INTERIM FINANCIAL STATEMENTS**

**TO: THE SHAREHOLDERS OF
ETIHAD ATHEEB TELECOMMUNICATION COMPANY
(A Saudi Joint Stock Company)**

Introduction

We have reviewed the accompanying condensed interim statement of financial position of **ETIHAD ATHEEB TELECOMMUNICATION COMPANY** (the "Company") as at 30 June 2021, and the related condensed interim statements of profit or loss and other comprehensive income, changes in equity and cash flows for the three month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with International Accounting Standard (34) "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

We have not received a related party confirmation as at 30 June 2021, accordingly we were unable to obtain sufficient appropriate audit evidences about the differences that existed on 31 March 2021 between the carrying amount of this related party and the confirmation received as at that date of SAR 8,5 million, and we were unable to verify the carrying amount of the related party as at 30 June 2021 by performing alternative audit procedures. Accordingly, we were unable to determine whether any adjustments to this amount were necessary.

REPORT ON REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS (CONTINUED)
ETIHAD ATHEEB TELECOMMUNICATION COMPANY
(A Saudi Joint Stock Company)

Qualified Conclusion

Based on our review, with the exception of the matter described in the preceding paragraph, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard (34) "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia.

Emphasis of Matter

We draw attention to Note (1) to the accompanying condensed interim financial statements, which indicates that the accumulated losses of the Company amounted to SR 128,9 million as of 30 June 2021, exceeding half of the Company's capital, and the Company's current liabilities exceeded its current assets by SR 152,17 million as at 30 June 2021 and it made a loss of SR 12,11 million for the period then ended. These conditions indicate the existence of a material uncertainty, which may cast significant doubt about the Company's ability to continue as a going concern. As stated in Note (1), the management has made an assessment of the Company's ability to continue as a going concern, and as result, the accompanying condensed interim financial statements has been prepared on a going concern basis. Our conclusion is not modified in respect of this matter.

18.2 Zakat and tax status

The Company has filed its Zakat and tax return with the Zakat, Tax and Customs Authority ("ZTCA") for the years up to 31 March 2021.

In July 2015, the ZTCA raised zakat and withholding tax (WHT) assessment for the years 2010 to 2012 amounting to SAR 17.43 million and SAR 0.83 million respectively. The Company filed an appeal with the ZTCA against the assessments in August 2015. In response to appeal filed by the Company, the Preliminary Appeal Committee (PAC) issued ruling in October 2016 based on which the Company's zakat liability was reduced to SAR 6.98 million while the WHT liability remained the same at SAR 0.83 million. The Company was also liable to pay fine of SAR 0.6 million as per the PAC ruling, on making delay in the payment of WHT.

In December 2016, the Company filed an appeal to the Higher Appeal Committee (HAC) against the PAC ruling in relation to zakat and imposition of delay fine on WHT. However, the Company has settled the WHT liability of SAR 0.83 million with the ZTCA.

The ZTCA has not issued any assessment up to date with relation to the year 2013.

In July 2020, the ZTCA raised zakat assessment for the year 2014 for an additional amount of SAR 5.53 million. In September 2020, the Company objected against the assessment raised by the ZTCA. In December 2020, the ZTCA revised the additional amount to become SAR 5.44 million. However, the Company filed an appeal with the General Secretariat of Tax Committees ("GSTC") against the ZTCA's response received on the objection. The decision from the GSTC is awaited.

ETIHAD ATHEEB TELECOMMUNICATION COMPANY
(A Saudi Joint Stock Company)
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
For the three month period ended 30 June 2021
(Saudi Arabian Riyals)

19. FINANCIAL INSTRUMENTS – FAIR VALUES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits from the asset's highest and best use or by selling it to another market participant that would utilize the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the condensed interim financial statements are categorized within the fair value hierarchy. This is described as follows based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable. For assets and liabilities that are recognized in the condensed interim financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company determines the policies and procedures for both recurring fair value measurement, and for non-recurring measurement. At each reporting date, the Company analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies. For this analysis, the Company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents. The Company also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.
