UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL
INFORMATION

FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2026

To the Shareholders of aljazira bank

We have reviewed the accompanying interim condensed consolidated statement of financial position of aljazira bank (the “Bank”) and its subsidiaries (collectively referred to as the “Group”) as at 30 June 2026, and the related interim condensed consolidated statements of income and comprehensive income for the three-month and six-month periods ended 30 June 2026, and the related interim condensed consolidated statements of changes in equity and cash flows for the six-month period then ended and other explanatory notes (the “interim condensed consolidated financial information”). Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, “*Interim Financial Reporting*” (“IAS 34”), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

We conducted our review in accordance with International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”, as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION (UNAUDITED) FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2026 (CONTINUED)

1. GENERAL (continued)

The Group invests in structured entities with the objective to resell the investment in a short period after the establishment. Structured entities are consolidated when the relationship between the Group and the structured entity indicates that the Group has power over the relevant activities of the structured entity, is exposed to variable returns, and can use that power to affect the variable return exposure. In other cases, the Group may sponsor or have exposure to such entities but not consolidate the entities.

Certain structured entities that meet the above criteria have been consolidated in this interim condensed consolidated financial information. The consolidated structured entities are individually immaterial, and their inclusion does not have a material impact on the Group's financial position, financial performance or cash flows.

The details of the Bank's associate are as follows:

	Country of incorporation	Nature of business	Ownership (direct and indirect) 30 June 2026	Ownership (direct and indirect) 31 December 2025	Ownership (direct and indirect) 30 June 2025
Associate					
AlJazira Takaful Ta'awuni Company	Kingdom of Saudi Arabia	Fully Shari'ah compliant protection and saving products	*33.08%	33.08%	33.08%

2. BASIS OF PREPARATION

The interim condensed consolidated financial information of the Group as at and for the period ended 30 June 2026, has been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting ("IAS 34") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and professional Accountants ("SOCPA").

This interim condensed consolidated financial information does not include all of the information required for full annual financial statements and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2025. The consolidated financial statements of the Group as at and for the year ended 31 December 2025, were prepared in accordance with the IFRS Accounting Standards ("IFRS") as issued by International Accounting Standards Board and endorsed in the Kingdom of Saudi Arabia and in compliance with other standards and pronouncements endorsed by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

The preparation of interim condensed consolidated financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim condensed consolidated financial information, significant judgements made by the management in applying the Group's accounting policies and the key sources of estimation were consistent with those that were applied to the consolidated financial statements as at and for the year ended 31 December 2025, except for amendments that are applicable from the period beginning 1 January 2026 as disclosed in note 4.

This interim condensed consolidated financial information is expressed in Saudi Arabian Riyals (SAR) and is rounded off to the nearest thousands except where otherwise stated and the functional currency of the Bank is Saudi Riyal.

3. BASIS OF CONSOLIDATION

This interim condensed consolidated financial information comprises the interim condensed financial information of aljazeera bank and its subsidiaries as set out in note 1. The financial information of the subsidiaries is prepared for the same reporting period as that of the Bank.

The interim condensed consolidated financial information has been prepared using uniform accounting policies and valuation methods for like transactions and other events in similar circumstances. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group.

a) Subsidiaries

Subsidiaries are entities which are controlled by the Bank. The Bank controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. To meet the definition of control, all of the following three criteria must be met:

- i. the Group has power over an entity;
- ii. the Group has exposure, or rights, to variable returns from its involvement with the entity; and
- iii. the Group has the ability to use its power over the entity to affect the amount of the entity's returns.

The Group re-assesses whether or not it controls an investee in case facts and circumstances indicate that there are changes to one or more of the criteria of control.

Subsidiaries are consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which the control is transferred from the Group. The results of subsidiaries acquired or disposed of during the period, if any, are included in the interim condensed consolidated statement of income from the date of the acquisition or up to the date of disposal, as appropriate.

b) Non-controlling interests

Non-controlling interests represent the portion of net income and net assets of subsidiaries not owned, directly or indirectly, by the Group in its subsidiaries and are presented separately in the interim condensed consolidated statement of income and within equity in the interim condensed consolidated statement of financial position, separately from the Bank's equity. Any losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

c) Transactions eliminated on consolidation

Balances between the Group entities, and any realised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated in preparing the interim condensed consolidated financial information. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

3. BASIS OF CONSOLIDATION (continued)

d) Investment in an associate

Associates are entities over which the Group exercises significant influence. Investments in associates are initially recognised at cost and subsequently accounted for under the equity method of accounting and are carried in the interim condensed consolidated statement of financial position at the lower of the equity-accounted value or the recoverable amount.

Equity-accounted value represents the cost-plus post-acquisition changes in the Group's share of net assets of the associate (share of the results, reserves and accumulated gains/ (losses) based on the latest available financial information) less impairment, if any.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on its investment in its associates. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in 'share in net income / (loss) of an associate' in the interim condensed consolidated statement of income.

The previously recognised impairment loss in respect of investment in associate can be reversed through the interim condensed consolidated statement of income, such that the carrying amount of the investment in the interim condensed consolidated statement of financial position remains at the lower of the equity-accounted (before allowance for impairment) or the recoverable amount.

Unrealised gains and losses on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates.

4. MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of new standards effective as of 1 January 2026. Several amendments apply for the first time in 2026 but do not have impact on this interim condensed consolidated financial information of the Group. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

a) New standards, interpretations and amendments adopted by the Group

Following standard, interpretation or amendment are effective from the current period and are adopted by the Group, however, these does not have any significant impact on the interim condensed consolidated financial information of the Group, unless otherwise stated below:

Standard, interpretation, amendments	Description	Effective date
Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments	Under the amendments, certain financial assets including those with ESG-linked features could now meet the SPPI criterion, provided that their cash flows are not significantly different from an identical financial asset without such a feature. The IASB has amended IFRS 9 to clarify when a financial asset or a financial liability is recognised and derecognised and to provide an exception for certain financial liabilities settled using an electronic payment system.	1 January 2026
Amendments to IFRS9 and IFRS 7 Contracts referencing Nature-dependent Electricity	Contracts Referencing Nature-dependent Electricity amends IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures to more faithfully reflect the effects of contracts referencing nature-dependent electricity on an entity's financial statements.	1 January 2026
Annual improvements to IFRS – Volume 11	Annual improvements are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversights or conflicts between the requirements in the Accounting Standards. The 2024 amendments are to the following standards: IFRS 1 First-time Adoption of International Financial Reporting Standards; IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7; IFRS 9 Financial Instruments; IFRS 10 Consolidated Financial Statements; and IAS 7 Statement of Cash Flows.	1 January 2026

b) Accounting standards issued but not yet effective

The International Accounting Standard Board (IASB) has issued following accounting standards, amendments and revisions which are not yet effective. The Group has opted not to early adopt these pronouncements and they do not have a significant impact on the interim condensed consolidated financial statements of the Group except for IFRS 18 for which the management is currently assessing the impact.

Standard, interpretation, amendments	Description	Effective date
Amendments to IFRS 10 and IAS 28- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Partial gain or loss recognition for transactions between an investor and its associate or joint venture only apply to the gain or loss resulting from the sale or contribution of assets that do not constitute a business as defined in IFRS 3 Business Combinations and the gain or loss resulting from the sale or contribution to an associate or a joint venture of assets that constitute a business as defined in IFRS 3 is recognised in full.	Effective date deferred indefinitely
IFRS 18, Presentation and Disclosure in Financial Statements	IFRS 18 provides guidance on items in statement of profit or loss classified into five categories: operating; investing; financing; income taxes and discontinued operations. It defines a subset of measures related to an entity's financial performance as 'management-defined performance measures' ('MPMs'). The totals, subtotals and line items presented in the primary financial statements and items disclosed in the notes need to be described in a way that represents the characteristics of the item. It requires foreign exchange differences to be classified in the same category as the income and expenses from the items that resulted in the foreign exchange differences. The Bank is currently assessing the detailed presentation and disclosure requirements of IFRS 18 and expected impacts are summarized in note 4(b(i)).	January 2027
IFRS 19, Subsidiaries without Public Accountability: Disclosures	IFRS 19 allows eligible subsidiaries to apply IFRS Accounting Standards with the reduced disclosure requirements of IFRS 19. A subsidiary may choose to apply the new standard in its consolidated, separate or individual financial statements provided that, at the reporting date it does not have public accountability and its parent produces consolidated financial statements under IFRS Accounting Standards.	1 January 2027

4. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

b) Accounting standards issued but not yet effective (continued)

(i) IFRS 18 – Presentation and Disclosure in Financial Statements

The Bank has established a formal IFRS 18 implementation programme overseen by senior management, supported by a cross-functional working group comprising representatives from various Business Groups. The programme includes assessments of financial statement presentation, management reporting, data and systems requirements and reporting implications.

The Bank is currently assessing the estimated impact that the initial application of IFRS 18 will have on its consolidated financial statements. Based on the assessment performed to date, the expected impacts pertain to the presentation, aggregation, disaggregation and disclosure of information within the consolidated financial statements.

Presentation of Statement of Income

IFRS 18 requires entities to classify income and expenses into specified categories within the statement of income, namely operating, investing, financing, income taxes and discontinued operations. It also introduces mandatory subtotal including Operating Profit and Profit for the year.

Neither total profit for the period nor total equity is expected to change as a result of adopting IFRS 18. However, the Bank expects changes to the presentation and classification of certain income and expense items within the statement of income, including the introduction of IFRS-defined subtotals.

Based on its preliminary assessment, the Bank has concluded that providing financing to customers and investing in financial assets as part of its banking activities constitute specified main business activities for the purposes of IFRS 18. Based on this, the Bank expects the following impacts on the interim condensed consolidated financial statements:

- Financing income arising from customer financing assets, investment securities and treasury activities supporting the Bank's specified main business activities is expected to be presented within the operating category.
- Funding costs relating to customer deposits, debt securities issued and other financing liabilities that support the Bank's specified main business activities are expected to be presented within the operating category.
- Foreign exchange differences are expected to be classified in the same category as the underlying assets and liabilities giving rise to those differences. Based on the Bank's current assessment, the majority of foreign exchange differences arise from financing, treasury and investment activities that support the Bank's core banking operations and are therefore expected to be presented within operating performance. The Bank continues to assess whether any foreign exchange differences relate to activities that may require presentation outside the operating category under IFRS 18.
- Gains and losses arising from derivatives designated in hedging relationships are expected to be presented in the same category as the underlying hedged exposures. Based on the Bank's current assessment, the majority of derivatives are associated with treasury and funding activities that support the Bank's core banking operations and are therefore expected to be presented within operating performance. The Bank continues to assess whether any derivatives relate to activities that may require presentation outside the operating category under IFRS 18.

The share of profit or loss from associates and joint ventures accounted for using the equity method, if any, will be presented within the investing category and outside operating profit as required by IFRS 18.

Certain expenses arising from liabilities or other obligations that are not directly linked to the Bank's specified main business activities, i.e. interest charge on lease liabilities and the interest cost of employee benefit obligations are currently being assessed and would be presented within the financing category in accordance with IFRS 18.

In addition, IFRS 18 may require changes to certain line-item descriptions, subtotals and disclosures currently presented in the statement of income. The assessment remains subject to completion of the Bank's implementation activities and any future interpretative or regulatory developments.

(i) IFRS 18 – Presentation and Disclosure in Financial Statements (continued)

Management-defined Performance Measures

IFRS 18 introduces new disclosure requirements for Management-defined Performance Measures ("MPMs"), which are subtotals of income and expenses used in public communications to communicate management's view of an aspect of the Bank's financial performance. Such measures will be required to be disclosed within a single note to the financial statements together with explanations of their purpose and reconciliations to the most directly comparable IFRS-defined totals or subtotals.

The Bank is assessing whether measures communicated externally, net operating income before impairment provision or other performance metrics that meet the definition of Management-defined Performance Measures under IFRS 18 and may therefore require enhanced disclosures and reconciliations.

Principles of Aggregation and Disaggregation

IFRS 18 introduces enhanced requirements relating to the aggregation and disaggregation of information throughout the financial statements and accompanying notes. These requirements are intended to improve transparency by ensuring that material information is presented separately and dissimilar items are not obscured through aggregation. The Bank is currently assessing whether additional disaggregation may be required for other assets, other liabilities, other operating income, other general and administrative expenses, other operating expenses. The Bank also expects certain line-item descriptions currently used within the financial statements to be refined to enhance clarity and consistency with the objectives of IFRS 18.

Consequential Amendments

IFRS 18 introduces consequential amendments to other IFRS, including IAS 7 Statement of Cash Flows, IAS 33 Earnings per Share and IAS 34 Interim Financial Reporting. The Bank is currently assessing the impact of these amendments, including potential changes to the presentation of operating cash flows and the classification of interest, dividends and other cash flow items. The Bank is also evaluating requirements relating to comparative information and retrospective application upon adoption of IFRS 18. The Bank's assessment remains ongoing and further refinements to the expected impact may arise as implementation activities progress, industry practice evolves and additional guidance from regulators and standard setters become available.

9. SHARIAH COMPLIANT DERIVATIVES

9.1 Nature/type of derivatives held

In the ordinary course of business, the Group utilizes the following Shari'ah compliant derivative financial instruments for both trading and strategic hedging purposes:

a) Swaps

Swaps are commitments to exchange one set of cash flows for another. For profit rate swaps, counterparties generally exchange fixed and floating rate profit payments in a single currency without exchanging principal. For cross-currency profit rate swaps, principal, fixed and floating profit payments are exchanged in different currencies.

b) Options (Wa'ad Fx)

Foreign exchange options are transactions, whereby a client, in consideration for the payment of a fee agrees to enter into one or a series of trades in which one party (promisor) gives a commitment as a unilateral undertaking, to a second party (promisee).

An option can be a unilateral promise or combination of promises. The Group enters into the option depending on the client's risk profile, whereby the client may promise to buy, sell or buy and sell a currency with or without conditions for hedging its exposure.

9.2 Purpose of derivatives

a) Held for trading purposes

Most of the Group's derivative trading activities relate to sales, positioning and arbitrage. Sales activities involve offering products to customers in order, to enable them to transfer, modify or reduce current and future risks. Positioning involves managing market risk positions with the expectation of profiting from favourable movements in prices, rates or indices. Arbitrage involves identifying, with the expectation of profiting from, price differentials between markets or products.

b) Held for hedging purposes

The Group uses Shari'ah compliant derivatives for hedging purposes in order to reduce its exposure to profit rate risk and foreign exchange risk.

The Group has adopted a comprehensive system for the measurement and management of risk. Part of the risk management process involves managing the Group's exposure to fluctuations in foreign exchange and profit rates to reduce its exposure to currency and profit rate risks to acceptable levels as determined by the Board of Directors within the guidelines issued by Saudi Central Bank.

As part of its financial asset and liability management, the Group uses Shari'ah compliant derivatives for hedging purposes in order to adjust its own exposure to currency and profit rate risk. This is generally achieved by hedging specific transactions.

9.2 Purpose of derivatives (continued)

b) Held for hedging purposes (continued)

Cash flow hedges

The Group is exposed to variability in future cash flows on non-trading assets and liabilities which bear profit at a variable rate. The Group uses profit rate swaps as cash flow hedges of these profit rate risks.

The gains on cash flow hedges reclassified to the interim condensed consolidated statement of income during the period are as follows:

	30 June 2026 (Unaudited) <u>SAR'000</u>	30 June 2025 (Unaudited) <u>SAR'000</u>
Income from investments and financing	23,387	31,814
Return on deposits and financial liabilities	(9,922)	(14,716)
Net gains on cash flow hedges reclassified to the interim condensed consolidated statement of income	<u>13,465</u>	<u>17,098</u>

The cash flow hedges of profit rate swap were highly effective in offsetting the variability of return on investments, deposits and other financial liabilities.

Fair value gain on cash flow hedges amounting to SAR 64.11 million (30 June 2025: loss of SAR 28.96 million) included in the interim condensed consolidated statement of comprehensive income comprised of net unrealised gain of SAR 68.42 million (30 June 2025: net unrealised loss of SAR 62.99 million) and net realized loss of SAR 4.31 million (30 June 2025: net realised gain of SAR 34.03 million) on terminated hedge relationships.

During the current and prior periods, the Group sold certain of its profit rate swaps used for cash flows hedges. However, the gain / (loss) would continue to be classified in interim condensed consolidated statement of comprehensive income as the related hedge items are still outstanding. In accordance with the IFRS requirements, the gain / (loss) will be reclassified to interim condensed consolidated statement of income in the period when the cash flows pertaining to hedged items will affect the interim condensed consolidated statement of income i.e. when profit receipts / payments impact the interim condensed consolidated statement of income which is over the remaining maturity of financial instrument / hedge items.

9.3 Details of shar'iah compliant derivatives

The table below summarize the positive and negative fair values of the Group's derivative financial instruments, together with their notional amounts. The notional amounts, which provide an indication of the volume of transactions outstanding at the end of the period, do not necessarily reflect the amounts of future cash flows involved. These notional amounts, therefore, are neither indicative of the Group's exposure to credit risk, which is generally limited to the positive fair value of the derivatives, nor market risk.

13. TIER 1 SUKUK

During the current period ended June 30, 2026, the Bank completed the issuance and redemption of following Tier 1 instruments:

- A cross border Tier 1 Sukuk through a Shari'ah compliant arrangement amounting to SAR 1.875 billion (denominated in US Dollars). This issuance forms part of the Bank's USD 1.5 billion Additional Tier 1 Capital Sukuk Programme. This arrangement was approved by the regulatory authorities and the Board of Directors of the Bank. The applicable profit rate is 6.5% per annum from date of issue up to June 2031 and is subject to reset every 5 years.
- SAR-denominated additional Tier 1 sukuk of SAR 1.46 billion (which is part of additional Tier 1 Capital Sukuk Programme of SAR 5 billion) by way of a private placement in Saudi Arabia. This arrangement was approved by the regulatory authorities and the Board of Directors of the Bank. The applicable profit rate is 6.35% per annum from date of issue up to March 2031 and is subject to reset every 5 years.
- The Bank exercised its option to recall and redeem, on the first call date in June 2026, its cross-border Tier 1 Sukuk (the "Sukuk") amounting to SAR 1.875 billion (denominated in US Dollars), which was originally issued in 2021 through a Shari'ah-compliant arrangement. The applicable profit rate was 3.95% per annum from the date of issue until the first call date in June 2026.

During 3rd quarter of 2025, the Bank issued cross border Tier 1 Sukuk through a Shari'ah compliant arrangement amounting to SAR 1.875 billion (denominated in US Dollars). This issuance forms part of the Bank's USD 1.5 billion Additional Tier 1 Capital Sukuk Programme. This arrangement was approved by the regulatory authorities and the Board of Directors of the Bank. The applicable profit rate is 6.5% per annum from date of issue up to September 2030 and is subject to reset every 5 years.

During 1st quarter of 2025, the Bank completed the issuance of an SAR-denominated additional Tier 1 sukuk of SAR 1 billion (which is part of additional Tier 1 Capital Sukuk Programme of SAR 5 billion) by way of a private placement in Saudi Arabia. This arrangement was approved by the regulatory authorities and the Board of Directors of the Bank. The applicable profit rate is 6.3% per annum from date of issue up to January 2030 and is subject to reset every 5 years.

As part of the additional Tier 1 Capital Sukuk Programme of SAR 5 billion, the Bank had also completed during year 2023, the issuance of an SAR-denominated additional Tier 1 sukuk of SAR 2 billion by way of a private placement in Saudi Arabia. This arrangement was approved by the regulatory authorities and the Board of Directors of the Bank. The applicable profit rate is 6% per annum from date of issue up to June 2028 and is subject to reset every 5 years.

These Sukuks are perpetual securities in respect of which there is no fixed redemption dates and represents an undivided ownership interest of the Sukuk-holders in the Sukuk assets, with each Sakk constituting an unsecured, conditional and subordinated obligation of the Bank classified under equity. However, the Bank shall have the exclusive right to redeem or call the Sukuks in a specific period of time, subject to the terms and conditions stipulated in the Sukuk agreement.

The applicable profit on the Sukuks is payable semi-annual in arrears on each periodic distribution date, except upon the occurrence of a non-payment event or non-payment election by the Bank, whereby the Bank may at its sole discretion (subject to certain terms and conditions) elect not to make any distributions. Such non-payment event or non-payment election are not considered to be events of default and the amounts not paid thereof shall not be cumulative or compound with any future distributions.

16. OPERATING SEGMENTS

The operating segments have been identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision-maker (Chief Executive Officer) in order to allocate resources to the segments and to assess their performance.

All of the Group's operations are based in the Kingdom of Saudi Arabia.

Transactions between the operating segments are on normal commercial terms and conditions. The revenue from external parties reported to the chief operating decision maker is measured in a manner consistent with that in the interim condensed consolidated statement of income. Segment assets and liabilities comprise operating assets and liabilities.

There have been no changes to the basis of segmentation or the measurement basis for the segment profit or loss since 31 December 2025.

For management purposes, the Group is organized into following main operating segments:

17. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction takes place either:

- in the accessible principal market for the asset or liability, or
- in the absence of a principal market, in the most advantages accessible market for the asset or liability

Determination of fair value and fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted prices included in level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques in which all significant inputs are directly or indirectly observable from market data

17. FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

Determination of fair value and fair value hierarchy

Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

For assets and liabilities that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

There were no changes in the Group's valuation processes, valuation techniques, and types of input used in the fair value measurements during the period.

Fair value of quoted investments is based on price quoted on the reporting date. Level 2 trading and hedging derivatives comprise foreign exchange, options and profit rate swaps. These foreign exchange contracts have been fair valued using forward exchange rates that are quoted in an active market. Profit rate swaps and options are fair valued using forward profit rates extracted from observable yield curves. The effects of discounting are generally insignificant for Level 2 derivatives.

There were no changes in valuation techniques during the period.

There were no transfers between levels 1 and 2 during the period. New investments acquired during the period are classified under the relevant levels. Level 3 includes investment in unquoted equities which have been valued using a valuation model.

18. CAPITAL ADEQUACY

The Group's objectives when managing capital are to comply with the capital requirements set by SAMA to safeguard the Group's ability to continue as a going concern and to maintain a strong capital base.

Capital adequacy and the use of regulatory capital are monitored on a periodic basis by the Bank's management. SAMA requires holding the minimum level of the regulatory capital and maintaining a ratio of total eligible capital to the risk-weighted assets at or above the agreed minimum percentage.

The Group monitors the adequacy of its capital using ratios established by SAMA. These ratios measure capital adequacy by comparing the Group's eligible capital with its interim condensed consolidated statement of financial position assets, commitments and notional amount of derivatives at a weighted amount to reflect their relative risk.

The following table summarizes the Group's Pillar-I Risk Weighted Assets (RWA), Regulatory Capital and Capital Adequacy Ratios as per Basel III final reforms issued by SAMA (circular number 44047144) effective from January 01, 2023.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION (UNAUDITED) FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2026 (CONTINUED)

20. RESTATEMENT OF COMPARATIVE FIGURES

During the year ended 31 December 2025, as more fully explained in Note 43 to the consolidated financial statements for FY 2025, certain restatements and reclassifications were made. Accordingly, these have been appropriately reflected in the interim condensed consolidated financial information. A summary of these changes is as follows:

- (i) The Group corrected the valuation of its interest in an equity investment that was classified as investments at fair value through other comprehensive income (FVOCI) which was historically valued at cost and net assets value. As a result of using appropriate valuation method, the fair value of the investment has increased by SAR 212.63 million as at 30 June 2025.
- (ii) The Group retrospectively reclassified an investment of SAR 460 million from FVOCI to FVTPL following a refined assessment of contractual terms of Share Purchase Agreement which clarified that the embedded downside-protection feature meant the Group did not hold an equity instrument and therefore, the instrument should be measured at fair value through profit or loss. This restatement, performed under IAS 8, represented a classification shift only and resulted in no change to the Group's previously reported total assets, net profit, or equity.
- (iii) To align with the requirements of IAS 7, following a more detailed analysis of the contractual terms with cash management companies, the Group reclassified certain balances held with cash management companies from "Other assets" to "Cash and balances with SAMA" as it met the definition of cash and cash equivalents. This reclassification affected the interim condensed consolidated statement of financial position and interim condensed consolidated statement of cash flows, with no impact on the interim condensed consolidated statement of income and interim condensed consolidated statement of changes in equity.

The impact of these restatements and reclassifications on prior period information is summarized below:

However, there was no impact of such reclassifications on the interim condensed consolidated statement of income and interim condensed consolidated statement of changes in equity.

21. IMPACT OF GEO-POLITICAL SITUATION ON EXPECTED CREDIT LOSSES ("ECL")

The geopolitical situation in the MiddleEast has deteriorated significantly since 28 February 2026. The situation has remained highly volatile and has impacted several countries in the Middle East including Kingdom of Saudi Arabia, causing disruption to some business and economic activities.

The Group continues to evaluate and closely monitor the current situation to assess any impact geopolitical situation may have had on its business and financial performance.

The prevailing geopolitical situation, has brought about additional uncertainties in the economic environment which require the Group to revise certain inputs and assumptions used for the determination of expected credit losses ("ECL"). In response to the increased uncertainty, the Group has reassessed the forward-looking assumptions used in the measurement of expected credit losses ("ECL"), including macroeconomic scenarios and their associated probability weightings. Accordingly, the Group has adjusted the scenario weightings to reflect a more cautious outlook, with relatively higher weight assigned to the downside scenario, which incorporates a higher degree of stress in key macroeconomic variables. The revised assumptions reflect management's best estimate of the potential impact of the evolving geopolitical conditions as at the reporting date. The resulting impact was assessed to be immaterial.

The impact of such uncertain economic environment is judgmental, and the Group will continue to reassess its position and the related impact on a regular basis as more reliable data becomes available and accordingly determine if any adjustment in the ECL is required in subsequent reporting periods.

22. APPROVAL OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION
