Report on review of condensed consolidated interim financial statements

To the Shareholders of Kingdom Holding Company (A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Kingdom Holding Company (the "Company") and its subsidiaries (collectively referred to as the "Group") as at 31 March 2023 and the related condensed consolidated interim statements of profit or loss, comprehensive income, changes in equity and cash flows for the three-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" (IAS 34), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

Climate Change

The Group has reviewed its exposure to climate related and other emerging business risks but has not identified any risks that could materially impact the financial performance or position of the Group as at 31 March 2023.

Finance charges

The financial charges on borrowings have increased significantly during the quarter ended 31 March 2023. This increase is attributable to increase in interest rates, particularly those associated with the Saudi Inter-Bank Offered Rate and Euro Inter-Bank Offered Rate. These interest rate changes affect loan facilities obtained both locally in Saudi Arabia and in foreign jurisdictions. Specific details relating to the interest rates and the currencies of borrowings have been disclosed in note 16 of the annual consolidated financial statements.

Liquidity and financial position

As at 31 March 2023, the Group had net current liabilities amounting to Saudi Riyals 3.7 billion (31 December 2022: Saudi Riyals 3.2 billion). This is mainly due to maturity of certain current borrowings amounting to Saudi Riyals 5.4 billion. The Group also has access to undrawn borrowing facilities amounting to Saudi Riyals 3.6 billion, existing liquid unpledged investments portfolio and the option to roll-over the revolving facilities, as they mature. Further, the management of the Group has performed an analysis of cash flow projections over the next twelve months and is confident that the Group will be able to meet its obligations as and when they fall due.

Accordingly, these condensed consolidated interim financial statements are prepared on going concern basis.

These condensed consolidated interim financial statements were authorized for issue by the Company's Board of Directors on 3 Dhu al-Qadah 1444H (corresponding to 23 May 2023).

2 Basis of preparation

2.1 Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 - "Interim Financial Reporting" ("IAS-34"), as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

These condensed consolidated interim financial statements should be read in conjunction with the Group's annual audited consolidated financial statements for the year ended 31 December 2022 and do not include all of the information required for a complete set of financial statements under IFRS. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual audited consolidated financial statements.

The interim results may not be an indicator of the annual results of the Group.

2 Basis of preparation (continued)

2.2 Historical cost convention

These condensed consolidated interim financial statements have been prepared under the historical cost convention, except for certain financial assets and liabilities that are measured at fair value. Further, the employee termination benefits are calculated using the Projected Unit Credit Method (PUCM) and actuarial assumptions.

2.3 Functional and presentation currency

These condensed consolidated interim financial statements are presented in Saudi Riyals, which is the Company's functional and the Group's presentation currency.

3 Use of estimates, assumptions and judgments

The preparation of the Group's condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, costs, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

These estimates and assumptions are based upon experience and various other factors that are believed to be reasonable under the circumstances and are used to judge the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised or in the revision period and future periods if the changed estimates affect both current and future periods.

Management has reassessed the significant inputs in its estimates of recoverable amounts of investments in equity-accounted investments, goodwill and intangible assets, as disclosed in Notes 3.1, 11 and 14 of the annual audited consolidated financial statements for the year ended 31 December 2022, and recoverable amount of these assets are higher than the carrying values and therefore no impairment was recognized for the three-month period ended 31 March 2023.

4 Significant accounting policies

The accounting policies applied in these condensed consolidated interim financial statements are the same as those applied in the Group's last annual audited consolidated financial statements for the year ended 31 December 2022.

New IFRS standards, amendments to standards and interpretations not yet adopted
