## **INDEPENDENT AUDITOR'S REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION**

**To the Shareholders  
Saudi Cable Company  
(A Saudi Joint Stock Company)  
Jeddah, Kingdom of Saudi Arabia**

### **Introduction**

We have reviewed the condensed consolidated interim statement of financial position of Saudi Cable Company ("the Company") and its subsidiaries (together "the Group's") as of June 30, 2023, and the related condensed consolidated interim statements of profit or loss and the other comprehensive income for the three and six-month periods then ended, and changes in equity, and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes.

The Group's management is responsible for the preparation and presentation of this condensed consolidated Interim financial information in accordance with International Accounting Standard (34) "Interim Financial Reporting" (IAS 34) that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

### **Scope of Review**

We conducted our review in accordance with the international standard on review engagements 2410, "Review of Interim Financial Information Performed by the Independents Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries primarily to persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information are not prepared, in all material respects, in accordance with IAS (34), that is endorsed in the Kingdom of Saudi Arabia.

### **Material Uncertainty Related to Going Concern**

We draw attention to note 2 of the condensed consolidated financial statements which indicates that the Group accumulated losses have reached SAR 508 million, representing 762% of the share capital as of June 30, 2023 (as of December 31, 2022: SAR 543.3 million, representing 814%). Further, the Group current liabilities exceeded its current assets by SAR 1,016 million as of June 30, 2023 (as of December 31, 2022: SAR 974.5 million). Furthermore, on May 11, 2022, The Saudi Stock Exchange "Tadawul" announced to continue suspending the trading of Saudi Cable Company share in the market as per the rules on the offer of Securities until the Company announces that the matters included in the independent auditor's report on the consolidated financial statements for the year ended December 31, 2021, are remediated. These conditions, along with other matters, cast a significant doubt about the Group's ability to continue as a going concern and its ability to meet its obligations when it becomes due.

**INDEPENDENT AUDITOR'S REPORT ON REVIEW OF  
 CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (CONTINUED)**

**To the Shareholders  
 Saudi Cable Company  
 (A Saudi Joint Stock Company)  
 Jeddah, Kingdom of Saudi Arabia**

**Material Uncertainty Related to Going Concern (continued)**

In this respect the management has prepared five years forecast which exhibits net profit from year 2025, the plan includes certain assumptions in respect of cash injection via rights issue, revenue growth based on pipeline orders and quotations, creditors voting due in March 2024 to convert part of debt to equity in the process of Financial Restructuring Procedure (FRP). These elements are future events and hence contain material uncertainty as to the outcome. Our conclusion is not modified in respect of this matter.

**Emphasis of Matter**

We draw your attention to note 19 (b) to the condensed consolidated financial statements where it shows that the Group has a court in Turkey issued a verdict in favor of Mass Kablo Yatırım ve Tic. A.Ş for a case filed by the minority shareholders of its subsidiary. An appeal against the verdict has been presented by said minority shareholders. However, based on a legal opinion obtained from an independent counsel which is of view that the decision of Court of Appeal will not be different from the original decision issued by court of first instance. In addition, the Group assessed and recorded a contingent liability amounting to SAR 52.5 million. Further the group has taken full provision on net assets of Mass Kablo Yatırım ve Tic. A.Ş. Our conclusion is not modified in respect of this matter.

**2. BASIS OF PREPARATION**

**Statement of compliance**

These interim condensed consolidated financial statements as at and for the three-month period ended June 30, 2023, have been prepared in accordance with IAS 34 – “Interim Financial Reporting”, as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by the Saudi Organization for Chartered and Professional Accountants (“SOCPA”).

These interim condensed consolidated financial statements do not include all of the information required for full annual consolidated financial statements and should be read in conjunction with the Group’s annual consolidated financial statements for the year ended December 31, 2022.

**Basis of measurement**

These interim condensed consolidated financial statements have been prepared under the historical cost basis using the accrual basis of accounting and the going concern concept except for the measurement at fair value of derivative financial instruments and Investment classified as fair value through other comprehensive income (FVOCI).

**Preparation of interim condensed consolidated financial statements**

The preparation of interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. The significant judgments, estimates and assumptions were consistent with the Group’s annual consolidated financial statements for the year ended December 31, 2022.

**Functional and presentation currency**

These interim condensed consolidated financial statements are presented in Saudi Arabian Riyals (“SAR”) which is the Group’s functional and presentation currency.

**Summary of significant accounting policies**

The accounting policies adopted by the Group for the preparation of this interim condensed consolidated financial statements are consistent with those followed in preparation of the Group’s annual consolidated financial statement for the year ended December 31, 2022.

**Significant accounting judgements, estimates and assumptions**

The preparation of the Group’s interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and accompanying disclosures.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period, were disclosed in annual consolidated financial statements for the year ended December 31, 2022.

**Impact of COVID-19**

On March 11, 2020, the World Health Organization has declared the COVID-19 coronavirus outbreak to be a pandemic. Actions taken in response to the spread of COVID-19 have resulted in significant disruption in product demand, reduction in prices and a significant increase in economic uncertainty. Consequently, asset prices have become more volatile and a marked decline in long-term interest rates in developed economies is ostensible.

These circumstances have impacted on the business activities of the Group by contributing to reduction in sales, net income, EBIT, free cash flow and other financial metrics. However, in response to the COVID-19, which has caused global economic disruption, the Group has implemented active prevention programs at its sites and contingency plans in order to minimize the risks related to COVID-19 and to continue business operations ensuring the health and safety of its employees, customers, contractors and wider community.

Management has taken measures to optimize spending, which resulted in reducing operational and capital expenditures during the period. Additionally, the management has considered the potential impacts of the current economic uncertainties and volatility in determining the carrying amounts of the Group's financial and non-financial assets. These are based on management's best estimates taking into account observable information on the period's end date.

Although international markets have recovered during the past few months, there is still some volatility in prices and demand. The management of the Group continues to monitor long-term supplier contracts in order to ensure minimal disruption in operations and timely delivery of its products.

Notwithstanding these challenges, the management continues to closely monitor any material developments across the markets in which it operates and sells its products and has a strategy in place to mitigate any potential adverse impacts.

**Going Concern**

The Group incurred a net gain of SAR 34.6 million for the six-month period ended June 30, 2023, and as of that date, the Group's accumulated losses have reached SAR 508 million, representing 762% of the share capital as of June 30, 2023 (as of December 31, 2022: SAR 543.3 million, representing 814.2%). Further, the Group current liabilities exceeded its current assets by SAR 1,016 million as of June 30, 2023 (as of December 31, 2022: SAR 974.5 million). Furthermore, on May 11, 2022, The Saudi Stock Exchange "Tadawul" announced to continue suspending the trading of Saudi Cable Company share in the market as per the rules on the offer of Securities until the Company announces that the matters included in the independent auditor's report on the consolidated financial statements for the year ended December 31, 2021, are remediated. These events or conditions, along with other matters, indicate that material uncertainty exists and that may cast significant doubt on the Group's ability to continue as a going concern.

The Group's management has prepared an assessment of going concern. The assessment assumes the possibilities of cash injection via rights issue, revenue growth based on pipeline orders and quotations, creditors voting due in March 2024 to convert part of debt to equity in the process of Financial Restructuring Procedure (FRP). Consequently, the management has concluded that the going concern assumption is valid and has accordingly prepared these interim condensed consolidated financial statements on a going concern basis.

**3. BASIS OF CONSOLIDATION**

These interim condensed consolidated financial statements comprising the financial statements of the Company and its subsidiaries as set out in note 1. The financial statements of the subsidiaries are prepared for the same reporting period as that of the parent Company.

**Subsidiaries**

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. To meet the definition of control, all the following three criteria must be met:

- i) The Group has power over an entity;
- ii) The Group has exposure, or rights, to variable returns from its involvement with the entity; and
- iii) The Group has the ability to use its power over the entity to affect the amount of the entity's returns.

---

The Group re-assesses whether or not it controls an investee in case facts and circumstances indicate that there are changes to one or more of the criteria of control.

Subsidiaries are consolidated from the date on which control commences until the date on which control ceases. The results of subsidiaries acquired or disposed of during the period, if any, are included in the interim condensed consolidated statement of profit or loss and other comprehensive income from the date of the acquisition or up to the date of disposal, as appropriate.

**Non-controlling interests**

Non-controlling interests represent the portion of net profit (loss) and net assets of subsidiaries not owned, directly or indirectly, by the Group in its subsidiaries and are presented separately in the interim condensed consolidated statement of profit or loss and other comprehensive income and within equity in the interim condensed consolidated statement of financial position, separately from the Group's equity. Any losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

**Transactions eliminated on consolidation**

Balances between the Group entities, and any unrealized income and expenses arising from intragroup transactions, are eliminated in preparing the interim condensed consolidated financial statements. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

**Investment in an associates and jointly controlled entities**

The Group's interest in equity-accounted investee comprises interest in a joint venture and investments in associates.

Associates are entities over which the Group exercises significant influence. Investments in associates are initially recognized at cost and subsequently accounted for under the equity method of accounting and are carried in the interim condensed consolidated statement of financial position at the lower of the equity-accounted value or the recoverable amount.

A joint venture is an arrangement in which the Group has joint control whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Equity-accounted value represents the cost plus post-acquisition changes in the Group's share of net assets of the associate (share of the results, reserves and accumulated gains / (losses) based on the latest available financial information) less impairment, if any.

After application of the equity method, the Group determines whether it is necessary to recognize an additional impairment loss on its investment in its associates. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount in 'share in net profit / (loss) of an associate' in the interim condensed consolidated statement of profit or loss and other comprehensive income.

The previously recognized impairment loss in respect of investment in associate can be reversed through the interim condensed consolidated statement of profit or loss and other comprehensive income, such that the carrying amount of the investment in the interim condensed consolidated statement of financial position remains at the lower of the equity-accounted (before allowance for impairment) or the recoverable amount.

Unrealized gains and losses on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates.

- a) The Group entered into a syndicated loan in February 2016, combining its borrowings from four commercial banks under a "Restructuring Framework Agreement". Through a final settlement agreement signed in December 2018, two of the three local commercial banks were settled, leaving Al Rajhi Bank ("ARB") as the sole remaining lender to the syndicate. During the current year, the Company and ARB entered into a Murabaha Facilities Agreement to restructure the balance outstanding under the syndicated loan. The terms of the loan require the Company to repay the amount outstanding in two tranches. Tranche A is interest free and is repayable in two years through equal quarterly installments with nine months as grace period, while tranche B carry three months SIBOR plus 3% and is repayable in equal quarterly installments over nine years, extendable by another year, with two years as being grace period. The loan is secured against signed promissory notes.

Management assessed the above restructuring of the loan qualitatively and quantitatively in accordance with IFRS 9 "Financial Instruments" and, as a result, concluded that restructuring of the previous agreement has resulted in derecognition of the old loan and recognition of a new loan. Accordingly, the Group recorded the new loan at its fair value at the effective date, which has resulted in gain of SAR 14 million.

As of June 30, 2023, the Group is in default due to the non-repayment of the loan. Consequently, remaining outstanding balance is classified as current liability as per the agreement. The Group is in the process of restructuring the loan with ARB.

- b) The loan from the Saudi Industrial Development Fund ("SIDF"), was restructured in December 2019. The loan is repayable in 5 unequal installments over the period of 3 years starting December 2020 and carry a fee charged biannually. This loan is secured by certain plant building and machinery. As of June 30, 2023, the Group was in default due to the non-repayment of the loan installments on time. Consequently, remaining outstanding balance is classified as current liability as per the agreement.
- c) These are outstanding balances to lenders outside the Kingdom of Saudi Arabia who extended facilities to subsidiaries of the Group. These borrowings are mainly denominated in US dollars. These loans are guaranteed by industrial factory land and carry interest rates between 5% to 8% per annum for US dollar denominated or equivalent loans, and an average 10% per annum for facilities in Turkish Lira.

- d) In earlier years, the Group through an agreement had credit facility with Noble Resources International Pte Ltd ("Noble"), to purchase raw material at a deferred payment. The Group was required to pay cost of financing in the event payment was not made within a stipulated time. On July 29, 2020, the facility was restructured where revised terms required the Group to repay the outstanding balance of SAR 180.8 million as of the effective date in monthly installments till October 2022. The facility was unsecured throughout and presently carries a fixed finance cost of 7.75% per year. Management assessed the above restructuring of the facility, qualitatively and quantitatively, in accordance with IFRS 9 and, as a result, concluded that restructuring has resulted in a new financing. Accordingly, the Group derecognized the earlier facility and recorded a new financing at its fair value at the effective date, resulting in a gain of SAR 5.4 million.
- e) SAMA has instructed banks Al-Rajhi to settle SAR 377.95 million on basis of court instruction with regards to won legal cases of employees and suppliers' etcetera, because of nonavailability of funds in the aforesaid bank account the bank has confirmed this amount as part of outstanding balance and accordingly will settle the amounts once collections are received.
- f) Short-term loans are due within twelve months where local bank loans consist of letter of credit discounting advances that are to be cleared with customer balances upon expiration of credit period.

**23. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

---

If the inputs used to measure the fair value of an asset or liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest input level that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

The carrying amount of the financial assets and liabilities carried at their amortised cost approximate their fair values. The fair value of the investment properties is assessed by unobservable inputs and, accordingly, are level 3.

Derivative financial instruments are carried at their fair values and are assessed using unobservable inputs and are level 3.

There is no reclassification, in or out, from level 3.

**24. SUBSEQUENT EVENTS**

The Group applied to open a Financial Restructuring Procedure (FRP) under the Saudi Bankruptcy Law 2016 with a view to enabling the implementation of restructuring and consequently procedure was opened on 7 June 2023 and Mr. Walid bin Muhammad Subhi has been appointed as Officeholder.

The Group signed a number of investment contracts amounting total of approximately 533 million Saudi riyals, which will be included in the proposal to conduct Financial Restructuring Procedure. Accordingly, these obligations will be converted into ownership shares, which will lead the Group to reduce the obligations by 393 million Saudi riyals and will provide the Group with liquidity worth 140 million Saudi Riyals.

Some unproductive operational sites that occupied large areas, did not serve the Group's main products, and had no role in the Group's five-year plan were eliminated. This is for the purpose of reducing financial burdens and providing liquidity to support working capital. As well as closure of some offices and branches in Dubai, Riyadh, Al Khobar, and others.

The Group concluded new sales order/contracts with KAC Company to supply the Group's products for construction projects related to the Saudi Electricity Company, worth 77 million Saudi riyals. In addition to a number of other local and Gulf projects worth approximately 25 million Saudi riyals.

During November 2023 "Rawafed Al-Mustabal Investment Company" one of the potential investors has executed following two out of three parts of the investment deal:

- a) The signing of a tripartite agreement with Noble Resources International Pte. Ltd. and Rawafid Al-Mustaqbal Investment Company where the debt of Noble Resources International Pte. Ltd. will be transferred to Rawafid Al-Mustaqbal Investment Company.
- b) Placing the purchase orders on behalf of Saudi cables for procurement of materials required for future production amounting to SAR 110 million.
