INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

TO THE SHAREHOLDERS OF MAHARAH FOR HUMAN RESOURCES COMPANY

(A Saudi Joint Stock Company)
Riyadh – Kingdom of Saudi Arabia

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Maharah For Human Resources Company ("the Company") and its subsidiaries (together "the group") as of September 30, 2023, and the related interim condensed consolidated statement of profit or loss, statement of comprehensive income, for the three-month and nine-month periods then ended, and the interim condensed consolidated statements of changes in equity and cash flows for the nine-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 — "Interim Financial Reporting" (IAS 34) that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

Except as explained in the following paragraph, we conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

The group recognize investment in associate companies that were acquired during the third quarter of 2022 and are accounted for using the equity method that amounted to SAR 829 million in the interim condensed consolidated statement of financial position as of September 30, 2023. The company has booked these investments on the acquisition date at cost until the reporting date of the interim condensed consolidated financial statements for the period ended September 30, 2023, the study of the purchase price allocation by the consultant appointed by the company's management has not been completed yet to determine the expected financial impact on the interim condensed consolidated financial statements. Had we been able to obtain the final purchase price allocation and complete our review, matters might have come to our attention indicating that adjustments might be necessary to the interim condensed consolidated financial statements.

INDEPENDENT AUDITOR REVIEW REPORT ON THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE-MONTH AND NINE-MONTH PERIODS ENDED SEPTEMBER 30, 2023 (UNAUDITED) - (continued)

Qualified Conclusion

Except for the adjustments to the interim condensed consolidated financial statements that we might have become aware of had it not been for the situation described above, based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements is not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

Other matter

The interim condensed consolidated financial statement for the three-month and nine-month periods ended September 30, 2022 were reviewed by another auditor who expressed an unmodified conclusion on these interim condensed consolidated financial statements on Rabi AL Thani 9, 1444H (corresponding to November 3, 2022), and the consolidated financial statements of the group for the year ended December 31, 2022, were audited by same auditor who expressed an unmodified opinion on these consolidated financial statements on Shaban 14, 1444H, (corresponding to March 6, 2023).

2- BASIS OF PREPARATION

2-1 Statement of Compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard number (34) "Interim Financial Reporting" that are endorsed in the Kingdom of Saudi Arabia, and other standards and announcement approved by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

They do not include all the information and disclosures required for a complete set of consolidated financial statements prepared in accordance with International Financial Reporting Standards, and therefore they should be read in conjunction with the Group's annual consolidated financial statements for the year ended December 31, 2022.

The results for the nine-month period ended on Sep 30, 2023 are not necessarily indicative of the results that can be expected for the year ending on December 31, 2023.

2-2 Basis of measurement

These interim condensed consolidated financial statements have been prepared under the historical cost convention except for measurement of financial assets at fair value through profit or loss and through other comprehensive income are measured using fair value and employees' defined benefits liabilities which are measured at present value of the future obligations using the (Actuarial valuation).

2-3 Functional and presentation currency

These interim condensed consolidated financial statements are presented in Saudi Riyal which is the Company's functional and Group's presentation currency.

2- BASIS OF PREPARATION (continued)

2-4 Basis of consolidation of interim condensed financial statements

These interim condensed consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at Sep 30, 2023. The financial statements of the subsidiaries are prepared for the same reporting period as that of the Company, using consistent accounting policies.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has the following:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee, if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. When a Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related non-controlling interest and other components of equity. Any resulting gain or loss is recognized in the consolidated statement of comprehensive income. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Inter-Group assets, liabilities, equity components, revenues, expenses and cash flows resulting from transactions between Group companies are fully eliminated upon consolidating the interim condensed consolidated financial statements.

3- SIGNIFICANT ACCOUNTING POLICIES

3-1 New Standards, Amendment to Standards and Interpretations:

There are no new standards issued, however, there are number of amendments to standards which are effective from January 1, 2023 and has been explained in Group annual Consolidated Financial Statements, but they do not have a material effect on the Group's Interim Condensed Consolidated Financial Statements as at Sep 30, 2023. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these amended standards.

3-2 Treasury shares

treasury shares are own equity instruments that are recognized at cost. Treasury shares are presented as a deduction from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized as share premium or discount which is presented in equity. These treasury shares are allocated for purpose of establishing the Company's employee share program (Long-Term Incentive Plan) for which approvals were acquired from extraordinary general assembly.
