EXECUTIVE SUMMARY

2nd & H1 QUARTER 2022 UPDATE

EXECUTIVE SUMMARY

SUMMARY

Emirates Driving Company's (EDC) 2022 2nd quarter and cumulative 1st half financial performance is a testament of operational excellence and a continued positive momentum across all key figures.

The Company's revenue from customers and Net Income figures increased by 27.19% and 43.81% as compared to H1 2021 to reach AED 156.73 million and AED 122.97 million respectively. EDC's ability to run a highly efficient operation was yet again demonstrated through a further increase in its gross, operating, and net profit margins to reach 81.66%, 62.57% and 78.46% respectively.

In addition to the above, the company's investment portfolio continued its upward trend to record a net gain equity investments (at fair value through profit & loss) of AED 13.46 million for the 1st half of the year, an increase of 158.09% compared to the same period last year.

The company remains focused on its ultimate objective of generating value to all its key stakeholders and as such has finalized the development of its five-year sustainability strategy, which was approved by the Board of Directors during its meeting held during the 2nd quarter. EDC will be swiftly moving to the second phase of its sustainability plan to launch an internal ESG transformation office which will manage and oversee the implementation of its sustainability initiatives to ensure the company reaches all its ESG objectives based on the set timelines.

During the 2nd quarter of the year, 33,681 customers registered to train with EDC, a 6.51% increase from the previous quarter and a tremendous 44.72% H1 2022 increase compared to the same period last year to reach a cumulative number of 65,304 customers.

KEY HIGHLIGHTS

Free Cash Flow to the Firm

Free Cash Flow to the Firm (FCFF) considers all cash inflows from revenues, all cash outflows from ordinary expenses, and all reinvested cash to grow the business. The remaining number is a measurement of a company's financial health. Emirates Driving Company's FCFF figure further increased at the end of H1 2022 as compared to the previous year to reach AED 119.93 million (51.40% higher than H1 2021).

Profitability

EDC reported yet another impressive net profit figure of AED 122.97 million for the 1st half of the year 2022, a notable 43.81% increase compared to the AED 85.51 million recorded during the same period last year.

As a result, the company generated, for the same period, a 1.37 earnings per share (EPS) number reflecting an impressive performance and an increase of 44.21% compared to the same period last year, the EPS of which was at 0.95.

Net Gain from Financial Assets at Fair Value Through Profit and Loss

The company's value-focused investment strategy continued its positive performance recording a net gain equivalent to AED 13.46 million a 1.58 fold increase compared to the 1st half of 2021 which stood at AED 5.22 million.

High Return on Equity & Low Debt

The company's return on equity (ROE), reflecting H1 2022 profitability, recorded a preforming 14.58%, while the last-twelve-months (LTM) ROE figure stood at 24.92%,

Finally, we have maintained a healthy balance sheet with a low debt to asset ratio set at 4.24%.
