**The Shareholders
Methanol Chemicals Company
(A Saudi Joint Stock Company)
Al-Jubail, Kingdom of Saudi Arabia**

Scope of review:

We have reviewed the accompanying interim balance sheet of Methanol Chemicals Company ("the Company") as at 30 June 2013, the related interim statement of income, the interim statement of cash flows for the six months period ended on 30 June 2013 and the attached condensed notes 1 to 4 which form an integral part of these interim condensed financial statements. These interim condensed financial statements are the responsibility of the Company's management and have been prepared by them and submitted to us together with all the information and explanations which we required. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

We conducted our review in accordance with the auditing Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). A review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express such an opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with accounting standards generally accepted in the Kingdom of Saudi Arabia.

2. SIGNIFICANT ACCOUNTING POLICIES (continued):

Inventories:

Inventories are stated at the lower of cost and market value. Cost is determined as follows:

| | |
|---|---|
| Raw materials, spare parts and supplies | - Purchase cost on a weighted average basis. |
| Finished goods attributable | - Cost of direct materials and labour plus overheads based on a normal level of activity. |

Deferred charges, long term prepaid expenses/amortisation:

Costs relating to software licence fees and implementation thereof are treated as deferred charges and amortised over the estimated period of benefit.

Saudi Industrial Development Fund ("SIDF") loan appraisal fees are treated as long term prepaid expenses and amortised over the period of the loan. Amortisation is capitalized up to the date the plant is ready for its intended use.

Property, plant and equipment/depreciation:

All property, plant and equipment are initially recorded at cost. Cost is depreciated on a straight-line basis over the estimated useful lives of the assets. Leasehold improvements are amortized on a straight-line basis over the shorter of the useful life of the assets or the term of the lease.

Capital work in progress is recognised at the cost of materials and services needed to fabricate the plant and equipment, plus salaries and other costs that can be specifically identified as necessary costs to have the plant and equipment ready for its intended use and other overheads allocated on a systematic basis. Upon completion of the capital work in progress, the commercial operation is declared and the asset is then transferred to the respective class of property, plant and equipment.

Expenditure for repair and maintenance are charged to the statement of income. Improvements that increase the value or materially extend the life of the related assets are capitalized.

Impairment of assets

Financial assets, property, plant and equipment and other non-current assets are reviewed at each reporting date to determine whether there is any indication of impairment. An impairment loss, if any, is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.
