INDEPENDENT AUDITORS' REVIEW REPORT ON THE INTERIM CONDENSED FINANCIAL STATEMENTS

TO THE SHAREHOLDERS OF AL RAJHI COMPANY FOR COOPERATIVE INSURANCE (A
SAUDI JOINT STOCK COMPANY)

INTRODUCTION

We have reviewed the accompanying interim condensed statement of financial position of Al Rajhi Company for Cooperative Insurance (the "Company") as at 30 June 2026, and the related interim condensed statements of income and comprehensive income for the three-month and six-month periods then ended, interim condensed statement of changes in equity and interim condensed statement of cash flows for the six-month periods then ended, and other explanatory notes. Management is responsible for the preparation and presentation of the interim condensed financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" (IAS 34) as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim condensed financial statement consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

Notes to the interim condensed financial statements
For the three & six-month period ended 30th June 2026

1. General

Al Rajhi Company for Cooperative Insurance "شركة الراجحي للتأمين التعاوني" (a Saudi Joint Stock Company incorporated in the Kingdom of Saudi Arabia), "the Company", was formed under Royal Decree No. (M/35) dated 27th Jumada al-thani 1429, (1st January 2008). The Company operates under Commercial Registration no. 1010270371 dated 5th Rajab 1430, corresponding to 28th June 2009. The registered address of the Company's head office is as follows:

Al Rajhi Company for Cooperative Insurance
P.O. Box 67791
Riyadh 11517
Kingdom of Saudi Arabia

The purpose of the Company is to conduct takaful operations and all related activities, including re-takaful / reinsurance and agency activities. Its principal lines of business include motor, medical/health, protection & savings, marine, fire, engineering, and casualty insurance.

On 2nd Jumada al-thani 1424, corresponding to 31st July 2003, the Law on the Supervision of Cooperative Insurance Companies ("Insurance Law") was promulgated by Royal Decree Number (M/32). On 1st Rabi' al-awwal 1425, corresponding to 20th April 2004, Insurance Authority (IA), as the principal authority responsible for the application and administration of the Insurance Law and its Insurance Implementing Regulations, granted the Company a license number (TMN/22/200911) to transact insurance activities in the Kingdom of Saudi Arabia.

As a commitment from the Company for its activities to be in compliance with Islamic Shari'a legislation, since its inception, the Company has established a Shari'a Authority to review and approve the activities and the products of the

The Board of Directors (BoD) approves the distribution of the surplus from insurance operations in accordance with the implementing Regulations issued by the Insurance Authority ("IA"), whereby the shareholders of the Company are to receive 90% of the annual surplus from insurance operations, and the policyholders are to receive the remaining 10%. Any deficit arising from insurance operations is transferred to the shareholders' operations in full.

During the year 2023, the Insurance Authority (IA) was established by a royal decree as the insurance regulator. Previously issued regulations will be upheld until the Insurance Authority (IA) issues updated regulations; all mention of Insurance Authority (IA) in these financial statements to be read in this context. Therefore, the accrued income liability is payable to the Insurance Authority (IA).

2. Basis of preparation

2.1 Statement of compliance

The un-audited interim condensed financial statements of the Company, as at and for the three & six-month period ended 30th June 2026, have been prepared in accordance with International Accounting Standard 34 'Interim Financial Reporting' (IAS 34) as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants (SOCPA) and in compliance with Regulations for Companies in the Kingdom of Saudi Arabia and By-Laws of the Company.

The un-audited interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's audited annual financial statements as at and for the year ended 31st December 2025.

The Company's statement of financial position is presented in order of liquidity but not using current / non-current classification. However, except for property and equipment, intangible assets, statutory deposit, accrued income on statutory deposit, some components of investments (measured at amortized cost, investments measured at FVOCI, long-term deposits), right of use assets, investment contract liabilities, lease liabilities, end-of-service benefits and accrued income payable to Insurance Authority, all other assets and liabilities are of short-term nature, unless, stated otherwise.

Notes to the interim condensed financial statements *(continued)*

For the three & six-month period ended 30th June 2026

2. Basis of preparation *(continued)*

2.1 Statement of compliance *(continued)*

As required by the Saudi Arabian Insurance Regulations, the Company maintains separate books of accounts for Takaful Operations and Shareholders' Operations and presents the financial information accordingly. Assets, liabilities, revenues and expenses clearly attributable to either activity is recorded in the respective accounts. The basis of the allocation of expenses from joint operations is determined and approved by the management and the Board of Directors.

The implementing regulations require the clear segregation of the assets, liabilities, income and expenses of the insurance operations and the shareholders' operations in preparing the Company-level financial statements & in compliance with IFRS, the balances and transactions of the takaful operations are amalgamated and combined with those of the shareholders' operations. Interoperation balances, transactions and unrealized gains or losses, if any, are eliminated in full during amalgamation. The accounting policies adopted for the takaful operations and shareholders' operations are uniform for like transactions and events in similar circumstances.

The un-audited interim condensed financial statements may not be considered indicative of the expected results for the full year.

2.2 Basis of measurement

These un-audited interim condensed financial statements are prepared under the going concern basis and the historical cost convention, except for the measurement of investments carried at fair value through profit or loss (FVTPL) and investments carried at fair value through other comprehensive income (FVOCI), lease liabilities which are recorded at the present value of future cashflows, employees' end of service benefits (EOSB) recorded at the present value using the projected unit credit method. Moreover, the insurance and reinsurance contracts are measured at the present value of estimated fulfilment cashflows that are expected to arise as the Company fulfils its contractual obligations and/or contractual service margin in accordance with IFRS17.

2.3 Functional & presentation currency

These un-audited interim condensed financial statements are presented in Saudi Arabian Riyals (ﷲ), which is also the functional currency of the Company. Amounts in these financial statements are rounded off to the nearest thousand, except otherwise stated.

2.4 Fiscal year

The Company follows a fiscal year ending on 31st December.

2.5 Seasonality of operations

There are no seasonal changes that may affect the takaful operations of the Company.

2.6 Critical accounting judgments, estimates and assumptions

The preparation of the un-audited interim condensed financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgments made by management in applying its accounting policies and the key sources of estimation uncertainty were the same as those applied to the audited annual financial statements of the Company for the year ended 31st December 2025. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Actual results may differ from these estimates and such changes are reflected in the assumptions when they occur.

Notes to the interim condensed financial statements *(continued)*

For the three & six-month period ended 30th June 2026

2. Basis of preparation *(continued)*

2.6 Critical accounting judgments, estimates and assumptions *(continued)*

Estimates and judgments are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Following are the accounting judgments and estimates that are critical in preparation of these un-audited interim condensed financial statements:

i) PAA eligibility assessment

The Company has applied the Premium Allocation Approach (PAA) only for contracts with a coverage period of 12 months or less. As this policy applies uniformly to all contracts based on their length, assessments to identify material differences between the model outcomes, for contracts where the coverage period was more than one year, have been deemed unnecessary.

The Company assesses materiality at each respective group of contracts level (GoCs) and at an aggregate insurance contract liabilities or retakaful / reinsurance contract assets level using a pre-determined quantitative threshold for differences at the group of contracts (GoCs).

ii) Liability for remaining coverage (LRC)

a) Acquisition cash flows

For insurance acquisition cash flows (for GoCs under PAA), the Company is eligible whether to recognise insurance acquisition cash flows as an expense when it incurs those costs or to include those cash flows within the liability for remaining coverage (and hence amortise those cash flows over the coverage period).

The Company has opted to recognise an asset for insurance acquisition cash flows paid and amortise those cash flows over the coverage period in Liability for remaining coverage (LRC).

b) Significant financing component

The Company has determined that there is no significant financing component in contracts with a coverage period of one year or less (measured under PAA) and hence, the Company does not discount the LRC to reflect the time value of money and financial risk for such insurance and retakaful / reinsurance contracts. The Company has adjusted the carrying amount of the LRC and ARC to reflect the time value of money and the effect of financial risk using the discount rates, for contracts with a coverage period longer than one year.

c) Expected premium receipts adjustment

Insurance revenue will be adjusted with the amounts of expected premium receipts adjustment calculated on premiums not yet collected as of the date of the statement of financial position. The computation is performed using IFRS 17 "Insurance Contracts" probability of default approach to calculate Expected Credit Loss (ECL) allowance. The corresponding impact of this adjustment is recorded in the Liability for remaining coverage (LRC).

The ultimate cost of incurred claims is estimated by using a range of standard actuarial claims projection techniques, such as Chain Ladder and Bornheutter-Ferguson methods. The main assumption underlying these techniques is that a Company's past claims development experience can be used to project future claims development and hence ultimate claims costs. These methods extrapolate the development of paid and incurred losses, average costs per claim (including claims handling costs), and claim numbers based on the observed development of earlier years and expected loss ratios. Historical claims development is mainly analysed by accident years, as well as by significant business lines and claim types.

Notes to the interim condensed financial statements *(continued)*

For the three & six-month period ended 30th June 2026

2. Basis of preparation *(continued)*

2.6 Critical accounting judgments, estimates and assumptions *(continued)*

iii) Liability for incurred claims (LIC)

Large claims are usually separately addressed, either by being reserved at the face value of loss adjusted estimates or separately projected in order to reflect their future development. In most cases, no explicit assumptions are made regarding future rates of claims inflation or loss ratios. Instead, the assumptions used are those implicit in the historical claims development data on which the projections are based.

Additional qualitative judgements are used to assess the extent to which past trends may not apply in future, (e.g., to reflect one-off occurrences, changes in external or market factors such as public attitudes to claiming, economic conditions, levels of claims inflation, judicial decisions and legislation, as well as internal factors such as portfolio mix, policy features & claims handling procedures) to arrive at the best estimate ultimate cost of claims. Estimates of salvage recoveries and subrogation reimbursements are considered as an allowance in the measurement of ultimate claims costs. These are projected using a combination of the chain ladder technique and as a proportion of the corresponding claims.

Other key circumstances affecting the reliability of assumptions include variation in finance rates, delays in settlement and changes in foreign currency exchange rates (if any).

iv) Onerosity determination

For contracts measured under GMM and VFA, a group of contracts is onerous at initial recognition if there is a net outflow of fulfilment cash flows. As a result, a liability for the net outflow is recognized as a loss component within the liability for remaining coverage and a loss is recognized immediately in the statement of income in insurance service expense. The loss component is then amortized to statement of income over the coverage period to offset incurred claims in insurance service expense.

For contracts measured under PAA, the Company assumes that no contracts in the portfolio are onerous at initial recognition unless facts and circumstances indicate otherwise.

The Company also considers facts and circumstances to identify whether a group of contracts are onerous based on the following key inputs:

- Pricing information: Underwriting combined ratios and price adequacy ratios. This input is most relevant for the Medical, Motor and P&C insurance portfolio;
- Historical combined ratio of similar and comparable sets of contracts for Medical, Motor and Property & Casualty (P&C) portfolios in particular;
- Any relevant inputs from underwriters;
- Other external factors such as inflation and change in market claims experience or change in regulations; and
- For subsequent measurement, the Company also relies on the same GoCs' weighted actual emerging experience.

Based on above assessment, certain Group of contracts have been identified as onerous.

v) Expense attribution

The Company identifies expenses which are directly attributable towards acquiring insurance contracts (acquisition costs) and fulfilling/maintaining (other attributable expenses) and other expenses which are not directly attributable to such contracts (non-attributable expenses). Acquisition costs, such as underwriting costs, are no longer recognised in the statement of income (SOI) when incurred and instead spread over the lifetime of the group of contracts based on the passage of time.

Notes to the interim condensed financial statements *(continued)*

For the three & six-month period ended 30th June 2026

2. Basis of preparation *(continued)*

2.6 Critical accounting judgments, estimates and assumptions *(continued)*

v) Expense attribution *(continued)*

Other attributable expenses are allocated to the groups of contracts (GoC) using an allocation mechanism considering the activity-based costing principles. The Company has determined costs directly identified to the groups of contracts, as well as costs where a judgement is applied to determine the share of expenses as applicable to that group.

On the other hand, non-directly attributable expenses and overheads are recognized in the statement of income immediately when incurred. The proportion of directly attributable and non-attributable costs at inception will change the pattern at which expenses are recognized.

vi) Estimates of future cash flows

The Company primarily uses deterministic projections to estimate the present value of future cash flows (PVFCF) and for some groups, it uses stochastic modelling techniques.

A stochastic model is a tool for estimating probability distributions of potential outcomes by allowing for random variation in one or more inputs over time. The random variation is usually based on fluctuations observed in historical data for a selected period using standard time-series techniques.

The following assumptions were used when estimating future cash flows:

- **Mortality and morbidity rates**

Assumptions are based on AM 80 for Individual Life business and reinsurance rates for group life business. An appropriate, but not excessive, allowance is made for expected future improvements. Assumptions are differentiated by policyholder gender. An increase in expected mortality and morbidity rates will increase the expected claim cost which will reduce future expected profits of the Company.

"AM 80" typically refers to the 1980 Commissioners Standard Ordinary (CSO) Mortality Table, which is a standard mortality table used in life insurance for individual life business. It provides a set of mortality rates that reflect the likelihood of death for individuals at various ages.

- **Expenses**

Operating expenses assumptions reflect the projected costs of maintaining and servicing in-force policies and associated overhead expenses. The current level of expenses is taken as an appropriate expense base, adjusted for expected expense inflation if appropriate.

An increase in the expected level of expenses will reduce future expected profits of the Company. The cash flows within the contract boundary include an allocation of fixed and variable overheads directly attributable to fulfilling insurance contracts. (Such overheads are allocated to groups of contracts using methods that are systematic and rational, and are consistently applied to all costs that have similar characteristics).

- **Lapse and surrender rates**

Lapses relate to the termination of policies due to non-payment of premiums. Surrenders relate to the voluntary termination of policies by policyholders. Policy termination assumptions are determined using statistical measures based on the Company's experience and vary by product type, policy duration and sales trends. An increase in lapse rates early in the life of the policy would tend to reduce profits of the Company, but later increases are broadly neutral in effect.

Notes to the interim condensed financial statements (continued)

For the three & six-month period ended 30th June 2026

2. Basis of preparation (continued)

2.6 Critical accounting judgments, estimates and assumptions (continued)

vi) Estimates of future cash flows (continued)

• Lapse and surrender rates (continued)

The assumptions that have the greatest effect on the expected cash flows are listed below. The table sets out the percentage assumed to apply to industry mortality and morbidity tables in estimating fulfilment cash flows:

Portfolio assumptions by type of business impacting net liabilities

	Mortality and morbidity rates		Lapse and surrender rates	
	2026	2025	2026	2025
Life insurance contracts issued				
• Males	100.00%	100.00%	100.00%	100.00%
• Females	100.00%	100.00%	100.00%	100.00%

vii) Discount rates

A bottom-up approach was applied in the determination of the discount rates for different products. Under this approach, the discount rate, in the absence of a KSA-specific yield curve for the region, the *European Insurance and Occupational Pensions Authority* (EIOPA) USD risk-free rates, adjusted with the Country Risk Rate for the Kingdom of Saudi Arabia, are used. This is consistent with the approach taken in the market. The country default spread is calculated using Moody's local currency sovereign rating (or S&P equivalent). This is then adjusted for the additional volatility of the equity market. To achieve this, the country default spread is multiplied by the relative equity market volatility for the Kingdom of Saudi Arabia (calculated by dividing the standard deviation (σ) in country equity market by the standard deviation (σ) in country bond). This is the Country Risk Premium, which is added to the EIOPA risk-free rates.

The additional volatility of the equity market mentioned above is used as a proxy for the illiquidity premium. Therefore, no additional illiquidity premium is explicitly added on top of the country risk premium. The country risk premiums is periodically updated, and the latest published figures are used.

The yield curves that were used to discount the estimates of future cash flows that do not vary based on the returns of the underlying items are as follows:

	Insurance contracts issued		Reinsurance contracts held	
	Life	Non-life	Life	Non-life
1 year	5.04%	5.04%	5.04%	5.04%
5 years	4.93%	4.93%	4.93%	4.93%
10 years	5.07%	5.07%	5.07%	5.07%
20 years	5.34%	5.34%	5.34%	5.34%
30 years	5.23%	5.23%	5.23%	5.23%

* Life includes the individual life portfolio.

viii) Risk adjustment for non-financial risk

Risk adjustment reflects the compensation that is required for bearing the uncertainty about the amount and timing of the cash flows from non-financial risk as the Company fulfils insurance contracts. For reinsurance contracts held, the risk adjustment for non-financial risk represents the amount of risk being transferred by the Company to the reinsurer.

Notes to the interim condensed financial statements *(continued)*

For the three & six-month period ended 30th June 2026

2. Basis of preparation *(continued)*

2.6 Critical accounting judgments, estimates and assumptions *(continued)*

viii) Risk adjustment for non-financial risk *(continued)*

Mack and Bootstrap methods, being stochastic methods were preferred over Solvency II factors where-ever possible. The large volume of data that was available that allowed fitting a lognormal distribution on reserve estimates using paid triangles. Therefore, for all lines except for Life portfolio, Mack method provided reasonable results and was adopted.

For the Life portfolio, the stochastic methods exhibited very high volatility in results due to reasons not associated with the timing and amount of risk of the claims. Therefore, the reserve risk factors from Solvency II (SII) were used.

All the reserve risk factors on the 99.5th percentile were combined and the SII correlation matrix was used to calculate the post-diversification risk adjustment at the entity level. This total risk adjustment was brought down to the selected percentile and allocated back to the individual lines based on the pre-diversification risk adjustment amounts. The Company decided to adopt the 80th percentile risk adjustment figures based on their risk appetite. The risk adjustment percentages will be re-computed at each valuation period based on the updated data and the amount of claim reserves.

The Company disaggregates changes in the risk adjustment for non-financial risk between insurance service results and insurance finance income or expenses (IFIE).

ix) Amortization of the contractual service margin (CSM)

Under the GMM / VFA approach, the CSM is a component of the asset or liability for the group of insurance contracts that represents the unearned profit the Company will recognize as it provides services in the future. The amount of the CSM for a group of insurance contracts is recognized in the statement of income as insurance revenue in each period to reflect the services provided under the group of insurance contracts in that period. The amount is determined by:

- Identifying the coverage units in the group
- Allocating the CSM at the end of the period (before recognizing any amounts in the statement of income to reflect the services provided in the period) equally to each coverage unit provided in the current period and expected to be provided in the future
- Recognizing in the statement of income the amount allocated to coverage units provided in the period.

The number of coverage units in a group is the quantity of coverage provided by the contracts in the group, which the Company determines by considering the quantity of the benefits provided and the expected coverage duration. The total coverage units of each group of insurance contracts are reassessed at the end of each reporting period to adjust for the reduction of remaining coverage for claims paid, expectations of lapses, and cancellation of contracts in the period. The Company then allocates them based on the probability-weighted average duration of each coverage unit provided in the current period and expected to be provided in the future.

x) Impairment losses on financial assets

The measurement of impairment losses under IFRS 9 "Financial Instruments" across relevant financial assets requires judgement, in particular, for the estimation of the amount and timing of future cash flows when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by the outcome of modeled ECL (Expected Credit Loss) scenarios, and the relevant inputs used.

Notes to the interim condensed financial statements *(continued)*

For the three & six-month period ended 30th June 2026

2. Basis of preparation *(continued)*

2.6 Critical accounting judgments, estimates and assumptions *(continued)*

xi) Fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction takes place either:

- in the accessible principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous accessible market for the asset or liability.

The fair value of financial assets is based on quoted prices for marketable securities or estimated fair values. The fair value of commission-bearing items is estimated based on discounted cash flow using commission for items with similar terms and risk characteristics.

For financial assets where there is no active market, fair value is determined by reference to the market value of a similar financial assets or where the fair values cannot be derived from active market, they are determined using a variety of valuation techniques. The inputs of this models are taken from observable market where possible, but where this is not feasible, a degree of judgment is required in establishing fair values.

Determination of fair value and fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: financial instruments with quoted market prices (unadjusted) in active markets for the same or identical instrument that an entity can access at the measurement date;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments (similar assets and liabilities), quoted prices for identical or similar instruments in markets that are considered less than active, or other valuation techniques in which all significant inputs are directly or indirectly observable from market data;
- Level 3: This category includes all instruments for which the valuation technique includes unobservable inputs that have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

xii) Going concern

The Company's management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

xiii) Investment Contracts

The company assesses the individual life policies based on the criteria defined by IFRS 17 "Insurance Contracts" (determined on a present value basis and excluding scenarios that lack commercial substance, at the inception of the contract) and classifies all the policies as investment contract liabilities under IFRS 9 "Financial Instruments" that do not transfer significant insurance risk from the policyholder to the issuer.

Notes to the interim condensed financial statements (continued)

For the three & six-month period ended 30th June 2026

2. Basis of preparation (continued)

2.7 Standards, interpretations and amendments to the accounting and reporting standards which are effective in the current reporting period

The following standards, amendments, and interpretations are effective from the reporting period beginning on or after 1st January 2026. These standards, interpretations, and amendments are either not relevant to the Company's operations or are not expected to have a significant impact on the Company's financial statements.

Standards, amendments and interpretations	Effective from annual period beginning on or after:
---	---

Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures regarding the classification and measurement of financial instruments. The amendments address matters identified during the post-implementation review of the classification and measurement requirements of IFRS 9.	1 st January 2026
Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures regarding purchase power arrangements. The amendments aim to enable entities to include information in their financial statements that, in the IASB's view, more faithfully represents contracts referencing nature-dependent electricity.	1 st January 2026
- Annual improvements to IFRS Accounting Standards - Volume 11 The pronouncement comprises the following amendments: - IFRS 1 First-time Adoption of International Financial Reporting Standards: Hedge accounting by a first-time adopter. - IFRS 7 Financial Instruments - Disclosures: Gain or loss on derecognition. - IFRS 7 Financial Instruments - Disclosures: Disclosure of deferred difference between fair value and transaction price. - IFRS 7 Financial Instruments - Disclosures: Introduction and credit risk disclosures. - IFRS 9 Financial Instruments: Lessee derecognition of lease liabilities. - IFRS 9 Financial Instruments: Transaction price. - IFRS 10 Consolidated Financial Statements: Determination of a "de facto agent". - IAS 7 Statement of Cash Flows: Amended to replace the term "cost method" with the phrase "at cost,"	1 st January 2026

Notes to the interim condensed financial statements (continued)
For the three & six-month period ended 30th June 2026

2. Basis of preparation (continued)

2.8 New accounting standards/amendments and IFRS interpretations that are not yet effective

The following standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's condensed interim financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective. Further, the Company has chosen not to early adopt the amendments and revisions to the International Financial Reporting Standards, which have been published and are mandatory for compliance for the Company with effect from future dates. The Company is currently assessing the impact of below mentioned standards.

Standards, amendments and interpretations	Effective from annual period beginning on or after:
Amendments to IFRS 10 and IAS 28 – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Available for optional adoption / effective date deferred indefinitely
The new standard, IFRS 18 – Presentation and Disclosure in Financial Statements (replacing IAS 1 Presentation of Financial Statements) IFRS 18 includes requirements for all entities applying IFRS for the presentation and disclosure of information in financial statements to help ensure they provide relevant information that faithfully represents an entity's assets, liabilities, equity, income and expenses.	1 st January 2027
IFRS 19 – Subsidiaries without Public Accountability: Disclosures IFRS 19 specifies the disclosure requirements an eligible subsidiary is permitted to apply instead of the disclosure requirements in other IFRS Accounting Standards.	1 st January 2027
Amendments to IFRS 19 Subsidiaries without Public Accountability: Disclosures The amendments cover new or amended IFRS Accounting Standards issued between 28 February 2021 and 1 May 2024 that were not considered when IFRS 19 was first issued.	1 st January 2027
Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates relating to Translation to a Hyperinflationary Presentation Currency The amendments clarify how companies should translate financial statements from a non-hyperinflationary currency into a hyperinflationary one.	1 st January 2027
Amendments to IAS 28 Investments in Associates and Joint Ventures relating to the Fair Value Option for Investments in Associates and Joint Ventures The amendments provide clarity about which entities are eligible to measure investments using the fair value option in IAS 28	1 st January 2027
IFRS 20 Regulatory Assets and Regulatory Liabilities IFRS 20 requires an entity that is subject to a regulatory agreement to provide information about its regulatory assets, regulatory liabilities, regulatory income and regulatory expense.	1 st January 2029
The new standard, IFRS S1 'General requirements for disclosure of sustainability-related financial information	1 st January 2024 subject to endorsement by SOCPA
The new standard, IFRS S2 'Climate-related disclosures	1 st January 2024 subject to endorsement by SOCPA

Notes to the interim condensed financial statements *(continued)*

For the three & six-month period ended 30th June 2026

2. Basis of preparation *(continued)*

2.8 New accounting standards/amendments and IFRS interpretations that are not yet effective

2.8.1 IFRS 18 - Presentation and Disclosure in Financial Statements

(i) Structure of the statement of income

IFRS 18 requires income and expenses to be classified into one of the five categories i.e. operating, investing, financing, zakat and income tax, and discontinued operations. Classification is driven by an entity's main business activities. IFRS 18 also introduces two new required subtotals: "operating profit or loss" and "profit or loss before financing and zakat and income tax".

The Company has preliminarily determined that providing insurance services constitutes its main business activities, and that investing in financial assets to back its insurance contract liabilities and its capital base is integral to that activity. On this basis, the Company expects the following items, most of which are currently presented as part of insurance and investment results in the statement of income, to be classified within the operating category:

- Insurance revenue;
- Insurance service expenses;
- Net income or expenses from reinsurance contracts;
- Commission income from financial assets not measured at FVTPL (Insurance operations);
- Insurance finance income or expense from insurance contracts; and
- Insurance finance income or expense from reinsurance contracts held.

The Company currently expect to classify the following incomes in the investing category:

- Net gains on investments measured at FVTPL;
- Commission income from financial assets not measured at FVTPL (Shareholders' operations);
- Dividend income;

The Company currently expect to classify the following expenses in the financing category:

- Finance expense on lease liabilities; and
- Finance expense on employee benefits obligations.

Management is assessing the classification of other operating expenses and other income between operating, investing and financing categories, in line with the specific requirements applicable to insurers, and expects changes to the current structure of the statement of income.

Based on the assessment performed to date, the Company expects that its currently presented subtotal "Net insurance and investment result" will not correspond directly to the "operating profit" subtotal required by IFRS 18, and that the statement of income will require restructuring to present the newly defined subtotals.

(ii) Management-defined performance measures

MPMs are subtotals of income and expenses used in public communications outside the financial statements (for example, in earnings announcements, investor presentations and the Board of Directors' report) that communicate management's view of an aspect of the Company's financial performance. IFRS 18 requires disclosure of specified information about MPMs in a single note, including a reconciliation to the most directly comparable subtotal specified by International Financial Reporting Standards.

The Company is in process to determine which public communications should be considered when identifying MPMs. As MPMs are determined by reference to public communications relating to the reporting period to which the financial statements relate, the MPMs to be disclosed by the Company will be based on its public communications for the 2027 interim and annual reporting periods.

Notes to the interim condensed financial statements *(continued)*

For the three & six-month period ended 30th June 2026

2. Basis of preparation *(continued)*

2.8 New accounting standards/amendments and IFRS interpretations that are not yet effective

2.8.1 IFRS 18 - Presentation and Disclosure in Financial Statements

(iii) Principles of aggregation and disaggregation

IFRS 18 provides enhanced guidance on grouping items with similar characteristics and disaggregating items with dissimilar characteristics in the primary financial statements and the notes, together with guidance on labelling. The Company's existing disclosures already present insurance revenue, insurance service expenses, net expenses from reinsurance contracts, Insurance contract liabilities and Reinsurance contract assets / liabilities by portfolio (Motor, Property & Casualty, and Term life) and by operating segment. The Company is currently assessing whether additional disaggregation may be required for other assets, other liabilities, and other income and expenses.

(iv) Consequential amendments

IFRS 18 introduces consequential amendments to other IFRS, including IAS 7 Statement of Cash Flows, IAS 33 Earnings per Share and IAS 34 Interim Financial Reporting. The amendment in IAS 7 "Statement of Cash Flows" require the newly defined operating profit subtotal, rather than profit before zakat and income tax for the period, to be used as the starting point for the reconciliation of cash flows from operating activities under the indirect method. The Company currently uses net income / (loss) for the period before zakat and income tax as its starting point. The composition of adjusting items in the reconciliation to cash flows from operating activities is expected to change as a result of the new starting point.

The amendments also specify the classification of interest and dividend cash flows. The Company is assessing the classification of cash flows relating to commission and dividends received, which are currently included within cash flows from investing activities, as per the requirements of the amended IAS 7.

(v) Other considerations

The Company's maintenance of separate books of accounts for Insurance Operations and Shareholders' Operations, as required by the Insurance Implementing Regulations, and the resulting amalgamation for the purpose of these condensed interim financial statements, is not expected to be affected by the adoption of IFRS 18.

The Company will continue to monitor developments, including any guidance issued by SOCPA, the IASB and the Insurance Authority (IA), and will update its assessment and these disclosures in subsequent interim and annual financial statements as the assessment is finalized.

3. Material accounting policy information

The accounting policies adopted in the preparation of this un-audited interim condensed financial information, and risk management policies are consistent with those applied to the audited annual financial statements of the Company for the year ended 31st December 2025.

3.1 Policyholder surplus accounting

The Company has adopted its accounting policy regarding the reversal of policyholder unclaimed surplus. Effective from the period ended 30th June 2026, the Company writes back surplus to "insurance services expense" in the statement of income (SOI) that remains unclaimed for more than 5 years. The total reversal of surplus to SOI is ﷲ 28.516 million.

The reversal of ﷲ 28.516 million does not have any effect on the Company's cash flows.

Al Rajhi Company for Cooperative Insurance

(A Saudi Joint Stock Company)

Notes to the interim condensed financial statements (continued) For the three & six-month period ended 30th June 2026

4. Cash and bank balances

Cash and bank balances comprise the following:

		30 th June 2026	31 st December 2025
		Un-Audited	Audited
	Note	Saudi Riyal (ﷲ) in 000	
Cash and bank balances	4.1	539,586	552,564
Cash balance with Al Rajhi Capital		-	-
Cash and bank balances - total cash and cash equivalents in the statement of cash flows		539,586	552,564
Deposits against letters of guarantee	14	32,254	29,588
Cash and bank balances		571,840	582,152

4.1 Bank balances and short-term deposits are placed with counterparties with sound credit ratings of A+ to BB under Standard and Poor's/Fitch and A1 to Ba2 under Moody's rating methodology.

4.2 The deposits are held with banks and financial institutions registered with the Capital Market Authority in the Kingdom of Saudi Arabia (KSA). These deposits are predominately in murabaha structures and denominated in Saudi riyals and have an original maturity of less than three months.

5. Investments

Investments are classified as follows:

		30 th June 2026	31 st December 2025
		Un-Audited	Audited
		Saudi Riyal (ﷲ) in 000	
- Mutual funds		933,059	777,092

Depreciation	(4,013)	(7,068)
Write-offs	-	(764)
Closing balance	39,603	29,653

9. Zakat

	30 th June 2026	31 st December 2025
	Un-Audited	Audited
	Saudi Riyal (ﷲ) in 000	
Opening balance	27,429	34,502
Provided during the period	6,427	13,885
Payments during the period	(9,207)	(20,958)
Closing balance	24,649	27,429

Status of assessments

The Company had filed zakat returns with the Zakat, Tax and Customs Authority ("ZATCA") for the years up to 2025. ZATCA has concluded its assessment for the years till FY2020, and additional liability has been settled by the Company.

The Company have received revised draft assessments from ZATCA for the years 2021 and 2022, under which the authority has computed additional zakat liabilities amounting to ﷲ 8.85 million; the Company has established adequate provisions to cover these potential liabilities. As at the reporting date, no final assessment has been issued by ZATCA for these years.

The fiscal years 2023 to 2025 remain under review by ZATCA, and no assessments have been issued by the Authority as of the reporting date.

Notes to the interim condensed financial statements (continued)
For the three & six-month period ended 30th June 2026

10. Share Capital

The authorised, issued and paid-up capital of the Company is ﷲ 2 billion as at 30th June 2026 (31st December 2025: ﷲ 1 billion), consisting of 200 million shares (31st December 2025: 100 million shares) of ﷲ 10 each. The shareholders of the Company are subject to zakat. The shareholding structure of the Company is as below.

		30 th June 2026	
		Un-Audited	
		Authorised and issued	Paid-up
	Number of Shares	Saudi Riyal (ﷲ) in 000	
Al Rajhi Banking and Investment Corporation	70,000,000	700,000	700,000
Others	130,000,000	1,300,000	1,300,000
	200,000,000	2,000,000	2,000,000
		31 st December 2025	
		Audited	
		Authorised and issued	Paid-up
	Number of Shares	Saudi Riyal (ﷲ) in 000	
Al Rajhi Banking and Investment Corporation	35,000,000	350,000	350,000
Others	65,000,000	650,000	650,000
	100,000,000	1,000,000	1,000,000

During the period ended 30th June 2026, there has been an increase in the share capital of the Company by way of issuance of bonus shares. The increase in share capital was funded from the retained earnings account by transferring an amount of ﷲ 1 billion which resulted in an increase in authorised, issued and paid-up share capital to ﷲ 2 billion from ﷲ 1 billion. The number of issued shares has increased from 100 million shares to 200 million shares. The Company received all required approvals from the authorities, and the shareholders approved this capital increase, as well as the related changes in the By-laws, in the Extraordinary General Assembly meeting held on the 2nd June 2026. The new bonus shares capital was issued through Tadawul on 21st June 2026. However, the Company is in the process of updating the By-laws and commercial registration.

11. Statutory reserve

The Company carries out a transfer of 20% of the shareholders' income on an annual basis at 31st December until the statutory reserve amounts to 100% of the paid-up share capital. As at 30th June 2026, ﷲ 440.48 million (31st December 2025: ﷲ 440.48 million) had been set aside as a statutory reserve, equal to 22.02% (31st December 2025: 44.05%) of the paid-up share capital.

12. Treasury Shares

The Company bought back 300,000 shares for the purpose of granting long-term stock options to senior management in 2025. The amount paid to buy back the shares was ﷲ 35.7 million. The amount paid is recorded in the statement of changes in equity as a reserve under treasury shares of ﷲ 35.7 million.

13. Employee Stock Option Scheme Reserve

The Company has approved granting its own shares to certain eligible employees on 19th August 2025.

Shares were granted based on fair value of its shares to certain group of executives with vesting period of 3 years for the performance year 2023 and onwards.

Figures presented are in thousands.

	Total Amount	Vested Amount	Granted Shares	Vested Shares
Total	ﷲ 13,625.93	ﷲ 6,588.52	117,063	101,833

Al Rajhi Company for Cooperative Insurance

(A Saudi Joint Stock Company)

Notes to the interim condensed financial statements (continued)

For the three & six-month period ended 30th June 2026

14. Commitments and contingencies

14.1 The Company's commitments and contingencies are as follows:

	30 th June 2026	31 st December 2025
	Un-Audited	Audited
	Saudi Riyal (ﷲ) in 000	
Letters of guarantee	32,254	29,588

14.2 The Company enters into takaful contracts and is subject to legal proceedings in the normal course of business. While it is not practicable to forecast or determine the final results of all the pending and threatened legal proceedings, management does not believe that any such proceedings (including litigation) that are in progress at reporting date will have a material effect on its results and financial position.

15. Expense allocation

	Six-month Period Ended	
	30 th June 2026	30 th June 2025
	Un-Audited	Un-Audited
	Saudi Riyal (ﷲ) in 000	
Policy acquisition cost	323,664	253,356
Directly attributable non-acquisition expenses	187,597	148,434
Non-attributable expenses	100,997	74,727
Total Expenses	612,258	476,517

Pursuant to the Company's policy and takaful model, all administrative and operating expenses are borne by the Shareholders' operations. In compliance with the Islamic Shariah principles governing the management of cooperative insurance operations, the Company estimates and load the management fee while calculating the gross premium. The actual amount of management fee is adjusted on annual basis based on the actual spending.

Following the distribution of 10% of the net insurance surplus to the policyholders, in accordance with the applicable Insurance Law and the executive regulations issued by the Insurance Authority, the Company shall be entitled to deduct its rightful management fees from the remaining balance of the surplus.

16. Fees & Other income

Fee & other income for the period includes the policy administration fees related to individual life business.

17. Earnings per share

Earnings per share for the period ended 30th June 2026 ﷲ 1.04 per share (30th June 2025 ﷲ 1.01 per share) are calculated by dividing the net income for the period attributable to the equity holders by the weighted-average number of ordinary shares (200 million shares). There were no material dilutive potential shares in issue as at reporting period.

	Six-month Period Ended	
	30 th June 2026	30 th June 2025
	Un-Audited	Un-Audited
Net income attributable to the shareholders after zakat (ﷲ in thousand)	207,837	202,365
Weighted-average number of ordinary shares - Restated	200,000,000	200,000,000
Basic and diluted earning per share (ﷲ) - Restated	1.04	1.01

18. Subsequent events

There are no subsequent events which have occurred subsequent to the reporting date and before the issuance of this un-audited interim condensed financial statements which requires adjustments or additional disclosures to this un-audited interim condensed financial statements.

Notes to the interim condensed financial statements (continued)
For the three & six-month period ended 30th June 2026

19. Fair values of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction takes place either:

- in the accessible principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous accessible market for the asset or liability

Determination of fair value and fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: financial instruments with quoted market prices (unadjusted) in active markets for the same or identical instrument that an entity can access at the measurement date;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments (similar assets and liabilities), quoted prices for identical or similar instruments in markets that are considered less than active, or other valuation techniques in which all significant inputs are directly or indirectly observable from market data;
- Level 3: This category includes all instruments for which the valuation technique includes unobservable inputs that have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Carrying amounts and fair value

The following table shows the carrying amount and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value.

	30 th June 2026			
	Un-Audited			
Carrying value	Fair value			Total
	Level 1	Level 2	Level 3	
Saudi Riyal (ﷲ) in 000				
Financial assets measured at fair value				
Investments measured at FVTPL	2,249,052	98,133	1,334,063	816,856
Investments measured at FVOCI	306,285	233,563	-	72,722
Investment for unit linked contracts	8,027,421	-	8,027,421	-
	10,582,758	331,696	9,361,484	889,578
Financial assets not measured at fair value				
Cash and bank balance	571,840	571,840	-	-
Investments held at amortised cost	1,609,855	-	1,639,853	-
Statutory deposit	199,988	-	199,988	-
	2,381,683	571,840	1,839,841	-

The fair values of statutory deposits, accrued investment income on statutory deposit, term deposits, bank balances and other financial assets in the statement of financial position which are carried at amortised cost, are not significantly different from the carrying values due to the short term nature of balances or they are repayable on demand.

Notes to the interim condensed financial statements (continued)
For the three & six-month period ended 30th June 2026

19. Fair values of financial instruments (continue)

	31 st December 2025				
	Audited				
Carrying value	Fair value			Total

	2,705,763	582,152	2,163,351	-	2,745,503

Level 3 fair values

The following table shows a reconciliation from the opening balances to the closing balances and impact on fair value due to 10% change in price for Level 3 fair values:

Financial assets at FVTPL – Unquoted securities

	30 th June 2026	31 st December 2025
	Un-Audited	Audited
	Saudi Riyal (ﷲ) in 000	
Closing Balance	933,059	777,092

+/- 10% change in price will increase or decrease value by ﷲ 93.31 million.

Financial assets at FVOCI – Unquoted securities

Opening Balance	72,869	61,124
Gain included in OCI	(147)	11,745
Closing Balance	72,722	72,869

+/- 10% change in price will increase or decrease value by ﷲ 7.3 million.

Valuation technique and significant unobservable inputs

The following table shows the valuation techniques used in measuring Level 3 fair value at 30th June 2026 and 31st December 2025, as well as the significant unobservable inputs used. The fair value used for valuation of Level 2 Sukus are based on prices quoted on reliable and third-party sources.

Type	Valuation technique	Unobservable inputs	Relationship of unobservable inputs to FV
Mutual funds	Mutual funds classified as Level 3 are FV based on the latest available NAV communicated by the fund manager.	FV of underlying assets.	The estimated fair value will increase / decrease directly in line with the change in fair value of underlying assets.
Private equity	Valuation technique (i.e., DCF and market multiple, etc.)	- Annual growth rate - Terminal Growth rate - WACC 17.0% - EV/EBITDA: 6	Annual growth rate is directly proportional. Discount rate is inversely proportional.

Notes to the interim condensed financial statements (continued)
For the three & six-month period ended 30th June 2026

20. Operating segments

Operating segments are identified based on internal reports about components of the Company that are regularly reviewed by the Company's chief executive officer (CEO) in their function as chief operating decision maker to allocate resources to the segments and to assess its performance.

Transactions between the operating segments are on normal commercial terms and conditions. The revenue from external parties reported to the chief executive officer is measured in a manner consistent with that in the income statement. Segment assets and liabilities comprise operating assets and liabilities.

Segment assets do not include takaful operations' bank balances and cash, net contributions receivable, investments etc., accordingly, they are included in unallocated assets. Segment liabilities do not include takaful operations' payables accruals and other liabilities and re-takaful / re-insurance balances payable etc., accordingly, they are included in unallocated liabilities. These unallocated assets and liabilities are not reported to chief operating decision maker under related segments and are monitored on a centralized basis.

The segment information provided to the Company's chief executive officer for the reportable segments for the Company's total assets and liabilities as of 30th June 2026 and 31st December 2025, its total revenues, expenses, and net income for the period then ended, are as follows:

Total liabilities, accumulated surplus and equity		1,823,633	705,165	599,224	8,232,877	2,823,093

Other unallocated assets include cash and cash equivalents, prepayments and other assets, statutory deposit, accrued income on statutory deposit, right-of-use assets, intangible assets, property and equipment, and all investments except unit-linked.

Other unallocated liabilities include payables, accruals and other liabilities, provision for employees' end-of-service benefits, provision for zakat, payables to the Insurance Authority, and lease liabilities.

Where portfolios of insurance contracts are set such that they fall across multiple operating segments, the Company considered the best judgements to present information that meets the disclosure objective and is useful.

Unallocated assets and liabilities belong to policyholders and shareholders.

Shariah committee remuneration	-	500

Notes to the interim condensed financial statements
For the three & six-month period ended 30th June 2026

22. Capital management

The Company has established the following capital management objectives, policies and approach to managing the risks that affect its capital position:

- To maintain the required level of stability of the Company, thereby providing a degree of security to policyholders.
- To allocate capital efficiently and support the development of business by ensuring that returns on capital employed meet the requirements of its capital providers and shareholders.
- To retain financial flexibility by maintaining strong liquidity and access to a range of capital markets.
- To align the profile of assets and liabilities, taking account of risks inherent in the business.
- To maintain financial strength to support new business growth and to satisfy the requirements of the policyholders, regulators and stakeholders.
- To maintain strong credit ratings and healthy capital ratios in order to support its business objectives and maximise shareholders' value.

The Company manages its capital requirements by regularly assessing shortfalls between reported and required capital levels. Adjustments to current capital levels are made in light of changes in market conditions and risk characteristics of the Company's activities. To maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue new shares.

The Company manages its capital to ensure that it can continue as a going concern and comply with the regulators' capital requirements of the markets in which the Company operates while maximizing the return to stakeholders through the optimization of the debt and equity balance. The capital structure of the Company consists of equity attributable to equity holders comprising paid share capital, reserves, and retained earnings.

As per guidelines laid out by the Insurance Authority (IA) in Article 66 table 3 & 4 of the Insurance Implementing Regulations detailing the solvency margin required to be maintained, the Company shall maintain a solvency margin equivalent to the highest of the following three methods as per Insurance Implementing Regulations:

- Minimum Capital Requirement of ﷲ 200 million.
- Premium Solvency Margin.
- Claims Solvency Margin.

The capital structure of the Company as of 30th June 2026 consists of paid-up share capital of ﷲ 2 billion, statutory reserves of ﷲ 440.48 million and retained earnings of ﷲ 230.98 million (31st December 2025: paid-up share capital of ﷲ 1 billion, statutory reserves of ﷲ 440.48 million and retained earnings of ﷲ 1.02 billion) in the statement of financial position (SOFI).

In the opinion of the Board of Directors (BOD), the Company has fully complied with the externally imposed capital requirements during the reported financial period.

23. Approval of the un-audited interim condensed financial statements

These un-audited interim condensed financial statements for the three & six-month period ended 30th June 2026 were approved and authorized for issue by the Board of Directors (BOD) of the Company, on 19th Safar 1448 Hijri, corresponding 3rd August 2026 Gregorian (Monday).
