predetermines how and for what purpose the asset will be used;

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Group as a lessor

Leases in which substantially all the risks and rewards of ownership are not transferred from the Group to the lessee are classified as operating leases. The Group enters leases for its investment property portfolio. Management has determined that the Company retains substantially all the risks and rewards of ownership of the properties and therefore the leases are classified as operating leases based on an evaluation of the terms and conditions of the lease agreements. Lease income is recognised in the income statement on a straight-line basis over the lease term according to the terms of the leases.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in consolidated statement of income in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least once at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

The amortisation expense on intangible assets with finite lives is recognised in the consolidated statement of income in the expense category that is consistent with the function of the intangible assets.

The Group amortizes the accounting system ERP with a finite useful life using the straight-line method over 5 years. As at the reporting date, some parts of the system are still under implementation phase and are not available for use.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of income when the asset is derecognised.

Financial charges

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i) financial assets

Classification of financial assets depends on the Group's business model for managing its financial assets and the contractual terms of the cash flows. The Group classifies its financial assets as:

- Financial assets measured at amortised cost; or
- Financial assets measured at fair value

Gains or losses of assets measured at fair value will be recognised either through the consolidated statement of income or through the consolidated statement of OCI.

Initial measurement

Financial assets are initially measured at their fair value plus transaction costs. Transaction costs of financial assets carried at fair value through income statement are recognised in the consolidated statement of income, when incurred.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows meet the requirements as solely payment of principal and interest.

Subsequent measurement

Debt instruments

The Group recognises three classifications to subsequently measure its debt instruments:

Amortised cost

Financial assets held for collection of contractual cash flows, where those cash flows represent Solely Payments of Principal and Interest ("SPPI"), are measured at amortised cost. A gain or loss on an investment in debt instruments subsequently measured at amortised cost, and not part of a hedging relationship, is recognised in the consolidated statement of income when the asset is de-recognised or impaired. Interest income from these financial assets is included in finance income using the Effective Interest Rate ("EIR") method.

FVOCI

Financial assets held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses, which are recognised in the consolidated statement of income. When the financial asset is de-recognised, the cumulative gain or loss previously recognised in OCI, is reclassified from equity to the consolidated statement of income and recognised in other income/expense. Interest income from these financial assets is included in finance income using the EIR method. Foreign exchange gains and losses are presented in other income/expense.

FVPL

Financial assets at fair value through profit or loss statement include financial assets held for trading, financial assets designated upon initial recognition at fair value through income statement, or financial assets mandatorily required to be measured at fair value. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through income statement, irrespective of the business model.

Financial assets at fair value through income statement are carried in the consolidated statement of financial position at fair value with net changes in fair value recognised in the consolidated statement of income. This category includes derivative instruments.

Equity instruments

The Group measures all investments in equity instruments at fair value and presents changes in fair value of investments in equity instruments in OCI. Dividends from such investments continue to be recognised in the consolidated statement of income as other income when the Group's right to receive payments is established. There shall be no subsequent reclassification of changes in fair value through the consolidated statement of income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

i) Financial assets (continued)

De-recognition

A financial asset or a part of a financial asset is de-recognised when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement, and either:
 - a) The Group has transferred substantially all the risks and rewards of the asset; or
 - b) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment

At each reporting date, the Group applies a three-stage approach to measuring expected credit losses ("ECL") on financial assets accounted for at amortized cost and FVOCI. Assets migrate through the following three stages based on the change in credit quality since initial recognition:

a) Stage 1: 12-Months ECL

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognized.

b) Stage 2: Lifetime ECL - Not Credit Impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognized.

c) Stage 3: Lifetime ECL - Credit Impaired

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For financial assets that have become credit impaired, a lifetime ECL is recognized and interest revenue is calculated by applying the effective interest rate to the amortized cost (net of provision) rather than the gross carrying amount.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information.

For equity instruments measured at FVOCI, impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value and for debt instruments measured at FVOCI, impairment gains or losses are recognized in the consolidated statement of income and other comprehensive income.

For trade receivables only, the Group recognizes expected credit losses for trade receivables based on the simplified approach under IFRS 9. The simplified approach to the recognition of expected losses does not require the Group to track the changes in credit risk; rather, the Group recognizes a loss allowance based on lifetime expected credit losses at each reporting date from the date of the trade receivable.

Objective evidence that financial assets are impaired may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in profit or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Expected credit losses are measured as the difference in the present value of the contractual cash flows that are due to the Group under the contract, and the cash flows that the Group expects to receive. The Group assesses all information available, including past due status, credit ratings, the existence of third-party insurance, and forward looking macroeconomic factors in the measurement of the expected credit losses associated with its assets carried at amortized cost. The Group measures expected credit loss by considering the risk of default over the contract period and incorporates forward-looking information into its measurement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified under either of the below two classes:

- Financial liabilities at FVPL; and
- Other financial liabilities measured at amortised cost using the EIR method.

The category of financial liability at FVPL has two sub-categories:

- Designated: A financial liability that is designated by the entity as a liability at FVPL upon initial recognition; and
- Held for trading: A financial liability classified as held for trading, such as an obligation for securities borrowed in a short sale, which have to be returned in the future. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

All financial liabilities are recognised initially when the Group becomes party to contractual provisions and obligations under the financial instrument. The liabilities are recorded at fair value, and in the case of loans and borrowings and payables, the proceeds received net of directly attributable transaction costs.

Subsequent measurement

Financial liabilities at FVPL continue to be recorded at fair value with changes being recorded in the consolidated statement of income.

For other financial liabilities, including loans and borrowings, after initial recognition, these are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in consolidated statement of income when the liabilities are de-recognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR method. The EIR amortisation is included as finance costs in the consolidated statement of income.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial period which are unpaid. They are recognised initially at their fair value and subsequently measured at amortised cost using the EIR method.

Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value adjusted for transaction costs that are directly attributable to the issuance of the guarantee. The fair value of financial guarantee is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligation.

Where guarantees in relation to loans or other payables of associates are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment.

De-recognition

A financial liability is de-recognised when the obligation under the liability is settled or discharged. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Cash and cash equivalents

Cash and cash equivalents in the consolidated statement of financial position comprise of cash at banks and on hand, cash in funds and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash at banks and on hand, cash in funds and short-term deposits, as defined above.

Inventory

Inventory is shown in the cost or NRV (which lower), cost determines on base of weighted-average method.

Cost consists of direct costs and related expenses. Net realizable value is the selling price at which inventory can be sold in the normal business cycle after allowing for selling costs.

Provision is made for obsolete, slow moving, and damaged inventories when necessary.

Tenant's Deposits

Tenant deposits are initially recognised at fair value and subsequently measured at amortised cost where material. Any difference between the initial fair value and the nominal amount is included as a component of operating lease income and recognised on a straight-line basis over the lease term.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) because of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The provision is recognised as a liability in the statement of the financial position and the amount of the provision is expensed. The Group measures a provision at the best estimate of the amount required to settle the obligation at the in the statement of the financial position date. The best estimate is the expenditure that the company could reasonably be expected to pay to settle the obligation at financial position date or to transfer it to a third party at that date.

If the effect of the time value of money is material, provisions are discounted using a current pre-zakat rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Accrual and other payables

Liabilities are recognised for amounts to be paid in the future for services and materials received, whether invoiced or not, provided that a reliable estimate of the amount of the liability can be made.

Employees' defined benefits obligations

The liability recognized in the consolidated statement of financial position in respect of the employees' defined benefits obligations, is the present value of the employees' defined benefits obligations at the end of the reporting period. The employees' defined benefits obligations is calculated annually by independent actuaries using the projected unit credit method.

Since the Kingdom of Saudi Arabia has no deep market in high-quality corporate bonds, the market rates of high-quality corporate bonds of the United States of America are used to present value the employees' end of service termination benefits obligation by discounting the estimated future cash outflows.

The net finance cost is calculated by applying the discount rate to the net balance of the employees' defined benefits obligations. This cost is included in employee benefit expense in the consolidated statement of income.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in the consolidated statement of comprehensive income. They are included in retained earnings in the consolidated statement of changes in equity and in the consolidated statement of financial position.

Changes in the present value of the employees' end of service termination benefits obligation resulting from plan amendments or curtailments are recognized immediately in the consolidated statement of income as past service costs.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Related parties

Related party transactions include the transfer of resources, services, other liabilities, or financing between the intercompanies, whether these transactions are conducted on terms that are equivalent to those that would prevail in an arm's length transaction.

Group considers the related party with the company if the person near to the family are as follows:

- A) A member of top management in the company or; parent company; or
- B) Has control or mutual control on the company; or
- C) Has an important significant influence on the company's decision and direction.

Tops management of the company are those who have the power, planning responsibility, direct or indirect control of the company's business activity. Including any Manager even executives or no.

Group considers the related party with the company if the company:

- A) The entity and the company are members of the same group or are owned by common shareholders; or
- B) The entity is an associate or owned by common shareholder; or
- C) The entity has control or mutual control on the company;

Earnings Per Share

Group determines basic earnings per share by dividing the profit or loss attributable to ordinary shares (the numerator) by the weighted average number of ordinary shares outstanding (the denominator) during the year. The weighted average number of ordinary shares outstanding during the year is the number of ordinary shares outstanding at the beginning of the year, adjusted by the number of ordinary shares purchased or issued during the year multiplied by the time weight factor. The time weight is the number of days the shares are due as a proportion of the total number of days in the year; A reasonable approximation of the weighted average is sufficient in many circumstances.

Group calculates net profit per share is by dividing the return on profit for the equity of the shareholders of the parent company by the weighted average number of outstanding shares during the year in addition to the weighted average number of shares that will be issued upon conversion of all potential equity shares into equity shares.

Statutory Reserve

In accordance with Saudi Companies' Law, Group is required to transfer 10% of the net profit each year to the statutory reserve until the total reserve reaches 30% of the share capital. This reserve is not available for distribution to the shareholders of the company.

Cash dividends to stockholders

Group recognizes cash dividends to shareholders as liabilities upon approval of the distribution and that distribution is no longer dependent on the Group's desire. According to the Companies' Law in the Kingdom of Saudi Arabia, dividends are approved when they are approved by the shareholders or when the interim distributions are approved by the board of directors. The corresponding amount is recognized directly in equity.

Contingent Liabilities and Assets

Contingent assets are not recognized in the consolidated financial statements but are disclosed when it is probable that the economic benefits will be realized. Contingent liabilities are not recognized in the consolidated financial statements but are disclosed unless an outflow of economic benefits is remote.

Operation Segments

The operating segment is the one of most important part of the company:

- A) Participates in business activities that may guarantee revenues for him and incur expenses because of them.
- B) Its operating results are continuously analysed by the operating decision-maker in order to take decisions related to resource allocation and performance evaluation. Group's management presents 4 operating segments in its consolidated lists in accordance with Note No. (6).
- C) Which financial statements are available separately.

The geographical segment provides products or services within a specific economic environment that are exposed to risks and returns that differ from operating segments in other economic environments. Since the company operates exclusively in the Kingdom of Saudi Arabia, no geographical sectors are presented.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

5. New and amended standards and interpretations

a) New and revised standards with no material effect on the consolidated financial statements.

Following are the recent changes to IFRSs that are required to be adopted in annual periods beginning on 1 January 2023:

- IFRS 17 insurance contracts;
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2);
- Definition of Accounting Estimate (Amendments to IAS 8);
- Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction-Amendments to IAS 12 Income Taxes:
- Initial application of IFRS 17 and IFRS 9 comparative information (Amendment to IFRS 17)
- International tax reforms Pillar two model rules (Amendments to IAS 12)

The application of the revised IFRSs did not have any material impact on the amounts reported for current and prior periods.

b) Standards issued but not yet effective

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

- Classification of liabilities as current or non-current (Amendments to IAS 1), effective for annual periods beginning on or after 1 January 2024.
- Lease liabilities in a Sale and Leaseback (Amendments to IFRS 16), effective for annual periods beginning on or after 1 January 2024.
- Non-current Liabilities with Covenants (Amendments to IAS 1), effective for annual periods beginning on or after 1 January 2024.
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28), effective date yet to be determined.
- IFRS S1 General requirements for disclosure of sustainability –related financial information, effective for the annual reporting periods beginning on or after 1 January 2024 with early application permitted as long as IFRS S2 climaterelated disclosure is also applied.
- IFRS S2 Climate related disclosures, effective for annual reporting periods beginning on or after 1 January 2024 with early application permitted as long as IFRS S1 general requirements for disclosure of sustainability- related financial information is also applied.

The above-mentioned standards are not expected to have a significant impact on the group consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

6. USE OF ESTIMATES AND JUDGMENTS

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared.

Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Use of estimates and assumption

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Following are the estimates and assumptions exposed to significant risks that could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities during the next fiscal year.

Going-concern Concept

Group's management has assessed its ability to continue as a going-concern and concluded that it has the necessary resources to continue its activities normally for the foreseeable future. In addition, Group's management is not aware of the existence of a material uncertainty that may cast doubt on the Group's ability to continue in business. Accordingly, the financial statements have been prepared on the going concern basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

6. USE OF ESTIMATES AND JUDGMENTS (continued)

Allowance for expected credit losses

For accounts receivables, the Group applies the simplified approach. To measure the expected credit losses, receivables have been grouped based on shared credit risk characteristics and the days past due. Expected loss rates were derived from historical information of the Group and are adjusted to reflect the expected future outcome which also incorporates forward looking information for macroeconomic factors such as inflation and gross domestic product growth rate. Management periodically reviews these factors and checks them on a regular basis in an attempt to reduce differences between expected credit losses estimates and actual conditions that will occur in the future. The amount of expected credit losses is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecasts of economic conditions may not be an accurate representative of the likelihood of customers defaulting in the future.

Contract costs to complete estimates

Group estimates the cost to complete the projects in order to determine the cost attributable to revenue being recognised. These estimates include, among other items, the construction costs, variation orders and the cost of meeting other contractual obligations to the customers. Such estimates are reviewed at regular intervals. Any subsequent changes in the estimated cost to complete the project may affect the results of the subsequent periods.

Useful lives of investment properties and equipment

The Group's management determines the estimated useful lives of its property and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the useful lives annually, and the depreciation method to make sure that the depreciation method and period are consistent with the expected pattern of the assets' economic benefits.

Impairment of investment properties and equipment

Group obtains the services of independent accredited valuers to obtain fair value estimates of property, equipment and investment properties using recognized common valuation methods for the purpose of impairment review and fair value disclosure in the financial statements.

Classification of investments properties

Management exercises judgment when classifying real estate as property and equipment, investment property or development property. Management takes evidence standards in accordance with management's intention and effective plan and in accordance with relevant accounting standards.

Determining the lease term for contracts with renewal and termination options, Group as a lessee

Group determines lease contracts as a non-cancellable term in relation to the contract, with any periods including an option to extend the contract if the Group is certain to exercise an extension option, or any periods including an option to terminate the lease if management is certain, it will not exercise an option to terminate the contract reasonably.

Group's management as a lessee has signed several lease contracts that include extension and termination options. Management exercises judgment in assessing whether it is reasonably certain whether to exercise the option to renew or cancel the contract. Thus, the management considers all relevant factors that would create an economic incentive to exercise either the renewal or cancellation option. After the lease commencement date, management recalibrates the lease term if a significant event or change in circumstances occurs that is within its control and affects its ability to exercise or not exercise the option to renew or terminate (for example, constructing significant improvements to leasehold premises or allocating the important thing is according to the demand of the leased asset).

Impairment of the non-financial assets

Group assesses at each financial position date whether there are indications of impairment in the value of non-financial assets. Non-financial assets are tested for impairment when there are indications that the carrying values may not be recoverable. An impairment loss is recognized when the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell or value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted based on spot price in an arm's length transaction, for similar assets or observable market prices less incremental costs of disposing of the asset. The value in use is calculated based on the discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the performance of the CGU being tested for impairment. The recoverable amount is sensitive to the discount rate used in the discounted cash flow method as well as the expected future net cash inflows and the growth rate used in the projections.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

6. USE OF ESTIMATES AND JUDGMENTS (continued)

Zakat

The Company and its subsidiaries are subject to zakat in accordance with Zakat, Tax and Customs Authority (the "ZATCA") in the Kingdom of Saudi Arabia, and the provision is charged to the consolidated statement of income. Additional zakat liabilities, if any, resulting from the final assessments raised by (the "ZATCA") for previous years are accounted for in the year in which these final assessments are issued.

Provisions

Provisions measure by their nature, depend on estimates and valuations of whether the recognition criteria have been met, including estimates of the likelihood of an outflow of cash. Management's estimates of litigation provisions, for example, are based on an estimate of the expected costs to be incurred considering legal advice and other information available to management at the date. As for provisions for employee termination benefits and exit costs, if any, they also involve management's judgment in estimating expected cash outflows for termination and site closure or other exit costs. Provisions for uncertain liabilities are based on management's best estimate of whether an outflow of cash is likely.

Employees' end-of-service benefits

The cost of employees' defined benefit obligation and other post-employment benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, and mortality rates. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Transactions price

Group determines the transactions price in respect of each of its contracts with customers. In doing so, it evaluates the effect of any variable consideration in the contract because of discounts or penalties, the existence of any significant financing component in the contract, and any non-monetary consideration in the contract. In determining the effect of a variable price, management uses the most likely amount method mentioned in IFRS 15 Revenue from Contracts with Customers so that the transaction price is determined by reference to the single most likely amount among a few possible prices.

Performance obligation fulfilment

The Group evaluates each of its contracts with customers to determine whether performance obligations have been satisfied over time or at a specific point in time to determine the appropriate method of recognizing revenue based on sales agreements with customers and related provisions, regulations, and laws. In the case of contracts concluded with customers for the sale of real estate, the management believes that the revenue must be recognized over a period if the real estate has no alternative use and that the Group has a valid right to receive the compensation upon the Group's completion of the obligations arising from it in the contract. Otherwise, revenue is recognized at a point in time. Management considers that the use of the input's method provides the best reference for the revenue earned. The inputs method requires revenue to be recognized based on the Group's efforts to satisfy the performance obligation. Management while applying the input method estimates the costs of completing projects to determine the amount of revenue to be recognized. Estimates of costs to complete projects include, among other items, the cost of construction, change orders, and the cost of fulfilling other contractual obligations to customers. Estimates of the costs of completing projects are checked at regular intervals. Any subsequent changes in the estimated cost to complete may affect the results of subsequent periods.

Fair value measurement for financial instruments

When it is not possible to measure the fair values of the financial assets and financial liabilities recorded in the statement of financial position based on prices traded in active markets, then the fair value is determined using other appropriate valuation methods, including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, and where this is not feasible, a degree of judgment is required in determining fair value. The judgments include considerations of inputs such as liquidity risk, credit risk and volatility risk. Changes in assumptions about these factors could affect the fair value of financial instruments. Contingent consideration, arising in a business combination, is assessed at fair value at the acquisition date as part of the business combination. When the price meets the definition of a financial liability, it is subsequently remeasured to fair value at each reporting date. The fair value determination is based on discounted cash flows. Key assumptions consider the probability of meeting each performance objective and the discount factor.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

6. USE OF ESTIMATES AND JUDGMENTS (continued)

Derivative financial instrument fair value measurement

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities may be available at the measurement date.
- Level 2 inputs other than quoted prices included in level 1 that are observable for the assets or liabilities either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 inputs for assets or liability that are not based on observable market data (unobservable input)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In Saudi Riyals Thousands, unless otherwise indicated)

7. SEGMENT INFORMATION

For management purposes, the Group consists of business units based on its products and services and has six reportable segments, as follows:

- A. Rental sector
- B. Property sales sector
- C. Infrastructure projects sector
- D. Construction projects sector
- E. Facility management sector
- F. Head office

Segment performance is evaluated based on income or loss and is measured consistently with income or loss in the consolidated financial statements. However, the Group's financing (including finance costs) are managed on a Group basis and are not allocated to operating and revenue segments.

The activities of the Group and its subsidiaries are primarily conducted in the Kingdom of Saudi Arabia.

Below is a breakdown of the segment information:

As at 31 December 2023	Rental	Property sales	Infrastructure projects	Construction projects	Facility management	Head office.	Elimination	Total
Revenue	302,098	490,837	896,103	91,016	99,862	-	(65,691)	1,814,225
Cost of revenue	(160,983)	(230,079)	(713,954)	(137,038)	(75,202)	-	64,165	(1,253,091)
Gross profit	141,115	260,758	182,149	(46,022)	24,660	-	(1,526)	561,134

As set out in the significant accounting policies, the investment properties are stated at cost less accumulated depreciation and accumulated impairment. The fair value of investments properties amounted to SR 13 billion as at 31 December 2023 (31 December 2022: SR 11.2 billion) based on valuation performed by qualified valuers Barcode Firm (independent valuer accredited by Saudi Authority for Accredited Valuers), who are specialist in valuing these types of investments properties.

Certain lands having carrying value of SR 2 billion (2022: SR 2 billion) are pledged against an Islamic loan from a local bank (note 28).

Investment properties include buildings with net book value amounting SR 625 million (2022: SR 581 million) constructed on a leased land from the High Commission for the Development of Al-Riyadh under contracts between 99 years and 28 years.

A) Lands not available for used

Certain land parcels owned by the Company are currently not available for use or development due to various reasons, of which certain reasons relate to the areas where these lands are located and other related to the fact that they are under study from specialised committees to resolve these matters. The management is currently communicating with the related government agencies and committees to address these reasons to allow the use of these lands. The impact on the net realisable value of these lands is still uncertain and depend on the results of the study by the assigned committees. The management believes that there will be no losses to be incurred related to this matter. The carrying value of these lands amounted to SR 437.7 million as at 31 December 2023 (2021: SR 437.7 million) while the fair value has exceeded SR 1.7 billion as at 31 December 2023 (2022: SR 2.1 billion) as per the above mentioned valuators.

B) Al Widyan project

During 2021, it came to management's attention that the land included in the Company's Al Widyan project is located within an area that is currently under study by the relevant government agencies with the aim of developing it, which may result into a fundamental change to the original project's plan and may impact the land's realisable value. The effect of the

(In Saudi Riyals Thousands, unless otherwise indicated)

9. INVESTMENTS PROPERTIES (continued)

extent of this study remains uncertain and dependent on future developments by the relevant government agencies' plan. The management believes that there will be no losses to be incurred related to this matter. The carrying value of the related land and capital works-in-progress as at 31 December 2023 amounted to SR 2,6 billion and SR 325.5 million respectively (2022: SR 2,6 billion and SR 325.5 million respectively) while the fair value has exceeded SR 6.3 billion as at 31 December 2023 (2021: SR 4 billion) as per the above mentioned valuators.

10. DEVELOPED PROPERTIES

12. DEBT INSTRUMENTS AT AMORTIZED COST

In the year 2016, the Group entered into an agreement with Al Bayan Holding Group Company to invest in debt instruments at amortized cost. The Group claimed Al Bayan Holding Group Company to pay its financial liabilities that exceed the amount of SR 206 million, but the latter did not respond to that. During the year 2021, the Group has filed a lawsuit against the Company and a final ruling was issued to dismissing the lawsuit because it has been filed prematurely. Accordingly, during the year 2022, the Group has filed a lawsuit against the investment guarantor, and a preliminary verdict was issued to dismiss the lawsuit for submitting it prematurely. The Group has objected the verdict, and a verdict was issued by the Appeal Court overruling the initial verdict and obliging the Commercial Court to hear the case, and the case is still pending before the Commercial Court.

Short-term deposit (note b)	500,000	808,601
	837,669	1,170,541

a. The Company is required to maintain certain deposits/balances amounting to SR 122.2 million (2022: SR 115.9 million) with banks for advances received from customers against sale of developed properties which are deposited into escrow accounts. These deposits/balances are not under lien.

17. SHARE CAPITAL

The Company's share capital amounting to SR 3,750 million as at 31 December 2023 consist of 375 million shares (31 December 2022: 375 million shares), value of each share SR 10. During the year ending on December 31, 2022, the Board of Directors agreed to submit a recommendation to the Extraordinary General Assembly to increase the share capital by 1.6 billion through offering initial rights shares for subscription. The capital increase shares were offered at a market value of SR 11.8 riyals the value of each share. This increase resulted in a capital issue premium amounting to SR 2.43 million and subscription expenses amounting to SR 20.3 million.

On May 18, 2022, the approval of the capital increase was approved by the Extraordinary General Assembly, and the Company completed the offering procedures by collecting the entire capital increase. During 2022, the legal procedures to increase the capital, the amending commercial and the Articles of Association.

b. As at 31 December 2023 Short-term deposit represents time deposit with a local bank with original maturities of less than three months.

18. STATUTORY RESERVE

In accordance with the Company's by-law, the Company must transfer 10% of its net income in each year to establish statutory reserve. The Ordinary General Assembly may discontinue this transfer whenever the reserve is amounted to 30% of the capital. No such transfer has been made to the statutory reserve during the current and prior year due to the accumulated losses.

19. CONTRACTUAL RESERVE

In accordance with the Company's By-Laws, the Ordinary General Assembly decides the need to form a contractual reserve and defines its purposes. No transfer was requested during this year by the Ordinary General Assembly.

20. OTHER RESERVES

22. TERM LOAN

During 2016, the Group obtained Islamic long-term loan from a local bank. In June 2022, the Company rescheduled the loan, provided that, the loan principal amounting to 2.068 billion Saudi riyals will be repaid in equal semi-annual instalments over eight years after a four-year grace period from the date of the rescheduling agreement, so that the first instalment will be paid on December 2026 and the last instalment is paid on June 2034, provided that, the loan is subject to prevailing commission rates among Saudi banks (SIBOR) plus an agreed profit margin, and the Company has mortgaged a plot of land in exchange for the long-term loan granted to it.

Term bank loans has been classified within non-current liabilities according to the loan repayment dates based on the agreements signed with the lending banks as follows:

	2023	2022
Current portion Non-current portion	2,068,462	2,068,462
	2,068,462	2,068,462

23. LOAN FROM MINISTRY OF FINANCE

_	2023	2022
Non-current portion Current portion	914,889 143,768	1,058,657 130,698
	1,058,657	1,189,355
The following is a summary of the movement of loan during the year:	2023	2022
At the beginning of the year Finance costs during the year Paid during the year	1,189,355 - (130,698)	1,318,419 3,712 (132,776)
At the end of the year	1,058,657	1,189,355

The loan agreement is subject to the financial and non-financial covenants as follow:

- Debt-to-equity ratio.
- Current assets-to-current liabilities (liquidity ratio).
- Debt coverage ratio.
- Mortgaged property contract on plots of land owned by Saudi Real Estate Company in favor of the Ministry of Finance.

The management of the Company believes that all of these financial and non-financial covenants do not affect the current classification of the loans in the financial statements for year ended December 31, 2023.

24. EMPLOYEES' DEFINED BENEFIT OBLIGATIONS

The Group grants end of service benefits to its employees taking into consideration the Saudi Arabian labour law. This benefit is an unfunded defined benefit plan ("DBO").

The benefits provided by this end of service plan is based primarily on years of service and employees' compensation. The obligations are subject to demographic, legal and economic risks. Economic risks are primarily due to unforeseen developments in goods and capital markets and changes to the discount rate used to calculate the DBO.

Principal actuarial assumptions:

	Value per annum (%)	
	2023	2022
Financial assumptions: - Net discount rate - Salary growth rate	4.60 5.60	4.80 4.70
Demographic assumptions: - Retirement age	60 years	60 years

29. RELATED PARTY TRANSACTIONS AND BALANCES (continued)

Following table shows the significant related party transactions during the year:

2023	2022
1,441	20,453
7,187	7,225
14,871	17,442
23,499	45,120
	1,441 7,187 14,871

^{*} The amounts disclosed in the table above represent the amounts recognized as an expense relating to senior management personnel during the financial period.

Revenues relating to transactions with government entities for the year ended 31 December 2023 amounted to SR 23.5 million (31 December 2022: SAR 50 million).

30. ZAKAT

The movement in provision for Zakat for the year ended December 31 is as follows:

	2023	2022
At the beginning of the year	73,013	76,947
Charge for the year	29,342	18,166
Paid during the year	(17,396)	(21,100)
At the end of the year	85,959	74,013

Zakat assessments

Saudi Real Estate Company

The Group submitted its Zakat assessments for all years up to 2022 and paid the obligations accordingly, and obtained a zakat certificate valid until April 30, 2024. The Company finalized its zakat status with ZATCA until 2015.

ZATCA has issued a zakat assessment for the years from 2016 to 2020, and claimed the Company to pay the differences amounting to SR 54 million. The Company submitted its objection to these differences to ZATCA within the statutory period. ZATCA has rejected the Company's objections for those years, and the objection has been raised to Tax Violations and Disputes Resolution Committee "TVDRC", and no resolution is issued.

On March 13, 2023, the Company submitted a proposal, based on ZATCA request, and it was studied by Zakat and Tax Dispute Settlement Committee, which in turn, after a series of deliberations and discussions, presented a response to the Company's settlement proposal, but the Company did not accept it. Therefore, it resumed once again the process of lawsuits related to the zakat assessment for the year from 2016 to 2020 before the Tax and Zakat Committees, and awaiting the issuance of a final decision.

Saudi Real Estate Construction Company

The Company submitted copies of the necessary zakat returns for the years ended until December 31, 2022 to ZATCA, and paying the amounts due. The Company did not receive any zakat assessments of these returns. The Company submits information declare for the year 2022 for the purposes of the disclosure as the Company became paying its zakat obligations within consolidated declaration of Saudi Real Estate Company (the Shareholder).

Saudi Real Estate Infrastructure Company

The Company submitted zakat returns for all the years until year ended December 31, 2022. And based on that, the amounts due has been paid according to those returns and invoices issued by ZATCA. The Company has received the final assessments of these returns.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In Saudi Riyals Thousands, unless otherwise indicated)

30. ZAKAT (continued)

Zakat assessments (continued)

Saudi Korean Company for Maintenance and Properties Management

The Company submitted zakat and income tax returns for all the years until year ended December 31, 2022. And based on that, the amounts due has been paid according to those returns and invoices issued by ZATCA. The Company have not received the final assessments of these returns yet.

Al Widyan Saudi Real Estate Company

The Company has submitted its zakat returns for all the years until year ended December 31, 2022, and paid the amounts due accordingly. The Company have not received the final assessments of these returns yet.

Hudood Real Estate Investment Company

The Company did submit its zakat returns for the period from October 24, 2022 to December 31, 2023, because the Company did not complete the first fiscal year from the date of incorporation. The first zakat return is scheduled to be submitted for the period from October 24, 2022 to December 31, 2023.

31. REVENUE

	2023	2022
Infrastructure projects revenue	896,103	531,167
Rental revenues (note 28)	300,572	289,619

37. EARNING PER SHARE

Basic and diluted earnings per share is calculated by dividing the loss for the year attributable to ordinary equity holders of the parent company by the weighted average number of ordinary shares outstanding during the year.

41,806

32,955

The following table reflects the income and share data used in the basic and diluted loss per share computations:

	2023	2022
Income attributable to:		
Equity holders of the Parent Company	67,634	110,539
Weighted average number of ordinary shares (share)	375,000	323,219
Basic and diluted earnings per share (SR)	0.18	0.34

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

38. COMMITMENTS AND CONTINGENCIES

Capital commitments.

The Group has contracts of design, engineer consultancies and executing capital works with certain consultants and contractors. The value of commitments not executed as at 31 December 2023 amounted to SR 576 million (31 December 2022: SR 170 million).

Letters of guarantee

The Group's banks issued letters of guarantee on their behalf amounting to SAR 42.2 million as of 31 December 2023 (31 December 2022: 32.9 million) in the normal course of business.

White idle lands claims

During the year ended 31 December 2023, white idle land fees that were received by the Group from the Ministry of Municipal and Rural Affairs and Housing (MOMRAH) amounted to SR 4 million.

Based on the opinion of the legal counsel, it is highly certain that all legal cases pending with the Board of Grievances, will be in the favour of the Group. Accordingly, management does not consider the need to make any further provisions for such claims or related charges.

Legal issues

There are also some cases filed against the Group during the normal course of business and are currently being discussed. These cases have no material impact on the consolidated financial statements.

39. FAIR VALUE MEASUREMENT

Following table provides the fair value measurement hierarchy of the Group's financial assets and financial liabilities as at 31 December 2023 and 31 December 2022:

As at 31 December 2023:	Carrying Amount	(level 1)	(level 2)	(level 3)	Fair value
Financial assets measured at fair value:					
Investments in equity instruments designated at FVOCI	366,397	33	-	366,364	366,397
	366,397	33		366,364	366,397
As at 31 December 2022:					
Investments in equity instruments designated at FVOCI	297,453	43	-	297,410	297,453
	297,453	43	-	297,410	297,453

The management assessed that the fair values of cash and cash equivalents, trade receivables, investments at fair value, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

Management assessed that the carrying amount of fixed and variable rate term loans approximates their fair values due to the fact that they bear interest rates that reflect current market interest rates for similar financing and loans. As a result, the values of the future discounted cash flows on those financing and loans are not significantly different from their current carrying amount.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities include loans, trade payable, amounts payable and other liabilities. The main purpose of these financial liabilities is to finance the Group's operations and to provide guarantees to support its operations. The Group's principal financial assets include trade receivables and other receivables and cash and cash equivalents and investments at fair value though comprehensive income that derive directly from its operations. The Group also holds investment in equity instruments designated at FVOCI.

The Group has exposure to the following risks arising from financial instruments:

Market risk
 Profit rate risk
 Foreign currency risk
 Equity price risk
 Credit risk
 Liquidity risk

The Group's overall risk management program focuses on robust liquidity management as well as monitoring of various relevant market variables, thereby constantly seeking to minimize potential adverse effects on the Group's financial performance. The Board of Directors reviews and agrees policies for managing each of these risks which are summarised below:

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, AFS financial assets.

The sensitivity analyses in the following sections relate to the position as at 31 December in 2023 and 2022.

Sensitivity analysis have been prepared on the basis that the net debt value, fixed-to-floating debt commission rate ratio, derivatives and the ratio of financial instruments in foreign currencies are all fixed and based on the hedge allocations identified as at December 31, 2022. The analyses exclude the impact of movements in market variables on: the carrying values of pension and other post-retirement obligations and provisions.

The following assumptions have been made in calculating the sensitivity analyses:

• The sensitivity of the relevant consolidated statement of income item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 December 2023 and 2022.

Profit rate risk

Profit rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market profit rates.

The Group's exposure to the risk of changes in market profit rates relates primarily to the loans. The loans bearing variable profit rate expose the Group to fluctuation in cash flows due to changes in interest rate.

Foreign currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's functional and reporting currency is the Saudi Riyal. The Group's transactions are principally in Saudi Riyals, US Dollars. Management monitor the fluctuations in currency exchange rates and believes that the currency risk is not significant. The bulk of the exposure is in USD and the Saudi Riyal is pegged at SAR 3.75: USD 1 therefore, the Group is not exposed to any risk from USD denominated financial instruments.

Equity price risk

The Group's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the financial instrument. The Group manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31 December 2023

(In Saudi Riyals Thousands, unless otherwise indicated)

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

To reduce exposure to credit risk, the Group has an approval process whereby credit limits are applied to its customers. The management also continuously monitors the credit exposure towards the customers and makes provision against expected credit losses which is based on customer profile and payments history. Outstanding customer receivables are regularly monitored.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2023	2022
Investments in equity instruments designated at FVOCI	366,397	297,453
Trade receivables	138,050	177,161
Prepayments and other assets	239,793	223,551
	744,207	698,165

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Group's Board of Directors on an annual basis. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments.

Liquidity risk

Liquidity risk is the risk that Group will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at an amount close to its fair value. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are available through committed credit facilities to meet any future commitments.

The Group's approach to managing liquidity is to ensure, as far as possible that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. For this purpose, the Group has maintained credit lines with commercial banks in order to meet its liquidity requirements.

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Liquidity risk - continued

The table below shows the remaining contractual maturity dates of the Group's financial liabilities and agreed upon repayment terms. This table has been prepared based on the discounted cash flows of the Group's financial liabilities and as per the nearest date on which the Group is required to repay.

	Book value	Year	More than 1 to 5 years	More than 5 years
31 December 2023				
Trade payables (note 26)	128,879	128,879	-	-
Loans (note 22 & 23)	3,127,119	143,768	1,208,398	1,774,953
	3,255,998	272,647	1,208,398	1,774,953
31 December 2022				
Trade payables (note 26)	73,182	73,182	-	-
Loans (note 22 & 23)	3,257,817	130,698	1,041,329	2,085,790
	3,330,999	203,880	1,041,329	2,085,790

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry.

41. CAPITAL MANAGEMENT

For the purpose of the Group's capital management, capital includes issued shares and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Group's capital management is to maximise the shareholder value

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividends payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

	2023	2022
Term loans	3,127,119	3,257,817
Trade payables	128,879	73,182
Accrued expenses and other liabilities	281,199	348,713
Unearned revenue	220,460	134,888
Less: cash and cash equivalents	(837,669)	(1,170,541)
Net debt	2,919,988	2,644,059
Equity	4,882,795	4,693,278
Capital and net debt	7,802,783	7,337,337
Gearing ratio	37%	36%

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings.
